EXCEPTIONAL PLANTS FOR HOME & GARDEN

---

[www.vintagehill.com](http://www.vintagehill.com)

**SPRING 2017**

Dear Gardening Friends,

Welcome to our Spring 2017 Catalog.

We've been busy growing an incredible selection of your favorite and soon to be favorite plants. Add some new pottery to your patio or let us help supply you with a whole new landscape. We look forward to sharing some beautiful plants and helping you make this garden season one to remember!

Plant a little paradise in your world with plants from Vintage Hill.

*Jeff Oberhaus*

**2017 HOURS:**

**OPEN DAILY**

**9AM-5PM**

**HOW TO USE THIS CATALOG:** Our catalog is a list of plants we are growing and will carry for the season. We do not list prices or sizes as these are constantly changing as we continue to change sizes as the plants grow. Most customers remark our prices are less than the box stores and since we grow the majority of plants right here we can offer good value on the rarer selections that are hard to find elsewhere.

We are not a mailorder nursery. Our plants are grown to do well in your garden, not fit in a box. But if you are unable to visit, please let us know your interests and we can advise if your selections might be shippable.

**WEBSITE:** [www.vintagehill.com](http://www.vintagehill.com) **E-MAIL:** [info@vintagehill.com](mailto:info@vintagehill.com) We respond to all email questions. If you do not receive a reply in a few days please send again. Be sure to include a subject heading in your message.

**PLANT SELECTION AND AVAILABILITY:** We offer over 1700 varieties of plants. We try to keep them well stocked but occasionally a variety may sell out, or be in-between marketable stages of growth. As we propagate many of our plants, we can often give you information on when a new crop will be available. Since much of a plant's success depends on its particular location we can make no guarantee of its hardiness in any given zone but will gladly give our best advice to help with your success. If you are looking for a plant that is not listed here, please call. As new plants become available we are constantly adding to our list.

Follow Vintage Hill on :

## Easy to Find!

Directions: Vintage Hill is located 6 miles NW of the Boonslick Bridge (downtown Boonville) on Hwy 87.

**On the cover:** Canna 'Maui Punch' is a striking two tone self cleaning flowered canna. Excellent in a landscape or container. The heat of summer will only make it happier.

**NEW**

**Brugmansia** **ANGEL TRUMPETS**

The necessity for fragrant summer evenings! Brugmansia are the Queen of the tropical plants. A few easy pointers will help you be successful.

\*While they are tropical, they come from higher elevations, so in Missouri, they do best protected from hot afternoon sun. East and North exposures are good.

\*They are HEAVY feeders. Most that fail to perform either have too much shade or not enough food. Our recipe during growing season: Top dress twice with Osmocote, April and July. Top-dress with Milorganite every two weeks April thru September. Liquid feed with Miracle Gro or Peters 20-20-20 EVERY time you water.

\*Before a freeze in fall, remove all leaves and blooms and trim back green tips. Store above 40 degrees in a cool dark area. Basement, garage, spare room. Water only when soil is dry during dormancy.

Over 200 varieties! Please email us: [info@vintagehill.com](mailto:info@vintagehill.com) for the Brugmansia list, many we can ship.

# Succulents & Cacti

Succulents are all the rage and rightly so! Long lived, easy to care for, drought tolerant and interesting textures make them useful in so many applications. Many of them are quite collectable as they are a favorite of grandmas and windowsills since houseplants were first kept. Be sure to check out our mixed containers with a ready made collection already done for you. These can be enjoyed for a year or two and then separated and you have an instant succulent collection. Our list below is never complete as we are always finding new ones!

**GIFT CERTIFICATES:** Available year-round and make ideal birthday, holiday or appreciation gifts. You just can't go wrong with a gift certificate from Vintage Hill. Credit card orders are welcome by phone at 660-848-2373 or email: [info@vintagehill.com](mailto:info@vintagehill.com).

