APAO 2024 MOST POPULAR POSTERS

The APAO Congress will present awards to the top 5 most popular posters as chosen by delegates. Use the stickers below to vote for your 5 favorite posters in the poster display area. Here's how!

Instructions

1. Remove a sticker from the sticker sheet available in your delegate bag.
2. Stick it next to the poster of your choice. Be careful not to cover the content of the poster.
3. Repeat steps 1 & 2 to use all 5 stickers!

The voting period for all posters at APAO 2024 is shown below. Be sure to use all your stickers before voting ends!

	Date	Time
Voting begins	February 22	09:00
Voting ends	February 24	11:00

APAO 2024 MOST POPULAR E-POSTERS & VIDEOS

The APAO Congress will also present awards to the top 5 e-posters and top 5 videos as chosen by delegates. Here's how to cast your vote!

1. Access the APAO 2024 e-posters and videos at <https://2024.apaophth.org/abstract/>.
2. Browse the submitted e-posters/videos by subspecialty or search for a specific e-poster/video by author name or title.
3. Select the e-poster/video of your choice. Click on the heart (❤️) to cast your vote. Change your mind? No worries! Just click the heart (❤️) again to withdraw your vote.
4. In order to record your vote, the online voting system will ask you to log in using your last name and registration barcode (printed on the APAO delegate badge).
5. Repeat steps 1-4 to use your remaining 4 votes in each category (e-poster/video).

Remember, the voting period for the APAO 2024 e-posters and videos ends at 11:00 am on Saturday, February 24, 2024. Be sure to vote before the deadline!

WELCOME MESSAGE

Congress President

APAO 2024 Bali Congress

Dear Friends and Colleagues,

It is our great pleasure to welcome you to the 39th Asia-Pacific Academy of Ophthalmology (APAO) Congress, held in conjunction with the 49th PERDAMI, or the Indonesian Ophthalmologists Association (IOA) Annual Meeting, at Bali Nusa Dua Convention Center, Indonesia, from February 22 to 25, 2024.

We are very honored that Bali has once again been chosen to host the prestigious APAO annual congress, which has now become the premier ophthalmic professional and scientific event. Our scientific program will be the best showcase for the theme of our APAO 2024 Congress – “Beyond All Limits” – with the clear objective of preparing today’s ophthalmic practitioners for the ever-evolving future of eye care. I hope you will find the APAO 2024 Congress to be one of the most exciting and enjoyable meetings ever as it broadens your scientific as well as travel horizons. The congress will surely increase your knowledge across the entire spectrum of ophthalmology.

Apart from stunning beaches and magical temples, Bali has virtually every kind of natural beauty which boasts a myriad of impressive volcanoes, world-class diving, diverse nightlife, and gorgeous waterfalls. Its panoramic range of tourist attractions caters for all types of visitors and interests.

By presenting the very latest scientific developments in ophthalmology accompanied by the best of Bali hospitality, we are committed to making the APAO 2024 a truly memorable experience for all.

With best regards,

A handwritten signature in black ink, appearing to read 'Dr. Mohamad SIDIK'. The signature is stylized with a large, sweeping initial 'D' and 'S'.

Dr. Mohamad SIDIK
President
APAO 2024 Congress

WELCOME MESSAGE

Scientific Program Committee Chair

APAO 2024 Bali Congress

Dear Friends and Colleagues,

On behalf of the Asia-Pacific Academy of Ophthalmology (APAO) and the Scientific Program Committee, it is my honor and pleasure to welcome you to the APAO 2024 Congress in Bali.

The congress covers various aspects of ophthalmology, from the basic, intermediate, and advanced skills to the prevailing hot topics. Under the theme of “Beyond All Limits,” the APAO 2024 Congress features over 700 internationally renowned speakers presenting the latest discoveries and ideas in various ophthalmic subspecialties, including visual sciences and clinical ophthalmology.

The APAO 2024 Congress provides an excellent showcase for world-renowned ophthalmic professionals to share their expertise and experience with clinicians, ophthalmic specialists, eye surgeons, and researchers from the Asia-Pacific region and globally. With a significant number of leading experts from across the globe speaking at this most important ophthalmology meeting in the Asia-Pacific region and beyond, participants are expected to gain insights into the latest scientific innovations, emerging trends of surgical techniques and treatments, as well as to meet like-minded peers and develop lifelong friendships.

I believe it would be great to take this opportunity to network and collaborate, and at the same time, to take advantage of all that Bali has to offer. I wish you all a wonderful stay in Bali and I look forward to seeing you in February 2024!

With best regards,

A handwritten signature in black ink, appearing to read 'Dennis Lam', written over a horizontal line.

Prof. Dennis LAM
Chair
APAO 2024 Scientific Program Committee

WELCOME MESSAGE

President

Asia-Pacific Academy of Ophthalmology

Dear Friends and Colleagues,

It is my immense honor and pleasure to welcome you to the 2024 Congress of the Asia-Pacific Academy of Ophthalmology (APAO) in Bali, Indonesia, from February 22 to 25, 2024.

Themed “Beyond All Limits,” the APAO 2024 Congress in Bali will bring together ophthalmologists from around the world, and it features over 700 internationally recognized speakers presenting their latest work and scientific innovations in the major ophthalmic subspecialties. An attendance figure of over 6,000 delegates is anticipated.

It is impossible to have a successful APAO Congress without the hard work of numerous individuals who selflessly devote many hours to its success. I would like to thank all for their prodigious efforts.

In addition to acquiring new knowledge and skills, the annual congress also provides delegates with an excellent opportunity to network and collaborate with peers and friends. Attendees can also enjoy beautiful and historic attractions, along with delicious cuisine and exciting nightlife in Bali.

I look forward to welcoming you to Bali where you will not only get the opportunity to learn more about the newest discoveries, techniques, and developments in ophthalmology, but also gain unforgettable memories of friendships made and renewed.

With best regards,

A handwritten signature in black ink, consisting of stylized, cursive letters that appear to be 'Ava HOSSAIN'.

Prof. Ava HOSSAIN
President
Asia-Pacific Academy of Ophthalmology

WELCOME MESSAGE

Secretary-General and CEO

Asia-Pacific Academy of Ophthalmology

Dear Friends and Colleagues,

It is both my honor and pleasure to welcome you to the 2024 Congress of the Asia-Pacific Academy of Ophthalmology (APAO), held in conjunction with the 49th PERDAMI, or the Indonesian Ophthalmologists Association (IOA) Annual Meeting at Bali Nusa Dua Convention Center, Indonesia, from February 22 to 25, 2024.

This year, the APAO 2024 Congress is featuring over 700 internationally recognized speakers presenting their latest work and scientific innovations in all ophthalmic subspecialties. The congress will have an attendance of over 6,000 delegates.

On behalf of APAO and our Member Societies, I would like to express our deepest heartfelt thanks to Dr. Mohamad Sidik, APAO 2024 Congress President, and our colleagues at the IOA, for organizing this distinctive meeting. I would also like to convey our deepest gratitude to Prof. Dennis Lam, APAO 2024 Scientific Program Committee (SPC) Chair and the SPC members, for their dedication and hard work, without which we would not be able to put together such an exceptionally educational and enjoyable scientific program.

In addition, we are truly grateful for your participation that has made all the preparatory efforts for this congress worthwhile.

I look forward to welcoming you all in person to this exciting and wonderful scientific meeting in Bali.

With warmest regards,

A handwritten signature in blue ink, appearing to be 'C. Tham', written in a cursive style.

Prof. Clement C THAM
Secretary-General and CEO
Asia-Pacific Academy of Ophthalmology

WELCOME MESSAGE

President

Indonesian Ophthalmologists Association

Dear Friends and Colleagues,

On behalf of the Indonesian Ophthalmologists Association - PERDAMI, it is a great pleasure and honor to warmly welcome you to the 39th Asia-Pacific Academy of Ophthalmology (APAO) Congress, held at the Bali Nusa Dua Convention Center from February 22 to 25, 2024 in Bali.

The development of medical technology in the field of ophthalmology and eye health services continues to change. Continuing education and training in all forms of development is crucial and important, to update their competencies and to provide the service quality and developments that all our members and all participants thrive on. Therefore, PERDAMI always supports all efforts to organize the seminars, congresses, courses, and trainings, which are ultimately aimed at reducing the global threat of vision impairment and avoidable blindness.

Furthermore, these activities of the 39th APAO Congress are critical to sharing ideas about how we can best advocate for our patients and improve eye health in our communities. We are able to meet and discuss with the experts in ophthalmology around the world and representatives from the boards of APAO, AAO, ICO and NEI.

This is the second APAO scientific meeting which will be held offline after the Covid-19 pandemic. Certainly, this meeting is eagerly awaited by participants, to meet friends and colleagues from all over the world.

Finally, I would like to thank all the speakers and the participants for your contribution to the congress. I wish you all great enjoyment and a wonderful stay in Bali!

With best regards,

A handwritten signature in black ink, appearing to read 'Budu MANNYU'. The signature is fluid and cursive.

Prof. Budu MANNYU

President

Indonesian Ophthalmologists Association - PERDAMI

WELCOME MESSAGE

Minister of Health

Republic of Indonesia

It is with immense honor and pleasure that I extend a warm welcome to all the esteemed delegates of the 39th Congress of the Asia-Pacific Academy of Ophthalmology (APAO). Indonesia takes great pride in hosting this distinguished event on the captivating island of Bali.

I appreciate the Indonesian Ophthalmologists Association (PERDAMI) for supporting the Indonesian Ministry of Health's initiative on "Transformation of Health Human Resources" by organizing scientific meetings aimed at enhancing the quality of our human resources.

The APAO Congress stands as an annual beacon, uniting ophthalmologists from across the Asia-Pacific region. Within the confines of this congress, researchers and specialists in the realm of ophthalmology convene to exchange ideas, share experiences, and offer profound insights. Since this event serves as a vital platform for disseminating the latest developments in ophthalmology, enriching our understanding of the science and art inherent in the prevention and treatment of eye problems is mandatory.

Contributions made during this congress are invaluable, propelling advancements in eye care and exerting a profound impact on the global management of health issues, particularly within the Asia-Pacific region.

I extend my best wishes to all the delegates. May the exchange of knowledge and experiences contribute to the improvement of eye care services on a global scale. I hope each delegate has a truly enjoyable and enriching time in Indonesia.

Best regards,

A handwritten signature in black ink, reading "Budi G. Sadikin". The signature is written in a cursive, flowing style.

Mr. Budi G. SADIKIN
Minister of Health
Republic of Indonesia

WELCOME MESSAGE

President

Academia Ophthalmologica Internationalis

Dear Esteemed Colleagues and Distinguished Guests,

On behalf of the Academia Ophthalmologica Internationalis (AOI), it is my utmost pleasure and honor to extend a warm welcome to all of you attending the 39th Annual Congress of the Asia-Pacific Academy of Ophthalmology (APAO 2024 Congress) on the enchanting island of Bali, Indonesia.

As President of AOI and a passionate advocate for ophthalmology advancements, I am thrilled to gather with such an esteemed group of professionals, researchers, and practitioners from around the globe. The APAO Congress has always been a pinnacle event in our field, fostering collaboration, knowledge exchange, and innovation. This year, in Bali, we anticipate an extraordinary event that will leave an indelible mark on the future of ophthalmology.

The AOI is honored to be the co-sponsor of the Congress, which gives us an excellent opportunity to meet top experts and professionals from across the world. It is an incredible platform to reconnect with old friends, meet new ones and share expertise and best practices. I look forward to fruitful discussions and presentations over the next four days, which will drive advancements and innovations in ophthalmology in Asia-Pacific and globally.

In addition to the scientific program, we have curated an array of social and cultural events that will allow you to experience the richness of Balinese traditions, savor its culinary delights, and form lasting connections with colleagues from around the world. We believe that the APAO Congress is not only an opportunity for professional growth but also a chance to create lifelong memories.

As ophthalmologists, we need to keep an open mind to gather and share new ideas. Through cross-fertilization of knowledge, we will constantly upgrade our practices and benefit patients. I trust that we will all learn from each other and take invaluable insights home.

Thank you, and I hope you have a rewarding and enjoyable time in Bali!

Sincerely,

A handwritten signature in black ink that reads "Richard L. Abbott". The signature is written in a cursive, flowing style.

Prof. Richard L. ABBOTT

President

Academia Ophthalmologica Internationalis (AOI)

HOST

Asia-Pacific Academy of Ophthalmology (APAO)

The Asia-Pacific Academy of Ophthalmology (APAO) is a supranational organization that welcomes participation from national, territorial, and subspecialty-based ophthalmic societies in the Asia-Pacific region.

Being the major driving force of ophthalmic development in the Asia-Pacific region, the APAO seeks to promote the science and art of ophthalmology in the Asia-Pacific region, eliminate preventable blindness through teaching, research and service, foster cooperation between various ophthalmological societies in different countries, and encourage collaboration with other international and regional ophthalmological organizations.

Accordingly, the APAO organizes an annual congress, co-organizes scientific meetings and conferences, publishes the *Asia-Pacific Journal of Ophthalmology*, recognizes ophthalmologists' achievements in research, education and blindness prevention, runs a leadership development program and an international fellowship program, offers training and learning opportunities to young ophthalmologists, and provides an online platform on which ophthalmologists from different parts of the world can interact and consult with one another.

LOCAL HOST

Indonesian Ophthalmologists Association (Perdami)

The Indonesian Ophthalmologists Association – Perkumpulan Dokter Spesialis Mata Indonesia (Perdami) is the professional organization of ophthalmologists in Indonesia, under the umbrella of the Indonesian Medical Association. Perdami was founded in Jakarta on July 5, 1964.

Its aim is to promote eye health and the development of ophthalmology in Indonesia. Perdami is responsible for improving the competence of Indonesian ophthalmologists, in line with advances in science and technology, and supporting the overall well-being of Perdami members.

Currently, there are 24 Perdami branches, consisting of 2610 members. The 2022 – 2025 Board of Council includes four bodies, namely the professional arm as Executive Body, chaired by President of Perdami, the academic arm known as the Indonesian College of Ophthalmology, the Honorary Board for Medical Ethics, and the Internal Auditor Board, which is held every three years.

Since 1996, Perdami has been conducting charity cataract surgeries nationwide, coordinated by the Cataract Blindness Prevention Section. Advocacy, fundraising activities and services for cataract and other eye health problems, including refractive disorders, glaucoma, diabetic retinopathy and childhood blindness are also among Perdami's activities.

Perdami also considers that it is important to provide data on blindness and visual impairment in Indonesia. With up-to-date and consistently renewed data, Perdami and the Indonesian government can map the problem of blindness and visual impairment properly and create timely strategies effectively and efficiently.

CO-SPONSOR

Academia Ophthalmologica Internationalis (AOI)

The Academia Ophthalmologica Internationalis (AOI) is a university-centered international organization committed to excellence in education, research, and culturally appropriate medical services to preserve and restore vision for people of the world. Its first meeting was held in Ghent, Belgium on April 10, 1976. Active membership is limited to 100 Chairs, each assigned a roman numeral from I to C. AOI Members are formally nominated and elected by the membership to fill a specific Chair once it becomes vacant. An ophthalmologist who has been engaged in the study, research, or practice of ophthalmology for at least 15 years and who has published not less than 100 scientific papers, reports, or books is eligible to be nominated for membership. Currently, our Active and Emeritus membership represents 35 countries around the world.

The current programs of AOI include the following:

1. A directory of international ophthalmology training programs on our website to serve as a resource to help support research capacity building in less developed countries.
2. Grants to support research and clinical fellowships offered through the Ophthalmology Foundation.
3. Organization and participation of clinical and research-oriented symposia by AOI members at educational meetings around the globe.

Throughout the world, 37 million people are blind and 295 million have moderate or severe visual impairment. Projections estimate that blindness and severe visual impairment will greatly increase in the years ahead. To address this problem, the Academia Ophthalmologica Internationalis (AOI), the International Council of Ophthalmology (ICO), and representatives of vision care organizations and industry formulated the International Ophthalmology Strategic Plan to Preserve and Restore Vision—Vision for the Future. This joint effort is supported by the Ophthalmology Foundation and closely related to and intertwined with The Global Initiative for the Elimination of Avoidable Blindness/Vision 2020—The Right to Sight, a multi-year program sponsored by the World Health Organization and the International Agency for the Prevention of Blindness.

11:30-12:00						
12:00-12:30		Break				
12:30-13:00						
13:00-13:30		Lunch Symposia (S) (13:00-14:00)	APAO LDP Alumni Reception (13:00 - 14:00)			
13:30-14:00						
14:00-14:30		Break				
14:30-15:00		APAO Scientific Sessions (14:30-16:00)	Wet Lab Sessions (S) (14:00 - 16:00)			
15:00-15:30						
15:30-16:00		Break				
16:00-16:30						
16:30-17:00		APAO Scientific Sessions (16:30-18:00)				
17:00-17:30						
17:30-18:00						
18:00-18:30						
18:30-19:00						
19:00-19:30						
19:30-20:00						
20:00-20:30		Award Ceremony II & Cultural Party (18:15 - 22:00)				
20:30-21:00						
21:00-21:30						
21:30-22:00						

S = Sponsored Program with no CME points

SCIENTIFIC SESSIONS

*The program schedule may be subject to change as required.
Please visit <https://2024.apaophth.org/program-schedule/> for any update.

CC = Challenging Cases FP = Free Paper IC = Instruction Course SYM = Symposium
VS= Video Symposium WS = Workshop PP = Paper Poster WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF Mengwi Rooms = BNDCC2-GF
Uluwatu Rooms = BNDCC1-GF Pecatu Halls = BNDCC2-GF
Kintamani Rooms = BNDCC1-MF Tanjung Benoa Hall = BNDCC2-1F
Singaraja Halls = BNDCC1-1F

DAY 1 – February 22, 2024 (Thursday)

Time	Venue	Subspecialty	Type	Theme
09:00 10:30	Uluwatu 7	Pediatric Ophthalmology and Strabismus	IC	Practical Management of Thyroid Eye Disease (TED)
	Uluwatu 1	Academia, Research, Teaching and Education in Ophthalmology	SYM	A Global Vision: Opportunities and Challenges for Building Human Capacity to Sustain Quality Eye Care
	Pecatu Hall	Cataract	SYM	Presbyopia: News in Management
	Singaraja 2	Retina (Surgical)	SYM	Updates in Vitreoretinal Surgery Technology and Techniques
	Kintamani 5	AI, Digital Innovation and Virtual Health	IC	How to Set Up a Virtual Glaucoma Clinic – The Singapore Experience
	Kintamani 7	Pediatric Ophthalmology and Strabismus	SYM	Prescribing Glasses in Children
	Uluwatu 2	Translational Research in Ophthalmology	SYM	[IOA-INARVOS Joint Symposium] Optimization of Functional Vision
	Singaraja 1	Refractive Surgery	IC	Refractive Lens Exchange and New Intraocular Lenses
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	[ACS Symposium] Advancements in Corneal Diagnosis and Treatment: A State-of-the-Art Overview
	Mengwi 3,5	Glaucoma	IC	The Quandary of a Failing Bleb: “Strike When the Bleb Is Hot”
	Uluwatu 6	Miscellaneous	WS	APAO Leadership Development Program (LDP) 2024-25 Orientation Class 1
	Uluwatu 4	Visual Sciences	SYM	The Confluence of Data Science and Visual Sciences
	Kintamani 1	Orbital and Oculoplastic Surgery	SYM	[APSOPRS Symposium] Clinical Features of Eyelid and Orbital Diseases in Asian Population: Bridging the Gap Between Asian and Western Patients

CC = Challenging Cases
VS= Video Symposium

FP = Free Paper
WS = Workshop

IC = Instruction Course
PP = Paper Poster

SYM = Symposium
WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF

Mengwi Rooms = BNDCC2-GF
Pecatu Halls = BNDCC2-GF
Tanjung Benoa Hall = BNDCC2-1F

DAY 1 – February 22, 2024 (Thursday)

Time	Venue	Subspecialty	Type	Theme
09:00	Kintamani 6	Ocular Imaging	SYM	Recent Updates on Ocular Imaging Approaches
10:30	Kintamani 2	Myopia	SYM	Pathologic Myopia and Its Consequences
	Mengwi 1,2	Glaucoma	SYM	[IOA-IGS Joint Symposium] Secondary Glaucoma
	Kintamani 3	Ocular Oncology and Pathology	IC	A to Z of Ocular Surface Tumours for General Ophthalmologists
10:30	Showcase Theater	Miscellaneous	PP	APAO Poster Discussion I
11:00	Singaraja 1	Retina (Surgical)	SYM	Macular Surgery
12:30	Uluwatu 7	Orbital and Oculoplastic Surgery	IC	Orbital Vascular Anomalies - Management Update
	Uluwatu 6	Miscellaneous	WS	APAO Leadership Development Program (LDP) 2024-25 Orientation Class 2
	Kintamani 1	Intraocular Inflammation, Uveitis and Scleritis	SYM	Detecting Pathogens and Evaluating Immune Response to Diagnose and Manage Uveitis: Current Approach and What Is Over the Horizon
	Uluwatu 2	AI, Digital Innovation and Virtual Health	FP	Rapid Fire AI, Digital Innovation and Virtual Health Update Session (1)
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	Advances in Corneal/Ocular Surface Therapy
	Kintamani 2	Pediatric Ophthalmology and Strabismus	SYM	Pediatric Anterior Segment Disorders
	Kintamani 5	Translational Research in Ophthalmology	SYM	Translational Research in Diagnostics and Treatments for Eye Diseases
	Kintamani 6	AI, Digital Innovation and Virtual Health	SYM	Emerging Trends for AI and Robotics in Ophthalmology
11:00	Pecatu Hall	Cataract	SYM	Complex Cataracts
12:30	Mengwi 3,5	Glaucoma	FP	Rapid Fire Glaucoma Update Session (2)

CC = Challenging Cases FP = Free Paper IC = Instruction Course SYM = Symposium
 VS= Video Symposium WS = Workshop PP = Paper Poster WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF Mengwi Rooms = BNDCC2-GF

 Kintamani Rooms = BNDCC1-MF Tanjung Benoa Hall = BNDCC2-1F
 Singaraja Halls = BNDCC1-1F

DAY 1 – February 22, 2024 (Thursday)

Time	Venue	Subspecialty	Type	Theme
	Mengwi 1,2	Retina (Medical)	FP	Rapid Fire Retina (Medical) Update Session (3)
	Kintamani 7	Neuro-Ophthalmology	SYM	Controversies in Neuro-Ophthalmology
	Kintamani 3	Ocular Oncology and Pathology	SYM	Retinoblastoma
	Singaraja 2	Glaucoma	SYM	Clinical Debates in Glaucoma
	Uluwatu 1	Ophthalmic Epidemiology and Prevention of Blindness	SYM	[IOA-INACOS Joint Symposium] 2030 in Sight: Where Are We Now?
	Uluwatu 4	Myopia	FP	Rapid Fire Myopia Update Session
15:15	Pecatu Hall	Miscellaneous	SYM	APAO Plenary Session I
16:45				
16:45	Pecatu Hall	Miscellaneous	SYM	APAO Plenary Session II
18:15				

DAY 2 – February 23, 2024 (Friday)

Time	Venue	Subspecialty	Type	Theme
09:00	Uluwatu 2	Academia, Research, Teaching and Education in Ophthalmology	FP	Rapid Fire Academia, Research, Teaching and Education in Ophthalmology & Visual Sciences Update Session
10:30				
	Kintamani 6	Ocular Imaging	SYM	Implementing Ocular Imaging Technologies Into Clinical Practice
	Singaraja 1	Refractive Surgery	SYM	An Update in Corneal Refractive Surgery: What Is Known and What Is Coming
	Mengwi 1,2	Pediatric Ophthalmology and Strabismus	SYM	[IOA-INAPOSS Joint Symposium] The Scoop of Handling POS Cases

CC = Challenging Cases
VS= Video Symposium

FP = Free Paper
WS = Workshop

IC = Instruction Course
PP = Paper Poster

SYM = Symposium
WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF
Uluwatu Rooms = BNDCC1-GF
Kintamani Rooms = BNDCC1-MF
Singaraja Halls = BNDCC1-1F

Mengwi Rooms = BNDCC2-GF
Pecatu Halls = BNDCC2-GF
Tanjung Benoa Hall = BNDCC2-1F

DAY 2 – February 23, 2024 (Friday)

Time	Venue	Subspecialty	Type	Theme
09:00 10:30	Kintamani 2	Myopia	SYM	[APMS Symposium] Myopia Control: New Treatment
	Pecatu Hall 3, 5	Retina (Surgical)	SYM	Management of Vitreoretinal Surgery Complications
	Pecatu Hall 1, 2	Retina (Medical)	SYM	Diabetic Macular Edema (DME)
	Kintamani 7	Neuro-Ophthalmology	CC	Challenging Cases in Neuro-Ophthalmology
	Uluwatu 1	Ophthalmic Epidemiology and Prevention of Blindness	SYM	“Executive Summary”: Everything You Need to Know About Novel Approaches to Global Eye Health and Epidemiology in South-East Asia
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	[Cornea Society Symposium] FECD: From Surgery to Medical Management
	Singaraja 2	Cataract	SYM	Indications and Techniques for IOL Exchange
	Kintamani 1	Ocular Trauma	SYM	[APOTS Ophthalmic Trauma Program] In a Blink: Understanding Ophthalmic Trauma
	Kintamani 3	Ocular Oncology and Pathology	IC	Retinoblastoma 2024 - They Live and See
	Mengwi 3,5	Glaucoma	CC	[IOA-IGS Joint Symposium] Difficult Cases of Secondary Glaucoma
	Uluwatu 7	Orbital and Oculoplastic Surgery	IC	Lower Eyelid Blepharoplasty- Techniques and Challenges
	Uluwatu 4	Visual Sciences	SYM	Global Collaboration in Eye Research and Participation in the Asia-Pacific Region
	Uluwatu 6	Miscellaneous	WS	APAO Leadership Development Program (LDP) 2024-25 Orientation Class 3
10:30 11:30	Showcase Theater	Miscellaneous	SYM	APAO Quiz

