Radio features

- Dimensions: 123 × 55 × 23mm (PD355), 107 × 55 × 23mm (PD365 & PD375). Weight: 160g
- Dual mode (Analogue & Digital)
- 256 channels, 16 zones
- 12.5/25KHz selectable channel spacing
- Operating time of 12 hours at a duty cycle of 5-5-90 (DMR mode)
- Digital voice call function
- Digital text message function (pre-programmable message)
- Scanning (Analogue or digital channels)
- One touch call/text message
- MIL-STD-810 C/D/E/F/G standard
- IP54 Compliance
- TDMA Direct mode in DMO
- Wireless Charger Capable (PD365W version only)
- RRS
- Scramble
- Pseudo Trunking and Basic Encryption (Licence Required)
- Emergency Alarm
- Priority Interrupt (Licence Required)
- Roaming

Digital Portable Two-Way Radio

PD405

Radio features

- The size is 112 x 54 x 28mm, weight is 260g (with1500mAh battery)
- Dual mode (Analogue & Digital)
- 48 selectable channels, 3 zones
- 12.5/25KHz selectable channel spacing
- In digital mode, operates about 16 hours under a duty cycle of 5-5-90
- Digital voice call function
- Digital text message function (pre-programmable message)
- Scanning (Analogue or digital channel)
- One touch call/text message
- MIL-STD-810 C/D/E/F/G standards
- IP55 Compliance
- TDMA Direct Mode in DMO
- Supports mix (Analogue & Digital) channel
- VOX
- RRS
- Scramble
- Pseudo Trunking and Basic Encryption (Licence Required)
- Emergency Alarm
- Priority Interrupt (Licence Required)
- Roaming

Standard Package

- Radio — 1pc
- Standard UHF or VHF Antenna — 1pc
- Li-ion Battery (1500mAh) (BL1504) — 1pc
- Switching Power Adaptor (PS1044) — 1pc
- MCU Single Unit Charger (CH10A07) — 1pc
- Leather Strap (RO03) — 1pc
- Belt Clip (BC08) — 1pc
- 24 months warranty on the radio

Extended warranty (radio only)

Digital Portable Two-Way Radio

PD605 / PD605G

Radio features

- Dimensions 119 x 54 x 27mm, weighing 290g (with1500mAh battery)
- 48 selectable channels, 3 zones
- MIL-STD-810 C/D/E/F/G standards
- IP67 Compliance
- Pseudo Trunk (DMO & RMO)
- True 2-Slot in DMO
- Scrambler (Analogue) / Basic Encryption (digital) / Advanced Encryption (128/256bit AES) (Option)
- Supports multiple Analogue signalling modes (HDC1200, 2-Tone and 5-Tone)
- DMRA Data Service
- One Touch Call/Text
- Radio enable/disable & remote monitor (decode only)
- Priority Interrupt (encode & decode) (Option)
- Dual Mode (Analogue & Digital)
- Expanded frequency range of 400-527MHz
- GPS Positioning (Factory Option)
- Man-down (Factory Option)
- Supports XPT digital trunking
- MPT1327 and DMR Tier III Trunking compatible

Standard package

- Radio   1pc
- Standard UHF or VHF Antenna   1pc
- Li-ion Battery (1500mAh) (BL1504)   1pc
- Switching Power Adaptor (PS1044)   1pc
- MCU Single Unit Charger (CH10A07)   1pc
- Leather Strap (RO03)   1pc
- Belt Clip (BC08)   1pc
- 24 months warranty on transceiver

All specifications are subject to change without notice due to continuous development.

LCY003		Leather case (with LCD display and keypad) (for use with standard capacity battery)	£20.00
LCY006		Leather case (with LCD display and keypad) (for thick battery)	£28.00
CK03		Radio Car Kit (Standard version includes RF adapter & Audio interface)	£228.00
CK03-S		Radio Car Kit (Simplified version only for charge)	£108.00
CK03-E		Radio Car Kit (Enhanced version with wireless feature)	£260.00

Charger Accessories

Model	Picture	Description	RRP(GBP)
CH10A04		Single charger (MCU) (Excludes power supply, UK: PS1016 or EU: PS1018)	£16.00
CH10A07		General MCU Rapid-rate Charger (for Li-Ion/Ni-MH batteries) (Excludes power supply, UK: PS1016 or EU: PS1018)	£16.00
CH10A06		Dual Pocket MCU Charger Kit (for Li-ion/Ni-MH Batteries) (With power supply cable UK: PS2005 or EU: PS2004)	£30.00
CHV09		Vehicle Adaptor for charger (DC-DC) CHV09 INPUT: 11-25VDC OUTPUT: 12VDC 1A	£24.50

