PRODUCT MAGAZINE

www.canyon-tech.com

CANYON is a cheerful, young and dynamic lifestyle brand that thrives to make life more comfortable by offering a wide range of practical, easy-to-use and affordable IT-related consumer electronics and computer peripherals to the many people. This principle is at the heart of the brand and our daily business activities globally.

Our product range is developed with our commitment to offer beautiful and stylish product design at competitive prices, without compromising the quality. We offer a diversified portfolio of chat packs, cables, gaming accessories, headsets, mice, webcams, notebook bags, and much more. Our product is divided into three main segments: Regular Line, Sportslines and the Platinum Series, our business line.

To guarantee an efficient supply of products, we have an established network of sales offices in more than 50 countries and strategically located distribution centers in China, Finland, Czech Republic and Dubai. Quality control teams are located in China and Taiwan to ensure our products are meeting the latest standards and requirements. CANYON also strongly benefits from the expertise and leadership of its mother company, ASBISc Enterprises plc, a worldwide IT components & peripherals distributor listed on the Warsaw Stock Exchange.

Founded in 2003, CANYON is one of the world's fastest growing brands in IT-related consumer electronics in Asia and the EMEA region.

My favorite CANYON product

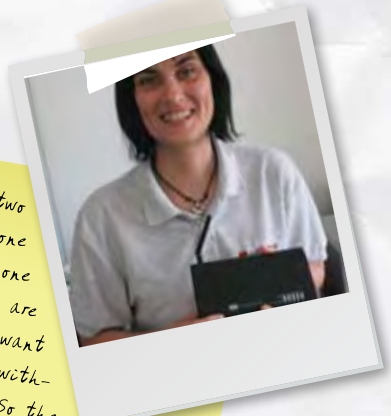

„My favorite Canyon product: I choose the Desktop PC because this is one of the most innovative products in the Canyon product line. I think it has a refreshing look and stands out in a whole new segment of design computers. You can see that Canyon paid attention to the outside, but as well on the inside. It is a good computer with good specs. And the other very great advantage is that it's all in one box! All you have to purchase is this one box and connect everything to get started. Overall, easy to use and great looks!“

Alaric Vonk, the Netherlands

„I have a family with two already grown up sons: one a college student and one a high-school student. We are all computer users and want to work whenever possible, without disturbing one another. So the Canyon wireless router CNP-WFS14 is really helpful, providing good wireless connection to all.“

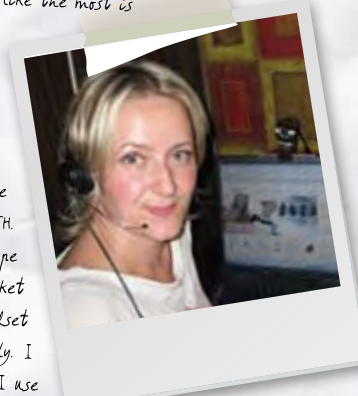

Katya Penova, Bulgaria

„Here are two Canyon products that I can't imagine my life without. One of them is a VoIP chat pack, the CN-VZ. I bought this product mainly due to its design, but then I discovered its many advantages and most importantly, its quality. What I like the most is its stainless steel design and the 'tube' microphone. I am very pleased with the 1.3M pixels webcam, but also the special effects and zoom options.“

The other product from Canyon I really like is the Wireless Bluetooth Headset, the CN-BTH. I bought it long time ago, when this type of product was just introduced to the market and very trendy. I still use the same headset after all the years, and it works perfectly. I find it very useful and highly attractive. I use it in my car but also at home as a wireless headset for Skype. I know the CN-BTH is not in Canyon's portfolio anymore, but they have similar products that surely offer the same good and long-lasting quality.

