CINCINNATI CHAPTER -10  
P.O. BOX 11294 CINCINNATI, OHIO 45211

August 4, 1988

Dear Editor,

The Vietnam Veterans of America Cincinnati Chapter 10 commend you for being a positive patriot and want you to know your demonstration of patriotism has not gone unnoticed.

We read about the dedication of your new Memorial Headquarters in the June issue of the *Shield & Diamond*. I wanted your members to know that we eagerly support your efforts. With your permission, I will insure that the article and your call for information about Pi Kappa Alpha Gold Star Heroes are reprinted in our chapter newsletter.

As freedom-loving Americans we have both a responsibility to our past and a duty to our future to pass on to our children and grandchildren the same rights and opportunities we inherited from those who went before us. Our freedom was not bought cheaply nor has it been preserved easily. Our freedom challenges us to take stock of ourselves to see what kind of citizens we really are. We commend you for accepting this challenge boldly, bravely, and in the finest spirit of the American Tradition.

Please extend our heartfelt appreciation to your membership and we wish you much success with the Memorial.

THANK YOU!  
on behalf of the Officers and Members,

Paul W. King  
Patriotism Chairman  
VVA Chapter 10

### Editor's Notes

The June 1988 issue of the *Shield & Diamond* carried an appeal for information concerning members of the Fraternity who gave their lives in the service of their country.

Response to this appeal has been tremendous, indicating just how close to the heart of our membership is the memory of those men we knew, loved, and saluted as they went forth to defend the principles and philosophies of our nation.

To those who have already replied, we offer our thanks and assurance that the names of those brave brothers will be entered into the Gold Star Records in the Pi Kappa Alpha Memorial Headquarters.

We still seek names, dates and information, often kept in chapter house records, or in local newspapers and libraries, to update our Gold Star Records. Please send any information to the *Shield & Diamond* Editor.

Due to the space requirements of our Annual Report, *Chapter Notes* does not appear in this issue of the *Shield & Diamond*, and the *Alumni Notes* section is abbreviated. Both of these popular departments will return in their complete formats in the December issue of *Shield & Diamond*.

# Convention 1988

## A Retrospective

What do six hundred and fifty PiKA undergraduates, one hundred and fifty national officers, alumni and guests, the new Memorial Headquarters and five Mallard ducks have in common? Pi Kappa Alpha's 1988 National Convention, that's what!

Held at the historic Peabody Hotel (home of the world famous Peabody Ducks) over the dates of August 13-17, 1988, Pi Kappa Alpha's 56th biennial National Convention is certain to be remembered as Pi Kappa

Alpha's finest hour to date. Never have PiKA conventioners experienced such an action-packed, fun-filled time as did everyone participating in this 1988 effort.

No other convocation within the Fraternity accomplishes as much over a four day period as does a national convention. Important legislative sessions dictating the Fraternity's future directions, the crowning of the National Dream Girl, the election of the new Supreme

Council, four elegant banquets (including the Memorial Headquarters Awards Luncheon and the National Officers Banquet), and numerous seminars and workshops all highlight a national convention, and were certainly an integral part of this year's gathering.

However, participants in the 1988 Convention were a part of a once-in-a-lifetime experience, the dedication of Pi Kappa Alpha's beautiful new Memorial Headquarters. This

ceremony, held on Monday, August 15, 1988, attracted nearly 1,000 undergraduates and alumni, officers, staff, and guests. Speeches were made by numerous dignitaries, and a twenty-one gun salute honored Pi Kappa Alpha's Gold Star Heroes, to whom the new Headquarters is dedicated. After the moving ceremony, the crowd enjoyed touring the new home for the Fraternity's professional staff and museum.

Designed in the Jeffersonian architectural style of Monticello and the University of Virginia, the new Headquarters is the culmination of years of planning and preparation, and will house the Fraternity's central operations well into the 21st century.

The Memorial Foundation hosted the Convention's inaugural luncheon, honoring outstanding alumni. Several special guests were honored at this luncheon, including actor Morgan Woodward, Quaker State Oil Chair-

The Reverend Simon A. Simon, Pi Kappa Alpha's National Chaplain, led the Memorial Service and devotionals for the conventioners.

man Quentin Wood, and Pat Bowlen, owner of the Denver Broncos. All three of these gentlemen were inducted into the Order of West Range, which honors extraordinary professional achievement and/or exemplary service to the Fraternity.

On Sunday evening, August 14, at the National President's Banquet, immediate past National President Gary E. Menchhofer (*University of Cincinnati, Alpha Xi '65*) gave his parting address to the Fraternity, and reflected upon his two years of service to Pi Kappa Alpha. Many of the Fraternity's past national presidents were honored at this banquet with a beautiful service pin com-

memorating their service to the Fraternity. Those present included Roy Hickman, Andy Knight, Garth Grissom, C. Ross Anderson, Gary Sallquist, Richard Ogle, Dr. Jerome V.

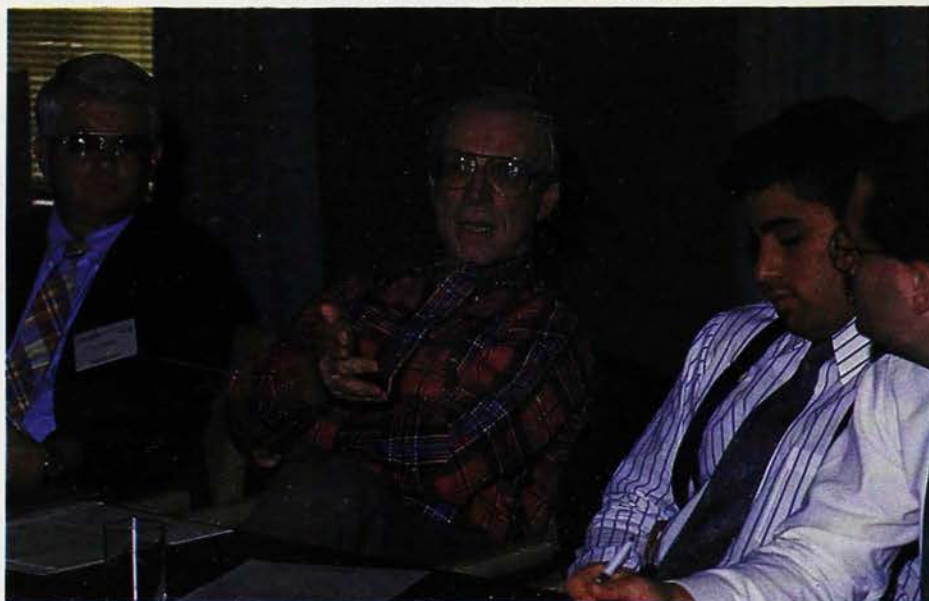

Reel, Dr. William Nester, Virgil McBroom, Joe Turner and Bill LaForge.

Highlighting this banquet was the presentation of our National Dream Girl, Miss Wendy Smith of Atlanta, Georgia. Miss Smith was sponsored by Alpha Delta chapter at Georgia Tech University.

On Monday, August 15, everyone eagerly boarded buses and headed to the new Southwind development in southeast Memphis, home of the new Memorial Headquarters. Although the afternoon was quite warm, everyone greatly enjoyed participating in the historic dedication ceremonies.

On Tuesday, August  
*Shield & Diamond*

**Undergraduates and alumni met in legislative sessions.**

16, the eagerly anticipated Memorial Headquarters Awards Luncheon was held, culminating in the presentation of the coveted Robert Adger Smythe Awards. The recipients of this honor were Alpha Nu (*Missouri-Columbia*), Alpha Kappa (*Missouri-Rolla*), Alpha Omicron (*Southwestern University*), Alpha Xi (*Cincinnati*), Beta Theta (*Cornell*), Beta Phi (*Purdue*), Beta Chi (*Minnesota*), Delta Theta (*Arkansas State*), Epsilon Theta (*Colorado State*), Eta Alpha (*Clemson*), Gamma (*William & Mary*), Theta Chi (*Villanova*), Theta Lambda (*Creighton*), and Theta Omicron (*Indiana State*). Other awards were given in the areas of rush, pledge education, scholarship, alumni relations, campus involvement and community service. The 1988 Newell Award, presented to the Fraternity's most improved chapter, went to Gamma Delta (*University of Arizona*), which has grown from seven men in 1985 to nearly 150 brothers at present.

That afternoon, chapter delegates met for the fourth and final legislative session, which included the election of the 1988-90 Supreme Council. The delegates accepted the Nominating Committee's slate, and by acclamation elected Edward A. Pease (*Indiana University, Delta Xi '71*) as the Fraternity's new National President. Re-elected to a second two year term as National Vice Presidents were Dr. Jerry W. Askew (*North Carolina, Tau '73*), and Bill Shaw (*Utah, Alpha Tau '53*). New Supreme Council vice presidents are: Charles Dow (*Alabama, Gamma Alpha '63*), and Dr. Larry Lunsford (*Tennessee, Zeta '71*). Shortly after its election, the new Supreme Council met and re-appointed Daniel McGehee (*Southeast Missouri State - Epsilon Iota '63*) as its legal counsel, and appointed Craig Stoehr (*Minnesota, Beta Chi*), and Douglas Morris (*Missouri-Rolla, Alpha Kappa*) as undergraduate vice presidents.

This Convention was everything it promised to be and more. Many new friendships were made, some old ones rekindled, and the spirit of phi phi kappa alpha once again brought everyone to a deeper understanding of this Fraternity we call Pi Kappa Alpha.

# Achieving Excellence

## The 1988 Robert Adger Smythe Award Winning Chapters

The Smythe trophies, with winners' names covered, await the awards ceremony at the 1988 National Convention in Memphis, Tennessee.

Each year Pi Kappa Alpha's chapters strive to be the best in every way. Those who reach the pinnacle of success are recognized by the Memorial Headquarters with the coveted Robert Adger Smythe Award.

Only fifteen chapters can receive this recognition of being the best of the best.

In order to qualify for the Smythe Award, a chapter must be ranked excellent in all areas of chapter programming. This includes finances, scholarship, rush, pledge education, community service, alumni relations, campus involvement and intramurals.

