

*Lazy C Diamond*  
RANCH

FEBRUARY 3RD, 2021 - 1PM CST

*At the Ranch - Kintyre, ND*

# Welcome!

We couldn't be more excited about the animals that we've worked tirelessly to breed and develop for your evaluation as the class of 2021. Every year we strive to improve upon the foundation we've been blessed with and this year especially, we are thrilled to present them to you. We hope our level of commitment and sincere love for this breed is evident in the following pages. We truly believe that the Simmental breed offers the best all-around, well-balanced beef animal that is both productive and profitable for the commercial cattleman.

It looks like 2020 will go down in the history books as one of the most "interesting" years yet. The volatility of our times really can make you sit back and wonder what is going on with this world we live in. If we aren't careful, it's easy to shift our focus to the negative things going on around us and fall into fear for the future of our great country. We need to continue to find ways to fight for and better represent the lifestyle we live and love. More than ever, it makes me thankful to work with the great people in the agriculture industry. We hope that you've been able to overcome the struggles that 2020 threw at you and that your family is healthy and thriving.

Our family is well! We welcomed sweet Lainea Joy into our family on June 26th. Flint and Ivy love her immensely. Raising these little people is by far the most rewarding and joy filled journey in this life. Watching them discover new things and fly past milestones makes for fun-filled days. All of that, plus getting to live on this beautiful ranch doing what we love, makes for hearts bursting with thankfulness. God has blessed us in more ways than we can describe. We hope that you experience all the same on a daily basis.

We owe a huge thank you to our team. Dave and Adrienne Vittorio have been with us since August of 2019 and are incredible assets to our operation. Their many talents have enriched our program greatly and we enjoy "doing life" with them. Jenna Larson watches the kids while Julia works 4 days a week for the local school district as a speech pathologist. She has put her heart and soul into helping develop our kids into the well-rounded little people that they are. Dale Johnson, the original owner of the ranch helps out when needed and is always willing to help problem solve when the need arises. Both of our extended families also help with projects throughout the year. We are surrounded by a great network of people and are forever thankful for that.

As in the past, the sale format will be a video auction and broadcasted online through DV Auction. We have bid on and bought many bulls and females through DV and highly recommend utilizing this bidding method if you are unable to attend sale day. We also invite each of you to visit the ranch ahead of the sale to sort through the bulls and females, see dams, and visit one-on-one about the specific needs of your program when making bull selections. We offer a \$100 discount to be used towards a bull purchase if you visit the ranch between January 1st and February 1st.

As always, don't be afraid to give us a call with any questions about the offering! We are excited to visit and hope to see you February 3rd!

*Sincerely,*

Chris, Julia, Ivy, Flint & Lainea Nicholson  
Lazy C Diamond Ranch

# FEBRUARY 3, 2021 - 1PM cst AT THE RANCH KINTYRE, ND

*A complimentary lunch will be served sale day from 11am-12:45pm.*

## SALE DAY PHONES:

Chris Nicholson.....701-391-6904

Wes Nicholson..... 701-391-2838

Neil Nicholson..... 701-391-6205

## SALE REPRESENTATIVES:

Tracy Harl, Auctioneer.....402-469-3852

Tony Heins, Cattle Business Weekly.....701-400-4435

Kris Peterson, on assignment.....701-339-0305

Scott Ressler, ND Stockmans.....701-391-7310

Marty Ropp, Allied Genetic Resources...406-581-7835

Justin Dikoff, DVAuction.....605-290-0625

Russ Danielson, ASA.....701-261-2742

## ANNOUNCEMENTS:

Please register for a bidding number sale day! When registering for a bidder number, please give the office staff your current ASA number for transferring registration papers.

## TERMS AND CONDITIONS:

Terms of the sale are cash/check. Every animal will be sold to the highest bidder. Announced changes in the catalog information on sale day take precedence over printed material in this catalog.

All animals listed in catalog having Homozygous Black or Homozygous Polled are done so to the best of our knowledge. We are not liable for any inaccuracies.

All cattle sell under the terms and conditions of the American Simmental Association.