MCA05		Battery Optimizing System (Includes AC Power lead – please state UK or EU plug) (for verification of the actual capacity of batteries)	£890.00
MCA08		6-way multicharger. Compatible with both standard battery and High Capacity battery	£195.00
BRK20		Wall mount bracket for MCA08 & MCA10 MCU multi-unit charger	£43.00
POA59		Battery Adaptor (for MCA08 and MCA10)	£7.00
POA38		Battery Adaptor (for MCA05)	£13.00
POA107		Wireless Earpiece Charger (for ESW01)	£8.00
PS1016		UK-standard Switching Power Adaptor 100- 240VAC 12VDC/1A Hytera (for CH10A04/CH10A07 single charger)	£7.00
PS1018		EU-standard Switching Power Adaptor 100- 240VAC 12VDC/1A Hytera (for CH10A04/CH10A07 single charger)	£7.00
PS1044		UK Standard and EU Standard Switching Power Adapter 100- 240VAC 12VDC/1A	£7.00
PS2004		EU-standard Switching Power Adaptor 12V/2A (for CH10A06 dual pocket charger)	£9.00
PS2005		UK-standard Switching Power Adaptor 12V/2A (for CH10A06 dual pocket charger)	£9.00
PS7002		Power supply cable (6 in 1) (Please state UK standard or EU standard)	£69.00

POA68		Car kit RF adapter which automatically switch to mobile antenna to enlarge coverage after radio fixing in car kit	£42.00

Radio features

- Up to 1024 channels
- Audio recording capability via Micro SD storage card *
- Single frequency repeater mode *
- Full duplex call
- Bluetooth 4.0 (PD985G only); Audio, Data
- Smart battery, rapid charge with on screen charge status and monitoring
- RTC Clock
- Noise cancelling technology
- 12.5/20/25 selectable channel spacing in Analogue mode
- Mixed mode scanning (Analogue & Digital channel)
- IP68 and MIL-STD-810 G
- Global Positioning System (GPS) (PD985G only)
- Digital voice call function
- Digital text message function (pre-programmable)
- DMR Services (remote monitor, radio enable, radio disable, call alert)
- Man-down
- Lone-worker
- Scrambler (Analogue mode) / Basic and Advanced Encryption (Digital mode)
- Pseudo-trunk operation (DMO & RMO)
- Multi-Site Roaming
- Supports Option Board Interface
- Channel Change Voice Notification
- 5 tone, HDC1200,2 Tone signalling selectable (in Analogue mode)
- Analogue & Digital DTMF
- One touch call/text message/supplemental services
- Telemetry
- Vibrate Alert
- Home screen dial
- Multi-language menu display
- Analogue & Digital Emergency
- Supports XPT digital trunking
- Supports DTMF telephone call
- Power on & off user logo programming

Feature available with optional software licence

Digital Portable Two-Way Radio

Accessory List

Radio features

- Up to 1024 channels
- 12.5/20/25 selectable channel spacing
- Mixed mode scanning (Analogue & Digital channel)
- IP67 and MIL-STD-810G to ensure outstanding performance in harsh environments
- ATEX: II 2G Ex ib IIC T4 (Gas); II 2D Ex ib IIIC T120°C IP5X (Dust); I M2 Ex ib (mining)
- FM: Class I, Zone 1 AEX/Ex ib IIC T4 ; Class II, III Div1, Group E, F, G T120°C ; -20°C<= Ta<=50°C
- Supporting Global Positioning System (GPS) (standard)
- Digital voice call function
- Digital text message function (pre-programmable message)
- Remote monitor, radio enable, radio disable, call alert)
- Man-down (standard)
- Lone worker
- Basic Scrambler and Encryption
- Advanced Encryption (128/256bit) (option)
- Pseudo trunk operation (DMO & RMO)
- Multi-Site Roaming (optional)
- Channel Change Voice Notification
- 5 tone , HDC1200, 2 tone signaling selectable (in Analogue mode)
- One touch call/text message
- Telemetry
- Analogue & Digital Emergency
- MPT1327 & DMR Tier III compatible
- Supports XPT digital Trunking

Standard package

- Radio
- Standard UHF or VHF Antenna
- Li-ion Battery (1800mAh)(BL1807-Ex)
- Switching Power Adaptor (PS1044)
- MCU Single Unit Charger (CH10A04)
- Leather Strap(RO04)
- Belt Clip(BC19)
- 24 months warranty on the radio

All specifications are subject to change without notice due to continuous development.