CC = Challenging Cases
VS= Video Symposium

FP = Free Paper
WS = Workshop

IC = Instruction Course
PP = Paper Poster

SYM = Symposium
WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF

Mengwi Rooms = BNDCC2-GF
Pecatu Halls = BNDCC2-GF
Tanjung Benoa Hall = BNDCC2-1F

DAY 2 – February 23, 2024 (Friday)

Time	Venue	Subspecialty	Type	Theme
11:00 12:30	Uluwatu 7	Refractive Surgery	FP	Rapid Fire Refractive Surgery Update Session
	Uluwatu 6	Miscellaneous	WS	APAO Leadership Development Program (LDP) 2024-25 Orientation Class 4
	Kintamani 6	AI, Digital Innovation and Virtual Health	SYM	AI in Ophthalmology: Crossing the Valley of Death
	Kintamani 3	Ocular Oncology and Pathology	IC	Ocular Surface Tumors: Comprehensive Insights and Management Strategies
	Kintamani 1	Orbital and Oculoplastic Surgery	IC	Tips and Tricks on Thyroid Eye Disease (TED)
	Uluwatu 4	Pediatric Ophthalmology and Strabismus	FP	Rapid Fire Pediatric Ophthalmology and Strabismus Update Session (2)
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	Next Generation Eye Banking
	Uluwatu 2	Ocular Oncology and Pathology	FP	Rapid Fire Ocular Oncology and Pathology Update Session (2)
	Kintamani 7	Translational Research in Ophthalmology	SYM	[AOI Symposium] Areas Where Basic Science Has Given New Insight Into Pathobiology of Ocular Diseases
	Uluwatu 1	Cataract	SYM	[IOA-INASCRS Joint Symposium] Cataract Surgery From Simple to Advanced Settings
	Kintamani 2	Intraocular Inflammation, Uveitis and Scleritis	SYM	[APAO WIO Symposium] Ocular Infections: What We Can't Afford to Miss!
	Pecatu Hall 1, 2	Retina (Medical)	SYM	Proliferative Diabetic Retinopathy (PDR)
	Kintamani 5	Neuro-Ophthalmology	IC	A Patient with Diplopia: A Case-based Approach
	Mengwi 3,5	Ocular Trauma	IC	Expert Guided Approach to Ocular Trauma
	Pecatu Hall 3, 5	Glaucoma	SYM	New Drugs, New Devices, and New Products
	Singaraja 2	Retina (Surgical)	SYM	Pediatric Retinal Surgery

CC = Challenging Cases
VS= Video Symposium

FP = Free Paper
WS = Workshop

IC = Instruction Course
PP = Paper Poster

SYM = Symposium
WLC = Wet Lab Course

Showcase Theater = BNDCC1-GF

DAY 2 – February 23, 2024 (Friday)

Time	Venue	Subspecialty	Type	Theme
14:30 16:00	Kintamani 1	Intraocular Inflammation, Uveitis and Scleritis	SYM	Multimodal Imaging (MMI) to Refine Differential Diagnosis and Monitor Response to Treatment in Infectious and Non-infectious Uveitis
	Singaraja 1	Refractive Surgery	CC	What I Did Wrong and How I Solved It
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	Improving Outcome in Ocular Surface Diagnosis and Management
	Uluwatu 2	Translational Research in Ophthalmology	SYM	[IOA-INARVOS Joint Symposium] Panel Discussion
14:30 15:00	Showcase Theater	Miscellaneous	PP	APAO Poster Discussion III
14:30 16:00	Uluwatu 7	Orbital and Oculoplastic Surgery	IC	Oculofacial Aesthetics: Non-Surgical Periocular Rejuvenation
	Uluwatu 4	Visual Sciences	SYM	Illuminating Perspectives: Unraveling the Mechanisms of Light Therapy Strategies in Ophthalmology
16:30 18:00	Kintamani 5	Translational Research in Ophthalmology	SYM	Translational Research in Imaging, Digital Ophthalmology, and Artificial Intelligence
	Mengwi 6,7,8	Cornea, Dry Eyes, External Eye Diseases and Eye Banking	SYM	[ADES Symposium] Recent Advances in Basic Science and Clinical Practice in Dry Eye in Asia
	Uluwatu 4	Intraocular Inflammation, Uveitis and Scleritis	FP	Rapid Fire Intraocular Inflammation, Uveitis and Scleritis Update Session
	Singaraja 1	Refractive Surgery	IC	Ocular Surface in Refractive and Premium IOL Surgery
	Uluwatu 1	Ophthalmic Epidemiology and Prevention of Blindness	SYM	“Executive Summary”: Everything You Need to Know About Novel Approaches to Global Eye Health and Epidemiology in Bangladesh, India, Nepal, Pakistan, and Sri Lanka

CC = Challenging Cases

CONGRESS INFORMATION

The following information is to facilitate your participation in the 39th APAO Congress in Bali, Indonesia. If you have any queries during the Congress or require assistance, please visit our Registration Counter.

Event Name

The 39th Asia-Pacific Academy of Ophthalmology Congress in conjunction with the 49th Indonesian Ophthalmologists Association Annual Meeting.

Congress Venue

Bali Nusa Dua Convention Center (BNDCC)
Kawasan Terpadu ITDC NW/1 Nusa Dua – Bali 80363, Indonesia

Registration Counter

The APAO 2024 Congress Registration Counter is located in Nusa Dua Hall Lobby, Ground Floor, BNDCC1 with the following opening hours:

Date	Time
February 21	10:00 – 17:00 (Exhibitors & Groups only)
	14:00 – 19:00 (Delegates)
February 22 – 24	07:30 – 18:00 (Open to all)
February 25	07:30 – 12:00 (Open to all)

On-Site Payments

On-site payments can be made in cash or by credit card at the Registration Counter during its opening hours. Cash and credit card payments are accepted in the local currency (Indonesian Rupiah) only.

Cheques are not accepted.

Name Badges

A week before the start of the Congress, all registered delegates will receive an enrollment letter by email. In the email, please find a QR code, which will allow you to access the scientific session rooms before name badges are printed on-site.

When you arrive at the Registration Counter, each delegate will receive a name badge, which serves as the official pass to enter:

- all Scientific Sessions;
- the Exhibition Hall; and
- the Opening Ceremony of APAO 2024

Delegates should wear their badges at all times during the Congress.

All badges are nontransferable. Reissuing of name badges for delegates and accompanying persons is available at the Registration Counter. An administrative fee of US\$20 may be incurred for reissuing a delegate badge.

Accompanying persons and exhibitors may enter only the Exhibition Hall and the Opening Ceremony.

Delegate Bag Collection

Delegate bags are available at the Registration area. You can collect your delegate bag once your name badge is issued.

Ribbon Collection

Ribbons are available for pickup at the Registration area.

Dress Code

Please wear business attire or your national costume at the Opening Ceremony.

Business casual is appropriate at Congress sessions and social functions.

Tourism Board Counter

A Tourism Board Counter will be available at Booth J023 in Jimbaran Lobby, BNDCC1 to assist you with information about Bali and booking trips in and around Bali during your stay.

APAO Congress App

The APAO Congress App is a user-friendly, interactive tool to enhance your Congress experience. The app features all the scientific sessions and instruction courses, posters, e-posters, video abstracts, general information, a floor plan, and a city map. It also allows you to interact with session speakers or panelists in real-time by posting questions in the 'Q&A' session of each symposium.

The app can be downloaded by scanning one of these QR codes:

ANDROID

IOS

You are recommended to update the app regularly. If you need assistance downloading it or navigating its functions, please visit the Registration Counter.

Final Books (Scientific Program/ Abstract Book/ Exhibition Directory)

The PDF copies of the Final Books (Scientific Program/ Abstract Book/ Exhibition Directory) are available online. Please visit <https://2024.apaophth.org/publications/>, or scan the QR code below:

As part of our green policy, there will be no hard copies of the Abstract Book and the Exhibition Directory. A printed excerpt of the Scientific Program will be distributed, while the full book is available online.

Speaker Ready Room

Speakers are required to check in and upload their PowerPoint presentations at the respective Speaker Ready Room 24 hours before their scheduled presentations.

The computers in the Speaker Ready Room will have the exact same configuration as those in the session rooms. It is imperative that you review your presentation in the Speaker Ready Room, where our technicians will help resolve any compatibility or formatting issues.

The PowerPoint and video files you have uploaded onto the computer in the Speaker Ready Room will be automatically transmitted to the laptop computer at the podium before your session begins.

The Speaker Ready Room is located at Uluwatu 5, Ground Floor, BNDCC1, with the following opening hours:

Date	Time
February 21	14:00 – 19:00
February 22 – 24	07:30 – 18:00
February 25	07:30 – 12:00

Scientific Posters

Paper Posters

Paper posters are exhibited in the following areas of the Congress venue:

- PO-001—PO-080: Nusa Dua Hall, BNDCC1-GF
- PO-081—PO-200: Jimbaran Hall Lobby, BNDCC1-GF
- PO-201—PO-490: Singaraja Hall Lobby, BNDCC1-1F
- PO-491—PO-650: Kintamani Hall Lobby, BNDCC1-MF

Poster discussion sessions will be conducted at the Showcase Theater in Nusa Dua Hall, Ground Floor, BNDCC1, at the following times:

Date	Time
February 22	10:30 – 11:00
February 23	12:00 – 12:30; 14:30 – 15:00
February 24	09:00 – 09:30

Delegates can use the image scanner to scan the posters. They will be directed to an audio recording made by the author where applicable.

E-Posters & Videos

Delegates may visit the E-Poster and Video Stations located in Nusa Dua Hall and Singaraja Hall Lobby. They can also view e-posters via the Congress App. Viewers will be directed to an audio recording made by the author where applicable.

Voting for the Most Popular Posters/ e-Posters/ Videos

Delegates can vote for 5 of their favorite posters using the stickers provided in the delegate bag, and vote for 5 of their favorite e-posters and videos via the platform in the Exhibition Hall and/or the Congress App. Voting begins on February 22 at 09:00 and ends on February 24 at 11:00.

APAO-APOIS Imaging Competition

Images from the APAO-APOIS Imaging Competition will be displayed at the E-Poster Station located in the Exhibition Hall in BNDCC1. The award presentation will take place at Award Ceremony (I) on February 23 from 16:00-17:00.

Exhibition Time

Exhibitions are open during the following times:

Date	Time
February 22 – 24	09:00 – 18:00
February 25	09:00 – 12:30

Exhibition Fun Game

A fun game is open for participation during the Congress period. Take home a Congress souvenir by collecting an e-stamp from every exhibitor! Download our Congress App and click the game button on the home page, then scan the QR code at each exhibitor booth to get the e-stamps.

You may win one of the prizes below:

- 40 booths – APAO 2025 souvenirs (first come, first served)
- 80 booths – Bali souvenirs (first come, first served)
- 120 booths – Lucky draw tickets (5 top prizes: Apple Watch)

Prize collection points:

- APAO 2025 souvenirs – APAO2025 (Booth P014)
- Bali souvenirs – Tourism Board Counter (Booth J023)
- Lucky draw tickets – Delegate Bag and Ribbon Counter

Charging Station

Delegates can use the charging facilities located in the Exhibition Hall in BNDCC1.

Sponsored by

Morning and Afternoon Tea

Light refreshments will be served at the following times and locations:

Date	Time	Coffee Station locations
February 22 – 24	Morning tea break: 10:30 – 11:00	Exhibition Hall, BNDCC1-GF
	Afternoon tea break: 16:00 – 16:30	South Lobby, BNDCC1-GF Pecatu Lobby, BNDCC2-GF
February 25	Morning tea break: 10:30 – 11:00	

YO Lounge

The YO Lounge is located at the VIP Lounge on Ground Floor, BNDCC2. Delegates with YO ribbons are welcome to access it for free.

Certificates of Attendance

Certificates of Attendance can be downloaded through the APAO Congress system (<http://congress.apaophth.org/>) after the Congress. Please log in with the same email address that you used to register for the Congress.

European Accreditation Council for Continuing Medical Education (EACCME®) CME Points

The 39th Asia-Pacific Academy of Ophthalmology Congress, Bali, Indonesia, February 22-25, 2024, has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 18.0 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

The EACCME® awards ECMEC®s on the following basis: 0.5 ECMEC® for 30 minutes of CME with a maximum of 8 ECMEC®s per day.

Breakdown of ECMEC®s per day for APAO 2024 Congress:

- February 22 – 3.00
- February 23 – 6.00
- February 24 – 6.00
- February 25 – 3.00

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation in the event once he/she has completed the feedback form.

Congress Photography

Some of the sessions will be filmed and audio recorded. A photographer will be present over the course of the Congress to take photos for APAO's record and use on its website, publications, social media platforms and other communication channels.

If you have any concern with your photograph being taken or session recorded, please contact the APAO office.

Policies

No Smoking – Smoking is strictly prohibited in all session rooms, meetings, and exhibition areas. Your cooperation is appreciated.

Mobile Phones – Please respect presenters and your fellow delegates by ensuring that your mobile devices are in silent mode during sessions.

Photography/ Videography in the Exhibition Hall – Attendees wishing to take photos or videos of an exhibit must obtain permission from the relevant company beforehand.

Photography/ Videography of Scientific Sessions – Photography and video recording of scientific sessions are strictly prohibited, except for media representatives who have obtained prior permission from APAO.

Congress on Demand

Please note that all sessions will be recorded for Congress on-demand (<https://video.apaophth.org>) so that all registered delegates can have FREE access 24/7 and catch up with the sessions they have missed.

The recordings of both invited and submitted sessions will be available after the Congress, starting from March 1. Free access will end on April 30. After this, delegates may keep their access by purchasing credits.

GENERAL INFORMATION

Venue Information

Bali Nusa Dua Convention Center (BNDCC)

Kawasan Terpadu ITDC NW/1 Nusa Dua – Bali 80363, Indonesia

General Venue Enquiries: +62-361-773000

Located within the Nusa Dua ITDC complex, the Bali Nusa Dua Convention Center (BNDCC) offers over 4,000 rooms in 4 and 5-star international chain hotels. With fully equipped meeting rooms and offices, BNDCC ensures seamless hosting of world-class events, including break-out sessions, luncheons, dinners, workshops, and press conferences.

Site Map

Getting to Bali Nusa Dua Convention Center (BNDCC)

BNDCC, the venue for APAO 2024, is located approximately 12km or 20 minutes from I Gusti Ngurah Rai Airport (DPS) through the toll road.

For more information about the airport (DPS) please visit <https://www.baliairport.com/>

The most convenient transportation modes you can use to go to BNDCC from the airport are:

Taxi

All taxis use a meter with a minimum payment of Rp120,000 and a fare of Rp6,500/km.

Ride-hailing Apps

Two online transportation applications, Grab and Gojek, are affordable alternatives to taking a cab. You may download one or both of these apps via AppStore, Play Store, or AppGallery.

Visiting Indonesia

Time zone

Bali is in the Central Indonesian Time (WITA) time zone: + 08:00 hour GMT/UTC.

Weather

Bali is located just a few degrees south of the equator, in the tropical climate zone. The weather is mostly sunny, hot, and humid throughout the year. As the Congress falls within the typical rainy season (between November and March), you are recommended to bring along an umbrella or a raincoat. It usually rains for a couple of hours, with sunshine for the rest of the daytime.

The daily temperature can reach 30°C (86°F) from October to March, with a daily average temperature of around 27 °C (81°F). In the rainy season, there is muggy heat due to high humidity.

Transportation

It is easy to get around in Bali. You can rent bicycles, motorbikes, or cars. Alternatively, you can take a conventional taxi (Blue Bird) or hire a car with a driver-guide. Tell the driver your desired route and negotiate a fee.

An important virtue on the road in Bali is patience, as traffic can be congested at peak hours. Ceremonial processions often take up the entire road so if you are caught behind a procession, enjoy the colorful experience!

Languages

Locals communicate with each other in Indonesian and Balinese, while English is the most widely spoken foreign language.

Electrical Appliances

The standard voltage throughout Indonesia is 230 V with a standard frequency of 50 Hz. Socket types C and F are used.

Internet and Connectivity

Data SIM cards are available from local merchants almost everywhere. Wi-fi connection is usually available at hotels, restaurants, and large shopping centers.

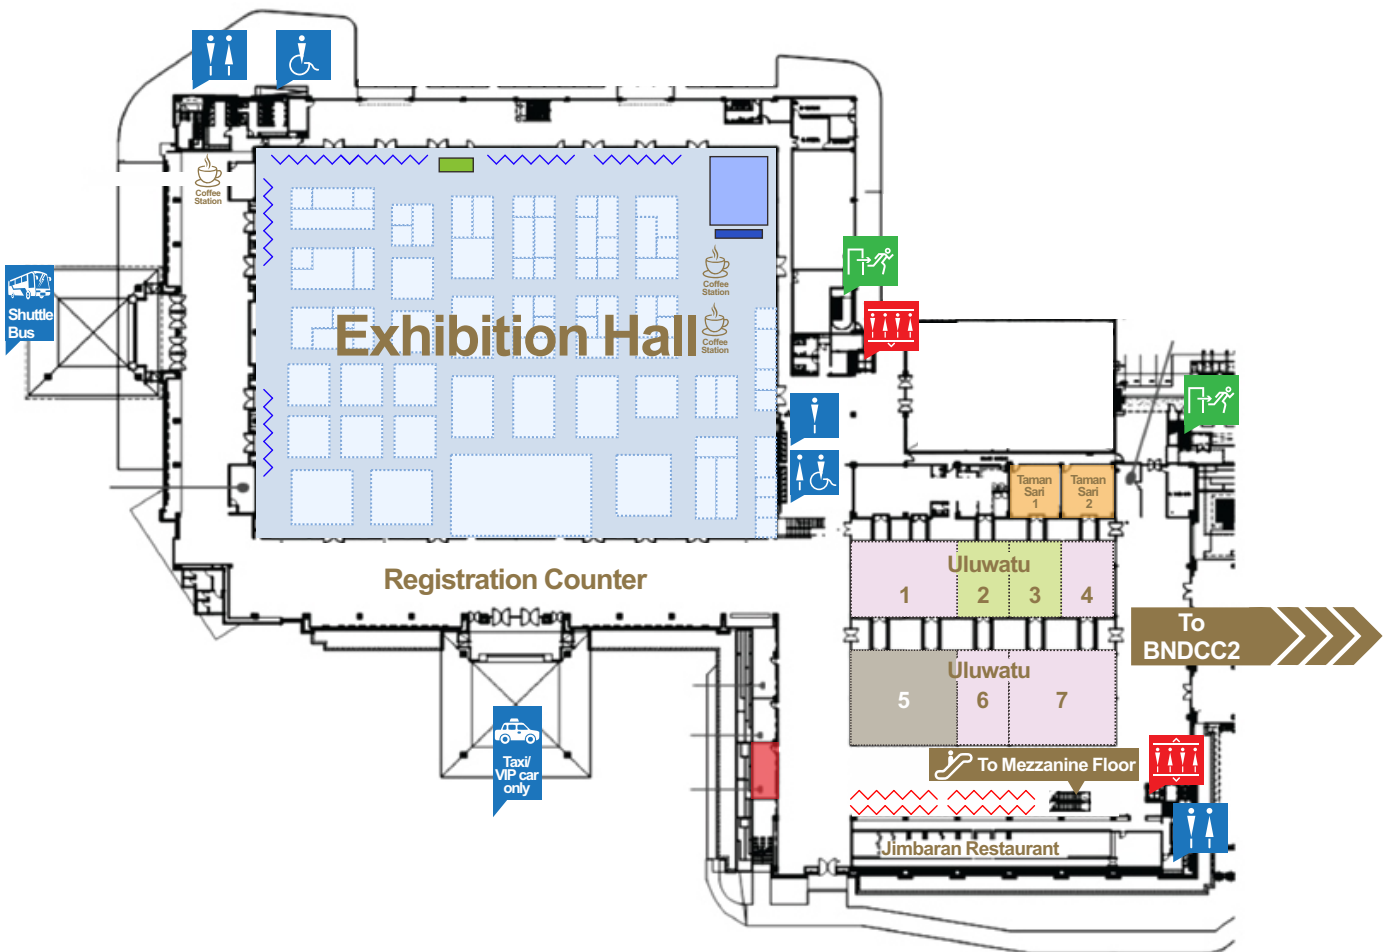

Tipping

Although tipping is not mandatory for every service, it is always appreciated. Depending on the level of service provided, tips range from about 5% to 10% of the bill.

FLOOR PLAN

BNDCC1 Ground Floor

- Scientific Session only
- Wetlab
- Speaker Ready Room
- Showcase Theater
- Poster Panel
- Meeting Room
- APAO Secretariat Room
- Charging Station

- Scientific Session only

SOCIAL PROGRAMS

Opening Ceremony

Date: February 22, 2024 (Thursday)

Time: 14:15-15:15

Venue: Pecatu Hall, BNDCC2-GF

Open to all delegates

Presidential Dinner

Date: February 22, 2024 (Thursday)

Time: 19:00 – 21:30

Venue: Grand Gamelan Ballroom, Sofitel Bali Nusa Dua

Transportation: Shuttle buses will run from BNDCC to the venue between 17:30 and 19:30.

By invitation only

Women in Ophthalmology (WIO) Luncheon

Sponsored by

Date: February 23, 2024 (Friday)

Time: 12:45 – 14:15

Venue: Legian Rooms 1 & 2, BNDCC2-MF

By invitation only

Award Ceremony (I)

Date: February 23, 2024 (Friday)

Time: 16:00 – 17:00

Venue: Tanjung Benoa Hall, BNDCC2-1F

Open to all delegates

Program:

Presentation of:

- Senior Achievement Awards
 - Achievement Awards
 - APAO Fellowships
 - APAO – APOIS Imaging Competition awards
 - Travel Grants
-

Young Ophthalmologists' Night

Sponsored by

Date: February 23, 2024 (Friday)

Time: 18:30-20:30

Venue: Manarai Beach House, Sofitel Bali Nusa Dua

By invitation only

Fundraising Run

Date: February 24, 2024 (Saturday)

Time: 06:30 – 08:15

Route: From BNDCC Main Entrance to Peninsula Water Blow and back to BNDCC Main Entrance

Open to all delegates

Leadership Development Program Alumni Reception

Date: February 24, 2024 (Saturday)

Time: 13:00-14:00

Venue: Legian Rooms 1 & 2, BNDCC2-MF

For APAO LDP alumni

APAO Cultural Party and Award Ceremony (II)

Date: February 24, 2024 (Saturday)

Time: 18:15-22:00

Venue: Taman Bhagawan

Fee: US\$150

Transportation: Shuttle buses will run from BNDCC to the venue between 17:30 and 20:00.

Open to all delegates

*APAO Cultural Party tickets required***

Program:

Cultural Party

Presentation of:

- Distinguished Service Awards
- Outstanding Service in Prevention of Blindness Awards
- Abstract Awards
- Charity Run Donation Cheque

APAO NAMED AWARDS & LECTURES

JOSE RIZAL INTERNATIONAL MEDAL

The Jose Rizal International Medal recognizes outstanding personalities from outside the Asia-Pacific region whose contributions have been exceptionally valuable to ophthalmological developments in the Asia-Pacific region.

Martine JAGER
MD, PhD
The Netherlands

Prof. Martine Jager is Professor Emeritus of Ophthalmology at Leiden University, The Netherlands.

After attending medical school and obtaining a PhD in immunology from Leiden University, she trained in Ophthalmology at the University of Amsterdam. Subsequently, she did a research and clinical fellowship at the Bascom Palmer Eye Institute in Miami. She then returned to Leiden, where she set up an anterior segment clinic and a laboratory to study the role of the immune system in corneal rejection, and the potential to use the immune system to reject ocular tumors. With her work, she demonstrates how knowledge of basic immune mechanisms in corneal disease and ocular oncology helps to develop new therapies. One of her major contributions is finding a link between tumor genetics and inflammation in uveal melanoma and identifying the influence of eye color on prognostication. Her work shows that research performed on one population may not be representative of another population, and that genetic differences between people may greatly influence the outcome of diseases.

In 1998, she later became a visiting professor at the Schepens Eye Research Institute, Harvard Medical School, Boston, and in 2012 at Peking University, Beijing, where she has been teaching “How to set up a research program” for many years.

She has continuously held grants for over 35 years and supervised over 200 students, connecting people and stimulating enthusiasm for research in students and colleagues alike. She has published over 300 original papers. In addition, she has helped in many organizations and highlights of her service career were the different positions in the Association for Research in Vision and Ophthalmology (ARVO), including its presidency, where she helped develop ARVO Chapters in Europe, India, and China, and her position as Secretary General of the Academia Ophthalmologica Internationalis, where she has been stimulating global participation. She has been a major force in the organization of international conferences, including the oncology program at the World Congress of Ophthalmology and each meeting of the Asia-Pacific Academy of Ophthalmology since 2010. She is recognized as a role model for improving equality and diversity in every organization that she has been part of. This includes having good representation of the Asia-Pacific region on international committees.

Progress in eye care through collaboration is the hallmark of the contributions of Prof. Jager to ophthalmology, both in the fields of clinical care, research and mentorship. She

is known for connecting people from different continents and many people in the Asia-Pacific region have become personal friends. She developed a close association with the University of Sydney with a decade-long collaboration with Dr. Michele MADIGAN, which helped many Dutch students to experience Australian culture.

Furthermore, a series of international students have worked in Prof. Jager's lab in Leiden (some getting PhD) and subsequently returned to their home country to set up their own laboratory. She has mentored many Asian students, also becoming a member of the Asian Leadership Course for Young Ophthalmologists.

Overall, Prof. Jager has been a major force in stimulating the development and international position of ophthalmology in the Asia-Pacific region.