This year's recipients represent chapters from all types of campuses, large and small, private and public, residential and commuter.

The award winning chapters vary in membership, from Beta Theta chapter at Cornell University with 64 men, to Alpha Nu at the University of Missouri-Columbia, which boasts 148 members.

Undergraduate enrollment figures at each institution are also different. Southwestern University (Alpha Omicron) maintains a stable enrollment of 1,000 students; the University of Minnesota (Beta Chi) has approximately 43,000 students.

Big or small, all of the Smythe Award winners have a common theme: they are the best on their campuses.

Eight of last year's winners managed repeat performances for 1987-88.

Theta Omicron at Indiana State University and Theta Lambda at Creighton University increased their consecutive awards total to eight and nine, respectively.

Beta Chi is this year's "rags-to-riches" story; the chapter was rechartered just three years ago.

Theta Chi chapter, located at Villanova University, is the "new kid" on the award winning row, having earned its charter in January 1984. The chapter is a classic example of an

ambitious, well-rounded fraternity at a young age.

East, west, north and south, each region is well represented by this group of winners.

While there doesn't appear to be one certain type of institution nor region most likely to host a Smythe chapter, there are certain characteristics shared by all of the top chapters.

### RUSH

All of Pi Kappa Alpha's Smythe chapters have made rush an area of priority concentration.

This year, Theta Omicron started an innovative trend in rush by inviting twenty high school seniors to campus for two days of orientation and familiarization with both Indiana State University and Pi Kappa Alpha. The men's names were received almost entirely from chapter members from the rushees' local areas.

Beta Phi chapter at Purdue University benefited from National Rush Director Tom Handler's motivational seminar on "rushing to win".

Alumni support is strongly utilized throughout Theta Lambda's rush program at Creighton University. Each semester features at least one alumni event during which rushees are invited to the home of a local alumnus for dinner.

The other Smythe chapters tell similar stories. In each case, Pi Kappa Alpha has attracted and pledged the best men at the university. There is no secret to this success. All it takes is chapter manpower, and getting a jump on the other fraternities — a proven formula for any Pike chapter.

Rush is a never ending process of gaining every edge over the competition, and is unquestionably the most important aspect of a successful fraternity.

## PLEDGE EDUCATION

After rushing a new class of men, the next challenge facing each chapter is to put them through an excellent pledge education program. The goal of a good program is to produce better brothers.

Delta Theta chapter at Arkansas State University has installed a model pledge education program and was rewarded at the National Convention with the Pledge Education Award in the Group III Division (one to nine fraternities on campus).

The Delta Theta pledge education program includes required study halls Sunday through Thursday nights, the requirement of joining a campus organization outside of PKA, a set educational program each week, philanthropy projects, and a point system for performance evaluation.

At the College of William and Mary, Gamma, the third oldest local chapter, has always carefully selected its pledge classes. In the 1st three researched years, Gamma has not had a single depledging, black balling, or other incident that would result in a pledge's not being initiated. That is the ideal: 100% retention rate. Needless to say, Gamma took home the overall Pledge Education Award at last year's Officers Leadership Academy.

## SCHOLARSHIP

The decision to attend a college or university should reflect the desire to improve one's education, one's knowledge of higher learning. All of this year's Smythe chapters have demonstrated that their members' performance in the classroom has enhanced Pi Kappa Alpha's overall image as "the best fraternity on campus".

All seven colleges at Cornell University are represented in Beta Theta chapter. This allows the chapter to provide in-house tutoring in most undergraduate course areas. The chapter maintains an excellent library resource center, and the Cornell University Interfraternity Council sponsors a free tutoring program available to all undergraduates. Beta Theta supports and utilizes this program. The All-Men's grade point average was 2.70 at Cornell; Beta Theta achieved an overall 2.95, which ranked fifth out of the forty-eight fraternities on campus.

Alpha Omicron also maintains extensive resources in its chapter library, requires grade reports for all pledges and uses an academic big brother program. The chapter's overall grade point average was 2.95, which ranked first of all fraternities on the Southwestern University campus. Alpha Omicron received a Certificate of Excellence for its scholarship program at the 1988 National Convention.

Theta Lambda chapter at Creighton University of Pi Kappa Alpha

Brothers from Alpha Nu chapter (Missouri-Columbia) won the prestigious Smythe Award.

sity offers various incentives to the academically dedicated brother. An "Academic of the Week" award is given out at weekly meetings to the brother who aces a difficult exam in his self-appointed "worst" subject.

Library resources, updated at the beginning of each semester, can be found in the study lounge of the Theta Lambda house, along with the Theta Lambda Blue Book, listing all classes taken by members of the Fraternity, a synopsis of each class, and an evaluation of the instructor.

## ALUMNI RELATIONS

A solid alumni relations program can serve as a catalyst to insure the success of a chapter.

The pledge education period is perhaps the best time to stress that being a Pike is not just a four-year commitment, but one that is lifelong.

Theta Omicron chapter at Indiana State University adheres to this theory, and it is evident in their continual success. The chapter has three major objectives relating to alumni relations which are to be achieved throughout each school year. Keeping the alumni involved is the first goal, achieved through correspondence and social events. Next, the chapter plans alumni events in such a way as to include undergraduate members. The third objective is to keep alumni in touch with each other, so they can continue to grow together after their college years have ended.

*Continued on next page.*

Members of Beta Phi chapter (Purdue University) accept their Smythe Award.

Beta Chi chapter at the University of Minnesota exhibits excellence on a large campus.

The Pikes at Theta Omicron published three alumni newsletters and one membership directory, and organized five alumni-related events. As a result of these combined efforts, the chapter walked away with the Alumni Relations Award at the National Convention.

At the University of Cincinnati, Alpha Xi chapter published four alumni newsletters and hosted four alumni related events, with 255 alumni in attendance.

Alpha Nu chapter at the University of Missouri-Columbia distributed three newsletters and hosted seven football weekend brunches with an average of fifty-five attending each weekend.

These chapters demonstrate one of Pi Kappa Alpha's most important philosophies:

membership in the Fraternity is lifelong, and the alumnus experience should be just as enriching as the undergraduate experience.

#### CAMPUS INVOLVEMENT

The best fraternities are composed of the best men. For some chapters, this refers to the presence of campus leaders and varsity athletes. Many of this year's Smythe winning chapters include both in their chapter memberships.

The president of the Blue Key and the Student Council are members of Alpha Kappa chapter at the University of Missouri-Rolla. Each chapter member is required to be in at

Beta Theta chapter at Cornell University claims representatives of all seven of the University's colleges.

least two campus organizations. Alpha Kappa's sixty-five members are involved in forty-seven different organizations. Thirty-eight members represent the chapter in twelve different honor societies. Five varsity baseball players at UMR are members of Pi Kappa Alpha. The chapter easily took the Campus Involvement Award in the Group II Division (ten to fifteen fraternities on campus) at the Memphis Convention.

The Pike profile is high in all areas of student government and varsity athletics at Colorado State University. Epsilon Theta chapter has more student government members than all other Greek groups on campus combined. Pi Kappa Alpha claims four of nine cabinet positions, four of twenty-four senators, and the 1988-89 president of the Student Body. The chapter also provides eight residence hall assistants, more than all the other fraternities.

On the playing fields, the leading rusher for the Rams football team, a top singles tennis player, and the second baseman for the Rams baseball team are all Epsilon Theta members.

Epsilon Theta's accomplishments in campus involvement are due, in large part, to the chapter's active recruitment of established campus leaders and to its public relations committee, which seeks out vacant positions on campus and recruits Pikes to fill them. The chapter also features monthly guest speakers at its meetings to inform members of campus and community opportunities.

#### COMMUNITY SERVICE

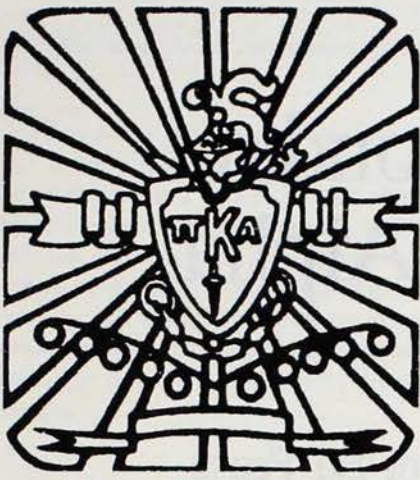

Critics of the American fraternity system often refer to community service efforts as "window dressing". Pi Kappa Alpha's group of Smythe chapters challenge this notion with their community service accomplishments.

Beta Chi chapter at the University of Minnesota sponsored its inaugural Pike Racquetball Marathon to support the Minnesota Special Olympics. The twenty-seven hour project began on Friday at 3:00 p.m. and ended on Saturday at 6:00 p.m. The whole community supported the event, and the Beta Chi Pikes raised \$5,785.

For the year, Beta Chi sponsored four events, participated in five others, worked 3,514 man hours, and raised a total of \$6,605 for various charities.

The Delta Theta Pikes at Arkansas State University held their annual Christmas party for the underprivileged children in the area. The chapter members took the children out for lunch, bought them toys and gifts, and threw a big Christmas party for the tykes, including a visit from Santa Claus.

The members of Delta Theta take great pride in their community service projects, and sponsored seven events this year, and participated in six others.

Not only were the Pikes at Alpha Nu chapter (Missouri-Columbia) instrumental in planning and participating in the Students Against Multiple Sclerosis "Rock-A-Like" competition this year, but they were one of the primary forces behind the University's victory over the 200-plus campuses that competed in the national event. This year, Alpha Nu raised over \$4,300 for the organization. They placed first in fundraising, second in talent, and first overall at the University of Missouri-Columbia.

#### INTRAMURALS

Eta Alpha chapter at Clemson University had one of its best years ever on the athletic fields. The chapter captured first place in four of six major sports, allowing the group to win the overall athletic championship easily.

Eta Alpha's softball team not only won the Interfraternity Council championship, but also won the intramural campus-wide championship as well as the Alpha Phi Omega fundraising tournament. Other IFC first place finishes for the Pikes included basketball, doubles handball, football, track and field.