Charger Accessories

Model	Picture	Description	RRP(GBP)
CH20L08		Smart charger for li-polymer battery (2A) (Excludes power supply)	£45.00
CH40L02		Smart charger for li-polymer battery (4A) (Excludes power supply)	£70.00
PS2019		UK/EU switching power adapter 12V/2A (Plug included)	£15.00
POA141		AC plug for switching power adapter (EU Standard)	£2.00
POA142		AC plug for switching power adapter (UK Standard)	£2.00
PS4003		Desktop switching power supply (none AC plug, 100~240VAC)	£38.00

Carrying Accessories

Model	Picture	Description	RRP(GBP)
BC30		Belt Clip	£5.00
RO04		Hand Strap	£2.50
LCY017		Leather Carry Case for Radios With Display	£50.00
LCY018		Leather Carry Case for Radios With Display and Thick Battery	£50.00

Audio Accessories

Model	Picture	Description	RRP(GBP)
SM32N1		Remote Speaker Microphone (IP67)	POA
EHN33		C-style Earset	POA
EAN26		Transparent acoustic tube	£50.00

Radio Features

- 180 rotatable & 140 wide-angle lens
- 16-megapixel image sensor
- 1080p recording at 60 frames/sec
- Six infrared LED
- Ergonomic PTT button
- Playback button
- Emergency call button
- Channel change button
- One-touch operation for capture video/voice recording
- Wired accessory connection
- Bluetooth 4.0
- Real-time video send-back solution
- Mission-critical build quality - MIL-STD-810G / IP67
- 2 watt speaker
- Lightweight design - 170g (including battery)
- Removable 2500mAh battery
- 8 hour battery life (working) / 250 hour battery life (standby)

For the full, extensive feature list please view the brochure and supporting technical documents

DMR Repeater

Digital Repeater

RD985

Radio features

- Up to 16 channels
- 100% continuous duty cycle from 1W to 50W
- Supports two simultaneous voice paths in digital mode (Pseudo-trunking)
- Operates in conventional Analogue or Digital modes with auto detection between the two
- IP site connect (digital mode only)
- Four programmable keys to improve ease-of-use and increase operator efficiency
- Advanced heat sink design with thermal-controlled cooling fan ensures reliability during extended use.
- Supports internal duplexer with internal duplexer installation kit (Non-RoHS Compliant)
- Remote diagnostics alarms and control (RDAC)
- External power supply
- Power-on user logo programming
- Multi-language menu display
- Multiple CTCSS/CDCSS in Analogue and mixed channel
- SIP capability to support telephone interconnect

Standard package

- Radio   1pc
- Power cord (PWC11)   1pc
- User Manual   1pc
- Power Supply (PS22002)   1pc
- 24 months warranty on transceiver

Power supply Accessories

Model	Picture	Description	RRP(GBP)
PWC11		DC power cable red/black 10A 12AWG 3000mm PWC11 00	£20.00
PS22002		Power Supply for Mobile Radio (300W, Backup Power Supply applicable) (Please state UK or EU plug)	£155.00

Audio Accessories

Model	Picture	Description	RRP(GBP)
SM16A1		IP54 Palm microphone	£33.00
SM16A2		IP67 Water proof Palm Microphone	£40.00
SM10A1		Desktop microphone	£43.00

Maintenance Kit

Model	Picture	Description	RRP(GBP)
PC40		Data transmission cable	£20.00
PC49		Back to back data cable	£20.00
PC47		Programming Cable (CPS programming and firmware upgrading)	£24.00
SK008		Programming Software Kit (Cable PC47 + Disk) *Please order the correct programming cable by referring to Radio Model Number*	£35.00

Mounting Kit

Model	Picture	Description	RRP(GBP)
BRK16		Build-in Duplexer Installation Kit (for DT11 - DT17)	£53.00
BRK12		Installation accessory for rack-mounted power supply (2U) (Black)	£35.00
BRK14		Installation Accessory for Rack-mounted Power Supply (2U) (Grey)	£35.00
BRK19		Wall-mount Installation bracket for the repeater	£37.00
BRK18		Installation Bracket for Power Supply	£28.00
POA45		Surge Arrester for Ethernet port	£42.00

Radio features

- Slim and portable device measuring only 42mm and less than 5kg in weight
- 100% continuous duty cycle from 1W to 10W
- Supports two simultaneous voice paths in digital mode (Pseudo-trunking)
- Operates in Analogue and digital mode with auto detection between the two
- IP67 Protection, the device can operate properly under a full immersion test
- Supports an optional internal mini-duplexer (see accessories)
- IP site connect (digital mode only) (option)
- Remote diagnostics alarms and control (RADC)
- External power supply, Emergency Port on battery
- Supports optional external 10Ah Li-Ion battery offering at least 8 hours on a 50% duty cycle at high TX power
- SIP capability to support telephone interconnect

Digital Repeater

RD965

Standard package

- Radio   1pc
- Power cord & Adaptor (PS7502)   1pc
- User Manual   1pc
- 24 months warranty on transceiver

All specifications are subject to change without notice due to continuous development.

