

Apex *i* Portable Receipt Printer

Made for
iPod iPhone iPad

Apex *i*

Light weight and Economical ■ ■ ■

features at a glance ■ ■ ■

- **Flexibility** - In addition to supporting traditional hand held terminals, Apex *i* printers are iOS 5.0 & 6.0 compatible and ready to go for today's BYOD (Bring Your Own Device) work environment that include iPhones, iPads and iPods.
- **Lightweight and small** - The Apex printers are light enough to wear all day, everyday and small enough that they don't hinder movement.
- **Fast** - All features on the Apex printers are supported by a powerful Arm-7, 32-bit architecture RISC processor, making them as fast as printers costing almost twice as much.
- **User Controlled Memory** - All resident fonts and firmware are integrated into flash memory and are directly under your control.
- **Easy to Use** - Simplified LED lights indicate communication, charging and power status. Plus, easy drop-in paper loading and an external DC jack for easy charging.
- **More for you Money** - All Apex printers ship with a battery, power supply, belt clip or shoulder strap and sample media. They are also all equipped with a wireless option and RS232 or USB communications.
- **Options** - 3 Track Magnetic Card Reader.
- **Compatibility** - MS DOS, Windows, iOS and Android compatible. Print utilities and drivers available for most systems.
- **Graphics** - Supports the printing of graphics, 1D and 2D bar codes.
- **Endurance** - High Capacity Li-Ion battery can last a full day of printing receipts on a single battery charge.
- **Charging Options** - AC Adaptor for in-printer battery charging (comes with printer), 10.6-30V vehicle charger, 2 Bay battery charger.

The Apex *i* series is an ideal light weight and economical solution for portable receipt printing needs in today's dynamic and open architecture environments. The new Apex *i* is compatible with Apple iPhone®, iPad® and iPod® Bluetooth iOS 5.0 & 6.0 devices. The Apex *i* meets your needs without sacrificing on quality and performance.

Designed for mobile workers, utilizing Apple® iOS devices, the Apex *i* portable printers include a simple drop-in paper system that allows users to quickly replace paper rolls and a high capacity battery with easy charging options. Its light weight and compact design allows the Apex series to be worn comfortably on the belt or with a shoulder strap during long 12 hour shifts. These user-friendly features mean you can go through your busy day knowing your Apex *i* printer will keep up with you.

The affordable Apex *i* offers you what you need without the extras found in other products. The Apex *i* comes standard with wireless communication, fast print speed, ample memory and fast processing power that lets it keep pace with printers costing twice as much. The Apex *i* is also available with an optional magnetic strip card reader.

popular iOS-related applications ■ ■ ■

Mobile POS

- Transaction Receipts
- Que Busting
- Coupons
- Rain checks

Transportation

- Ticketing
- Payment receipts

Field Service

- Service Receipts
- Pickup/Deliveries
- Maintenance
- Settlement Reports

Public Services

- Meter Reading
- Parking Tickets

? Did you know?

A growing trend for organizations across the vertical spectrum is the ability to print payment receipts, tickets, proof of delivery, and other documentation from Apple®, Android™ and other leading smartphone and tablet platforms. The more efficient and streamlined the customer experience, the more likely you will retain and expand your customer base. According to leading industry analysts, the trend toward the adoption of mobile devices in retail and other related applications is increasing exponentially, and those that implement strategic growth plans for mobility within their workforces are likely to see more immediate and profitable results. The ability to add convenience, reduce wait times, and provide greater efficiency is no longer a luxury, but is an essential competitive element that today's dynamic and open architecture offers enterprises around the world.

your benefits ■ ■ ■

Affordability and Performance - In today's tough economic times, affordability and quality are vital to business success. The Apex *i* series has over-molded rubber bumpers for extra durability and has been validated in IEC68 certified labs for operating temperature, storage temperature, humidity, shock and vibration. Most importantly, the Apex *i* series comes with Datamax-O'Neil's legendary customer service and support.

optional ■ ■ ■

Battery

Spare Li-Ion battery

Battery Charger

2 Bay battery charger for charging Li-Ion Batteries (batteries not included)

IP54 Soft Cases

Protects your printer from environmental elements such as dust and moisture; meets IP54 compliance standards

Shoulder Strap System

Shoulder or Belt Strap System

Allows the user to comfortably carry the printer on the shoulder or on the belt; keeps the printer secure

Light weight, Fast and Economical

We recognize that not all applications require heavyweight, ultra rugged, drop-it-off-a-building or run-it-over-with-a-truck portable printers. The Apex series printer line is “just enough” to get the job done without slowing down or sacrificing accuracy. The Apex’s fast print speed, ample memory and fast processing power keeps pace with printers costing almost twice as much. The lightweight, compact design allows the printers to be worn comfortably through a complete shift. The durable housing and rubber over mold will endure the bumps and knocks of the typical workday. User friendly, the Apex printers have a simple drop-in paper system allowing users to quickly replace paper rolls and a high capacity battery that lasts through a 12 hour shift. Users can go through a busy day knowing that the Apex printers will keep up with them.