## LIABILITY:

Any person attending the sale does so at his/her own risk. Neither the sale management, owners, nor any person connected with this sale, assumes any liability, legal or otherwise.

## INSURANCE:

We will not be responsible for death or injury. We highly recommend that you insure your bulls. Insurance will be available sale day.

RETAINED SEMEN INTEREST,  
VOLUME DISCOUNTS & MORE :  
SEE PAGE 4

## IN CASE OF INCLEMENT WEATHER:

Watch LazyCDiamondSimmRanch on Facebook,  
or listen to KFYZ 550 AM - KSJB 600 AM.

## FARM VISITS:

We encourage farm visits at your convenience. **Visitors to the ranch between January 1 and February 1 will get a \$100 discount off of a sale day bull purchase.** Being the auction format is a video sale, and no animals will walk through a ring, we highly recommend coming early sale day to have enough time to evaluate all the bulls. We hope to see many of you!

## LOCAL LODGING:

### Mozy Inn

800 Broadway  
Napoleon, ND  
701-754-2420  
701-754-2451

### Broken Bell Inn

803 Broadway  
Napoleon, ND  
701-754-2242  
701-321-1206

### Cobblestone Inn

623 North Mitchell Ave  
Steele, ND  
701-475-4478

## ADG & FEED RATION:

The average daily gains were figured on a 105 day test. We work with PNC Feeds of Hebron, ND for balancing the ration. We shoot for a 3.5 lb ADG average on the bulls. We feel that shows their growth potential without sacrificing their longevity by getting over conditioned and the chance of ruining feet. We are developing "athletes" that will last for you. They are developed in big open pens and get plenty of exercise to properly develop.

## DELIVERY:

The fall and yearling bulls will be fed for free, semen tested and delivered after April 1st. Bulls will be delivered free of charge up to 250 miles from the ranch. We will work with the buyer to arrange the most economical delivery for distances beyond 250 miles.

*Any cattle selling to Canada will be delivered to the nearest ND/CAN border crossing facility. Buyers will be responsible for any costs associated with testing/clearance for export.*

## GENOMIC ENHANCED EPDS:

Many of the bulls selling in the 2021 Sale have EPD's enhanced with DNA technology. We are investing in the latest technology available to provide you with the most accurate EPD's possible. This technology improves the accuracy of EPDs on yearling bulls as if they were an older bull with progeny proof! You will see "Genomic Enhanced EPDs" above the EPD box of the bulls that have genomic enhanced EPD profile

70 RED & BLACK SIMMENTAL/SIMANGUS™ BULLS  
7 BRED HEIFER LOTS · 27 OPEN HEIFER CHOICE LOTS  
FLUSH OPPORTUNITY · EMBRYOS

## RETAINED SEMEN INTERESTS:

We've wanted a transparent scale of retained semen interest that we can refer to, thus resulting in no behind the scenes deal that benefits one bidder over another. Please refer to the retained semen interest levels below. If you have any questions, please don't hesitate to call.

- Level 1 - Up to \$19,999 we will retain 50% semen interest**
- Level 2 - \$20,000 to \$39,999 we will retain 33.3% semen interest**
- Level 3 - \$40,000 and above we will retain 25% semen interest**

The buyer has the option to buy out our retained semen interest at the time of the sale if so desired. In the case that the buyout of seller's retained semen interest happens, we retain the right to collect semen on the bull at our own expense for in herd use only. The formula we use to calculate the semen interest buyout is as follows:

[Purchase price = semen rights already purchased (60% of purchase price) + pasture rights (40% of purchase price)]

## DOCILITY SCORES (DOC):

Please note the docility score for each animal. We use a scoring system from 1-6 with lower scores indicating calmer, gentler cattle:

1 - Docile; 2 - Restless; 3 - Nervous; 4 - Flighty; 5 - Aggressive; 6 - Very Aggressive. Most of the bulls will fall in the 1 or 2 category, with an occasional 3. Anything above a 3 is automatically culled from the bull pen. Please use this as a relative gauge for your operation. If you have a lot of help from your family or inexperienced workers while working with your cattle, we recommend buying 1 and 2 scoring cattle. 3's are completely manageable but have at times shown to be more nervous. These scores are based on our daily interactions with the bull to date. Keep in mind, as an animal gets older, or with different handling, its attitude can change.

