

MUST-HAVES

ANGELFACE® Cascades

- First Proven Winners Angelonia for baskets
- Faster finish, easy to flower, all season color
- Larger flowers than typical Angelonia
- More vigorous than others in this class
- Versatile enough to work with "Supers" in combination recipes and make a beautiful monoculture presentation

DIAMOND MOUNTAIN® Euphorbia

- Great landscape and container vigor
- Double the size of Diamond Frost®
- Perfect recipe companion to the most vigorous Supertunias
- Heat and drought tolerant
- 24-36" height with 24-36" spread

SUPERBELLS® Doubles

- Double flowers are high impulse items
- Larger flower size than any other double Calibrachoa on the market
- Superior disease resistance
- Early to flower – blooming right alongside all the rest of the Superbells
- Unique breakthrough flower colors

TRUFFULA™ Pink Gomphrena

- Heavy flower coverage all season
- Hot pink flowers attract pollinators
- Bulletproof in extreme heat and humidity
- Works well in larger combination recipes and in the landscape
- Shorter internodes provide better structure for container production compared to other Gomphrena on the market

SUPERBELLS® HOLY series

- Large abundant flowers on cascading growth habit
- Very stable flower pattern
- Eye-catching novelties with outstanding garden performance
- Early to flower
- Screened specifically for Thielaviopsis resistance

ROCKIN® Fuchsia Salvia

- Breeding breakthrough, a milestone color for Salvia guaranitica types
- Pairs perfectly with Rockin' Deep Purple
- Early flowering for great retail presence
- Great growth habit and branching power for container production
- Excellent for attracting pollinators, especially hummingbirds

SUPERBELLS® STAR series

- Fast finish, providing bench run sales
- Large flowers in vivid colors
- Stable flower pattern, with excellent star pattern from petal edge to throat
- Excellent presentation at retail
- Increased disease resistance; screened specifically for Thielaviopsis resistance

SUPERTUNIA VISTA® Paradise

- Hot new color for Supertunia Vista collection
- Proven consumer name recognition and demand
- High vigor recipe component
- In the landscape and large containers, Supertunia Vistas have better heat and disease resistance than other petunias

Popular National Recipe Program Expands for 2019

We've diversified our National Recipe Program to meet the needs of all our North American customers this year. Choose those that are best suited to your region and promote them in any season you wish. Based on our careful trialing of these recipes in the north and south, you can be confident they will deliver the signature Proven Winners all-season performance.

- Replaces Royale Whitecap this year
- Early to bloom with larger, white flowers
- Perfectly matched to Violet Ice in timing, habit and vigor
- Exceptional resistance to powdery mildew
- Grow in 4.25 Grande™ and 1.0 Royale™ containers, combinations, monocultures and landscapes
- 6-12" height; 18-30" spread
- Part sun to sun
- Vigor 3

INTRODUCING CORAL CREATIONS™ SUCCULENTS

Proven Winners is proud to debut Coral Creations™ Succulents in partnership with visionary succulent grower and collector Chris Hansen of Garden Solutions. Over 30 exemplary cultivars have been trialed and selected for their striking colors, compatibility in recipes and long-lasting performance. Many have never been available in commercial quantities in North America until now.

Additionally, five essential succulent recipes, including a National Succulent Recipe of the Year, have been designed by Hansen to help growers, retailers and consumers focus on exceptional beauty and performance. Choosing varieties that maintain eye-catching color all season and grow vigorously while maintaining their compatibility in containers is a key to the success of the Proven Winners Coral Creations program.

CORAL CREATIONS™ SALLY SAWTOOTH™

Crassula purpusii

- Extremely textural, miniature succulent
- Excellent vigor despite its small size
- Upright stems; symmetrically stacked leaves
- Adds personality to standard succulent bowls
- Can be grown as a houseplant
- 6-8" height; 4-6" spread
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ SEA STONES™

