Instructions

Step 1

Take the muffin and cut the rounded top off and put this to one side.

Step 2

Take the wrapping off the bottom of your muffin and place it upside down.

Step 3

Cut the round top off the fairy cake. Using the flat knife spread your chocolate buttercream on the muffin. Then stick fairy cake upside down on top of muffin to create a tower.

Step 4

Using the flat knife, cover the cake tower in buttercream so everything is stuck together and there no cake is showing.

Step 5

Take your giant chocolate buttons and stack three on top of the covered cake using chocolate buttercream to stick them together.

Step 6

Using chocolate buttercream again, stick the mini chocolate marshmallow teacake on top for the head. Your Dalek body is now complete.

Step 7

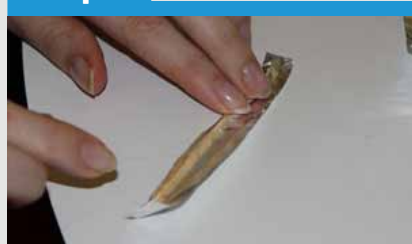

Take the silver balls and place four in a vertical line, about half a centimetre apart on the cake section of the Dalek.

Step 8

Do this around the whole cake body, leaving about a centimetre between each line of silver balls.

Step 9

Take three cocktail sticks and wrap them in silver tin foil. Keep it tight and cut off any stray foil on the ends of the stick.

Step 10

Put one silver cocktail stick into the body for the left arm.

Step 11

Stick a chocolate chip on to the end of your next cocktail stick using chocolate buttercream. This forms the right arm. Stick it into the cake.

Step 12

Cut a white mini marshmallow in half, pop it on the end of your last cocktail stick. Next add a chocolate chip, then a silver ball to the end. Stick this into the front of the head to make the eye-stalk.

Step 13

Take two clear jelly sweets OR cut two bits of a chocolate matchstick to size, stick them on top either side of the head to act as the lights.

Your Dalek cupcake is now complete!
