

Cucumbers

[CU82-20 - A & C Pickling Cucumbers](#)

55 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8 to 10" long dark green cucumbers. The cucumbers hold their dark color for a long time. Excellent pickling variety. It is best when picked when 4 to 6" long. Excellent choice for home gardens and market growers. An heirloom variety was introduced in 1928 by Abbott & Cobb of Philadelphia, USA.

[CU101-20 - Alibi Cucumber Seeds](#)

50 days. Cucumis sativus. (F1) Alibi Cucumber. The plant produces very high yields of 3 to 4" long medium green cucumbers. This is a very productive variety. If you keep picking, they'll keep producing. Great for making gherkin pickles and best when picked 2" long for pickling. An excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

[CU46-20 - Ashley Cucumber Seeds](#)

65 days. Cucumis sativus. Open Pollinated. Ashley Cucumber. The plant produces excellent yields of 6 to 8" long light green cucumbers. Excellent slicing cucumber for salads. Grows well in hot and humid regions in the South. One of the most profitable cucumbers you can grow. Heat Tolerant. Excellent choice for home gardens and market growers. An heirloom variety was developed in 1956 by the Clemson Agricultural Experimental Station, Charleston, South Carolina, USA. United States Department of Agriculture, AMES 4833. Disease Resistant: DM.

[CU76-20 - Beit Alpha Cucumber Seeds](#)

56 days. Cucumis sativus. (F1) Beit Alpha Cucumber. The plant produces excellent yields of 12" long sweet, bitter free, and burpless cucumbers. A Middle Eastern type cucumber that is smooth and blocky with dark green skin. The flesh is crunchy, and the skin is so mild it does not have to be peeled. It is usually picked small at 5 to 6" long. It can be used for pickling or sliced in salads. Long shelf life. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. United States Department of Agriculture, PI 292010. Disease Resistant. CMV, CVYV, DM, PM, WMV, ZYMV.

[CU61-20 - Boston Pickling Improved Cucumber Seeds](#)

55 days. Cucumis sativus. Open Pollinated. Boston Pickling Improved Cucumber. The plant produces heavy yields of small 3 to 7" long cucumbers. Perfect for making pickles, but also good in salads. They are very crisp and good quality. Best when harvested at 2 to 6" long. An 1880 heirloom variety. An excellent choice for home gardens and market growers. United States Department of Agriculture, NSL 5716. Disease Resistant: CMV.

[CU129-20 - Brickyard Cucumber Seeds](#)

50 days. Cucumis sativus. (F1) Brickyard Cucumber. This early maturing plant produces high yields of 8" long smooth dark green cucumbers. It has a strong vigorous vines. One of the most disease-resistant varieties. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU121-20 - Burpless 26 Cucumber Seeds

60 days. Cucumis sativus. (F1) Burpless 26 Cucumber. The plant produces high yields of 10 to 12" long dark green slicing cucumbers. Cucumbers are tasty and burpless with no bitterness. They are more digestible than other varieties. Great in salads, making relish, or pickled. They are straight if grown on a fence or trellis and it will be easier to harvest. Excellent choice for home gardens and market growers.

CU20-20 - Bush Crop Cucumber Seeds

55 days. Cucumis sativus. (F1) Bush Crop Cucumber. This early maturing compact bush plant produces high yields of 6 to 8" green cucumbers. They are crisp, tender, and flavorful. Excellent in salads or for making dills or fancy sweet pickles. Bush cucumbers produce very nice straight cucumbers. It grows very short vines, only 1 to 2 feet long, and is one of the best varieties for container gardens and small gardens. An excellent choice for home gardens. Disease Resistant: Ccu.

CU133-20 - Bush Hog Cucumbers

85 days. Cucumis sativus. Open Pollinated. This small compact bush plant produces high yields of 2 to 3" long cucumbers. The flesh is crisp and delicious. It can be used for pickling or sliced in salads. A great gourmet cucumber. Easy to grow and maintain. Suitable for small gardens, containers, and patios. An excellent choice for home gardens. A variety from the USA.