For an unprecedented seventh consecutive year, Theta Omicron chapter captured the Fraternity All-Sports Trophy at Indiana State. This year's record setting performance included first place finishes in nine of the fifteen events. The first place finishes were in badminton, basketball, basketball-golf, free throw, softball, swimming, table tennis, volleyball and wrestling. Theta Omicron won the Intramural Award at the 1988 National Convention in the Group II Division (ten to fifteen fraternities on campus).

Gamma (*William and Mary*), Alpha Kappa (*Missouri-Rolla*) and Alpha Xi (*Cincinnati*) also finished first in their intramural fraternity divisions and won the all-campus crowns.

These chapters represent the best and the brightest — young men of whom Pi Kappa Alpha is proud. We salute them for their diligence, their determination, and their unflagging devotion to those qualities that makes us truly the Brotherhood of Excellence.

Epsilon Theta chapter at Colorado State University scored highly in the area of campus involvement.

## Gamma Delta chapter wins 1988 Newell Award

*University of Arizona chapter designated "Most Improved"*

In the fall of 1985, Gamma Delta chapter at the University of Arizona was barely above the twenty-five initiate minimum. Fifteen members were graduating seniors, and only four pledges existed to replenish the ranks. Internal receivables totaled \$10,000, and the chapter owed \$25,000 to creditors, including the University and the National Fraternity.

Through a membership evaluation conducted by the National staff that year, the group was honed down to seven committed men.

Through the concerted efforts of those men, along with local alumni and the National Fraternity, Gamma Delta now boasts 150 men. All local and national debts have been retired. Long range plans, including significant housing renovation, promise to insure the chapter's future success.

Gamma Delta won the National Fraternity's Rush Award at the 1987 Officers Leadership Academy.

Congratulations to  $\Gamma\Delta$  actives and alumni!

Gamma Delta chapter at the University of Arizona took the Newell Award at Convention.

# Values, Ethics and Conduct Challenge Pi Kappa Alpha in 1988-90

An Interview with new National President Ed Pease

*Edward A. Pease was elected, by overwhelming acclamation, to the national presidency at the 1988 National Convention in Memphis, Tennessee. The Shield & Diamond was privileged to interview our new national president on September 1, 1988.*

**Q.** *Where and when were you initiated into Pi Kappa Alpha?*

**A.** I was initiated into Delta Xi chapter at Indiana University in February of 1971.

**Q.** *What made you pledge ΠΚΑ?*

**A.** A number of things. I came from a small town, and I was at a big university. I thought I was prepared academically, however I wasn't ready for the other transitions that it takes to go from a small town to a big university. I had been very active in high school, but

when I went to IU, I was there on an academic scholarship and I thought I needed to spend all my time in the library. That's what I did for most of my freshman year, and I was miserable. I even gave consideration to transferring to a smaller school back home. What made it so awkward for me was the fact that I wasn't as involved as I had been in high school. That led me to look at student activities and fraternities. There were several guys in my residence hall who were going through rush, so I did too. What it boiled down to is that my best friends pledged Pike and they invited me to come with them. So I did.

**Q.** *Is it true that you almost depledged halfway through pledgship?*

**A.** As a matter of fact, I did depledge. I was still unsure about a lot of things in my life, including where I was going and what I wanted to do. I didn't have the background to understand what fraternity meant. I still had

a lot of misconceptions about social life and other things for which "fraternity" stood. I had grown up in an environment where relationships between men were athletic, more combat than confidence. I was learning a lot about human relationships, but I wasn't ready to accept them. I was scared. So I depledged and was sure that the Fraternity would be negative toward me and treat me badly. However, it did just the reverse. The members were understanding and supportive. It was then that I realized that aspect of fraternity. It was the depth of those relationships that made it all worthwhile.

**Q.** *What positions did you hold while you were in the chapter?*

**A.** I was a two term SMC and pledge education chairman.

**Q.** *What posts in the Fraternity have you held since graduation?*

**A.** After the Fraternity's reorganization in 1974, I became Midwest regional president. I left that when I joined the Fraternity's staff as director of alumni affairs in 1975-76. Subsequent to that I was a regional president again for the Midwest. I was a house corporation officer, an alumni association president, a chapter advisor, and a two-term national vice president.

**Q.** *Characterize each position and its effect on the Fraternity, starting with regional president.*

**A.** The Fraternity made a positive move in 1974 when it went to the region concept. It allowed us to focus our efforts into educational programming without relying solely on the Fraternity at the national level. There was a real interest in educational programs, and from day one there was a real enthusiasm for the conferences.

**Q.** *What about house corporation officer?*

**A.** I probably had more frustrations as a house corporation officer than I did in any other position I've held. There's always more to be done than there is money to do it with. But, I learned some good lessons about keeping up alumni relations and providing a means by which alumni can continue to support the Fraternity. Even if they can't contribute their time, they can help indirectly through finances.

**Q.** *Tell us about your stint on the Fraternity's professional staff.*

**A.** Being on the staff was a real challenge. We didn't have a full time director of alumni affairs prior to the time that I joined the staff, and we had not done a good job of cultivating our alumni through the years. Pat Halloran, who was the executive director of the Fraternity at that time, and the Supreme Council, sensed that need. I had worked part time for Indiana University's Foundation, which is the alumni fund raising arm of the University. Because of my experience, Pat asked me to come in and told me, with a few limitations, that I had carte blanche to set up the program the way I thought it should be done. That was a real challenge, and there were tremendous opportunities to increase fundraising and to begin programming for alumni associations. We also began focusing more attention on chapter advisors. All of those things have proven to be very important to the Fraternity's position today. It was a good move for the Fraternity, and I was fortunate to be a part of that.

**Q.** *How about chapter advisor?*

**A.** Chapter advisor is the best job in the Fraternity. It has, simultaneously, some of the greatest frustrations and some of the greatest rewards that can be experienced in this business. You work with undergraduates on a daily basis. You share their triumphs and you hurt when they hurt. You help them through a particularly difficult time in life, but also a particularly exciting time in life. They're trying to find out what they want to do with their lives and how the Fraternity can help them achieve those goals personally and professionally. You have an opportunity to see young men come in, grow, and develop into the kind of men that you'd be proud to call a son, or a brother. It's the most rewarding experience I've had in the Fraternity.

**Q.** *...four years as a national vice president?*

**A.** Serving on the Supreme Council is an opportunity that I'm grateful I've had. It forces you to deal with the business end of the Fraternity. We can't do all the programming we want to for the undergraduates unless we've got a solid support base from alumni, financially and otherwise. The Supreme Council allows you to channel the business end into the personal development end of the Fraternity, and that's exciting.

**Q.** *Who is Ed Pease, professionally?*

**A.** Well, by education, I'm an attorney. I graduated from Indiana University's law school. So, my primary profession is as an attorney. I was in private practice for seven years before I became general counsel for Indiana State University. In that job most of my time is spent in the practice of law, in this case trying to defend an institution from attacks by others and from its own mistakes. In that job I also teach on a part time basis at the University. I enjoy that tremendously. The president of our institution believes that administrators ought to spend time in the classroom so that they never lose touch with what's happening on campus. I spend about a third of my time serving in the Indiana Senate. Indiana has a citizen legislature, which means that we don't meet full time. Depending on the year and the issues before us, we meet three or four months a year. By virtue of my chairmanship of the judiciary committee in the Senate, I serve on a number of state commissions and agencies that deal with criminal justice, juvenile justice,

and trial courts. That takes up a day or so a week when we're not in session. Those are the primary demands on my professional time.

**Q.** *Outside of professional time and Pi Kappa Alpha, what personal activities do you enjoy?*

**A.** If you take out professional time and Pi Kappa Alpha, there's not a lot of time left. But I have been involved in a number of community activities. I have temporarily put those aside to serve the Fraternity as national president. The one activity that has taken most of my time, and which I enjoy the most, is the Boy Scouts of America. I have just resigned

as chairman of the East Central Region of the Boy Scouts of America for the Order of the Arrow, which is an honor society within the Boy Scouts. By virtue of that position I also sat on the National Committee on the Order of the Arrow. Scouting also involved serving as president of the Wabash Valley Council, which includes nine counties in Indiana and Illinois. In the past, I've served as a volunteer in Scouting on a number of national jamboree staffs, on the Philmont Scout Ranch staff, and on a number of other Boy Scout activities and events. My other community activities have included the YMCA, the Cancer Society, and the United Methodist Church as lay leader for several years. Now, however, virtually all of my time, other than my professional time, has been freed so that I can serve Pi Kappa Alpha as national president.

*Continued on next page.*

**Q.** *What issues will Pi Kappa Alpha be facing during the next two years?*

**A.** In the next couple of years the challenge for us is going to be built on the tremendous success we've had in the last ten or fifteen years . . . successes which have brought us to the top of the Fraternity world in a number of areas, such as the quality of our chapters, our expansion program and the outstanding undergraduates who are joining Pi Kappa Alpha. This is evidence that most of the things we've been doing in the last few years have been right. We're clearly moving in the right direction in providing an undergraduate experience that is positive.

The challenge before us, though, is to use those same energies to deal with issues of conduct which are sometimes alcohol related, and sometimes sexually related. We must deal with issues of human dignity, such as the way we treat other people; most notably the way we treat women. We must address problems such as date or acquaintance rape, and women's auxiliary groups (which we ceased recognizing in 1986). We must continue to reinforce in our young men the Fraternity's traditions of gentlemanly conduct and appropriate behavior. The issues have always been there, but in the last few years, partly through litigation, partly through bad conduct that got us bad press, they've received more attention. We need to direct the energies of the Fraternity toward a recommitment to the values of Pi Kappa Alpha. We can refocus our attention on the ethical development of our members and the precepts on which we were founded. Many other issues of conduct and behavior will follow. Finding a way to give leadership to the Fraternity at both the national and chapter level is the biggest single challenge that we face.