SPECIAL THANKS TO DAVE AND ADRIENNE VITTORIO FOR THEIR HELP HERE ON THE RANCH.

## WHEN SEMEN IS COLLECTED ON A LCDR BULL WITH THE INTENT TO MARKET:

We would sure like to visit with you before the sale if considering purchasing and marketing semen on a LCDR bull. In a perfect world, we would gladly share in all the collection expenses and promotion, then splitting revenue accordingly, but given the bookkeeping nightmare that can arise when trying to keep track of multiple different bulls per year, we are forced to narrow down our list of bulls each year that we collect and promote. That being said, we realize that you may see something that we are missing or believe that a herd bull may have potential to sell semen. In the instance that you want to collect semen to market, we give you the go ahead to do so, we only ask that once you've recouped your expenses with semen revenue that we can then discuss a portion of the semen revenue be returned to the original breeder. We understand the complexities that can arise and only ask that you keep an open dialogue with us in your plans moving forward. We reserve the right to "opt out" of the expense sharing, but also understand that you will receive the revenue from semen sales until your expenses are covered.

## VOLUME DISCOUNTS:

We will be offering the following discounts

for volume bull buyers:

3 head - 3% off total purchases

4 head - 4% off total purchases

5 head or more - 5% off total purchases

## BEGINNING RANCHER DISCOUNT:

We are offering a "Beginning Rancher Discount" on bull purchases from LCDR. We realize the financial burden it takes to get established in this industry and want to encourage young producers within the cattle business. We will apply a 5% discount to your total purchases. Purchases must be for use within your own cowherd.

## ELIGIBILITY:

30 years old or younger or have been ranching for less than 10 years.

LC DR IMPACT 134F, SIRE TO LOTS 1-15

A short paragraph really can't even describe our level of excitement for the LCDR Impact sire group. After generating an incredible amount of interest and commanding \$130,000, to Rydeen Farms, in our 2019 Sale, the anticipation for his first calf crop began to build. Impact has bred true to what he is - tremendous performance, muscle, length of body and rib shape. All wrapped up in a structurally sound package. This sire group has literally dominated in the bull pen. As I write this, Impact's growth numbers are sitting at a 128 WW and 203 for YW yet still holding a .47 for Marb and 149 API. He is at the very top, if not the top of the entire breed for performance. His ability to consistently sire that scale pounding performance, length of body and muscle make his sons an easy "must have" to add that extra weight to your feeder cattle. I believe Impact will have just as his name describes....A big impact!

- One of my personal favorites in the Impact sire group. He does carry the red gene if you'd like an Impact that could be used on both red and black cows.
- Study his phenotype and data set, there is no hole in either. You'll be hard pressed to find another with his figures and performance. He flat out got it done.
- Dam is one of those cows that quietly gets it done, year in and year out. She has a 356 day calving interval and 106 WW Ratio on 5 calves.

- As you see in his picture, 166H is LONG! He carries that extra style through his front third and is super complete.
- Data set and EPD profile is rock solid.
- Dam is a beautiful Mika daughter that had the high selling red open in last years sale.
- Imagine the feeder steers that he will produce!

- 168H has been a favorite since birth. Just like his dam, 55C, he exhibits that extra eye appeal, explosive body and muscle shape.
- One of the lowest on BW in the Impacts.
- Study his data and EPDs, they are impressive and you'll be impressed when you evaluate him in person.

- I am kicking myself that I don't have a photo of this calf for you to see, we just ran out of time before picture day. He is impressive!
- There are very few other prospects that can run neck and neck with him in terms of those kind of growth EPDs to Marb and still be at a 175 API. He has the number profile, pedigree and phenotype to be a breed changer.
- His data set is incredible. He is another that dominated and left nothing to be desired.

- The last but not the least in this powerful sire group!
- A power bull for sure and is made in the same image of all the rest of the Impact sons. Tons of body, thickness and shape.
- Dam is beautiful! She has as much capacity as any cow on the place.
- Recommended for use on mature cows.