Extended warranty (radio only)	
Add 12 months	£85.00
Add 24 months	£170.00
Add 36 months	£255.00

DMR Applications

Smart Dispatch

SmartDispatch. Dispatching system developed on the Hytera digital platform in compliance with ETSI DMR open standard, designed for efficient communication, management and dispatching of professional users.

Characterised by C/S structure and modular design and supporting VoIP, SmartDispatch delivers you an enhanced dispatching and deployment platform with tailored communications, network and control center.

* SmartDispatch Enterprise

The client-server architecture supports multiple configurations for a dispatching solution based on IP network or mobile dispatcher. It's modular design will suit systems of all sizes.

Features

- Register online/offline
- GPS location
- SMS
- Call Control(private/group/all)
- Basic report
- Multiple voice channel per Gateway PC
- GPS history play

- Radio Enable/disable
- Emergency alarm
- Mapinfo map (Offline)
- Google Map (Online)
- Master radio management
- Customized icon
- Geo-fence
- Voice recording
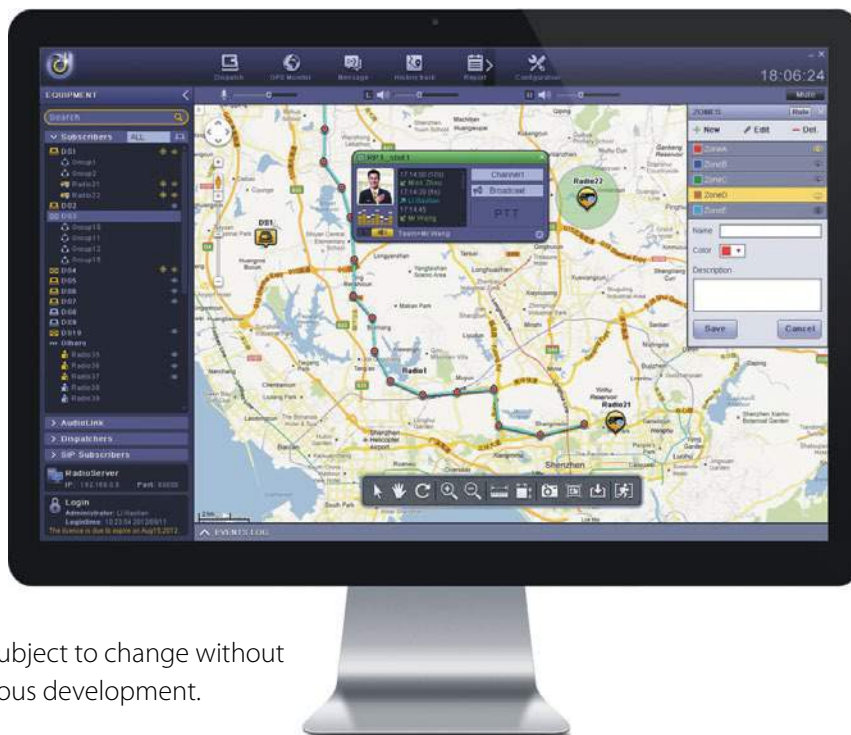

All specifications are subject to change without notice due to continuous development.

Part	Description	RRP(GBP)
Dispatcher Software basic package	Dispatcher server software, licence includes 1 client, 1 gateway, 1 repeater or 2 dispatch stations, 25 terminals, 1 year remote support and free update to version 3.x	£1,550.00
Additional Dispatcher client licence	Additional Dispatcher client software licence (per client)	£248.00
Additional Dispatcher Gateway licence	Additional Dispatcher gateway software l icence (per gateway)	£496.00
Additional Dispatch mobile Station licence	Additional dispatch mobile station licence (per dispatch station)	£310.00
Additional Dispatch Repeater Station licence	Additional dispatch repeater station licence (per repeater)	£620.00
Additional Dispatch Terminal licence	Additional Terminal licence of access to the dispatcher system(per terminal)	£20.00
Additional Software update licence	Additional Software update over than version 3.x series (per system)	£930.00
Additional Remote Technical support	Additional Remote Technical support after 1year (per system per year)	£744.00
Dispatcher Software optional package	Google maps off-line package (per server)	£672.00
USB dongle	USB dongle SmartDispatch & DWS & DVRS	£33.00

SmartXPT Dispatch, a dispatching system developed for Hytera DMR Tier II and XPT digital trunking systerm, designed for efficient communication, management and dispatching of professional users. modularised design and supporting VoIP, Hytera SmartXPT Dispatch delivers you an enhanced dispatching and deployment platform with tailored communications network and control center.