There are other issues we must face in order to insure the future of the Fraternity. Financially, we must endow a number of programs, through alumni support, that are currently being supported through undergraduate fees and dues. There isn't any question that our educational programs are among the best in the Fraternity world. But too much of our financial reliance for those programs is on undergraduates. We need to find a way to help alumni direct their resources toward endowing educational programs so that we will not be as reliant on undergraduate resources in the future as we've been in the past. There are very noticeable ramifications of that. The new Headquarters in Memphis, which is without a doubt the model for the Fraternity world, needs to be completely financed as quickly as possible. Alumni can help their chapters dramatically by helping the National Fraternity secure itself both in terms of its programs

and its facilities. Getting that message to alumni is going to be a key part of the next two years.

**Q.** *What kind of approach do you see your Council taking to these different issues?*

**A.** I believe that just as in the last two years, there will be a refocusing of attention on the ideals of the Fraternity. There isn't any

---

*“There isn't any question that we do the tangible things of the Fraternity very well. . . Our efforts are going to focus on a re-emphasis on the intangible. . . it is my goal to find some way to institutionalize the educational process of values development.”*

---

question that we do the tangible things of the Fraternity very well. Our men know how to rush. They know how to put together pledge programs, social programs, and they know how to do community service projects. Our efforts are going to focus on a re-emphasis on the intangible. We must remind ourselves of what we're all about. When it gets down to the bottom line, how to live a life of principle and how to live a life that makes others proud. That helps you understand yourself better. Those are the things we talk a lot about. Our real shortcoming has been in our inability to institutionalize that discussion in order to insure that dialogue takes place in chapter houses, and to make certain that undergraduates spend as much time understanding who they are as what they do.

This Council's opportunity, as well as its obligation, is going to be to work with the Memorial Foundation, the Educational Advisory Committee, and others, to try and

find ways to institutionalize that focus in the chapters.

**Q.** *What personal goals do you have during the next two years?*

**A.** I want to see the Memorial Headquarters, because of the fund raising efforts of the Memorial Foundation, debt free before the next Convention in Chicago in 1990.

I want to see us significantly along the road to endowing our major programs that provide services to the undergraduates. Even though both of these are responsibilities of the Foundation, we're all part of a team that needs to insure that those things happen. That's got to be a major priority.

I want to insure that the risk management program we have begun in the last few years is refined further and is made a very real part of programming in all of our chapters on an ongoing basis. It is a part of programming now in the overwhelming majority, but it only takes one or two who don't abide by it to put all of us in jeopardy. My primary goal is to insure that it is uniformly understood and supported.

Finally, it is my goal to find some way to institutionalize the educational process of values development. We've already spoken to the Memorial Foundation and the Educational Advisory Committee about putting together some of the best minds in the Fraternity to develop workshops, short courses and chapter programs whereby the values of the Fraternity can be discussed in a meaningful way, so that we can direct thinking toward values — not to *direct* values, but to direct *thinking* toward values.

**Q.** *With you during the next two years are going to be five alumni who will serve on the Supreme Council and see that you accomplish these goals. In two or three sentences, characterize each man, so that all our brothers can get to know them. Let's start with Bill Shaw.*

**A.** Bill Shaw is a man who is gentle but firm in his convictions about right and wrong. He is a quiet and principled man who cares deeply that undergraduates possess a sense of right and wrong. He brings that to the Council at a time when it's critical that we discuss those issues.

**Q.** *...Jerry Askew?*

**A.** Jerry and I go back a long time, even to the time that he was an undergraduate.

Jerry, by virtue of his professional training, and his current position as dean of students at the University of Tennessee, brings a knowledge of higher education and where it's going right now. That's going to be critical for our discussion about what is the proper relationship between fraternities and their host institutions throughout the country.

**Q.** ...Larry Lunsford?

**A.** Larry is also in higher education at Robert Morris College in Pittsburgh. Larry, like Jerry, brings a diversity of experience to the Council, from a resident counselor to a member of the Headquarters staff, to a regional president, to a member of the Educational Advisory Committee. Larry has also been actively involved in the professional associations of fraternity deans around the country. In fact, he served as president of the Association of Fraternity Advisors, which is a major national organization for fraternity deans, and a group with which IKA needs to improve relations.

**Q.** ...Charlie Dow?

**A.** Charlie has been involved as a regional president at some of the simultaneously most exciting and most frustrating times and places in the Fraternity. California, in the last few years, has been a place where IKA has seen some of our greatest success in expansion. So he brings a real knowledge of the expansion process to the Council. He has also had to deal personally with one of the most difficult cases involving chapter misconduct the Fraternity has experienced in the last few years. He knows firsthand how to deal with both these issues, and both are big ones for Pi Kappa Alpha.

**Q.** ...Starting his third term on the Council, Legal Counsel Dan McGehee?

**A.** Dan's experience in the Fraternity goes back a long way. He has been one of the people who has helped us in developing the Fraternity's risk management program during the last four years. He has been there as we've had to change from a system of purchased insurance to self insurance. He has helped us fashion the expectations of conduct that being self insured requires, and he is extremely knowledgeable in that area of the law.

of Pi Kappa Alpha

**Q.** You were on the staff twelve years ago; how have you seen the staff change, and what kind of staff can IKA boast?

**A.** When I came on staff in 1975 the Fraternity was just coming out of some of its most difficult days in the late 60s and early 70s, when many of the decisions affecting the Fraternity's existence were made. We came together at a time that was exciting because of its challenges. We're in that same kind of time again, exciting but challenging, though for different reasons now. The successes we've had in the last ten or fifteen years, I like to think, are built largely on the decisions that were made during those days in the early 70s. Since that time, the Fraternity has prospered and our staff has grown, and it has also grown in quality. There were some excellent men who served the Fraternity when I was on staff, and some of them are among my closest friends even today. But I only knew *our* staff in those days. Since that time I have come to know staffs from other national fraternities, and there's no question in my mind that IKA has the most capable, professional staff in the Fraternity world. We've got some of our biggest challenges facing us today, and we have the best staff to face them with.

**Q.** What kind of message will you deliver to the undergraduates during the next two years?

**A.** I'd like to see our undergraduates focus the same energy they have brought to

bear in bringing excellence to our chapter operations into personal development. By that I mean an emphasis on academic achievement, on their involvement outside the chapter house, in campus activities and community activities. Also, an emphasis on introspection about values and things that are important in life. I'm convinced that this will not only enrich the time that they spend together and strengthen the bonds that they share, but will also insure the excellence of this Fraternity into the next century.

**Q.** What message will you deliver to alumni over the next two years?

**A.** The successes we've seen in the last fifty years, the successes we've seen in the last ten to fifteen years, though they have been dramatic, can be transient.

The major opportunity for alumni in the next few years will be to give of themselves, either in their time or in their resources, to insure that the progress we've made is sustained. Many of the things we have done can be carried into the future if they are financially endowed. For instance, our Chapter Presidents Conference, our Regional Leadership Conferences, and our National Officers Leadership Academy. Those programs are among the best in the Fraternity world and an alumnus who wants to insure the quality of our operation in years ahead can give of himself, and of his resources, to help us endow those programs and insure our future.

## The 1988-90 Supreme Council

JERRY W. ASKEW

(University of North Carolina, *Tau* '73) was elected national vice president in 1986, and re-elected in 1988. AskeW has an extraordinary record of service to the Fraternity, as a member of the Educational Advisory Committee, a regional president and Memorial Headquarters staff member. He previously served on the Supreme Council as an undergraduate vice president. AskeW is dean of students at the University of Tennessee-Knoxville. He is active in his church and community, as a Presbyterian Church elder and as a member of various service and booster organizations.

CHARLES L. DOW

(University of Alabama, *Gamma Alpha* '63) was elected to the Supreme Council at the 1988 Memphis Convention. Dow's continuing work with Pi Kappa Alpha includes several terms as Alpha Sigma chapter advisor and as Golden West regional president. Dow is president of Envirospec, a contracting firm he founded. He is also active in the community through service in the Kiwanis Club, Goodwill Industries, United Cerebral Palsy and Satellite Senior Homes. Dow also works with various youth groups, such as Key Clubs and Builders Clubs. He is the lieutenant governor of Division Two of Kiwanis International. He and his wife Paulette reside in Pleasant Hill, California.

DR. LARRY W. LUNSFORD

(University of Tennessee, *Zeta* '71) won election to the Supreme Council at the 1988 National Convention in Memphis. He has served as North Atlantic regional president, and as a member of the Fraternity's Educational Advisory Committee. Lunsford has also served Pi Kappa Alpha as chapter consultant, resident counselor, chapter advisor, member of the 1986 Boston Convention Nominating Committee, and is an active participant in the Steel City Alumni Association. He received his Ph.D. from the University of Pittsburgh, and is employed by Robert Morris College in Pittsburgh as its assistant dean of students and works as a part-time instructor at The Pennsylvania State University.

WILLIAM R. SHAW

(University of Utah, *Alpha Tau* '53) was elected national vice president in 1986, and again in 1988, following service to the Fraternity as chapter advisor, regional president and national education commissioner. Shaw works as the public affairs director for Utah Power and Light Company. He and his wife, Janet, have four children, Jeff, Julie, Laura and Leslie.

DANIEL F. McGEHEE

(Southeast Missouri State University, *Epsilon Iota* '63) received his J.D. from the University of Tennessee. He has served since 1984 as national legal counsel on the Supreme Council, and at the 1988 Memphis Convention was once again appointed to serve in that capacity. McGehee works as an attorney in Knoxville, Tennessee with the firm of McGehee and Grubb. He is president of the Optimist Club of Knoxville and serves on the Board of Trustees of the National Multiple Sclerosis Society. McGehee's service to Pi Kappa Alpha has included terms as SMC and rush chairman, chapter consultant, director of chapter services, district president and regional president.

# Preface to the 1987-88 Annual Report

---

Brothers:

The academic year just concluded was one of achievement and challenge for Pi Kappa Alpha. In many ways, it was the Fraternity's best year ever. In others, it was among our most frustrating. Through it, your Supreme Council, under the leadership of National President Gary Menchhofer, wrestled simultaneously with the opportunities brought about by unprecedented growth and the problems created in some chapters by inattention to personal and collective ethics.