Jose Rizal International Medal Lecture: Different People, Different Diseases

APAO Plenary Session I
Date: February 22, 2024
Time: 15:15-15:35
Venue: Pecatu Hall (BNDCC2-GF)

On the occasion of receiving the Jose Rizal International Medal: Global diversity

It is a very great honour to receive the prestigious APAO Jose Rizal International Medal during the Congress of the Asia-Pacific Academy of Ophthalmology. It is named for the ophthalmologist and writer, who planted the seeds of independence in the minds of the people of the Philippines and was executed for his ideas. Independence from Spain: how intriguing that Leiden University will in 2025 celebrate that it was founded because the citizens of Leiden fought bravely for their independence from Spain. I have had the pleasure of visiting many countries in the Asia-Pacific region and seeing the rise in education and science. It is fantastic to see how this has led to improved care for patients with eye diseases, and it has been a great experience for me to see the changes with my own eyes.

One of the specialties of ophthalmology is ocular oncology: learning about the behaviour of tumors around and in the eye, their diagnosis and their treatment. Uveal melanoma is considered the most common intraocular malignant tumor in adults, with about 50% of patients developing metastases. Risk factors to develop this tumor include blue/green eyes, having fair skin and a tendency to sunburn. The most important risk factors associated with the development of metastases are loss of chromosome 3/BAP1 gene expression and having extra copies of chromosome 8q in the tumour.

This information is typical for papers about uveal melanoma and is obtained from studies performed in Northern Europe and North America, where many people have light eyes. While in that part of the world, 4-12 people/million may develop uveal melanoma each year, numbers are very different elsewhere: in Africa 0.3, and in Asia 0.4 people/million per year (Hu D-N, AJO 2005). However, even between Caucasians, numbers vary depending on ancestry: the numbers are 1.7 for Hispanics and 6 for non-Hispanic whites.

What differs between populations is pigmentation, and we decided to look at Caucasian individuals who have developed a uveal melanoma and study the relation between eye colour and prognosis. We did not see a difference in the development of metastases. However, eye colour influenced known prognostic parameters: the loss of one chromosome 3/BAP1 had a much greater influence on the development of metastases in individuals with blue and green eyes than those with brown eyes, while extra copies of chromosome 8q were only relevant in the light-eyed persons and not the brown-eyed Caucasians (Wierenga APA Ophthalmology 2022). The same difference was seen in light versus dark tumor pigmentation (Gelmi MC Ophthalmol Sci 2023). We do not know whether this finding extends to other populations with brown eyes.

These data indicate that different populations may have different risk factors, and that the studies performed in one population may not predict what will happen in another population. Each country should therefore perform its own outcome studies and use its own data to predict what will happen to its own patients. It is time to look at global diversity in ophthalmology.

DE OCAMPO LECTURE

The De Ocampo Lecture is the highest award for excellent academic achievements in clinical and/or basic eye research. Speakers are ophthalmologists from the Asia-Pacific region. The De Ocampo Lecture is named after Geminiano de Ocampo, the founding president of the APAO.

Jason YAM
MD (CUHK), FCOphth HK
Hong Kong, China

Dr. Jason Yam is Associate Professor at the Chinese University of Hong Kong (CUHK), Dean of General Education at Chung Chi College at CUHK, Head of Paediatric Ophthalmology and Strabismus Services at the Hong Kong Eye Hospital, and Head of Ophthalmology Department at the Hong Kong Children's Hospital. He is also Director of CUHK Jockey Club Myopia Prevention Programme.

Internationally, Dr. Yam serves as the Secretary-General of Asia-Pacific Strabismus and Paediatric Ophthalmology Society (APSPPOS), Chair of Training and Education Committee, and Chair of Myopia Committee of International Paediatric Ophthalmology and Strabismus Council (IPOSC), Council Member of Asia Pacific Academy of Ophthalmology (APAO), Council Member of Asia-Pacific Myopia Society (APMS), and many other international academic positions. Locally, he serves as Vice President of Hong Kong Ophthalmological Society (HKOS), and Editor-in-Chief of the College of Ophthalmologists of Hong Kong (COHK). He served as the Congress President of the Inaugural APSPPOS Congress 2017. In 2021, he worked with other colleagues to initiate the IPOSC Joint Webinar Programme, which organized a monthly joint webinar with more than 15 countries including China, United States, Egypt, Lebanon, Israel, Turkey, Russia, United Kingdom, Italy, Mexico, Brazil, Argentina, India, Philippines, Japan, and South Korea, etc.

Dr. Jason Yam is a dedicated researcher on myopia and children's eye disease. He is the Principal Investigator of the Low-concentration Atropine for Myopia Progression Study (LAMP-1), Low-concentration Atropine for Myopia Prevention (LAMP-2), and the Hong Kong Children Eye Study (HKCES), with research funding over 15 million USD, and more than 150 publications. LAMP-1 study is the first randomized placebo-controlled trial of low-concentration atropine eye drops to control myopia progression. Dr. Yam's team found that 0.05% atropine eye drops are the optimal treatment for myopia control in reducing the progression by 67% without adverse effects. The works have been published in a series of 5 articles in *Ophthalmology*, and have contributed to the clinical guideline in myopia control using low-concentration atropine. LAMP-2 study is the first randomized placebo-controlled trial of low-concentration atropine eye drops to prevent myopia. Dr. Yam's team revealed that 0.05% atropine can prevent myopia onset in children by 47% without adverse effects over two years. The results have been published in *JAMA* in 2023. Hong Kong Children Eye Study (HKCES) is an ongoing territory-wide population-based cohort, comprising over 40,000 children aged 6-8 years and both of their parents. The HKCES has identified the epidemiological profiles and risk factors of different eye disorders, including refractive errors, amblyopia, strabismus, and eye allergy. Results have been published in more than 40 publications, including 1 article in *Lancet Global Health*, and 4 in *JAMA Network Open*.

Dr. Yam has been bestowed more than 30 international awards, including APAO Distinguished Service Award 2016, APSPOS Young Investigator Award 2017, APAO Outstanding Service for Prevention of Blindness Award 2019, APAO Nakajima Award 2019, APAO Senior Achievement Award 2021, Hong Kong Humanity Award 2021, International Myopia Conference Josh Wallman Memorial Lecture 2022, Silver Medal of Geneva Inventions Salon International 2022, and American Academy of Ophthalmology Secretariat Award 2023. He was named one of the Ten Outstanding Young Persons in Hong Kong 2019, and was listed among World's Top 2% Scientists in Ophthalmology since 2022, and among the Top 100 Ophthalmologists in the Asia-Pacific Region in 2023. Protection of children's vision allows them to see the world clearly, lead a healthy lifestyle, and develop a bright future.

De Ocampo Lecture: Children Eye Care and Myopia Control: A Rightful Bright Future for Our New Generations

APAO Plenary Session I
Date: February 22, 2024
Time: 15:35-15:55
Venue: Pecatu Hall (BNDCC2-GF)

Myopia is a global health threat. High myopia is associated with sight-threatening complications. A comprehensive approach to studying its prevalence, risk factors, and clinical interventions is important for effective myopia control. In this lecture, the author will present his works on myopia, including the Low-concentration Atropine for Myopia Progression & Prevention (LAMP 1 & 2) Studies, and the Hong Kong Children Eye Study (HKCES).

The LAMP-1 study is the first randomized placebo-controlled trial of 438 children to establish the treatment efficacy and safety of low-concentration atropine from 0.05% to 0.01%. It has contributed to the treatment protocol of using low-concentration atropine drops for myopia control. (1) Concentration-dependent effect: The higher the concentration, the better the treatment efficacy, with tolerable side effects from 0.05% to 0.01% atropine. (2) Age-dependent effect: Younger age is associated with less treatment response to low-concentration atropine 0.05% to 0.01%. (3) Atropine effect on biometric parameters: Low-concentration atropine has no clinical effect on corneal or lens power and asserts main anti-myopic effects by reducing AL elongation. (4) Choroidal thickening effect: Low concentration atropine induced choroidal thickening in concentration-dependent response throughout the treatment period. (5) Longer-term treatment efficacy and rebound phenomenon: Stopping treatment at an older age and lower concentration are associated with a smaller rebound, suggesting a tapering strategy for treatment cessation in older-age children.

The LAMP-2 study is the first randomized placebo-controlled trial of 474 children using low-concentration atropine eye drops to prevent myopia. 0.05% atropine can prevent myopia onset in children by 47% without adverse effects over two years. In addition, 0.01% atropine is not sufficient to effectively prevent myopia compared with placebo.

The HKCES is an epidemiological cohort of more than 40,000 children and 80,000 parents for detailed phenotypic and genotypic characterization. The author has determined the surging effect of COVID on children's myopia, the strong independent dose-effect of parental myopia based on family trios' analysis, the association of SNPs with myopia development and progression in children, as well as many other environmental factors on children ocular health.

Protection of children's vision allows them to see the world clearly, lead a healthy lifestyle, and develop a bright future!

SUSRUTA LECTURE

The Susruta Lecture recognizes extraordinary contributions to the cataract subspecialty. Priority is given to ophthalmologists who contribute substantially to the control and elimination of mass cataract blindness, which is a perennial problem in the Asia-Pacific region. The Susruta Lecture is named after Susruta, an ancient Indian physician.

Deepshikha AGRAWAL
MS
India

Dr. Deepshikha Agrawal is the Director and Corneal Anterior Segment Consultant of MGM Eye Institute, Raipur, Chhattisgarh. As a commitment to the cause of eradication of blindness in Central India, which is beset with poverty and under-development, she has been undertaking intensive social work in the field of eye care for about 32 years. She has been instrumental in the conceptualization of a comprehensive Eye Care Institute to make high-quality eye care available to all, irrespective of financial status.

She is a founding member and trustee of Miki Memorial Trust, through which MGM Eye Institute started in Raipur in 2004 as a tertiary eye care center of international standards with the vision to provide accessible, acceptable, affordable, appropriate, comprehensive quality eye care services to all, and the mission to provide the most advanced eye care to all segments of the society, especially the underprivileged.

Over the past two decades, Dr. Agrawal has been leading the Institute in a progressive direction. Since its establishment, the Institute has examined more than 800,000 patients and performed more than 100,000 surgeries. More recently, it has organized nearly 2,100 screening camps and screened more than 200,000 school children in the past six years. It has also established the Retinopathy of Prematurity (ROP) programs in the state of Chhattisgarh and performed ROP screening for nearly 8,000 babies. To date, it has provided treatment worth a total of more than 360 million rupees to economically underprivileged patients free of charge.

Under her leadership, the Institute has been recognized for its Diplomate National Board (DNB) Course by the National Board of Examination, New Delhi, and B. Optometry course in Association with Shri Rawatpura Sarkar University, Raipur, Chhattisgarh. Moreover, it is recognized as a training center for government states' medical colleges and union territories ophthalmologists. A two-year fellowship in various ophthalmology disciplines and a one-year training internship have also been introduced.

It is remarkable that, recognized by the International Ophthalmological Fellowship Foundation (IOFF) and International Council of Ophthalmology (IOC) for the training of international ophthalmologists, the Institute has trained 13 DNB Trainees since 2011; 11 fellows in various subspecialties in ophthalmology, 15 international candidates for short-term training and 2 for long-term training during the last five years; and 116 national candidates for surgical hands-on training in the last seven years.

MGM also undertakes an internship training program that has trained 141 optometry interns since 2016. It has launched the Community Outreach Programme (MGM Anjor Mela), a program run by a dedicated Community Outreach team, and a variety of outreach

activities such as eye check-up screening camps and school children screening programs.

Dr. Agrawal completed her cornea segment fellowship from LV Prasad Eye Institute (LVPEI), Hyderabad, a short-term fellowship from Aravind Eye Institute, Madurai, and underwent Phaco Training at Laxmi Eye Institute, Panvel (Mumbai). She actively engages in research and education in ophthalmology, having represented the Institute at various state, national, and international forums. She has co-authored more than 95 publications and presentations, chaired, co-chaired, and moderated numerous academic sessions, organized various Continuing Medical Education (CME) courses in the Institute and guided and co-guided 13 DNB students for their thesis.

For her outstanding contributions to the profession, she has been honored with the Distinguished Service Award by the Asia-Pacific Academy of Ophthalmology and Streeshakti Samman Award by the Chhattisgarh Urban Bank Federation, Raipur in 2016, and received the PBMA H.V. Desai Hospital Golden Eye ACOIN Award in 2014, among other accolades.

Susruta Lecture: Impact of Comprehensive Eye Examination in Identifying the Ocular Comorbidities in Patients Screened for Cataract Surgery Through Outreach Activities

APAO Plenary Session I
Date: February 22, 2024
Time: 15:55-16:15
Venue: Pecatu Hall (BNDCC2-GF)

To evaluate the impact of comprehensive eye examination in identifying the ocular comorbidities in patients presenting for cataract surgery through the community screening program. This is a hospital-based retrospective cross-sectional descriptive study in a tertiary eye care Institute (MGM Eye Institute, Raipur, Chhattisgarh, India).

We have performed comprehensive eye examinations for all patients screened for cataract surgery through outreach activities. Patients suspected of having any ocular co-morbidity were reevaluated by the specialty ophthalmologist. Management of these patients was decided as per his/her advice. The demographic details of patients, subspecialty consultation, final diagnosis, and the type of treatment received by these patients were recorded.

During the study period, 4022 patients were referred to the base hospital for cataract surgery, of whom 922(22.9%) needed specialist opinion. Glaucoma (238) and retinal disorders (232) constituted half (50.9%) of them. There were 313 (33.9%) patients having comorbidities due to corneal, oculoplastic, and neuro-ophthalmic conditions. After specialist review, 397 (43.1%) patients underwent only cataract surgery, 55 patients (5.9%) underwent combined surgeries, and 168 (18.2%) patients underwent other procedures. Cataract surgery was not performed in 470 (50.9%) patients, of which 302 were prescribed glasses or managed medically.

We have concluded that all patients screened for cataract surgery through outreach programs require a comprehensive eye examination to identify ocular diseases other than cataracts. Provisions must be made for providing alternative or additional treatment in those with various ocular co-morbidities.

ARTHUR LIM AWARD

The Arthur Lim Award recognizes ophthalmologists who have demonstrated exemplary leadership in the field of ophthalmology and subsequently made substantial improvements in ophthalmic teaching and training in their countries and beyond. It is named after Arthur Lim, former President and Secretary-General of the APAO.

Syed Modasser Ali
MBBS, FRCOphth
Bangladesh

Prof. Syed Modasser Ali was born on 1st February 1946. His glorious career started with academic distinctions in ophthalmology after obtaining FRCS from the Royal College of Surgeons in Ireland in 1980. He was also awarded FRCOphth from the Royal College of Surgeons in London, UK.

He has 46 years of teaching experience in both undergraduate and postgraduate institutions. At present, most of the eminent ophthalmologists in Bangladesh are his students or mentees. His dedication and passion for education and research are widely respected by ophthalmologists in the Asia-Pacific region and beyond. He was visiting faculty of the Institute of Eye Health, London, the University of Tromso, and the University of Oslo in Norway. Besides his outstanding academic background, he played an impactful role in improving ophthalmic education through his leadership qualities in his academic, administrative, and political career.

During his active service life, he had a diverse portfolio that included Director cum Professor, National Institute of Ophthalmology; Director General of Health Services, Ministry of Health and Family Welfare; and Dean, Faculty of Postgraduate Medical Education and Research, Dhaka University. Other than these professional responsibilities, he was engaged as an Executive Committee member of WHO-HQ in Geneva. He was also the Vice-President of the WHO Framework Convention on Tobacco Control (FCTC), representing the WHO South-East Asia Region from 2010 to 2012.

He was president of the Ophthalmological Society of Bangladesh (OSB) in 2007-2008. As a philanthropic approach to serving mankind, he was District Governor of Lions Clubs International, District 325-A2 in 1997-1998.

Prof. Ali was the Health and Family Welfare and Social Welfare Adviser to the Honorable Prime Minister from 2009 to 2013, with the full rank and status of a Senior Cabinet Minister. He was also a member of the executive committee of the National Economic Council chaired by the Honorable Prime Minister of Bangladesh, and was instrumental in increasing the National Eye Care budget of the Government for strengthening the eye health system in Bangladesh.

He is the mastermind of the National Council for Prevention of Blindness and was the team leader during the first National Blindness Survey. His contribution to the field of promoting eye health by engaging communities is well recognized. While working with the community he wrote a book titled *Community Ophthalmology*, published in 1985, which is considered to be the first textbook on public eye health by the *British Journal of Ophthalmology*. Recognizing his contribution, the Government of Bangladesh gave him

the responsibility to standardize primary health care as President of the Community Clinic Health Support Trusty Board. He is also the Chairman of the Bangladesh Medical Research Council (BMRC).

He is the founder of Mojibunnessa Eye Hospital, the first registered private Eye Hospital in Bangladesh, and founding editor-in-chief of the *Bangladesh Ophthalmic Journal*, the first peer-reviewed ophthalmic journal in Bangladesh. He has around 150 publications in international and national indexed journals and is the author of the book *Basic Ophthalmology*. He has also authored books that reflect on the social and political crisis of the country.

In 2013, Prof. Ali was named one of the 20 most innovative surgeons alive by the healthcare education website Healthcare-Administration-Degree.net. He is also a recipient of the Bangladesh National Personality Research Centre's Freedom Fighter Award for his services during the Bangladesh Liberation War.

He received the Alim Memorial Gold Medal in 2010 and the Lifetime Achievement Award of OSB in 2008 for his contributions to the advancement of the science of ophthalmology.

Arthur Lim Award Lecture: Eye Care of Marginalized Population at Community Level and Its Relation to Community Clinics in Bangladesh

APAO Plenary Session I
Date: February 22, 2024
Time: 16:15-16:35
Venue: Pecatu Hall (BNDCC2-GF)

Bangladesh is a developing country in South Asia with a population of 160 million. Despite rapid urbanization and gains in socio demographic indicators, there are significant challenges affecting poor and marginalized groups in basic eye health care. Visual impairment and avoidable blindness are considered to be one of the major public health problems. With the increasing trend of ageing population, the demands for eye health services are increasing. According to the national blindness survey 2020, the age- standardized prevalence of blindness is 1.53%, and around 750,000 cataract backlogs are avoidable through timely intervention.

The Government of Bangladesh, with the leadership of our visionary Honorable Prime Minister Sheikh Hasina, has developed the National Eye Care (NEC) program to ensure universal eye health care for the people of Bangladesh. One of the priority interventions of the NEC is to provide high-quality, low-cost cataract surgery to eliminate the backlog.

Primary health care in Bangladesh gets momentum with the development of Community Clinics (CC) for every six thousand population. Integration of eye health screening and referral within the community clinic services creates opportunities to strengthen eye health services in Bangladesh. To link up with the CCs for every 200,00 population, an Eye Center has been developed, which brings a new dimension in the NEC program for ensuring affordable and accessible eye care services for the disadvantaged group of population in Bangladesh.

The Eye Center is a permanent eye care facility linked with a base hospital for referral and acts as the first point of interface of the population with comprehensive eye care provided by trained eye care workers.

ISAK SALIM PERDAMI AWARD

The Isak Salim PERDAMI Award is the highest award given to PERDAMI members/non-members who have contributed to helping the PERDAMI program in the management of blindness disorders.

Mohamad SIDIK
MD
Indonesia

Dr. Mohamad Sidik is an active member of PERDAMI and he was appointed as the President of PERDAMI for the period 2016 - 2022. He was also active in APAO as a council member and currently, he is President of the 39th APAO Congress.

He has given great attention to raising awareness about blindness and vision impairment programs in Indonesia. He has initiated a major effort to encourage the blindness prevention program and has shown great service and assistance in efforts.

His commitment was shown in national plans to achieve the elimination of avoidable blindness. Some of his notable work includes:

- He has encouraged PERDAMI members to be Resource Persons in Training of Trainers in the Early Detection and Prevention of Visual Impairments;
- Under his leadership, PERDAMI supported a social service program to detect early eye examination and provided glasses to elementary school children in the provinces around Indonesia, and supported other charitable services including cataract surgery;
- He has supported the creation of the Clinical Guidelines for Cataracts, Diabetics Retinopathy, Glaucoma and Refractive Errors;
- He also has supported the implementation of a Rapid Assessment of Avoidable Blindness (RAAB) Survey in 15 provinces in Indonesia with related agencies (the Indonesian Ministry of Health, the National Eye Committee, PERDAMI, NGOs, and professional organizations) to increase the quality of eye health data available for advocacy and planning purposes.

For his outstanding achievements mentioned above, Dr. Sidik is highly deserving of the Isak Salim PERDAMI Award.

RATNA KENCANA TAMIN RADJAMIN PERDAMI AWARD

The Ratna Kencana Tamin Radjamin PERDAMI Award is given to a PERDAMI Member who has contributed to this organization, including the Indonesian College of Ophthalmology and other boards of PERDAMI.

Iwan SOVANI
MD, PhD
Indonesia

Dr. Iwan Sovani PhD is a senior vitreoretinal consultant in Indonesia. He was a consultant at the National Eye Center Cicendo Eye Hospital, Padjadjaran University Bandung (1997-2021). He graduated from his residency in ophthalmology, magister of Health, magister of Management, and Doctoral in Ophthalmology at Padjadjaran University.

Dr. Sovani has held various important positions in the field of ophthalmology. He served as a commissioner of the Bandung Eye Center Group and as the Chairman of the Medical Committee at Bandung Eye Center Eye Hospital. He also served as the Vice President of the Indonesian Ophthalmologist Association from 2005 to 2016, and the president of the Vitreoretinal Society within the Indonesian Ophthalmologist Association from 2007 to 2016. In 2015, He received an APAO distinguished service award. Furthermore, he was a Council Member of the ASEAN Ophthalmology Society from 2016 to 2022, among other notable roles.

Dr. Iwan Sovani PhD was the Chairman of the Indonesian College of Ophthalmology (KIKMI) from 2016 to 2022. As the chairman, He played a significant part in advancing ophthalmology education and standards in Indonesia. One of his main accomplishments was the transition from a structural-based education approach to a competency-based one. He led teams in developing standard guidelines to enhance the quality of ophthalmologists and enable them to compete at a global level. He has also been a speaker at numerous scientific meetings as a vitreoretinal expert and a speaker in advancing ophthalmology standards.

APAO AWARDS

DISTINGUISHED SERVICE AWARDS

The Distinguished Service Awards are presented to ophthalmologists of APAO's member organizations for their distinguished service to improving ophthalmology in their countries or tariff territories.

AI, Digital Innovation and Virtual Health

Emerging Trends for AI and Robotics in Ophthalmology

This groundbreaking session showcases the role of AI and robotics in ophthalmology. Delving into their unprecedented application in cataract surgeries, experts highlight the collaborative potential with AI and robotics. The synthesis of large language models and innovative AI in ophthalmology emerges as a catalyst for precision, efficiency, and data-driven advancements, shaping the future of eye care.

11:00 - 12:30 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): Stephen MCLEOD, Daniel TING, Prasadhyastagiri YUSUF

- 11:00 Large Language Models in Ophthalmology
Ting Fang TAN
- 11:10 AI and Robotics for Cataract Surgeries
Stephen MCLEOD
- 11:20 AutoMachine Learning in Ophthalmology
Kabilan ELANGOVAN
- 11:30 Large Language Models in Electronic Health Records
Sally BAXTER
- 11:40 Synthetic AI in Ophthalmology
Gilbert LIM

Academia, Research, Teaching and Education in Ophthalmology

A Global Vision: Opportunities and Challenges for Building Human Capacity to Sustain Quality Eye Care

The worldwide eye care workforce shortage requires building the number of healthcare providers and strengthening the competencies of the eye care team — healthcare providers, managers, and support personnel. A diverse panel of international speakers will share a global vision to overcome the eye care workforce shortages with the intervention

of educational strategies, practical applications, and models to build human capacity and the competencies that are essential for an efficient and valuable eye care team.

09:00 - 10:30 **Venue: Uluwatu 1 (BNDCC1-GF)**
Chair(s): Ahmad AMALIUS, Ava HOSSAIN, Michael STEWART

- 09:00 Introduction: Workforce Capacity – A Global Outlook on the Current and Future Eye Care Team Human Resources
Ivo KOCUR
- 09:12 A Strategy Workforce Development: The Eye Care Competencies Framework
Prashant GARG
- 09:24 Advocacy to Action – Role of IAPB HR Working Group
Rohit KHANNA
- 09:36 Sustainable Workforce Development Through Education, Training, and Certification of the Eye Care Team
Michael STEWART
- 09:48 Pioneering Bespoke Competency-Based Training Aiming to Elevate Eye Care in Vietnam and Indonesia
Jayabaskar THIYAGARAJAN
- 10:00 Value of Training the Trainers to Launch a Blended Training Program Using Adult Learning Pedagogies
Richard ALLEN
- 10:12 Innovative and Sustainable Eye Care Training Model in China
Helen YAN

Cataract

Presbyopia: News in Management

“Presbyopia: News in Management” explores cutting-edge approaches to addressing presbyopia. The session covers pharmacological strategies, accommodating intraocular lenses, and the efficacy of monovision using mono/multi-focal IOLs. It delves into corneal ablation techniques, the concept of “Mix and Match,” and the advancements in multi-focal and extended depth of focus intraocular lenses. Attendees will gain insights into diverse methods shaping the contemporary landscape of presbyopia management.

09:00 - 10:30 **Venue: Pecatu Hall (BNDCC2-GF)**
Chair(s): Jorge ALIO, Andrzej GRZYBOWSKI, Ricky ROOROH

- 09:00 Pharmacology in Presbyopia Management
Andrzej GRZYBOWSKI
- 09:12 Accommodating Intraocular Lenses
Jorge ALIO
- 09:24 Monovision With Mono/Multi Focal IOLs
Kazutaka KAMIYA
- 09:36 Corneal Ablation Techniques
Marcus ANG
- 09:48 Mix and Match
Hungwon TCHAH
- 10:00 Multifocal and Extended Depth of Focus Intraocular Lenses
Cyres MEHTA

Complex Cataracts

This intellectually stimulating session on Complex Cataracts will invite pioneering cataract surgeons to share and discuss cutting-edge topics and clinical insights. The session features key topics on FLACS for corneal transplantation and low endothelial cell count cases, treatment of cataract with corneal opacities and persistent pupillary membrane, and management of Morgagnian cataract and rock-hard cataract. Join us to gain insights from leading experts and explore innovative approaches and advancements in complex cataract surgery.