Tatjana Miljkovic, Serbia

„The CNR-MPV4 is my favorite Canyon product because I like music and sports and this product is an ideal solution for both. On Sunday morning, when I ride my bike, I can't imagine my route without music. In that case the CNR-MPV4 brings joy in my life and enriches it with the wonderful sound of my favorite music!“

Biljana Todorovic, Croatia

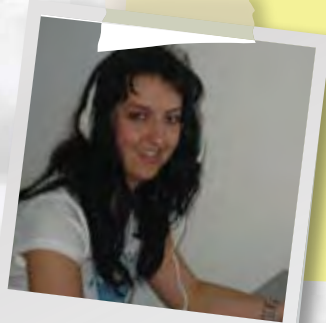

„I just love this product - it's small, lightweight and easy to use! Since music is very important part of my life, I like to have it everywhere with me. With CNR-MPV3 its easy, cause thanks to its dimensions you can fit it to any pocket. 2 GB is enough to storage all your current favorite songs! And I have to mention also the integrated speaker - share your music! Rock&Roll!“

Kristiina Oja, Estonia

„My favorite Canyon product is the chat pack CNR-CP5 because I have a lot of friends that are living abroad and Canyon's chat pack is the ideal product which enables me to stay in touch with them and enjoy long conversations.“

Ljiljana Todorovic, Croatia

„I love the Canyon Bag CNP-NB8... Wonderful! All the space I need close at hand, transportable and strong!!!“

Eugenio Stocco,
President of Sel System Srl - Italy

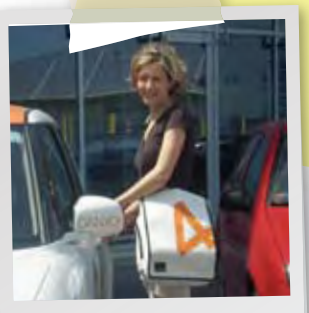

„Ciao! We are two sisters, Emilia and Victoria, and we live in Rome. We love our canyon chat Packs CNR-CP1 and CNR-CP2. We love the box full of wonderful colors like orange and green, and with all pictures of the young people smiling at us. When we finish studying, our mother lets us chat a bit with our friends and grandfather Giovanni in Venice. Like this, we can talk to them without spending money on the phone. And we also have to dress well and brush our hair to look beautiful because with the webcams, our friends and family can see us! We love our chat packs and we think it is the most beautiful present we received for our promotion at school this summer!“

Emilia & Victoria Polito

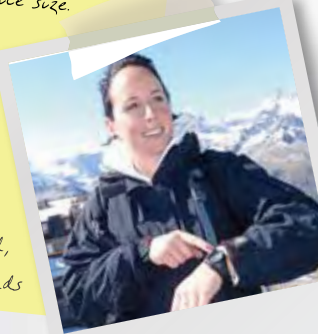

„My favorite Canyon product is the canyon bags... I think that everyone at work already knows that! I like all of canyon bags because they don't look like common notebook bags. They have nice design. They are practical with lots of pockets, compartments and different options of carrying. My ultimate favorite bag is the orange-white CNR-NB4. I even carry it without a notebook inside. I bring it everywhere I go!“

Marija Kelcek, Croatia

„I really like Canyon's Sportstline, and especially the CNR-SW1. I love this watch! I use the finger-touch heart rate monitoring every time I go out for a walk, a run or a hike in the mountains. It's so easy, fun and also motivating! Plus, it is a nice size. I've been considering for a while to buy a sportswatch, but most of them are too big and cost too much money. But not this one! I truly find the SW1 ideal.“

Catherine Lazare-Guinard,
the Netherlands

„After work, on holidays, at the beach, walking in wonderful mountains or travelling around the world, there's nothing better than listening to the music on my canyon CNR-MPV3. It is easy to use, really light, and beautiful to see and wear with different stylish clothes: sport wear or even elegant. I love my free time with my canyon MP3 player!“

Maria Merlino, Italy

„I love the white and orange line of canyon, it is unique, different and original. This stylish color combination is young and dynamic, but also elegant at the same time. I especially like the keyboard CNR-KEYB7 and the mouse CNR-MSOPT5 because of their ergonomic design. It is a pleasure to work with such colourful and trendy computer accessories.“

