LA VITA RUFFINO

## When a customer orders Pinot Noir, Give them Parducci Pure Pinot.

Parducci takes Pinot Noir seriously so we can deliver an authentic and delicious Pinot Noir at an unbeatable price.

This 100% pure Pinot Noir, Small Lot Blended from vineyards that have been nurtured to produce a pure Pinot, rose in color, with a fresh berry fruit nose and finessed body.

Our grapes are grown in less discovered microclimates, like coastal Mendocino County where cool climates and sunshine help this grape achieve distinctive layers of flavors.

**Parducci. Pure Pinot Noir.**

## CARNEROS HILLS

### WINERY™

Carneros Hills Winery is in the tenderloin of Carneros, south of the Carneros Highway. It is a new winery, established just in 2013. Despite its recent inception the winery has history and tradition behind it, having been the site of the historic Buena Vista Winery on the Sonoma side of the appellation, just over the Napa border. The winery underwent dramatic renovations in 2013-2014, including cutting-edge innovations for artisanal Pinot Noir production: hand-sorting systems, basket presses and a variety of fermentation vessels. Individual barrel rooms provide the ideal conditions for primary and secondary fermentations as well as aging.

With more soil types than France, Founder Frank Woods recognized the potential of Sonoma County as a world-class wine growing region, and it is here in Sonoma's Alexander Valley where Clos du Bois has been making outstanding wines for more than three decades.

Santa Barbara County, home to an increasingly diverse array of grapes and styles, stands out in the international world of winemaking for three wines, Pinot Noir, Chardonnay, and Syrah. Jim and Mary Dierberg appreciated that truth from day one. The couple came to the region from the Midwest in the early 1990s to plant ultra-premium grapes and craft great wines.

When Steve Reeder and Dave Matthews first met, they realized they had a few things in common, like a passion for making wine at least as strong as their passion for drinking it. For The Dreaming Tree wines, they set out to create an approachable Cabernet Sauvignon, Chardonnay, and Red Blend—finding inspiration in the down-to-earth characters and unforgettable flavors that give California's wine country its rare charm.

## Dry Creek VINEYARD

The family at Dry Creek Vineyard believes that great wines begin in the vineyard. For us, winegrowing is a collaborative effort with Mother Nature. Our aim is to strike a careful balance between soil, climate and vine. We take great care in carefully farming, harvesting and shepherding our wines through the winemaking process. The artistry of our winemaking team lies in their ability to carefully guide this process with as little intervention as possible.

## *Estancia*

Estancia is translated from the Spanish word for estate, and emphasizes our conviction that the world's best wines capture the essence of their place of origin. At Estancia, we control the process from the start—from the trials in our experimental vineyard blocks, to planting, harvesting, fermenting, and aging the wines. We've built a winery adjacent to the Pinnacles Vineyard that allows us to devote the same attention to detail in winemaking that we give to our estate vineyards.

## FERRARI-CARANO

In 1979, Don and Rhonda Carano purchased a single 60 acre parcel of land in Sonoma County's Alexander Valley. The parcel included a restored 1904 farmhouse, a barn and 30 acres of grapes. So began a twenty-five year mission to acquire premium vineyard properties throughout the county, because Don and Rhonda truly believed, and still do, that owning their own vineyards is the best way to ensure the highest quality grapes needed to supply their growing winery in Dry Creek Valley and their mountain winery in Alexander Valley.

*Jayson*

The Jayson Chardonnay, Pinot Noir and Red are hand-crafted with the same premium practices that produce our Pahlmeyer wines. We do not grow or purchase additional fruit for the Jayson. Rather, all of our grapes are grown and vinified for the Pahlmeyer. After winemaker Erin Green selects the blends for the Pahlmeyer wines, she composes from the remaining barrels the Jayson Chardonnay, Pinot Noir and Red. As a result, the Jayson wines offer both quality and value.

Basking in the clear mountain sunshine high above the valley floor, Mount Veeder Winery is a hidden jewel. Founded in 1973, Mount Veeder Winery is a dramatic estate with vineyards planted on the hillsides of the Mayacamas Mountains overlooking the southern end of the Napa Valley. At altitudes ranging from 1,000 to 1,600 feet, our vines cling to the thin soils on these rugged, steep slopes. The vineyards produce intense and exceptionally concentrated grapes that express their mountain origins in powerful, bold wines crafted from the classic red Bordeaux varieties.