11:00 - 12:30 **Venue: Pecatu Hall (BNDCC2-GF)**

Chair(s): Johan A. HUTAURUK, Pannet PANGPUTHIPONG, Ke YAO

- 11:00 FLACS for Corneal Transplantation Cases
Ke YAO
- 11:12 Management of Morgagnian Cataract
Pannet PANGPUTHIPONG
- 11:24 Cataract Management in Low Endothelial Cell Count: Synergy of FLACS and Hard Shell Procedure
Johan A. HUTAURUK
- 11:36 Management of Cataract in Patients With Corneal Opacities
Hungwon TCHAH
- 11:48 Phaco for Rock Hard Cataracts
Sri GANESH
- 12:00 Treatment of Persistent Pupillary Membrane and Associated Cataract
Hong YAN

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

[ACS Symposium] Advancements in Corneal Diagnosis and Treatment: A State-of-the-Art Overview

The Asia Cornea Society is hosting a symposium titled 'Advancements in Corneal Diagnosis and Treatment: A State-of-the-Art Overview.' This event primarily focuses on innovative approaches to treating severe corneal and ocular surface diseases. The symposium features six renowned clinician-scientists from various Asian countries and Europe. Attendees will gain valuable insights into the treatment of corneal infections, corneal endothelial diseases, and ocular surface disorders. Additionally, the symposium provides an excellent opportunity for engaging in productive discussions.

09:00 - 10:30 **Venue: Mengwi 6,7,8 (BNDCC2-GF)**

Chair(s): Johan A. HUTAURUK, Shigeru KINOSHITA, Theofilos TOURTAS

- 09:00 Contact Lens Associated Bacterial Keratitis
Fung-rong HU
- 09:14 Advances in Diagnosis of Fungal Keratitis
Venkatesh PRAJNA
- 09:28 The Updated Technique of DMEK Surgery for Difficult Cases of Bullous Keratopathy
Theofilos TOURTAS
- 09:42 Seeds and Soil in Corneal Transplantation
Shigeru KINOSHITA
- 09:56 Management of Stevens-Johnson Syndrome
Vilavun PUANGSRICHARERN
- 10:10 Pterygium and Ocular Surface Management
Ka Wai KAM

Advances in Corneal/Ocular Surface Therapy

Severe ocular surface and corneal diseases are common causes of blindness. New therapy will improve their outcomes. Seven speakers from diverse regions will focus on ocular surface reconstruction, lacrimal gland transplantation, corneal bioengineering, and negotiation. You do not want to miss it!

11:00 - 12:30 **Venue: Mengwi 6,7,8 (BNDCC2-GF)**

Chair(s): Yulia AZIZA, Koji KITAZAWA, Jodhbir MEHTA

- 11:00 Characterization of Cultivated Nasal Mucosal Epithelial Cell Sheet Transplantation for Ocular Surface Reconstruction
David MA
- 11:10 Lacrimal Gland Transplantation
Swati SINGH

- 11:20 Commercial Comet
Tsutomu INATOMI
- 11:30 CSSC Therapy
Sayan BASU
- 11:40 Corneal Bioengineering
Gerard SUTTON
- 11:50 Sequential Autograft Limba Transplantation for Severe LSCD
Wei LI
- 12:00 Minimally Invasive Corneal Neurotization for Neurotrophic Keratopathy
Jyh Haur WOO

Glaucoma

[IOA-IGS Joint Symposium] Secondary Glaucoma

This session covers all common causes of secondary glaucoma in daily practice including neovascular glaucoma, secondary glaucoma after retina procedure, lens-induced glaucoma, inflammatory glaucoma, and secondary glaucoma in children. Participants will have an updated understanding of the diagnosis and management of secondary glaucoma.

09:00 - 10:30 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Prima SARI, Novanita SATOLOM, Tatang TALKA GANI

- 09:00 Neovascular Glaucoma
Fitratul ILAHI
- 09:08 Post – Vitrectomy / Silicon Oil Induced Glaucoma
Ardiella YUNARD
- 09:16 Pseudoexfoliation Glaucoma
R.Maula RIFADA
- 09:24 Phacomorphic Glaucoma
Maharani CAHYONO
- 09:32 Aphakic Glaucoma in Pediatric
Yulia PRIMITASARI
- 09:40 Possner-Schlossman Syndrome
Ririn SAMINTO
- 09:48 Pigmentary Glaucoma
Franky KASIH
- 09:56 Glaucoma Related to Aniridia
I Gusti Ayu Ratna SURYANINGRUM
- 10:04 Glaucoma Due to Subluxated Lens
Maya SUWANDONO
- 10:12 Post Keratoplasty Glaucoma
Emma RUSMAYANI

Clinical Debates in Glaucoma

This session is centered around pivotal and controversial aspects of glaucoma management. It includes in- depth discussions on the role and necessity of “Laser Peripheral Iridotomy (LPI)” in cases of “Bilateral PACS,” presenting diverse viewpoints and clinical recommendations. Furthermore, the session examines the increasing significance of “Minimally Invasive Glaucoma Surgery (MIGS)” and the importance of “Intraocular Pressure (IOP) Lowering” techniques, particularly in the treatment of “Angle Closure Glaucoma” and in patients with “High Myopia.” These discussions are aimed at shedding light on the evolving methodologies and practices in the treatment of glaucoma, offering a comprehensive understanding of current trends and future directions in glaucoma therapy.

11:00 - 12:30 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Evelyn KOMARATIH, Shan LIN, Ki Ho PARK

- 11:00 Bilateral PACS Needs No LPI
Clement C THAM
- 11:06 LPI Is Still Recommended for Bilateral PACS in Clinical Practice
Theodoros FILIPPOPOULOS
- 11:12 MIGS Can Be the First Option in Angle Closure Glaucoma
Xiulan ZHANG
- 11:18 MIGS May Be Inappropriate for Angle Closure Glaucoma As First Line Treatment
Kaweh MANSOURI
- 11:24 The Best Surgery for JOAG Is GATT
Ningli WANG
- 11:30 The Best Surgery for JOAG Is Tube Surgery
Ching-lin HO
- 11:36 Tube Is Bad for Corneal Endothelium
Ying HAN
- 11:42 Tube Is Tolerable for Corneal Endothelium
Keith BARTON
- 11:48 Micropulse or UCP Can Be the First Option for Primary Glaucoma
Seng Kheong FANG
- 11:54 Micropulse or UCP Is Reserved for Refractory Glaucoma
Sang Woo PARK
- 12:00 Lowering IOP Might Help Control HM Progression
Fengbin LIN
- 12:06 Lowering IOP Might Not Help Control HM Progression
Rachel CHONG

Intraocular Inflammation, Uveitis and Scleritis

Detecting Pathogens and Evaluating Immune Response to Diagnose and Manage Uveitis: Current Approach and What Is Over the Horizon

Differentiating infectious uveitis from non-infectious uveitis is crucial in successful uveitis management. In this session, experts worldwide will present the latest developments and practical tips on directly detecting pathogens in infectious uveitis cases. On the other hand, in certain infectious uveitis cases, indirect detection of pathogens through immune response from intraocular fluid and peripheral blood is controversial and will be addressed. Lastly, the immune response that distinguishes non-infectious uveitis will be discussed to complete the session.

11:00 - 12:30 **Venue: Kintamani 1 (BNDCC1-MF)**
Chair(s): Soumyava **BASU**, Rina La **NORA**, Shelina **OLI MOHAMED**

- 11:00 Metagenomic Deep Sequencing in the Detection of Infectious Agents
Thuy DOAN
- 11:15 Pathogen Detection in Infectious Uveitis: Best Practice Now and Future Direction
Lyndell LIM
- 11:30 The Immune Response in Tubercular Uveitis: From Bench to Bedside
Rina La NORA
- 11:45 Intraocular vs. Peripheral Blood Immune Response: Which One Is Better?
Soumyava BASU
- 12:00 Immune Response in Ocular Sarcoidosis
Kenichi NAMBA
- 12:15 Panel Discussion

Miscellaneous

APAO Leadership Development Program (LDP) 2024-25 Orientation Class 1

Open to APAO LDP Class 2024-25 participants only.

- 09:00 - 10:30 **Venue: Uluwatu 6 (BNDCC1-GF)**
- 09:00 Welcome to the APAO Leadership Development Program: Introduction of the APAO LDP
Shaheeda MOHAMED
- 09:10 Welcome by AOI Secretary General
Martine JAGER
- 09:20 Welcome by APAO Secretary-General
Clement C THAM

- 09:30 Welcome by APAO 2024 Congress President
Mohamad SIDIK
- 09:35 Welcome by AAO Vice-President
Gail E SCHMIDT
- 09:40 APAO LDP Program Learning Objectives and Requirements
Muhammad MOIN
- 09:55 Participants Introduction and Group Activity
Vivek DAVE

APAO Leadership Development Program (LDP) 2024-25 Orientation Class 2

Open to APAO LDP Class 2024-25 participants only.

11:00 - 12:30 **Venue: Uluwatu 6 (BNDCC1-GF)**

- 11:00 Your LDP Project
Shaheeda MOHAMED
- 11:10 Project Perspectives from an LDP Alumnus
Meenu CHAUDHARY
- 11:20 Project Planning
Muhammad MOIN
- 11:30 What Makes a Great LDP Project?
Madhuwanthi DISSANAYAKE
- 11:40 SWOT Analysis in Project Planning
Sherman VALERO
- 11:50 Fish Bone Analysis
Vivek DAVE
- 12:00 Group Discussion on LDP Project Proposal

Myopia

Pathologic Myopia and Its Consequences

This symposium session offers an in-depth exploration of the severe impacts and complications linked to pathologic myopia. Specialists will share the most recent discoveries, treatment approaches, and strategies for managing the significant long-term complications of high myopia.

- 09:00 - 10:30 **Venue: Kintamani 2 (BNDCC1-MF)**
Chair(s): Nanda **ANANDITA**, Jost **JONAS**, Kyoko **OHNO-MATSUI**
- 09:00 Axial Length Elongation in Mice: Study of Selective Muscarinic Antagonist
Nanda ANANDITA
- 09:12 Staphyloma Posterior
Kyoko OHNO-MATSUI
- 09:24 Myopic CNV
Timothy LAI

- 09:36 Myopic Traction Maculopathy
Tomonari TAKAHASHI
- 09:48 Pathological Myopia: Vitreoretinal Point of View
Afrisa KURNIAWAN
- 10:00 Myopia Mechanism/ Consequences
Xiangtian ZHOU

Neuro-Ophthalmology

Controversies in Neuro-Ophthalmology

The management of certain neuro-ophthalmic conditions can be contentious in light of emerging scientific evidence. The aim of this session is to address and resolve these debates, particularly in relation to investigations for anisocoria and isolated ocular motor cranial nerve palsy; as well as treatment approaches for conditions like NAION, idiopathic intracranial hypertension, and homonymous hemianopia.

11:00 - 12:30 **Venue: Kintamani 7 (BNDCC1-MF)**
Chair(s): Carmen CHAN, Mitchell LAWLOR, Rusti Hanindya SARI

- 11:00 NAION- Should We Observe or Treat?
Celia CHEN
- 11:12 Should We Treat Idiopathic Intracranial Hypertension With Optic Nerve Sheath Fenestration or VP Shunt?
Rebika DHIMAN
- 11:24 Is There a Role for OCT in Neuro-Ophthalmology?
Mitchell LAWLOR
- 11:36 Should We Perform Neuro-Imaging for Isolated Ocular Motor Cranial Nerve Palsy?
Clement TAN
- 11:48 Is Visual Rehabilitation Effective for Homonymous Hemianopia?
Prem SUBRAMANIAN
- 12:00 Should I Do Pharmacologic Testing for Anisocoria?
Hui-chen CHENG

Ocular Imaging

Recent Updates on Ocular Imaging Approaches

In this session, a total of seven experts will expound on current issues surrounding the utilization of large language models in ocular imaging, the evaluation of diabetic retinopathy progression, the identification of diabetic macular edema, the progress made in the field of polypoidal choroidal vasculopathy (PCV), and various other intriguing topics.

09:00 - 10:30 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): Carol CHEUNG, Ferdiriva HAMZAH, Bin SHENG

- 09:00 Large Language Models and Ocular Imaging: What Are the Potential?
Bin SHENG
- 09:10 Assessment of Parafoveal Diabetic Macular Ischemia on Optical Coherence Tomography Angiography Images to Predict Diabetic Retinal Disease Progression and Visual Acuity Deterioration
Gabriel YANG
- 09:20 Exploring High Myopia Imaging: Quantification and Insights
Yaxing WANG
- 09:30 Quantitative Ocular Imaging with Optical Coherence Tomography/Elastography
Kirill LARIN
- 09:40 Federated Learning for Diabetic Macular Edema Detection in Low-Middle-Income Countries
Truong NGUYEN
- 09:50 Unlocking New Horizons for AI in Ophthalmology – Australian National Data Linkage Project
Lisa ZHU
- 10:00 Recent Advances in Imaging Polypoidal Choroidal Vasculopathy
Kelvin Yi Chong TEO

Ocular Oncology and Pathology

Retinoblastoma

Retinoblastoma is one of the most devastating diseases in young children, as it affects not only their vision but also their lives. Experts will discuss the challenges in the management of retinoblastoma and the newest developments in treatment.

11:00 - 12:30 **Venue: Kintamani 3 (BNDCC1-MF)**
Chair(s): Wai Kit CHU, Rita S SITORUS, Geeta K VEMUGANTI

- 11:00 GHRH-MEK-ERK Axis in Retinoblastoma
Wai Kit CHU
- 11:08 Evaluation of the Role of Tumor Pathology Review in Preventing Tumor Recurrence and Metastasis in Retinoblastoma: Indonesian Experience
Rita S SITORUS
- 11:16 Intra-arterial Chemotherapy for Retinoblastoma
Duangnate ROJANAPORN

Ophthalmic Epidemiology and Prevention of Blindness

[IOA-INACOS Joint Symposium] 2030 in Sight: Where Are We Now?

This session will outline the Indonesian strategic plan for the prevention of blindness and visual impairment program in line with 2030 In Sight. The development of eye care registry, community-based program in refractive error, cataract charity and retinopathy diabetic program in Indonesia will also be presented in this symposium, showing that government and private sector are working together to prioritize eye care for everyone.

11:00 - 12:30 **Venue: Uluwatu 1 (BNDCC1-GF)**
Chair(s): Andika GUNADHARMA, Nila MOELOEK

- 11:00 Prevention of Visual Impairment and Blindness Program in Indonesia Towards Global Eye Target 2030
Eva SUSANTI
- 11:12 Development of Eye Care Registry
Parluhutan Butar BUTAR
- 11:24 Community-Based Refractive Error Program in Bali

Pediatric Ophthalmology and Strabismus

Prescribing Glasses in Children

The decision to prescribe glasses for a child is always made after careful consideration, taking into account the child's unique situation and needs. Without appropriate refractive correction, many children are unable to achieve optimal vision. Developmentally delayed children can present particular challenges. Myopia progression can now be slowed with specially designed lenses. The speakers will share their expertise in this frequently overlooked area of ophthalmology.

09:00 - 10:30 **Venue: Kintamani 7 (BNDCC1-MF)**
Chair(s): Liana EKOWATI, Frank MARTIN, Feti Karfiati MEMED

- 09:00 Hyperopia Correction in Patients With Esotropia
Satenik AGAGULIAN
- 09:12 Can Prescribing Special Glasses Prevent Myopia Progression in Children?

- 10:12 Do's and Don'ts in Prescribing Glasses for Children
Chong-bin TSAI

Pediatric Anterior Segment Disorders

The pediatric anterior segment disorder symposium will cover topical diseases that affect the front of the eye in children. The international speakers from 7 countries across 3 continents will discuss pediatric cataract, cornea, and ocular surface disease in an interactive manner. Additionally, there will be 3 video panoramas showing techniques or ocular signs to engage audience participation. This symposium will stimulate discussion both amongst the panelists and the audience.

11:00 - 12:30 **Venue: Kintamani 2 (BNDCC1-MF)**
Chair(s): Kianti DARUSMAN, Kanwal 'ken' NISCHAL, M.Edward WILSON

- 11:00 Strategies for Pediatric Cataract Management
Yee Fong CHOONG
- 11:10 Blepharokeratoconjunctivitis (BKC) in Children
Seo Wei LEO
- 11:20 Rubella Cataract Management
Ramesh KEKUNNAYA
- 11:30 Vernal keratoconjunctivitis (VKC) in Children

M.Edward WILSON
- 12:06 Video Panorama
Kianti DARUSMAN
- 12:09 Q&A

Refractive Surgery

Refractive Lens Exchange and New Intraocular Lenses

Refractive lens exchange is one of the options for intraocular refractive surgery. It is becoming more and more frequently practiced, and in this session, you will find the most recent progress in its outcomes, indications, ethical issues concerning indications and how to use modern intraocular lenses, especially new EDOF IOLs.

09:00 - 10:30 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): Andrew KNOCH, Tetsuro OSHIKA, Xingtao ZHOU

- 09:00 Non Diffractive Segmental MF Lenses – The Way Ahead
Sri GANESH
- 09:15 'Patients' Selection for Refractive Lens Exchange
Minoru TOMITA
- 09:30 Lens Selection for Refractive Lens Exchange: A Comparison Trifocal vs EDOF

Retina (Surgical)

Updates in Vitreoretinal Surgery Technology and Techniques

Dive into the forefront of ophthalmic innovation at our symposium, 'Updates in Vitreoretinal Surgery Technology and Techniques.' Renowned international ophthalmologists will illuminate the latest advancements, sharing expertise on cutting-edge surgical technologies and techniques. Join this dynamic gathering to explore the future of vitreoretinal surgery, where knowledge converges to redefine standards and elevate patient care.

09:00 - 10:30 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Mark HUMAYUN, Sjakon TAHIJA, Young Hee YOON

- 09:00 Advanced Retinal Implants
Mark HUMAYUN
- 09:10 Management of Refractory Macular Holes
Joo Yong LEE
- 09:20 New Surgical Approaches for Difficult Myopic Macular Schisis, Holes and Detachment
Edmund WONG
- 09:30 3D Surgery
Sjakon TAHIJA

Macular Surgery

This symposium will explore sophisticated topics in macular surgery. It will delve into innovative techniques such as the Rotational ILM flap for foveal regeneration and personalized approaches like sub-macular rTPA injection. It will also engage with challenges in managing refractory macular holes and failed surgeries, while staying updated on cutting-edge strategies for conditions like myopic tractional maculopathy and submacular hemorrhage in leukemia. It will elevate your expertise in the dynamic realm of macular surgery.

11:00 - 12:30 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): Hussain KHAQAN, Eko KARIM, Chi-chun LAI

- 11:00 Rotational Internal Limiting Membrane Flap Technique to Promote Foveal Regeneration in Macular Hole Repair
Peiquan ZHAO
- 11:08 Management of Refractory Macular Hole; Does AMT Has an Effect?
Soefiandi SOEDARMAN
- 11:16 Failed Macular Hole Surgeries

Translational Research in Ophthalmology

[IOA-INARVOS Joint Symposium] Optimization of Functional Vision

Optimizing visual function is very important for the quality of life, especially in children and patients who have visual impairment after surgery. In this symposium, the attendees will gain information and knowledge about how to perform accurate refraction and measurement of visual function, management of amblyopia and myopia control in children, as well as ectasia after refractive surgery with contact lenses.

09:00 - 10:30 **Venue: Uluwatu 2 (BNDCC1-GF)**
Chair(s): Christina ARITONANG, Sagung INDRAWATI, Cokorda Istri Dewiyani PEMAYUN, SP.M (K)

Translational Research in Diagnostics and Treatments for Eye Diseases

The complex landscape of ophthalmology is being shaped by diverse subjects. Topics include the intricacies of glaucoma in high myopia, the application of rTPA-assisted treatment for macular subretinal hemorrhage in China, and advancements in clinical

practices facilitated by robot-assisted injection techniques. The current concepts surrounding pachychoroid disease are elucidated, while optical coherence tomography (OCT) offers valuable insights into peripheral retinal disease and biomarkers for macular hole repair. Emerging retinal imaging modalities hold promise for the diagnosis and management of retinal diseases, while ocular surface-related matters are under continuous investigation and development.

11:00 - 12:30 **Venue: Kintamani 5 (BNDCC1-MF)**
Chair(s): Gemmy CHEUNG CHUI MING, Lukman EDWAR, Yaxing WANG

AI, Digital Innovation and Virtual Health

AI in Ophthalmology: Crossing the Valley of Death

This session addresses the entire spectrum of AI adoption in ophthalmology. From transforming clinical trials with AI insights to translating digital technology seamlessly into real-world eye practice. The session also explores the practical integration of large language models, ensuring their operationalization in routine clinical ophthalmology, heralding a new era of data-driven, patient-centric practices.

11:00 - 12:30 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): Yeni LESTARI, Daniel TING, Sally BAXTER

- 11:00 Global Trend of AI in Ophthalmology
Daniel TING
- 11:10 AI in Clinical Trials
Stela VUJOSEVIC
- 11:20 Bringing AI Valley of Death in Ophthalmology
Gavin TAN

- 11:30 Data in the Hands of the Patient
Stephanie CAMPBELL

Jodhbir MEHTA
- 11:50 Operationalizing Large Language Models Into the Routine Clinical Ophthalmology Practice
Sally BAXTER

Novel AI and Digital Technology for Ocular Adnexa and Anterior Segment

Novel AI and digital technology propel eye care into a new era. By seamlessly integrating advanced algorithms and digital tools, these innovations optimize the assessment of eye conditions, offering swift and accurate diagnoses. This session will unveil the use of AI and digital technology in ocular adnexa and anterior segment issues.

14:30 - 16:00 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): Robert CHANG, Haotian LIN, Muhammad SASONGKO

Academia, Research, Teaching and Education in Ophthalmology

How to Improve My Research Project

Research is a continuous process in the quest to learn new ideas and modalities of disease understanding and management. Conducting research is central to forwarding ophthalmic knowledge and treatment. This symposium will provide crucial knowledge on understanding gaps in knowledge by reviewing literature and implementing a meta-analysis of results and discussion.

14:30 - 16:00 **Venue: Uluwatu 1 (BNDCC1-GF)**
Chair(s): Rajvardhan AZAD, Arief KARTASASMITA, Anguor WANG

- 14:30 How to Start My Research Project?

[AOI Symposium] New Principles in Education

The Academia Ophthalmologica Internationalis connects ophthalmologists who are leaders in their fields of clinical care and science, who are heavily involved in educating the next generation of ophthalmologists. Many new technologies are available in education, and world experts will discuss the most modern approaches to teaching cataract surgery and testing a person's knowledge. The use of AI in everyday practice will be discussed.

16:30 - 18:00 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): Karl GOLNIK, Charles MCGHEE, Syntia NUSANTI

- 16:30 Introduction on the Academia Ophthalmologica Internationalis (AOI)

Cataract

Indications and Techniques for IOL Exchange

The aim of this course is to discuss the pathologies justifying IOL exchange, discuss the different surgical techniques to explant IOLs, and define the parameters about which IOL design fits best to replace the primary. (a) Capsule peeling aiming at freeing the IOL from the proliferative tissue present in the capsule bag. (b) Cutting, lassoing, or folding the IOL for easy explanation. (c) Secondary IOL implantation using scleral fixation, iris fixation, capsular support, different suturing techniques. (d) Instruments used by the panel.

09:00 - 10:30 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Burkhard DICK, Andrew KNOCH, Marie-jose TASSIGNON

- 09:00 IOL Exchange of One MIOL to Another MIOL
Jorge ALIO
- 09:12 Classification of IOL Opacification
George BEIKO
- 09:24 Feasibility of Late IOL Exchange
Yu-chih HOU
- 09:36 Decentration, UGH Syndrome and Opacification
Soon-phaik CHEE
- 09:48 Capsule Peeling to Improve IOL Exchange

[IOA-INASCRS Joint Symposium] Cataract Surgery From Simple to Advanced Settings

This session will describe all settings for cataract surgery, including special preparation on challenging cases. Some surgical techniques that could be applied in difficult situations will also be illustrated by the speakers to give the participants confidence in handling surgical complexity. This session also provides tips for organizing a mass cataract surgery that is safe and can give a good quality of life for the patient.

11:00 - 12:30 **Venue: Uluwatu 1 (BNDCC1-GF)**
Chair(s): Hadi PRAKOSO

- 11:00 From Vision Correction to Enhanced Quality of Life: Unveiling the Benefits of IOL Technology

- 12:00 Special Preparation on Various Challenging Cases
Shail VASAVADA

Controversies in Cataract Surgery: Debate

This debate-style session will tackle controversial topics in cataract surgery. The first pair explores the pros and cons of intracameral antibiotics, highlighting reduced infection risks and potential reasons against their use. The second pair analyzes the benefits of hydrophobic intraocular lenses (IOLs), emphasizing durability and positive patient outcomes. The third pair delves into the advantages of Femtosecond Laser-Assisted Cataract Surgery (FLACS), addressing precision and improved outcomes, along with opposing viewpoints on why some practitioners might choose alternatives due to concerns or limitations.