CU5-20 - Bush Pickle Cucumber Seeds

45 days. Cucumis sativus. (F1) Bush Pickle Cucumber. This early maturing compact plant produces high yields of very flavorful 4 to 5" long green cucumbers. This is one of the best quality varieties for making crisp whole dill pickles. If you make your own pickles, you have to try this variety! This variety was developed specifically for space-saving gardens and containers. An excellent choice for home gardens. Disease Resistant: Ccu, CMV.

CU40-20 - Calypso Cucumbers

52 days. Cucumis sativus. (F1) The plant produces heavy yields of 3 to 6" long dark green cucumbers. Great for making pickles! It is suitable for hand or machine harvesting. Excellent choice for home gardens and market growers. Developed by North Carolina State University. United States Department of Agriculture, NSL 214302. Disease Resistant: A, ALS, CMV, DM, PM, S.

CU43-20 - Carolina Pickling Cucumber Seeds

51 days. Cucumis sativus. (F1) Carolina Pickling Cucumber. The plant produces good yields of 3" long cucumbers. The excellent quality variety is used to make pickles. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens and market growers. Developed by Clemson University, South Carolina, USA. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU7-20 - Cool Breeze Cucumbers

45 days. Cucumis sativus. (F1) This early variety produces huge yields of 4 to 5" long flavorful cucumbers. Excellent for making sweet pickles. Best when picked about 2" long for pickling. Plant yields as many as 50 cucumbers per plant. The parthenocarpic variety and no male pollen are needed, so even if bees are scarce you'll still get a bumper crop. Plants are widely adapted and are particularly popular in Northern regions. An excellent choice for home gardens and market growers. Disease Resistant. Ccu, CMV, PM.

CU78-20 - County Fair Cucumber Seeds

52 days. Cucumis sativus. (F1) County Fair Cucumber. This early maturing plant produces high yields of 6 to 8" long green cucumbers. A high-quality cucumber that is sweet, non-bitter, firm, and crunchy. A perfect variety for making chips, spears, and whole pickles. Best when harvested when 2 to 4" for pickling. It also makes a good slicer. This parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper crop. Perfect for greenhouse production. An excellent choice for home gardens, greenhouses, and market growers. Disease Resistant: BW.

CU36-20 - Cross Country Cucumber Seeds

53 days. Cucumis sativus. (F1) Cross Country Cucumber. The plant produces high yields of dark green cucumbers. Cucumbers are crisp and tender and perfect for making bread and butter or dill pickles. Does well under a variety of growing conditions. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU102-10 - Dasher II Cucumber Seeds

58 days. Cucumis sativus. (F1) Dasher II Cucumber. This early maturing plant produces high yields of 8 to 10" long dark green cucumbers. A quality slicing variety is best grown on a fence or trellis for easy harvest. One of the highest yielding cucumber varieties available. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU24-20 - Diva Cucumber Seeds

2002 All-America Selections Winner!

58 days. Cucumis sativus. (F1) Diva Cucumber. The plant produces high yields of non-bitter burpless and seedless 6 to 8" long glossy dark green cucumbers. Cucumbers are tender, crisp, sweet, and bitter-free. Best when harvested at 4 to 5" long. Excellent for salads or pickling. Plant foliage is non-bitter and less attractive to the cucumber beetles than some varieties. It is a gynocious and parthenocarpic variety and will produce without pollination! It is known for its big yields. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CVYV, DM, PM.

CU100-20 - Double Yield Cucumbers

50 days. Cucumis sativus. Open Pollinated. This early maturing plant produces high yields of 5 to 6" long dark green cucumbers. This is a very productive variety - for every pickle that is cut off, two or three more are grown, so keep on picking! Best when picked at 4 to 5" long. Does well in most parts of the country. Excellent choice for home gardens. An heirloom variety was developed in 1924 by Joseph Harris & Company of Coldwater in New York, USA. United States Department of Agriculture, PI 414157.