Crassula

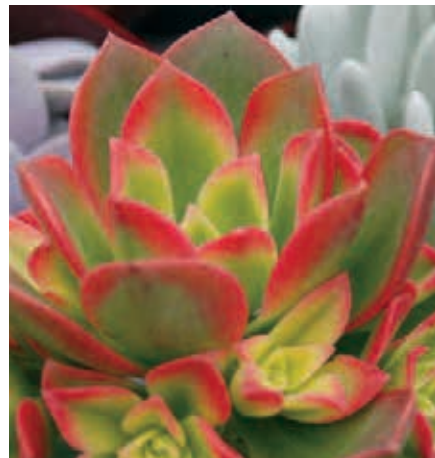

- Shows strong resistance to powdery mildew
- Tightly stacked, flat disc-shaped leaves on upright stems
- Gray-green with pinkish red edges
- Feature as an architectural specimen in mixed containers
- Can be grown as a houseplant
- 6-12" height; 3-6" spread
- Part sun to sun
- Vigor 2

CORAL CREATIONS™ SHINING STARFISH™

Crassula rupestris

- Silvery green, triangular leaves with green picotee edges
- Stems turn pink in average to moist soil
- Vertical element for mixed containers
- Can be grown as a houseplant
- 4-10" height; 4-8" spread
- Sun or shade
- Vigor 2

CORAL CREATIONS™ BRIGHT BARNACLE™

Aeonium

- Top seller; most colorful succulent
- Pink, orange and chartreuse tones all year
- Brightest color in average to moist soil
- Produces 5-6" rosettes with many offshoots
- Can be grown as a houseplant
- 12" height; 10" spread
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ MILLIE MORAY™

Crassula ovata

- Jade plant with shiny emerald green, quilled leaves
- Foliage may turn red in high light, semi-dry conditions
- Strictly upright habit
- Can be grown as a houseplant
- 10" height; 6-24" spread
- Sun or shade
- Vigor 3

CORAL CREATIONS™ RIBBON REEF™

Crassula lycopodioides

- Extremely tightly packed, scale-like leaves
- Unbranched, upright stems if not pinched
- Fuller, branched stems if pinched four weeks after potting
- Selected for its extreme mildew resistance, exceptional vigor and darker green foliage
- Can be grown as a houseplant
- 6-12" height; 12-24" spread
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ ANGEL ANEMONE™

Echeveria derenbergii

- Selected for its improved vigor, uniformity, ease of growth and speed to finish
- Symmetrical rosettes with many offsets
- Blue with slight pink tips in dry soil; more green with increased moisture
- Can be grown as a houseplant
- 4-12" height; 5-6" spread
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ GARNET ANEMONE™

Echeveria

- Rare; first time for sale in commercial quantities in U.S.
- More vigorous and resistant to rot and leaf drop than 'Black Knight' and 'Black Prince'
- Deep black-purple rosettes with offsets
- Can be grown as a houseplant
- 8-10" height; 6-11" spread
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ MEDUSA ANEMONE™

Echeveria runyonii

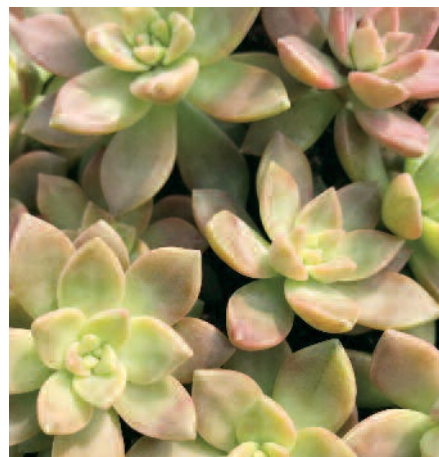

- Fun textural element for container recipes
- Quilled, silvery blue foliage
- Single rosettes can reach 10" across
- Coral to yellow flowers may appear in late summer or fall
- Can be grown as a houseplant
- 4" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
PEARL ANEMONE™**

Echeveria

- Best pink Echeveria on the market
- Proven to be a reliable performer under a wide range of conditions
- Produces one solitary rosette with gray, soft lavender and pink highlights
- Orange flowers appear from summer into fall
- Can be grown as a houseplant
- 8-10" height; 6-8" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
REEF ROSE™**

Graptosedum

- Leaves emerge blue-green; quickly takes on pink and apricot tones
- Best color in drier soils and hotter temps
- Small rosettes form a dense clump
- Can be grown as a houseplant
- 6" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
SEASPRAY™**

