■ Historical Background

Tohoku University, formerly known as the Tohoku Imperial University, was founded in 1907. From its start, it displayed to the world an unswerving commitment to an "Open Door" policy. Departing from the norms of other imperial universities, it accepted graduates from technical schools and higher normal schools, and despite opposition from the government at that time, became Japan's First University to admit female students in 1913.

At the time of its founding, Tohoku University was able to attract a group of young and brilliant researchers who had trained around the world to serve on its faculty. For this reason, a "Research First" principle was established, calling upon scholars to not only pursue highly productive research but to also put their findings to work in the teaching of their students. In addition to this, Tohoku University has nurtured a tradition of "Practice Oriented Research and Education," in which the results of cutting edge research are being put to use for the good of society and the improvement of living standards. Evidence of our pioneering practice includes the establishment of local venture businesses which have contributed to regional industry, and our status as the nation's center for research on family law; the domestic branch of law which is closely associated with our daily lives.

In 2011, Tohoku University was severely damaged in the wake of the Great Eastern Japan Earthquake. In addition to our own recovery, the university responded to the disaster by providing expertise and support for the region through numerous reconstruction efforts. Three years on, we remain committed to our role in the recovery process.

December 27, 2005

■ Mission Statement

Tohoku University has been committed to the “Research First” principle and “Open Door” policy since its foundation, and is internationally recognized for its outstanding standards in education and research. The university contributes to world peace and equity by devoting itself to research useful in solving societal problems, and educating human resources in leadership skills.

■ Towards Tohoku University 2016

In order to fulfill this mission, Tohoku University will carry out the following objectives within the next 10 years.

Establish ourselves as an internationally recognized university and research center

- Consistently produce top research in a broad spectrum of fields, including the natural sciences, humanities and social sciences.
- Create cutting edge research institutions and other forums capable of responding to the rapid dissemination of knowledge and a knowledge based society.
- Establish our presence and reputation as an international general research base while maintaining close links with major national and international research networks.

Nurture human resources capable of leadership that contributes to knowledge and the advancement of society

- The faculty’s cutting edge research will be reflected in their teaching.
- Content and pedagogy of all courses will be that of a top level educational institution.
- Establish an educational foundation which enables students to explore new avenues of human knowledge and to become aware of the responsibilities of leadership.
- Develop educational programs and institutions that foster outstanding, internationally minded specialists with theoretical and practical knowledge.

Contributions to the community and to the world

- Contribute to the development of community and humanity by making available to the world the benefits of research and human resources with exceptional leadership abilities.
- Provide equal opportunity to all capable, highly motivated students and faculty, regardless of nationality, race or religion, age or gender, or any other social standing.
- In keeping with our tradition of practice oriented research and education, create a science park by further promoting university and industry collaboration.
- Dramatically increase the quality and availability of public education, and to provide consultation when specialized knowledge is required.
- Open the campus to the general public and consider ways in which the university’s intellectual and material resources, such as the libraries, academic materials and facilities, can be beneficially utilized.

Establish a culture, environment and management system appropriate for an internationally renowned research and education institution

- Maintain and further develop a university culture that will stimulate the creation of world class research and education.
- Create an atmosphere conducive to intellectual activities by bringing aesthetic unity to the campuses and their natural surroundings.
- Establish a human, material and financial base in a management system which allows a world class research and educational institution to develop rapidly and flexibly.

Introduction

In the more than 100 years since its founding in 1907, Tohoku University has produced excellent graduates and numerous research achievements under its core values of “Research First,” “Open Doors,” and “Practice-Oriented Research and Education.”

Beginning with recovering from the catastrophic damage caused by the Great East Japan Earthquake and Tsunami, we are faced with a wide variety of challenges. These include a loss of industrial strength and reduced earning capacity, a declining birth rate and a growing population of the elderly, increased globalization that has led to an escalation in international competition, as well as global environmental problems. In such a chaotic world, what is required of a university wisdom, of Tohoku University? For responding the request, I set our goals to pursue, upon assuming the office of President in April 2012, as following: “Achieving World-Class Status and Leaping Ahead” and “Leading the Restoration of Tohoku and Japan.”

Achieving World-Class Status and Leaping Ahead

“Achieving World-Class Status and Leaping Ahead” means Tohoku University becoming a university that is respected around the world for excellence in both education and research that raises the level of global society, through creating a rich academic foundation and aiming for a higher level of education and research. This year, we will take action for outstanding issues by carrying out reforms in both our education and research fields. For education, as we can see a steady and ongoing increase in globalization, we must enhance the quality of our liberal arts education to cultivate people who can be an active part of innovation on a global level. For research, we will encourage holding the “Tohoku Forum for Creativity” program, as well as establishing the Organization for Advanced Studies. As we further strengthen our university’s robust and cutting-edge research fields, we will also find the flaws in our other fields and embark on a bold plan to bolster them. Additionally, we invite world-class, frontline researchers to our university, and thus create the chance for our students and researchers to have meaningful discussions with them. Through being able to have free discussions with researchers from different fields, we aim to pioneer new areas of research and cultivate a generation of global leaders.

Leading the Restoration of Tohoku and Japan

Tohoku University will continue to play a role in “Leading the Restoration of Tohoku and Japan” by maintaining our eight projects and over 100 action plans under the Institute for Disaster Reconstruction and Regeneration Research. More than three years have passed since the Great East Japan Earthquake and Tsunami, and so we must produce visible results that benefit society as a whole. In March of next year, the “3rd United Nations World Conference on Disaster Risk Reduction” will be held in Sendai. This conference being held in disaster-struck Sendai will give Tohoku University a valuable chance to make international contributions, show the world how much the disaster area has recovered, and how far we have progressed in disaster risk reduction.

Additionally, quite a few researchers from our International Research Institute of Disaster Science will be in attendance, and I am certain they will make many great contributions.

The Future of Tohoku University – Tohoku University Global Vision

In order to identify the steps needed to achieve these two goals, in May of this year “Tohoku University Global Vision” was announced. This vision was developed considering the university-wide view points, and is comprised of “Satomi Vision” and “Faculty’s Vision”, which were announced last year. By gathering the diverse strengths of this university’s various departments, organizations and groups, we will be able to guide the university as a whole into the future as we deal with social issues, and through this, we can better reform and further strengthen our university.

I believe that Tohoku University will lead the next generation in building the future, and make a place for itself in history. With your understanding and support, we will work together with many people and strive to realize our goals, so that we may better contribute to the development of a peaceful and just world community.

June 2014

Susumu Satomi

President, Tohoku University

Tohoku University Official Symbol, Logo, School Colors and Songs

◆Tohoku University Official Symbol, Logo and School Colors

An official logo for Tohoku University was created in 2007 to coincide with the 100 year centennial celebrations. The key concepts behind the design are ‘Creativity, Globalization and Tradition’. The logo includes a graphic of Sendai’s native bush clover plant. The bush clover which grows naturally in the wild represents Tohoku University’s will to create global connections in the international community.

The colors purple and black were selected as Tohoku University’s official colors. Purple symbolizes intelligence and creativity, while black represents diligence and the power of practice.

◆Tohoku University Songs

The song ‘Aobamoyuru konomichinoku’ is the official song of Tohoku University. This beloved song was originally sung by the Tohoku University Students’ Association in 1953 and has been passed down the generations since then.

In 2013, singer and songwriter Kazumasa Oda, composed a song for Tohoku University staff and students in a show of support in the aftermath of the 2011 Tohoku earthquake.

Recipients of the Japan's Order of Culture / The Persons of Cultural Merit Award

Japan's Order of Culture honors significant contributions to the advancement or improvement of science, technology, the arts, or culture. The conferment ceremony is held yearly on November 3rd (Culture Day) at the Imperial Palace, the Matsu-no-Ma State Room, and is awarded by His Majesty the Emperor of Japan. The Person of Cultural Merit Award is the second highest cultural honor in Japan (the highest being the Order of Culture) and is awarded to individuals who have made particularly notable achievements related to the development or refinement of culture.

University Awards

Recipients of the Presidential Prize for Research Excellence

This prize is given to academic staff of Tohoku University who have made a significant contribution to education, research and development of academic culture of Tohoku University.

Date	Name	Affiliation
March 26, 2014	Masayuki Yamamoto	Professor, Graduate School of Medicine Executive Director, Tohoku Medical Megabank Organization
March 27, 2013	Eimei Sato	Professor, Graduate School of Agricultural Science
March 27, 2013	Masataka Nakazawa	Professor, Director of Research Institute of Electrical Communication
September 25, 2009	Masataka Nakazawa	Professor, Research Institute of Electrical Communication
March 25, 2009	Sadafumi Kawato	Professor, Graduate School of Law
March 27, 2007	Koji Kato	Professor, Graduate School of Engineering
September 25, 2006	Akihisa Inoue	Professor, Director of Institute for Materials Research
July 31, 2006	Mitsumasa Koyanagi	Professor, Graduate School of Engineering
March 24, 2006	Atsuto Suzuki	Vice President, Professor of Graduate School of Science
November 26, 2005	Motoko Kotani	Professor, Graduate School of Science
June 29, 2005	Hideo Ohno	Professor, Research Institute of Electrical Communication

Recipients of the Presidential Prize for Educational Excellence

This prize is given to academic staff of Tohoku University who have made a significant contribution to education at Tohoku University by conducting and supporting classes and giving a educational guidance on activities and international cultural exchange.

Year	Name	Affiliation
FY 2013	Teruo Asakawa	Professor, Center for the Advancement for Higher Education
	Masashi Motoe	Associate Professor, Graduate School of Engineering
	Advisory Committee for the SERMSS Environmental Leadership Program at the Graduate School of Environmental Studies (SERMSS: Strategic Energy and Resource Management and Sustainable Solutions)	
	Yasushi Hoshikawa	Assistant Professor, Institute of Development, Aging and Cancer
FY 2012	Mitsuru Haga	Professor, Center for the Advancement for Higher Education
	Toshihiko Suzuki	Assistant Professor, Graduate School of Dentistry
	v-QI School, Graduate School of Engineering	
	The Information Literacy Education Program, Graduate School of Information Sciences	
FY 2011	Committee for Exploring-Germination-and-Growth Program for Young Scientists	
	Minoru Katsuyama	Associate Professor, Graduate School of International Cultural Studies
	Advanced Mathematics and Physics Special Education Project	
	Hitoshi Tanaka	Professor, Graduate School of Engineering
	Toshikuni Yonemoto	Professor, Graduate School of Engineering
	Hitoshi Yonekura	Professor, Graduate School of Agricultural Science
PEM Educational Program Committee (PEM: Professional Ecosystem Manager)		

Recipients of the Presidential Prize for Excellence (FY 2013)

This prize recognizes students for their outstanding academic achievement.

Undergraduate

Name	Affiliation
Yoko Asai	Faculty of Arts and Letters
Natsuki Muto	Faculty of Arts and Letters
Yuki Tomita	Faculty of Education
Yutaro Mitsuzuka	School of Law
Hiroki Awahara	School of Law
Ayato Shimizu	Faculty of Economics
Daiki Yamashita	Faculty of Economics
Keisuke Kizaki	Faculty of Economics
Shusuke Otabe	Faculty of Science
JANA LUSTIKOVA	Faculty of Science
Akira Takei	Faculty of Science
Sakura Hiraide	School of Medicine
Aya Ogawa	School of Medicine
Chika Kasahara	School of Medicine
Kouta Sugawara	School of Dentistry
Touma Adachi	Faculty of Pharmaceutical Sciences
Ryo Aihara	School of Engineering
Kousuke Totani	School of Engineering
Kenji Owada	School of Engineering
Masayasu Muraoka	School of Engineering
Chihiro Kondou	School of Engineering
Naoyuki Obara	School of Engineering
Ziqian Wang	School of Engineering
Yuki Takadate	School of Engineering
Yoshino Saito	Faculty of Agriculture

Graduate (Master)

Name	Affiliation
Toshiya Morimura	Graduate School of Engineering
Xia Yuan	Graduate School of Engineering
Yuta Teruyama	Graduate School of Biomedical Engineering

Graduate (Profession)

Name	Affiliation
Yuhu Ishikawa	Graduate School of Law

Graduate (Doctor)

Name	Affiliation
Yousuke Kira	Graduate School of Arts and Letters
Yoshikazu Nozaki	Graduate School of Education
Masahiro Abe	Graduate School of Economics and Management
Yu Kitabepu	Graduate School of Science
Thiago Junqueira De astro Bezerra	Graduate School of Science
Tetsuya Fukuda	Graduate School of Science
Tadatsugu Imamura	Graduate School of Medicine
Jun Suzuki	Graduate School of Medicine
Yoko Yagishita	Graduate School of Dentistry
Koji Ando	Graduate School of Pharmaceutical Sciences
JUAN FELIPE TORRES ALVAREZ	Graduate School of Engineering
Kensuke Suzuki	Graduate School of Engineering
Ikuo Ushiki	Graduate School of Engineering
Keisuke Ono	Graduate School of Engineering
Syuhei Yoshino	Graduate School of Engineering
Yasunori Baba	Graduate School of Agriculture
RYAN EDWARD SPRING	Graduate School of International Cultural Studies
Akira Suzuki	Graduate School of Information Sciences
Hotaka Kobayashi	Graduate School of Life Sciences
Takuya Ishibashi	Graduate School of Environmental Studies
Xiumin Zhao	Graduate School of Educational Informatics Education Division

(FY = Fiscal Year/ Financial Year)

Recipients of the Students' Friendship Association Award

This award aims to honor students for outstanding achievement and who epitomize the reputation of Tohoku University.

Year	Name	Affiliation
FY 2013	Mitsuru Shibata	Wind Music
	Masayuki Iwahashi	English Speaking Society
	Kazuki Okazaki	Athletic Sports
	Shuji Endo	Tennis
	Akira Hanzawa	Swimming
	Takamasa Kanno	Orienteering
	Issei Susuta	Triathlon

Recipients of the Sawayanagi Prize

The Sawayanagi Prize is given to individuals or groups that have promoted gender equality in Tohoku University through gender related research and activities.

