VIETNAMESE ANGRY
Hanoi, Indochina, July 21 (27)—
stnamese officials were reported pping mad today at news the rithern half of their country is ing handed over to the Communist. But many anti-Communist illans in Hanoi figured they deen reprieved because they we 10 months to go south, insid of the maximum two they pected.

Many Vietnamese joined in the government's dismay at the outcome of the long struggle with the Communist-ied Vietninh.

"What's the use of fighting eight years and losing thousands of lives if we arrive at partition of our country," asked one young Vietnamese Army officer.

The face of one Vietnamese fire had been signed. "I am glad, of course." he said, adding, "but I'm afraid there may be trouble

stead of the maximum two they expected.

There were no demonstrations and mass expressions of rejoicing or sadness in either Hanoi or Salgon today as the cease-fire agreement partitioning Viet Nam was announced by press and radio.

Officials of the North Viet Nam government refused to talk to reporters. Informed sources said they were readying hot protests to the French.

French Army officials also were silent, pending receipt of official confirmation of the news.

It was believed, however, that in the interim until the effective cease-fire hour French Union troops would push no military operations against the Communistied Vietminh and would only defend themselves against attacks by

led Vietminh and would only defend themselves against attacks by the rebels.

Only yesterday, 10,000 French and Vietnamese troops had carried out mop-up operations in sectors 18 miles northeast of Hanol. Sharp, quick attacks by each side were reported yesterday at various other points as the Geneva negotiations drew to a close.

Surprise Terms

The big surprise in Hanol was the agreement that the French have 300 days to get out of the northern capital and Haiphong. No one had anticipated such a lengthly evacuation period.

It is a danger that this agreement may so enhance Communist prestige in Asia that they can obtain further conquests by peaceful means it would be difficult to frustrate.

But every responsible Western government associated with this outcome, and this includes our own, has weighed these dangers and decided to risk them.

So what we are instinctively trying to establish is a sort of American embargo on arms everywhere. We want to be sure that guns will get into the hands only of those whom we trust to be peaceful, unless we tell them to fight. This is a natural and even praiseworthy objective.

The trouble with it is that one nation, again in history, is trying to do something no one nation can do. To put it bluntly, the United States cannot control the world arms and the control of the coast Guard Headquarters.

The Purnell Parking project appeared headed for a natural death today after the Board of Directors actions last night in rejecting an last been issuing and added. Let

actions last night in rejecting an offer that it buy the privately owned Purnell Place parking let and referring the whole matter back to the Planning Commission.

And this morning, George Marlow, head of the Purnell Corp. which has been trying to negotiate a solution to the Main Street parking problem with the directors, attacked the action and said "the parking problem will be resolved, but in spite of town authorities and not because they've been helpful."

The offer turned down by the Directors involved two properties

Directors involved two properties in the Purnell Place area and carried what General Manager Richard Martin said was a \$100,000 price, Marlow this morning, however, said it was a four-property package deal and would have cost.

He said the only steps taken by Martin was referring to the the preparation by the Planning

Martin was referring to the property owned by the corporation and the Manchester Trust Co... which is trustee for an unidentified principal. Board Starts Budget Work

The first of the informal budge neetings of the Board of Directors and the General Manager will be held tonight at 8 o'clock in the Whiton Memorial Library audi-torium to discuss the proposed budget of the Water and Sewer

Dept.
On Friday they will meet to consider the Board of Education's proposed budget of \$1,927,563.

The budget for the Water and Sewer Dept. recommended by General Manager Richard Martin totals \$1,951,122.50, with the water division asking \$829,157.50 and the sewer division asking \$1,-121,965.

The sewage division proposed budget includes about \$1,000,000 for the construction of a sewage treatment plant. The previous appropriation for 1953-54 totaled \$411.950 for oth divisions.

The Customers We Serve

The key to the success of a savings bank is the financial service it rend It is the bank of the self-reliant, offering banking facilities, including savings accounts, registered checks for the payment of bills, life insurance, loans secured by savings accounts, travelers checks and mortgages to finance home ownership. Because of this variety of helpful financial aids, The Savings Bank of Manchester has frequently served a family as their

What We Do With Your Money

only banking adviser for many years.

Some people wonder why a savings bank does not pay a 31/2% dividend since it invests part of its funds, for example, in a 4% or 5% mortgage. But just think. If you wanted your deposit back in a hurry, the Bank could not sell the mortgage quickly and you would not want to wait until the owner made payments on the mortgage.

When your savings are deposited in our Bank we just don't take your money and lock it in the vault. That money has to be invested so that we can produce income. The investment must be made with due regard to the fact that you may wish to withdraw these funds the next day, the next year, or at any time you wish We know from experience the approximate number and amount of with-

drawals that we may expect to meet over a given period of time. Therefore, the Bank keeps a certain amount of cash on hand to meet your order if you should call for all or part of the balance in your account. We also invest in United States Government bonds and bonds of leading public utility industries or other high grade securities which normally can be readily sold in the market to meet your withdrawal needs. They produce income and contribute towards the payment of dividends and expenses. Since only a portion of the assets of the Bank must be readily available

substantial amounts of the funds of the Bank are invested in mortgages, on which the Bank receives higher interest rates than it does on its investment in United States Government or corporate bonds. The payment of dividends depends on the exercise of prudent judgment in the selection of these investments. The financial position of this Bank offers the best testimony to the good judgment that the Bank's Directors
