FOR IMMEDIATE RELEASE

The McLean Group Advises Eatec Corporation on Sale to Agilysys, Inc.

Eatec is a leading B2B Hospitality Foodservice ERP Software Provider

McLean, VA, February 19, 2008 - The McLean Group announced today it has acted as mergers and acquisitions advisor to the Shareholders of Eatec Corporation ("Eatec") in the sale of Eatec to Agilysys, Inc. ("Agilysys" - NASDAQ: AGYS). Agilysys is a leading provider of innovative IT and hospitality software solutions. Eatec is a leading provider of inventory and procurement software for the hospitality and foodservice industries. This acquisition further differentiates Agilysys as a leading developer and marketer of inventory and procurement software. Furthermore, it expands Agilysys' integrated end-to-end open solutions and enhances Agilysys' leadership position in the hospitality and foodservice industries.

The McLean Group was successful in identifying, securing and negotiating this strategic transaction with Agilysys on behalf of Eatec shareholders. Agilysys acquired Eatec for \$23.2 million net of cash. Eatec has revenues and EBITDA margins in excess of \$8 million and 20% respectively.

Eatec's software, EatecNetX, is a recognized leading, open architecture-based, inventory and procurement management system. It provides customers with the data and information necessary to increase sales, reduce product costs, improve back-office productivity and increase profitability. Eatec customers include well-known restaurants, hotels, stadiums and entertainment venues in North America and around the world as well as many public service institutions.

EatecNetX's core functions include purchasing, inventory, recipe, forecasting, production and sales analysis. Additionally, the solution offers catering, restaurant, concessions, manufacturing, retail/merchandising and airline catering modules in one integrated solution. EatecNetX complements Agilysys' comprehensive solutions to the hospitality and foodservice industries.

"This transaction will provide significant benefits to existing and future clients, employees and shareholders," said Peter Marguglio, President of Eatec Corporation, speaking on behalf of Eatec's shareholders. "We are very pleased with the assistance provided by The McLean Group in helping us identify the right partner for us. The combination of their hospitality industry expertise, as well as their professional investment banking process made all the difference in the world."

“This acquisition further enhances our position as a leading inventory and procurement solution provider to the hospitality and food service markets,” said Arthur Rhein, chairman, president and chief executive officer of Agilysys. “Similar to our previous acquisitions of Visual One Systems and InfoGenesis, the Eatec acquisition complements and expands our offerings, allowing us to better serve our customers.”

In addition to selling EatecNetX as a stand-alone software application, the software will be interfaced with Agilysys point-of-sale offerings to create a complete end-to-end solution for customers in the food service industry.

John Rovani, McLean Group Managing Director, Investment Banking Services and Practice Head for Travel and Hospitality, said, "We are very excited completing another transaction in this sector. The result is a highly complementary arrangement enabling both the seller and acquirer to prosper and benefit.”

About Eatec Corporation

Eatec Corporation is a leading provider of enterprise back-office software and services for the foodservice and hospitality industries. EatecNetX, Eatec's proven software solution, is recognized as a state-of-the-art foodservice management system that is centralized, scalable, web-centric and user-friendly for food and beverage operators of every variety.