Year	Name	Affiliation	Category
FY 2012	A Rong Na	Graduate School of Economics and Management/Giving Birth and Child Rearing Program for International Students and Researchers / Region-university Cooperation Project Team Representative	Activity

Recipients of the Tohoku University's Professor Fujino Award (Lu Xun Award)

This award is given to Chinese individuals or Chinese groups that made a significant contribution to the development of education and research at Tohoku University through academic exchange.

Tohoku University's Professor Fujino Award

Year	Name	Affiliation
FY 2005	Sun Yi	Director, Beijing Lu Xun Museum

Tohoku University's Lu Xun Award

Year	Name	Affiliation
FY 2004	Gu Binglin	President, Tsinghua University

Recipients of the Tohoku University's Professor Fujino Incentive Award

This award is presented to outstanding and promising Chinese exchange students currently enrolled in the graduate school of Tohoku University.

Tohoku University's Professor Fujino Incentive Award

Year	Name	Affiliation
FY 2013	Peng, Ningning	Graduate School of Science
	Sun Shulan	Graduate School of Medical
	Xu Bin	Graduate School of Engineering

Recipients of the Honda Kotaro Memorial Prize

This award is given to individuals or groups from other countries that have made a significant contribution to education and research at Tohoku University through academic exchange.

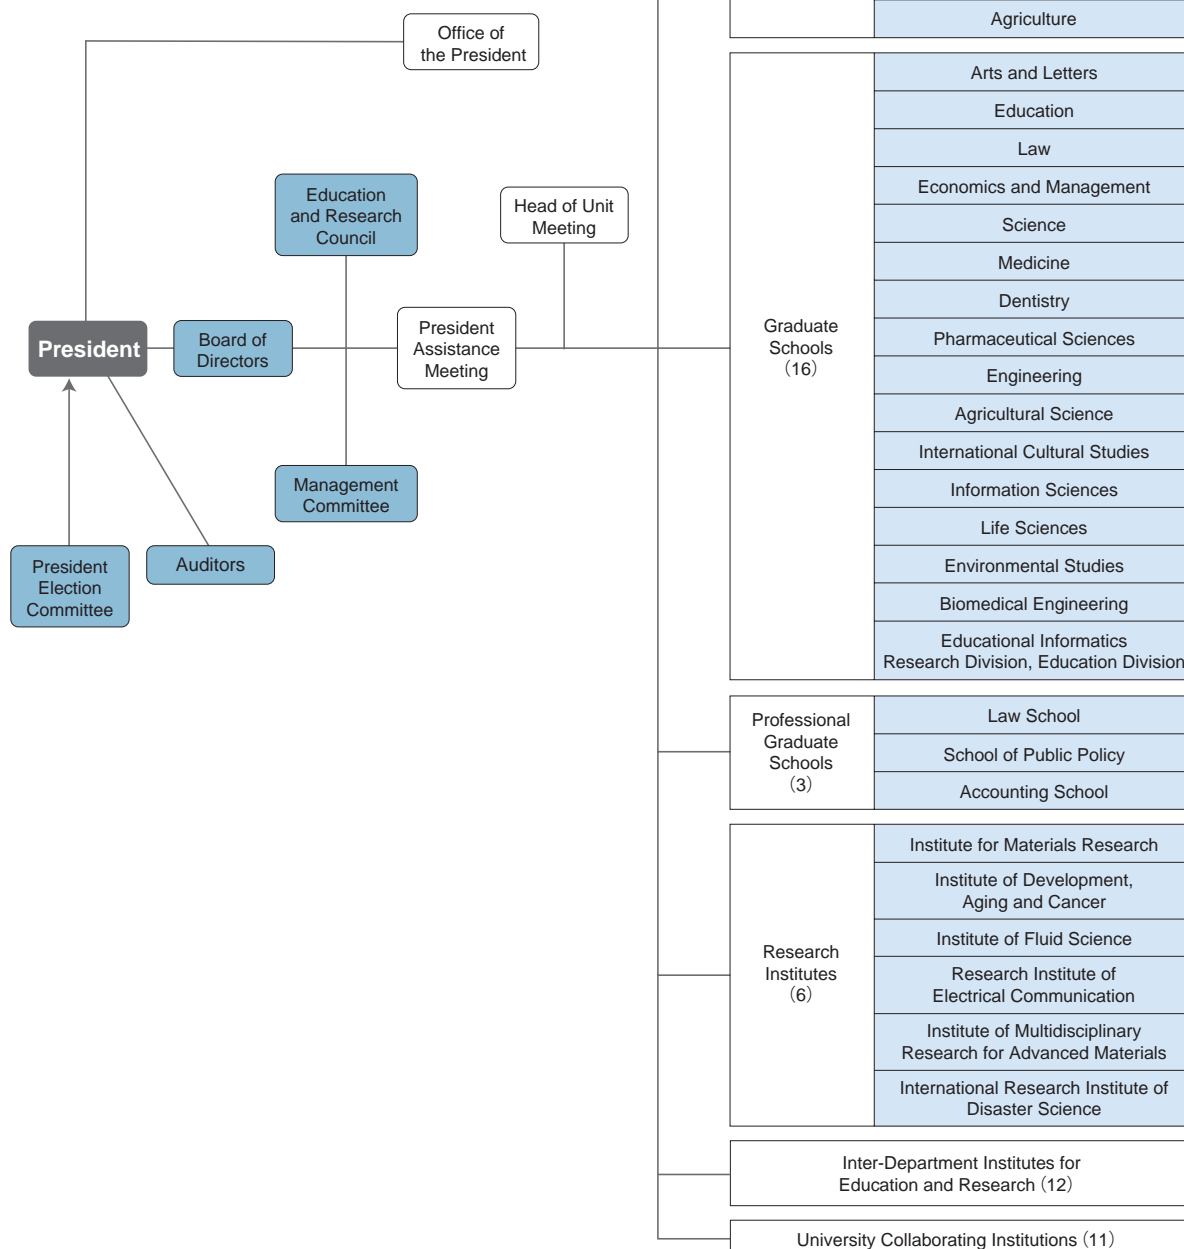

Honda Kotaro Memorial Prize

Year	Name	Nationality	Affiliation
FY 2006	Patrick Bourgin	France	Director, Ecole Centrale de Lyon
	Fondation Renault		
	Albert Prevos	France	Director, Centre international d'études pédagogiques
	Alain Storck	France	Director, INSA-Lyon
	Léo Vincent	France	Director, International Affairs, Ecole Centrale de Lyon
	Alain Reza Yavari	France	Professor, Institute National Polytechnique de Grenoble
FY 2004	John L. Stollery	United Kingdom	Emeritus Professor, Cranfield University
	A. Lindsay Greer	United Kingdom	Professor, University of Cambridge
	Sir Robert Yewdall Jennings	United Kingdom	Former President, International Court of Justice

Research Institutes

Institute	Division	Mission
Institute for Materials Research (Joint Usage / Research Center)	29 divisions	Experimental and Theoretical Studies of New Materials and their applications
Institute of Development, Aging and Cancer (Joint Usage / Research Center)	8 divisions	Basic and Clinical Studies of Cancer and Brain Diseases related to the aging process
Institute of Fluid Science (Joint Usage / Research Center)	3 divisions	Theoretical and Experimental Studies on Fluid Flows
Research Institute of Electrical Communication (Joint Usage / Research Center)	4 divisions	Theory and Application of Intelligent Information Science and Communications
Institute of Multidisciplinary Research for Advanced Materials (Joint Usage / Research Center)	5 divisions	Systematic and futuristic studies of new concepts, methodologies and processes related to advanced materials
International Research Institute of Disaster Science	7 divisions	Research on the Theory and Application of Disaster Sciences

Inter-Department Institutes for Education and Research

Institute	Mission
Center for Northeast Asian Studies	To carry out regional interdisciplinary and integrated studies of North and East Asia, including Japan.
Research Center for Electron Photon Science (Joint Usage / Research Center)	Using the various electron and photon beams produced via electron accelerators, we aim to promote fundamental study and applied research of the various classes of materials in nuclear physics, accelerator science and material science. Furthermore, through the development of new electron photon beams, we aim to break new ground in unexplored areas of research, develop new areas of research while nurturing researchers and technical experts in the various fields of electron photon science.
Research Center for Neutrino Science	To contribute to the advancement of particle physics, astrophysics and geophysics through observation of low-energy neutrinos and research experiments conducted in extremely low-level radioactive environments.
Institute for Excellence in Higher Education (Joint Educational Development Center)	To plan, promote, and support professional development, and to raise the level of knowledge and pedagogy in universities in cooperation with departments.
Institute for International Advanced Research and Education	To create new total knowledge, and to promote nurturing young researchers to the international standard by carrying out research and development, planning and supporting regarding education based on new research achievements in interdisciplinary field.
Frontier Research Institute for Interdisciplinary Sciences	To develop and promote interdisciplinary research by making functional use of Tohoku University's knowledge with supporting senior and young researchers for the contribution to the advancement of mankind.
The Center for Academic Resources and Archives	To collect, store, preserve and research scholarly materials belonging to the University: including scientific specimens, important official documents as historical records and other materials relating to the University's history, and biological resources grown within the Botanical Gardens; thereby contributing to education and research at the University while also disseminating and making widely available such materials for the advancement of education in society.
Center for Information Technology in Education	To promote information sciences education, multimedia education and distance learning, to provide digital services for undergraduate and graduate students, and to manage and develop information systems necessary for the achievement of these objectives.
Cyclotron and Radioisotope Center	To conduct research studies in various energy fields using the cyclotron and high-level, short-lived radioisotopes, as well as to carry out training in the safe handling of radiation and radioisotopes. Interdisciplinary research is carried out in nuclear biology with an accelerator and instrumentations, as well as in radiopharmaceutical chemistry, cyclotron nuclear medicine, and radiation protection and safety control.
New Industry Creation Hatchery Center (NICHe)	To respond to the needs of society by creating new technologies and products as well as by exploring new uses and industries. Original and cutting edge research is carried out in collaboration with industry.
Technology Center for Research and Education Activities	Establish large-scale research facilities which contribute to the advancement of research and education and to manage these facilities in order to make them available for common use by faculty and other qualified persons. To offer a stable supply of low-temperature liquid and providing guidance in cryogenic technology. To promote upgrading, and the fusing of education and research with social contribution at the University, ensure research functions and equipment designated by the University are shared widely both within and outside of the University through collaborations with campus wide departments, schools and institutions.
Cyberscience Center (Joint Usage / Research Center)	The Cyberscience Center functions as both the Inter-Department Institution for Education and Research, and as the National Collaborative Research Institute. It fulfills a key role in promoting computerization in the University, managing design and operation of cyberinfrastructure based upon high-performance computing, networking and information-related technologies which promote the use of advanced information technology in research and education.

University Collaborating Institutions

Institution	Mission
Office of Cooperative Research and Development	To promote wide-ranging academic research, contribute to the creation of knowledge, and facilitate institutional management/utilization of research results as the university-owned intellectual properties. To contribute to the establishment of a mutually beneficial collaboration between industry, academia and government, and the further development of our society by providing support for the creation of new business.
Office of Research Promotion	This office cooperates with the Tohoku University Research Promotion Council in order to promote research at Tohoku University.
Environment Conservation Center	To protect the environment by the correct disposal of all waste products including wastewater, spent oil and other harmful waste (excluding radioactive waste) resulting from research activities conducted at this university. In addition, to conduct research on the technologies needed to deal with the different types of waste, and develop technologies free from secondary pollution for the utilization of waste as raw chemical materials.
Archaeological Research Office on the Campus	To investigate and research archeological findings on campus and plan for their preservation and use.
Center for Laboratory Animal Research	To evaluate animal experimentation protocols conducted by the Environment/Security Committee and the Institutional Animal Care and Use Committee, to encourage compliance of regulations and safe management in animal experimentation, and to provide education and training to people conducting animal experimentation, we aim to maintain the legality of animal experimentation in our university and promote safe management of animal experimentation through these operations.
Center for Gene Research	To evaluate gene recombination research plans conducted by the Environment/Security Committee and the Gene Recombination Research Security Committee. To encourage compliance of regulations and safe management in gene recombination research, and to provide education and training to people conducting gene recombination. We also aim to maintain the legality of gene recombination research in our university and promote safe management of gene recombination research through these operations.
Center for Environmental Conservation and Research Safety	Promoting and encouraging educational and research facilities on campus to manage environmental protection, safety, and health.
Center for Gender Equality Promotion	Promoting gender equality at Tohoku University by taking measures to foster and support female researchers based on the policies of the Committee for Gender Equality.
Campus Design Office	To conduct surveys and researches on campus design from the standing point of long-term view and succeeding the tradition of Tohoku University, and to provide expert support to the Campus Comprehensive Planning Committee.
The Office of Japan-Russia Relations	To work together with related departments and promote university-level exchange with Russian institutions. To contribute to the development of global research and education networks through the establishment and operation of the Japanese Inter-university Russia Office.
Office of Innovation and Business	Promoting commercialization out of university's research outcomes and creating business values to university's intellectual properties by planning, development and effective exercise of "university-led joint industry research and development programs" including application call, evaluation, recommendation for selection, exercise planning and support, and program management through communication with university research centers and departments among others.

Organization for Advanced Studies

Mission Create a research support system and international research environment where world-class researchers will gather, as well as new academic fields that will surpass our university's current academic disciplines.

Advanced Institute for Materials Research (AIMR)

Mission As an international research center for innovative material science, AIMR established new atomic and molecular control through the deepening of principle theory on the atomic and molecular level and interdisciplinary integration. Based upon this idea, AIMR creates new materials with innovative and practical functions. Accordingly, AIMR contributes to sustainable development in the Japanese industrial economy, while maintaining a leading-edge and making progress in relevant academic fields.

Tohoku Forum for Creativity

Mission The Tohoku Forum for Creativity is an international visitor research institute created to facilitate intellectual progress and scientific discoveries. The central aims of the Forum are to promote pioneering interdisciplinary research, to strengthen academic programs, and to foster the development of young researchers.