SmartXPT Dispatch

Features

- Register online/offline
- GPS location
- GPS history track
- Geo-fence alarm
- Call Control (Private,Group,All)
- Crosspatch
- Simul-Select
- Voice recording
- SMS Message
- Enable / Disable
- Call alert

- Monitor
- Ambience listening
- Emergency alarm
- History report
- Google Online Map
- Google Offline Map (Optional)
- SIP phone access (Optional)
- DMR Tier II access (Optional)
- Analogue Channel access (Optional)
- XPT access (Optional)

All specifications are subject to change without notice due to continuous development.

Part	Description	RRP(GBP)
XPT Dispatcher Software basic package	Dispatcher server software, licence includes 1 client, 1 gateway, 1 repeater or 2 dispatch stations, 25 terminals, 1 year remote support (per system)	£1,957.00
XPT Additional Dispatcher client licence	Additional Dispatcher client software licence (per client)	£522.00
XPT Additional Dispatch mobile Station licence	Additional dispatch mobile station licence (per mobile dispatch station)	£326.00
XPT Additional Dispatch Repeater Station licence	Additional dispatch repeater station licence (per repeater)	£652.00
XPT Additional Dispatch Terminal licence	Additional Terminal licence of access to the dispatcher system (per terminal)	£22.00
XPT site licence	XPT digital access licence (per site)	£1,957.00
XPT Google offline map	Google maps offline package (per system)	£672.00
XPT SIP access licence	SIP gateway access licence (per system)	£2,086.00
XPT 2 way wireless gateway	2 way wireless gateway MPUC--(2 mobile radio) wireless gateway hardware. Support single point interconnection. Note: Includes 2 DFSI or AFSI SAP licence. Does not include mobile radio.	£2,086.00
XPT 12 way wireless gateway	12 way wireless gateway VPUC--(8 mobile radios + 2 PSTN + 2 GSM) wireless gateway hardware. Support single point interconnection. Note: Does not include mobile radio.	£3,129.00
Upgrade Smartdispatch to SmartXPT	Upgrade Licence from Smartdispatch to SmartXPT (per system) Note: Not a software upgrade. Re-Install required of SmartXPT and re-applied Licence with same SN or USB dongle; Does not support transfer of historical data from Smartdispatch to SmartXPT. Telemetry, E-Mail Gateway, Timed Messages, OTAP and Overspeed Alarm are not currently available in SmartXPT	£930.00
XPT Additional Remote Technical support	Additional Remote Technical support after 1st year (per system per year)	£744.00
XPT Additional Server Software Licence	Additional Server software (per system)	£2,610.00
XPT Hot-standby Software	DS-6610 HA Hot-standby software package for server. Note: One SmartXPT Dispatch system configured with one Hot-standby package. Server hardware should be doubed.	£10,430.00
SafeNet USB Dongle	Licenced USB dongle for SmartDispatch/DWS/DVRS	£33.00
XPT 4292000000500	Connection cable for MD785(G) to XPT wireless gateway	£21.00

GLOBALVIEW
RESEARCH & DEVELOPMENT

R-LinX

The clever little alarm handler, capable of sending alerts to DMR, smart phone, email and more.

Features

- Connect and go, with the straightforward alarm monitoring module.
- Simple to set-up and configure, with built in test and discovery tools.
- Integrates with emergency alarms, access systems and machinery.
- Send messages to DMR Radios, Radio Group, SMS, email.
- Tailor your own alert escalation strategy.
- Serial Input Sentence Message Parsing with keyword and Omit word functionality.
- TCP Input Sentence Message Parsing with Keyword and Omit word functionality.
- Radio Keyword In to start the alert escalation.
- Radio or SMS Keyword In to activate onboard contact closure outputs.
- Lone Worker for up to ten users, with event log.
- Alert logging as a CSV file.
- No Licence or support fees.
- Links to radios via a tethered Hytera MD655 or directly into a Hytera repeater
- RS232 or RS485 Serial Ports
- X4 USB 2.0 Ports
- X4 Onboard Contact Closures (Easily expandable to 12 via a Brainbox
- ED-588 GPIO module)
- TCP and IP Client In/Out
- Dimensions: 120mm x 110mm x 23mm
- Power Consumption: +5V DC, 2.6 Amps
- SMS -Separate USB GSM Dongle and SIM Card Required

The R-LinX is manufactured by Global View Systems, who can be contacted for further information on the product.