CU109-20 - Early Fortune Cucumbers

55 days. Cucumis sativus. Open Pollinated. The plant produces good yields of 7 to 8" long dark green cucumbers. Very delicious and a perfect slicing cucumber for salads and pickling. Also known as Special Dark Green Cucumber. Does well in most parts of the United States. An excellent choice for home gardens. A 1906 heirloom variety from George Starr of Royal Oak, Michigan, USA. United States Department of Agriculture, NSL 5726.

CU93-20 - Early Spring Burpless Cucumber Seeds

52 days. Cucumis sativus. (F1) Early Spring Burpless Cucumber. The plant produces high yields of slender 10 to 12" long dark green slicing type cucumbers. Cucumbers are crisp and bitter free. It has thin skin that never needs peeling. They are uniformly straight and smooth. Best grown on a fence or trellis for easy harvest. It will grow straight when staked or will curl when not staked. A good choice for small gardens. Excellent for home gardens and market growers.

CU9-20 - Eureka Cucumbers

57 days. Cucumis sativus. (F1) This early producing plant produces high yields of 5 to 7" long dark green cucumbers. Best when harvested when 2 to 5" for pickling. Monoecious and virtually trouble-free. Very flavorful and crisp. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU94-20 - Fancipak Cucumber Seeds

57 days. Cucumis sativus. (F1) Fancipak Cucumber. The plant produces high yields of medium dark green cucumbers. They are crisp and very tasty. Best when harvested when 4" long. The plant has dense foliage protecting the cucumbers from sunscald. Excellent pickling variety. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, ZYMV.

CU9-20 - Fanfare Cucumber Seeds

1994 All-America Selections Winner!

63 days. Cucumis sativus. (F1) Fanfare Cucumber. This semi-dwarf plant produces heavy yields of 8 to 10" long deep green cucumbers. They are crisp and very delicious with a mild taste. Great slicing cucumber for salads. Due to its compact vines, this hybrid variety can be planted at closer row spacing than normal cucumbers. It produces high-quality cucumbers over a longer time than other varieties. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU31-20 - General Lee Cucumbers

66 days. Cucumis sativus. (F1) This plant produces excellent yields of uniform 8 to 8 1/2" long dark green cucumbers. Excellent for salads or slicing. This variety can be grown in spring and fall. This is a gynococious plant and has a high yield potential and a 10% pollinator is added. It is a great choice for local fresh markets. Does well in both northern and southern parts of the country. Excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

CU131-20 - Goliath Cucumber Seeds

58 days. Cucumis sativus. (F1) Goliath Cucumber. This early maturing plant produces heavy yields of 8" long smooth dark green cucumbers. Cucumbers are non-bitter and very tasty. It has a strong vigorous vines and holds well in the field. Very disease-resistant. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, PM, TLS, ZYMV.

CU111-10 - Greenhouse Long Burpless Cucumber Seeds

46 days. Cucumis sativus. (F1) Greenhouse Long Burpless Cucumber. The plant produces excellent yields of 8 to 12" long burpless bright green greenhouse cucumbers. These long cucumbers are bitter-free and burpless. Excellent for salads. An excellent choice for home gardens, greenhouses, market growers, and open field production.

CU10-20 - Homemade Pickles Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Homemade Pickles Cucumber. The plant produces heavy yields of 5 to 6" long green cucumbers. This variety was specially bred for making pickles and is best when harvested when 1 ½ to 2" for making tiny pickles. The cucumbers are solid and crisp with superb flavor. Perfect for container gardening or small gardens where space is very limited! An excellent choice for home gardens. Disease Resistant: A, ALS, CMV, DM, PM.

CU44-20 - Improved Long Green Cucumbers

65 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 10 to 14" long glossy dark green cucumbers. A popular variety is used for slicing and pickling. It has the old-fashioned flavor. They are solid and crisp, perfect for making pickles. Best when harvested at 5 to 6" long for pickles. It is also a superior slicing cucumber! Grows best if grown on trellis or stakes. Also known as London Long Cucumber. An excellent choice for home gardens. An 1842 heirloom variety. United States Department of Agriculture, NSL 28181.