Kalanchoe hildebrandtii

- Commonly described as "silver teaspoons"
- Entire plant is pure silver in color
- Sizeable, upright airy form; use as a thriller in large container recipes
- Salmon orange flowers may appear in spring
- Can be grown as a houseplant
- 18-24" height; 12-18" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
MERMAID TRESSES™**

Peperomia ferreyrae

- Long, narrow, apple green leaves with cylindrical edges
- A must-have, unusual succulent
- Finely textured component for container recipes; contrasts well with rosette forms
- Can be grown as a houseplant
- 10" height; 8" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
SEA PADDLE™**

Peperomia dolabriformis

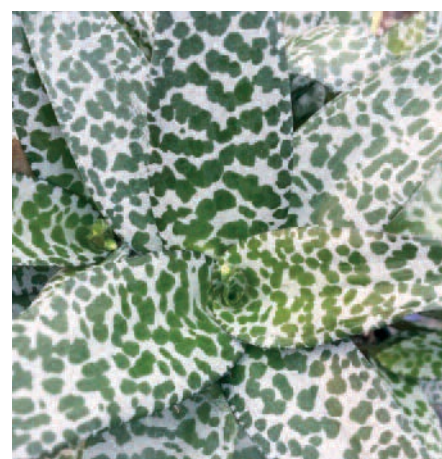

- Emerald green leaves shaped like snow pea pods have a citrusy fragrance when crushed
- Vigorous grower with a very unique look
- Low mounded, dense habit; filler plant
- Can be grown as a houseplant
- 8" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
DIAMOND RAY™**

Portulaca pilosa

- Forms a low, spreading mat of variegated gray-green and cream foliage
- Foliage becomes flushed with pink tones in sunny, warm, dry conditions
- Vibrant pink flowers appear in summer
- Use as a spiller in container recipes
- 3" height; 18" spread
- Part sun to sun
- Vigor 4

**CORAL CREATIONS™
LEOPARD SQUID™**

Ledebouria socialis

- Strappy, narrow, deep green leaves heavily speckled with silver
- Forms a low, wide rosette
- Rare selection; tested and proven to be an excellent addition to succulent recipes
- Grows from a bulb which should remain above the soil line to prevent rotting
- Can be grown as a houseplant
- 8" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
JAMMIN' JELLYFISH™**

Orostachys japonica

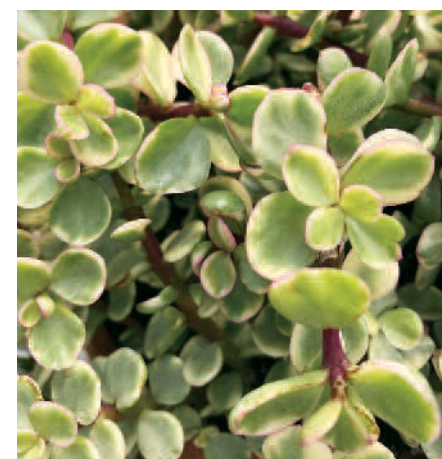

- Rare; first time sold in commercial quantities
- Large, bronze red rosettes make an excellent filler in container recipes
- Produces offsets prolifically
- Domes form in late summer; covered in white flowers in fall
- 3-8" height; 5" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
SHARK BITE™**

Oscularia deltoides

- Highly textured, blue leaves with bright pink stems
- Provides stunning foliage interest in container recipes
- Bushy habit; use as a filler
- Can be grown as a houseplant
- 8" height; 12" spread
- Part sun to sun
- Vigor 4

**CORAL CREATIONS™
STINGRAY™**

Portulacaria afra

- Small, variegated lime green and creamy white leaves with purple-red stems
- Often used for bonsai; pinch to shape
- Low, spreading shape; use as a filler in container recipes
- Can be grown as a houseplant
- 12" height; 15" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
BURSTING BUBBLES™**

Rhipsalis salicornioides

- Finely textured, densely branched, cactus-like plant with a classic coral look
- Upright to arching stems consist of narrow, bottle-shaped leaf segments
- Excellent filler in container recipes
- Can be grown as a houseplant
- 8" height; 6" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
BERRYCUDA™**

