

# XAP Series

## VERSATILE

The new Xerox XAP series succeeds the business blood to integrate all the functions you desire and boost the performance you deserve. **XStand™ offers you the freedom of easy adjustment**; you can tilt, swivel, adjust the height and even pivot the monitor. **XShield™ is as hard as quartz (8H) to protect the panel (2H) from the scratch.** It also improves the display quality and makes colors rich and vivid.

All XAP series displays equip with **digital video interface (DVI)**, maximizing the quality of the image output by combining a premiere-quality LCD panel and high-end video graphics card. Furthermore, **fastest response time, ultra high brightness, contrast and advanced video engine** make the XAP series superior for any professional use. Users who need real-time 3D gaming, video, engineering or professional design applications must be content with the XAP series. It is versatile. It is what you're looking for.

## Remarkable Features Deliver Outstanding Performance

The Xerox XAP LCD Series is available in 17" and 19" screen sizes.

### XShield™ Protective Glass No More scratched panels

XShield™ provides extra LCD protection with sophisticated visual flair. XShield™ is not only practical to enhance the display quality but a part of stylish design.

### Adjustable Ergonomic XStand™ More flexible for the ease of uses

XStand™ is very flexible to make any adjustment comfortable for use. Users can tilt, swivel, pivot and adjust the height of the display. Just accommodate XAP to your habit and preference.

### Anti-Reflection Coating Comfortable viewing experience

The coating on the panel can efficiently reduce distracting glare on images viewed.

### Rapid Video Response Live action images stable

Fast action media such as engineering applications, professional design, gaming, DVD and video conferencing will playback smoothly thanks to the very fast video response time of the LCD panel.

### Professional DVI Input Precise colors and fidelity

DVI provides the precise and digital communication to deliver the best display performance. The XAP series has the flexibility to accept both the digital or analog signals.

### Multimedia Enhanced Speakers Enjoyment with media center

It brings multimedia and saves the desktop space. XAP series has two built-in 2w stereo speakers and are well integrated into the stylish design.

## What Advantages XShield™ Can Give?

The glass that XShield™ uses is a kind of anti-reflection technology. It is hi-tech with the chemical coating to reduce the glare and change light beam penetration through the glass to give images and colors nature to life.

- Its hardness is the same as quartz (8H). LCD panel is 2H.
- It is anti-UV light with 96% efficiency.
- The transparency is over 97% and reflection is under only 2%.
- It has the superior grade of resistance to alkali, acid, alcohol and detergents.
- The glass can endure the temperature of 200-250 centigrade degree without deformation.

## What a Flexible XStand™ !

The adjustable ergonomic XStand™ meets your request with the possibility and flexibility. You even can pivot the monitor with 90 degrees for a vertical view (portrait orientation) while using desktop publishing, word processing or surfing web pages.

Pivot

Tilt

Swivel

Height Adjustment

NOTE: Pivot function needs additional software to rotate the screen orientation. Some VGA card suppliers bundle the software in the package. (for example: NVIDIA® NVRotate™)

# XA3 Series

A PREMIUM DISPLAY FOR ALL BUDGETS

The XA3 Series LCD monitor is an excellent entry-level monitor offering exceptional display quality at an affordable price. The high-contrast images and vibrant color reproduction bring your work to life. Its stylish thin frame and narrow bezel give the XA3 Series a sleek and elegant look. Solid performance at a great price makes the XA3 Series a wise choice in LCD displays.

The practical XA3 Series LCD monitor delivers the best in design and image quality at a budget-minded price. These stylish displays are equipped with **an energy efficient power supply and auto setup features**. Installation is easy; just plug it in and turn it on.

Available in 15", 17", and 19" screen sizes, the XA3 Series LCD monitor offers a size to fit any need and budget. Driven by the same advanced display technology used in other more expensive displays, the XA3 delivers crisp and clear images for your viewing pleasure.

## Remarkable Features Deliver Outstanding Performance

The Xerox XA3 LCD Series is available in 15", 17" and 19" screen sizes.

### Rapid Video Response *Live action images stable*

Fast action media such as gaming, DVD and video conferencing will playback smoothly thanks to the rapid video response time of the LCD panel.

