17" and 19" LCD flat panel monitors with SXGA (1280x1024) screen resolution. Slim bezel optimised for multi-screen desktops. Analogue signal input.

• Slim screen surround (bezel) - allows screens to be positioned closely side-by-side for an extended multi-screen desktop.

• High brightness, high contrast & fast screen refresh - for superior image quality that is easy on the eye.

• See more, scroll less - Large SXGA (1280x1024) resolution puts more information in view.

• Gamma control - for colour matching of the display with digital cameras and printers to ensure the colours shown on screen match those on the other devices. Supports sRGB colour space matching.

• Simple setup - Plug & play and the Sony automatic image adjustment feature gives hassle-free configuration.

• Available in black & silver.