We can appropriately point with pride to pledgings of 6,420, initiations of 5,917, and total undergraduate membership exceeding 14,000 brothers. Each is a record in the history of the Fraternity. In expansion, we established four new colonies and installed four chapters, each a credit to its campus and to the good name of Pi Kappa Alpha. We reached a new level of achievement in overall chapter quality, with 108 of our 177 groups ranked above average or excellent. We completed the year with 81 chartered alumni associations, another record.

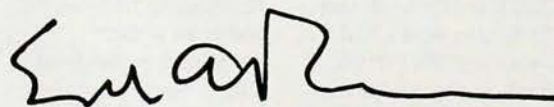

We moved from our former home at 577 University in Memphis to new quarters at 8347 West Range Cove, to a facility that also serves as a Memorial to all our brothers who gave their lives in service to our nation. It is a place that is not only spacious and functional, but imposing as well, worthy of the heritage of our beloved Fraternity.

It was also a year of challenges, most of our own doing. The Supreme Council and Headquarters staff struggled with the continuing problems of risk management which began in earnest a few years ago. We made progress there, but there were failures, too. Somehow, in our drive to *be* the best, some of our men have lost sight of what *makes* us the best — the principles on which our Fraternity was founded. As a consequence, we dealt with problems of alcohol and sexual abuse in cases that brought both shame and frustration to all of us.

Our new headquarters, though it is certainly a point of pride, has also left us with financial obligations still to be resolved. That challenge awaits the continuing generosity of alumni willing to insure the future of our Fraternity through their gifts to the Memorial Foundation.

The challenge for the years immediately ahead is to build on the successes of the past, the unprecedented achievement of the overwhelming majority of our undergraduate and alumnus brothers. We must turn the same attention to the values that started it all as we do the day-to-day operations leading to our current success. The experience of the last year is outlined on the pages that follow. Challenging and frustrating as it was at times, its major achievements and the men who made them happen lead us to the conclusion that it can indeed be done.

Faternally,

Edward A. Pease  
National President

### INTRODUCTION

Headlining Pi Kappa Alpha's last Convention year (1985-86) annual report were excerpts from a March 1986 TIME Magazine article expounding the tremendous rejuvenation of the Greek movement throughout this decade. Pi Kappa Alpha has been, and continues to be, the flagship fraternity of this movement. Undergraduate membership in Greek organizations across the country has swelled from 230,000 in 1980 to more than 450,000 in 1987. Of these nearly one-half million college age Greeks, over 14,000 undergraduates sported the Garnet and Gold of Pi Kappa Alpha during the 1987-88 academic year. Quite a rosy picture, but all is not well . . .

During the past academic year alone, four institutions of higher learning disbanded the Greek systems on their campuses; two of these systems were nearly as old as the universities themselves. A host of other colleges are beginning to question publicly the value of Greek organizations on their campuses, and whether these organizations are, or are not, a complement to the overall educational mission of the school.

At the root of this scrutiny of the Greek system are several unpleasant realities. At well over half of the institutions polled in a recent study, cumulative fraternity grade point averages were considerably below the all men's average. Hazing, once thought to have all but died out in the late 1970s and early 1980s, has reared its ugly head once again, contributing to numerous injuries and deaths (as well as considerable subsequent legal awards) in the past five years alone.

As a leader among national collegiate fraternities, Pi Kappa Alpha enjoys a status which many envy. With this esteem comes responsibility. Our fellow Greeks, the university community and the public in general are looking for an organization to lead the Greek system through these tumultuous waters.

Each of us has the opportunity to chart a course toward ultimate fraternal excellence for Pi Kappa Alpha, and the opportunity to take on responsibility as a role model in the fraternity world. □

## RISK MANAGEMENT

The area of risk management continues to be of grave concern and high priority to the Fraternity. The lack of proper risk management by some chapters continues to cause tremendous exposure to legal liability for the whole Fraternity. During the period of June 30, 1985 through June 30, 1986, the Fraternity's blanket insurance carrier experienced fourteen claims and incurred losses exceeding \$876,000. Two claims accounted for \$786,000 of those losses.

Claims during 1986-87 decreased significantly, but because of the 1985-86 record, the Fraternity was unable to obtain first dollar liability insurance at an economical rate for the 1987-88 year. Beginning on June 30, 1987, the Fraternity adopted a self-insurance program for all chapters and alumni organizations. Claims made to date involve seven incidents; total losses were \$38,250. However, seventeen incidents were reported during April and May 1988, some or all of which could eventually turn into claims.

The Fraternity is fortunate to still be able to provide a blanket insurance program for the chapters throughout the coming year. One major loss, however, could seriously alter this program and place an even heavier burden on all chapters.

The Fraternity continues to emphasize educational programming on this vital issue. A number of sessions on this topic were held at the 1988 National Convention. A special Risk Management Committee is working to develop policies and standards geared toward reducing risks. Regional conferences and individual staff visits to chapters this coming year will include similar educational sessions and implementation of refined policies. Only through such efforts will the Fraternity be able to maintain insurance protection. More important, only through such programming will our members learn to become responsible, contributing members of the Fraternity and society. That is one of the prime objectives of Pi Kappa Alpha — one which it has the unique opportunity to teach, and one which, hopefully, its members will learn. □

## SERVICES

The Chapter Consultant program is the most visible, most effective, and most valuable service offered by Pi Kappa Alpha. Chapter members, officers, advisors and advisory boards have utilized the consultant program to better themselves and become more effective in their own fraternal duties and responsibilities.

The National Fraternity has divided the country into five main regions, each of which is traveled constantly by a member of the Chapter Consultant corps. Every chapter and colony is visited at least once each school year by a consultant. Consultants assist each chapter

in identifying its strong and weak points, and then provide advice on how to improve on those strengths and overcome existing weaknesses. A report is given to each chapter documenting everything that was covered during the consultant's visit. In that report, the consultant rates each program area and determines an overall proficiency rating for the chapter. The overall proficiency rating allows the chapter to compare its performance with Pi Kappa Alpha's national standard of excellence.

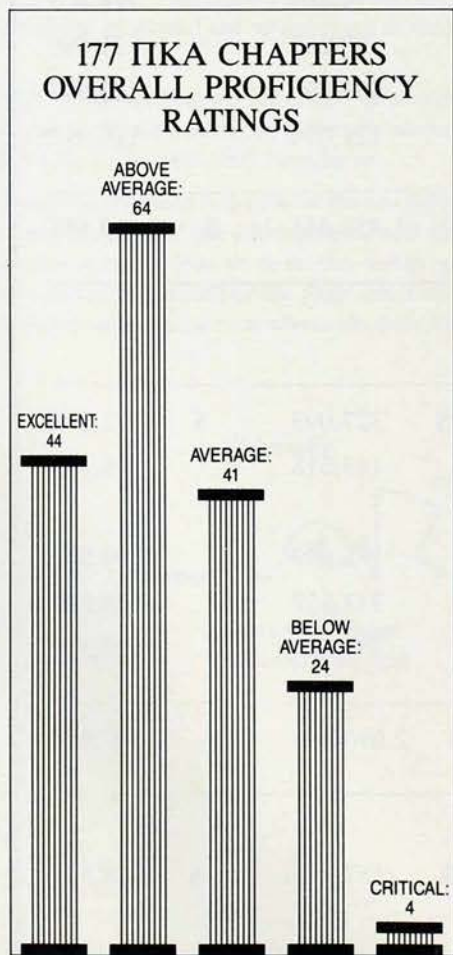

As of May 8, 1988, all of Pi Kappa Alpha's chapters had received their yearly visits. A breakdown of the overall proficiency ratings given to our 177 chapters follows:

Excellent	44 chapters
Above Average	64 chapters
Average	41 chapters
Below Average	24 chapters
Critical	4 chapters

At the end of the 1987-88 school year, Pi Kappa Alpha had 177 chapters and seven colonies. All 184 received at least one visit, and the consultants were able to meet almost all special visitation requests. Over the year, seventeen chapters received more than one visit.

The normal consultant visit lasts 3-4 days. This year, twenty-five of the total 201 visits made were extended visits, and ten of those twenty-five were longer than one week in length.

Pi Kappa Alpha looks forward to serving its undergraduates and alumni in the upcoming year, and to continuing its tradition of advancement and improvement. □

## COMMUNICATIONS

Pi Kappa Alpha stands out among fraternal organizations for its unique in-house communications department, which includes state-of-the-art typesetting, composition, editing and printing facilities. This advantage allows the Fraternity great control over the content, quality and professional appearance of its publications.

Responsible this year for the Fraternity's publications are Louis B. Quinto, editor of the *Shield & Diamond*, and Barbara E. Perkins, associate editor of the *Shield & Diamond*, who was promoted in July 1987 to the position of communications manager. Melody S. Alberston worked during 1987-88 as production assistant in the communications department, and Rick Sowards joined the Memorial Headquarters staff in April 1987 as head of printing operations.

Over the past year, all Pi Kappa Alpha's forms and printed materials, including the *Modulogue* educational publication series, have been put onto diskettes for use with the Fraternity's new typesetting system, allowing easy updating and modifications to all publications. In addition, the system's sophisticated composition capabilities have been utilized to improve the appearance and dramatically cut production time for the *Shield & Diamond*, as well as the Fraternity's three newsletters, *Inside Line*, *Forum*, and *Alumni Adviser*.

These publications have been received enthusiastically this year by the Fraternity's alumni and undergraduate audiences. The *Shield & Diamond* took third place honors in the Annual Report Awards Division at the College Fraternity Editors Association's Summer 1988 meeting, and has been expanded from 36 to 40 pages. The amount of information contained in the newsletters has increased, and overwhelming response from the undergraduate members of the Fraternity has prompted consideration of a format change to allow chapters to display that newsletter (designed for them) more easily on chapter house bulletin boards.

Further plans for the communications department include the purchase of hardware/software to allow transferral of information from personal computers to the Fraternity's typesetting equipment, eliminating the time and manpower needed for rekeyboarding, and allowing authors to compose copy on their own personal computers.