Pahlmeyer has embraced the holistic, rather than aggressive, approach and has seen the results. Growing balanced, ultra-premium wine grapes while incurring the least amount of environmental impact is the core mission of Pahlmeyer's sustainable winegrowing. The metered approach to soil health creates balanced vines with healthy canopies and small berries, as opposed to overly-vigorous vines with pumped-up berries, which can result from synthetic fertilizer applications. Achieving the intricate and fragile natural balance in the vineyard is the challenge for even the most qualified viticulturist. Working in tandem with the elements has always been the grower's best bet and is the viticultural secret behind Pahlmeyer's successful grape harvests and vintage releases.

The Prisoner was created and inspired by the drinkable mixed blacks first made by the Italian immigrants who originally settled in the Napa Valley. In 2003 The Prisoner was launched and soon became the most recognized innovative and unique Napa Valley Red Wine blend, leading the resurgence of blends by incorporating Zinfandel with the unlikely mix of Cabernet Sauvignon, Syrah, Petite Sirah, and Charbono.

PRIVATE SELECTION™

Robert Mondavi was a pioneer of the modern California wine industry and is recognized for putting California wines in the company of the great wines of the world. Along the way, he learned that different winegrowing regions of California vary tremendously in terms of their climate, soil, and topography. With these insights, he created Robert Mondavi Private Selection to celebrate California's unique, non-traditional Central Coast region.

## SIMI

Simi was founded in 1876 by Giuseppe and Pietro Simi. The winery's beautiful stone cellars and grounds in Healdsburg are a Sonoma County icon. Simi's philosophy has always been to create delicious wines that reflect the diversity of Sonoma County – from the foggy Sonoma Coast in the west, cool Carneros in the south, and warm Dry Creek and Alexander Valleys in the north and east.

## SIMPLY NAKED

Simply Naked offers a complete lineup of unoaked wines to showcase the true expression of each varietal, letting the purity of the fruit shine through. These wines are clean, fresh, and straightforward, but they're anything but simple. Making great wines without using oak to mask the taste means the winemaker must begin with high-quality, premium fruit sourced from the best regions in California and take great care in developing wines that are fruit forward, yet balanced and structured.

# SONOMA-CUTRER

V I N E Y A R D S

Sonoma-Cutrer is dedicated to the pursuit of original expression in our wines. Each wine reflects its regional and seasonal climate, its specific vineyard character – its *terroir*. From the very first vintage of Sonoma-Cutrer Chardonnay to the limited production of our world-class Pinot Noir, this dedication has taken root and continues to grow. Our Grand Cru philosophy is a unique assimilation of traditional Burgundian winemaking methods and our own technological innovation. It's a perfect balance of tradition and discovery, bringing forth noble wines that express a sense of place, vintage after vintage.

# TOASTED HEAD

The name Toasted Head comes from the letters TH you see stamped on the ends of our barrels. TH or Toasted Head means that the barrel heads, as well as the staves, have been toasted by the cooper so that a toasted flavor is imparted into the wines during barrel fermentation and barrel aging. These high-quality, highly toasted barrels play a key role in the creation of the rich, full-bodied wines we're famous for.

They suggest a free, noble spirit and are the ideal symbol for the Wild Horse Winery & Vineyards commitment to spirited winemaking. The vineyard and winery location within the Paso Robles appellation was selected for its mid-point proximity to the entire Central Coast region as well as Templeton's rural atmosphere.

At Zepaltas Wines, our main goal is to produce wines that are balanced, pure and reflect the places and people who had a hand in making the wines what they are. Our favorite sources for fruit are the cooler parts of Western Sonoma County (Russian River Valley & Sonoma Coast), and the Santa Lucia Highlands in Monterey County. We are trying to produce wines that go well with food, and have the potential to evolve into greater things throughout the aging process.

Quality winegrowing in America was in its infancy in the 1970's. The Spurrier tasting in Paris in 1976 gave the first international credibility to California Cabernet and Chardonnay. Three years later, again in Paris, and the following year in Beaune, The Eyrie Vineyards 1975 Pinot Noir brought international attention to Oregon, a wine region unfamiliar to almost anyone except a handful of hardy pioneers. With these two tastings, Oregon won its first recognition as the New World home for Pinot Noir.

Located at the base of the Blue Mountains in Walla Walla (Washington State), Charles Smith opened his first winery, K Vintners, in December of 2001. The first release, 1999 K Syrah from Walla Walla Valley, initiated the style of winemaking that Charles continues today: small lots of single vineyard Syrahs and field blends of Syrah, Cabernet Sauvignon, Grenache, Tempranillo and Viognier, all of which are hand-picked, foot-stomped, fermented with naturally occurring yeasts and basket pressed.