AWCSL - DDC
(Digital Desktop Controller)

With a DDC, the entire dispatch solution now comes in one small desktop unit around the size of a telephone, allowing the users to access the internal web server from any browser application on a remote device.

The DDC is an economic and sturdy DMR system control unit specifically designed with simplicity of use and ease of configuration in mind. It provides full control of remotely located DMR repeaters via an IP connection.

The DDC provides both manual and computer access, and control over the radio base station, with the use of an inbuilt web server. By having a web server on the DDC you are not reliant on a platform specific application. This makes it possible to use the DDC with any device that has a web browser such as a PC, iPad, mobile phone or tablet.

The DDC supports a wide range of communications protocols including DMR AIS (TII and TIII) and Hytera Repeaters.

Features

- Integrates to IP connected repeaters
- Voice dispatch
- Text and GPS
- Private and Group calls
- Integrated microphone
- Integrated loudspeaker
- Web browser interface for graphical information
- Easy to configure and simple to use
- Configured through web page
- External microphone connection
- External speaker connection
- Advanced, but simple to use interface
- 12 Volts DC power unit supplied

Grandstream IP Telephony

The UCM6100 Series is an innovative IP PBX appliance designed to bring enterprise-grade Unified Communications and Security Protection features to small-to-medium businesses (SMBs) in an easy-to-manage fashion.

Powered by an advanced hardware platform and revolutionary software functionalities, the UCM6100 Series offers a breakthrough turnkey solution for converged voice, video, data, fax, security surveillance, and mobility applications out of the box without any extra license fees or recurring costs.

Features

- Up to 50 SIP trunk accounts
- Supports up to 500 SIP endpoint registrations
- Up to 60 concurrent calls or up to 40 SRTP calls
- Mobile working with GSWave App
- 2 Analogue telephone FXS ports with lifeline
- Call Routing
- Peering UCM's for multiple sites
- Integrated 2/4/8/16 PSTN trunk FXO ports
- Web based application
- Call Recording
- Automated detection and provisioning of IP phones
- Call & Video Conferencing
- IPCCTV integration. Monitor cameras on Video Phones

SAFETYNET

SafetyNet Business Solutions offer a wealth of new facilities enabling powerful features and functions to be added to a digital radio system.

Extend your communications beyond voice

SafetyNet can link radios to other systems, combining the benefits of different technologies into a single integrated solution combining the benefits of different radio technologies, location services, telephony and alarm

Effectively, this allows a radio to perform the task of several other devices including:

- Onsite radio
- Personal alarm
- Page
- Indoor and outdoor location tracker
- Telephone

SafetyNet Business Solutions groups these functions into a package designed to meet the needs of vertical sectors.

SAFETYNET
INDUSTRIAL

A solution is designed to provide a self- managing onsite radio systems used in industrial, manufacturing or processing sites where a control room is not always present.

The health and safety of lone workers on large industrial sites is a key issue for management.

The principal aim is to provide maintenance and support staff with a quick and convenient means of monitoring onsite alarms through local digital radio terminals with out of hours support to users of mobile telephones.

The SafetyNet Alarm Processor (SNAP) provides a direct pager replacement for many ageing systems installed at industrial sites but integrated with a DMR radio and can include telemetry functions e.g. entry gate solenoid activation.

Personal location systems can be added to provide even more security for personnel working alone in hazardous environments.

SafetyNet

Digital Family

SafetyNet Industrial modules and functions

- SafetyNet Ultra dispatcher for mobile or fixed control point
- SafetyNet NMS network management software for standalone site server
- Single repeater IP connected with 25 user licence
- Lone worker functions
- Off site out of hours duty officer alarms via mobile telephone modem
- SNaP alarm interface panel to Pager or alarm port

Typical recommended End User price £8,004.00

Designed to service the needs of a shopping mall, retail park or city centre.

SafetyNet Retail provides a complete solution for management and security of shopping centres and town centres. It incorporates location tracking (indoor and outdoor), patrol and audit trails, 2-way integrated communications and personal alarms. Lone working practices can be expanded and audit trails provide proof against bogus negligence claims, saving the organisation tens of thousands of pounds.