Also in the planning stages is the 100th Anniversary Issue of the *Shield & Diamond*. First published in 1890, the *Shield & Diamond* has grown from a small journal to the contemporary publication we know today. The 100th Anniversary Issue will be a 200-250 page collector's edition, tentatively scheduled to be available for Christmas, 1989. □

## EXPANSION

As another year comes to an end, Pi Kappa Alpha has once again proved proficient in its expansion efforts, establishing four colonies and installing four chapters.

This marks the third straight year in which Pi Kappa Alpha has established at least four colonies. Over the past seven years the Fraternity has founded twenty-one groups. These statistics show consistency within the well developed program.

This consistency is the key to Pi Kappa Alpha's long term success in expansion. The program is at a well established stage and now must show endurance. However, the Fraternity must continually update the program to reflect changes in the college community and society in general.

The Fraternity plans to maintain consistency by adding new colonies as well as developing the program further through the use of more resource materials and increased alumni involvement. Expansion sites for Fall 1988 include Southern Illinois University. □

### PI KAPPA ALPHA'S CURRENT COLONIES:

**University of Nevada-Reno**

**Florida Southern College**  
(*Delta Delta*)

**Michigan State University**

**University of Colorado**  
(*Beta Upsilon*)

**Cal Poly-San Luis Obispo**

**Columbia University**

**University of California**  
**Santa Barbara**

### COLONIES INSTALLED DURING THE 1987-88 ACADEMIC YEAR:

**Ohio University**  
(*Gamma Omicron*)

**Rose-Hulman Institute  
of Technology**  
(*Iota Delta*)

**California State University**  
**Long Beach**  
(*Iota Epsilon*)

**Randolph-Macon College**  
(*Iota Zeta*)

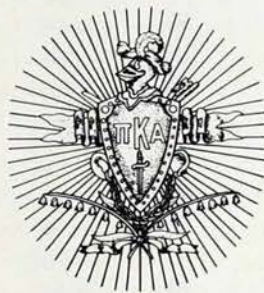

## HOUSING

The National Fraternity realizes that housing is important to its chapters. The Fraternity's role in chapter housing is primarily that of a lender. Through the Chapter House Fund, administered by the Pi Kappa Alpha Housing Commission, loans are granted to qualifying chapters and house corporations for the purchase, construction or remodeling of housing, or the acquisition of furnishings and equipment. Current loan limits are \$100,000 for real estate and \$15,000 for furniture.

Loans granted in 1987-88 increased substantially over the previous year. In 1987-88, the Chapter House Fund committed loans to Alpha Eta (*University of Florida*), Beta Chi (*University of Minnesota*), Delta Zeta (*Memphis State University*), and Delta Theta (*Arkansas State University*) for the acquisition, construction or maintenance of competitive housing. Beta Nu (*Oregon State University*), Delta Xi (*Indiana State University*), and Theta Upsilon (*Tennessee Tech University*) chapters were granted loans to purchase furnishings and equipment for their chapter houses. These loans totalled \$439,100 in new funds with \$184,979.37 disbursed by the end of the fiscal year.

One mortgage was subordinated to a local \$75,000 loan to allow the Alpha Rho (*Ohio State University*) House Corporation to restructure its debt and provide funds for repairs.

Already during this new fiscal year, the Housing Commission has committed one loan for \$15,000 to Gamma Sigma (*University of Pittsburgh*) and has two applications pending. □

## ALUMNI ASSOCIATIONS

The 1987 academic year was a busy one in the area of alumni associations. Eight new associations were chartered during the year. A warm congratulations is extended to each of them from the entire Fraternity.

The Fraternity now has eighty-one chartered alumni associations providing continuous support for Pi Kappa Alpha. Alumni interested in starting an alumni association in their area should contact Steven H. Cox, Director of Foundation Programs, at the Memorial Headquarters. □

Highlighting another successful year was the construction and occupation of Pi Kappa Alpha's new Memorial Headquarters. This magnificent structure, located at the new Southwind Development in east Memphis, literally doubles the available space for the Fraternity's administrative operations, museum and historic displays, and meetings. Built in the Jeffersonian architectural style of the University of Virginia and Thomas Jefferson's Monticello, the new Memorial Headquarters is dedicated, as was its predecessor at 577 University, to the memory of those brothers who made the ultimate sacrifice in defense of our country.

## MEMBERSHIP RECORDS

Both pledgings and initiations rose during the past academic year.

Pledgings reported during 1987-88 totaled 6,420, a 7.8% increase over the figure of 5,917 reported for 1986-87.

Initiations reported for 1987-88 totaled 4,745, an increase of 7.3% over the figure

of 4,398 reported for 1986-87. Following this report is a statistical breakdown for each chapter, noting each chapter's current size, 87-88 pledgings, 87-88 initiations, and the total chapter's initiates to date. □

# The Order of West Range

In 1986 the Memorial Foundation created the Order of West Range. This order was established to recognize those alumni brothers of Pi Kappa Alpha who, through their work for the Fraternity, within the community, and in society have advanced themselves. All of the inductees into the Order of West Range share a common bond — that same common bond shared by our Founders when they met on March 1, 1868 in 47 West Range at the University of Virginia. That bond is a commitment to advancing the interests of those whom we deem worthy of our regard.

## QUENTIN WOOD

The first inductee into the Order of West Range at the 1988 Memorial Foundation Luncheon was Quentin Wood, a loyal member of the Fraternity, who also received the Distinguished Achievement Award, and has achieved an outstanding record in his profession.

A 1946 initiate of Beta Alpha chapter at Penn State University and a native of Pennsylvania, Quentin Wood has had a successful career with one of the nation's largest petroleum distributors, Quaker State Oil Refining Corporation.

Wood became associated with Quaker State in 1948 as a petroleum engineer at the corporation's Bradford, Pennsylvania production office. In 1951 he was promoted to chief engineer, and in 1965 to manager of the production division. When Wood was elected vice president of production and corporate director in 1968, he moved to Quaker State's home office in Oil City, Pennsylvania. In 1970, he was elected executive vice president and in 1973, president and chief operating officer. In 1975 he became president and chief executive officer, as well as a director, of Quaker State. In May 1982,

he became chairman of the board and chief executive officer of the company. On July 1, 1988, Wood retired as chief executive officer and now serves as chairman of the board.

Quentin Wood has served as a past president of the board of trustees of the Pennsylvania State University, and currently serves as one of its trustees. He has been a past president of the Bradford District Pennsylvania Oil Producers Association; a past chairman of the Pennsylvania Oil and Gas Conservation Commission and a past chairman of the Technical Advisory Committee for the Pennsylvania Oil and Gas Act of 1955. He has served as a director on other associations such as the Melon Bank National Association, the American Petroleum Institute, the Ohio Oil and Gas Association, and the National Petroleum Refiners Association.

Wood also served in the United States Army's Air Force from 1943-46 as an officer and a pilot. During that time he served thirteen months in combat service in China with the 14th Air Force, better known as the Flying Tigers.

## ROY HICKMAN

Roy Hickman, inducted next into the Order of West Range, is a long time servant to both Pi Kappa Alpha and community. He served the Fraternity as president from 1940-1946, one of the longest terms held by any individual as national president. He was born in Chattanooga, Tennessee and graduated from the University of New Mexico in Albuquerque, where he was initiated into Beta Delta chapter in 1924. He is now retired and resides in Birmingham, Alabama. During his long career he served as chairman of the board of the Alabama Engraving Company and Platemakers, Inc. In Birmingham, he has served as president of the

Chamber of Commerce, the Sales Executives Club, the American Ordinance Post, the Downtown Club and the Executives Club. He is a past director of the National Tuberculosis Association and past president of the Alabama Tuberculosis Association. He served as a civilian aide to the Secretary of the Army for the State of Alabama, and is a member and past chairman of the Advisory Board of the Salvation Army in Birmingham. A Rotarian since 1935, Hickman is a member and past president of the Rotary Club of Birmingham. He also served as Rotary International president from 1972-1973. Before that time he was third vice president, director, district governor, committee chairman and member. He has served as a member of the Rotary Foundation Trustees from 1973-79, and as a member of its executive committee from 1974-76. He also served as chairman of Rotary International's Finance Committee.

## ANDY KNIGHT

Andy Knight, the third Order of West Range inductee of the 1988 Convention, was initiated into Pi Kappa Alpha in 1923 at Alpha Pi chapter of what was then Howard University, now Sanford University in Alabama.

Knight is now retired, but practiced law professionally. He graduated from Howard in 1926, and went on to receive his law degree from Harvard University. While an undergraduate, he served Alpha Pi chapter as secretary, vice president and president. In 1948 he was elected national president and served until 1950. He was a joint chairman of the 1968 Pi Kappa Alpha Centennial Commission, and is also a past president of the once very active Birmingham Alumni Association. In 1983 he received Pi Kappa Alpha's Loyalty Award.

A resident of Birmingham, Alabama, Knight

Quentin Wood received the Order of West Range at the 1988 Convention.

has become well known in his community. He has served as chairman of the Board of Education for Jefferson County, is a life deacon with the Mountainbrook Baptist Church, a former vice president of the Birmingham Rotary Club, a former president of the Birmingham Country Club and a former president of the Alabama Symphony Association, and a former council president for the Birmingham Area Boy Scouts of America.

#### VIRGIL McBROOM

Virgil McBroom, the fourth inductee into the Order of West Range, was initiated into Beta Eta chapter at the University of Illinois in 1925. In 1980 at the New Orleans Convention, McBroom was elected national president of the Fraternity. Previously, he served three terms as a Supreme Council vice president. He had also served as district president, chairman of Pi Kappa Alpha's real estate commission, a trustee of the Pi Kappa Alpha Endowment Fund, and as chairman of the Endowment Fund from 1972-80. A retired lieutenant commander of the U.S. Navy, McBroom is a member of the American Legion, VFW, Elks, Masonic Lodge, and of the Navy League. In 1978 he received Pi Kappa Alpha's Loyalty Award.

#### MORGAN WOODWARD

Morgan Woodward, also inducted into the Order of West Range, has a face familiar to many. Over the past thirty years he has appeared in over 250 films, twenty-nine motion pictures, fifteen television movies, and has guest starred on nearly every series made for television.