## LANGUEDOC/ROUSSILLON

### DOMAINE DE NIZAS

John Goelet, a direct descendent of the Guesrier wine merchant family in Bordeaux, France, came to the Languedoc in 1998 to produce wines that exemplify the region and terroir. Convinced of the potential for crafting high quality wines in the Languedoc, John Goelet and Bernard Portet, founding winemaker of Clos Du Val in the Napa Valley, searched and identified several vineyard sites of exceptional terroir before deciding upon the current Domaine de Nizas property. Bernard was attracted to quality of the soils, particularly the Vilafranchien terroir as closely resembling that of the Chateauneuf du Pape region, where the structure and depth of soils temper the heat of the climate and produce outstanding wines. John Goelet purchased 120 acres of land near the village of Nizas from Chateau de Nizas in 1998. Born and raised by his multi-generational winemaking family in the Bordeaux region, Portet's Old World winemaking style has been instrumental in crafting Domaine de Nizas wines that exude the Languedoc regionality, elegance and charm.

Michel Tardieu's vision is clear: Use grapes from the best regions and vineyards with the oldest vines — often between 50 and 100 years old; work with vigneron who farm in complete symbiosis with nature, using neither chemicals nor artificial fertilizers; continually refine the process of aging wines, always pushing the limits; and stay as close as possible to the grape and to the terroir. The result is wines with full, free and immediate expression.

## FEUDO MACCARI

The Feudo Maccari estate lies just over a mile from the sea, and basks in a dry, sun drenched climate verging on torrid in the summer months. Mediterranean winds moderate the climate and aerate the clusters, and some irrigation is required during the hot, dry season. The vineyards lie 240 feet above sea level on southerly exposed slopes, and the predominant volcanic soil profile is mixed in a few areas with white sand and chalk deposits. The diversity of the estates' soil and climatic conditions dictates that cultivation and winemaking follow the demands of the environment and pursuit of quality.

Tenute di Ambrogio e Giovanni Folonari has acquired approximately 100 acres of land of which 60 are planted in vines and the remainder in process of being planted. An ultra-modern winery designed by the Parisian architect Jean-Michel Willamette was completed in late 2002. The estate's first releases were the 2004 vintage of Campo al Mare Vermentino di Toscana I.G.T. and the 2003 vintage of Campo al Mare Bolgheri D.O.C., both released in early 2005. These will be followed by other wines yet to be determined to complete the range.

## Marchesi de' FRESCOBALDI

Marchesi de' Frescobaldi is one of the most significant wine producers in Italy, with nine estates—and more than 1,000 hectares—in Tuscany. The family has been growing wine since the early 14th century, when they became the first in Tuscany to import and plant French vine cuttings. Because they have been producing wines for more than 700 years, to experience Frescobaldi is to glimpse the history of Florence, from the Middle Ages to the present day.

The family's spirit was re-energized, and for two consecutive years, in 1952 and in 1953, the Casale del Bosco was recognized as being among Italy's most innovative farms. The family's deep ties to agriculture and the optimistic atmosphere of Montalcino in the late post-war years focused their determination to produce a natural product of tradition and excellence.

## CONDE DE VALDEMAR

Nestled in the Ebro Valley, with dramatic views of the Cantabrian Mountain range in the north of Spain, lies the tiny village of Oyón. It is here that the Martínez Bujanda Family has been grape growers and wine makers since 1889. Conde de Valdemar relies exclusively on their own 654 acres of vineyards located in the most prominent areas of the region. The family has been purchasing vineyards for more than a century and are considered expert at the selection and maintenance of the regions finest locations. This knowledge, along with control of their own vineyards allows them to grow grapes to their exacting standards and to harvest based on maturity of the grapes, not on the timetable of companies whose name is not found in conjunction with the final wines.

# SOUTHERN HEMISPHERE ARGENTINA BENMARCO

Owner and viticulturist Pedro Marchevsky may be one of the most educated, experienced viticulturists in Argentina (if not the world). He has degrees in Agriculture and Enology and Agricultural Engineering, and is a Professor of Irrigation and Drainage at the Universidad Nacional de Cuyo. He has managed premium vineyards for over 30 years and also owns his own vineyard in the district of Los Campamentos in Eastern Mendoza. He is at the forefront of the transformation of Mendoza into a region of world-class vineyards. His philosophy is a simple one gained from experience: make wines that are true to their place. He feels his wines should express the wonderful, powerful fruit flavors, the ripe tannins, the incredible length and balance that can only come from this one place—Mendoza.