14:30 - 16:00 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Tjahjono GONDHOWIARDJO, Andrzej GRZYBOWSKI, Ben LAHOOD

- 14:30 Cataract Surgery With IC Antibiotic: Yes
Burkhard DICK
- 14:42 Cataract Surgery With IC Antibiotic: No
Tat Keong CHAN
- 14:54 We Should Prefer Hydrophobic IOLs: Yes
Andrzej GRZYBOWSKI
- 15:06 We Should Prefer Hydrophobic IOLs: No
Ben LAHOOD
- 15:18 FLACS Is Preferable: Yes
Yibo YU
- 15:30 FLACS Is Preferable: No
Pichit NARIPTHAPHAN

IOL Fixation

There are many ways of managing a subluxated IOL. The preferred technique depends upon the remnant capsular support, the IOL design, whether the IOL is within or without the capsular bag, and ultimately, the surgeon's expertise. Experts in this video-based

session demonstrate various techniques for fixing a dislocated IOL.

16:30 - 18:00 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Soon-phaik CHEE, Nashrul IHSAN, Mohan RAJAN

- 16:30 IOL Posterior Optic Capture in the Case of Subluxation IOL
Kimiya SHIMIZU
- 16:42 Foldable Scleral Fixation IOL
Nivean MADHIVANAN
- 16:54 Dislocated Single Piece IOL in Bag
Soon-phaik CHEE

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

[Cornea Society Symposium] FECD: From Surgery to Medical Management

In the last quarter century, the management of Fuchs endothelial corneal dystrophy (FECD) has evolved into more and more sophisticated keratoplasty techniques. With an improved understanding of the pathophysiology and genetics of FECD, management of this condition in the future may be moving from surgical to medical treatments. In this Cornea Society-sponsored symposium, leaders in the field will discuss the newest surgical management of Fuchs, as well as imaging techniques and the future of cell and genetic therapy for FECD.

09:00 - 10:30 **Venue: Mengwi 6,7,8 (BNDCC2-GF)**
Chair(s): Jodhbir MEHTA, Namrata SHARMA, Jessica ZARWAN

Improving Outcome in Ocular Surface Diagnosis and Management

The diagnosis and treatment of ocular surface disease are always challenging for ophthalmologists. This session will invite 6 experts from diverse regions to present their insights, covering chemical burn, tear biomarkers, corneal pain, LMK, stem cell reconstruction, and ocular surface microbiome. You will learn the most progression in this area.

14:30 - 16:00 **Venue: Mengwi 6,7,8 (BNDCC2-GF)**
Chair(s): Elfa Ali IDRUS, Zuguo LIU, Jodhbir MEHTA

- 14:30 E-Pix Chemical Injury

Clinical Studies and Trials in Glaucoma

In the last few years, many randomized clinical trials have been conducted in glaucoma. These trials range from medical, laser to surgical interventions and

encompass various subtypes of glaucoma. In this symposium, a selection of clinical trials in glaucoma will be featured with an emphasis on glaucoma in Asia.

14:30 - 16:00 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**
*Chair(s): Zeiras **DJAMAL**, Ching-lin **HO**, Norshamsiah **MD DIN***

- 14:30 Asia TVT Study
*Natalia **PORPORATO***
- 14:38 ZAP and ANALIS Trials for PACS

*Joseph **PANARELLI***

MIGS Present and Future

Minimally invasive glaucoma surgery (MIGS) has emerged as a safe and effective treatment for early to moderate glaucoma. This symposium will give an overview of the current trends in MIGS covering different types of canal-based procedures including cutting and stenting. It will also provide insights into the utility of suprachoroidal stents and new implants as a potential replacement for trabeculectomy. The potential of Aqueous angiography-guided MIGS will also be covered, giving the attendees up-to-date knowledge about current and future MIGS techniques.

16:30 - 18:00 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**
*Chair(s): Tanuj **DADA**, Paul **HEALEY**, I Made Agus **KUSUMADAJA***

- 16:30 Critical Analysis of Canal-Based MIGS Efficacy

Intraocular Inflammation, Uveitis and Scleritis

[APAO WIO Symposium] Ocular Infections: What We Can't Afford to Miss!

Ocular infections can lead to irreversible visual loss if not promptly recognized and treated appropriately. The APAO Women in Ophthalmology (WIO) Standing Committee, in collaboration with WIO U.S., proudly presents six accomplished women ophthalmologists from diverse regions across the Asia-Pacific and the United States. They will explore a comprehensive spectrum of ocular infections, covering topics such as keratitis, infectious uveitis, endophthalmitis, and orbital cellulitis. It is definitely a symposium you don't want to miss!

11:00 - 12:30 **Venue: Kintamani 2 (BNDCC1-MF)**
*Chair(s): Carmen **CHAN**, Ava **HOSSAIN**, Ikke **SUMANTRI***

- 11:00 Atypical Corneal Ulcers
*Fasika **WORETA***
- 11:12 Evaluation of Infectious Uveitis

Neuro-Ophthalmology

Challenging Cases in Neuro-Ophthalmology

We will delve into the captivating world of neuro-ophthalmology, where cases exhibit significant variations, posing intricate challenges in diagnosis. The complexity of these cases extends far beyond the ordinary intricacies of vision, as some instances can present threats to both sight and life. Throughout this session, we aim to showcase compelling cases that not only demand our attention but also invite participants to engage in lively discussions. The diverse scenarios presented will serve as a catalyst for a collective exploration of diagnostic strategies and treatment modalities.

Emergency Neuro-Ophthalmology

Neuro-ophthalmological emergencies constitute vision or life-threatening conditions if diagnosis and treatment are not promptly undertaken. A patient may present with diplopia, visual loss and pain. However, sometimes a patient may be asymptomatic with incidental detection of optic disc(s) swelling. In this symposium, a systematic approach to evaluate dangerous diplopia, disc swelling, eye pain and vascular diseases will be presented. The symposium will provide a practical framework to help approach patients with neuro-ophthalmic emergencies.

- 16:30 - 18:00 **Venue: Kintamani 7 (BNDCC1-MF)**
Chair(s): *Celia CHEN, Seskoati PRAYITNANINGSIH, Anguor WANG*

Ocular Trauma

[APOTS Ophthalmic Trauma Program] In a Blink: Understanding Ophthalmic Trauma

This program provides a comprehensive exploration of ophthalmic trauma, delving into the classification, imaging and intricate details of eye injuries and their implications. "In a Blink" focuses on enhancing participants' understanding of the various causes, types, and immediate responses to ophthalmic trauma. Through a blend of theoretical knowledge and practical insights, the program aims to equip healthcare professionals with the skills needed to assess, diagnose, and manage eye injuries swiftly and effectively.

09:00 - 10:30 **Venue: Kintamani 1 (BNDCC1-MF)**
Chair(s): Rupesh AGRAWAL, Haoyu CHEN, Yunia IRAWATI

09:00 Deciphering Ophthalmic Trauma: IGATES Classification
Annette HOSKIN

09:10 Imaging Ophthalmic Trauma: Techniques and Interpretation
Honglei LIU

09:20 Electrophysiology in Ophthalmic Trauma: Insights and Applications
Graham HOLDER

09:30 Pediatric Eye Injuries: Anterior Segment Involvement

“Executive Summary”: Everything You Need to Know About Novel Approaches to Global Eye Health and Epidemiology in Bangladesh, India, Nepal, Pakistan, and Sri Lanka

Vision loss adversely affects a billion people worldwide, with South Asia sharing a disproportionate burden. The APAO Global Eye Health and Epidemiology Symposium features talks from South Asian Countries delivered by public eye health leaders in the region. In addition to the epidemiology of vision loss in the region, topics on the history and evolution of primary eye care and vision loss in vulnerable populations are presented. A bird’s eye view of innovative approaches to address vision loss is showcased in the symposium.

16:30 - 18:00 **Venue: Uluwatu 1 (BNDCC1-GF)**
*Chair(s): Yeni **LESTARI**, Srinivas **MARMAMULA**,
Sumrana **YASMIN***

- 16:30 Welcome and Introduction
16:34 Epidemiology of Vision Loss in Elderly Population in India
*Srinivas **MARMAMULA***
- 16:42 Journey of Primary Eye Care and Vision Centres in India – Past, Present and Future
*Sabitra **KUNDU***

Orbital and Oculoplastic Surgery

Tips and Tricks on Thyroid Eye Disease (TED)

In this “Tips and Tricks on Thyroid Eye Disease (TED)” symposium, key opinion leaders of TED from different Asia-Pacific and European centres will share their tips and tricks on understanding and managing TED, from pathophysiology, clinical to psychometric assessment, lifestyle modifications to applying published clinical trials and different surgical operations including different types of orbital decompression, strabismus correction to eyelid procedures.

11:00 - 12:30 **Venue: Kintamani 1 (BNDCC1-MF)**
*Chair(s): Kelvin Kam-lung **CHONG**, Rinaldi **DAHLAN**,
Lay Leng **SEAH***

- 11:00 Tips and Tricks on Understanding Pathogenesis and Translational Research on TED
*Xianqun **FAN***
- 11:10 Tips and Tricks on Clinical, Serological, and Radiological Assessment in TED
*Suryasnata **RATH***

- 11:20 Tips and Tricks on Quality of Life Evaluation and Lifestyle Modifications in TED
*Tri **HERDIANA***
- 11:30 Tips and Tricks on Applying Clinical Trials in My TED Practice
*Alan Chun Hong **LEE***
- 11:40 Tips and Tricks on Bony Orbital Decompression
*Timothy **SULLIVAN***
- 11:50 Tips and Tricks on Avoiding Diplopia After Orbital Decompression
*Honglei **LIU***
- 12:00 Tips and Tricks on Fat Removal Orbital Decompression and Related Reconstruction
*Yi-hsuan **WEI***
- 12:10 Tips and Tricks on Strabismus Correction in TED
*Anja **ECKSTEIN***
- 12:20 Tips and Tricks on Eyelid Procedures in TED
*Huifang **ZHOU***

Orbit, Trauma, and Socket: Current Evolution and Future Challenges

This symposium will highlight some of the new developments in orbital and socket conditions, as well as the management of difficult problems in these areas. The latest development of orbital injury and fractures will also be covered.

16:30 - 18:00 **Venue: Kintamani 1 (BNDCC1-MF)**
*Chair(s): Don **KIKKAWA**, Rodiah **LUBIS**, Hunter **YUEN***

- 16:30 Patient-specific Implant
*Tarjani **DAVE***
- 16:40 Intraorbital Foreign Body
*Syed Ali Raza **RIZVI***
- 16:50 Orbital and Socket Reconstruction After Exenteration
*Rohit **SAIJU***
- 17:00 Orbital Inverted Papilloma: Hurdles and Tips
*Farzad **PAKDEL***
- 17:10 Periocular Penetrating Trauma
*Masashi **MIMURA***
- 17:20 Sirolimus in the Treatment of Vascular Anomalies
*Catherine Y. **LIU***
- 17:30 Management of Severe Contracted Socket
*Ratna **DOEMILAH***

12:00 Management of Consecutive Exotropia
Tareik ALDOAIS

Lessons Learnt in Strabismus

The cumulative knowledge of decades of published literature is the basis of our clinical practice in strabismus. However, there are unique lessons and nuances that come with personal experience. We have selected our panel of experienced strabismus surgeons to share some of these unique lessons from their many (combined) years of practice. The session includes lessons learnt in the management of esotropias and specific strabismus syndromes, as well as the learning experience that can come from surprises and mistakes.

14:30 - 16:00 **Venue: Kintamani 2 (BNDCC1-MF)**
Chair(s): Sonal FARZAVANDI, Kimberley TAN, Lely WULANDARI

14:30 Infantile Esotropia: What Is the Best Management?
Hui-chen CHENG

14:39 Do All Children With Acquired Non-refractive Esotropia Need Surgery?
Guan Hui YAP

14:48 Devils in the Details of Management of Heavy Eye Syndrome
Anna Puspitasari BANI

14:57 What Parents and Patients Are Really Asking Me About Strabismus Surgery
Kimberley TAN

15:06 Lessons Learnt From an Unusual Hypotropia
Sonal FARZAVANDI

15:15 Lessons Learnt From a Slipped Muscle
Chen ZHAO

15:24 Lessons Learnt From Surprises and Mistakes in Strabismus Surgeries
Jan-tjeerd DE FABER

15:33 Q&A

Do's and Don'ts in Strabismus Surgery

This symposium highlights the do's and don'ts in various aspects of strabismus management, ranging from preoperative evaluation, the use of topical anaesthesia, to challenging strabismus operations including post-ESS exotropia, thyroid strabismus, and inferior rectus aplasia etc. Insightful discussion will be provided by the expert panel from Spain, Denmark, Singapore, Indonesia, China, Chinese Taipei, and Hong Kong.

- 16:30 - 18:00 **Venue: Kintamani 2 (BNDCC1-MF)**
Chair(s): Devina ANNISA, Jason YAM, Wei ZHANG
- 16:30 Topical Anesthesia in Strabismus Surgery
Rosario GOMEZ DE LIANO
- 16:39 Do's Before Alignment: Fundus Examination in Strabismus Evaluation
Chia-wei LEE
- 16:48 Do's and Don'ts in the Surgical Management of Thyroid Myopathy
Wei Yan NG
- 16:57 Successful Surgical Management of Exotropia After ESS: Personal Experience
Jian-hua YAN
- 17:06 Treatment of Inferior Rectus Muscle Aplasia
Junhong LI

Jon Peiter SAUNTE
- 17:24 Do's Before Restrictive Strabismus Surgery
Luki INDRIASWATI

Refractive Surgery

An Update in Corneal Refractive Surgery: What Is Known and What Is Coming

This symposium will deal with what is known and what is upcoming in modern corneal refractive surgery. The latest progress in intracorneal lamellar surgery and the most recent benchmarks on the topic will be highlighted by internationally acknowledged experts.

- 09:00 - 10:30 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): John CHANG, Sri GANESH, Tjahjono GONDHOWIARDJO
- 09:00 Earlier Experience With Smile Pro (VM800)
John CHANG
- 09:12 Lenticule Extraction Procedure ATOS vs SMILE
Shihao CHEN
- 09:24 Is SMILE the Standard of Corneal Refractive Surgery in Treating Myopic Astigmatism?
Thomas KOHNEN
- 09:36 Application of Corneal Biomechanics in Preoperative Screening
Xiaoying WANG
- 09:48 The Challenges in Presbyopia Treatment Through Corneal Refractive Surgery
Minoru TOMITA

Presbyopia Correction: What Is True, What Is Fake, and What Is Working

Presbyopia is still today a holy grail never accomplished. The compensation of presbyopia can be done with different methods and many others have failed in spite of raising important expectations. This session will give an update on what should be used today based on evidence to correct your presbyopic patients.

- 11:00 - 12:30 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): Jorge ALIO, Sri GANESH, Johan A. HUTAURUK
- 11:00 IC8 IOL
Robert ANG
- 11:12 Presbyond-Principles and Clinical Outcomes
Mahipal SACHDEV
- 11:24 Managing Unhappy Patients After Presbyond
Sheetal BRAR
- 11:36 What Do We Have to Correct Presbyopia Now
Hung Yuan LIN
- 11:48 EDOF IOLs
Mohamad ROSMAN
- 12:00 New Presbyopic Phakic IOL From Ophtec (Artiplus)
Youngsub EOM
- 12:12 Accommodative IOLs Coming Now!
Jorge ALIO

What I Did Wrong and How I Solved It

The resolution of problems is one of the most important issues differentiating refractive surgeons. Those who are able to deal with complications obtain higher levels of excellence, while those who cannot manage complications properly can end up with medico-legal problems. This session will tell you how to prevent and treat problematic conditions in different types of refractive surgery.

- 14:30 - 16:00 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): Jorge ALIO, Nashrul IHSAN, Mohamad ROSMAN
- 14:30 Case Related to Premium IOL
Gerd AUFFARTH
- 14:42 Case Related to Toric IOL
Naren SHETTY
- 14:54 Case Related LASIK
Johan A. HUTAURUK
- 15:06 Analysis and Treatment of Astigmatism After SMILE Surgery
Yan WANG

15:18 TBC
Seyed Javad **HASHEMIAN**

Ocular Surface in Refractive and Premium IOL Surgery

The ocular surface has become one of the most important topics in dealing with modern refractive surgery. Ocular surface management, treatment and optimization are essential tools today to obtain the best outcomes not only in cornea refractive but also in intraocular refractive surgery either with phakic IOLs or with refractive lens exchange. This session is focused on the management of ocular surface in these refractive surgical topics.

16:30 - 18:00 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): John **CHANG**, Sri **GANESH**, Rio **RHENDY**

16:30 Cataract Surgery in Dry Eye Disease: Monofocal, Trifocal, or EDOF?
John **CHANG**

16:42 Premium IOL in Post-refractive Eyes
Gaurav **LUTHRA**

16:54 Optimizing the Ocular Surface Before Premium IOL Surgery
Shail **VASAVADA**

17:06 Ocular Surface Induced Complications in Refractive Surgery

Sheetal **BRAR**

17:30 How to Make the Myopic People With Presbyopia Smile Assisted by Laser
Fengju **ZHANG**

Retina (Medical)

Diabetic Macular Edema (DME)

Anti-VEGF treatments remain the mainstay of therapy for diabetic macular edema. A variety of fixed dosing and as needed (PRN) treatment regimens and monitoring protocols have been shown to be effective without sacrificing visual acuity outcomes, on average. These results, though, are dependent on providing frequent monitoring and frequent anti-VEGF agents to some individuals, which may not be readily available around the world, prompting pursuits of agents or delivery systems that might address these challenges.

09:00 - 10:30 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**
Chair(s): Susan **BRESSLER**, Andrew **CHANG**, Dian **DAMERIA**

09:00 Epidemiology of DME
Sobha **SIVAPRASAD**

09:13 High Dose Aflibercept for DME
Andrew **CHANG**

09:26 Durability of Aflibercept and Faricimab for DME
Onnisa **NANEGRUNGSUNK**

09:39 Some Common Misperceptions Regarding Anti-VEGF Treatment for DME

09:52 Corticosteroids in Management of DME
Matthew **SIMUNOVIC**

10:05 Treating DME in the Presence of Proliferative Diabetic Retinopathy
Jun **KONG**

10:18 Challenges of Managing DME in Indonesia
Dian **DAMERIA**

Proliferative Diabetic Retinopathy (PDR)

Management of proliferative diabetic retinopathy (PDR) has evolved rapidly with the use of anti-VEGF agents over the last few years. Deciding how to incorporate panretinal photocoagulation during the use of anti-VEGF agents for PDR, with and without concomitant diabetic macular edema, as well as the role of imaging and vitrectomy in for PDR or eyes at risk of PDR, is being clarified by results of recent clinical trials.

11:00 - 12:30 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**
Chair(s): Referano **AGUSTIAWAN**, Youxin **CHEN**, Taraprasad **DAS**

11:00 Remote Laser Photocoagulation
Youxin **CHEN**

11:15 PRP vs Anti-VEGF for PDR
Susan **BRESSLER**

11:30 Managing DME in the Setting of PDR
Gopal **LINGAM**

11:45 Imaging PDR
Paolo Antonio **SILVA**

12:00 Traction Retinal Detachments Not Requiring Prompt Vitrectomy
Xiaoyan **DING**

12:15 Vitrectomy vs Anti-VEGF for Vitreous Hemorrhage from PDR
Referano **AGUSTIAWAN**

Polypoidal Choroidal Vasculopathy (PCV)

Polypoidal choroidal vasculopathy (PCV), a specific phenotype of choroidal neovascularization, is frequently noted among older patients of Asian descent but is also seen in other patients around the world. Recent clinical research has helped to guide imaging interpretation of this condition on structural OCT as well as OCT angiography. While anti-VEGF treatment is effective at reducing the risk of vision

loss in many patients, evolving imaging and anti-VEGF agents, as well as photodynamic therapy, continue to be evaluated.

14:30 - 16:00 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**
*Chair(s): Gitalisa **ADRIONO**, Voraporn **CHAIKITMONGKOL**, Gemmy **CHEUNG CHUI MING***

- 14:30 Epidemiology of PCV
*Tock-han **LIM***
- 14:45 Imaging of PCV

- 15:30 Newest Anti-VEGF Agents for PCV
*Colin **TAN***
- 15:45 Role of ICG-Guided Treatment
*Paisan **RUAMVIBOONSUK***

Drug Toxicities in Retina

New systemic therapies, including checkpoint and other inhibitors, have been associated with adverse events in the retina in some individuals, necessitating continuing medical education to recognize these findings, while newer imaging techniques assist with understanding other drug toxicities, e.g., from hydroxychloroquine or tamoxifen. Other potential toxicities, such as silicone oil droplets in the eye following intravitreal injections, or associations of pentosan polysulphate with retinal changes that may appear indistinguishable from pattern dystrophies of the retina, will be discussed.

16:30 - 18:00 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**
*Chair(s): Arief **KARTASASMITA**, Mark **PENNESI**, Young Hee **YOON***

- 16:30 Retinal Masquerades of MEK, Checkpoint, ALK, and ERK Inhibitors
*William **MIELER***
- 16:45 Hydroxychloroquine Toxicity Updates
*Arief **KARTASASMITA***
- 17:00 Severe Intraocular Inflammation With Newer Intravitreal Agents for Neovascular AMD or Geographic Atrophy
*Jun **KONG***
- 17:15 Tamoxifen Toxicity: What Should the Ophthalmologist Know

*Rufino **SILVA***

Retina (Surgical)

Management of Vitreoretinal Surgery Complications

Vitreoretinal surgery has significantly advanced the treatment of vitreoretinal diseases. However, despite extensive surgical experience since the advent of the vitrectomy in the 1970s, complications persist. These include suprachoroidal hemorrhages, challenges in diabetic vitrectomies, recurrent or unclosed large macular holes, and many others that may arise during or after surgery. Though rare, complications related to retinal surgery can have serious consequences. This session will highlight several of the complications specific to vitreoretinal surgery, as well as their prevention and management.

09:00 - 10:30 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**
*Chair(s): Gavin **TAN**, Peiquan **ZHAO**, Erwin **ISKANDAR***

Pediatric Retinal Surgery

The surgery for pediatric retina diseases is challenging. The session highlights the recent advances in pediatric retina surgery. The contents include the novel approach in pediatric retinal detachment surgery, current management of juvenile retinoschisis,

gene therapy for Leber congenital amaurosis, a new approach to the pediatric giant tear, IOL fixation in pediatric patients in the absence of bag support, and surgical management in advanced Coats disease. The speakers are world-renowned experts in the field. After the session, the audience will get a better idea of surgical techniques for managing these tough pediatric retinal surgical cases.

11:00 - 12:30 **Venue: Singaraja 2 (BNDCC1-1F)**

Translational Research in Ophthalmology

[AOI Symposium] Areas Where Basic Science Has Given New Insight Into Pathobiology of Ocular Diseases

The Academia Ophthalmologica Internationalis connects ophthalmologists who are leaders in their fields of clinical care and science, who are heavily involved in educating the next generation of ophthalmologists.

This symposium will explain how insight into the pathobiology of diseases will help to improve patient care in diseases such as diabetes, ROP, myopia, and glaucoma. Professor Hugh Taylor will give the very special AOI Lecture: Global Blindness: Are We Making Progress?

11:00 - 12:30 **Venue: Kintamani 7 (BNDCC1-MF)**
Chair(s): Rina La **NORA**, Marie-jose **TASSIGNON**, Hiroko **TERASAKI**

Translational Research in Imaging, Digital Ophthalmology, and Artificial Intelligence

AI innovation in Ophthalmology continues to advance, with notable trends including the development of OcularNET, a multimodal foundation model for screening common eye disorders. AI applications in glaucoma and retinopathy of prematurity are gaining prominence. Leveraging large language models (LLM) in ophthalmology enhances diagnostic accuracy and research capabilities. Transitioning from manual to digital workflows is crucial for the successful implementation of AI in diabetic retinopathy (DR) screening, highlighting the transformative potential of AI in this domain.

16:30 - 18:00 **Venue: Kintamani 5 (BNDCC1-MF)**

Global Collaboration in Eye Research and Participation in the Asia- Pacific Region

Global collaboration facilitates research and its applications. In eye research, collaborations involving multiple study cohorts, upfront technologies and data interpretations have led to valuable outputs. This symposium will discuss benefits and issues in global collaboration on eye research especially in the Asia- Pacific region and how it connects with the whole global eye research community with successful examples. Global collaboration of research in eye diseases should be strongly advocated for the benefits of patients worldwide and the advancement of science.

09:00 - 10:30 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Calvin **PANG**, John **PRAKASH**, Muhammad **SASONGKO**

09:00 NEI Strategic Plan and Global Collaboration of Eye Research
John **PRAKASH**

09:10 Need for Standardization of Methodology in Eye Research

Illuminating Perspectives: Unraveling the Mechanisms of Light Therapy Strategies in Ophthalmology

Light-based strategies are emerging as therapeutics for various eye conditions, but how much do we truly understand their mechanisms? Join our session where expert speakers in the field of light and eye health will illuminate the mechanisms of contemporary light therapy strategies in ophthalmology, with a specific focus on myopia—a leading global cause of visual impairment. Don't miss this session on what may be the most impactful non-pharmacologic strategies for the future of ophthalmic care.

14:30 - 16:00 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Regan ASHBY, Raymond NAJJAR

14:30 Mechanisms of Action, Effectiveness, and Safety of Light Therapy for Dry Eye Diseases
Rohit SHETTY

14:45 Low-level Red-light Therapy: The Possible Mechanism

15:45 Panel Discussion

AI, Digital Innovation and Virtual Health

Artificial Intelligence and Digital Innovation for Global Health

This transformative session explores a holistic approach to eye health worldwide. From addressing low-to- middle-income countries' educational needs

in AI applications to leveraging technology in myopia management, it delves into the economic impact of virtual health in China and the overarching role of digital technology in advancing global ophthalmology. An integrated vision for a digitally empowered and inclusive future in eye care emerges, fostering collaboration, accessibility, and innovation.

09:00 - 10:30 **Venue: Kintamani 6 (BNDCC1-MF)**
Chair(s): R.V. Paul CHAN, Rina La NORA, Jude STERN

09:00 AI and Digital Technology for Global Eye Health

Muhammad SASONGKO

Safe and Responsible AI in Ophthalmology

Artificial Intelligence in ophthalmology revolutionizes eye care by combining cutting-edge technology with ethical considerations. Ensuring patient safety, privacy, and transparent decision-making, this approach enhances diagnostic accuracy, treatment planning, and overall healthcare outcomes. This session will explore the crucial theme of striking a balance between innovation and ethical practices and how it paves the way for a future where AI contributes to improved vision health with integrity and accountability.