Woodward got his start in show business when he appeared in the Walt Disney film *The Great Locomotive Chase*. Also appearing in that movie was Pi Kappa Alpha brother Fess Parker (star of *Davey Crockett* and *Daniel Boone*), who had been Woodward's classmate at the University of Texas, where he was a 1948 initiate of Beta Mu chapter.

Two roles for which Woodward has received great acclaim include "the man with no eyes" in the film *Cool Hand Luke* (which also starred Paul Newman), and his current role as Punk Anderson, close friend and confidante of the Ewing family on the long running television series *Dallas*.

In 1981 the Fraternity recognized Woodward as a recipient of the Distinguished Achievement Award. He is the first brother in the entertainment business to receive that award, and the first entertainment professional to be inducted into the Order of West Range.

#### PAT BOWLEN

Pat Bowlen, a 1963 initiate of Beta Omicron chapter at the University of Oklahoma, was inducted into the Order of West Range at the Memorial Headquarters Awards Luncheon during the 1988 Convention.

For the last four years, Bowlen has been the owner of the National Football League's Denver Broncos. Since 1985, when he acquired 100% ownership of the team, Bowlen has remained active in the day to day operations of the football club.

Pat Bowlen was born in Prairie du Chien, Wisconsin. When he graduated from the University of Oklahoma, he earned degrees in both business and law. He has real estate and natural resource holdings in Alberta, Canada as well as real estate holdings in Colorado, Arizona and California.

An outstanding athlete in his own right, Bowlen has competed in the Iron Man Triathlon, and also competes in other triathalons and marathons.

He is a member of several clubs and societies, including the Young Presidents Organization, the Canada and Edmonton Bar Association, and the Law Society of Alberta.

Past National President Garth Grissom received the 1987 Loyalty Award.

## Fraternity Recognizes Award Winners for Loyalty, Chapter Advisor of the Year

Garth C. Grissom, Pi Kappa Alpha's 1987 Loyalty Award recipient, was initiated into Alpha Omega chapter at Kansas State University in 1949. He graduated from Kansas State in 1951 and went on to Harvard to receive his law degree. Today he is a partner in the law firm of Sherman and Howard in Denver, Colorado. In 1985 he was elected president of the Denver Bar Association and served as president for one year. His service to Pi Kappa Alpha on the national level is extensive. In 1964 he was appointed by the Supreme Council to serve as national counsel, and he did so for two terms. In 1968 at the Richmond Convention he was elected our Fraternity's national president. In 1970 he was appointed and served on the Fraternity's Chapter Housing Commission. He served for seven years and during that time also served as chairman. In 1978 he was elected as a trustee of the Memorial Foundation and

served as the Memorial Foundation president from 1981-83. Today, he is very involved with the Campaign for Pi Kappa Alpha. In June he was appointed by the Supreme Council to serve as a trustee of the Pi Kappa Alpha Endowment Fund.

Richard Ogle, the 1988 recipient of the Pi Kappa Alpha Loyalty Award, is a 1961 initiate of Gamma Alpha chapter at the University of

Alabama. As an undergraduate, he served as president of his pledge class, rush chairman, vice president, and president. Upon his graduation from the University of Alabama, he served as a member of the Memorial Headquarters staff as a chapter consultant during 1964-65. In 1965 he left the staff to become a resident counselor. He served as a chapter advisor, and also as a district president. In 1972 he returned to the national scene when he was elected to the Supreme Council as national vice president. In 1974 he was appointed as the national legal counsel to the Supreme Council. In 1976 he was elected our Fraternity's national president. In 1979 he was elected to the Memorial Foundation, and served until 1985. He was vice president from 1982-83 and president from 1983-84. Ogle is currently a resident of Birmingham, Alabama and a partner in the law firm of Schoel, Ogle, & Benton.

The 1988 Chapter Advisor of the Year Award was presented to Dr. Raymond R. Jenkins Jr. of Arlington, Texas.

Dr. Jenkins is a 1954 initiate of Beta Mu chapter at the University of Texas. After graduation, he was accepted to the Baylor Medical School in Houston, Texas, where he went on to receive his medical degree. In 1977 he decided to change his practice from general medicine to a specialty in radiology.

He has been chapter advisor for Eta Upsilon chapter at the University of Texas-Arlington since 1984. Prior to that, he was chapter advisor for Beta Mu at the University of Texas-Austin from 1963 to 1969.

Dr. Jenkins is president of the Arlington chapter of the Texas Ex-Student Association. He is also the commander of the Medical Detachment for the Confederate Air Force, an organization committed to the restoration and maintenance of World War II airplanes.

*Memorial Headquarters Dedicated August 15, 1988*

On August 15, 1988, over 1,000 alumni, undergraduates and guests gathered to dedicate the Fraternity's new Memorial Headquarters.

The one hour ceremony included remarks from Foundation President Joseph J. Turner Jr., (then) National President Gary E. Menchhofer, and Executive Vice President Raymond L. Orians. Past President of the Foundation George W. Denton was master of ceremonies for the event.

In honor of the building's dedication to the memory of those brothers who died in uniform for our country, the ceremonies began with the presentation of the colors, a twenty-one gun salute, and taps. This portion of the ceremony was performed by the United States Navy Crackerjack Marching Unit from the Millington, Tennessee Naval and Technical Air Base.

In his remarks, Foundation President Turner asked those gathered to remember

the people and events which brought Pi Kappa Alpha to this point in the Fraternity's history.

Executive Vice President Orians told the crowd that the dedication caps twenty years

of discussion and planning to provide the Fraternity with more physical space for its needs:

"This new headquarters provides the

modern facilities and environment whereby our staff will be able to provide better programs, and administer those programs more efficiently. The museum and library will allow us to enhance the history and the future of our grand Fraternity through a better and larger display of our artifacts, and the accessibility to resource materials so important to our ever-changing times."

"This building symbolizes the true ideals of Pi Kappa Alpha and her rise to prominence as a truly great Fraternity," National President Menchhofer said. "The rotunda traces our lineage back to the University of Virginia. Everything about this building embodies the perfect examples, and serves us as a reminder to lead exemplary lives as individuals."

On hand for the dedication were all except two of the living past national presidents. Shelby County Mayor William Morris (*Delta Zeta '53*) and Germantown Mayor Warner "Rusty" Hodges III (*Sigma '71*) welcomed Pi Kappa Alpha to its new home.

A pictorial of the building will appear in the December issue of the *Shield & Diamond*.

# Foundation Annual Report

## *Memorial Foundation's Fortieth Year Highlighted*

The Memorial Foundation is wrapping up its fortieth year of service to Pi Kappa Alpha, and what a year it's been!

This year saw the construction and dedication of the new Pi Kappa Alpha Memorial Headquarters, and the launching of the Campaign for Pi Kappa Alpha, a \$6 million capital campaign entitled *Seizing the Opportunity*.

The Foundation has grown in many ways since it was established in 1948. The role of the Foundation is to assist the Fraternity by providing scholarships, student loans and funding for all national educational programming. The Foundation is also the owner of the Fraternity's Memorial Headquarters.

The Foundation is governed by a volunteer alumni board of twelve trustees. Originally, the board was made up of five alumni trustees. Over the years, it grew to seven, then to nine, and in 1985 the board increased to twelve. Each trustee of the Foundation is elected to a four year term, and cannot serve more than two consecutive full terms. Currently, three trustees are elected each year.

The officers of the Foundation include the president, president-elect, secretary and treasurer. The officers are elected by the trustees, and each serves a two year term. Officer elections are held in off-convention years (odd-numbered years). The next election of officers will occur in August of 1989.

As the Fraternity has grown, so has the Foundation, in order to meet the Fraternity's needs. With alumni support the Foundation has been able to provide our undergraduate brothers with top notch educational programs. These programs include the fifteen annual regional leadership conferences, the annual SMC (Chapter President) Conference, and the biennial Officers Leadership Academy. The Foundation also administers forty-

two alumni sponsored scholarship endowments, thirty-five annual scholarships, financial recognition of those undergraduates who are initiated into prestigious honoraries such as Phi Beta Kappa and Phi Kappa Phi, and recognition of six outstanding graduating seniors with the Powers Awards.

### **THE CAMPAIGN FOR PI KAPPA ALPHA**

In December, the Foundation announced the Campaign for Pi Kappa Alpha. The Campaign is the result of over two years of review and plans for Pi Kappa Alpha and its future.

The goal of the Campaign is to raise \$6 million, to endow the various leadership and educational programs of the Fraternity, and to retire the mortgage of the new Memorial Headquarters.

As a part of the announcement of the Campaign, the Foundation, with the support of local alumni, held seven receptions in major metropolitan areas. These cities included Indianapolis, Atlanta, Cincinnati, Birmingham, Orlando, Chicago and New York City.

At each reception, alumni were provided with information about the Campaign and also viewed the Foundation's video, which discusses the fund raising goal. (Then) National President Gary E. Menchhofer, Capital Campaign Chairman William LaForge and Foundation Executive Officer Lou Quinto attended each reception to meet alumni and answer questions. More receptions are planned for the coming year.

"We are happy with the response that we have been receiving from all of Pi Kappa Alpha's alumni across the country," Foundation President Joseph Turner says. "Since we announced the Campaign, we

have already received \$2 million in pledges and gifts."

"The Campaign for Pi Kappa Alpha is the first major fund raising effort that the Fraternity has attempted since 1948, when the Foundation raised the money to build the first Memorial Headquarters," reflects Turner, "Since then we have always sought annual alumni gifts to support the daily operation of the Foundation. However, the time has come to endow all of our programs, to insure their existence in the future."

William LaForge, the Foundation's president-elect and current Campaign chairman, points out that in 1973 the Fraternity's annual leadership school was held for the last time. It was revived in 1983 as the biennial Officers Leadership Academy.

"The late sixties and early seventies were rough years for Pi Kappa Alpha," LaForge notes. "Unfortunately, cutbacks had to be made in order to maintain the day-to-day services which the national Fraternity provides to all its chapters. As time passed, good management, along with the comeback of fraternities on campuses across the country, helped Pi Kappa Alpha to survive... but it was rough. The Foundation, through the Campaign, hopes to insure that current programs never have to be cut, and more importantly, that they continue to improve and adjust to meet the needs of our undergraduates over the years."