Sedum rubrotinctum

- Funky, colorful plant kids love; perfect for miniature gardens
- Emerald green and ruby red, jellybean-like leaves
- Mounding shape; pair with upright items in container recipes
- Can be grown as a houseplant
- 4" height; 5" spread
- Part sun to sun
- Vigor 2

**CORAL CREATIONS™
GLOWING STAR™**
Sedum japonicum

- Top-selling succulent; strong impulse appeal
- Glowing citron yellow to chartreuse foliage
- Star-shaped leaves form a dense carpet
- An ideal companion for all other Coral Creations varieties in container recipes
- Can be grown as a houseplant
- 1" height; 8" spread
- Part sun to sun
- Vigor 4

**CORAL CREATIONS™
SEASIDE SUNRISE™**
Sedum adolphii

- Colorful, spreading plant; a perfect filler for container recipes
- Golden yellow rosettes turn brilliant orange in high light, dry conditions
- Deeper orange compared to 'Coppertone'
- Can be grown as a houseplant
- 10" height; 12" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
GREEN TIP NAUTILUS™**
Sempervivum

- Flashy bicolor variety with emerald green leaves flushed ruby red in the center
- Forms large rosettes surrounded by offsets
- Durable groundcover or filler in containers
- Hardy perennial in zones 4-9
- 1" height; 5" spread
- Part sun to sun
- Vigor 3

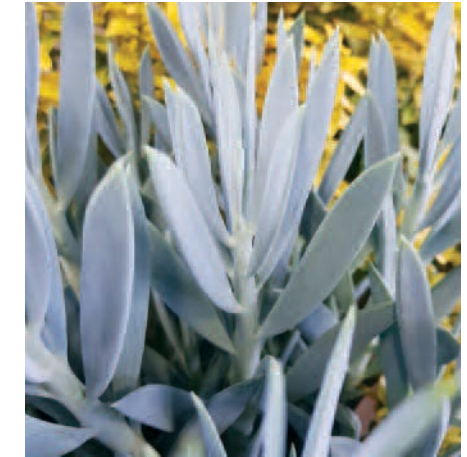

**CORAL CREATIONS™
ELECTRIC EEL™**
Senecio serpens

- Top-selling succulent for container recipes
- Colorfast, steel blue, narrow, rounded leaves
- Bushy, upright habit; use as a dramatic centerpiece in container recipes
- Highly dependable, vigorous variety
- Can be grown as a houseplant
- 12" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
SEA PEARLS™**
Senecio rowleyanus

- Fun, touchable succulent looks like a string of green pearls
- Popular trailing succulent; use as a spiller in container recipes
- Dense growing habit
- Small globes of fragrant, white flowers
- 1" height; 20" spread (trailing)
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
SOARING GULL™**
Senecio ficoides Mount Everest USPP22188

- Bright chalky blue, thick, flat leaves
- Vigorous grower with a very uniform habit
- Grows strictly upright; use as a stunning vertical accent in large container recipes
- Pair with yellow and burgundy varieties
- Can be grown as a houseplant
- 22" height; 10" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
RED TIP NAUTILUS™**
Sempervivum

- Flashy bicolor variety; emerald green leaves with glimmering ruby tips
- Fantastic color and texture all season
- Forms 2-3" rosettes surrounded by offsets
- Durable groundcover or filler in containers
- Hardy perennial in zones 4-9
- 1" height; 5" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
RUBY NAUTILUS™**
Sempervivum

- Stunning cherry red selection; pairs well with gold and silver succulents
- Stunning color and texture all year long
- Forms 4-5" rosettes surrounded by offsets
- Durable groundcover or filler in container
- Hardy perennial in zones 4-9
- 1" height; 5" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
DOLPHIN DORSAL™**
Senecio

- Rare; first time sold in commercial quantities
- Unusual trailing succulent; excellent spiller for container recipes
- Succulent, blue leaves shaped like sharks' teeth strung on long stems
- Can be grown as a houseplant
- 1" height; 20" spread (trailing)
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
TURQUOISE TENTACLES™**
Senecio kleiniiformis

- Bold chalky blue, geometric spear-shaped leaves
- Forms an eye-catching clump; use as a filler
- Adds fantastic texture and intense color to container recipes
- Can be grown as a houseplant
- 10" height; 8" spread
- Part sun to sun
- Vigor 3