14:30 - 16:00 **Venue: Kintamani 6 (BNDCC1-MF)**

Academia, Research, Teaching and Education in Ophthalmology

The Best Evidence in Medical Education – A 5-Year Review

Best evidence medical education is the implementation, by teachers in practice, of methods and approaches to education based on the best evidence available. In this symposium, faculty will discuss best evidence recent publications on a variety of topics related to medical education, drawing their own expertise.

09:00 - 10:30 **Venue: Uluwatu 1 (BNDCC1-GF)**
Chair(s): Prashant GARG, Syntia NUSANTI, Ana PALIS

[APAO Research Workshop] Can I Use AI ChatBots to Write a Scientific Paper?

Can I use AI chatbots to write a scientific paper? This is a question frequently asked by many authors, but the majority of journals do not yet have clear guidelines. This workshop brings together experts and journal editors to deliberate on this pivotal yet contentious matter. While AI chatbots enhance content generation, language refinement, and writing efficiency for researchers, the workshop highlights the limitations of AI tools and underscores ethical considerations in scientific writing. The workshop also covers the responsible use of AI in scientific writing and offers insights into leveraging technology for effective and ethically sound scientific communications.

14:30 - 16:00 **Venue: Kintamani 5 (BNDCC1-MF)**
Chair(s): Ching-yu CHENG, Jost JONAS, Muhammad SASONGKO

Cataract

How to Improve Your Cataract Outcomes

The Session “How to Improve Your Cataract Outcomes” explores crucial topics for cataract surgeons. It will learn about retinal screening considerations, optimizing the ocular surface pre-surgery, and enhancing outcomes with Toric IOLs. It delves into selecting the best presbyopia options for patients and effective management of residual refractive errors. The session concludes with insights

into preventing endophthalmitis, providing a comprehensive overview of key aspects to enhance cataract surgery practices.

09:00 - 10:30 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): George **BEIKO**, Andrzej **GRZYBOWSKI**, Setiyo **RIYANTO**

- 09:00 Screening the Retina- What a Cataract Surgeon Should Know

Andrzej **GRZYBOWSKI**

[IOA-INASCRS Joint Symposium] Complications in Cataract Surgery

How would we cope when something unexpected happens during our cataract surgery? In this symposium, the speakers will share their experience in the management of challenging cases in cataract surgery such as small pupil, shallow anterior chamber, and zonulopathy intra phacoemulsification surgery. All conditions should be managed with the right technique to bring excellent results.

11:00 - 12:30 **Venue: Uluwatu 7 (BNDCC1-GF)**
Chair(s): Setiyo **RIYANTO**

- 11:00 Phaco in Small Pupil: As a Beginner; What You Should Know and What to Do?
Ricky **ROOROH**
- 11:12 Mastering Phacoemulsification in Shallow Anterior Chamber

Pupil Reconstruction

The objective of this course is to give the attendees an overview of different strategies and medical devices that can be implemented to solve difficult cases of secondary repair of the anterior segment of the eye and more in particular damage to the iris. Artificial

iris, iris printed IOLs and iris suturing techniques proposed by different expert surgeons in the field of iris repair. In addition, capsular bag stabilization techniques using direct or indirect IOL scleral suturing techniques will help the surgeon to end the repair with optimal and long-lasting results.

14:30 - 16:00 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Muhammad **EDRIAL**, Haike **GUO**, Marie-jose **TASSIGNON**

- 14:30 Artificial Iris- When and How
Soon-phaik **CHEE**

Mohan **RAJAN**

[APAO-ESCRS Joint Symposium] Biometry and IOL Calculation

The current IOL calculation formulas behave very well in eyes that present "Normal biometrics". Can we improve the outcome of IOL calculation by using AI or Ray Tracing to improve our outcomes in eyes with "Not Normal biometrics"? First, the outliers in biometrics should be defined. Then specific conditions will be discussed e.g. IOL calculation in the myopic eye and IOL calculation in the eye after Cornea Laser Surgery.

16:30 - 18:00 **Venue: Singaraja 2 (BNDCC1-1F)**
Chair(s): Rio **RHENDY**, Filomena **RIBEIRO**, Marie-jose **TASSIGNON**

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

[IOA-INOIS Joint Symposium] Infection and Inflammation on the Cornea and External Part of the Eye

This session was designed with daily practice relevant topics, such as lid margin disease, dry eye, corneal opacity, limbal stem deficiency, work-related corneal ulcer and filamentary keratitis, conditions that are seen regularly by a general ophthalmologist. The topics will be presented with clinical information and updated management that can be immediately incorporated into practice.

09:00 - 10:30 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Fatma ASYARI, Marina ALBAR, Anang TRIBOWO

Infections You Don't Want to Miss!

Not all red eyes are due to infections. And for those that are due to infections, there are various types of them: conjunctivitis, endophthalmitis, keratitis, etc. While most minor ocular infections will heal on their own, others can be more alarming and lead to permanent vision loss. To ensure an excellent visual outcome for the patient, prompt diagnosis and appropriate are crucial. Rest assured, because the APAO experts are delighted to share about infections they encounter on a daily basis, without missing any behind!

11:00 - 12:30 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**

Glaucoma

Glaucoma in the Next 10 Years

Focusing on the future of glaucoma management, this session presents a series of forward-thinking topics. Discussions will range from exploring “Future Directions in Optic Nerve Protection and Repair” to examining the intricate relationship between “High Myopia and Glaucoma.” It also highlights the transition towards “Minimally Invasive Surgeries” in glaucoma care and addresses the challenges and potential solutions for “AI Implementation in Glaucoma Care.” This session is designed to offer a holistic view of the upcoming advancements and challenges in the field of glaucoma, providing attendees with insight into the latest research and treatment strategies.

09:00 - 10:30 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**

AI and Big Data in Glaucoma

Artificial intelligence (AI) is a recent technology that has made a significant impact on our daily lives. AI can play a major role in ophthalmology, including for glaucoma diagnosis and management, and is the subject of much research. This symposium will provide an overview of some of the latest research in the use of AI for glaucoma today.

11:00 - 12:30 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**
Chair(s): Aulia ABDULLAH, Robert CHANG, Ching-yu CHENG

Basic Science in Glaucoma

A better understanding of the mechanisms that cause retinal ganglion cell loss in glaucoma is essential to developing new treatments. In this session, we will explore how fundamental mitochondrial research has led to new candidate therapies for glaucoma that are currently in multiple clinical trials around the world. In addition, potential new glaucoma treatments using gene therapy will be considered. We will also discuss additional risk factors for glaucoma related to the trabecular meshwork biology and episcleral venous circulation.

Intraocular Inflammation, Uveitis and Scleritis

Drug Delivery and Emerging Therapies in Management of Uveitis and Scleritis

There has been a significant advance and expansion in the therapeutic options for the management of uveitis and scleritis recently. This session aims to provide an overview of both existing and emerging therapies. The emerging treatments discussed will encompass new corticosteroid therapies, biological agents targeting novel cytokines, and small molecular inhibitors. As the eye is perhaps the most attractive site for local drug delivery, local treatments for ocular toxoplasmosis and tuberculosis will also be discussed.

11:00 - 12:30 **Venue: Kintamani 1 (BNDCC1-MF)**

Myopia

[IMI Symposium] Myopia Management Masterclass: Practical Solutions

This session equips clinicians with tools for navigating the dynamic field of myopia, covering practical management options such as low-dose atropine, myopia control spectacles, contact lenses, and red-light therapy. Emphasizing prevention and appropriate management to avert high myopia, it explores new evidence on pre-myopia. The International Myopia Institute (IMI) addresses the need for consensus and clinical guidance by presenting the latest findings from world-renowned experts, drawing from their highly cited white papers that serve as crucial resources in the ever-expanding realm of myopia research.

09:00 - 10:30 **Venue: Kintamani 2 (BNDCC1-MF)**

Neuro-Ophthalmology

[NANOS Symposium] Paradigm Shifts in Neuro-Ophthalmology

Medical, surgical, and technological advances have led to shifts in clinical practice that impact our care of neuro-ophthalmic patients. For example, the use of targeted systemic therapies has improved patient outcomes in immune-mediated disorders, while immune activation for cancer treatment may conversely cause new neuro-ophthalmic symptoms. In this symposium, the North American Neuro-Ophthalmology Society joins APAO in presenting speakers from around the world to engage you in a discussion of how these advances will shape our care of patients in the years to come.

[IOA-INANOS Joint Symposium] Optic Nerve Dilemma in Daily Practice

The optic nerve problem is often faced with a dilemma regarding how to investigate, differentiate, and treat patients presenting with vision loss from optic neuropathy and/or a swollen optic disc. This symposium will be the answer to the dilemma faced in cases of optic nerve disorders in daily practice.

14:30 - 16:00 **Venue: Kintamani 3 (BNDCC1-MF)**

[ASNOS Symposium] Neuro-Ophthalmology in Asia

The session is organized for each member country to bring their own issues in their clinical practice and/or clinical research. It will address ways to resolve the issues by the exchange of experiences and know-how among participants. Some may summarize their regional characteristics in clinical phenotypes that would contrast other parts of Asia. The session also provides a platform to show cutting edge studies to the rest of Asian countries and presents a good opportunity for the organization of future collaborative projects.

Notably, the session will be concluded by the keynote lecturer, Dr Mohamad SIDIK, Honorary ASNOS Councilor.

16:30 - 18:00 **Venue: Kintamani 7 (BNDCC1-MF)**
Chair(s): Carmen CHAN, Satoshi KASHII, Syntia NUSANTI

16:30 Indian Neuro Ophthalmology: Triumphs and Tribulation
Rashmin GANDHI

Ocular Trauma

[APOTS Ophthalmic Trauma Program] Eye of the Storm: Ophthalmic Trauma Challenge

“Eye of the Storm” is an engaging and interactive component of the APOTS Ophthalmic Trauma Program. This segment simulates real-life scenarios where participants face challenging ophthalmic trauma cases. By immersing healthcare professionals in these scenarios, the program aims to sharpen their decision-making skills, foster teamwork, and enhance their ability to handle complex eye injuries. Participants will navigate through the metaphorical storm of ophthalmic trauma, gaining practical experience and confidence in managing critical situations.

[APOTS Ophthalmic Trauma Program] Mastering Ophthalmic Trauma: A 90-Minute Masterclass

The “Mastering Ophthalmic Trauma” masterclass is designed for professionals seeking a concentrated and in-depth learning experience. In a concise 90-minute session, participants will delve into advanced topics related to ophthalmic trauma management. The masterclass covers cutting-edge techniques, the latest advancements in treatments, and case studies that highlight successful strategies in complex scenarios. This intensive session aims to elevate participants’ expertise in ophthalmic trauma, allowing them to apply nuanced and effective approaches in their clinical practice.

Ophthalmic Epidemiology and Prevention of Blindness

“Executive Summary”: Everything You Need to Know about Novel Approaches to Global Eye Health and Epidemiology in Hong Kong, Taipei, and Mainland China

A deep dive into the landscape of eye disease epidemiology and state-of-the-art eye health strategies in Hong Kong, Taipei, and Mainland China. Eight experts will present key challenges and share cutting-edge ideas and transformative solutions for combating prevalent eye diseases, including myopia, glaucoma, and diabetic retinopathy. Engage with ground-breaking research including vision screen and smartphone self-screen, and models poised to reshape global eye health. A session not to be missed.

Improving Access and Promoting Equity in Eye Health in Australia, New Zealand, and Pacific Islands: Use of New Tools and Approaches

Ensuring access to eye health services and achieving equitable eye health outcomes are major challenges in our region. In this session, we will provide a snapshot of the key access and equity issues in our sub-region, with a particular focus on Indigenous and remote communities and the promise of strengthening health systems. We will share our reflections on tools and approaches that we have recently implemented, and discuss new approaches we are developing to improve access and promote equity.

“Executive Summary”: Everything You Need to Know about Novel Approaches to Global Eye Health and Epidemiology in Japan, Mongolia, South Korea, and the Philippines

Recently, the burden of ocular diseases in East Asia has escalated significantly. The incidence of myopia has risen to the point where it has been branded an “epidemic,” and the increasing prevalence of

eye conditions associated with aging has surfaced as a critical public health matter. The symposium will feature creative answers and evidence-based initiatives of researchers from Japan, South Korea, Mongolia, and the Philippines. These sessions will provide valuable insight into recent advancements in innovative eye health programs.

Pediatric Retinal Disorders and Retinopathy of Prematurity (ROP)

Retinal dystrophy and retinopathy of prematurity (ROP) are leading causes of childhood visual

impairment in both developing and developed countries. Experts in ROP care will present topics on early diagnosis of ROP using mobile ROP screening, telemedicine in low-income countries, and the application of anti-VEGF in ROP treatment; share their vast clinical experience with the audience in the management of pediatric retinal detachment. This symposium will also present audiences with a rare opportunity to listen to the personal experience of a world expert in VN therapy for RPE65-IRDs.

14:30 - 16:00 **Venue: Kintamani 2 (BNDCC1-MF)**
Chair(s): Shuan DAI, Rita S SITORUS, Wei-chi WU

Retina (Medical)

Neovascular (Wet) Age-Related Macular Degeneration (AMD)

As with diabetic macular edema, anti-VEGF agents have reduced the chance of vision loss in patients with neovascular (wet) AMD. Nevertheless, many patients require frequent visits and frequent treatments, resulting in a variety of approaches to try to reduce the frequency of visits with home monitoring and newer agents that have been approved, allowing less frequent dosing for some, but not all, individuals. Biosimilars are becoming available to try to reduce costs as a barrier to frequent treatments for some.

- 09:00 - 10:30 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**

Geographic Atrophy

Within the last year, two agents have been approved by regulatory authorities around the world, based on anatomic results from several randomized clinical trials. While the primary outcome showed slightly less growth of GA in the treated than control groups,

treated and control groups, on average, had a substantial decline in best-corrected visual acuity over two years, while the treated groups were far more likely to develop exudative (neovascular) AMD, likely limiting the clinical relevance of anatomic benefits.

[APVRS Symposium] Controversies in Vitreoretinal Surgery

Innovations and improvements in vitreoretinal surgery necessitate surgeons to always apply the best practice in their surgeries. In this session, participants are invited to join the discussion on various controversial topics in vitreoretinal surgeries. Surgical techniques and equipment, including tamponade agents and intraoperative OCT, approaches to gene therapy in inherited retinal diseases, and the safety of re-using disposable instruments are some of the highly anticipated topics that are going to be presented in this session.

Sticky Surgical Situations – A Video Symposium

Along with the development of medical technologies in eye surgeries, various surgical techniques have been developed to minimize complications during or after the procedures and to maximize postoperative outcomes. Various surgical scenarios can arise at any time; therefore, prompt and accurate decision-making is needed to prevent complications. In this session, a number of challenging cases and several videos from experienced surgeons were recorded and will be shown as videos and discussed for application in your daily practice.

Translational Research in Ophthalmology

Translational Research in Cell and Gene Therapy in Ophthalmology

Cutting-edge research is advancing the field of ophthalmology. Promising developments include the creation of hypoimmunogenic iPSC-RPE cells derived from cord lining to enhance retinal cell transplant outcomes. Novel therapeutics for ocular angiogenic diseases are in development, alongside updates in cell therapy for hereditary eye disorders. Patient-derived retina organoids serve as a platform for base editing therapy in SLC71A14 mutations. A comprehensive overview of cell and gene therapy for age-related macular degeneration (AMD) is available, and potential therapies in ocular oncology are explored, including gene therapy and immune checkpoint blockade.

[AOI Symposium] Genetics in Ophthalmology

The Academia Ophthalmologica Internationalis connects ophthalmologists who are leaders in their fields of clinical care and science, who are heavily involved in educating the next generation of ophthalmologists.

What is the importance of testing genetics and genomics? One can help patients with advice about the future when a specific genetic disease has been identified, and the use of data from proteomics or genomics may help with the identification of targetable disease processes. Many of these approaches will become standard in the future and will now be explained by experts in the field.

16:30 - 18:00 **Venue: Kintamani 3 (BNDCC1-MF)**
Chair(s): Martine JAGER, Rita S SITORUS, Janey WIGGS

- 16:30 Introduction on the Academia Ophthalmologica Internationalis (AOI)
Richard ABBOTT

Ocular Organoids From Pluripotent Stem Cells

More than a decade has passed since the introduction of retinal organoids. Meanwhile, other ocular organoids have been generated. This session will focus on "PSC-derived ocular organoids", and six scientists will present their work on ocular organoids, covering topics in cell biology and the application of ocular organoids in basic, translational and regenerative medicine.

09:00 - 10:30 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Zi-bing JIN, Xinyi SU, Cosmos O. MANGUNSONG

- 09:00 Proliferative Behavior of Retinal Organoid Cells

[APSEG Symposium] Glaucoma Genetics

Glaucoma is one of the most heritable diseases, and we have found many genes associated with Congenital Glaucoma, Primary Open-Angle Glaucoma and Primary Angle-Closure Glaucoma. For Mendelian forms of glaucoma with young onset this allows predictive testing for children at risk. For adult onset POAG, we now have advanced Polygenic Risk Scores that can be used to guide clinical intervention. We need to broaden the ethnic populations involved in glaucoma genetics studies to make translation of this

work universal.

11:00 - 12:30 **Venue: Uluwatu 4 (BNDCC1-GF)**

Asia Pacific Inherited Eye Disease (APIED) Symposium

Inherited retinal diseases (IRDs) are a leading cause of visual impairment and blindness in children and working-age adults. The establishment of the Asia Pacific Inherited Eye Disease (APIED) Network aims to facilitate concerted regional efforts in (I) identifying and overcoming barriers that may hinder the translation of basic science discoveries into clinical care, and (II) coordinating and harmonising care and research of IRDs regionally and internationally.

14:30 - 16:00 **Venue: Uluwatu 4 (BNDCC1-GF)**

AI, Digital Innovation and Virtual Health

Artificial Intelligence and Deep Learning in Ocular Imaging for Posterior Segment Imaging

Artificial Intelligence redefines posterior segment imaging in ophthalmology. It enables early detection of posterior segment pathologies, personalized treatment plans, and enhanced patient outcomes. This session focuses on how AI marks a transformative era in posterior segment imaging, advancing eye care with unprecedented accuracy and effectiveness.

09:00 - 10:30 **Venue: Kintamani 6 (BNDCC1-MF)**

Academia, Research, Teaching and Education in Ophthalmology

The Next Step in Medical Education: Technology and AI

Medical education has greatly benefitted from advancement in IT, and ophthalmology is no exception. Artificial intelligence (AI) provides new tools for improving the efficiency, quality and availability of methods of residency training. Topics include using AI for medical education, providing feedback, utilizing big data and improving resident assessment. Virtual reality for surgical training and virtual interviewing as a method of resident selection will also be covered.

11:00 - 12:30 **Venue: Kintamani 5 (BNDCC1-MF)**
Chair(s): Rajvardhan **AZAD**, Karl **GOLNIK**, Arief **KARTASASMITA**

Capsule Complications

This symposium explores preventing typical complications in cataract surgery, especially those affecting the capsule and hindering successful Intraocular Lens (IOL) implantation. It underscores the vital role of precise surgical methods in averting specific issues. Moreover, it discusses managing intra-operative complications and navigating pre-existing ones, shaping the core discussions of this symposium on cataract surgery intricacies.

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

Corneal and Anterior Segment Imaging

The anterior segment is the most accessible part of the eye and its health is critical to visual quality. Various imaging modalities complement each other, and it is of great importance for all to get a good grasp of them. In this exciting symposium, speakers from expert areas will be taking the audience through the basic fundamentals, clinical and diagnostic applications of these advancements and latest developments of such modalities.

09:00 - 10:30 **Venue: Pecatu Hall 1, 2 (BNDCC2-GF)**

Glaucoma

Surgeries in Refractory Glaucoma

Lowering the intraocular pressure (IOP) is currently the only proven treatment to slow or stop glaucoma progression. However, this may not be readily achievable with existing treatment modalities (i.e. medication, laser, and surgeries). In this presentation, we will share some refractory glaucoma cases with the audience and provide thoughts about the treatment approaches.

09:00 - 10:30 **Venue: Pecatu Hall 3, 5 (BNDCC2-GF)**

Intraocular Inflammation, Uveitis and Scleritis

Uveitis in Children: Challenges in Diagnosis and Treatment

This symposium aims to focus on targeted differential diagnostics and child-adapted therapy. The management of infectious and non-infectious etiologies will be presented. Important differential diagnoses for masquerade syndromes are included. Clear instructions for acute treatment and basic immunomodulatory therapy in child-adapted monitoring, such as flare measurement, will be presented.

09:00 - 10:30 **Venue: Kintamani 1 (BNDCC1-MF)**
Chair(s): Soon-phaik CHEE, Uwe PLEYER, Ratna SITOMPUL

Ocular Oncology and Pathology

Eyelid and Orbit

Many malignancies develop on the ocular surface, the eyelid and the orbit. The ocular surface is exposed to sunlight, which may stimulate the development of a lot of malignancies. Proper identification and treatment may help to save the eye and also improve the life of the patient by preventing disastrous outgrowth and metastases. This session will help explain the most modern ways to make a diagnosis and treat these cases.

Refractive Surgery

[ISRS Symposium] Multifocal IOLs: How to Manage Them and How to Solve Their Complications

Multifocal lenses have been confirmed as one of the important accomplishments in cataract and refractive lens surgery. The diversity of multifocal intraocular lenses, their different performances and sometimes complications are still limiting their use. In this session, we aim to clarify the different types of multifocal lenses to be chosen for your patients and also how to solve the most frequent complications, especially neuroadaptation failure, so feared by the cataract surgeon.

Retina (Medical)

Inherited Retinal Degeneration

Knowledge regarding the diagnosis and management of inherited retinal degeneration is undergoing rapid change. With the advent of genetic testing, more specific genotypes are being matched to various phenotypes that may aid in discussions on prognosis and management. Novel, clinically relevant clinical trial endpoints are being developed in conjunction with gene therapies, CRISPR base editing, as well as studies considering the potential for cell therapy in inherited retinal degenerations.

Retina (Surgical)

Retinal Detachment Surgery

This Retinal Detachment Surgery symposium will provide a thorough update regarding the most common surgical approaches to the repair of primary rhegmatogenous retinal detachments (pneumatic retinopexy, scleral buckle, pars plana vitrectomy). Also reviewed will be the use of ancillary techniques which may improve outcomes in select cases. The timing of surgical repair will be discussed, along with the treatment of proliferative vitreoretinopathy (PVR), and current research into the prevention of PVR. Finally, pediatric retinal detachments will be reviewed, along with the use of the 3D heads-up surgical approach.

09:00 - 10:30 **Venue: Singaraja 1 (BNDCC1-1F)**
Chair(s): William MIELER, Ratu Puri SASTRADIWIRJA, Sherman VALERO

- 09:00 Update on Pneumatic Retinopexy
Sherman VALERO
- 09:08 The Trend Toward Repair of Rhegmatogenous RD via a Vitrectomy Approach
William MIELER
- 09:16 Scleral Buckling: Will the Procedure Exist or Be Extinct in the Future?
Sanyam BAJIMAYA
- 09:24 Timing of Surgical Repair of a Rhegmatogenous RD-Is There an Urgency?
Ratu Puri SASTRADIWIRJA
- 09:32 Tissue Glue in RD Repair
Mudit TYAGI
- 09:40 Management of PVR Retinal Detachment With Inferior Retinectomy
Wilson WONG JUN JIE

- 09:48 Ongoing Research in the Prevention and Treatment of PVR
Gavin **TAN**
- 09:56 Update on the Management of Pediatric Retinal Detachments
Wai-ching **LAM**
- 10:04 Learning Curve in Using 3D Heads Up Vitrectomy for RD
Grimaldi **IHSAN**

[IOA-INAVRS Joint Symposium] Challenging Cases in Vitreoretinal Surgery

Macular hole and nucleus drop are challenging cases. They need a different approach to improve the surgical success rate. In this session inverted ILM flap surgery and nucleus drop with secondary implant will be demonstrated, and other interesting cases will be presented by the INAVRS member.

11:00 - 12:30 **Venue: Kintamani 3 (BNDCC1-MF)**
Chair(s): Made Indra **WIDYANATHA**

- 11:00 Case Presentation
Sindy Boru **SEMBIRING**
- 11:12 Traumatic Macular Hole: Inverted ILM Flap Surgery
Ahmad **THOHIR**
- 11:24 Nucleus Drop – Secondary IOL
Salam **SURBAKTI**
- 11:36 Case Presentation
Martin **HERTANTO**
- 11:48 Panel Discussion
Afrisal **KURNIAWAN**, Firman **WARDHANA**,
Anggun **YUDANTHA**

Translational Research in Ophthalmology

Strategies and Lessons in Translational Research and Implementation in Ophthalmology: From Bench to Patients

Current ophthalmological research encompasses diverse areas. Efforts bridge the gap from laboratory discoveries to practical applications in the management of corneal diseases. Animal studies play a pivotal role in advancing our understanding of neuro-ophthalmology. Progress in retina implants, transitioning from bench to bedside, holds promise for vision restoration. Focus on corneal endothelial regenerative medicine and novel drug delivery systems represents innovative therapeutic avenues. Investigating cellular diversity and stem cells in retinal and choroidal vessels offers insights into vascular pathology. Clinical trials involving iPSC-derived corneal epithelial sheet transplantation seek to enhance corneal regenerative therapies.

