

LCD/PLASMA

UNIVERSAL 42-INCH LCD/PLASMA REAR COVER

PFA 9021

The PFA 9021 universal 42" LCD/Plasma rear cover is a set of steel plates to cover up the rearside of the display.

Not in combination with PFW 910/920/930.

The PFA 9021 universal 42" LCD/Plasma rear cover is designed to fit perfectly around the turn & tilt unit and close to the display. The display interface, cabling and connectors are hidden behind the cover, which gives the display's rear a smooth and elegant look. Since the upper and lower side are open, cooling of the display is no problem.

- For ceiling support PFC 900 or with turn & tilt unit PFA 9001/PFA 9002
- Only suitable in combination with universal interface FAU 3150
- Openings for autolock[®] system, security lock and cables
- Set of 2 steel plates to cover the back of a display

 **40" - 43"** 102 - 109 cm