After 22 years of winemaking, Susana Balbo has a strong sense of what she wants from her wines. From every harvest, she creates the grandest possible wines under her Susana Balbo label. To achieve this, she makes a rigorous selection of the finest barrels prior to making her final blends, dividing them into the parents (reserve level wines) and offspring or crios. Wines under her Crios label display ripe fruit flavors, excellent balance and concentration, and are meant to be enjoyed in their vibrant youth. They are also an incredibly good value. And like Susana's own crios (a boy and a girl), they are extremely lovable and fun to be around.

## LA POSTA

del viñatero

We have tasted over a thousand wines since we began importing from Argentina. In that time, we have discovered a handful of grape growers whose results in the vineyards with specific varietals have been truly amazing—year in, year out. Our first encounter with many of these growers was at a posta del vinatero, or tavern of the grape grower. Here they drank wine and spoke passionately for hours about their soils, their vines, and their quest for superior flavors in their grapes. We salute the hard work and skill of these growers by offering these vineyard-designated releases made solely with their special grapes.

## LUCA

Laura Catena has a vision of creating a new breed of Argentine wines: small quantities, artisan quality, and true to their individual terroirs. She starts with some of Argentina's best fruit from low-yield, high elevation vineyards. State-of-the-art winemaking and oak aging (primarily French) elevate the wines to a quality level demanded by true wine connoisseurs. The final varietal blends deliver power along with complexity and finesse. They are the ultimate expression of rigorous vineyard management, viticulture experimentation, strict irrigation controls, skilled winemaking, and a quest for quality at any cost. Her current releases include Syrah, Beso de Dante, Malbec, Pinot Noir, and Chardonnay.

# mapema

In winemaking, two heads are definitely better than one when trying to make an incredible wine. Longtime friends and winemakers Pepe Galante and Mariano Di Paola recently banded together to bring well over 40 years of winemaking expertise to their mapema wine. Theirs is a history of rich individual accomplishments; Pepe and Mariano are widely recognized as two of Argentina's most talented winemakers. They joined forces with one thought in mind: take the expertise and experience of two seasoned winemakers, search out the best possible grape sources (in the primera zona or top viticultural area), and make just one super wine from each harvest. This is their second release.

She has been making wine since she earned her enology degree in 1981, and she has probably produced a wider variety of wines than any other winemaker in Argentina. Susana was the first Argentine winemaker to be hired as a consultant to make wine outside of Argentina. She has made wine in Australia, California, Chile, France, Italy, South Africa, and Spain, and she spends a month each year in a different wine region of the world studying with local winemakers and growers.

Tikal is owned by Ernesto Catena and is named after his son. Ernesto spent his childhood in the vineyards of Mendoza among wine-growers and local pundits. Since then, he has experienced a kaleidoscope of cultures, living in New York, Buenos Aires, Berkeley, Cambridge (MA), Milan and London. But his heart remains in his homeland of Argentina (where he now lives), with its natural beauty of mountains, streams and vineyards, its wines, and its people who hold a special passion for living.

The descendent of a long line of Clare Valley grape growers, Kevin Mitchell is not only a skillful winemaker trained at South Australia's prestigious Adelaide University, he also has the Clare Valley in his blood. A passion for terroir, particularly that of the beautiful Clare, with its steep north-south ranges and austere slate escarpments, arise from a childhood playing in, then working, the vineyards alongside his father, Mort. Now crafting highly-awarded wines from the family's mature vineyards, his winemaking techniques focus on minimal intervention. By his own confession he is fanatical about carrying out his craft without masking the inherent vineyard flavors.

## LEEUWIN ESTATE

In 1972, following an extensive search for the area most suitable to produce the best varietal wines in Australia, Robert Mondavi identified the future site of the Leeuwin Estate vineyard, which evolved under the direction of founders Denis and Tricia Horgan (with Mondavi acting as consultant and mentor). The initial vineyards were planned, deep plowed, emptied of stone and eventually planted over a five year period from 1975. The winery building was opened in 1978 and the estate was thrust into the international spotlight when Decanter Magazine (UK) gave its highest recommendation to the 1981 'Art Series' Chardonnay in an international blind tasting. It has since become a benchmark estate on the world stage, with Wine Spectator awarding two of the past four Art Series Chardonnays 97 points.

## Craggy Range Winery

It's a great story. The genesis of Craggy Range Winery began in 1987, when Steve Smith was smitten by a small parcel of land in the TukiTuki Valley, part of the Hawkes Bay wine-growing region. With one of New Zealand's most beautiful (and best stocked) trout fishing rivers to the east and the massive symbolic escarpment of Te Mata Peak to the west, this place was indeed very special. The Craggy Range formed the backdrop to the site and close investigation of the soils showed stony clay rich soils that were just perfect for producing a high-quality single-vineyard Chardonnay wine.