09:00 - 10:30 **Venue: Kintamani 5 (BNDCC1-MF)**
Chair(s): Yulia **AZIZA**, Suber **HUANG**, Shigeru **KINOSHITA**

- 09:00 Corneal Disease: Lab to Patients
Jodhbir **MEHTA**
- 09:08 The Role of Animal Study in Neuro-Ophthalmology Practice
Antonia **INDRIATI**
- 09:16 Improving Clinical Trials for Rare Diseases in Ophthalmology
Suber **HUANG**
- 09:24 Towards Corneal Endothelial Regenerative Medicine
Shigeru **KINOSHITA**
- 09:32 Novel Drug Delivery
Wai Kit **CHU**
- 09:40 Cellular Diversity and Stem Cells in Retinal and Choroidal Vessels

Eva **FENWICK**

Visual Sciences

[GEGC-InaSGED Joint Symposium] Beyond GWAS: Uncovering Functional and Clinical Contexts of Genetic Variants for Eye Diseases

The advent of advanced and cost-effective technologies in molecular genomics over the past decade has led to the identification of a vast number of eye disease genes and gene variants. Many institutions in different parts of the world are dedicated to genetic eye diseases and attend to these patients and families. Functions and clinical contexts of the newly found genetic variants are under intensive study. In this session, advances in gene identification and functions for eye diseases will be intensively discussed.

11:00 - 12:30 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Katie **WILLIAMS**, Kenji **YAMASHIRO**, Dhimas **SAKTI**

- 11:00 The Phenotypic Spectrum of Sequence Variants of RPE65 and the Challenge of Patient Selection for Gene Augmentation Therapy With Voretigene Neparvovec
Birgit **LORENZ**
- 11:10 Inherited Retinal Disease: Finding Genotype-Specific Biomarkers
Dhimas **SAKTI**

- 11:20 Refractive Error and Axial Length Distributions in Genetically Confirmed Inherited Retinal Diseases
Katie WILLIAMS
- 11:30 The Translation Value of Multi-Omics: The Interplay Among Genomics, Metabolomics, and Clinical Characteristics in Inherited Retinal Degeneration
Ta-ching CHEN
- 11:40 Cracking the Code: Can We Personalize Treatments for Genetic Variants in Inherited Retinal Diseases?
Wendy WONG
- 11:50 Pathogenesis Insight of Central Serous Chorioretinopathy Through GWAS Results
Kenji YAMASHIRO
- 12:00 Gene Editing Technique to Save Sight- CRISPR View on Genetic Eye Disease

Myopia

Rapid Fire Myopia Update Session

- 11:00 - 12:30 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Anil GANGWE, Surendran SUNDARARAJAN, Wei ZHANG
- 11:00 Form-Deprivation Myopia Promotes Sclera M2-type Macrophages Inflation in Mice
Bingru ZHENG
- 11:04 A Strategy Study on the Step Increase of the Concentration of Low-Dose Atropine Treatment for Controlling Myopia Progression
Shifei WEI
- 11:08 Axial Length and Choriocapillaris Flow Deficits in Non-pathological High Myopia
Kangjie KONG
- 11:12 Global Ocular Deformation in Pathologic Myopia
Shida CHEN
- 11:16 A Novel Artificial Intelligence-Based Classification of Highly Myopic Eyes Based on Visual Function and Fundus Features
Xiangjia ZHU
- 11:20 Relationship Between Flicker Modulation Sensitivity and Axial Length in Myopic Subjects
Shaoying TAN
- 11:24 Safety of 0.01% Atropine Eye Drops in Chinese Children and Adolescents With Myopia: A Real-world Study
Lei GUO
- 11:28 Physiological Growth of Axial Length in Myopic Children: A 6-Year Cohort Study
Yanxian CHEN

- 11:32 Evaluating Efficacy and Associated Rebound With Atropine 0.01% in Preventing Myopia Progression Among School-Aged Indian Children
Vinay GUPTA
- 11:36 Can We Really Distinguish ‘Non-responders’ to Myopia Control Interventions?
Monica JONG
- 11:40 Prediction of 3-Year Axial Elongation and Refractive Progression Among Myopes From 1-Year Data: A Meta-analysis
Monica JONG
- 11:44 Impact of 0.01% Low-Dose Atropine on Ocular Biometric Parameters Particularly Crystalline Lens Power in Children With Progressive Myopia
Vinay GUPTA
- 11:48 Refractive Errors in Adolescents With Varying Degrees of Internet Addiction
Elina SHAYKHUTDINOVA
- 11:52 The Effect of Dual-Focus Soft Contact Lenses on Peripheral Refraction
Ji KOU

Yuzhou ZHANG
- 12:04 Education Effect on Myopia Prevalence in Children From Kindergarten to Primary School: The Hong Kong Children Eye Study
Yuzhou ZHANG
- 12:08 Prospective Study on Binocular Imbalance as a Potential Indicator of Myopia Development Using a Virtual Reality Platform
Tao ZHENGYANG
- 12:12 Clinical Predictors of Progression in a Singaporean Cohort of Highly Myopic Adults
Xavier CHAN
- 12:16 the efficacy and safety of orthokeratology, 0.04% atropine, and 0.01% atropine on myopia control
Jianfeng ZHU

- 12:20 Proteomics approach to research the mechanism of effect of atropine in the therapy of myopia in guinea pigs
Jianfeng ZHU

Retina (Medical)

Rapid Fire Retina (Medical) Update Session (3)

- 11:00 - 12:30 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Andrew CHANG, Simon SZETO, Tien-yin WONG
- 11:00 Faricimab Treatment Outcomes With Extended Dosing and Potential for Q20W Intervals in DME: A Post Hoc Analysis of the Phase 3 YOSEMITE/RHINE Trials
Andrew CHANG
- 11:04 Biomarkers for Vascular Stability Demonstrate the Benefit of Dual Ang-2/ VEGF-A Inhibition With Faricimab in Phase 3 Trials in DME
Simon SZETO
- 11:08 Efficacy, Durability and Safety of Faricimab in nAMD: 48-Week Results From the China Subpopulation of Phase 3 LUCERNE
Youxin CHEN
- 11:12 Efficacy, Durability and Safety of Faricimab in DME: 1-Year Results From China Subpopulation of Phase 3 RHINE Trial
Xiaorong LI
- 11:16 OCT Features in Patients Switching to Brolucizumab With Recalcitrant Aged Related Macular Degeneration
Christopher GO
- 11:20 Intravitreal Anti-Vascular Endothelial Growth Factor (VEGF) Injection Practices Among Indonesian Vitreoretinal Specialist : A Real-World Survey
Andrea SILITONGA
- 11:24 Aflibercept 8 mg for Diabetic Macular Edema: 96-Week Results From the Phase 2/3 PHOTON Trial
Tien-yin WONG
- 11:28 Extended Interval Treatment Outcomes and the Potential for Q20W Dosing for the Treatment of Neovascular Age-Related Macular Degeneration With Faricimab: A Post Hoc Analysis of the TENAYA/LUCERNE Trials
Anna TAN

- 11:32 Hydrogen Sulfide (H₂S) as a Potential Biomarker in Diabetic Retinopathy: A Comparative Analysis With Vascular Endothelial Growth Factor (VEGF) and Their Correlation With Systemic Factors
Manabjyoti BARMAN
- 11:36 Single Nucleotide Polymorphism in RAGE Gene: A Paradigm Shift in Causation of Diabetic Retinopathy.
Pragya AHUJA
- 11:40 Clinical Profile and Demographic Distribution of Branch Retinal Vein Occlusion: An Electronic Medical Record-Driven Big Data Analytics From a Multitier Eye Care Network
David AGGARWAL
- 11:44 Clinical Outcome of Intracystic Hyperreflective Material and Its Association With OCT Markers and Metabolic Parameters in Centre Involving Diabetic Macular Oedema.
Sandeep KUMAR
- 11:48 Anatomical and Functional Outcome of Single Low Dose Suprachoroidal Triamcinolone Acetonide in Macular Edema Secondary to Non-infectious Uveitis
Abhishek ANAND
- 11:52 Ocular Morbidity in Patients With Diabetes Mellitus
Kabina SHRESTHA
- 11:56 Prediction of Vitreomacular Traction Syndrome Outcomes With Deep Learning: A Pilot Study
Eiman USMANI
- 12:00 Evaluation of CASPASE-3 and VEGF Expression in Retinopathy and Nephropathy Diabetic Rats: An Experimental Study
Fadhlullah LATAMA
- 12:04 Comparison of Different Topical Anaesthetics for Intravitreal Injections: A Randomised Crossover Clinical Trial
Jeffrey LO

Academia, Research, Teaching and Education in Ophthalmology

Rapid Fire Academia, Research, Teaching and Education in Ophthalmology & Visual Sciences Update Session

09:00 - 10:30 **Venue: Uluwatu 2 (BNDCC1-GF)**
Chair(s): John PRAKASH, Bi Ning ZHANG

- 09:00 What Do Retina Fellows-in-Training Think About the Vitreoretinal Surgical Simulator: A Multicenter Survey
Aditya KELKAR
- 09:06 First Study: Frugal Innovative ROP(Retinopathy of Prematurity) Screening and Teaching Technique
Prithvi CHANDRAKANTH
- 09:12 High Concentrations of Bac and Il-6 Reduce Corneal Perception in Mice
Yukako TAKETANI
- 09:18 Ophthalmology Residents' Perception of the Learning Environment: An Evaluation Using DREEM
Muhammad IRFAN
- 09:24 Bringing Innovation Into Focus: Solving Ophthalmic Challenges Through Hackathons
Akshay WAGH
- 09:30 Farra Eye Model as a Surgical Simulator for Capsulorhexis Training: A Validation Study
Hanifah NURSANTI
- 09:36 A Keen Eye on Ophthalmology: Impact of Social Media among Ophthalmologists
Saloni JOSHI
- 09:42 Revolutionising Surgical Training: Integrating GoPro Video Recording and Facebook Live Streaming as Catalysts for Novice Resident Skill Enhancement
Megha NAIR
- 09:48 Ophthalmology Resident's Satisfaction Towards Cataract Surgical Learning, Mixed Study Research
Syska WIDYAWATI

- 09:54 Effect of Black Cumin Oil Supplementation in Improving Ocular Tissue Histology Damage in Ethambutol-Induced Mice: An Experimental Study
Itzar ISLAM
- 10:00 RAD21 Deficiency Leads to Improper Neural Crest Migration and Corneal Keratocyte Differentiation
Bi Ning ZHANG
- 10:06 Cortical and Sub-cortical Reorganization of Cerebral Networks Induced by Congenital Monocular Blindness: A Combined DTI and fMRI Study
Jingwen DING
- 10:12 Utilizing Neuro-Ophthalmology Outpatient Cases as a Pathway for Fostering Interprofessional Learning among Residents in Teaching Hospitals
Doni WIDYANDANA
- 16:55 Retropupillary Iris Claw Lens Implantation as a Primary Procedure: A Prospective Study
Ruchi SAMUEL
- 17:00 Correlation of Angle Kappa on Visual Outcomes of EDOF IOLs
Suzie NEMMERS
- 17:05 PCO Ring – A Novel Device to Prevent Posterior Capsule Opacification and Enhance Toric IOL Stability
Prabhakar G V
- 17:10 Innovative Custom-Made AC-IOL for Aphakia - Case Study
Omid KERMANI
- 17:15 Antibiotic Prophylaxis for Cataract Surgery – Practice Patterns Amongst Indian Ophthalmologists.
Aditya KELKAR

Cataract

Rapid Fire Cataract Update Session (1)

16:30 - 18:00 **Venue: Uluwatu 7 (BNDCC1-GF)**
Chair(s): Taraprasad DAS, Muhammad SYAUQIE

- 16:30 Safety and Efficacy of Intraocular Lens Implantation on Inadequate Capsular Support Cases at a Tertiary Referral Center in Indonesia
Gladys KUSUMOWIDAGDO
- 16:35 Comparison of Central Foveal Thickness (CFT), Best Corrected Visual Acuity (BCVA) and Cystoid Macular Edema (CME) after Uneventful Cataract Surgery Among Normal and Diabetic Patients Without Retinopathy Using SD OCT
Aakanksha RAGHUVANSHI
- 16:40 Patients' Characteristics on Influencing Cataract Referral Status
Kah AW
- 16:45 Rotational Stability, Visual Functional and Refractive Outcomes of Toric Intraocular Lens Implantation Following Phacoemulsification Without Ophthalmic Viscosurgical Devices – A Comparative Study.
Sandip SARKAR
- 16:50 Design and Validation of Endophthalmitis Infectivity Measurement Algorithm for Post-cataract Endophthalmitis
Taraprasad DAS
- 17:20 Injectable PEGDA-HAMA Hydrogel As In-Situ Curable Accommodating Intraocular Lens
Shuo JIA
- 17:25 Influence of Pupil Dilation on Ocular Parameters and Its Impact on Various Intraocular Lens Power Calculation Formulae
Ankur SHRIVASTAVA
- 17:30 Improvement in Quality of Sleep and Life After Phacoemulsification Surgery on Senile Cataract Patients
Muhammad SYAUQIE
- 17:35 Comparison Between Two-Hole-Assisted-Phaco-Chop and Stop-and-Chop Techniques for Nuclear Disassembly in Residents' Cataract Surgery.
Rehan NAQAISH
- 17:40 Outcomes of Cataract Surgery in Colobomatous Eyes – Safety, Outcomes and Role of Pupilloplasty
Dr Isha AGARWALLA

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

Rapid Fire Cornea, Dry Eyes, External Eye Diseases and Eye Banking Update Session (1)

16:30 - 18:00 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Meenu CHAUDHARY, Shigeru KINOSHITA

- 16:30 Clinical and Patient Reported Outcomes of AirOptix Bandage Contact Lenses on Post-cataract Surgery Patients Who Have Preoperative Mild-to-Moderate Dry Eye Disease
Guangbin ZHANG
- 16:35 Ring Infiltrates and Their Outcomes in Pythium Keratitis
Amanjot KAUR
- 16:40 Allo-Primed Effector T Cells Promote Fibrosis in Corneal Transplantation Failure
Shudan WANG
- 16:45 Study on Assessment of Dry Eye Disease Amongst Health Professionals
Atul KAMATH
- 16:50 Endophthalmitis After Keratoprosthesis -the Chinese People's Liberation Army General Hospital Experience
Yu-qi WANG
- 16:55 Activation of $\alpha 2B/2C$ Adrenergic Receptor Ameliorates Ocular Surface Inflammation Through Enhancing Regulatory T Cell Function
Nai-wen FAN
- 17:00 Dry Eye Disease After Pars Plana Vitrectomy and/or Scleral Buckling in a Philippine Tertiary Government Hospital: A Pilot Study
Leonore IGUBAN
- 17:05 The True Costs of Keratoconus; an Economic Impact Study
Lize ANGELO
- 17:10 Therapeutic Efficacy and Safety of Intense Pulsed Light for Treatment of Meibomian Gland Dysfunction in Glaucoma Patients: A Randomized, Double-Masked Controlled Trial.
Simaporn SETTHAWONG
- 17:15 Immunisation and Corneal Transplantation Rejection: What We Learned From COVID-19
Natalie ALLEN
- 17:20 Journey of 113 Eyes With Modified Osteo-Odonto Keratoprosthesis (Mookp) Over 19 Years at a Tertiary Eye Care Centre
Shweta AGARWAL
- 17:25 Causal Relationships Between Type 2 Diabetes, Glycemic Traits and Keratoconus
Dan CHENG
- 17:30 Structural and Functional Correlation of Meibomian Gland Dysfunction in South Indian Population
Vaishnavi R IYYAPPAN
- 17:35 Clinical Profile and Outcomes of Central Microbial Keratitis in the Philippines
George Michael SOSUAN
- 17:40 The Impact of Reduced Daily Step Counts Due to the COVID-19 Pandemic on Dry Eye Disease: A Crowdsourced Cross-sectional Study
Ken NAGINO
- 17:45 Case Series Study of Intractable Corneal Epithelial Disorders After Micro Pulse Cyclophotocoagulation (MP-Cpc)
Miki HARIYA

Glaucoma

Rapid Fire Glaucoma Update Session (4)

16:30 - 18:00 **Venue: Mengwi 3,5 (BNDCC2-GF)**
Chair(s): Rahat HUSAIN, Yulinda LAKSMITA

- 16:30 Long-term Outcomes of Ciliary Sulcus Placed AGV Tube in Refractory Glaucoma's of Indian Eyes
Sai Vineeth MADDU
- 16:35 Ideal Timing for Cataract Surgery and Clinical Outcomes of Cataract Extraction in Eyes With Acute Angle Closure Attack. A Prospective Cohort Comparative Study
Pek Hwi TAN
- 16:40 Clinical Features of Vision-Related Quality of Life and Mental Health in Patients With Primary Angle-Closure Disease
Jiamiao LIU
- 16:45 Prospective Randomized Comparison of Travoprost Intraocular Implant Versus Topical Timolol in Primary Open Angle Glaucoma and Ocular Hypertension
Robert ANG
- 16:50 Modulating Transsynaptic Dopamine Signaling Promotes Optic Nerve Regeneration and Preserves Visual Function
Qi ZHANG
- 16:55 The Virna Glaucoma Implant, a Novel Glaucoma Drainage Device, for Silicone Oil-Associated Glaucoma: Good Option?
Yulinda LAKSMITA
- 17:00 Order of Magnitude (OM): Virtual Reality-Based Visual Field Examination to Detect Glaucomatous Field Loss
Tiruveedhi YASWANTH
- 17:05 Lamina Cribrosa Defects in Glaucoma and the Relationship With Nonprogressive Optic Nerve Damage
Yuan XIE

- 17:10 Ab Interno vs. Ab Externo Microcatheter-Assisted Circumferential Trabeculotomy in Treating Patients With Juvenile Open-Angle Glaucoma
Huaizhou HWANG
- 17:15 Causal Effects of Gut Microbiota on Glaucoma: A Mendelian Randomization Study
Jiahao XU
- 17:20 HDAC4 Modulates Trabecular Meshwork Cells PANoptosis Through Deacetylation Modification of Caspases in Primary Open-Angle Glaucoma
Xiaoyu ZHOU
- 17:25 Assessing the Difference and Correlation Between of RNFL Parameters in OCT for Progression in Primary Open Angle Glaucoma
Arif Kusuma WARDHANA
- 17:30 Identification of a Chromatin Regulator Signature and Potential Candidate Drugs for Primary Open-Angle Glaucoma
Xinyue ZHANG
- 17:35 Combination of Videography of Aqueous Vein and Gonioscope Predicts the GATT Results
Chen XIN
- 17:40 Surgical Outcomes of Virna Glaucoma Implant (VGI®) in Neovascular Glaucoma in Tertiary Hospital
Dinda DEVONA
- 17:45 Mendelian Randomization Implicates Metabolites Effects on Primary Open Angle Glaucoma or Intraocular Pressure
Xiaoyu ZHOU
- 16:40 Changes in Choroidal Thickness and Choroidal Vascularity Index in Post-fever Retinitis
Aditya PATIL
- 16:45 Single Center Experience of the Impact of COVID-19 Pandemic on 101 Patients with Ocular Inflammation on Immunomodulatory and Biological Therapies (SIMCO Study)
Aditya PATIL
- 16:50 The Possible Effect of Topically Applied Azithromycin and Moxifloxacin on the Alleviation of Uveitis
Soner GUVEN
- 16:55 Antiviral Treatment for Acute Retinal Necrosis: A Systematic Review and Meta-analysis
Asri RIDWAN
- 17:00 Assessment of Anxiety and Depression in Patients With Posner-Schlossman Syndrome
Chaoxu QIAN
- 17:05 Endogenous Staphylococcus Aureus Endophthalmitis: Clinical Features, Treatments, and Visual Outcomes
Kuanjen CHEN
- 17:10 Predictors of Poor Visual Outcomes In Vogt-Koyanagi-Harada Disease
Nazima ALI
- 17:15 Blau Syndrome: A Case Report from Palestine
Mohammad ABU SAFIEH
- 17:20 Clinical Presentation, Microbiology and Management Outcomes of Endogenous Endophthalmitis in 109 Newborns
Sameera NAYAK

Intraocular Inflammation, Uveitis and Scleritis

Rapid Fire Intraocular Inflammation, Uveitis and Scleritis Update Session

16:30 - 18:00 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Jyotirmay BISWAS, Dongmei LI, Ida Ayu Ary PRAMITA, Shwu-jiuan SHEU

- 16:30 Re-Examining Anterior Uveitis Through a New Lens
Matthew K KENWORTHY
- 16:35 Alteration of Oral Flora in Mongolian Patients With Behcet's Disease: A Multicentre Study
Javzandulam BALT
- 17:25 The Usefulness of Polymerase Chain Reaction Testing in Patients with Bacterial Endophthalmitis
Hikaru KITANO
- 17:30 The Predictive Value of Inflammatory Factors for the Clinical Diagnosis of Posner-Schlossman Syndrome
Fuxiao LUAN
- 17:35 Serum Angiotensin Converting Enzyme, Mantoux Test and Lymphocyte Count in the Specific Diagnosis of Ocular Sarcoidosis and Tuberculosis: How Reliable Are They in Isolation/Combined?
Harsha P
- 17:40 Varied Manifestations of Tuberculous Choroiditis and Its Differentiation From Infective Retinitis
Abhishek JAIN

17:45 Globe Salvage in Panophthalmitis: Identification of Significant Predictive Factors Using Logistic Regression and Fine-Gray Models
Meghana TANWAR

Ocular Oncology and Pathology

Rapid Fire Ocular Oncology and Pathology Update Session (2)

11:00 - 12:30 **Venue: Uluwatu 2 (BNDCC1-GF)**
Chair(s): Badri BADHU, Satoru KASE

11:00 BCL-10 Expression in Correlation With Prognostic Outcome in Ocular Adnexal B Cell Non-Hodgkin Lymphoma Patients: An Indonesian Experience
Whisnu JATMIKO

11:05 Landscape of Plasma ctDNA in Conjunctival Melanoma
Hao TIAN

11:10 IL1B-Dependant FAPa+ Cancer-Associated Fibroblasts Promote Uveal Melanoma Metastasis
Fang LI

11:15 High-Risk Histopathologic Features in Conjunctival Melanoma
Tianyu ZHU

11:20 Transcriptome Analysis of Sebaceous Carcinoma and Basal Cell Carcinoma of the Eyelid Unveils Differentially Expressed Genes and Relevant Biological Process.
Masato AKIYAMA

11:25 Profile of NF2 and SIRP α in Orbitocranial Meningioma
M.Hadri AR-RIDHO

11:30 Immune Checkpoint System: SIRP Alpha and CD47 as The Escape Plan of a Retinoblastoma Cells
Datu RESPATIKA

11:35 Role of 18-Fluorodeoxy-Glucose Positron Emission Tomography/ Computed Tomography in Uveal Melanoma: A Prospective Interventional Study
Anchal GERA

11:40 Onco-eccDNAs Boosted SUZ12 Amplicon Potentiates Cancer Progression Through Redefining Histone Modifications of KLF4
Ludi YANG

11:45 Role of Combined Systemic Chemotherapy and Periocular Topotecan in Advanced Intraocular Retinoblastoma
Antriksh WAHI

11:50 Orbital Lymphoma- Retrospective Analysis of Large Case Series
Subhav PERSHAD

11:55 Demographic Profile of Orbital Exenteration in a Tertiary Eye Care Centre in India
Sahil AGRAWAL

12:00 Multifactor Prognosticator of Uveal Melanoma Metastatic Risk
Vera YAROVAYA

12:05 Outcomes of Gamma-Knife Radiosurgery of Posterior Uveal Melanoma Unsuitable for Other Eye-Sparing Treatment: 10-Year Single Center Experience
Andrei YAROVOI

12:10 Long-term Outcomes and Complications of Local Treatment in Abcd Groups of Retinoblastoma
Andrei YAROVOI

Ophthalmic Epidemiology and Prevention of Blindness

Rapid Fire Ophthalmic Epidemiology and Prevention of Blindness Update Session

16:30 - 18:00 **Venue: Uluwatu 2 (BNDCC1-GF)**
Chair(s): Sushank BHALERAO, Lalitha SENARATH, Radhika TANDON

16:30 The Establishment and Evaluation of Nomogram for Prediction of Referable Diabetic Retinopathy Among Type 2 Diabetes Population in Shaanxi, China
Yanchun ZHANG

16:34 A Study of Various Factors Affecting Activities of Daily Living and Instrumental Activities of Daily Living in the Visually Impaired
Jung Sun HEO

16:38 Telemedicine Using Less-Expensive Camera Can Be Used as a Tool for Universal Eye Screening in Developing Countries. 3 Years Analysis of 4952 Preterm Babies
Prema SUBRAMANIAM

16:42 Assessment of Knowledge and Attitude of Cataract and Their Associated Factors Among Adults of Islamic Boarding School Neighborhood in a Rural District in Malang, Indonesia
Intan KAUTSARANI

16:46 Quality of Refractive Error Care in Cambodia, Vietnam and Pakistan.