Information Synergy Organization

Mission The Information Synergy Organization carries out planning, arranging, implementation, management and utilization of university-wide information infrastructures. Moreover, this organization contributes to the promotion of computerization by coordinating improvement, utilizing the management of an information system while providing necessary operations to promote information security systems based upon the information infrastructures.

Tohoku Medical Megabank Organization

Mission Contribution to a creative reconstruction in the Tohoku Region through :

- Building a new type of biobank based on long-term follow up of medical and health information by large-scale cohort studies and genome information in the Great East Japan Earthquake disaster area
- Establishment of an advanced medical system and a research center through cultivation of highly specialized human resources
- Improvement of shortage of medical practitioners by effective utilization of medical resources and implementation of advanced genome medicine

Promotion Office of Strategic Innovation

Mission To realize a sustainable society with vitality and create a living environment with a high quality of life as a country facing the aging population and the declining birth rate, by promoting cooperation among industry, government and academia through planning and research on strategies to promote continuous creation of innovation.

Division of Engineering and Technical Staff

Mission The division organizes engineering and technical staff for academic studies and provides coordinated support to strengthen the infrastructure for education and research activities of Tohoku University. To this end, it promotes skill development and appropriate job assignment of the engineering and technical staff.

Micro System Integration Center (μ SIC)

Mission As an R&D center for Integration of micro-systems, we aim, through cooperation with industry, to promote the development of micro-system integration techniques, and to contribute to the strengthening of Japan's international competitiveness in the field of integrated circuits. In addition, we aim to apply the technologies in diverse fields such as information-communication, manufacturing, and medicine.

Center for Spintronics Integrated Systems

Mission

This center aims to contribute to the realization of a low-carbon and energy-saving society and to the strengthening of international competitiveness in the field of next generation VLSIs, through the development of innovative energy-saving logic VLSIs that fuse spintronics devices and logic-integrated circuits under the collaboration among industries, universities and government focusing on these technologies.

Research Organization of Electrical Communication

Mission

The Research Organization of Electrical Communication contributes to the prosperity of information communication and electronics industries located in the disaster areas of Tohoku by convening the wisdom of researchers and technical experts in the fields of electricity, communication and electronics of our university, through the construction of a disaster-resilient information communication network, and through the world leading innovative research development. The organization further contributes to the creation of new industries in our country in the fields of new information communication and electronics, promoting strategic research responding to social issues and contributing to community and national policy, and to the promotion of industry-academia collaborative research.

Center for Collaborative Research on Materials Science

Mission

As a base of research and development of materials science, and through the cooperation with Shanghai Jiao Tong University, the Center for Collaborative Research on Materials Science promotes joint research in the field of materials science, and while investing in the training of leaders and in the production of research results on highest world standard, the Center contributes to the development of science and industrial technology.

Center for Innovative Integrated Electronic Systems

Mission

The Center aims to contribute to the enhancement of global competitiveness in the field of next-generation integrated electronics systems, and further, work toward the creation of practical applications and new industries, through the research and development of innovative devices and its integrated electronic systems and constructing a consortium for this field under the international collaboration among industries, universities and government.

Organization for Leading Graduate School Program

Mission

In cooperation with other related departments, this program aims for the enrichment of postgraduate education by planning, conducting and supporting credit programs for doctor courses on a global level; it equips graduate school students with a birds-eye view and the power of creativity, and contributes to the development of global leaders capable of working in industry-university-government sectors.

Material Solutions Center (MaSC)

Mission

The Material Solution Center (MaSC) contributes to the strengthening of the global competitiveness in the industrial recovery of the Tohoku area as well as the material field of our country by building the cooperation system by industry, academia and government, and by promoting the commercialization and R&D of technology in each process of processing, manufacture, treatment, analysis, and evaluation concerning a new material supporting the society of the future.

Research Center for Rare Metal and Green Innovation

Mission

We will contribute to realize a sustainable low-carbon society with energy-efficient technologies and a smarter industrial structure with cost-effective uses in rare-earth metals and promote Green Innovation through research activities based on collaboration between academic, industrial and governmental alliance, as well as focusing on education and training for the next-generation.

Job Guidance

Job Fair 2014

“Gakuyu-kai” Extracurricular Activities

“Gakuyu-kai” is a university association, consisting of the student body and faculty of our university; it incorporates a membership system with fees charged to all its members. The association covers many extracurricular sports and cultural events for the entire university as a whole; it also hosts activities such as the University Festival and Welcome Parties events for its newcomers. We are hopeful that all students enjoy, and develop a positive and refined character throughout the “Gakuyu-kai” activities.

Cultural activities

Male Chorus	Rakugo Study
Mixed Chorus	English Speaking Society
Symphony Orchestra	Game of Go
Literary Arts	Juggling
Fine Arts	Light Music
Movie	Mandolin Music
Drama	Chemistry
Photograph	Audiophile
Tea-Ceremony	Wind Music
Noh Drama	Japanese Chess
Japanese Music	Calligraphy
Broadcasting Study	Life Affairs
Amateur Radio	Press

Sport activities

Athletic Sports	Wandervogel	Archery
Baseball	Golf	Triathlon
Semi-Hardball Baseball	Aikido	Lacrosse
Tennis	Fencing	Ice Skating
Softball Tennis	Cheering Group	Cart Racing
Rugby Football	Cycling	Kyokushin Karate
Volleyball	Bodybuilding	Sumo Wrestling
Soccer	Shorinji-Kempo	Softball
Basketball	Gymnastics	Chinese Martial Arts
Table Tennis	American Football	Bogu Karate
Mountaineering	Orienteering	Human-powered aircraft
Swimming	Ballroom Dance	Futsal

Ecollab. (Graduate School of Environmental Studies)

Institute for Disaster Reconstruction and Regeneration Research

Institute for Disaster Reconstruction and Regeneration Research, which Tohoku University established on April 2011, has pushed forward full-scale efforts for research, education and the social contribution toward reconstruction from the disaster on March 2011. As a university located at the center of the disaster-affected area, Tohoku University will work to fulfill the historic mission of reconstruction Tohoku region. Therefore, Tohoku University promotes its efforts following Eight Projects and Reconstruction Action 100+ in conjunction with national and local governments, in gathering the collective wisdom of foreign and Japanese institutions.

Institute for Disaster Reconstruction and Regeneration Research - Eight Projects

Project Leader	Project Description
International Research Projects on Disaster Science Prof. Fumihiko IMAMURA	Based on the lessons and experiences from the Great East Japan Earthquake, the International Research Institute of Disaster Science (IRIDeS), a global research center for disaster science, works research studies and social action programs to build up a disaster-resistant society. IRIDeS conducts the action-oriented research integrated the humanities and sciences, for example, deciphering the mechanisms of Mega earthquake and tsunami, conveying lessons from the disaster.
Project for the Reconstruction of Community Health Care Prof. Hideo HARIGAE Prof. Masayuki YAMAMOTO	The Comprehensive Training Center for Community Medicine aims to develop medical professionals who provide local medical services and offer lifelong education to locals. To fulfill these aims, the center accepts medical staffs affected by the Great East Japan Earthquake and provides them with opportunities to receive training in advanced medicine. Further, the Tohoku Medical Megabank Organization conducts a long-term survey on the health status of residents in disaster affected areas, and compiles a database from the gathered medical information of the residents with informed consent, to create the foundation for genomic medical care and drug development research.
Project for Environmental Energy Prof. Kazuyuki TOHJI	To support the recovery of the Tohoku region and overcome Japan's energy problems, Tohoku University plays a central role as the core institution of a consortium which includes universities and local governments stricken by the Great East Japan Earthquake. The consortium members work on "the Next-generation Energies for Tohoku Recovery Project". Our aim is to develop renewable energy and an energy management system that suits the regional characteristics.
ICT Reconstruction Project Prof. Masataka NAKAZAWA	The Great East Japan Earthquake revealed the vulnerability of our information communication technology (ICT) including the disruption of communication lines, the failure of information gathering, and the insufficiency of information. The Research Organization of Electrical Communication (ROEC) aims to develop and demonstrate a disaster-resistant ICT network in collaboration with the National Institute of Information and Communications Technology (NICT).
Tohoku Marine Science Project Prof. Akihiro KIJIMA	Its aim is to scientifically unravel the influence of the Great East Japan Earthquake and tsunami on the marine environment of the coastal areas of the Tohoku region and its ecosystem, and to investigate the regeneration process from the disaster, while contributing to the reconstruction of fisheries industries and the regeneration of the communities. Tohoku University, the University of Tokyo Atmosphere and Ocean Research Institute (AORI) and the Japan Agency for Marine-Earth Science and Technology (JAMSTEC) play a central role to conduct surveys with the participation of researchers across the nation and the cooperation of local fishermen.
Radioactive Decontamination Project Prof. Keizo ISHII Prof. Manabu FUKUMOTO	We promote the development of technologies to restore the living environment contaminated by radioactive substances, through developing new technology, radiation-contaminated soil restoration and gamma ray detection. Further, we have collected organs of disposed farm and wild animals that were exposed to radiation due to the nuclear power plant accident, and set up an organ bank to measure the body distribution of artificial radionuclides in those animals.
Regional Industries Restoration Support Project Prof. Masahiko FUJIMOTO	Our aim is to support the restoration of industries and communities in the Tohoku region. Therefore, we promote the Regional Industries Restoration Research Project which clarifies the situation and problems of reconstruction and to propose policies regarding society and economy of Tohoku region. Also, we provide the Regional Innovative Producer School which develops innovative producers who can contribute to the reconstruction of regional industries and produce business innovations which should lead to employment.
Industry-University Collaboration Development Project for Reconstruction Executive Vice President Hideo Shindo	An industry-academia-government collaboration is essential to foster and strengthen the industrial infrastructure, which serves as the basis for the economic revitalization of the disaster-affected areas. To achieve the objectives, Tohoku University enhances the cooperative relationships with industrial organizations and municipalities in Miyagi Prefecture. Also Tohoku University makes full use of the reconstruction policies of government ministries and agencies. We will contribute the economic revitalization of the disaster-affected areas through the commercializing of our innovative research seeds utilizing companies in these areas.

Reconstruction Action 100+

Reconstruction Action 100+(Plus) is the generic name of more than 100 reconstruction support activities in which Tohoku University's faculty members work on a voluntary basis. Institute for Disaster Reconstruction and Regeneration Research supports for those activities, and gathers and disseminates information on the projects.

Institute for Disaster Reconstruction and Regeneration Research sends out information about Tohoku University's actions toward reconstruction and their efforts, through publishing brochures and utilizing website.

The symposium of the institute in March, 2014.

World Premier International Research Center Initiative (WPI)

Advanced Institute for Materials Research (AIMR)

The Advanced Institute for Materials Research (AIMR) at Tohoku University is one of nine World Premier International Research Centers Initiative (WPI) Program established with the support of the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT), aimed at developing world-class research bases in Japan. After its establishment in 2007, AIMR has been active in conducting research activities and creating new systems in order to become a global center for materials science. Since 2012, AIMR has also been conducting fundamental research by finding connections between materials science and mathematics. Through prediction, AIMR aims to formulate new scientific principles that can enable the development of materials. In order to ensure that the advanced materials that have been developed play a useful role in society, AIMR is also engaged in the development of devices and systems that make use of these materials. AIMR's mission is to contribute to the resolution of resource and environmental problems caused by human beings.

Bulk Metallic Glasses

This division is dedicated to the cutting-edge research of advanced non-equilibrium metallic materials including amorphous, quasicrystalline and nanostructured metals and alloys that exhibit unique and superior physical, chemical and mechanical properties.

Materials Physics

Exploring and understanding innovative materials for electronic devices are the key targets in the research of division.

Soft Materials

Synthesis, characterization and evaluation of soft materials, such as organo- π -electronic devices, gel, polymer composites, microporous polymer films, and nano-structured materials catalysts, are key issues of this division.

Device/System

Our Device/system group consists mainly of spintronics, electronics, MEMS materials and bio device laboratories. Fabrication of innovative materials and developing them to devices are key target of our group.

Mathematics Unit

Mathematical Unit gives a viewpoint beyond various levels of hierarchy of the outcomes of materials science and builds a new scientific principle in cooperation with Groups of Bulk metallic glasses, Materials physics, Softmaterials and Device/System.

Interface Unit

The Interface Unit is made up of eight young theorists in the fields of physics and chemistry. These researchers are not affiliated with a specific research laboratory, but participate in multiple projects in their role as the bridges that connect the mathematicians and the experimental materials scientists.

Gas atomization allows the massive production of amorphous alloy nanofibers.

Atomic-scale scanning tunneling microscope (STM) image of a SrTiO₃ thin film

Grants for Excellent Graduate Schools

The Grants for Excellent Graduate Schools is a MEXT program which aims to promote the creation of an environment that brings forth researchers capable of taking an active role on the global stage and attracts excellent students by providing an environment where doctoral students can concentrate on their studies and research.