### High Contrast Ratio *Making colors sharper*

Colors will appear vibrant and lifelike producing superior image quality.

### Plug-and-Play Capability *Delivering ease of use*

The display is out of the box and connected to your computer in minutes.

### Anti-Reflective Coating *More comfortable viewing experience*

The coating on the panel can efficiently reduce distracting glare on images viewed.

### Wall-Mounting Capability *Versatile to set up*

It allows this LCD to be used in numerous applications including financial, medical, educational and business uses.

### Slim Profile Design

The XA3 series has a sleek design that maximizes desktop space while providing excellent video performance.

### Narrow Bezel Design

The narrow bezel will allow you to tile multiple displays to increase the amount of information that can be viewed.

### Built-in Power Design

The XA3 series has built in power supply eliminating the need for an external power supply.

# XEROX®

Stylish, Flat-screen  
LCD Monitor with  
DVI Input

Office Displays

## Outside, it's a work of art; inside, it's all business

From its sleek, stealth-like design to its high-resolution images, the Xerox XA7 Series LCD monitor is an overachiever in computer displays. What's immediately noticeable about the Xerox XA7 Series is how well the matte-black slim bezel blends with the background, while incorporating elegantly designed adjustment buttons.

What's more appealing to the eye about the Xerox XA7 Series monitor is its amazing image quality. With advance video technologies that deliver bright, crisp graphics, sharp text, and smooth video playback, the XA7 Series is truly a leader in its class.

# XA7 Series LCD Display

All Xerox XA7 Series monitors are equipped with digital video interface, or DVI-I, a feature which maximizes the quality of the image output by combining a premiere-quality LCD panel and high-end video graphics cards. DVI-I allows for easy connection between digital video and analog signal graphics cards. Colors are vibrant and rich in contrast and are protected by the Xshield glass filter. Video playback is solid due to the 8 millisecond response time and 800 to 1 contrast ratio. The wide viewing angle is practical when more than one person is viewing the screen at the same time. The Xerox XA7 Series may look like a work of art on the outside but when displaying the best possible image, it's all business.

# XM3 Series

## COST-EFFECTIVE AND WIDE

XM3 series is the best preference to start exploring wide screen. The design philosophy of XM3 series follows our exceptional XA3 series and it offers users a **cost-effective combination of admirable performance and affordable price**.

XM3 series has unique **XInput™ Signal Selection** for the convenience of multiple input sources. The feature allows simultaneous connecting PC and another sources such as DVD, game console or another PC/Note-Book.

It has **1680x1050 wide-screen high resolution to give the additional computing space for use**. How about having MSN® Messenger, Skype™ and word processor side by side then switch them with the ease? How about watching DVD films without distortion? How about browsing two web pages on a single screen? Or, you can switch to the game console and enjoy yourself at once! XM3 series is wide and versatile; it is 100% worth your exploring to have a wide screen from now on!

## Remarkable Features Deliver Outstanding Performance

### **XInput™ Signal Selection** Capable and convenient (*OPTIONAL*)

XInput™ provides one digital and two analog video ports. Users can concurrently have desktop PC and notebook (or another PC) share the same one display then switching the signal by simply pressing the button without removing and attaching cables all the time.

### **Rapid Video Response** Live action images stable

Fast action media such as gaming, DVD and video conferencing will playback smoothly thanks to the very fast video response time of the LCD panel.

### **Multimedia Enhanced Speakers** Enjoyment with media center

It brings multimedia and saves the desktop space. XM3 series has two built-in 2w stereo speakers and are well integrated into the stylish design.

### **HDCP** Solution for HD content (*OPTIONAL*)

HDCP has been implemented across DVI interface. The HDCP specification provides a cost-effective and transparent method for receiving the highest quality digital entertainment content from HDMI compliant video sources.  
(Specified for HDCP models)

### **High Brightness & Contrast** Bringing images to life

Vibrant colors, and dark black levels will improve your graphics, photos, or presentations making them life-like and realistic. High contrast levels further define picture detail providing rich saturated images.

