HILL'S PIANO SCHOOL

EARL H. HILL, Director

THE methods of this school are in no respect stereotyped reproductions of the methods of other European or American teachers, but are the fruit of original studies into the psychological and physiological relations of playing and their practical application to the problems of teaching. They are so widely known for their simplicity, directness and effectiveness that Director Earl H. Hill constantly employs four assistants; this in a school devoted exclusively to piano and its allied branches.

FEATURES. Mr. Hill's original Exercises for Developing and Maintaining Piano Touch. Weekly musicals. Ensemble playing (twelve players at six pianos.) Theory classes. Library of 7000 numbers. Reasonable tuition.

City of Jamestown.

Jamestown, the metropolis of Chautauqua county was founded in 1806 by James Prendergast in whose honor the place was named. It was incorporated as a village in 1827 and as a city in 1886. The city is situated on the Chadakoin river, the outlet of Chautauqua lake, about six miles from the Pennsylvania state line. The city is surrounded by a prosperous dairying region and is the market town for Southern Chautauqua, a portion of Cattaraugus County, N. Y., and Warren county, Pa.

The city is located on the main line of the Erie railroad between New York and Chicago. It is the southern terminus of the Buffalo and Southwestern branch of the Erie. It is connected with the Lake Shore & Michigan Southern, the Nickle Plate and the Pennsylvania railroads by means of the Jamestown, Chautauqua & Lake Erie railroad which has its main offices here and its northern terminal at Westfield, 30 miles distant. Also by the Dunkirk, Allegheny Valley & Pittsburg road which extends from Titusville, Pa., on the south to Dunkirk, N. Y., on the north and by the Chautauqua Traction Company which has a line from Jamestown to Westfield.

There are three trolley companies, the Jamestown Street Railway Company, which has three belt lines in the city, and a line from Falconer on the east to Lakewood on the west, the Chautauqua Traction Company which extends from Jamestown to Westfield, and the Warren & Jamestown Street Railway Company which extends from Jamestown to Warren, Pa.

The Lake Shore Railroad Company is also planning to secure direct en-

trance to the city by means of a spur from Falconer where it will connect with the Dunkirk, Allegheny Valley and Pittsburg road, a leased line of the Lake Shore.

Jamestown is a manufacturing city. The industries are so diversified that there are no "dull times" on account of annual shutdowns. The product of these factories consisting of woolen and worsted goods, furniture, pianos, photographic paper voting machines, etc., is shipped to every civilized quarter of the globe. The annual output of these factories is over \$10,000,000.

In its financial institutions Jamestown has a record that challenges comparison. There has never been a bank failure in the city. At the present time there is one trust company and four banks, all of which are doing a conservative but profitable business.

Jamestown has more churches and less crime than any city of similar size in the state of New York. There are 25 churches representing all the principal denominations. Many of the church edifices would compare favorably with those of the large cities. One church in the city is the largest of that denomination in the United States.

One of the model hospitals of the country is located in Jamestown. It is managed by the ladies of the Woman's Christian Association, and maintained by popular subscription.

The school system of Jamestown is considered one of the best in the state. There is a magnificent high school building, a handsome grammar school building on the south side and 11 branch or district schools.

The public buildings of the city are Federal building, \$250,000; City Hall, \$65,000; James Prendergast library and art gallery, \$125,000; armory of the 13th Separate Company, \$50,000. Eight fire houses.

A larger proportion of people in Jamestown own their own homes than in any city of similar size in the state.

The climate of Jamestown is unusually healthful. The city was recently specifically mentioned in the monthly bulletin of the State Board of Health as showing the lowest death rate of any city in the state. The reason for this is the desirable location, the exceptionally pure water and the excellent sewer system.

The city owns a water and an electric light plant. The source of water supply is from artesian wells located in the Cassadaga valley at Levant, three miles east of the city. The water has been pronounced by bacteriologists as absolutely pure. Coming from a great depth it is very cold and the supply is inexhaustible. Under the capable management of a board of commissioners, the plant is paying for itself and the rates are very low.

The electric light plant provides light for the streets, and lights and power for commercial purposes. A board of commissioners composed of the leading business men of the city have charge of the plant and by careful management have reduced the cost of street lighting to a low figure.

There is also an excellent electric light plant owned by a private corpor-

ation, which supplies light and power at reasonable figures.

There are two telephone companies, both with the most modern equipment which provides the patrons with first class service at low rates.

The following figures show the rapid growth of the city: 1870, 5,337 population; 1880, 9,350 population; 1890, 16,038 population; 1900, 22,892 population; 1905, (state census), 26,039.

In 1905 the assessed valuation of the city was \$11,759,375; in 1906 this valuation had increased to \$12,231,970, and in 1907 the valuation was \$13,303,485, divided as follows:

Real estate	\$11,923,535 00
Personal property.....	806,750 00
Franchises	573,200 00

Besides this \$134,450 worth of property is exempt.

The area of the city is 6,080 acres or approximately nine and one-half square miles. There are 82 miles of street of which ten and one-half miles are paved with shale brick and about two miles are proposed to be paved the coming year.

The city has three public parks, one located between West Fourth and West Fifth streets, one known as Allen Park, located on Foote avenue, and one known as Jones Memorial Park, located adjacent to the village of Celoron near Chautauqua lake.

The city also has a site for hospital purposes on Brooklyn Heights and plans for a new hospital are now under consideration.

HARDWARE
IN JAMESTOWN IS

R-O-S-E-N-C-R-A-N-T-Z

FOR 28 years Rosencrantz & Company have stood for the best principals of business. We sell none but articles of known quality and sell them upon the lowest margin at which business can be conducted. We have tried to build our business upon the Golden Rule and accomodate the other man whenever we can. These are the reasons which make this the busiest store in the busiest little city in the country; this is why a Jamestown man, when he thinks of hardware thinks of

Rosencrantz & Company

Rosencrantz & Company

There are several reasons why your **HARDWARE** should come from this store and every one of them is enough to settle the question:

We have five floors of our own building crowded full of everything that goes into a hardware store, and that means the largest assortment.

This is the busiest store in Jamestown and that means our customers are treated right in price and quality or they wouldn't come to us.

We've been in the hardware business 28 years and that means valuable experience. We buy in large quantities for cash and that means an advantage that no one can beat.

We lead this region in **STOVES, COOKING and KITCHEN UTENSILS, TOOLS and CUTLERY, BUILDER'S and MILL SUPPLIES, GAS FIXTURES and PLUMBING MATERIALS, GARDEN IMPLEMENTS and FARM SUPPLIES.**

Colgate's Coleo Soap.

Colgate's latest achievement—the fruitage of a century of scientific soap-making. Made entirely of Olive, Palm and Coconut Oils. The entire absence of free alkali makes smarting of the skin an impossibility. Coleo is made in generous sized cakes and is sold at a price that is certain to make it popular.