Year	Center	Participating Departments
FY 2013	Materials Integration International Center of Education and Research	Graduate School of Engineering (Department of Materials Processing, Department of Materials Science, Department of Metallurgy, Department of Applied Physics), Graduate School of Science (Major of Physics), Graduate School of Environmental Studies (Department of Environmental Studies)
	International Center of Research and Education for Molecular Complex Chemistry	Graduate School of Science (Major of Chemistry), Graduate School of Engineering (Department of Applied Chemistry, Department of Biomolecular Engineering, Department of Chemical Engineering, Department of Applied Physics), Graduate School of Pharmaceutical Sciences (Molecular Pharmaceutical Science), Graduate School of Agricultural Science (Division of Bioscience and Biotechnology for Future Bioindustries), Graduate School of Life Sciences (Department of Biomolecular Sciences), Graduate School of Environmental Studies (Department of Environmental Studies)
	Center of Education and Research for Information Electronics Systems	Graduate School of Engineering (Department of Communications Engineering, Department of Electronic Engineering), Graduate School of Information Sciences (Department of Computer and Mathematical Sciences, Department of System Information Sciences, Department of Applied Information Sciences)
	Global Nano-Biomedical Engineering Education and Research Network Centre	Graduate School of Biomedical Engineering (Department of Biomedical Engineering), Graduate School of Engineering (Department of Bioengineering and Robotics, Department of Electronic Engineering), Graduate School of Medicine (Major of Medical Sciences)
	Advanced Institute for Materials Research	Graduate School of Sciences (Major of Physics, Major of Mathematics, Major of Chemistry), Graduate School of Engineering (Department of Nanomechanics, Department of Electronic Engineering, Department of Applied Chemistry, Department of Chemical Engineering, Department of Biomolecular Engineering, Department of Materials Science), Graduate School of Environmental Studies (Department of Environmental Studies)
	Graduate School of Engineering / Department of Materials Science	Graduate School of Engineering (Department of Materials Science)
	Global COE for Conquest of Signal Transduction Diseases with "Network Medicine"	Graduate School of Medicine (Major of Medical Sciences)
	Weaving Science Web beyond Particle-Matter Hierarchy	Graduate School of Science (Major of Mathematics, Major of Physics, Major of Astronomy), Graduate School of Arts and Letters (Major of Humane Studies)
	Global Education and Research Center for Earth and Planetary Dynamics	Graduate School of Science (Major of Earth Science, Major of Geophysics), Graduate School of Environmental Studies (Department of Environmental Studies), Graduate School of Engineering (Department of Civil and Environmental Engineering)
	Center for Ecosystem Management Adapting to Global Change	Graduate School of Life Sciences (Department of Environmental Life Sciences, Department of Developmental Biology and Neurosciences), Graduate School of Agricultural Science (Division of Biological Resource Sciences, Division of Life Sciences), Graduate School of Engineering (Department of Civil and Environmental Engineering), Graduate School of Economics and Management (Course of Economics and Management), Graduate School of Pharmaceutical Sciences (Major of Life Science)
	World Center of Education and Research for Trans-disciplinary Flow Dynamics	Graduate School of Engineering (Department of Mechanical Systems and Design, Department of Nanomechanics, Department of Aerospace Engineering, Department of Quantum Science and Energy Engineering, Department of Chemical Engineering, Department of Bioengineering and Robotics), Graduate School of Information Sciences (Department of Computer and Mathematical Sciences, Department of System Information Sciences), Graduate School of Environmental Studies (Department of Environmental Studies), Graduate School of Biomedical Engineering (Department of Biomedical Engineering)
	Gender Equality and Multicultural Conviviality in the Age of Globalization	Graduate School of Law (Major of Legal and Political Studies), Graduate School of Arts and Letters (Major of Linguistic Studies), Graduate School of Economics and Management (Course of Economics and Management)
	Graduate School of Life Sciences/Department of Developmental Biology and Neurosciences	Graduate School of Life Sciences (Department of Developmental Biology and Neurosciences)

● Program Objectives

This program will create links between industry and academia to realize a level of innovation not possible at enterprises and universities alone. It was implemented in 2013 with support from the Ministry of Education, Culture, Sports, Science and Technology, and the Japan Science and Technology Agency in order to create a platform in Japan for producing revolutionary innovations.

Future businesses will have to continually innovate to survive in the midst of international competition and contribute to economic revitalization. This program will lay out ideals (a “vision”) for the forms that future societies and lifestyles will take, and attempt to predict currently dormant social needs. Based on this vision, the program will identify revolutionary research and development topics for the next 10 years. By clearing away obstacles in existing fields and organizations, it will be possible to conduct research and development through industrial and academic cooperation, from the fundamental research stage to practical application.

We have proposed the creation of joint headquarters with Toshiba Corporation and Nihon Kohden Corporation, and are working together with satellite branches at Niigata University, Tohoku Gakuin University, and Waseda University on R&D activities aimed at realizing our vision.

● Objectives of headquarters

The headquarters will develop ultra-compact, highly functional, safe sensors for use with rice, chopsticks, and tableware, as well as adhesive sensors. These will allow people to easily collect information about their own behavior and mental/physical condition during everyday activities. By doing this, they can ascertain their own lifestyle and health status. This peripheral awareness will contribute to the formation of strong relationships, through which a safe, secure, and vigorous society can emerge.

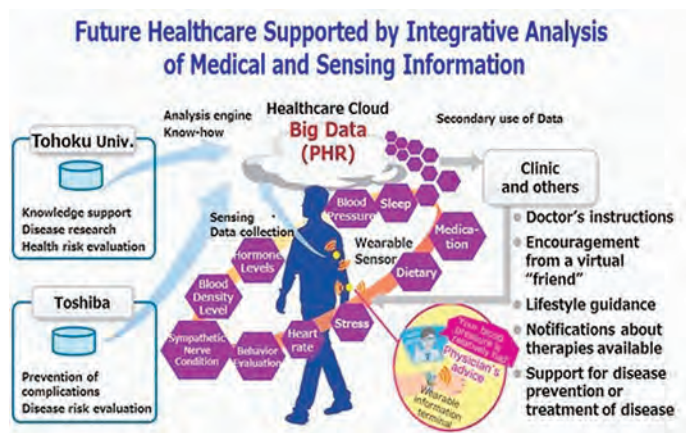

Our university is highly regarded internationally for gathering a number of cutting edge fields, such as MEMS (Micro Electro Mechanical Systems), electronics, communications, energy, materials, and medical technology, in one location, and working to find innovative social implementations in new life fields.

● R&D themes that unlock results

■ Pioneering sensor technology will enable the easy collection of data on the user's physical condition and environment during everyday activities (autonomous ultra low-power devices, bio-spintronics, MEMS).

■ The integrated management of large amounts of personal health data will contribute to individual wellness, but will also have secondary uses, such as security, beyond healthcare. Technologies (such as Private Cloud PHR) will accelerate the creation of new industries leading to widespread usability improvements in society and solutions to a variety of problems.

■ Advanced applications (e.g. weekly health forecasts) will “surface” plans for healthy lifestyles based on data obtained from personal genome and sensor data, and allow people to monitor the health of family members remotely.

The Program for Promoting the Enhancement of Research Universities

Program Duration: FY 2013–2022

● Program Objectives

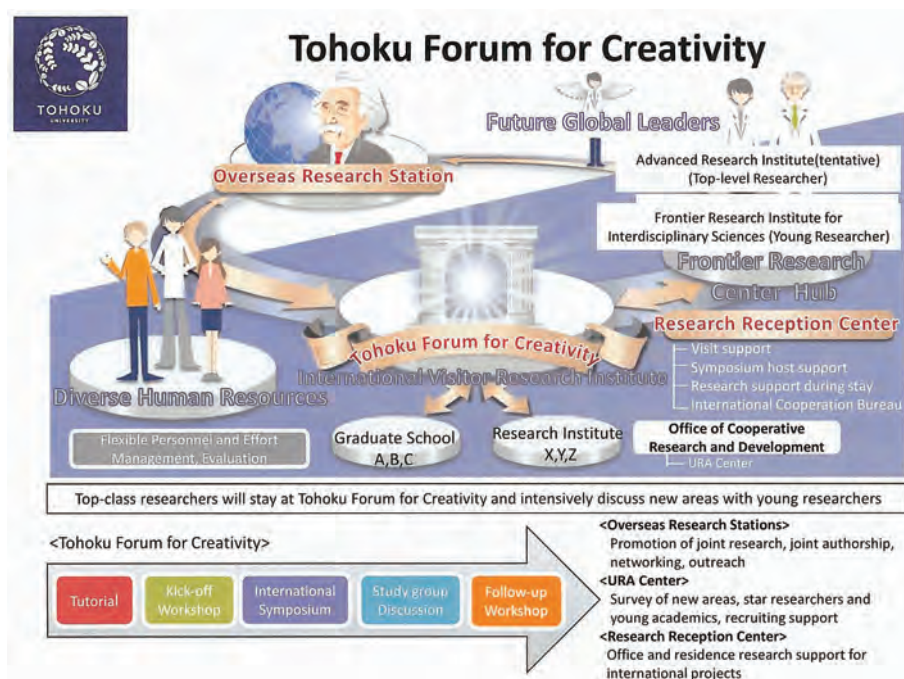

This project focuses on the university's overall academic research functions. Based on self-analysis of the university's research activities, we will endeavor to effectively create a focused research environment capable of obtaining and utilizing research management staff (including research administrators) to manage research strategy and intellectual property, accelerating competitive research, creating pioneering fields of research, and sustaining a world-class research environment. By doing this, we aim to stimulate a resurgence of research, and contribute greatly to universities that are performing world-leading, excellent research activities.

● Tohoku University Enhancement Policy

- ◆ Clarification of Research Strategy
- ◆ Formation of an International Community
- ◆ Fostering Future Global Leaders
- ◆ Establishment of a World-class Campus, Internationalization of Administrative Staff

● Tohoku University Initiatives

- ◆ We will improve the Research Administration Center, which is part of the Research Promotion Center, and conduct analysis of worldwide research, social trends, and our university's research capacity. By "surfacing" our research strategy, we will provide planning support and selection of benchmark universities, research institutes, and researchers. We will then increase the number of visiting/resident researchers from these universities etc.
- ◆ We will establish the Tohoku Forum for Creativity as a visiting/resident research center to develop pioneering fields of research that will contribute to solving problems common among all human societies.
- ◆ We will establish Overseas Research Stations, which will allow young researchers (potential global leaders) to conduct mid/long-term studies at overseas research institutes. International research cooperation/collaboration projects will dramatically accelerate the ideas they incubate overseas.
- ◆ A reception system, comprised of the Research Reception Center and International Cooperation Bureau, will be created to facilitate the smooth arrival of visiting/resident researchers. The Research Reception Center will act as a hub for accelerating the internationalization of Tohoku University's administrative staff.

Education Programs

Tohoku University promotes the following educational programs with support from the Ministry of Education, Culture, Sports, Science and Technology (MEXT).

The Program for Leading Graduate Schools

To guide excellent students to become global leaders able to work in the wide industry-university-government sectors, this program constructs and develops credit programs that guarantee interdisciplinary world-class education, supports far reaching reforms of postgraduate education and promotes the forming of graduate schools worthy of a top educational institution.

Year	Department	Program	Contents
FY2012 - FY2018	Faculty of Engineering, Faculty of Science, Faculty of Art and Letters, International Research Institute of Disaster Science etc., 12 faculties and institutes	Inter-Graduate School Doctoral Degree Program on Science for Global Safety	This program aims to produce leaders for global safety capable of contributing in protecting human lives, society and industry from global disasters such as the Great East Japan Earthquake, not only in the academic field, but also in other fields such as global enterprises and international organizations.
FY2013 - FY2019	Faculty of Engineering, Faculty of Science etc., 10 faculties and institutes	Interdepartmental Doctoral Degree Program for Multi-dimensional Materials Science	The objective of the MD Program is to cultivate human resources through creating materials leaders whose understanding of materials is based on a diverse range of perspectives and a firm grasp of the fundamentals of material science. When combined with extensive research experience, these leaders will be able to envision how their concepts of materials for the future will change society and to bring about those changes.

Project for Strengthening Central Functions of Universities and Affiliated Institutions in the Reconstruction of the Region

This program, while reconstructing the communities in the disaster areas and regenerating the regional industries and community medicine, helps universities and affiliated institutions strengthen their central functions in the reconstruction of the communities.

Year	Department	Program	Contents
FY2011 - FY2015	Graduate School of Medicine	Comprehensive Education Center for Community Medicine Support Project	Through acceptance and reeducation of medical personnel from disaster areas and education for students and young medical personnel to enable them to respond to the needs of disaster medicine, this program aims to contribute to the reconstruction of community health care in disaster areas.

Future Medical Researchers Training Hub Development Program

This program will contribute to solutions to medical problems associated with the rapid population ageing. In order to vigorously promote the development of medical science and health care, both inside and outside Japan, we support the distinctive efforts with high novelty and originality.

Year	Department	Program	Contents
FY2013- FY2017	University Hospital	Educational Program for Training "Conductor-type" Practitioners of Comprehensive Interprofessional Medical Orchestra	Conventionally, advanced clinical medicine education, practical comprehensive medical care training, and medical management learning, have been performed independently at the university hospital and local hospitals. However, by the university hospital and local hospitals implement these together, it will become possible that the practitioners have medical skills and career improvement as doctors and researchers, while engaged in community medicine.

Cancer Professional Training Promotion Plan

This program aids in fostering intelligent, highly-skilled medical professionals who specialize in the field of cancer; those who become carcinoma doctors, etc.

Year	Department	Program	Contents
FY2012 - FY2016	Graduate School of Medicine	Tohoku Cancer Professional Cultivation Promotion Plan	This program fosters the ability to promote academic knowledge, skill, and clinical studies on international level, which is necessary for cancer medicine. Through the collaboration of university, region, other occupational fields (medical team), and the patients association this comprehensive program aims to promote local cancer treatment and research including home healthcare and palliative care.

Nurturing Future Doctors Active on the World Stage After the Reformation of Medical Education in Basic and Clinical Sciences

We support excellent programs intending to cultivate MD researchers of basic medicine at the medical school and graduate school of medicine.

Year	Department	Program	Contents
FY2012 - FY2016	School of Medicine	Nurturing MD researchers competitive in the world arena	Based on a needs assessment of students and faculty, we will establish a highly effective program to promote the career development of medical students to become MD researchers who will play leading roles in advancing basic and clinical medical sciences.

Training of Students in Natural Sciences and Mathematics Support Program

To support students who are highly interested in the fields of natural sciences and mathematics to further develop their interests and abilities, undertakings including all the elements of "Systematic Educational Special Program throughout the Year", "Selection of Participating Students" and "Enhancement of Collaboration/Connection on Graduate and other Levels" will be supported.

Year	Department	Program	Contents
FY2012 - FY2015	Faculty of Engineering	Step-QI school	Setting up the 3 courses of "Infrastructure", "Development" and "Evolution", establishing a system to go through the courses in stages and conduct special education, precedent studies and voluntary training fitting the students individual ability level and their degree of program participation.