## Visit us at the Ranch!

We offer a \$100 credit towards a bull purchase if you come to the ranch to evaluate the bulls between Jan 1st - Feb 1st!

# EGL FIRESTEEL 103F

## ASA#3498940

### HOMO BLACK · HOMO POLLED

EGL Firesteel was the high selling bull in the 2019 Eagle Pass Ranch Sale selling for \$85,000. His first calf crop is incredibly impressive! He's a true calving ease bull that will add eye appeal and structural soundness. After ultrasounding, it looks like he will transmit on tremendous marbling too. He's proven himself to be a real herd sire and we look forward to his influence in the future.

- This Firesteel x C4 flush was one of our very most anticipated matings of 2020.
- 206H had our attention from the moment he got up and dried off! He combines so many aspects of the beef industry. He has the "look at me" front end with a well laid in shoulder and perfect straight hair! Length of body and a long muscle pattern that carries deep into his lower quarter. Depth of body and natural thickness that only adds to his overall quality.
- Then you evaluate is actual data and EPD projections - every aspect perfectly flows into the next, creating a total package that impresses you from every angle.
- His marbling ratio shows him to add in the final cherry on top - breed leading carcass potential!
- Add in the fact that his dam is probably the hottest cow in the country and is having a huge influence through all her well known AI sons.
- A true breed changer and herd bull prospect for 2021!

- This impressive herd sire prospect only solidifies the potency of the Firesteel x C4 flush!
- He exhibits an uncanny amount of length of body in a 6 frame package!
- Data set is nothing short of perfect and his EPD profile flat out gets it done!
- He has a tough act to follow with his brother above, but he does it near flawlessly and practically is running side by side with him!

- This bull gets me really excited! Innovator has done such a tremendous job breeding true to what he is and I feel this bull raises that bar even higher!
- A flawless specimen to evaluate in the flesh, he carries himself perfectly and moves out with proper flex in his joints and excellent foot quality, all while filling his tracks.
- He is super through his sheath and squared up and expressive in his rear muscle pattern. He has tremendous capacity and rib shape, and a softness that's hard to find in a purebred power bull.
- Then you move to his EPD profile and realize how potent of breeding specimen this bull could be! His EPD profile leaves nothing to be desired. He should be safe to use on heifers yet still have breed leading performance and carcass and excellent maternal.
- A bull that will surely have a place on our "bulls to use" list this spring!

- This full brother to LCDR Favor is a meat wagon! He isn't the biggest bull in the offering, but he is probably the widest. He very much reminds me of Witness.
- He packs as much muscle as you possibly can in his moderate frame. I would expect to him to produce very easy fleshing progeny.
- His powerful growth numbers put him in the top 1% of the breed!

- An extremely low BW Witness son that still came in above average for growth traits.
- Dam is a gorgeous female with a perfect udder and moderate, easy keeping style. Verdict females are some of the most milky and productive that there is.
- He offers a very balanced approach to calving and performance.
- Could easily be used on a group of younger cows.

**Visit us at the Ranch!**  
 We offer a \$100 credit towards a bull purchase if you come to the ranch to evaluate the bulls between Jan 1st - Feb 1st!

- Maybe a bit of a different breed of cat than the typical LCDR bull. Inertia was used for his super impressive EPD profile and carcass projections on 15T, a complimentary mating. She brought the extra bone and power to the table and Inertia solidified the growth and carcass.
- 235H has been an impressive bull through all stages of development and would be a unique breeding piece to pull the red gene out of. We have ET sisters to him in the replacement pen that we are very excited about!

- The solo Favor bull calf in the offering...I regret that we don't have more for you. We sure will have a bigger sire group next year and in the years to come.
- Favor is a must use if looking for a high performance sire that can produce eye appeal with top 1% growth. His EPD profile is impressive!
- 190H could be used as a calving ease sire and like his mother, is a moderate framed, easy fleshing bull.
- His number profile is well balanced with way above average performance for that much calving ease.

- 702E was Makin' Waves flushmate that we used clean up on the heifers following AI.
- 225H's dam was a stunning Main Event daughter with an abundance of milk and style.
- His actual performance projections look great and BW to growth spread in his EPDs gives him that coveted "spread bull" profile.