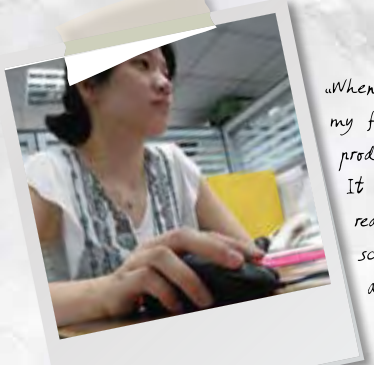

Paolo La Vecchia,
Italy

„When it comes to mouse, canyon's CNR-MSL1 is my first choice, it is also my favorite canyon product.“

It helps open files quickly (simply click the red button) so I can work more efficiently. The scroll wheel of the CNR-MSL1 is also useful and steady. I can't work without it!! “

Galina Iou, Taiwan

What is the difference between laser and optical technology?

While a laser mouse tracks movement with laser pin-pointing technology, optical mice employ LED lights (it is that red light beam you can see when you flip over the mouse). The more dots per inch (dpi) a mouse can track the more sensitive and accurate it is. A standard optical sensor detects in average 400-600dpi, and a laser mouse can track more than 2,000dpi. The laser mouse offers a faster tracking speed but as it is very sensitive, it might not work well on reflective surfaces whereas an optical mouse works on virtually any surface. Due to a more advanced technology used for laser mice, these usually have a higher price. However, it is important to clarify that none of these two technologies is really better than the other. It all depends on your needs and preferences.

Starfish webcam interactive game

The game Starfish is an interactive software game that will be bundled with CANYON webcams and, thus, Chat Packs as well. This entertaining game is easy to install and is compatible with all CANYON webcams. The Starfish game is entertaining for people from all ages, and can be played on any computers supporting Windows XP or Vista. All you need is a CANYON webcam! As the game is integrated to this device, your own image is projected on the screen. The setting takes place underwater, and you have to use your hand to push the bubbles in order to get points and win. Star Fish literally makes you a part of the game, and guarantees many hours of fun while trying to beat your own score or your friends!

- In the ear stereo earphone

What are Noise-cancelling headphones?

Noise-cancelling headphones reduce unwanted ambient sounds (i.e. acoustic noise) by means of active noise control. Essentially, this involves using a microphone placed at the ear combined with electronic circuitry interference, which cancels out the noise within the enclosed volume of the headphone. Keeping noise level low at the ear makes it possible to enjoy music without raising the volume unnecessarily. It can also be used to help a person to sleep in a noisy environment such as an airliner.

CNR-HP2

High-quality DJ headphone
 Frequency from 20 to 20,000 Hz
 4 meters cable length
 Power Capability: 150mW
 Plug Type: 3.5mm and 6.3mm stereo adaptor

CNR-MP6

What is a MPV?

MPV, or sometimes also referred to as MP4, is known as the next generation of MP3 players. MPV actually is a multimedia MP3 player. It is a handheld device that enables you to store and support various multimedia objects such as images, videos and music. It usually comes with a color LCD screen. There are several models available on the market with various features such as video player, built-in microphone and/or speaker, FM tuner, memory card readers, data storage, and others.

All multimedia players should be compatible with standard audio MP3 files, JPEG format for images and MP4 format for videos. With cables and software, it is easy to transfer files from a computer or from the Internet.

REGULAR LINE > DIGITAL PHOTO FRAMES

[Bluetooth]

We offer three models of Bluetooth® adapters for you to choose from, if you want to connect multiple devices such as mobile phones, PDAs, laptops, PCs, printers, GPS receivers, digital cameras and video game consoles. Growing in popularity, Bluetooth® devices have the advantage to give you more control with wireless networking, communication and sharing of information by synchronization.

What is Bluetooth® technology?

Bluetooth® is a wireless technology that provides a reliable connection between multiple devices rather than with the traditional cable link. It uses short range communications technology facilitating data transmissions over short distances from devices, creating wireless personal area networks (PANs). And to the contrary of what some people may think, this technology is not very expensive and doesn't consume much power.