# Fruits and Vegetables From Your Own Garden

If you want to grow more of your own veggies and fruits our selection includes plants, fruit trees and shrubs. As with our bedding plants, Vintage Hill vegetables are grown without growth regulators so you can be assured our plants are ready to take off and grow. Items marked **HL** are heirloom varieties. These are offered in single pots to help you try as many as possible. Enjoy a bountiful harvest and the peace of mind of knowing you are feeding yourself and your family uncompromised and nutritious food grown with your love behind it!

## Herbs

Plant the herbs you use! For what three sprigs of basil or rosemary cost at the grocery store you can have a whole plant for use anytime you want. Growing your own herbs is a rewarding step to better health. Fresh herbs in your favorite recipes will make it a dish to remember everytime. Plant them to receive at least half a day of full sun and grow in a container on your patio so you can have them close at hand anytime.

## The ROSES of Vintage Hill OR = own root, not grafted

Yes, you CAN grow roses! Bring the beauty of fresh cut roses into your home from your garden. The David Austin's are unbeatable for true rose fragrance and form. All of our roses are easy to grow and will perform well in our area. The single most important factor for roses is to FEED them. Regular feeding keeps them vigorous, rewards you with more flowers and helps them stay ahead of disease problems. We like to topdress in April and June with Osmocote slow release fertilizer and water once or twice a week with Miracle Gro or Peters Liquid food. The fertilizer jars for the end of your hose make this an easy task. Cease fertilizing in September so tender new growth slows for winter.

**Calypso**, OR, 3x3, Everblooming double apricot flowers adorn this Easy Elegance rose.

**Champlain**, OR, 3x3', A favorite landscape performer, semi double bright red everblooming.

**Cuthbert Grant**, OR, 3x3' Canadian hardy, blood red nicely formed flowers. Beautiful!

**Drift Peach**, OR, 2x2', Disease resistance, small size, covered with tiny double peach blooms.

**Drift Red**, OR, 2x2, Cross between mini & groundcover roses, drifts are great for small spots.

**Harrisons Yellow**, 7x7', Historic rose, was brought west with wagon trains, double yellow.

**Kashmir**, OR, 3x3', Easy Elegance Series, Double red everblooming with classic tea form.

**Double Pink Knockout**, OR, 5x5', Double hot pink flowers, disease resistant, everblooming.

**Double Red Knockout**, OR, 5x5', Double flowered knockout. Excellent disease resistance.

**Little Mischief**, OR, 2x3', New blooms of deep pink contrast with lighter older blooms.

Everblooming and compact with glossy green disease resistant foliage.

**Rosa rugosa**, OR, 5x5', Single, fragrant pink with great rose hip production, very cold hardy.

**Sunny Knockout**, OR, 4x4', Pale yellow single with good Knockout qualities.

**Oso Easy Lemon Zest**, OR, 3x3', Non fading double yellow! Easy, hardy, disease resistant.

**Oso Easy Paprika**, OR, 2x2', Bright orange single flowers all summer. Easy and small.

### David Austin Roses

**Charles Darwin**, OR, 4x3', Large yellow cupped blooms with a strong delicious fragrance

**Claire Austin**, OR, 4x4', Large cupped creamy white blooms with a strong fragrance of myrrh and vanilla. Vigorous and healthy with arching growth habit.

**Crown Princess Margareta**, OR, Neatly formed rosettes of apricot-orange with a strong fruity fragrance. Well rounded slightly arching growth. Try this on in your shadier locations.

**Eglantyne**, OR, Perfectly formed, soft pink blooms with a charming, sweet Old Rose fragrance. An exceptionally healthy and reliable garden rose.

**Golden Celebration**, OR, 5x5', or small climber. Large golden blooms are heavily fragrant and produced profusely.

**Lady of Shallot**, OR, 4x4', Fully double, chalice shaped, salmon pink with a yellow reverse on petals. Tea and clove fragrance. Reliably hardy and bushy form.