- First up in the Motley sons and part of the impressive 101Y flush. 101Y is one of the most impressive red Simmental females we have ever laid eyes on and has had a significant influence in our program - Dam of CDI Perspective and LCDR/CDI Fierce.
- 158H is a well balanced power bull and one of the favorites in the pen.
- His added growth, extra frame, and ribeye will make him a sale day favorite!

- Larger framed April calf that kept up with the older calves to make the sale.
- His growth was way above average and would expect him to produce such.
- Dam is a super uddered cow and stems back to the 33R donor.

- Younger red Trailblazer son that may be a sleeper due to his age.
- His pedigree speaks to all the best from our past.
- Attractive in his phenotype with plenty of muscle expression.

HOOKS MIKA 141M - GRAND DAM TO LOT 56

# AGE ADVANTAGE DIVISION · LOTS 57-66

**YOU LITERALLY GET ALL THE ADVANTAGES!** These 18 month old bulls are one of the best kept secrets you'll find while bull shopping this sale season. This will be the 6th year offering these aged bulls. If you like the looks of them sale day, you'll be thrilled with how they develop into the spring and look when we deliver them in April! This method of growing them up has shown to be effective in developing a well conditioned, fit, breeding bull. We also have found to have very few, if any, issues when semen testing. We recommend studying EPD profiles closely when making your selections, given they are fall calves their WW and YWs are much lower then spring born bulls. Rest assured that the pedigrees represented in these fall bulls are just as up to date and intriguing as the spring born bulls.

- Powerfully made bull with that extra muscle and body.
- Is identical in type to his father. Satisfied has been used cleanup and you always can pick out his calves. They perform right at the top and have that extra thickness and power.

# OPEN HEIFER DIVISION - LOTS 67A - 73E

The following open heifer choice lots represent all the best we've been able to produce and we are excited for you to evaluate them. We are offering the opportunity for the high bidder to take their pick of the mating/lot on all our top flushes for 2020. Every single one of these females has the potential to be a future donor and build upon her mother's legacy. We've worked incredibly hard to assemble our donor lineup and feel these daughters will be the next steps in multiple avenues of improvement within the Simmental breed. They have all been parent verified/donor eligible, genomic enhanced EPDs, coat color tested if the red gene was possibly present and carcass ultrasounded.

## Terms:

-Pick must be made when the gavel falls.

-We reserve the right to a future flush of each chosen heifer with a minimum of 10 embryos at seller's expense and buyer's convenience.

*Pick of the*  
**WS MISS SUGAR C4** *daughters*

To pick one of these outstanding C4 daughters is probably one of the most exciting opportunities you'll have to invest in for 2021. With C4's incredible production record, the chance to own a direct daughter will be one of the fastest ways to propel your program to the next level. Each female is a little different in her design, appealing to different facets of the industry – study them closely, we are excited to see who you choose!

GENOMIC ENHANCED EPDS

- The Witness daughter that after DNA, shows to be the lightest BW of the sisters.
- She is feminine yet still powerful and moderate in her bone structure.
- She's the type of female that is a bull maker.
- Foot shape and quality is ideal in these Witness daughters!

GENOMIC ENHANCED EPDS

- You can't tell in the picture, but 10H is the beast of a heifer in the open heifer picks.
- She's massive no matter how you look at her!
- She's got as much body and natural thickness that you can build one with.
- The type of female you breed back to Firesteel.....and there will be an explosion!

# Pick of the BCLR Miss Baldy E704 daughters

BCLR MISS BALDY E704 - DAM TO LOTS 69A-69D

Flushing E704 to Firesteel was one of our most successful flushes for 2020. The following daughters are outstanding! They have as much body and rib shape that you can possible have, yet they are balanced with an incredible muscle pattern and femininity that make for exciting breeding pieces. Have fun sorting through them, you'll be hard pressed to decide who you like best.

### GENOMIC ENHANCED EPDS

- This female is where elegance and power collide.
- Her length of body, muscle shape, capacity and style fit so well together. She's a female I could watch all day, she's what makes breeding cattle fun!
- Check out those growth numbers!
- She does carry the red gene.

