

## ECHIURA

Compiled by Jacob van der Land

The European list was derived from URMO, which was mainly based on Stephen & Edmonds (1972) with additions from Zoological Record. J. I. Saiz-Salinas checked the list.

## PHYLUM ECHIURA

### Family Bonelliidae

<i>Amalosoma</i>	
<i>eddystonense</i> Stephen, 1956	A
<i>Bonellia</i>	
<i>minor</i> Marion, 1886	AM
<i>suhmi</i> Selenka, 1885	A
<i>viridis</i> Rolando, 1821	AM
<i>Hamingia</i>	
<i>arctica</i> Danielssen and Koren, 1881	A
<i>Maxmulleria</i>	
<i>aulacoferum</i> (Herubel, 1924)	A
<i>faex</i> (Selenka, 1885)	A
<i>gigas</i> (M. Müller, 1852)	M
<i>lankesteri</i> (Herdman, 1898)	A

### Family Echiuridae

<i>Echiurus</i>	
<i>abyssalis</i> Skorikow, 1906	AM
<i>echiurus</i> (Pallas, 1767)	A

### Family incertae sedis

<i>Sactosoma</i>	
<i>vitreum</i> Danielssen & Koren, 1881	A

### Family Thalassematidae

<i>Anelassorhynchus</i>	
<i>indivisus</i> (Sluiter, 1900)	A
<i>semoni</i> (Fischer, 1896)	A
<i>Ochetostoma</i>	
<i>baroni</i> (Greeff, 1879)	A
<i>erythrogrammon</i> Leuckart and Ruppell, 1828	M
<i>Thalassema</i>	
<i>arcassonense</i> Cuenot, 1902	A
<i>elapsum</i> Sluiter, 1912	A
<i>thalasseum</i> (Pallas, 1766)	AM

## SIPUNCULA

Compiled by Jacob van der Land

The European list was derived from URMO, which was compiled by Jacob van der Land, based on Cutler (1994). J. I. Saiz-Salinas checked the ERMS list.

## PHYLUM SIPUNCULA

### Family Aspidosiphonidae

<i>Aspidosiphon</i>	
<i>albus</i> Murina, 1967	A
<i>elegans</i> (Chamisso & Eysenhardt, 1821)	
<i>laevis</i> de Quatrefages, 1865	A
<i>mexicanus</i> Murina, 1967	AM
= <i>Golfingia mexicanus</i>	
<i>misakiensis</i> Ikeda, 1904	AM
<i>muellieri</i> Diesing, 1851	AM
<i>steenstrupii</i> Diesing, 1859	A
= <i>Paraspidosiphon steenstrupii</i>	
<i>zinni</i> Cutler, 1969	A

### Family Golfingiidae

<i>Golfingia</i>	
<i>elongata</i> (Keferstein, 1862)	AM
<i>iniqua</i> (Sluiter, 1912)	A
<i>margaritacea</i> (Sars, 1851)	A
<i>muricata</i> (Southern, 1913)	A
<i>vulgaris</i> (de Blainville, 1827)	AM

### Nephasoma

<i>Nephasoma</i>	
<i>abyssorum</i> (Koren & Danielssen, 1875)	A
<i>capilleforme</i> (Murina, 1973)	A
<i>confusa</i> (Sluiter, 1902)	M
<i>constrictum</i> (Southern, 1913)	AM
<i>constricticervix</i> (Cutler, 1969)	A
<i>diaphanes</i> (Gerould, 1913)	AM
<i>eremita</i> (Sars, 1851)	A
<i>flagiferum</i> (Selenka, 1885)	A
<i>lilljeborgi</i> (Koren & Danielssen, 1880)	A
= <i>Golfingia lilljeborgi</i>	
<i>minutum</i> (Keferstein, 1862)	A
= <i>Golfingia minutum</i>	
<i>rimicola</i> (Gibbs, 1973)	A
<i>wodjanizkii</i> (Murina, 1973)	A

### Thysanocardia

<i>Thysanocardia</i>	
<i>procera</i> (Mobius, 1875)	AM
= <i>Golfingia procera</i>	

### Family Phascolionidae

<i>Onchesoma</i>	
<i>magnibathrum</i> Cutler, 1969	A
<i>squamatum</i> (Koren & Danielssen, 1875)	AM
<i>steenstrupi</i> Koren & Danielssen, 1875	AM

### Phascolion

<i>Phascolion</i>	
<i>caupo</i> Hendrix, 1975	A
<i>convestitum</i> Sluiter, 1902	M
<i>lutense</i> Selenka, 1885	AM
<i>pacificum</i> Murina, 1957	AM
<i>strombus</i> (Montagu, 1804)	AM
= <i>Phascolion brotzkajae</i>	
<i>tuberculatum</i> Theel, 1875	A

### Family Phascolosomatidae

<i>Antillesoma</i>	
<i>antillarum</i> (Grube & Oersted, 1858)	A

= *Phascolosoma antillarum*

### Apionsoma

<i>Apionsoma</i>	
<i>capitata</i> (Gerould, 1913)	A
= <i>Fisherana capitata</i>	
= <i>Phascolosoma capitata</i>	
<i>murinae</i> (Cutler, 1969)	AM
= <i>Golfingia murinae</i>

**ENTOPROCTA (KAMPTOZOA)**

Compiled by Peter J. Hayward

The Entoprocta is a small phylum of rather inconspicuous animals. The two genera of colony-forming species, *Barentsia* and *Pedicellina*, are most frequently reported in faunistic surveys, both are common on seaweeds, hydroids, live or dead mollusc shells, some crab species, and on bryozoans. The non-colonial forms are strictly commensal and are only discovered by careful examination of likely hosts, which include sponges, polychaetes, sipunculans and some echinoderms.

There is a limited literature. All European species were described and figured by Nielsen (1989), and no new species, or newly recorded species, have been described subsequently.