CU97-20 - Jackson Supreme Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of dark green pickling cucumbers. Cucumbers are best when harvested when 3 or 4" long. Excellent quality pickling variety. One of the most disease-resistant cucumbers on the market. Grows well in the Southern States of the USA. Excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU41-20 - Little Leaf Cucumber Seeds

57 days. Cucumis sativus. Open Pollinated. Little Leaf Cucumber. This compact plant produces high yields of 3 to 5" long emerald green colored cucumbers. It may be the highest yielding pickling cucumber on the market today, producing 25 to 30 cucumbers per plant! An excellent cucumber for salads and pickling. It is a parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper crop. Perfect for container gardening. Does well under stress and adverse weather conditions. Heat Tolerant. Drought Tolerant, Cold Tolerant. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, hydroponics, greenhouses, market growers, and open field production. Developed in 1991 by the University of Arkansas, USA. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU125-10 - Manny Cucumber Seeds

50 days. Cucumis sativus. (F1) Manny Cucumber. The plant produces good yields of 5 to 7" long shiny medium green cucumbers. This Beit Alpha cucumber has tender skin and a delicious mild flavor. It grows best if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. It is ideal for those growing in tunnels. Impressive yields in open field production too. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: PM.

CU12-20 - Marketer Cucumbers

1943 All-America Selections Winner!

55 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8 to 9" long smooth dark green cucumbers. Great for slicing and salads. Perfect for pickles when picked small. Does well in hot and humid regions and in the Southern states. Heat Resistant. Excellent choice for home gardens and market growers. A 1942 heirloom variety from New Haven, Connecticut, USA. United States Department of Agriculture, NSL 5739.

CU13-20 - Marketmore 76 Cucumber Seeds

68 days. Cucumis sativus. Open Pollinated. Marketmore 76 Cucumber. The plant produces heavy yields of 8 to 10" long dark green cucumbers. Excellent slicing cucumber and can also be used to make dill pickles. Does well even under adverse weather conditions over a long season in hot or cool weather. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers.

Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 561148.

Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU113-20 - Marketmore 97 Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Marketmore 97 Cucumber. The plant produces good yields of 9 to 11" long cucumbers. Excellent flavor and is perfect for salads or pickling when harvested at 3 to 5" long. Cucumbers are non-bitter and burpless. Tolerant to the striped cucumber beetle and the spotted cucumber beetle.

One of the most disease-resistant varieties developed. Suitable for commercial growers.

An excellent choice for home gardens, market growers, and open field production. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: ALS, Ccu, CMV, DM, PM, PRSV, TLS, ULS, WMV, ZYMV.

CU60-20 - Miniature White Cucumber Seeds

48 days. Cucumis sativus. Open Pollinated. Miniature White Cucumber. This bush-type plant produces high yields of 3" long white cucumbers. One of the best white cucumbers on the market. It does not have bitterness like most white cucumbers. The cucumber is so tender there's no peeling necessary. Excellent for salads, pickles, or gourmet dishes. Impress your neighbors by growing some white cucumbers. Perfect for container gardening. An excellent choice for home gardens.

CU132-10 - Mini-Me Cucumber Seeds

45 days. Cucumis sativus. (F1) Mini-Me Cucumber. This early maturing plant produces high yields of 3 1/2" long sweet, bitter-free, and burpless cucumbers. This mini Beit Alpha is smooth and with shiny green skin. The flesh is crunchy and delicious, and the skin is so mild it does not have to be peeled. It is usually picked small for the best quality. It can be used for pickling or sliced in salads. Long shelf life.

Very disease-resistant cucumbers. It is a parthenocar[ic variety, producing only female flowers, and does not require pollination, making cultivation super easy. The plant continues to produce all season long. This is the high variety you find in supermarkets. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant. CMV, CVYV, DM, PM.