### **Integrated Power Design** Reducing desktop clutter

The power part is integrated into the whole design and there's no more external power adapter to occupy your desktop space.

# XM7 Series

## VERSATILE AND WIDE

XM7 series design concept results from our popular XA7 and XAP series. It emphasizes the versatile use and business applications. XM7 series has **XShield optical glass filter to protect the panel with the solid 8H hardness.**

And we'd present you the new unique **XInput Technology**. The feature allows concurrent connecting PC and another sources such as DVD, game console or another PC/NoteBook. You can have a more flexible use of XM7 series and save your investment on displays.

XM7 series has **wide-screen high resolution to give the additional computing space for use**. You can see more columns and rows of the spreadsheet in a view. Put Messenger and word processor side by side with the switching ease. Have more windows to check the stock quotations. With XM7 series, you win the performance desired and deserved!

## Remarkable Features Deliver Outstanding Performance

### **XShield Protective Glass** **No More scratched panels**

XShield provides extra LCD protection with sophisticated visual flair. XShield is as hard as quartz (8H hardness) to protect the panel from scratch and enhance the display quality.

# XM7-22W

## OUTSIDE, IT'S A WORK OF ART; INSIDE, IT'S ALL BUSINESS

The XM7-22w design concept emphasizes the versatile use and business applications. Its multiple input signal selection allows concurrent connecting PC and another sources such as DVD, game console or another PC/NoteBook. You can have a more flexible use of XM7-22w and save your investment on displays.

The XM7-22w is equipped with **digital video interface (DVI)**, a feature which maximizes the quality of the image output by combining a premiere-quality LCD panel and high-end video graphics card. Colors are vibrant and rich in contrast and are protected by **XShield optical glass filter**. The XM7-22w may look like a work of art on the outside but when displaying the possible image, it's all business.

## Remarkable Features Deliver Outstanding Performance

### **XShield Protective Glass**

No More scratched panels

XShield provides extra LCD protection with sophisticated visual flair. XShield is as hard as quartz (8H hardness) to protect the panel from scratch and enhance the display quality.

### **Multimedia Enhanced Speakers**

Enjoyment with media center

It brings multimedia and saves the desktop space. XM7 series has two built-in 2w stereo speakers and are well integrated into the stylish design.

### **HDCP**

Solution for HD content (Optional)

HDCP has been implemented across DVI interface. The HDCP specification provides a cost-effective and transparent method for receiving the highest quality digital entertainment content from HDMI compliant video sources.  
(Specified for DVI model)

### **Multi-Input Signal Selection**

Capable and convenient

Multi-Input provides one digital and two analog video ports. (PC, Notebook, DVD or game console) share the same one display with simple pressing for switching. No more remove and attach cables all the time.

### **Rapid Video Response**

Live action images stable

Fast action media such as gaming, DVD and video conferencing will playback smoothly thanks to the very fast video response time of the LCD panel.

### **High Brightness & Contrast**

Bringing images to life

Vibrant colors, and dark black levels will improve your graphics, photos, or presentations making them life-like and realistic. High contrast levels further define picture detail providing rich saturated images.

# XEROX®

# XM7-22w LCD Display

16:10 wide screen

4:3 conventional

## Complete Enjoyment.

XM7-22w perfectly presents the original 16:9 film\* details. No more unbearable big black bar.

## Wide Vision.

View applications side by side and reduce toggling between them.

## Specifications

# XM7-24W

## WIDE VISION AND FAST PACE

From its sleek, stealth-like design to its high-resolution images, the XM7-24w LCD display is an overachiever in computer displays. What's immediately noticeable about the XM7-24w is how well the matte black slim bezel blends with the background, while incorporating elegantly designed adjustment buttons. With **advance video technologies** that deliver bright, crisp graphic, sharp text, and smooth video playback, the XM7-24w is truly a leader in its class.

The XM7-24w has **wide-screen high resolution to give the additional computing space for use**. You can see more columns and rows of the spreadsheet in a view. Put Messenger and word processor side by side with the switching ease. Have more windows to check the stock quotations. With XM7-24w, you win the performance desired and deserved.

## Remarkable Features Deliver Outstanding Performance