**CORAL CREATIONS™
WHIMSICAL WHALE™**
Senecio

- Rare; first time sold in commercial quantities
- Vigorous, unusual trailing selection; excellent spiller for container recipes
- Powder blue, soft needle-like leaves on long stems
- Tightly mounded on top, not bare at the crown
- Can be grown as a houseplant
- 1" height; 10" spread (trailing)
- Part sun to sun
- Vigor 3

CORAL CREATIONS™ RECIPES

PACIFIC PARADISE – Small 8" recipe

Succulent Recipe of the Year

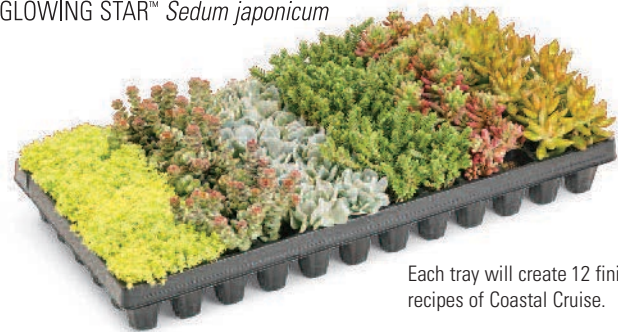

BRIGHT BARNACLE™ *Aeonium*
 SEA PADDLE™ *Peperomia dolabriformis*
 STINGRAY™ *Portulacaria afra*
 SEASIDE SUNRISE™ *Sedum adolphii*
 GLOWING STAR™ *Sedum japonicum*
 ELECTRIC EEL™ *Senecio serpens*

Each tray will create 12 finished recipes of Pacific Paradise.

COASTAL CRUISE – Small 8" recipe

SEA STONES™ *Crassula*
 SALLY SAWTOOTH™ *Crassula purpusii*
 MEDUSA ANEMONE™ *Echeveria runyonii*
 SEASIDE SUNRISE™ *Sedum adolphii*
 BERRYCUDA™ *Sedum rubrotinctum*
 GLOWING STAR™ *Sedum japonicum*

Each tray will create 12 finished recipes of Coastal Cruise.

TROPIC TIDE – Small 8" recipe

MILLIE MORAY™ *Crassula ovata*
 SHINING STARFISH™ *Crassula rupestris*
 PEARL ANEMONE™ *Echeveria*
 SHARK BITE™ *Oscularia deltooides*
 GLOWING STAR™ *Sedum japonicum*
 TURQUOISE TENTACLES™
Senecio kleiniiformis

Each tray will create 12 finished recipes of Tropic Tide.

SANDBAR STAR – Medium 12" recipe

BRIGHT BARNACLE™ *Aeonium*
 MILLIE MORAY™ *Crassula ovata*
 SHINING STARFISH™ *Crassula rupestris*
 ANGEL ANEMONE™ *Echeveria derenbergii*
 PEARL ANEMONE™ *Echeveria*
 REEF ROSE™ *Graptosedum*
 SEA PADDLE™ *Peperomia dolabriformis*
 DIAMOND RAY™ *Portulaca pilosa*
 BURSTING BUBBLES™ *Rhipsalis salicornioides*
 SEASIDE SUNRISE™ *Sedum adolphii*
 GLOWING STAR™ *Sedum japonicum*
 ELECTRIC EEL™ *Senecio serpens*

Each set of 2 trays will create 12 finished recipes of Sandbar Star.

RAINBOW REEF – Large 16" recipe

BRIGHT BARNACLE™ *Aeonium*
 SEA STONES™ *Crassula*
 MILLIE MORAY™ *Crassula ovata*
 SALLY SAWTOOTH™ *Crassula purpusii*
 PEARL ANEMONE™ *Echeveria*
 MEDUSA ANEMONE™ *Echeveria runyonii*
 SEASPRAY™ *Kalanchoe hildebrandtii*
 SHARK BITE™ *Oscularia deltooides*
 MERMAID TRESSES™ *Peperomia ferreyrae*
 STINGRAY™ *Portulacaria afra*
 SEASIDE SUNRISE™ *Sedum adolphii*
 BERRYCUDA™ *Sedum rubrotinctum*
 GLOWING STAR™ *Sedum japonicum* (use 2)
 WHIMSICAL WHALE™ *Senecio*
 SOARING GULL™ *Senecio ficoides*
 SEA PEARLS™ *Senecio rowleyanus*
 ELECTRIC EEL™ *Senecio serpens*

Each set of 3 trays will create 12 finished recipes of Rainbow Reef.