Initiatives for Distinctive Education

This is an extra-curricular course for undergraduate and graduate students aimed at enhancing practical English communication skills.

Year	Department	Program	Contents
FY2005 -	Institute for Excellence in Higher Education	Practical English Course	This course, taught by native instructors, will help students further develop English communicative abilities required in academic and social situations through activities including discussions and oral presentations.

(FY = Fiscal Year/ Financial Year)

Endowed Chairs and Research Divisions

Endowed Chairs and Research Divisions are established to facilitate and enhance the research and education at Tohoku University through contributions from businesses and other organisations. Endowed Chairs are organized at the graduate schools and Endowed Research Divisions are organized at the research institutes as listed below.

Endowed Chairs

(as of May 1, 2014)

Year	Graduate School	Chair	Duration
FY 2014 (Continued)	Graduate School of Medicine	Advanced Preventive Medicine for Infectious Disease	April 1, 2014-March 31, 2017
FY 2014 (Continued)	Graduate School of Medicine	Miyagi Community Health Promotion	April 1, 2014-March 31, 2016
FY 2014 (Continued)	Graduate School of Medicine	Pediatric Education	April 1, 2014-March 31, 2016
FY 2014 (Continued)	Graduate School of Medicine	Nano-Medical Science for Advanced Imaging	April 1, 2014-March 31, 2017
FY 2014 (Continued)	Graduate School of Medicine	Upper Extremity Musculoskeletal Medicine	April 1, 2014-March 31, 2017
FY 2014 (Continued)	Graduate School of Environmental Studies	Control of Environmental Materials (Dowa Holdings Co., Ltd.)	April 1, 2014-March 31, 2017
FY 2014 (Continued)	Graduate School of Dentistry	Next-generation Dental Materials Research	April 1, 2014-March 31, 2017
FY 2014 (Dept. Changed)	Graduate School of Biomedical Engineering	Department of Diabetes Technology	April 1, 2014-March 31, 2018
FY 2013	Graduate School of Medicine	Traffic and Medical Informatics in Disaster	December 1, 2013-March 31, 2016
FY 2013 (Renewed)	Graduate School of Agricultural Science	Animal Welfare	October 1, 2013-March 31, 2015
FY 2013	Graduate School of Medicine	Advanced Breast Cancer Imaging	July 1, 2013-March 31, 2016
FY 2013	Graduate School of Environmental Studies	Multidisciplinary Research on the Circulation of Waste Resources (Sendai-Kankyo-Kaihatu K.K.)	July 1, 2013-June 30, 2016
FY 2013 (Continued)	Graduate School of Medicine	Multiple Sclerosis Therapeutics	May 1, 2013-April 30, 2016
FY 2013 (Continued)	Graduate School of Medicine	Molecular Hematology/Oncology	April 1, 2013-March 31, 2016
FY 2013 (Continued)	Graduate School of Medicine	Research Division of Sciences for Aortic Disease	April 1, 2013-March 31, 2016
FY 2013 (Continued)	Graduate School of Pharmaceutical Sciences	Department of Planning for Drug Development and Clinical Evaluation	April 1, 2013-March 31, 2018
FY 2012 (Continued)	Graduate School of Medicine	Innovative Cardiovascular Medicine	October 1, 2012-September 30, 2017
FY 2012 (Continued)	Graduate School of Medicine	Division of Surgery and Oncology	October 1, 2012-September 30, 2015
FY 2012 (Continued)	Graduate School of Medicine	Evidence-Based Cardiovascular Medicine	October 1, 2012-September 30, 2017
FY 2012	Graduate School of Arts and Letters	Practical Religious Studies	April 1, 2012-March 31, 2015
FY 2012	Graduate School of Medicine	Integrative Renal Replacement Therapy	April 1, 2012-March 31, 2015
FY 2012	Graduate School of Medicine	Retinal Disease Control, Ophthalmology	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Medicine	Advanced Ophthalmic Medicine	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Medicine	Blood Pressure Research	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Medicine	Bioscience for Drug Discovery	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Engineering	Advanced Power Engineering (Tohoku Electric Power Co., Inc.)	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Engineering	Ecological Service Engineering (Mitsubishi Materials)	April 1, 2012-March 31, 2015
FY 2011	Graduate School of Medicine	Preventive Psychiatry	October 1, 2011-September 30, 2014
FY 2011	Graduate School of Dentistry	Redox Regulation	April 1, 2011-March 31, 2016

Endowed Research Divisions

Year	Institute / Center	Research Division	Duration
FY 2014 (Dept. Changed)	Institute of Development, Aging and Cancer	Neuro-Imaging Research (Sumitomo Electric Industries, Ltd.)	May 1, 2014-March 31, 2017
FY 2014 (Continued)	Institute of Development, Aging and Cancer	Division of Anti-Infective Agents	April 1, 2014-March 31, 2017
FY 2014 (Continued)	Institute of Development, Aging and Cancer	Division of Cognitive Neuroscience (Kumon Educational Japan Co. Ltd.)	April 1, 2014-March 31, 2017
FY 2014 (Dept. Changed)	University Hospital	Hematopathology	April 1, 2014-March 31, 2016
FY 2014 (Dept. Changed)	Cyclotron and Radioisotope Center	Geriatric Behavioral Neurology	April 1, 2014-March 31, 2017
FY 2013 (Continued)	Institute of Development, Aging and Cancer	Division of Dynamic Proteome in Aging and Cancer	April 1, 2013-March 31, 2015
FY 2012	Center for Northeast Asian Studies	Department of The Uehiro Tohoku Historical Materials Research	April 1, 2012-March 31, 2017
FY 2012	International Research Institute of Disaster Science	Earthquake induced Tsunami Risk Evaluation (Tokio Marine)	April 1, 2012-March 31, 2015
FY 2012 (Continued)	Graduate School of Engineering	Division of Advanced Electric Power Technologies (Tohoku Electric Power Co., Inc.)	April 1, 2012-March 31, 2015
FY 2011	Institute of Development, Aging and Cancer	Division of Geriatric Pharmacotherapy	July 1, 2011-June 30, 2014

Joint Research Chairs and Divisions

Joint Research Chairs and Divisions comprise a system to promote joint researches focusing on the utilization of research results etc. by accepting researchers and funding from companies etc., and sharing the university's faculty staff and objectives under the establishment of "Joint Research Chairs" (for Graduate Schools etc.) or "Joint Research Divisions" (for Research Institutes etc.).

Joint Research Chairs

(as of May 1, 2014)

Year	Graduate School	Chair	Duration
FY 2014	Graduate School of Engineering	Microstructure Control for Advanced Steels (JFE Steel)	April 1, 2014-March 31, 2017

Joint Research Divisions

Year	Institute / Center	Research Division	Duration
FY 2014	Institute of Multidisciplinary Research for Advanced Materials	Nano-Fluid Engineering	April 1, 2014-March 31, 2016
FY 2014	Advanced Institute for Material Research	Industrial-Academic Partnership Project Hitachi, Ltd. Next Generation Innovative Battery Laboratory	April 1, 2014-March 31, 2016
FY 2013	Advanced Institute for Material Research	Industrial-Academic Partnership Project Denso-MEMS Laboratory	October 1, 2013-September 30, 2015

(FY = Fiscal Year/ Financial Year)

Cooperation with Industry

Industry-University-Government Cooperation Policy

Tohoku University has been committed to the “Research First”, the “Open-Door” and the “Practice-Oriented Research and Education” policies since its foundation, and is internationally recognized for its outstanding research and education. The university contributes to the peace and prosperity of human society by devoting itself to research useful in solving societal problems, and by educating human resources in leadership skills.

The university aims to become a “World-class university” which contributes to human society by applying the knowledge it has accumulated over the past century, and by devoting itself to continuous research and education for the next century.

Moreover, under its policy of “global and regional openness,” Tohoku University will contribute to the growth of human society as a whole through the collective strength of its human and intellectual resources, and cooperation with regional and international communities. “Industry-University-Government Cooperation” is the core of our social contribution, our university’s third mission, after “Education” and “Research”, and an important means of delivering the benefits of knowledge to society. Our university follows an active policy of Industry-University-Government Cooperation as described below.

1. Ever since its founding, Tohoku University has had a tradition of “practice-oriented research and education.” Based upon this, the university shall increase the added social value of its education and research by widely disseminating its academic achievements to society and promoting the transfer of technology to industry.
2. In addition to technology transfer and cooperative research, the university shall promote world-leading research into technological innovations within the context of international Industry-University-Government Cooperation.
3. The university shall continuously promote Industry-University-Government Cooperation toward solving problems, including those specific to the region, and contribute to Japan’s economic and social development as a driving force behind innovation.
4. There shall be an organization within the university for the promotion of Industry-University-Government Cooperation, and it shall further such cooperation with an international perspective through the mobilization of university resources and coordination with pertinent domestic and foreign institutions.
5. In promoting Industry-University-Government Cooperation, social accountability shall be fundamental — i.e. ensuring transparency, and complying with international and domestic laws and international treaties.

Joint Research Projects with Industry

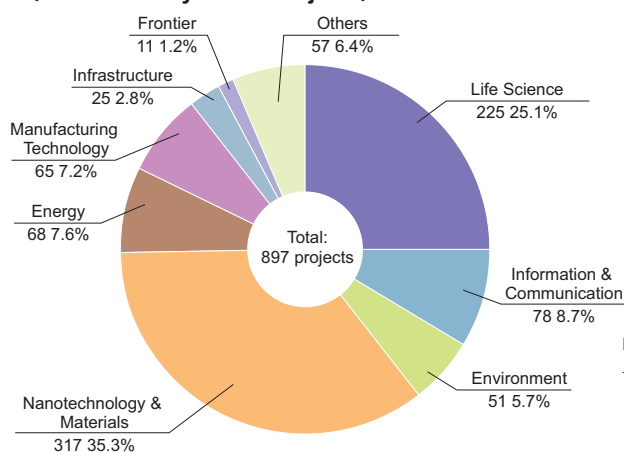

Fiscal Year	No. of Projects	Amount of Funds (million yen)
2003	284	1,129
2004	392	1,675
2005	479	1,827
2006	519	2,028
2007	698	2,086
2008	786	2,459
2009	837	2,692
2010	854	2,956
2011	862	2,840
2012	831	3,084
2013	897	4,127

Sponsored Research

Fiscal Year	No. of Projects	Amount of Funds (million yen)
2003	373	3,450
2004	456	6,149
2005	483	7,358
2006	591	7,927
2007	554	9,101
2008	596	9,131
2009	611	9,563
2010	589	10,008
2011	742	11,397
2012	666	9,587
2013	661	9,216

Cooperation with Industry

Organizational Cooperation

Tohoku University facilitates organized cooperation with private enterprises and research institutes, and promotes practical cooperation in all areas where mutual cooperation is possible, such as research and development, human resources development, and in its responsibilities to the regional community.

Agreement Concluded	Company/ Institute	Objective
January 19, 2006	Hitachi, Ltd.	Collaborative research and mutual exchange in the field of electricity, information, materials and mechanics.
January 31, 2006 February 20, 2014 revised	National Institute of Advanced Industrial Science and Technology (AIST)	Collaborative research in the field of environment, materials, information and telecommunication, and electronics, etc. In February, 2014, concluded an amendment and supplementary agreement to the existing cooperation agreement regarding Industry-University-Government Cooperation for reconstruction from the Great East Japan Earthquake.
February 21, 2006	National Institute of Radiological Sciences	Training professionals in advanced specialties of molecule imaging research PET (positron emission tomography).
July 27, 2006	Seiko Epson Corporation	Promotion of collaborative research, mutual exchange of researchers, education and development of human resources, and international student assistance for the advancement of international exchange.
December 26, 2006 December 26, 2011	Kahoku Shimpo Publishing Co.	Work together effectively and efficiently in the areas of research and investigation, event co-sponsorship and collaboration, human resource development, etc. while connecting the educational and research functions of Tohoku University and the news coverage and information service functions of Kahoku Shimpo.
January 31, 2007	77 Bank, Ltd.	Provide support and exchange information regarding Tohoku University-based start-ups; coordinate matching between Tohoku University's seeds and regional companies; and provide technical advice and promote exchange of human resources.
March 6, 2007	DOWA Holdings Co., Ltd.	Promote joint research and mutual exchange of researchers, foster young researchers, and establish mutual use of research institutes and facilities.
August 3, 2007	Japan Aerospace Exploration Agency (JAXA)	To develop collaborative research and to promote the education of scientists through interdisciplinary studies of cosmic and aeronautical science, including various fields such as bioscience.
July 25, 2008	Central Institute for Experimental Animals	Collaborative research in the field of life science, biological science, material science, psychology and social science, and the cultivation and interaction of human resources.
July 1, 2009	High Energy Accelerator Research Organization (KEK)	Promotion of cooperative research in the field of elementary particle/nuclear physics, physics/life science and accelerator science, and strengthening cooperative research systems.
March 9, 2009	National Institute for Fusion Science	Promotion of fusion reactor research, education and exchange of human resources.
April 14, 2009	Riken	To develop diverse academic fields such as theory and experiments, and the fusion of computational science and computer science; create innovations through computational science; foster human resources who will be active globally; and promote the exchange of faculty and researchers.
February 12, 2010	NTT, NTT East	Further expansion of coordinated cooperation in the fields of information and communications, extension and revitalization of educational and research activities, and promotion of interdisciplinary research and development.
June 4, 2010	Sumitomo Metal Mining Co., Ltd.	Further expansion of collaborative research, mutual exchange and human resource development in order to promote research relating to nonferrous metal materials.
July 26, 2011	Tokio Marine & Nichido Fire Insurance Co., Ltd.	Promotion of cooperation and collaboration in research and development, human resource development and other fields of mutual interests related to risk evaluation of earthquakes and tsunamis.
November 10, 2011	Sendai City, University of Tsukuba	Promotion of research and development of algal biomass capable of producing petroleum components from household wastewater, aiming for realization of a fuel production model and new circulation system.
November 22, 2011	IBM Japan, Ltd.	Promotion of cooperation and collaboration in research and development, human resource development and other fields of mutual interests related to risk evaluation of major earthquakes/tsunamis and disaster mitigation technologies.
January 19, 2012	National Institute of Information and Communications Technology	Effective and efficient promotion of research on information communication technologies to reinforce information communication networks and its disaster-proof applications towards creation of a more disaster-resilient society.
October 16, 2012	Japan Agency for Marine-Earth Science and Technology (JAMSTEC)	Promotion of cooperation and collaboration in the area of collaborative research and projects; mutual exchange of students and researchers and fostering human resource; Information exchange on academic materials and research reports etc.; utilization of facilities and equipment.
August 1, 2013	TOSHIBA CORPORATION	Foster cooperation and coordination in areas with potential synergy, such as research and development, human resources development etc. in research areas related to "Research and Development of Health Care Big Data."
November 12, 2013	National Institute for Materials Science (NIMS)	Contribute to the promotion of science and technology and societal development through cooperative research and development, shared use and management of research facilities, and personnel exchange etc. in material science fields.
December 18, 2013	Tohoku Regional Bureau Ministry of Land, Infrastructure and Transport	Promote and enhance cooperation and coordination to improve disaster protection functions, and facilitate sustainable development of local communities by building on the long-term trust fostered between the parties.