Location beacons are easily installed with no external wiring being battery operated with a 2-5 year battery life*

SafetyNet Retail typical system RRP from £13,300.00 including;

■ SafetyNet Ultra dispatch position
■ SafetyNet Locator time location mapping display with personal alarms
■ Management reporting
■ Single repeater IP connection, 25 radio users with position location receivers fitted (X1 or PD7 series)
■ 30 beacons adequate for most average sized shopping malls

Part	Description	RRP(GBP)
SND-SERVER-GPS	GPS Outdoor location functions added	£400.00
SNL-BEACON	Beacon	£117.00
SNL-LOC/HYT4	Internal tracking receiver for PD7/X1	£152.00
SNL-LOC2/HYT4	Internal Tracking Receiver for 7 series	£90.00
SNL-LOC2/HYT3	Internal Tracking Receiver for X series	£72.00
SNL-LOC/FIT	PD7 fitting charge with warranty	£22.00

Call us: **+44 (0) 1489 287 287** │ email us: **syndico@syndico.net** │ **www.syndico.net**

SAFETY NET
COMMUNITY

Targeting crime and anti-social behaviour through the deployment of radio fleet management integrated with CCTV control and wide area capabilities; typical applications include local authority radio schemes, sports stadia and large public event control.

The software provides a host of audio dispatch and management functions for controlling the radio fleet and also provides recording all activities.
The system can support a wide range of users working throughout the community supporting multiple repeater sites and multi-operator control rooms.

The scheme can provide a convenient means of communicating with operatives on the ground whilst observing activities on camera in CCTV control rooms.

Integrated personal alarms using the mobile telephone networks can be supported through SafetyNet Alert extending the range of the system beyond the immediate radio footprint with GSM based personal alarm fobs.

SMCgateway

The SMC Gateway is a purpose built device that connects digital radio networks with many other systems. It is a versatile appliance that enables system integrator's to build customer-focused solutions without the need to install PCs and expensive software.

Each gateway is capable of multiple, simultaneous functions, including but not limited to:

- Text messaging to and from DMR radio systems
- Email using SMTP & POP services
- Radio registration events
- Alert calls
- GSM Text messaging via USB GSM Dongle
- Telephone interconnection
- Voltage monitoring via the power input (9-15V DC)
- Third party connectivity via TCP/UDP sockets, HTTP requests/posts, external databases and more
- Internet of Things IoT integration

The limits are boundless!

With the addition of the option board, the gateway can also provide:

- Serial data (RS232 & TTL level)
- Digital/volt free inputs (x4)
- Relay outputs (x2)
- Direct connection to Hytera MD655 mobile radio

Lone Worker

Alarm Handler

Radio Systems

Contact: sales@smc-gateway.com

The SMC Gateway Teleconnect connects your Hytera digital radio system to any available telephone connection, whether this is GSM, VOIP or VSAT. Further options include one-touch emergency handling including GPS location tracking.

Teleconnect is one of many interconnected applications common to the SMC gateway, which work together to provide flexible custom solutions.

This product is sold directly to dealers from the manufacturer and is not warrantied by Hytera.

Call us: +44 (0) 1489 287 287 | email us: **syndico@syndico.net** | **www.syndico.net**

Teleconnect Main Features

- Text messaging to and from DMR radio systems
- Supports PSTN/GSM /VoIP connections
- Access control/authentication on inbound calls
- Interactive Voice Response menu, fully customisable and multilingual
- Failover to alternative connections
- Restrict outbound calls to known numbers, and/or pattern matching (e.g. block calls to premium rate numbers)
- Call logging and voice recording
- Radio text to SMS
- Inbound calling to individual radios and groups
- Outbound calling to pre-set numbers and free dialing
- Compatible with RD985, RD965 and RD925 repeaters
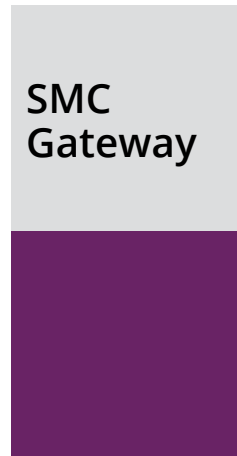

Uses Include

- Wide area incident response
- Cellular PMR Bridging
- Safety of life enhancement

TASSTA

TASSTA offers a unique and cost-effective solution to provide real-time communication and location tracking, messaging and many other features. The T.BRIDGE is TASSTA's gateway to HYTERA networks. It is a professional middleware solution to integrate TASSTA with HYTERA professional mobile radio network.