Today, leadership development and educational programming has become an important service which all national fraternities provide to their undergraduates. In some ways it has always been present in the Fraternity. However, it has never been provided to the extent or in the professional manner which it has today.

Undergraduates from 112 chapters attended the 1988 SMC Conference. The Regional Leadership Conferences held throughout the year were also very well attended, and highly popular with the undergraduate members of Pi Kappa Alpha.

### REGIONAL LEADERSHIP CONFERENCES

The educational program of Pi Kappa Alpha that reaches the highest number of undergraduates each year is the Regional Leadership Conference. There are fifteen

Regional Leadership Conferences each year. These programs are put together by the regional president, a volunteer alumnus, with the help of the Pi Kappa Alpha Memorial Foundation staff. These conferences are held during the academic year, usually between the months of October

and March. Last year over 3,000 undergraduates attended these weekend conferences. During the weekend, undergraduates are exposed to sessions on chapter management and personal development. All undergraduates attend at their own expense. In some instances,

undergraduates will travel eight or more hours in order to participate.

Chapter advisors within the region are also invited to attend. During the conference, special time is put aside for advisors to attend sessions designed specifically for them. During the past year fifty percent of all chapter advisors attended these conferences.

At all conferences, outside authorities, alumni, and members of the Fraternity's professional staff attend as speakers. For all participants, this is an opportunity to hear from experts and to share ideas for successful programming.

#### THE SMC (CHAPTER PRESIDENT) CONFERENCE

The SMC Conference continues to be the best educational program that Pi Kappa Alpha offers to its chapters. Pi Kappa Alpha is also the only fraternity to offer this type of conference to its undergraduates.

The SMC Conference is held during the second weekend in January each year. In 1973, when the Fraternity introduced this conference, thirteen SMCs attended the conference. Since that year, the conference has grown in popularity and in size.

During this conference the professional staff of the Fraternity is able to meet with chapter leaders and discuss solutions to problems that they will encounter during their terms. All of the sessions at the conference deal with chapter management.

This past year, Pi Kappa Alpha anticipated another record-breaking attendance. Over 140 SMCs had pre-registered for the conference. Unfortunately, Mother Nature had other plans. The day before the Conference, eight inches of snow fell on Memphis and other areas of the country, making travel difficult. When the conference was over, only 112 chapter presidents from Pi Kappa Alpha's 180 chapters had been able to attend. Each year the Fraternity hopes to attract all of its SMCs to Memphis for the conference. Hopefully, that goal will be achieved at the next SMC Conference.

Each SMC attends the conference at his own expense. In many instances, local alumni associations and house corporations realize the benefit of having the chapter's chief executive officer attend the conference, and pay for his travel and lodging expenses. The Foundation covers all meals and conference costs, which include bringing in outside speakers to facilitate the sessions.

### STUDENT LOANS

For a number of years, the Memorial Foundation has made student loans available to deserving undergraduates of the Fraternity. In the past year, the Foundation loaned \$33,000 to students.

In order to qualify for a loan, the student must have at least a 2.5 cumulative grade point average, be a full time student, and show need for a loan. Based upon these criteria, a student may receive up to \$750 a semester, and up to \$1,500 a year.

The student loan program is also addressed in the Campaign for Pi Kappa Alpha.

### THE NEW PI KAPPA ALPHA MEMORIAL HEADQUARTERS

Finally, this year saw the completion and dedication of the new Pi Kappa Alpha Memorial Headquarters in Memphis, Tennessee. It marks the end of nearly three years of planning for the Foundation.

Since 1968, Pi Kappa Alpha looked at the possibility of providing more space for the Fraternity's professional staff and archives. Over the last fifteen years, several plans were studied that called for additions to the Memorial Headquarters at 577 University Boulevard, across the street from Rhodes College in Memphis, Tennessee.

In 1985, the Foundation approved of a plan to build an addition to that building. The cost of the addition would have been \$1.4 million. However, very shortly after

those plans were made, Rhodes College made a bid to purchase the building in order to expand its campus.

Nine months after Rhodes' initial bid, the Foundation accepted the purchase price of \$1.5 million. In the meantime, the Foundation had already begun to look at potential sites, both in and outside of Memphis, on which to build a new Memorial Headquarters. After careful review, the decision was made to stay in Memphis. Shortly after that, plans for the construction of a new Memorial Headquarters were approved.

The Foundation, as part of the Capital Campaign, is seeking \$1.9 million to retire the mortgage on the new building. This money, plus the proceeds from the sale of the old Headquarters, will provide Pi Kappa Alpha with a debt-free facility. □

In another decision, George W. Denton, past president of the Foundation, was named trustee emeritus.

Menchhofer joins the Foundation after finishing his term as national president at the Fraternity's convention in August. He carries a strong resume of Fraternity experience with him to the Foundation. As an alumnus, he

tion, Great Lakes regional president and was a two term national vice president.

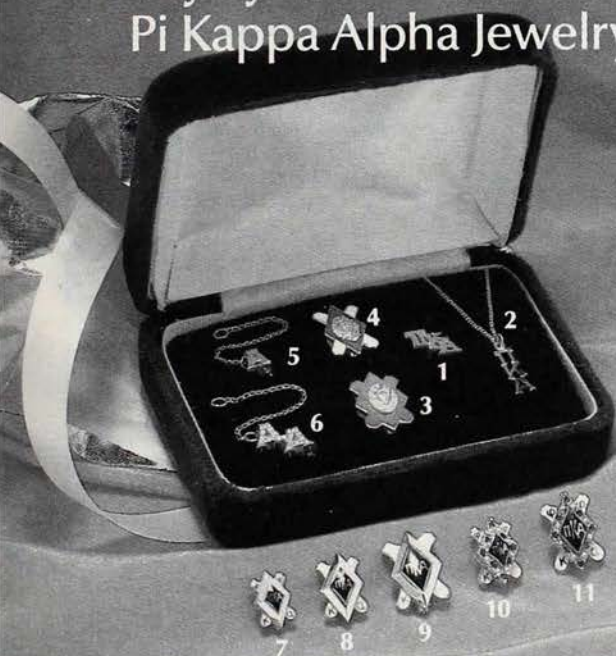

The Foundation also appointed Menchhofer to serve as chairman of the Campaign for Pi Kappa Alpha. He will officially assume the post in December, when current Campaign Chairman William LaForge's term expires.

Tommy Turner is also a well known brother on the national level. In 1980 at the New Orleans Convention, he was appointed legal counsel to the Supreme Council. He served

Fraternity as a chapter advisor for Epsilon Gamma at Texas Tech. He is currently president of that chapter's house corporation. Turner has also served as Lone Star regional president.

New Trustee Emeritus George Denton was elected to the Foundation in 1982 and served two consecutive terms as a trustee, during which he was secretary. He also served as president of the Foundation for three years.

# SPACE AGE SPEAKER

**UNIVERSAL®** Company develops exciting new technology that allows speaker placement anywhere in your home without speaker wires.

## **TECHNOLOGICAL BREAK-THROUGH**

Highly acclaimed in *The Wall Street Journal* as one of the most exciting new products in the '87 Consumer Electronics Show. The UNIVERSAL Speaker System enables you to listen to your favorite music (records, cassettes, reel tapes, CDs, or AM/FM radio) throughout your home without having to run miles of speaker wire everywhere. Simply plug in the UNIVERSAL transmitter into the tape jacks of your receiver, and then plug in the UNIVERSAL speakers into any household electrical outlet. The music is transmitted through your home's wiring. **No Speaker Wires are Needed!** And the sound is great; with deep, rich bass and crystal clear highs.

## **GREAT SOUND ANYWHERE**

Enjoy music on your patio, by the pool, in the bedroom, bathroom, while working in the garage or even at the office. You can have as many speakers as you have outlets, without the worry of speaker wiring running endlessly through

your home. Place one, two, or four speakers in a room, or one speaker in every room in the house. The possibilities are endless, and each speaker has its own on/off volume control, for even more versatility.

## **SUPERIOR FEATURES**

The UNIVERSAL Speaker System is of the highest quality design. The 9½ × 4¾ × 6" acoustically constructed cabinet delivers deep bass through a 4½" woofer and a 2½" tweeter captures those delicate highs for a full rich sound.

Installation is quick and simple, the transmitter plugs directly into the tape jacks of your receiver and includes a y-jack, so you don't lose the use of your tape jacks. The speakers with their built-in receivers simply plug into *any* household outlet anywhere you want to listen to your main sys-

tem, regardless of the distances from your stereo. In addition, this new technology simply taps into the signal your stereo already generates, so it will not affect your stereo in any way. Since the transmitter combines both the right and left channels of your stereo, you get a full and rich high fidelity sound.

These technological wonders are available direct from the manufacturer, and your satisfaction is guaranteed with a 30 day return privilege and a full 90 day manufacturer's warranty.

## **ACT NOW AND SAVE**

These wireless speakers will carry a price tag of \$125 each when they become available to retailers late this year. But **NOW**, through a special promotional campaign, the UNIVERSAL 2-way speaker system, transmitter, and jack is only \$69. And if you order more than one speaker, each additional speaker is only \$59. That's less than half the price you can expect to pay when they hit retail stores in the future.

Act **NOW** and pay less than dealer cost through our **MANUFACTURERS DIRECT PRICING!**

When ordering make sure you specify your promotional order code **FR1X**. Most orders are sent within 72 hours of receipt.

So enjoy your favorite music from records, cassettes, reel tapes, CD's, or AM/FM radio anywhere in your home or by your patio/pool area with the **UNIVERSAL Wireless Speaker System**.

# America Needs A Hero For Every Age.

From Verdun to Viet Nam, the Army National Guard has always been ready to help when America called.

Today is no different. The Guard still needs people who are willing to stand up and be counted when the chips are down.

If you're one of them—and you can spare one weekend a month for America—call 800-638-7600\*. Mail this coupon. Or see your local recruiter.