CU15-20 - Muncher Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Muncher Cucumber. The plant produces heavy yields of 6 to 9" long cucumbers. A delicious burpless cucumber that is crisp and non bitter. Best when harvested when 4 to 6" long for pickling. Also can be eaten fresh straight from the garden or used in salads. Excellent for making pickles. An excellent choice for home gardens. Disease Resistant: CMV.

CU107-20 - Olympian Cucumbers

59 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 7 1/2 to 8" long smooth glossy dark green cucumbers. They are crisp and very flavorful. A top commercial quality slicing variety with strong disease resistance. It sets loads of cucumbers over the long season. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, DM, PM, ZYMV.

CU95-10 - Palace Pride Cucumber Seeds

58 days. Cucumis sativus. (F1) Palace Pride Cucumber. This early maturing plant produces high yields of 10 to 12" long slender glossy dark green cucumbers. It is crisp and perfect for making Bread & Butter Pickles. An excellent slicer and perfect for salads and gourmet dishes. There is no need to peel the skin since the white spines are easily removed by washing. Heat Tolerant. An excellent choice for home gardens.

CU135-10 - Pepinex Cucumber Seeds

65 days. Cucumis sativus. (F1) Pepinex Cucumber. The plant produces high yields of 12 to 14" long slender glossy dark green cucumbers. One of the best high quality cucumbers on the market. They are sweet, crisp, and bitter-free. It is an excellent slicer and perfect for salads and gourmet dishes. The skin is thin and requires no peeling. Suitable for home gardens or greenhouse production. This quality cucumber grows best if grown on trellis or stakes. An excellent choice for home gardens, greenhouses, farmer's markets, market growers, commercial production, and open field production. Disease Resistant: DM, PM.

CU124-20 - Pick a Bushel Cucumbers

2014 All-America Selections Winner!

60 days. Cucumis sativus. (F1) Semi bush plant produces high yields of 3 to 6" long green cucumbers. These cucumbers can be picked when they are 3" long for gherkin size or left to grow into 6" long for use in salads. They are tasty with no bitterness. The semi-bush vines grow only 24" long, so they are great for growing in patio containers as well as in small gardens. An excellent choice for home gardens. Heat Tolerant. Disease Resistant: Ccu, CGMMV, CMV.

CU56-20 - Pioneer Cucumbers

51 days. Cucumis sativus. (F1) The plant produces high yields of 3 to 6" long dark green cucumbers. Crunchy flesh makes it great for making pickles. Can be used fresh in salads or pickled. One of the most reliable cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: ALS, Ccu, DM.

CU69-20 - Raider Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of uniform dark green cucumbers. Excellent for salads or slicing. One of the earliest-maturing slicers on the market. A gynocious hybrid (mostly female) variety that is great for Canada and the Northern United States. Suitable for home gardens and market growers. Disease Resistant: ALS, Ccu, CMV.

CU71-20 - Regal Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 2 to 4" long dark green cucumbers. A variety with slightly longer, a slimmer shape which makes it perfect for making chips, spears, and whole pickles. An excellent pickling cucumber that produces continuously all season. It can be either hand-picked or machine harvested in the North or South parts of the country. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: PM.

CU96-20 - Rockingham Cucumbers

58 days. Cucumis sativus. (F1) The plant produces high yields of 8 ½" long dark green cucumbers. This cucumber is most appreciated by commercial growers because it produces nice dark green, smooth, and long cucumbers. Vines are strong and vigorous. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, Ccu, ALS, CMV, PM.

CU98-10 - Salad Bush Cucumber Seeds

1988 All-America Selections Winner!

57 days. Cucumis sativus. (F1) Salad Bush Cucumber. This early maturing compact bush plant produces good yields of 8" long by 2 ¼" wide glossy dark green cucumbers. Cucumbers are tender and crisp. This small plant is the perfect variety for growing indoors in containers and small gardens as it only uses 2 square feet of space. Also grows well in hanging baskets. An excellent choice for home gardens. Disease Resistant: Ccu, CMV.

