# On Track

By John Hoke, Editor

Track season is past the half-way mark and regionals will be upon us in just a couple of weeks with regional assignments in this issue. Stroud junior Kyle Bookout is setting records in the discus again but unfortunately the meet director hasn't bothered to send us the results. So, in spite of the fact that his picture appears in this issue, his record throw does not. Our policy has always been that we need full results of a meet before we can consider any of the performances for the leaders lists. This has been a nagging problem for the nine years that the *Oklahoma Track & Field News* has been published but, barring a miracle, the issue is moot since we will not be publishing next year. Since we're only going to be around for a few more issues I'm going to try to cut back on the whining and make the end as peaceful as it can be.

Every year we get a new state record or two and every year it seems that we rediscover the fact that there really is no set of official state records sanctioned by the Oklahoma Secondary Schools Activities Association. Some coach needs to take it upon himself to bring this up at the summer meeting of the Oklahoma Track Coaches Association and a committee needs to be empowered to write guidelines for the records and set up a safe repository for the records. Oklahoma's top track historian, Ray Soldan, has kept the records to date but he would welcome some help from the OTCA.

We do try to keep the current records, both overall and state meet records posted on our web site and we really appreciate corrections when you spot mistakes. You can either email us the correction, call us or drop us a note. Needless to say, the web site will disappear with the *OT&FN* as well.

A certain degree of the enthusiasm has disappeared from our office as the fact that we're a lame duck publication sinks in. It's hard to muster the effort it takes to put this rag together, chasing results, factoring rankings, selecting and identifying photos, posting results to the web site, etc., ad nauseum and not even including, trying to find new subscribers. Anyway, our apologies again for being late in getting this issue in the mail.

We were planning on a full listing by class in our season leaders sections but we lost contact with the helpers that did 2A and below so we had to lump them into the same group. We would welcome some help in breaking those classes apart in the next issue so please let us know if you would be willing to help out.
