Blu-Ray

Breakthrough in high definition recording and data storage. Recordable:-

- Capacity, each disk can hold more than 5 standard DVD's.
- Space for HD video recording.
- Fast data transfer rate, up to 72Mbps.
- Hard coating protects against scratches and prevents dust and stains.
- High precision disc layer provides a level of disc flatness, which results in lower errors during recording and playback.

Rewritable:-

All the features of the Recordable Discs plus:

- Overwriting reliability, new recording layer that is extremely durable under repeated rewrite cycles.