CU123-20 - Salt and Pepper Cucumbers

49 days. Cucumis sativus. Open Pollinated. This early maturing bush-type plant produces high yields of 3" to 5" long white cucumbers. It is very flavorful and one of the best white cucumbers on the market. Excellent for salads, pickles, or gourmet dishes. Impress your neighbors by growing some white cucumbers. It was the 2011 Green Thumb Award Winner! The Salt and Pepper variety will be replacing the Miniature White Cucumber and the Boothby's Blonde Cucumber. This variety was developed by Jason Cavatorta and Molly Jahn at Cornell University. An excellent choice for home gardens. Disease Resistant: ALS, PM.

CU110-20 - Snow's Fancy Pickling Cucumbers

55 days. Cucumis sativus. Open Pollinated. This early maturing plant produces good yields of 5" long dark green cucumbers. It is firm, crisp, and tender. The ideal pickler! This variety was introduced in 1905 by Vaughan's Seed House of Chicago. It was selected by J. C. Snow of the famous Snow Pickle Farm located in Rockford, Illinois. At that time, it fit the requirements for small pickling manufacturing. Excellent choice for home gardens and market growers. An heirloom variety from Illinois, USA.

CU23-20 - Spacemaster 80 Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Spacemaster 80 Cucumber. This compact bush-type plant produces heavy yields of 7 to 8" long nicely shaped dark green cucumbers. Excellent for pickling when small, and slicing when they get bigger. They are crisp and tasty. A great bush variety cucumber has amazing flavor with no bitterness. Ideal for containers, hanging baskets, or home gardens with limited space. The plant has short vines, only 3 feet long! Also perfect for close commercial cropping. Also suitable for hydroponic gardening. Excellent choice for home gardens and market growers. Developed in 1980 by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: Ccu, CMV, DM, PM.

CU22-20 - Spacemaster Cucumbers

60 days. Cucumis sativus. Open Pollinated. This compact bush-type plant produces excellent yields of 6 to 8" long slender dark green cucumbers. Great for pickling when small, and slicing when they get bigger. The ultimate cucumber for vegetable gardens with limited space! Its vines are only 2 to 3 feet long. It is ideal for containers, hanging baskets, or small gardens with limited space. It is almost a daily ritual to keep them picked since they grow so rapidly. Suitable for hydroponic gardening too. An excellent choice for home gardens. Developed by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, NSL 112204. Disease Resistant: Ccu, CMV.

CU104-10 - Speedway Cucumber Seeds

56 days. Cucumis sativus. (F1) Speedway Cucumber. This early maturing plant produces high yields of 8" long smooth straight dark green cucumbers. This cucumber variety is popular because of its earliness, its yields, and its disease resistance. This quality cucumber has tender skin and grows best if grown on trellis or stakes. One of the most disease resistant cucumbers on the market. Excellent for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU4-20 - Stonewall Cucumbers

53 days. Cucumis sativus. (F1) The plant produces high yields of 8 to 9" long straight dark green cucumbers. It has received high grades for quality, shape, size, and is the No. 1 cucumber variety for commercial production. Perfect for salads and slicing. Stores well. Agriculture researchers and commercial growers are very familiar with this top performer. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU34-20 - Straight Eight Cucumbers

1935 All-America Selections Winner!

63 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8" long dark green cucumbers. One of the best-slicing cucumbers on the market. It is an extremely dependable producing crop. If you had bad luck with other cucumber varieties last season, then this one this year. You will be giving them away to your family, neighbors, and friends there are so many! Grows best if grown on trellis or stakes. Excellent choice for home gardens and market growers. A 1938 heirloom variety named for its perfectly straight 8" long cucumber. United States Department of Agriculture, NSL 5764. Disease Resistant: CMV.