This impressive cow is a new donor to our program. As her picture shows, she has incredible style and presence. She is as long as you can make one with a super udder. Her EPD profile exemplifies the multi-trait balance that we search for! The trendy, total package she offers will compliment an unlimited number of sires/directions she could be taken. We are excited to see what you choose! Her baldy son, HHS 867B (2941225) was perhaps born before his time, touting an EPD profile ranking at the very top of the breed. 867B has produced multiple sons that are working in purebred operations. Watch for both his and his powerful dam's influence in the coming years.

PB SM

CLRS Guardian has quickly established himself as the go-to Beacon son combining that hard to find eye appeal with a breed leading EPD profile. TJ Ms 38W has become a cornerstone donor that has produced numerous high sellers, both sons and daughters. Her proven outcross pedigree and number profile only add to her genetic merit. Study the planned mating EPD profile closely, top 25% of the breed or better across the board. The combination of calving ease, maternal, and marbling propel indexes to the top 1% of the breed. Imagine your next baldy herd sire or donor prospect resulting from these embryos!

Taking X200 to Cowboy Logic combines a whole lot of good - The eye appeal and performance Logic offers to the maternal/carcass/phenotype that X200 consistently brings to the table. A mating we are super excited to implant this breeding season!

# LCDR *junior* HERD SIRES

**SCHOOLEY STEADFAST 276**  
ASA\*3585120

Schooley Steadfast was the high selling bull in the 2020 Schooley Cattle Co Sale. Sired by DMF Epic and backed by the prolific Beauty Queen donor. He combines an impressive, well balanced EPD profile with a trendy phenotype. Use Steadfast to improve eye appeal and muscle expression all while sacrificing nothing from a carcass standpoint!

Semen available through Select Sires and co-owned with Select/Schooley Cattle Co

**BCLR MANIFESTO G352**  
ASA\*3659574

Manifesto is currently the highest selling Proclamation son to date! He was the high selling bull in the 2020 Bichler Simmental Sale, selling for \$62,500. His EPD profile very closely mirrors his popular sire's profile. His beautiful 70IT dam only adds in another layer of maternal excellence to the already proven pedigree! Use Manifesto to add more body than his sire and improve foot quality! He has that crisp, perfect foot shape that we need more of!

Semen Available through LCDR and co-owner, Bichler Simmentals.

**LCDR PROGRESSIVE 106G**  
ASA\*3646242

Progressive is an under-the-radar herd sire that due to circumstances early in his life, set him back and prevented him from being a sale feature in our 2020 Sale. He was sold privately to Select Sires/River Creek/Trauernicht/Eichacker and walks at LCDR. The Innovator x C4 cross produces an impressive EPD profile. We expect Progressive to calve easy, produce good eye appeal and breed on genetically from his two powerful parents.

Semen Available through Select Sires.

**LCDR THRIVE 123G**  
ASA\*3646271

Thrive was our 2020 high seller, selling to Genex. He's packed full of muscle and shape with attractiveness through his front 1/3rd. Expect him to produce extra muscle with great depth of body and improved style!

Semen Available through Genex.

**9 MILE ABUNDANCE 7507**  
ASA\*3367432

9 Mile Abundance is a combination of the best we have produced in terms of red simmentals. His sire, CDI Abundance is one of the very few red power bulls that also has 1% marbling & API. His dam, 80Z is a stunning modern day Simmental female that is nothing short of perfection and the ideal female we strive to produce. 9 Mile Abundance looks to combine all the best from his impressive pedigree and we couldn't be more excited about his future and contribution to our program.

Semen available through LCDR and co-owner, Wilkinson Farms Simmentals.

**LCDR INVENTION 138G**  
ASA\*3646292

Invention was our 2nd high selling bull in the 2020 Bull Sale, selling to Double J Simmentals. He is a powerfully made Innovator son that possesses that extra depth of body and easy fleshing phenotype. His dam consistently produces at the top and clicks with most anything we breed her to.

Semen Available through LCDR and co-owner, Double J Simmentals