Wii Accessories

The most recent game console released by Nintendo® is the Wii™ which, since its introduction, sold close to 50 million devices around the world. Easy to use and highly interactive, the Wii™ features a wireless remote controller with the latest motion-sensing technology which allows you to experience the games at a whole new level. Whether you play Tennis, Golf or Baseball, the remote controller becomes a racket, a club or a bat with the swing of your arm! And to add a touch of realism to the games, CANYON offers many Wii™ accessories such as a soft grip extension and molded pieces for the remote to transform it into sporting equipment. The choice is yours among CANYON's sports pack, entertaining kit, racing wheels, charging stations for the remote controllers, silicon grips to add comfort, and a Fitness kit to complement the popular Wii™ Fit.

CANYON sportsline

DESIGNED TO MOVE

CNS-DC2 "Explorer"

Altimeter:

- Range: -500 to 9000 meter
- Altitude history and graphical display of the last 12 hours
- Altimeter alarm
- Maximum and minimum memory
- Both meters and feet

Barometer:

- Range: 300.0 to 1100.0 hPa/mbar
- Resolution of 0.1 hPa/mbar
- Barometer history and graphical display of the last 12 hours

- Electronic barometric weather forecast
- Pressure trend indicator

- Maximum and minimum memory
- Both in hPa and mmHg

Hygrometer:

- Range: 20% ~ 95%
- Resolution of 1%
- Maximum and minimum memory

Thermometer:

- Starting at -20°C to 60°C
- Resolution of 0.1°C
- Both Celsius and Fahrenheit
- Maximum and minimum memory

Professional Stopwatch:

- 0.01 s precision
- Displays hours, minutes and seconds up to 10 hours
- Memory of 30 data

Calendar:

- Perpetual calendar
- Snooze alarm
- 12 or 24 hrs

PLATINUM

PLATINUM SERIES

PLATINUM SERIES

Conceived with businesses and professionals in mind, the Platinum Series combines functionality, high quality, and sleek & stylish design. These products meet specific requirements and needs with advanced features and technology. Especially suitable for notebook users, our product line-up consists of notebook stands, webcams, networking devices and notebook bags. Enjoy the lasting quality and no-nonsense of our Platinum Series!

Notebook stand

A notebook stand allows you to position your laptop at an eye-level with a viewing angle close to 0°, which is recommended by ergonomics experts. It also includes a cooling fan to improve heat dissipation thus ensuring maximum performance and system stability.

CNP-NS1

- 360-degree swivel base
- Ergonomic adjustable stand
- Ultra silent fan
- USB power supply
- Unique cable storage design
- Design for up to 17" notebook

CNP-NS2

4-Port removable USB 2.0 HUB.
Adjustable stand.
Ergonomic wrist rest.
Design for up to 15.4" notebooks.

CNP-NS3

Portable stand and notebook cooler.
Compact and adjustable design.
Design for 7" up to 15.4" notebooks.

CANYON understands that high performance video calling and top quality are your main priorities when choosing a webcam for professional use and this is what we offer with our line-up of notebook webcams. Featuring a sleek design and advanced technology such as automatic face tracking software and various visual effects, these webcams meet your needs and requirements.

CNP-WCAMN2G

2.0M pixels Notebook Camera
 Compact size metal design
 Microphone built-in
 Face tracking function
 Supports basic functions
 without driver

NEW!

CNP-WCAM313G

1.3 Mega Pixels
 High quality CMOS sensor
 Adjustable focus range
 Advanced video-phone technology
 Interface: USB 1.1/USB 2.0
 1*10 digital zoom function

CNP-NP2

Retractable cable extensions.

Earphone with mic & volume control, extends to 60 inches (150cm).

USB 2.0 AM-AF cable, extends to 32 inches (80cm).

RJ45 LAN cable, extends 54 inches (135cm).