**Munstead Wood**, 3x2', Warm and fruity fragranced crimson flowers on a tidy bush.

**Pat Austin**, 4x4', Copper colored cupped blooms on an elegant arching shrub, tea scent.

**Teasing Georgia**, OR, 4x4', Soft apricot yellow, fragrant and everblooming.

**Tess of The D'Urbervilles**, OR, 4x4', Large, bright crimson, cupped old rose scented blooms. Forms a vigorous healthy shrub.

**The Albrighton Rambler**, 14-18', large rambler or climber with large sprays of small cup shaped flowers of light pink. Repeat bloomer.

### Climbing Roses

**CanCan**, 8', Hardy pink to red semi double, super disease resistance, everblooming.

**John Davis**, 8-10', Canada hardy double pink climber, super vigorous.

**Ramblin Red**, 8-10', Super blooming semi-double bright red. Great hardiness.

Many of the David Austin Roses can be trained as small climbers.

## Tips for a Well Designed Landscape

Sometimes it is difficult to see what is right in front of you. Our landscape tastes and decisions are influenced by many sources. What are our neighbors doing? What have we done in the past? What did we grow up with? Many factors contribute to how we perceive a pleasing landscape and like all things subjective, beauty often lies in the eyes of the beholder. Below are some common guidelines for achieving a pleasing low maintenance landscape.

1. Decide how much light you have. Many times the problem with a plant failing to thrive is because it either has too much or not enough light. Full sun is 6 hours of sun or more. Plants from cooler climates like a little afternoon shade in Missouri. Some shade plants (like hydrangeas) need just a little morning sun to keep them vigorous enough to bloom.
2. Plants don't grow well in clay. Yes, some live but few thrive and now is the time to make their home the best it can be. If you have clay, don't dig it out, you only create a bathtub full of good soil that holds water and eventually drowns your new plants. Better to add 6 inches of good topsoil and compost on top and they can stick their roots into the clay if they want to. This creates a slightly raised bed, without the need for edging or blocks. The plants will have perfect drainage and you won't waste time fighting clay.
3. How big is that plant going to get? All tags on plants are estimates but it is the best guideline we have. If it is a cute little evergreen in a little pot, it may or may not get 1 foot tall or 60 feet tall in 15 years. Read the tag. There is no greater tragedy than to watch a plant grow into a beautiful specimen and then one day realize it is too big for the space, it has grown into other plants or the walls of your home. Pruning is always possible, but that little mantra we hear over and over again— Low Maintenance— leaves no room for pruning on a regular basis.
4. Arrangement. A weed is a plant out of place. So put your landscape plants in the right place. Most landscapes surround a house to soften its corners and anchor it into the site. Whenever possible think a little larger and make the planting beds around your home a little wider and deeper. This will allow for layers, plants planted in groups with the taller behind, which makes for a beautiful presentation from the road. If you only have room for a single "row" of plants, due to sidewalk or other restrictions, avoid an every other one approach. Better to group like plants together and then add another grouping or specimen for interest on the ends. Think of how things look from your favorite windows. Landscapes should enhance the beauty of the home looking from inside out too.
5. Edging; who needs it? You don't unless you like to run a weedeater. The best edge is a v-shaped trench you make with a shovel between the lawn and your planting bed. This gets filled with mulch after you plant. It can be tidied up in a year or two if needed. No edging makes the focus on the planting, not a block wall from a box store that everybody has. And best of all, you mow right up to it with no need for trimming.
6. After your plants are properly planted do not even consider landscape fabric or plastic. This is the single largest mistake most people make and always regret it. The object of the game here is to create a great environment for plant growth. Plastic sheeting and landscape fabric both seal the soil and keep the natural process of composting from taking place. A weed pulled from mulch pulls right out. Weeds love to root into landscape fabric and are impossible to pull. Mulch placed on top of landscape fabric eventually decomposes as it is supposed to so allow that good compost to go to your roots as it should. Which is why gravel and rubber mulch are bad options. If your topsoil has weed seeds or you just want some insurance, place a couple layers of newspapers or single layer of paper feed sacks under your mulch. Any seeds that have been brought to the surface will germinate and then die under the paper. In a few months the paper is gone and the mulch can decompose and enrich your plantings as nature intended. Then someday when a renovation is needed, you are working with beautiful soil. Apply a 3-4 inch layer of mulch. Keep the mulch thin around the crown and trunks of plants, you want to mulch the root zone not choke out the plant. A good hardwood mulch is an excellent choice. The new dyed mulches make the planting look freshly done longer. Always opt for a dark brown mulch for a more natural look. Red mulches are trendy but do little to enhance the natural beauty of plants.