Cooperation with Community

The Science Café・Liberal Arts Salon

The Science Café provides an opportunity for everyone, including high school students and others, to chat over a cup of coffee with the scientists; listen to them talk about their studies, and to enjoy the fun of science and understand how it contributes to society.

Liberal Arts Salon is open to everyone to casually discuss various themes from liberal arts, such as familiar ones, or ones to excite your intellectual desire.

Tohoku University Innovation Fair 2014

Date	Program Content	Venue
January 28, 2014	Introductions and presentations were made of most-advanced and extraordinary research by the young researchers in the fields of manufacturing technology, medical devices, agriculture, nanotechnology/materials, environment/energy and information communication etc.	Sendai International Center

The Science Café

Extension Courses

Tohoku University is constantly making efforts to play the leading roles in educational and academic activities in the Tohoku region. Meeting the community's needs, it provides extension courses and public lectures for lifelong learning of citizens. In FY 2013, the University organized 91 extension courses including on-demand high school classes and 2 public lectures, which were well received in various academic fields. Tohoku University has continued these educational activities made understandable for the public to strengthen cooperation with the community and for the purpose of disseminating information. As a result of these activities Tohoku University has maintained its position as a well-respected university.

Shuyukai-Tohoku University Alumni Association

At the centenary celebrations in 2007, Tohoku University launched an overarching alumni association to include alumni associations from all faculties and departments. The association was given the name, 'Shuyukai'. This takes its origins from the university flower, the bush clover, and literally means friends of the bush clover.

The association currently consists of 6,000 university staff members, 150,000 alumni, and 18,000 students and their families. The association aims to promote interaction and exchange among its members, thus strengthening ties in Tohoku University community.

Fostering connections in the Tohoku University community

Tohoku University holds Home Coming Days as well as regional gatherings to provide alumni association members the opportunity to connect.

The Tohoku University 106th Anniversary Home Coming Day

Date: October 12th, 2013

Venue: Tohoku University Centennial Hall (Kawauchi Hagi Hall)

Talk by Japanese manga artist Hirohiko Araki, performances by student's associations, concert and Exhibitions entertained alumni.

At the concert, new alumni song "Midori-no-oka" was unveiled and sung for the first time.

Regional Exchange Meetings

- Kanto Regional Meeting

Date: July 15th, 2013

Venue: Sapia Tower, Tokyo

- Kansai Regional Meeting

Date: March 1st, 2014

Venue: Shin-Osaka Esaka Tokyu Inn

Shuyukai Premium Membership Meeting

Date: June 7th, 2014

Venue: Tohoku University Centennial Hall (Kawauchi Hagi Hall)

This event was held for student's parents to know about university's activities and supporting systems for the students. Approximately 400 participants enjoyed this event.

Katahira Campus Walking Map / Freshmen Newsletter

- Katahira Campus Walking Map.

The Katahira campus is known as the birthplace of Tohoku University, and houses monuments and historical buildings important to the history of the university. The walking map provides information on the whereabouts and background of these campus treasures.

- Freshmen Newsletter.

The Freshmen Newsletter contains stories on 15 students and alumni, and university president, Dr. Susumu Satomi. We hope this newsletter will serve as a unique peek into the lives of fellow Tohoku University people.

Tohoku University Fund

Foundation / Overview

Tohoku University founded, with your generous support to the “Tohoku University Foundation 100-Year Memorial Fund Raising Business”, the “Tohoku University Fund” on April 2008, and started its operation from 2010. The donated funds are used effectively for Tohoku University’s educational research activities.

○General Fund – Support Fund for all University Activities

Education and Research Support	Financial aid of education and research, and enhancement of campus environment.
Student Support	Enrichment of scholarships and environment for entering school and support of extracurricular student activities.
International Exchange / International Exchange Student Support	Support for study abroad programs and international exchange activities.
Cooperative Activities Between Industry-University-Government and Society	Support for the enhancement of industry-university-government cooperation, relations to graduates, and activities for the contribution to society.

○Special Fund – Support for Special Purposes

Earthquake Disaster Reconstruction Relief Fund (Special Fund)	Financial Aid for the students who suffered by The Great East Earthquake and Tsunami.
Aobayama New Campus Enhancement Fund	Development and maintenance of the Aobayama campus.

Main Projects

Tohoku University Fund Global Hagi Foreign Exchange Student Encouragement Award

To high-achieving Japanese students studying at partner universities overseas, a scholarship is awarded.

Encouragement Award for Extracurricular Activities

Student groups having outstanding results or contributing to the university and local communities are awarded.

Subsidizing projects by student groups

Subsidize projects planned by students across Non-sports Clubs, Sports Clubs and Public Relations Affair and projects contributing to societies or local communities.

Support for Tohoku University Study Abroad Program

Participants attend a 2-5week program during summer and spring vacations on scholarship.

Support for students pre-enrolled at Tohoku University on the High School Bridging Program

Pre-Enrolled at Tohoku University attends a 2week study program at The University of California Riverside campus on scholarship.

Support for alumni activity

Tohoku University and Alumni association “Syuyukai” are holding events in various places in Japan for graduates and parents of enrolled students.

University Consortia

APRU: Association of Pacific Rim Universities

APRU was established in 1997 with the aim of fostering cooperation in education and research contributing to the economic, scientific and cultural advancement, and has grown rapidly to become a reputable international organization of leading research universities in the Pacific Rim. It organizes various exchange programs under three thematic priorities within the Strategic Framework, and holds annual meetings for presidents and senior staff of the member universities to discuss and plan its future activities. It is now composed of 45 universities; Tohoku University joined it in 2008.

Starting April 2013, Tohoku University functions as a regional program hub for APRU's Multi-Hazards Program in the next three years. Through training programs, summer schools, workshops and other activities provided within its framework, we will take a leading role in proposing countermeasures against low frequency high-impact disasters, making further contributions.

<http://www.apru.org/>

AEARU: The Association of East Asian Research Universities

AEARU was established in 1996 with the aim of forming a forum for the presidents of leading research universities and carrying out mutual exchanges between the major universities in East Asia. Expectations are that this regional consortium, on the basis of common academic cultural backgrounds among member universities, will contribute not only to the development of higher education and research but also to the opening up of a new era leading to cultural economic and social progress in the region. It organizes workshops, student summer camps, student sports competitions and international symposia, promoting mutual exchanges of ideas and information and developing close bonds between the member universities. It is now composed of 17 universities from China (6), Japan (6), Korea (3) and Taiwan (2); Tohoku University joined it in 1998 and serves as a board member from January 2012.

<http://www.aearu.org/>

T.I.M.E.: Top Industrial Managers for Europe

T.I.M.E. was established in 1989 as an international network of leading higher educational institutions which specializes in engineering. Its door has been open for non-European institutions since 2005 and Tohoku University was accepted as the first Asian member together with Keio University in 2007. It is now composed of 53 member institutions from 20 countries. Its main focus is on master-level Double Degree Programs and it now has over 2,500 bilingual, bicultural engineer graduates. T.I.M.E. launches other innovative exchange programs through task forces formed by member institutions to foster internationally competitive engineers for tomorrow's world.

<https://www.time-association.org/>

HeKKSaGOn : A network of six leading universities from Japan and Germany: Heidelberg, Kyoto, Karlsruhe, Tohoku (in Sendai), Göttingen, Osaka – network

The Japanese-German University Consortium HeKKSaGOn founded in 2010 is a bilateral university network composed of three Japanese and three German major universities with the aim to promote exchange between Japan and Germany through activities such as research staff/student exchange, joint research, workshops and summer schools. The Japanese member universities are Kyoto University, Tohoku University and Osaka University, and the German member universities are Heidelberg University, Karlsruhe Institute of Technology and the University of Göttingen.

RENKEI: Japan-UK Research and Education Network for Knowledge Economy Initiatives

RENKEI, the Japan-UK Research and Education Network for Knowledge Economy Initiatives, is a bilateral consortium that was formed in 2012 by leading universities from Japan and the UK under the support of the British Council. Its aim is to encourage knowledge transfer and research collaboration not only between the two countries but also between the higher education and industry sector. The participating universities in RENKEI are forming pilot projects for collaboration in three main areas: technology and knowledge exchange with industry, student mobility, and universities' social engagement. RENKEI is now composed of 12 universities from Japan (6) and the UK (6).

Students Exchange Programs

Tohoku University Junior Year Program in English (JYPE)

The main purpose of this program is to offer international students an opportunity to take science, engineering, and agricultural science courses at Tohoku University, without having to attain proficiency in the Japanese language that would be necessary when taking the same courses in Japanese. All lectures are held in English and the course awards the same credits as equivalent courses offered in Japanese.

The core (required) course of this program is the Individual Research Training course, where students will research, with the support of research groups to which the students are assigned, in a current topic that is related to their field of studies.

The program also offers courses on the Japanese language, culture and society aimed at promoting understanding of Japan's language and its social customs. Cultural and intellectual exchange with professors and students is an integral part of this program and will be accomplished through class work as well as participation in the activities of research groups.

The one-year course commences on October 1st admitting approximately 30 students. Applicants are recommended to take the one-year course, since most classes are designed for one full year. However, some students are admitted to a 6-month course if requested.

<https://www.cefix.insc.tohoku.ac.jp/ASEP/JYPE/index.html>

Students Exchange Programs

Cooperative Laboratory Study Program (COLABS)

COLABS is a graduate-level research-oriented intensive exchange program. It provides an opportunity for international students from partner universities to undergo scientific research training in assigned laboratories. They also take essential education courses taught in English at Tohoku University. The program offers a wide range of research topics in all fields of natural science. COLABS encourages students to conduct research in new and interdisciplinary scientific fields.

<https://www.cefix.insc.tohoku.ac.jp/ASEP/COLABS/index.html>

Tohoku University International Program in Liberal Arts (IPLA)

IPLA provides an opportunity for students at our partner institutions to study a variety of Liberal Arts classes taught in English, including Economics, Management, Education, Law, History, and Literature at Tohoku University, Japan.

The program also offers Japanese language and culture classes in order to assist students in understanding Japanese language and customs. Along with these classes, participating students will take liberal education classes offered in English. Students who have attained adequate Japanese proficiency may take advanced Japanese language classes taught in Japanese or regular classes with Japanese students.

Cultural and intellectual exchange with Japanese students is an important part of the program and is achieved through group activities and interaction with local Japanese students, both in classes and in extracurricular activities.

<http://www.insc.tohoku.ac.jp/cms/ipla/>

Double Degree Program with Overseas Institutions

Tohoku University is conducting master's level double degree programs with elite institutes of higher education in France, Sweden, and China to nurture human resources who could contribute to the advancement of the global society. In fiscal year (FY) 2006, the Écoles Centrale Group (composed of five Écoles Centrale [Lille, Lyon, Marseille, Nantes, Paris]) and the Institut National des Sciences Appliquées de Lyon (INSA-Lyon) became our program partners in France, both of which are grandes écoles, leading institutes which attract top students from France and other countries around the world, offering the finest in education. KTH (Royal Institute of Technology), Sweden and Tohoku University signed their MOU for Double Degree program in March, 2009. KTH is a leading technical institution in Europe and conducts extensive international student exchange. Our partner in China is Tsinghua University, an institute of higher learning which is presently attracting much international attention. The Double Degree Programs of Tohoku University deal with the fields of science, engineering, agricultural science, information sciences, and environmental studies.

Summer Programs

Tohoku University Science Summer Program (TSSP)

TSSP is a summer program designed for undergraduates majoring in science and engineering from partner universities. The main feature of TSSP is our cutting edge lecture series in advanced science and engineering. It aims to provide students with insight on what world society needs based on advanced science and technology in the future and how they can contribute to society through research.

Tohoku University Engineering Summer Program (TESP)

TESP is designed to inspire graduate level (MSc and PhD) students or young professionals in the fields of Engineering. This program started in 2010. In 2014 the program provides a series of lectures and hands-on activities on the advanced topics of Robotics. In addition, the program includes various activities that expose the participants to Japanese culture and enrich their academic experience and network.

Tohoku University Japanese Program (TUJP)

TUJP is a newly launched program in 2013 for undergraduates who have strong interest in Japanese language and culture. We offer three levels of Japanese language course (for beginner, intermediate, and advanced) and related lectures. In addition, to know Japan and Tohoku well it provides some practical trainings on Japanese culture, site visit, home stay and volunteer activities in 3.11 disaster affected area.

Special Japanese Language Program for International Students and Scholars

This program is open to the international students and scholars at Tohoku University. It aims to improve the students' ability in practical Japanese and basic academic skills in Japanese and to help them adapt to their new living environments.

