### *The Mace*

The mace, originally a weapon of defense, has in modern times become a symbol of authority, dignity, and privilege. English universities have used maces in academic processions for many centuries. The University of Rochester's present mace was first used at the induction of Alan Valentine as president in 1935, and has been used in academic processions since that time.

Philip Merz, designer of many of the architectural features of the early River Campus buildings, designed the University of Rochester's mace. It is approximately four feet in length, and is made of mahogany and hand-wrought silver. On the head is the seal of the University, and below that a silver band on which are engraved the names of the presidents of the University since its founding in 1850. The dandelion, floral symbol of the University, is used as the decorative motif of the silver work. The mace is carried by the University marshal as a symbol of authority. The baton, carried by the associate marshal, is slightly less than two feet in length, and is made of mahogany studded with silver dandelions and stars.

### *Academic Attire*

The distinctive attire of those participating in the academic procession represents a tradition that reaches at least as far back as the fourteenth century when gowns similar to today's became the required dress at many European universities. Gowns were then a common form of apparel for both the clergy and the laity but today they survive chiefly in ecclesiastical or academic ceremonies such as those we shall witness today. The symbolism of the American style of regalia is described below. Variations may be observed in the attire of the graduates of foreign universities and of the several American institutions which have departed from tradition.

The gowns for the three levels of degrees differ primarily in the sleeve. The bachelor's gown has long pointed sleeves and is worn closed. The master's gown is usually worn open and has long square-cut sleeves with slits through which the forearms protrude. The doctor's gown has large bell-shaped sleeves with three velvet crossbars on the upper portion of the arm and velvet trimming down the front of the gown. The mortarboard derives from the Oxford cap and is generally black with a black tassel, although color is sometimes used to indicate the field in which the degree was awarded. Gold tassels denote the holders of doctorates.

The most colorful portion of the academic costume is the hood which varies in length from three feet for bachelor's degrees to four feet for doctorates. The color of the lining indicates the institution which granted the degree. The University's color is yellow. For the nine colonial colleges the colors are: Harvard, crimson; William and Mary, green, gold, and silver; Yale, blue; Pennsylvania, red and blue; Princeton, orange and black; Columbia, light blue and white; Brown, brown; Rutgers, scarlet; and Dartmouth, green and white. Space does not permit listing the colors of all the colleges represented in the procession. The color of the edging of the hood indicates the discipline to which the degree pertains, for example: Arts, Letters, and Humanities, white; Commerce, Accounting, and Business, drab; Dentistry, lilac; Education, light blue; Engineering, orange; Law, purple; Medicine, green; Music, pink; Nursing, apricot; Philosophy, dark blue; Science, golden yellow; and Theology, scarlet.

## THE GENESEE

Tho' man-y fair and fam - ous streams Be-neath the sun there  
As flows the riv - er, gath-ering force, A - long her stead-fast

be, Yet more to us than an - y seems Our own dear Gen - e - see. We  
way, May we a-long life's dev-ious course Grow stronger day by day. And

love her banks and state- ly falls, For to our minds they bring Our  
may our hearts where'er we roam For - ev - er loy - al be To

dear old Al-ma Ma - ter's halls, Where sweet-est mem-ories cling.  
our be-lov- ed col - lege home Be - side the Gen - e - see.
