NEW X-treme Series Features

The X-treme PCs feature the new CoolerMaster Brushed Aluminium Tower Case with screw-less design for easy assembly and built-in washable front air filter

Other great features include:

- 120mm intake fans in the front and rear to give your PC the best ventilation while maintaining silent cooling solution.
- Aluminium alloy design greatly reduces the weight of the chassis
- Rear retaining holes for liquid cooling kits
- Front panel openfor easy access

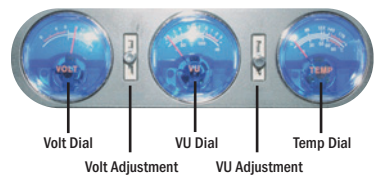

CoolerMaster Muskateer Display

The 3 blue lit dials
 - The volt dial measures the power going into the front fan.
 - The VU dial measures the sound pressure
 - The Temp dial measures the temperature within the case.

Upgrade any X-treme SLR PC to include display
£18 INC VAT

Sliders Controls

The Volt slider allows you to reduce the fan voltage. As a result, the fan is decreased to minimize the noise.
 - The VU provides easy access for you to adjust the sound pressure.

Awards 2005

Award Winning PCs since 1987

...as Reviewed by the IT Press

Go on-line to see our most recent award winners

When you buy from MESH, you not only get an up to date PC from an established PC manufacturer, you're also buying into over 18 years of award winning heritage. A true UK success; we are simply the UKs No.1 PC manufacturer, winning more awards over the last year for technical innovation, speed to market and price leadership, than all our competitors. MESH is winner of over 200 systems over the last 3 years alone.

"MESH's new PC promises blinding gaming performance at a sensible price and with room to add another graphics card."

"The MESH's sub - £1499 price tag is good value. It fires off top-notch components one after the other."

"...an entertainment computer that is also capable of acting as a high end home PC. The MESH's power and features make it our first choice."