Project for Establishing University Network for Internationalization-Global 30-

The "Project for Establishing University Network for Internationalization -Global 30-" was enacted by the Ministry of Education, Culture, Sports, Science and Technology in 2009 to support a government plan to increase the number of incoming international students to 300,000 by 2020. As a selected Global 30 core university, Tohoku University launched a program called "Future Global Leadership (FGL)" which aims to produce students who possess an international perspective, high-level of education and specialist knowledge, and solid research practical skills, and to foster leaders who will be active on global scale.

16 Courses Taught in English (3 undergraduate level and 13 graduate level)

Advanced Molecular Chemistry Course (AMC)

Fields of Study: Organic Chemistry, Inorganic Chemistry, Analytical Chemistry, Physical Chemistry, Polymer Chemistry, Biochemistry, Materials Science

Degree: Bachelor of Science **URL:** <http://www.sci.tohoku.ac.jp/amc/> **Inquiries:** amc@m.tohoku.ac.jp

Applied Marine Biology (AMB)

Fields of Study: Ecology, Physiology, Biochemistry, Molecular Biology, Genetics

Degree: Bachelor of Agriculture **URL:** <http://www.agri.tohoku.ac.jp/amb/> **Inquiries:** kokusai@bios.tohoku.ac.jp

International Mechanical and Aerospace Engineering Course-Undergraduate (IMAC-U)

Fields of Study: Fluid Dynamics, Thermal Engineering, Materials Engineering, Micro/nanotechnologies, Aerospace Engineering, Robotics, Biomedical Engineering, Information Science, Quantum Science and Energy, Environmental Studies, etc.

Degree: Bachelor of Engineering **URL:** <http://g30.eng.tohoku.ac.jp/imac/> **Inquiries:** imac-u@mech.tohoku.ac.jp

International Doctoral Program in Engineering, Information Sciences, Environmental Studies and Biomedical Engineering (EISEBE)

Fields of Study: Environmental Engineering, Information and Communications, Medical Engineering, Energy, Materials, Biomedical Engineering

Degree: Doctor of Engineering, Doctor of Information Sciences, Doctor of Environmental Studies, Doctor of Biomedical Engineering

URL: <http://www.uni.international.mext.go.jp/course/detail/15> **Inquiries:** eng-in@bureau.tohoku.ac.jp

International Graduate Program for Advanced Science (IGPAS)

Fields of Study: Mathematics, Physics, Astronomy, Geophysics, Chemistry, Earth Science

Degree: Master of Science/ Doctor of Science **URL:** <http://www.sci.tohoku.ac.jp/english/igpas/>

Inquiries: direct@mail.sci.tohoku.ac.jp

International Post-Graduate Program in Human Security (IPHS)

Fields of Study: Food and Agriculture, Public Health, Environment, Society

Degree: Master of Agricultural Science/ Doctor of Agricultural Science, Master of Medicine, Master of International Cultural Studies/ Doctor of International Cultural Studies, Master of Environmental Studies/ Doctor of Environmental Studies, Master of Interdisciplinary Studies

URL: <http://human-security.jp/> **Inquiries:** human_security@bureau.tohoku.ac.jp

International Program for Environmental Sustainability Science (IPESS)

Fields of Study: development of "Sustainability Sciences" involving advanced high-technology and policy planning and management

Degree: Master of Environmental Studies/ Doctor of Environmental Studies, Master of Interdisciplinary Studies, Doctor of Philosophy

URL: <http://www.kankyo.tohoku.ac.jp/g30/outline.htm> **Inquiries:** kyomu@mail.kankyo.tohoku.ac.jp

International Mechanical and Aerospace Engineering Course-Graduate (IMAC-G)

Fields of Study: Mechanical Systems and Design, Nanomechanics, Aerospace Engineering, Bioengineering and Robotics, Quantum Science and Energy Engineering

Degree: Master of Engineering/ Doctor of Philosophy (Engineering) **URL:** <http://g30.eng.tohoku.ac.jp/imac/graduate/>

Inquiries: imac-g@mech.tohoku.ac.jp

Development of a prototype robot for future lunar/planetary exploration at Space Robotics Lab led by Prof. Kazuya Yoshida (IMAC)

International students' lounge at the Graduate School of Economics and Management

International Materials Science and Engineering Master Course (IMSE)

Fields of Study: Metallurgy, Materials Science, Materials Processing

Degree: Master of Engineering **URL:** <http://g30.eng.tohoku.ac.jp/imse/> **Inquiries:** eng-in@bureau.tohoku.ac.jp

Global Program in Economics and Management (GPEM)

Fields of Study: Asian Economy, Economic History, Political Economy, International Finance, Comparative Economics History, Macroeconomics, Econometrics, Global Business History, Japanese Business History, Nonprofit Organizations, Comparative Management, Decision Making, Corporate Finance, etc.

Degree: Masters of Economics, Masters of Management, Ph.D. in Economics, or Ph. D. in Management

URL: <http://www.econ.tohoku.ac.jp/econ/english/IPEM/index.htm> **Inquiries:** ipem@econ.tohoku.ac.jp

Information Technology and Science Course (ITSC)

Fields of Study: Computation Science, Software Science, Firmware Science, Computer Architecture, VLSI System, Communication Theory, Information Security, Information Processing Algorithms, Intelligent Systems, Intelligent Robotics, Communication Technology, Information Networks, etc.

Degree: Master of Information Sciences **URL:** <http://www.is.tohoku.ac.jp/index-e.html>

Inquiries: is-kyom@bureau.tohoku.ac.jp

Interface Oral Health Science Course (IOHS)

Fields of Study: Integration of Molecular Biology, Cellular Biology, Microbiology, Immunology, Materials Science, Biomechanics, Social Science, etc.

Degree: Doctor of Philosophy (Dental Science) **URL:** <http://www.dent.tohoku.ac.jp/english/>

Inquiries: den-kyom@bureau.tohoku.ac.jp

International Course of Life Sciences (ICLS)

Fields of Study: Biomolecular Sciences, Developmental Biology and Neurosciences, Environmental Life Sciences

Degree: Master of Life Sciences/ Doctor of Philosophy (Life Sciences)

URL: <http://www.lifesci.tohoku.ac.jp/en/outline/related-projects-centers/> **Inquiries:** lif-kyom@bureau.tohoku.ac.jp

International Graduate Program in Language Sciences (IGPLS)

Fields of Study: Linguistics, Applied Linguistics, Brain Science

Degree: Master of Arts (International Cultural Studies) / Doctor of Philosophy (International Cultural Studies)

URL: <http://www.intcul.tohoku.ac.jp/ls/> **Inquiries:** int-kkdk@bureau.tohoku.ac.jp

Basic Medicine Course (BMC)

Fields of Study: Basic Medicine, Molecular Biology, Immunology, Biochemistry and Physiology

Degree: Master of Medical Science **URL:** <http://www.med.tohoku.ac.jp/english/>

Inquiries: m-daigakuin@bureau.tohoku.ac.jp

Network Medicine Course (NMC)

Fields of Study: Biomedical Sciences and Network Medicine

Degree: Doctor of Philosophy (Medical Science) **URL:** <http://www.med.tohoku.ac.jp/english/>

Inquiries: m-daigakuin@bureau.tohoku.ac.jp

Undergraduate course

Orientation for FGL program

Housing Support

Tohoku University offers housing support for international students at the Student Exchange Division. In addition, there are university dormitories called "International House Sanjo 1", "International House Sanjo 2", "International House Higashi-Sendai", "University House Sanjo" and "University House Katahira" for international students where they can experience multi-cultural experience from various countries.

Statistics on Personnel Exchange

Academic Exchange

Number of International Students

Facilities Worldwide

Overseas Offices

Overseas Office	Established Date
① Tohoku University China Office	(April 20, 2007)
② Tohoku University Russia Office (Japanese Inter-University Russia Office)	(September 11, 2010)
③ Tohoku University Russia Office Siberia Branch	(September 11, 2010)

Liaison Offices

Institution (Location)	Country (Starting Date)	Liaison Office	Department / Institute of TU
④ The University of New South Wales (International Office)	Australia (May 17, 2002)	Liaison Office of Tohoku University	Institute of Fluid Science Graduate School of Law
⑤ Moscow State University (Faculty of Physics)	Russia (June 21, 2002)	Liaison Office of Tohoku University	Institute of Fluid Science Graduate School of Engineering
⑥ Syracuse University (L. C. Smith College of Engineering and Computer Science)	U.S.A. (November 11, 2003)	IFS Syracuse Office	Institute of Fluid Science
⑦ Korea Advanced Institute of Science and Technology (Department of Mechanical Engineering)	South Korea (December 18, 2003)	Liaison Office of Tohoku University	Institute of Fluid Science
⑧ Institut National des Sciences Appliquées de Lyon (Materials Science and Physical Metallurgy Laboratory)	France (January 23, 2004)	Liaison Office of Tohoku University	Institute of Fluid Science Graduate School of Engineering Institute of Development, Aging and Cancer
⑨ Dalian University of Technology (School of Materials Science and Engineering)	China (October 7, 2005)	IMR·DUT Research Center	Institute for Materials Research
⑩ Research Institute for Tropical Medicine	Philippines (May 1, 2007)	Research Center for Emerging and Re-emerging Infections	Graduate School of Medicine
⑪ Eastern Visayas Regional Medical Center	Philippines (January 11, 2008)	Research Center for Emerging and Re-emerging Infections, Tacloban Office	Graduate School of Medicine
⑫ Baguio General Hospital and Medical Center	Philippines (December, 2008)	Research Center for Emerging and Re-emerging Infections, Baguio Office	Graduate School of Medicine
⑬ Institut Teknologi Bandung	Indonesia (August 2, 2011)	Environmental Leadership Program, Graduate School of Environmental Studies	Graduate School of Environmental Studies
⑭ Seoul National University (College of Engineering)	South Korea (December 1, 2011)	The Partnership Offices of the Schools of Engineering, etc., of the Four Japanese Universities, Japan and the College of Engineering, Seoul National University, Korea	Graduate School of Engineering
⑮ Royal Institute of Technology (Faculty of Mechanical Engineering)	Sweden (June 28, 2012)	Liaison Office of Tohoku University	Institute of Fluid Science Graduate School of Engineering
⑯ The University of California, Riverside	U.S.A. (February 1, 2013)	Tohoku University Center	Institute for Excellent in Higher Education

Sendai City

Profile

Sendai is one of the traditional cities of Japan yet is known as a modern city that harmonizes its beautiful nature and urban life. The city was founded in 1600 by Masamune Date, a famous feudal lord, and prospered as the economic and political center of northern Japan. It is one of Japan's 20 core cities and has a population of one million.

Sendai is the largest city in the Tohoku (northeast) region of Japan and is home to many governmental branches. It is well-known by its nickname 'Mori no miyako' (The City of Trees) as most of its major streets and avenues are lined with zelkova trees. It has also become known as an 'the City of Academia' since it boasts a large number of universities and colleges relative to its size.

Sendai is proud of its history, arts and culture and enjoys many events such as the annual Sendai Tanabata Festival. It also cherishes its beautiful nature in and around the city such as the picturesque coastline of Matsushima, the mystical volcanic crater of Zao, and the many attractive hot spring resorts.

Access

1. Flight

Sendai International Airport (SDJ) offers flights to a broad range of destinations.

- From Beijing: 5hrs 50mins.
- From Shanghai: 2hrs 50mins.
- From Seoul: 2hrs 10mins.
- From Taipei: 3hrs 10mins.
- From Guam: 3hrs 45mins.
- From Honolulu: 8hrs 35mins.
- From Sapporo: 1hr 10mins.
- From Tokyo-Narita: 1hr 5mins.
- From Nagoya: 1hr 10mins.
- From Osaka-Itami: 1hr 10mins.
- From Osaka-Kansai: 1hr 20mins.
- From Hiroshima: 1hr 25mins.
- From Fukuoka: 1hr 45mins.
- From Okinawa-Naha: 2hr 35mins.

2. "Tohoku Shinkansen" (Bullet Train)

From Tokyo to Sendai: 1hr 30mins.

International House

Tohoku University Provides a number of dormitories for international students and researchers for the purpose of promoting international exchange in education and research, such as International House (Sanjo 1, Sanjo 2 and Higashi-Sendai) and University House (Sanjo, Sanjo II and Katahira.).