Universal USB 2.0 cable

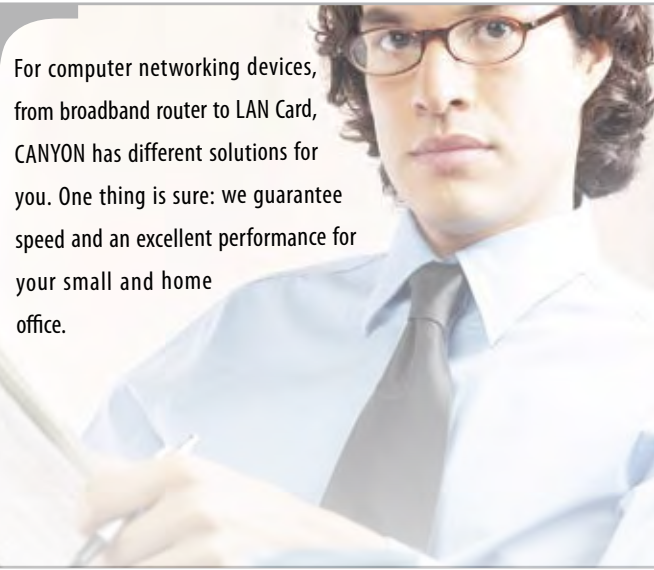

CNP-BR1 Broadband router

xDSL / Cable Broadband Router
4 Ports LAN RJ45

For computer networking devices, from broadband router to LAN Card, CANYON has different solutions for you. One thing is sure: we guarantee speed and an excellent performance for your small and home office.

CNP-D05P 5-Ports switch

5 Port ethernet switch 10/100 Mbps

CNP-D08P 8-Ports switch

8 Port ethernet switch 10/100 Mbps

CNP-D16P 16-Ports switch

16 Port ethernet switch
10/100 Mbps

CNP-LAN2 PCI LAN card

RTL8139 10/100Mbps Fast Ethernet 32bit

PCI LAN Card

Network Standard IEEE 802.3 10Base-T

IEEE802.3u 100Base-TX

Protocol CSMA/CD

PCI BUS PCI 2.2

Support WOL function

UTP PORT:10/100 Auto-negotiation RJ-45 Port

Supported UTP Cable Cat3 UTP/STP for 10Base-T transmission

Cat5 UTP/STP for 100Base-TX Transmission

Maximum cable distance is about 100 Meters.

CNP-GLAN1 Gigabit PCI LAN card

Supports: IEEE 802.3, 802.3u and 802.3ab

Maximum data transfer rate: 1000 Mbps

32-Bit PCI bus

Supports 10/100/1000Mbps Auto-Negotiation

Supports 10/100Mbps full and half duplex,

1000Mbps

full duplex

Supports Full Duplex Flow Control (IEEE 802.3x)