The T.LION is TASSTA's Server and the main component of the overall TASSTA communication network. It is the heart and brain of the system. It shares resources on requests between the clients and provides reliable communication with the HYTERA network. Available as SaaS (Software as a Service) or as own Stand Alone Installation (In-House Server).

The T.RODON is a desktop application. It grants users a fully featured dispatch solution which brings the TASSTA solution to the highest professional level of communication.

Features
T.BRIDGE

- Group Call
- Messages
- Individual Call
- GPS Localization
- Alarming

T.LION

- Scalability
- Data Security
- E2e Encryption
- Voice, GPS, Data, Messages Recording

T.RODON

- Group Call
- Individual Call
- User Priority And Priority Call
- Dynamic Group Call
- Emergency Call
- Remote Control
- Message And Data Exchange
- Status Messages
- Alarming And Man Down
- Lone Worker Protection
- Voice Recording And Call History
- GPS Tracking
- Enterprise Management And Control
- Indoor Positioning
- Fleet Management
- Situational Awareness
- Geo-Fencing

T.FLEX

- Group Call
- Individual Call
- User Priority And Priority Call
- Emergency Call
- Remote Control
- Message And Data Exchange
- Status Messages
- Man Down
- Lone Worker Protection
- Voice Recording And Call History
- GPS Location
- Task Reporting

Yealink

Telephone Gateway

ZONITH

ZONITH software enables you to send alarm system output messages to Hytera radios using text.

ZONITH software translates the alarm system output and converts them to DMR or TETRA messaging formats. ZONITH software also has a number of features to filter and schedule alarms, as well as enabling radios users to remotely accept, decline and automatically escalate alarms using the radio user interface.

Whether you are simply replacing a paging system or designing a complex alarm dispatching solution, ZONITH gives you the flexibility and scalability you need.

ZONITH provides marketing tools, demonstration software and product training to enable Hytera resellers to successfully sell value add applications. Visit our website at www.zonith.com or contact us on sales@zonith.com

ZONITH Alarm

Dispatching Software

Zonith Real Time Location System

RTLS – Real Time Location System is a software and beacon hardware solution which uses standard Bluetooth technology to track devices indoors and GPS technology to track devices in outdoor areas.

The RTLS positioning system can display graphically all devices positioned indoors and outdoors on a facility map. This provides more security and a clear idea of who is in an area which could be potentially unsafe and also of any member of staff who needs assistance.

Staff Safety, Secutiry and Situational Awarness for:

Alarm Handling, Alarm Escalation, Lone Worker Protection, Panic Alerting, Indoor Positioning and GPS

Key Features

- Track multiple device types with Bluetooth (DMR Radio, Android, DECT, GSM Phones etc.)
- Track Hytera DMR radios with build-in GPS
- Real-Time Tracking
- Track Devices witout Receivers or option board
- Support for any "always discoverable" Bluetooth Device
- Secure and Reliable System
- Geo-fenced areas

Terms & Conditions

TERMS & CONDITIONS

1   Dealers placing orders on Syndico Distribution Ltd are accepting our terms and conditions in full.

2   Dealers shall order Products by submitting purchase orders to Syndico Distribution Ltd by mail, electronic transmission or facsimile. Dealers will supply a signed purchase order, quoting order number and dealer buy price for each item listed. Failure to do this will result in your order being returned for clarification.

3   Any short or incorrect shipment must be notified to Syndico Distribution Ltd in writing within 48 hours of delivery to the Dealer.

4   Any invoiced price query must be notified to Syndico Distribution Ltd in writing within 7 days of invoice date.

5   With all orders placed on Syndico Distribution Ltd cleared funds are required prior to dispatch, unless Dealer has an authorised credit account in place.

6   Invoices must be paid net within 30 days as of date of invoice with no deductions for early payment, expenses, taxes or dues of any kind. Failure to pay within terms may result in all credit facilities being withdrawn with immediate effect.

7   Syndico Distribution Ltd provides a parts and labour warranty for all transceivers for a period of 24 months from the date that the goods are despatched from Syndico Distribution Ltd's premises. This warranty is void if the defect is caused by the end-user/customer/dealers improper handling, misuse, neglect, or unauthorised repair or modification of the Hytera products in question.

8   Full terms and conditions are available on request.

9   All prices exclude VAT and are E&OE.

10   Please call for carriage on application.

11   Prices are subject to revision without notice.

12   Syndico Distribution Ltd will accept orders from an Authorised Dealers only.