In 1965, Jack and Jamie Davies established Schramsberg as a sparkling wine estate on the property originally founded in 1862 by German immigrant Jacob Schram. At a time when there were only 22 bonded wineries in Napa Valley and fewer than 100 acres of California vineyards planted to Chardonnay and Pinot Noir, they set out to make world-class sparkling wine in the true méthode champenoise style. There was the first California winery to provide a Blanc de Blancs in 1965 followed by a Blanc de Noirs in 1967.

## IMPORTED DESSERT WINES AUSTRALIA

The Chambers winery has been owned by the same family since its establishment in 1858 - and is one of only a few wineries in Australia with this track record. They have a totally unique style - there is nowhere else in the world that produces a style like the Rutherglen Muscat's and Muscadelles (tokays) - the process of fortifying the partially fermented wine and then aging for decades in old oak barrels results in a concentrated, powerful wine that is not cloying and has amazing balance.

Austrian-born and monastically educated, Karl J. Kaiser, and native Canadian, Donald J.P. Ziraldo, a descendant of a family of winegrowers in Northern Italy, founded Inniskillin Wines on July 31, 1975, obtaining the first winery license granted in the province of Ontario since 1929. Located in Niagara-on-the-Lake at the historic Brae Burn Estate, Inniskillin was founded upon and dedicated to the principle of producing outstanding wines from vinifera wine grapes grown in the Niagara Peninsula. Karl and Donald tirelessly tested the new ground of Niagara with better vines and superior winemaking techniques, grafting old-world wisdom in the new-world terroir. Inniskillin rocketed to international notoriety when its pioneering 1989 Vidal Icewine was awarded the Grand Prix d'Honneur at Vinexpo 1991, and drew worldwide attention to Canada's burgeoning wine industry.

Royal Tokaji was founded in 1989 by well-known author Hugh Johnson and a small group of investors, including Ben Howkins, who were inspired after the fall of Communism to restore and preserve Hungary's precious wine legacy. Royal Tokaji's ensuing success can largely be attributed to its unique combination of first and second growth vineyards, including one of Hungary's two great first growths: Mézes Mály. The winery produces several exceptional wines, including four single-vineyard Aszú wines.

Water in this region is very, very soft in comparison to most Sake-brewing regions in Japan. This is a major contributor to the unique taste and feel of their Sake. It melts and absorbs into the palate, taking flavor and fragrance with it in a very unique way.

## GINGA SHIZUKU

Each year, after the temperature drops below 14 Fahrenheit, they build an Ice Dome outside near the main kura building. It is basically an igloo inside of which the temperature stays about 28 F, with 90% humidity and no wind. The low temperature means nasty bacteria cannot survive, and it allows them to make clean, pure, ultra-premium Sake. Additionally, they separate the clear Sake from the fermenting rice lees not by pressing, but rather by putting it into canvas bags and allowing the Sake to drip out slowly overnight, with no pressure at all applied to the mash.

Rihaku was named for a famous poet in China who lived from 701-762 and was famous for drinking a lot before writing. He was known to have said, I drink a bottle, and can write 100 poems. Taste it, you'll see why. Nigori Sake is made so that some of the rice lees remain in the bottle after pressing (unfiltered). Most nigori is sweet and creamy, and thick with the unfermented rice solids. Rihaku Nigori is a bit less chunky, but more fruity and complex than most nigori Sake.

# WATARI BUNE

Watari Bune is a story of passion, dedication and joy. Watari Bune is the name of the rice varietal used to make this sake. It is a rice strain that was used with great enthusiasm in the 19202 s and 302 s because of the wonderful sake it made. Although open to debate, Yamauchi-san argues that Watari Bune, which is an heirloom or pure strain of rice is the father strain to Yamada Nishiki, the most celebrated sake rice.

Quality winegrowing in America was in its infancy in the 1970's. The Spurrier tasting in Paris in 1976 gave the first international credibility to California Cabernet and Chardonnay. Three years later, again in Paris, and the following year in Beaune, The Eyrie Vineyards 1975 Pinot Noir brought international attention to Oregon, a wine region unfamiliar to almost anyone except a handful of hardy pioneers. With these two tastings, Oregon won its first recognition as the New World home for Pinot Noir.

At Zepaltas Wines, our main goal is to produce wines that are balanced, pure and reflect the places and people who had a hand in making the wines what they are. Our favorite sources for fruit are the cooler parts of Western Sonoma County (Russian River Valley & Sonoma Coast), and the Santa Lucia Highlands in Monterey County. We are trying to produce wines that go well with food, and have the potential to evolve into greater things throughout the aging process.