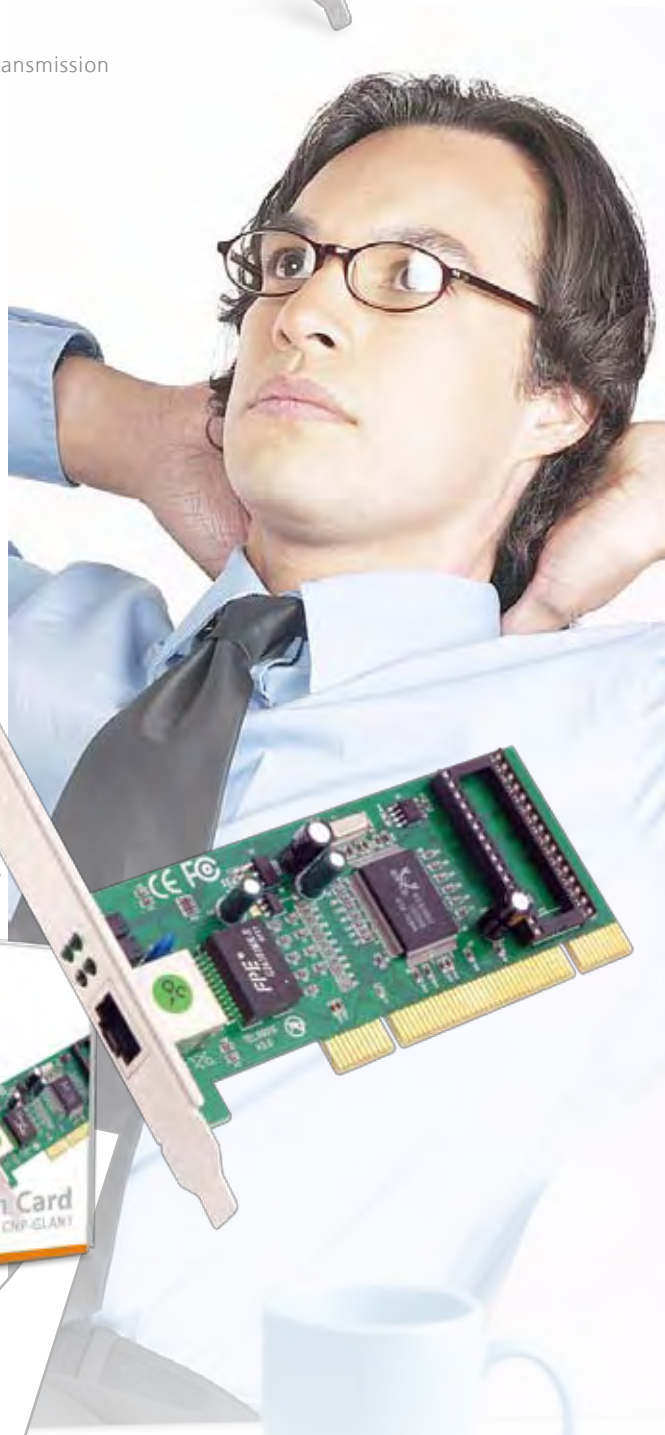

Supports IEEE 802.1P, IEEE 802.1Q VLAN tag

One 10M/100M/1000M STP/UTP port

Supports: NetWare 4.x, 5.x, 6.x, Windows 98, ME,

2000, NT, XP,

Vista and Linux

CNP-WFAP 54Mbps Access point

Wireless LAN Access Point
 IEEE 802.11b/g, 54 Mbps
 Supports WPA/WPA2 security enhanced function
 Supports WDS (Wireless Distributed System)
 bridge mode
 Station mode (AP client mode)
 Provides 64/128 bit key length WEP data encryption
 Provides MAC access control / DHCP server /
 Firmware upgradeable
 RP-SMA detachable antenna

**CNP-WF514 54Mbps wireless router**

11g Wireless Router
 IEEE 802.11g protocol
 54 Mbps
 4 ports LAN RJ45

**CNP-WF511 54Mbps PCI LAN card**

11g Wireless PCI LAN card
 IEEE 802.11g protocol
 54 Mbps
 Incl external antenna

CNP-WF514N1 150N Wireless AP Router

IEEE 802.11b/g/n Wireless Broadband Router
 Maximum transfer rate: up to 300 Mbps
 Uses 2T4R MIMO technology
 4-Ports 10/100 Mbps UTP switch
 NAT/NAPT IP sharing , Virtual server/DMZ, DHCP server
 VPN pass through (IPSec/PPTP)
 Web remote configuration

CNP-WF518 54Mbps USB adapter

11g Wireless USB Adapter
 IEEE 802.11g protocol
 54 Mbps

CNP-WF518N1 150N Wireless LAN USB Adapter

IEEE 802.11n Wireless USB Adapter
 Up to 150Mbps high network speed
 Provides 64/128 bit WEP data encryption

CANYON developed a line of notebook bags especially targeted to meet the specific needs of business travelers. Functionality, style and comfort; this is what characterizes the bags in our Platinum Series. Enjoy!

Notebook hand bag

CNP-NB7

- Shoulder and hand carry model
- Suitable for up to 15.4" notebook or regular luggage
- Removable notebook cushion protection bag
- 5 Compartments and 5 pockets
- Pockets for mobile phone, business/credit cards, key ring and 3 pens

PLATINUM SERIES > BAGS

**Notebook trolley bag
CNP-NB8**

- Hand carry and trolley model with telescoping handle
- Suitable for up to 15.4" notebook or regular luggage
- Removable notebook cushion protection bag
- 4 Compartments and 4 pockets for storage
- In combination with CNP-NB7 perfect for overnight travel