CU126-20 - Super Max Cucumbers

50 days. Cucumis sativus. (F1) The plant produces high yields of 4" long dark green cucumbers. These quality cucumbers are perfect for making pickles. They are crunchy, never get soft or mushy, and are very flavorful. They have very few seeds too. This is an improved version of Supremo Cucumber. An excellent choice for home gardens, market growers, and commercial growers. Disease Resistant: CMV, PRSV, WMV, ZYMV.

CU26-10 - Sweet Slice Cucumber Seeds

63 days. Cucumis sativus. (F1) Sweet Slice Cucumber. This plant produces high yields of 9 to 12" long dark green cucumbers. They are sweet, bitter-free, burpless, crisp, tender, with thin skin, so thin it requires no peeling. Its superior quality gives it gourmet status. After a sample taste, customers know Sweet Slice is a cut above the rest. Excellent choice for home gardens and market growers. Disease Resistant: CMV, DM, PM, PRSV, WMV, ZYMV.

CU27-10 - Sweet Success Cucumber Seeds

1983 All-America Selections Winner!

58 days. Cucumis sativus. (F1) Sweet Success Cucumber. The plant produces good yields of 12" long seedless and burpless dark green cucumbers. This high quality cucumber has tender skin and grows perfectly straight if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CMV, TLS, WMV.

CU2-10 - Sweeter Yet Cucumber Seeds

48 days. Cucumis sativus. (F1) Sweeter Yet Cucumber. This early maturing plant produces high yields of 10 to 12" long dark green cucumbers. A dual-purpose non-bitter cucumber that can be used fresh in salads or pickled. Cucumbers are sweet, burpless, bitter-free, and their skins require no peeling. Compact semi-bush type plants produce continually all season long. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: CMV, DM, PM, PRSV, ZYMV.

CU122-10 - Tanja Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Tanja Cucumber. The plant produces very heavy yields of 12 to 14" long dark green slicing-type cucumbers. Cucumbers are tasty with no bitterness. They are uniformly straight if grown on a fence or trellis and it will be easier to harvest. Plants yield prolifically and continue to bear over a long harvest period. You should get about 20 cucumbers from each plant. Suitable for growing in greenhouses. An excellent choice for home gardens, greenhouses, and market growers.

CU3-10 - Tasty Green Cucumber Seeds

62 days. Cucumis sativus. (F1) Tasty Green Cucumber. The plant produces heavy yields of 18 to 20" long dark green cucumbers. It is burpless with no bitterness, crispy, juicy, easy to digest, and very delicious! This variety is the world's most popular cucumber. It produces early in the season and continuously produces heavy yields all season. It grows well in the South and tolerates high temperatures and humidity. It is also great in raised beds or containers. Suitable for greenhouse production too. For home gardens and greenhouse production, best if grown on a trellis or stakes. Does well even under adverse weather conditions. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: DM, PM.

CU72-10 - Tasty Jade Cucumbers

54 days. Cucumis sativus. (F1) The plant produces high yields of 10 to 12" long slender glossy green cucumbers. One of the best Asian cucumbers on the market. They are crisp and bitter-free. It is an excellent slicer and perfect for salads and gourmet dishes. The skin is thin and requires no peeling. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. Suitable for home gardens or greenhouse production. This quality cucumber grows best if grown on trellis or stakes. It will be seedless if isolated from other varieties. An excellent choice for home gardens, greenhouses, farmer's markets, market growers, commercial production, and open field production. Disease Resistant: DM, PM.

CU38-20 - Tendergreen Burpless Cucumbers

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6 to 8" long medium green cucumbers. It is crispy, tender, burpless, bitter-free, and acid-free. It has thin skin and doesn't need any peeling. Great for salads and for pickling when cucumbers are small. Does well in high soil moisture and also cold soil. Best when harvested when 3 to 6" long. An excellent choice for home gardens and market growers. An heirloom dating back to the 1930s. United States Department of Agriculture, NSL 106653. Disease Resistant: CMV, DM, PM.

CU105-20 - Thunder Cucumbers

55 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 8 ½" long smooth glossy dark green cucumbers. A top commercial quality slicing variety with strong disease resistance.