## *While You Are In The Area...*

Vintage Hill Farm is located in the Boone's Lick area of central Missouri, a virtually undiscovered haven for the tourist. People here are friendly, prices are reasonable, and there are so many beautiful things to do while here. Why not take an extra day or two?

A couple of favorites: Just up the road, then left on 187, is the Boone's Lick State Historic Site. Trails wind down to the spring where Daniel Boone's sons boiled water from the salty springs in huge pots to make salt. If you head back to Highway 87 and North you will find Glasgow. The Rolling Pin Bakery is one of the fine eateries of this quaint and scenic little river town (try the pie!), or Beckett's will serve you a fine dinner. East is Fayette, our county seat, with the historic courthouse square. Fayette is also home to Central Methodist University and the Ashby Hodge Art Gallery, (660) 248-3391. Be sure to eat at Emmett's Kitchen and Tap (660) 248-3363 on the square.

Complete the circle back to New Franklin and stock up at a real quality small town butcher shop, Jennings Premium Meats (800) 210-6425. Do not miss Snoddy's Store, since 1924, on your way back. It is one of the few remaining family owned small general stores. Just a few feet east of there is the Rivercene B&B. This historical masterpiece has rooms available at [www.rivercene.com](http://www.rivercene.com). Across the bridge, over the Missouri River, is historic Booneville. Just on your left is the meticulously restored Hotel Frederick, [www.hotel frederick.com](http://www.hotel frederick.com) (660)-882-2828. Their in house restaurant The Fred is a nice choice for lunch or dinner. Main Street is full of shops, a fantastic antique mall, small restaurants, Isle of Capri Casino. Try the blackened tilapia house salad at Maggie's. Spend some time wandering among the plants and parks of downtown. Warm Springs Ranch is home to the Budweiser Clydesdales breeding facility and offers popular tours. (888)-972-5933. Be sure to visit the Visitor's Center and Museum on the Katy Trail.

Just 20 minutes east is the charming old town of Rocheport. Check out [rocheport.com](http://rocheport.com) for the complete list. You can stay at the Yates House B&B (573) 698-2129 and they will give you the details of the many fine antique shops while you stroll through their beautiful walled gardens. Richard Saunders Antiques (573) 698-3765 has a great courtyard garden in a beautiful old brick home that should be visited. If antiquing is your thing, White Horse Antiques and Granny's are a must see also. Have a great dinner at Les Bourgeois Winery and Bistro (573) 698-2300 just a few miles out of town on the river bluffs. The view is as tantalizing as the food and is a great place to watch a sunset while overlooking the river.

Head west to visit Arrowrock and Blackwater. Arrowrock has a state historic site as well as many interesting shops and buildings. The Lyceum Theatre is a great way to spend an evening. Plan on touring award winning Blackwater's revitalized main street that serves as an example for many small towns to follow. The endearing people who have worked for this are a great example of the overwhelming good and beauty that can come from having your heart in the right place. Along with antique shops, there is the Chateau Garden located in what was a vacant storefront on Main Street.

If heading home takes you eastward, we are only 30 minutes from Columbia. From daylight to dark stop off at Shelter Gardens just off Broadway. The University of Missouri has been designated a Botanic Garden. The campus is alive with great plantings, including some innovative tropicals and annuals, many from Vintage Hill.