Accommodations available in the International House are as follows:

International House Sanjo 1

General Information

Address: 19-1 Sanjo-machi, Aoba-ku, Sendai 981-0935
Phone : +81-22-275-9901

Residents	Room Type	Floor Area	Number of Rooms
Students	Single Room	18㎡	147
	Couple Room	46㎡	42
	Family Room	48㎡	31
Subtotal			220
Researchers	Single Room	18㎡	12
	Couple Room	49㎡	14
	Family Room	60㎡	8
Subtotal			34
Grand Total			254

International House Sanjo 2

General Information

Address: 10-15 Sanjo-machi, Aoba-ku, Sendai 981-0935
Phone : +81-22-718-7850

Residents	Room Type	Floor Area	Number of Rooms
Students	Single Room	16㎡	93
	Couple Room	32㎡	12
	Family Room	47㎡	3
Total			108

International House Higashi-Sendai

General Information

Address: 6-14-15 Higashi-Sendai, Miyagino-ku, Sendai 983-0833
Phone : +81-22-293-5591

- Kawauchi Sub Arena **14**
- Gymnasium **15**
- Kawauchi Hall **16**
- Facility for Extracurricular Activity (A) **17**
- Kawauchi Circle Club Building **18**

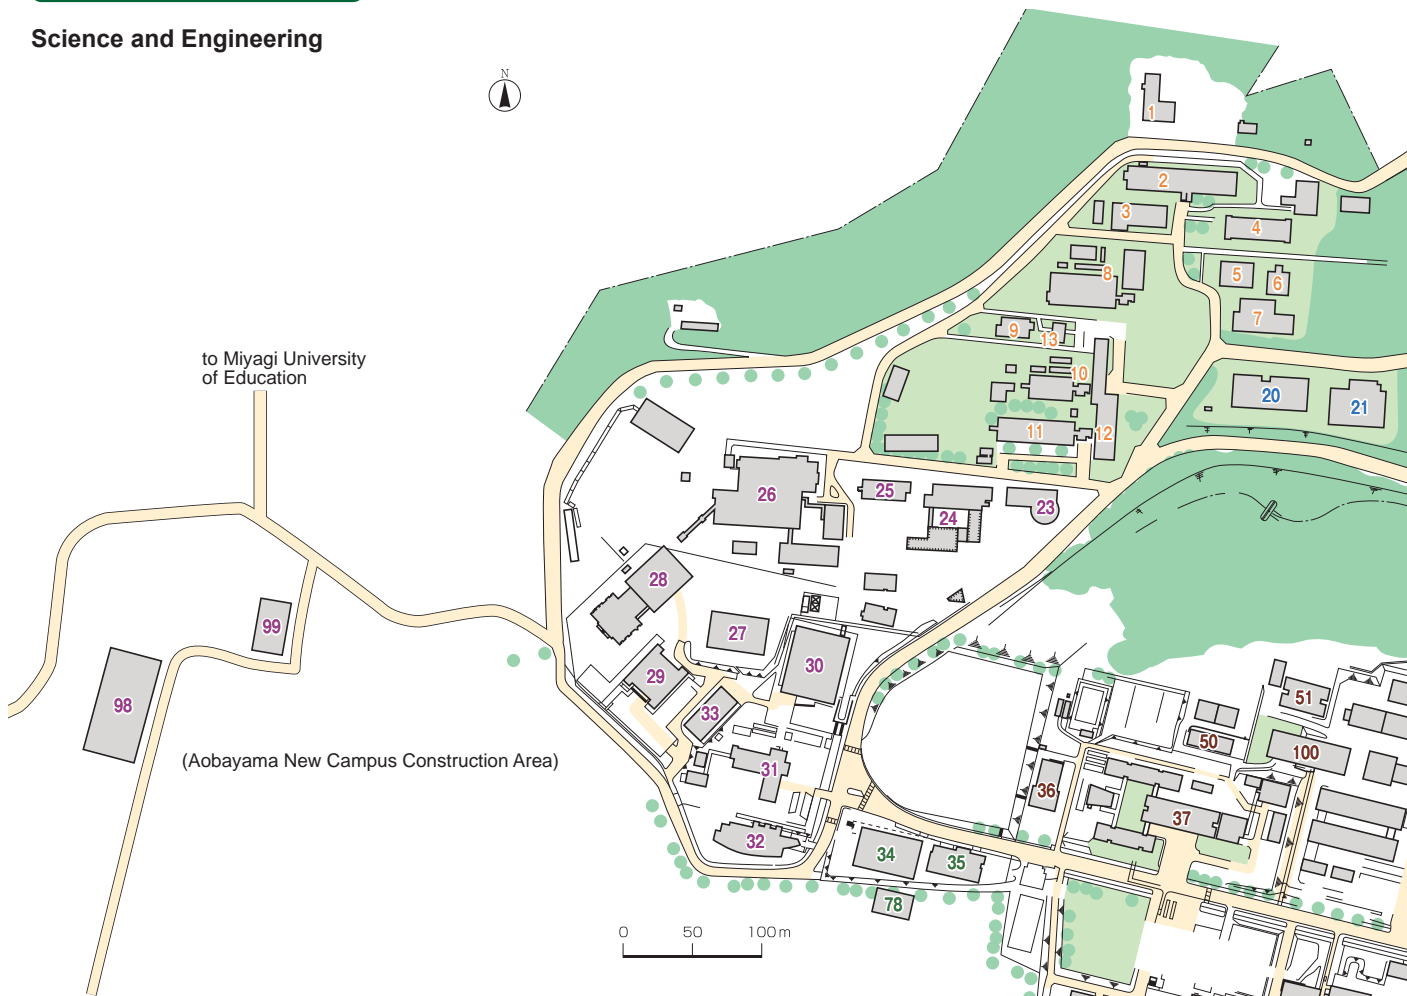

- Tohoku University Centennial Hall (Kawauchi Hagi Hall) **21**
- Welfare Facilities (cafeteria) **32**
- Emergency Dormitory **34**

Springtime in Kawauchi Campus

3 AOBAYAMA CAMPUS

Science and Engineering

Administration Bureau
Information Infrastructure Division, Information Department **29**

Graduate School / Faculty of Science
Administration Center **12**
Science Complex A, B **24**
Science Complex Annex **25**
Science Lecture Hall **5**
Mathematics Building **7**
Physics Building **2**
Physics Lecture Hall **3**
Physics & Chemistry Annex **4**
Chemistry Building **8**
Earth Science Building **11**
Biology Building **10**
High Resolution NMR Systems Building **13**
Kawai Hall **6**
Research and Analytical Center for Giant Molecules **9**
Center for Atmospheric and Oceanic Studies **2**
Planetary Plasma and Atmospheric Research Center **2**
Research Center for Prediction of Earthquakes and Volcanic Eruptions **68**

Graduate School / Faculty of Pharmaceutical Sciences
Administration Office **15**
Pharmaceutical Sciences A, B, C, D **15, 16, 17, 18**
Experimental Station for Medicinal Plant Studies, Administration Building **19**

Graduate School / School of Engineering
Administration Office(CENTER HALL) **46**
Administration Office(Administration Building) **41**
Lecture Room Building - Mechanical Engineering, Mechanical Systems and Design / Nanomechanics / Aerospace Engineering / Bioengineering and Robotics, Administration Office **57**
Electrical and Communication Engineering / Electronic Engineering / Applied Physics No.1, Administration Office **39**

Electrical and Communication Engineering / Electronic Engineering / Applied Physics No.2 **100**
Electrical Engineering and Applied Physics, Temporary Research Buildings **33, 50, 51, 52, 53, 54, 55**
Applied Chemistry / Chemical Engineering / Biomolecular Engineering, Administration Office **37**
Metallurgy / Materials Science / Materials Processing, Administration Office **63**
Materials Collaborative Research Building **60**
Materials Science and Engineering, Temporary Research Buildings **61, 62, 63, 74, 76**
Materials Evolution Research Building **73**
Research & Machining Building **79**
Civil Engineering and Architecture, Administration Office **40**
Civil and Environmental Engineering, Temporary Research Building **48**
Laboratory Building of Civil and Environmental Engineering **49**
Engineering Laboratory Complex Building **40**
Innovation Plaza **43**
Research Building No.3-Electrical Engineering and Applied Physics **31**
Laboratories of Architecture and Building Science **27**
Laboratory Building of Architecture **38**
High Pressure Process Research Laboratory **75**
Fracture and Reliability Research Institute **40**
Experimental laboratory of Fracture and Reliability Research Institute **72**
Research Center of Supercritical Fluid Technology **40**
Micro / Nano-Machining Research and Education Center Management Science and Technology, Office **40**
Mechanical Engineering Research Building No.1 **80**
Mechanical Engineering Research Laboratory I **81**
Mechanical Engineering Research Laboratory J **82**
Mechanical Engineering Laboratory Building **83**
Laboratories for Students - Mechanical and Aerospace Engineering, Nano-Precision Machining Shop **84**
Fracture Physics and Chemistry Research Building - Future and Reliability Research Institute **85**

Mechanical Engineering Research Building No.2 **86**
Research Building - Mechanical and Aerospace Engineering **87**
Research Building - Quantum Science and Energy Engineering **88**
Lecture Room Building **89**
Radioisotope Laboratory **90**
Research Building of Research Center for Remediation Engineering of Living Environments Contaminated with Radioisotopes **91**
Laboratory Building of Research Center for Remediation Engineering of Living Environments Contaminated with Radioisotopes **92**
Integrated Laboratory for Advanced Fusion Reactor Engineering **93**
Fast Neutron Laboratory **94**
Subcritical Assembly **95**
Nano-Biomedical Engineering Research Laboratory **96**
Nano-Biomedical Engineering Research Building **97**

●Land: 784,605㎡ ●Buildings: 284.095㎡ (as of April 1, 2014)

Graduate School / School of Engineering, Graduate School of Environmental Studies / Graduate School of Biomedical Engineering,
International Research Institute of Disaster Science, New Industry Creation Hatchery Center (NICHe): 6-6 Aoba, Aramaki, Aoba-ku, Sendai 980-8579
Other than those above: 6-3, Aoba, Aramaki, Aoba-ku, Sendai 980-8578

Phone: +81-22-717-7800

Aobayama Campus

CENTER HALL

- Graduate School of Information Science
Administration Office **32**
Laboratories **31**
- Graduate School of Life Sciences
Laboratories **8, 10, 24, 25**
- Graduate School of Environmental Studies
Administration Office **56**
Ecollab. **58**
- Graduate School of Biomedical Engineering
Administration Office **41**
Laboratories **39, 40, 41, 51, 80, 100**
- International Research Institute of Disaster Science **40**
- Kita-Aobayama Library **21**
Engineering Library **44**
Research Center for Neutrino Science **22**
The Tohoku University Museum **23**
Museum of Natural History **23**
Institute for International Advanced Research and Education **28**
Frontier Research Institute for Interdisciplinary Sciences **28**
Cyclotron and Radioisotope Center **26**
New Industry Creation Hatchery Center (NICHe) **35**
Center for Low Temperature Science **1**
Cyberscience Center **29**
Environment Conservation Research Institute **67**
Center for Innovative Integrated Electronic Systems **98**
Energy Center **99**
- Fluctuation Free Facility for New Information Industry **34**
New Industry Creation Hatchery Center, (NICHe) Annex **78**
Gymnasium **30**
Cafeteria Keyaki Dining **36**
Kita-Aobayama Commons **20**
Hatchery Square **42**
Cafeteria Aoba Dining **46**
Aoba Memorial Hall **45**
Cafeteria Komorebi Café / Convenience Store **65**
Automobile Museum **66**
Cafeteria / Bookstore "BOOK" **47**

Campus Map

4 SEIRYO CAMPUS

●Land: 179,214㎡ ●Buildings:307,176㎡ (as of April 1, 2014)

**School of Medicine
School of Dentistry
University Hospital**

University Hospital: 1-1, Seiryomachi, Aoba-ku, Sendai 980-8574
 School / Graduate School of Medicine: 2-1, Seiryomachi, Aoba-ku, Sendai 980-8575
 School / Graduate School of Dentistry: 4-1, Seiryomachi, Aoba-ku, Sendai 980-8575
 Institute of Development, Aging and Cancer: 4-1, Seiryomachi, Aoba-ku, Sendai 980-8575
 Tohoku Medical Megabank Organization: 2-1, Seiryomachi, Aoba-ku, Sendai 980-8573
 Phone: +81-22-717-7000

- Graduate School / School of Medicine
- Administration Office **19**
- Building No.0 **16**
- Building No.1 **19**
- Building No.2 **33**
- Building No.3 **34**
- Building No.4 **17**
- Building No.5 **20**
- Building No.6 **44**
- Clinical Research Building (Provisional Office) **42**
- Health Sciences Building **12, 13**
- Frontier Research Building **14**
- Prion Research Building **23**
- Institute of Animal Experimentation **24**
- Lecture Rooms **18**
- Clinical Lecture Building **35**
- United Centers for Advanced Research and Translational Medicine(ART) **20**
- Autopsy imaging Center **12**
- Environment and Genome Research Center **19**
- Comprehensive education center for community medicine **38**
- Tohoku University Clinical skills laboratory **38**

- Graduate School / School of Dentistry
- Administration Office **10**
- Basic Dental Science Building **8**
- Education and Training Building **9**
- Clinical Dental Science Building **10**
- Clinical Dental Science Building II **40**

- Graduate School of Pharmaceutical Science
- Laboratory **41**
- Graduate School of Biomedical Engineering
- Laboratory **3, 10, 17, 19, 20, 21, 33, 34**
- Training Center **21**
- Institute of Development, Aging and Cancer
- Administration Office **4**
- Center for Basic Aging Research **3**
- Center for Clinical Aging Research **4**
- International Center for Smart Aging Research **39**
- Laboratory for Brain Imaging Research **6**
- Laboratory for Brain Dynamics Research **7**
- Facility for Tumor and Animal Experiment **5**
- Laboratory for Advanced Frontiers Research **11**

Medical Library **37**

- University Hospital
- Office(Administration Building) **31**
- Clinics for Outpatients **36**
- Operation & Medical Check Building **32**
- West Ward **28**
- East Ward **29**
- South Ward **30**

Clinical Research, Innovation and Education Center **27**

- Advanced Medical Training Center **43**
- Seiryō Residence **46**

Center for Laboratory Animal Research **26**

- Center for Gene Research **3**
- Tohoku Medical Megabank Organization Building **45**
- RI Seiryō Subcenter **25**
- Seiryō Club House **1**
- Seiryō Gymnasium **2**
- Seiryō Hall (Welfare Facilities) **15**
- Gonryō Hall **38**

Seiryō Campus

5 AMAMIYA CAMPUS

●Land: 92,746㎡ ●Buildings: 30,847㎡ (as of April 1, 2014)

1-1, Amamiya-machi, Tsutsumidori, Aoba-ku, Sendai 981-8555 Phone: +81-22-717-8603

Graduate School of Agricultural Science / Faculty of Agriculture

Graduate School of Agricultural Science, Administration Office (Administration Building) **12**

Research House named "Honkan" **18**

Research House named "Daiichi-kenkyutou" **9**

Research House named "Daini-kenkyutou" **10**

Research House named "Kenkyu Jikkentou 1" **16**

Research House named "Kenkyu Jikkentou 2" **17**

Research House named "Kenkyu Jikkentou 3" **5**

Research House named "Kenkyu Jikkentou 4" **2**

Research House named "Kenkyu Jikkentou 5" **21**

Building for Animal Breeding and Experiments **3**

Food Processing Laboratory **4**

Laboratory and Breeding House of Aquatic Life **7**

Laboratory of Plant Environmental Responses **20**

Agricultural Library **6**

Lecture House **11**

Lecture Hall **1**

Radioisotope Laboratory **19**

Power Center **8**

Office Storeroom **13**

Welfare Facilities **14**

Student Lounge **15**
