

Leaves of Louisiana Forests

red maple
Acer rubrum
palmate leaf venation

red buckeye
Aesculus pavia
palmate leaflet arrangement

river birch
Betula nigra
rhombic leaf shape

French mulberry
Callicarpa americana
serrate leaf margins

flowering dogwood
Cornus florida
arcuate leaf venation

American beech
Fagus grandifolia
pinnate leaf venation

slash pine
Pinus elliottii
aciculate leaves in fascicles

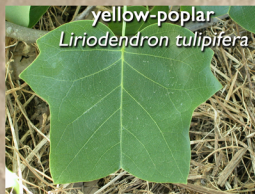

green ash
Fraxinus pennsylvanica
opposite leaf arrangement

eastern redcedar
Juniperus virginiana
appressed scale leaves

elderberry
Sambucus canadensis
pinnate leaflet arrangement

yellow-poplar
Liriodendron tulipifera
truncate leaf tip

Japanese yew
Podocarpus macrophylla
linear leaves

American sycamore
Platanus occidentalis
pinnipalmate leaf venation

white oak
Quercus alba
lobed leaf margins

cherrybark oak
Quercus pagoda
incised leaf margins

water oak
Quercus nigra
spatulate leaves

black willow
Salix nigra
linear leaf shape

eastern cottonwood
Populus deltoides
deltate leaf shape

switchcane
Arundinaria gigantea
parallel leaf venation

American elm
Ulmus americana
inequilateral leaf base

hornbeam
Carpinus caroliniana
doubly serrate margins

honeylocust
Gleditsia triacanthos
bipinnately compound

camphor tree
Cinnamomum camphora
camphor aroma when crushed

southern magnolia
Magnolia grandiflora
green, leathery upper surface
rusty pubescent lower surface

starbush
Illicium floridanum
entire leaf margin
licorice aroma

cherry laurel
Prunus caroliniana
spined margins
cherry aroma when crushed

planer tree
Planera aquatica
alternate leaf arrangement

coral honeysuckle
Lonicera sempervirens
perfoliate leaves

lanceleaf greenbrier
Smilax lanceolata
lanceolate leaf shape

baldcypress
Taxodium distichum
feather-like twigs
awl-shaped needles

sourwood
Oxydendrum arboreum
tastes sour

water tupelo
Nyssa aquatica
elliptical leaf shape

Carolina basswood
Tilia americana var. *caroliniana*
cordate leaf base

coral bean
Erythrina herbacea
hastate (arrowhead-shaped)
leaflets