Cataract

Rapid Fire Cataract Update Session (2)

14:30 - 16:00 **Venue: Uluwatu 7 (BNDCC1-GF)**
Chair(s): Tun Kuan YEO, Huma SAIGOL

- 14:30 Is Femtosecond Laser-Assisted Cataract Surgery Effective in Reducing IOL Tilt and Decentering?
Hungwon TCHAH
- 14:35 Mix and Match Implantation of Pseudo-Nondiffracting Beam EDOF IOLs With Near Enhancement and Without Near Enhancement
Hungwon TCHAH
- 14:40 Refractive and Visual Outcomes Following the Use of the Rayner RayONE EMV Extended Depth of Focus Lens in Western Australia
Lourens VAN ZYL
- 14:45 Financial Analysis of Femtosecond Laser-Assisted Cataract Surgery at the Largest Private Ophthalmology Practice in China
Jing WANG
- 14:50 Longitudinal Changes of the Macular Structure After Pediatric Cataract Surgery
Zhenzhen LIU

- 14:55 Identification of the miRNA Biomarkers in Human Age-Related Cataracts by Meta-analysis and Bioinformatics Analysis.
Kaiyun ZHANG
- 15:00 Laboratory Evaluation of Halos and Through-Focus Performance of Three Different Multifocal Intraocular Lenses
Xiaomin LIU
- 15:05 Novel Exploration of Ions and Fatty Acids in Hydrophilic Acrylic Intraocular Lens Calcification
Xiaomin LIU
- 15:10 Slitlamp Imaging Versus Anterior Segment Imaging With Intraocular Lens (ASPI) for Diagnosis of Pseudoexfoliation
Aiman KHAN
- 15:15 Role of Nepafenac on Changes in Central Macular Thickness in Diabetic Eyes Undergoing Cataract Study- a Prospective Comparative Study
Anoop LINGARAJU
- 15:20 Capsule Opacification Following Phacoemulsification on Cataract Patient: A Systematic Review
Chandra PRABASWARA
- 15:25 Comparison of IOL Formulas Using a New Sum-of-Segments Axial Length Optical Biometer
Tun Kuan YEO
- 15:30 Comparative Evaluation of Visual Acuity, Quality of Vision and Patient Satisfaction After Implantation of Extended Macular Intraocular Lens vs Monofocal Intraocular Lens in Cases of Age Related Macular Degeneration With Senile Cataract
Akshaya BALAJI
- 15:35 Comparison of Time Efficiency Advantage Between Femtosecond Laser-Assisted Cataract Surgery and Conventional Phacoemulsification by Classification of Cases Based on Lens Density and Anterior Chamber Depth.
Takeshi TESHIGAWARA
- 09:00 Corneal Myofibroblasts Suppress Corneal Allograft-Primed T cells

Cornea, Dry Eyes, External Eye Diseases and Eye Banking

Rapid Fire Cornea, Dry Eyes, External Eye Diseases and Eye Banking Update Session (2)

09:00 - 10:30 **Venue: Mengwi 3,5 (BNDCC2-GF)**
Chair(s): Li LIM, Radhika TANDON, Bi Ning ZHANG

- 10:00 Role of Corneal Endothelium in the Development and Recurrence of Macular Corneal Dystrophy
Bi Ning ZHANG
- 10:05 The Prevalence of Fuchs Endothelial Corneal Dystrophy in the Kyoto Glaucoma Cohort Study
Shigeru KINOSHITA
- 10:10 A Community Based Approach to Addressing Inequity in Access to Post-crosslinking Care and Visual Rehabilitation for Patients With Keratoconus in the Auckland – One Year Results
Akilesh GOKUL
- 10:15 Unraveling Mitochondrial Ultrastructure Changes and DNA Variations in Keratoconus
Shivam SHARMA
- Rapid Fire Cornea, Dry Eyes, External Eye Diseases and Eye Banking Update Session (4)**
- 14:30 - 16:00 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Yoshinori OIE
- 14:30 A Single Case of Ocular Graft-Versus-Host Disease Who Recovered Her Vision by Piggyback Contact Lens
Hiroki NISHIMURA
- 14:35 Outcomes of Low-level Light Therapy Before and After Cataract Surgery for the Prophylaxis of Postoperative Dry Eye: A Prospective Randomized Double-Masked Controlled Clinical Trial
Giuseppe GIANNACCARE
- 14:40 Knowledge, Attitudes, and Practice of Health Workers in Indonesia Toward Corneal Donor Procurement in Hospital
Eko PARULIAN
- 14:45 The Relationship Between Ana Titer and Anti-dsdna Levels With the Incidence of Dry Eye Disease in Systemic Lupus Erythematosus Patients
Mohammad Aulia MOLID OGEST PUTRA CALISANIE

- 09:12 Localized Immune Response and Long-Term Survival of Human Retinal Pigment Epithelium Monolayers in Immunocompetent Monkey Retinas
Zengping LIU
- 09:16 Automated Visual Acuity Test for Community Eye Screening in Singapore
Muhammad Azri BIN RAZALI
- 09:20 Evisceration With Primary Orbital Implant in Endophthalmitis/Panophthalmitis.
Syed KADIR
- 09:24 M1-Like Macrophages Modulate Fibrosis and Inflammation of Orbital Fibroblasts in Graves' Orbitopathy: Potential Relevance to Soluble Interleukin-6 Receptor
Sijie FANG
- 09:28 Orbital Immune Profiling Defines Inflammatory Cell Signatures Underlying Thyroid Eye Disease Establishment and Type
Sijie FANG
- 09:32 Association of eNOS Polymorphism in Babies Developing Retinopathy of Prematurity
Debolina DEB
- 09:36 Unique Phenotypes, Novel Genotypes and Functional Evaluation in Stargardt Families From South India
Poornachandra BALUGHATTA
- 09:40 Association of Serum Gamma Glutamyl Transferase As Biomarker of Oxidative Stress in Type II Diabetics With and Without Diabetic Retinopathy
Muhammad Aneeq HAROON
- 09:44 Driving the Differentiation of Transition Zone Cells Into Corneal Endothelial -Like Cells
Jie ZHANG
- 09:48 SPVN06: Gene-Independent Gene Therapies for Patients With Rod-Cone Dystrophy
Daniel CHUNG
- 09:52 Clinical Validation of the Use of a Suite of Novel Devices for General Eye Screening Within Primary Care Settings
Lynn QUEK
- 09:56 Biomarker Enabled Specific Targeted Therapy in Ocular Surface Disease
Pooja KHAMAR
- 10:00 OCT-Angiographic Changes of Optic Nerve Head After 25G Ultrasonic Vitrectomy
Tagir DIBAEV

Translational Research in Ophthalmology

Rapid Fire Translational Research in Ophthalmology Update Session

09:00 - 10:30 **Venue: Uluwatu 2 (BNDCC1-GF)**
Chair(s): Kevin CHAN, Pooja KHAMAR

- 09:00 The Effect of Palm Oil-Derived Tocotrienol-Rich Fraction in Preserving Normal Retinal Vascular Diameter in Streptozotocin-Induced Diabetic Rats
Nurliyana Ain ABDUL GHANI
- 09:04 Development of High-Performance Point-of-Care Aqueous VEGF Detection System and Proof-of-Concept Validation in RVO Patients
Chan ZHAO
- 09:08 Ocular Pharmacokinetics of Extemporaneously Prepared Tazobactam-Piperacillin Eye Drops: Rationalizing Its Treatment Modality
Madhu NATH

06

SUBMITTED PROGRAM

FEB
25,
2024
(SUN)

Cataract

Rapid Fire Cataract Update Session (3)

11:00 - 12:30 **Venue: Uluwatu 7 (BNDCC1-GF)**
Chair(s): Mun Wai LEE, Naren SHETTY

- 11:00 Analysis of Intraoperative Oct of the Anterior Chamber of Rabbits' Eyes During Phacoemulsification With a New Method of Adaptive Infusion Control
Timur ISMAGILOV
- 11:05 Visual Outcomes Following Implantation of a Novel Non-diffractive Wavefront-Linking Extended Depth of Focus Intraocular Lens
Mun Wai LEE
- 11:10 Visual Outcomes of a Novel Spherical Aberration-Based Extended Monofocal Intraocular Lens (EVOLUX) After Cataract Surgery
Cristina TAN
- 11:15 A Modified Surgical Technique to Reopen the Capsular Bag in Pediatric Aphakic Eyes
Wan CHEN
- 11:20 Aqueous Metabolomics: Decoding Amino Acid Disparities in Pseudoexfoliation Syndrome"
Narayanan BALAKRISHNAN
- 11:25 Influence of Residual Astigmatism After Cataract Surgery on the Visual Quality of Patients With Different Designed Multifocal Intraocular Lens Implantation
Meixin LI
- 11:30 Visual Outcome of Phacoemulsification Surgery With Intraocular Lens Implantation Among Patients With Pseudoexfoliation Syndrome.
Tikambari ETTIRAJAN
- 11:35 Long-Term Visual Performance of the Extended Depth of Focus WELL Fusion® Optical System: MiniWELL® on the Dominant Eye and MiniWELL PROXA® on the Non-dominant Eye after Cataract Surgery
Keshia Lourdes DUYONGCO

- 11:40 Retinal Thickness Analysis in Uncomplicated Phacoemulsification in Different Age Groups
Ferdian RAMADHAN
- 11:45 Can We Improve the Performance of Extended Depth of Focus IOLs?
Naren SHETTY
- 11:50 Flacs V/S Phacoemulsification in a Developing Nation
Saloni GUPTA
- 11:55 Can Epithelial Mapping Be a Surrogate Marker to Predict Cataract Surgery Outcomes?
Amulya PUNATI
- 12:00 Evaluation of Change in Contact of Intraocular Lens With Posterior Capsule With Respect to the Orientation of Haptics and After Implantation of a Capsular Tension Ring Using Spectral-Domain Intraoperative Optical Coherence Tomography
Akash JAIN

Glaucoma

Rapid Fire Glaucoma Update Session (3)

11:00 - 12:30 **Venue: Mengwi 1,2 (BNDCC2-GF)**
Chair(s): Colin CLEMENT, Jingjing HUANG

- 11:00 Efficacy and Safety of Penetrating Canaloplasty Versus Canaloplasty for Primary Open-Angle Glaucoma: A Randomized Controlled Trial
Wenqing YE
- 11:05 Angle Closure Glaucoma in a Nanophthalmic Patient With Mutations in MFRP and BEST1
Carmelita JOCSON
- 11:10 Comparison and Clinical Outcomes of Choroidal Detachment Following Phacoemulsification-Trabeculectomy Surgery Versus Glaucoma Drainage Devices.
Nimrita NAGDEV
- 11:15 Comparative Analysis of Implantation of an Intraocular Lens With an Extended Depth of Focus and a Monofocal Intraocular Lens on Retinal Photosensitivity in Patients With Glaucoma
Nadezhda POZDEYEVA
- 11:20 Outcomes From the Australian Combined Phacoemulsification and 3 iStent W Clinical Trial
Colin CLEMENT

- 11:25 Outcomes From the Australian Stand-Alone 3 iStent W Clinical Trial
Colin CLEMENT
- 11:30 Comparing Outcomes of Combined Phacoemulsification and iStent Inject to Phacoemulsification Alone From the Fight Glaucoma Blindness Registry
Colin CLEMENT
- 11:35 Melatonin Prevents EAAC1 Deletion-Induced Retinal Ganglion Cell Degeneration by Inhibiting Apoptosis and Senescence
Chenyang HU
- 11:40 Repeatability of Selective Laser Trabeculoplasty in Open Angle Glaucoma and Ocular Hypertension During the LiGHT China Trial
Yang YANG
- 11:45 Single-Cell Transcriptomic Atlas of Aging Macaque Ocular Outflow Tissues
Jian WU
- 11:50 Genetic Association of Primary Angle-Closure Disease: An Updated Systematic Review and Meta-analysis
Yu Jing LIANG
- 11:55 Cell Atlas of Trabecular Meshwork in Glaucomatous Non-human Primates and DEGs Related to Tissue Contract Based on Single-Cell Transcriptomics
Simeng HOU
- 12:00 Association of Gene Polymorphisms With Normal Tension Glaucoma: A Systematic Review and Meta-analysis
Simeng HOU
- 12:05 Phaco-Endoscopic Cyclophotocoagulation Versus Phaco Alone in Primary Angle Closure Glaucoma-A RCT
Adithi MURTHY
- 12:10 1-Year Efficacy and Safety Virna Glaucoma Implant as a Novel Glaucoma Drainage Device in Advanced Glaucoma Patient
Dyah TRIANGGADEWI
- 12:15 The Effect of Oral Vitamin D on Tumor Necrosis Factor- α Expression in Aqueous Humor of Wistar Glaucoma Model
Pattih PRIMASAKTI
- 12:20 Effect of XEN Gel Stent Implantation on Corneal Astigmatism
Kannawee BOONCHUENCHOM

Ocular Trauma

Rapid Fire Orbital and Oculoplastic Surgery & Ocular Trauma Update Session

- 11:00 - 12:30 **Venue: Uluwatu 6 (BNDCC1-GF)**
Chair(s): Fasika WORETA, Huifang ZHOU
- 11:00 Etiology and Demographic Factors Associated With Open Globe Injuries in the United States: A Multi-Site Study
Fasika WORETA
- 11:06 Patterns and Prognosis of Visual Field Changes in Patients with Traumatic Optic Neuropathy
Jun HEO
- 11:12 D.O.T.S: Documenting Ocular Trauma With Smartscope Kit
Prithvi CHANDRAKANTH
- 11:18 Endoscope-Assisted Vitrectomy in the Treatment of 133 Severely Traumatized Eyes Without Light-Perception
Yang XUN
- 11:24 Ocular Emergency Study (OES): Exploring the Where, How, and What of Ocular Trauma in a Community Eye Hospital
Hom GURUNG
- 11:30 Development of a High-Pixel Channel-Less Dacryoscope
Akemi IWASAKI
- 11:36 Microscopic Deep Orbital Fat Decompression for Thyroid Eye Disease
Tomoyuki KASHIMA
- 11:42 A Phase I Dose Escalation Study to Evaluate the Safety and Tolerability of Single Intravenous Infusion of IBI311 in Healthy Volunteers
Huifang ZHOU
- 11:48 Analysis of Korean Upper Eyelid Contour Using Bezier Curves
Da Young SHIN
- 11:54 A Decade of Experience With Coleman Micro-Fat Graft for Orbital Volume Augmentation in Post-enucleation and Evisceration Sockets
Christine PUTRI
- 12:00 Comparison of Postoperative Outcomes in Cases Undergoing Biopsy and Debulking Surgery for IgG4-Related Dacryoadenitis
Rikako IWASAKI

12:06 Profile of Firework Related Ocular Injuries During Festivals at a Tertiary Eye Hospital, Nepal
Ashma MANANDHAR

Orbital and Oculoplastic Surgery

Rapid Fire Orbital and Oculoplastic Surgery Update Session (2)

09:00 - 10:30 **Venue: Uluwatu 4 (BNDCC1-GF)**
Chair(s): Yunia IRAWATI, Rajendra MAURYA, Ni Made UTARI

09:00 Botox; Management of Upper Eyelid Ptosis
Bassem MORSHED

09:05 Pearls and Paradigms for Orbit, Oculofacial and Lacrimal Surgery Videography
Alexander Gerard Nino GUNGAB

09:10 Comparative Study of Subjective and Objective Outcomes of Ptosis Surgery in a Tertiary Level Hospital
Dikshya BISTA

09:15 Revision of Recurrent Severe Ptosis With Combined Levator-Mullers and Frontalis Advancement Flaps in Eighteen Indian Eyes: A Case Series
Joyeeta DAS

09:20 Quantitative Magnetic Resonance Imaging Predictors of Dysthyroid Optic Neuropathy in Patients With Thyroid Associated Ophthalmopathy
Yun SU

09:25 Agreement Between Agger Nasi and Lacrimal Sac: Radiological Evaluation Compared to Intraoperative Findings in Primary Acquired Nasolacrimal Duct Obstruction Patients That Underwent Endoscopic Dacryocystorhinostomy
Evan REGAR

09:30 Role of Concurrent Intravenous Pulse Steroids and Orbital Radiation in the Management Thyroid Eye Disease
Sonam NISAR

09:35 Comparative Analysis of the Effect of Total Thyroidectomy on Serum Antibody Levels of Patients With Graves' Disease With and Without Thyroid Eye Disease
Kate Angelli LUCERO

09:40 Congenital Upper Eyelid Colobomas: Demographics Features and Surgical Outcomes in Bangladeshi Population.
Md.Ismail HOSSAIN

09:45 Age-specific and Sex-specific Volume of the Orbit and Globe in the Healthy Pediatric Population: A Cross-Sectional Study
Honeylen Maryl TEO

09:50 Bird's Eye-View of 27 Years of Orbital Lesions in a Tertiary Care Hospital in Pakistan
Asad KHAN

09:55 To Evaluate the Role of Intralesional Bleomycin in Periocular Capillary Hemangiomas Non-responsive to Oral Propranolol.
Abhishek KUMAR

10:00 The Relation Between Bony Nasolacrimal Canal And Primary Acquired Nasolacrimal Duct Obstruction
Bayasgalan PUREVDORJ

10:05 Evaluation of Two Surgical Approaches for Orbital decompression: Transconjunctival vs Transnasal
Yinwei LI

Pediatric Ophthalmology and Strabismus

Rapid Fire Pediatric Ophthalmology and Strabismus Update Session (1)

09:00 - 10:30 **Venue: Uluwatu 6 (BNDCC1-GF)**
Chair(s): Justin MORA, Donny SUH

09:00 Effect of Horizontal Strabismus on Mental Health of Children and Adults in China
Hongwei DENG

09:04 Surgical Outcomes of Improved Recession-Resection Versus Decreased Recession-Resection in Patients With Convergence Insufficiency Type Intermittent Exotropia
Miao KONG

09:08 Retinopathy of Prematurity (ROP) Treatment Outcomes in a Single Tertiary Care Hospital in Pakistan
Lubna MIAN

09:12 The Effectiveness of Intra Arterial Chemotherapy (IAC) in Saving Vision Among Eyes With Group B, D and E Retinoblastoma
Lubna MIAN

09:16 Efficacy and Safety of Iris-Claw and Scleral Fixated Intraocular Lens in Pediatric Ectopia Lentis: A Systematic Review
Siti SORAYA

- 09:20 Characteristics and Clinical Outcomes of Low-Dose Atropine Eyedrops for Slowing Myopia Progression in Children: A 5-Year Retrospective Study
Hasiana LUMBAN GAOL
- 09:24 Association of Birth Weight and Gestational Age With Severity of Retinopathy of Prematurity
Tayyaba MALIK
- 09:28 The Downregulation of Apolipoprotein A4 in the Tear Fluid of Preterm Infants May Be a Promising Potential Retinopathy of Prematurity Biomarker
Alicia LIU
- 09:32 A Pilot Randomised Clinical Trial Comparing Muscle Transplant Versus Novel Hang Back Recession in Extra-Large Angle Exotropia
Amar PUJARI
- 09:36 Amplitude of Accommodation and Near Point of Convergence in Children: Its Relation With Age and Refractive Errors
Nabilah AFIFAH
- 09:40 A Modified Yokoyama Procedure: A Report of Two Cases
Lianqun WU
- 09:44 Assessment of Surgical Outcome With Preoperative Prognostic Factors in Horizontal Strabismus Surgery-A Hospital Based Study
Sidratul NAZNIN
- 09:48 Exploring the Efficacy of the Plusoptix S12-C Photoscreener in Identifying Amblyogenic Risk Factors Among Children Aged 6 Months to 6 Years in Rural South India
Kirandeep KAUR
- 09:52 Evaluation of the Morphological Features of the Ciliary Muscle in Children With Anisometropic Amblyopia
Huaxin ZUO
- 09:56 Visual Outcome of Pediatric Cataract Surgery in Children Aged 8 Years and Older
Kabindra BAJRACHARYA
- 10:00 Coats Disease in Vietnam: Clinical Presentation and Outcome
Phu NGUYEN
- 10:04 Intraocular Lens Implantation for Congenital and Developmental Cataract in Infants Under One Year of Age
Kabindra BAJRACHARYA

Retina (Medical)

Rapid Fire Retina (Medical) Update Session (2)

- 11:00 - 12:30 **Venue: Mengwi 3,5 (BNDCC2-GF)**
Chair(s): De-kuang HWANG, Gavin TAN
- 11:00 Variability of Foveal Avascular Zone Measurements Among Filipino Healthcare Worker Eyes Using Optical Coherence Tomography Angiography: A Single Center Study
Roberto Luis FRANCO
- 11:04 Renal Adverse Events in Patients With Diabetic Macular Edema Receiving Intravitreal Vascular Endothelial Growth Factors Inhibitors
Wan-ju annabelle LEE
- 11:08 Long-term Efficacy and Safety of the Port Delivery System With Ranibizumab (PDS) in Patients With Neovascular Age-Related Macular Degeneration (nAMD): Results From the Portal 5-Year Subgroup Analysis
De-kuang HWANG
- 11:12 Correlation of Biomarkers of Central Serous Chorioretinopathy on Optical Coherence Tomography Angiography (OCT-A) With Clinical Course of Disease
Shivangi SINGH
- 11:16 PEDF Prevents Mitochondrial Function Decay and ER Stress Induced by Rotenone in Aging RPE Cells
Ruixue ZHANG
- 11:20 Neuroretinitis: Etiology and Treatment Outcomes in a Tertiary Care Uveitis Centre
Pallavi GOEL
- 11:24 Scleral Thickness Determines the Severity of Central Serous Chorioretinopathy
Naoya IMANAGA
- 11:28 Relationship Between Vortex Vein Anastomoses and Choroidal Vascular Hyperpermeability in Central Serous Chorioretinopathy
Yasunori MIYARA
- 11:32 Port Delivery System With Ranibizumab (PDS) for Continuous Treatment in Diabetic Macular Edema (DME) and Diabetic Retinopathy (DR): Results From the Phase 3 Pagoda and Pavilion Trials
Min SAGONG
- 11:36 Demographic and Clinical Characteristics of a Series of Patients With Presumed Occult Macular Dystrophy: Experience From Eastern India
Jinal GORE

- 11:40 Greater Reduction in Pigment Epithelial Detachment Size With Faricimab vs Aflibercept During Head-to-Head Dosing in Eyes With Neovascular Age-Related Macular Degeneration
Voraporn **CHAIKITMONGKOL**
- 11:44 Greater Reduction in Macular Leakage in Diabetic Macular Edema With Faricimab vs Aflibercept
Gavin **TAN**
- 11:48 Outcomes of Neovascular Age-Related Macular Degeneration Following Treat-and-Extend Regimen Discontinuation
Jose Carlo **ARTIAGA**
- 11:52 FGF1ΔHBS Suppress Retinal Microglial Activation and Ameliorates Neuroinflammation in Type 2 Diabetes Mouse Model
Ding **CHEN**
- 11:56 Solitary Punctate Chorioretinitis—
A Unique Subtype of Punctate Inner Choroidopathy
Yuhong **GAN**

POSTER DISCUSSION SESSIONS

FEB
22,
2024
(THU)

APAO Poster Discussion I

10:30 - 11:00 **Venue: Showcase Theater (Nusa Dua Hall, BNDCC1-GF)**

Chair(s): Ariesanti **HANDAYANI**, Yeni **LESTARI**, Syntia **NUSANTI**

- 10:30 Axial Elongation Trajectories in Chinese Children and Adults With High Myopia: An Eight-Year Prospective Cohort Study
Shiran **ZHANG**
- 10:34 Translation of Color Fundus Photography Into High-Resolution Indocyanine Green Angiography Image Using Deep Learning for Age-Related Macular Degeneration Screening
Danli **SHI**
- 10:38 Characteristics and Neurogenic Properties of Primary and Immortalized Mouse Müller Glial Cells
Hang **TRAN**
- 10:42 Impact of the COVID-19 Pandemic on Care-Seeking Behavior in Ophthalmology Department: A Systematic Review and Meta-analysis
Kunihiko **HIROSAWA**
- 10:46 Association of Lamina Cribrosa Morphology With Retinal Nerve Fiber Layer Thickness and Visual Field Defects in Primary Open-Angle Glaucoma.
Vy **LY NGOC PHUONG**

FEB
23,
2024
(FRI)

APAO Poster Discussion II

12:00 - 12:30 **Venue: Showcase Theater (Nusa Dua Hall, BNDCC1-GF)**

Chair(s): Faraby **MARTHA**, Astrianda **SURYONO**

- 12:00 Methicillin-Resistant Staphylococcus aureus Keratitis After Corneal Collagen Cross-Linking
Rohit **DUREJA**
- 12:04 Lack of Causal Association Between Diet-Derived Circulating Antioxidants and Primary Open-Angle Glaucoma: A Mendelian Randomization Study
Kun **XIONG**
- 12:08 Visual and Refractive Outcome of New Generation Small Incision Lenticule Extraction (Smile) in Compound Myopic Astigmatism
Dini **DHARMAWIDIARINI**
- 12:12 Metabolomic Phenotyping of Obesity for Profiling Cardiovascular and Ocular Diseases
Pingting **ZHONG**
- 12:16 Outcomes of Flanged Intrasceral Fixation Technique in a District Centre, A Case Series
Xiao Wei **TING**

APAO Poster Discussion III

14:30 - 15:00 **Venue: Showcase Theater (Nusa Dua Hall, BNDCC1-GF)**

Chair(s): Yulia **AZIZA**, I Gusti Ayu **JULIARI**, Anak Agung Mas **TRININGRAT**, Putu **YULIAWATI,MD**, Rusti **HANINDYA**

- 14:30 Bilateral Neuroretinitis as a Rare Complication of Dengue Fever
Laura **DJUNAEDI**
- 14:34 Establishment of a Novel Optic Nerve-Specific In Vivo Mouse Model of Neuromyelitis Optica Spectrum Disorder Related Optic Neuritis
Shaoying **TAN**

06

SUBMITTED PROGRAM

- 14:38 Ocular Trauma Among Older Adults In An Urban Teaching Hospital in Malaysia
Tengku KAMALDEN
- 14:42 Eyespirator - A Novel Do-It-Yourself Suction Apparatus
Padmapriya V
- 14:46 A Case of Severe Proptosis from Diffuse Large B Cell Lymphoma
Fitri OTHMAN

APAO Poster Discussion IV

09:00 - 09:30 **Venue: Showcase Theater (Nusa Dua Hall, BNDCC1-GF)**

Chair(s): Ari DJATIKUSUMO, Julie BARLIANA

- 09:00 The Atropine Treatment Long-term Assessment Study (Atlas): 10 to 20-Year Safety and Outcomes Report
Wen Pei Angeline TOH
- 09:05 Bilateral Enhanced Intermediate Vision Monofocal Iol Implantation in a 13-Year-Old With Acquired Cataract Secondary to Diabetes Mellitus Type 1
Jo Michael MANIWAN
- 09:11 Purtscher-Like Retinopathy in Systemic Lupus Erythematosus: Clinical Features, Risk Factors and Prognosis
Lihui MENG