CORAL CREATIONS™ PACKAGING

All Coral Creations Succulents will require branded packaging which includes a special diecut label and a 3.5" thermoform container. Succulent recipe labels will be available for the five collections pictured on p. 20-21. Trays will also be available for purchase.

Packaging design is subject to change.

CORAL CREATIONS™ CULTURAL INFORMATION

All members of this collection share a preference for high light, dry to moderate soil, and warm temperatures. Coral Creations recipes are best planted in February through August when days are longer and light levels are naturally higher. They typically finish in eight weeks, or even less when grown in March-May.

pH/EC (2:1): 5.8-6.2/<.6

Fertilization: 150-250 ppm with clear water drench once per month

Light Level: High

Watering: Dry to Moderate

Rooting Temp: 65-72° F

Growing Temp: 65-72° F

Holding Temp: 40-50° F

Good air circulation, control of humidity, water management and good sanitation practices are critical to healthy plant growth. Treat with a preventative broad spectrum fungicidal drench 1-2 weeks after transplant. Scout crops regularly for disease development.

Pick up a copy of our new succulents brochure at Cultivate this July.

1371 AWARDS WON IN A SINGLE YEAR OF TRIALS

What other plants could rack up over 1,300 awards in a single year of university and public garden trials? Proven Winners can. Here are our top award winners for 2017. Learn more at www.provenwinners.com/learn/plant-trials.

Proven Winners® Marketing Campaign - OH

Streaming Radio
For 550 independent garden centers can target local gardeners within a 20-mile radius of their garden center. Retailers will receive a minimum of 21.8% audio impressions and 2,200 banner impressions. They can also include their company logo and a link to their website or Facebook page.
For more information on this program, visit www.provenwinners.com/oh

The nationwide campaign will run from April 30 - June 10 and will generate:
23.1 Million Pandora Audio Impressions
23.1 Million Pandora Drive Banners
2.7 Million Mobile Display Impressions

Gardener's Idea Book Co-op
This Spring, Proven Winners will mail out 400K copies of our popular *Gardener's Idea Book* - \$500 in GIC. Additionally, each year, Proven Winners provides FREE *Gardener's Idea Book* to retailers to mail to their customers if they pay for the postage. This year, **OH** retailers in OH are participating, mailing an additional 115,500 *Gardener's Idea Book* to their customers.
For more information and options, visit www.provenwinners.com/gic-co-op

Billboards
Across North America, Proven Winners will have 70+ billboards generating 99 million impressions during the month of May. One of these billboards will be in Columbus, generating 500,000 impressions. The billboard will be located at Fiverside Drive near Bethel Road. There will also be several billboards throughout the Cleveland area.

Website
We anticipate 118K website users from the state of OH, with over 184K+ visits to www.provenwinners.com

What Marketing are You Doing in MY Area?

More than you and your customers might think! We're in the process of developing local marketing reports which detail all the marketing efforts we are making across every state and province. You'll find them at www.provenwinners.com/professionals/localmarketing. Be sure to check back often as we will continue to update these reports as new information comes in.

NEW PROVEN WINNERS PERENNIALS FOR 2019

FALL IN LOVE™ 'Sweetly'
Anemone USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Vigorous and prolific Japanese anemone
- Large, semi-double, rose pink flowers
- Attracts pollinating bees and butterflies
- Spreading mound of dark green foliage
- Plant in late spring for fall sales
- Zones 4-8
- 20-26" height; 24-30" spread
- Part sun to sun

DECADENCE® 'Dark Chocolate'
Baptisia USPPAF CanPBRAF

- Replaces 'Dutch Chocolate' this year
- Charcoal purple to near-black flowers
- Longer flower spikes extend above foliage
- Blooms late spring to early summer
- Attracts pollinators; native cultivar
- Full, bushy, shrub-like habit
- Decorative seed pods in fall
- Zones 4-9
- 3-3½' height; 3' spread
- Part sun to sun

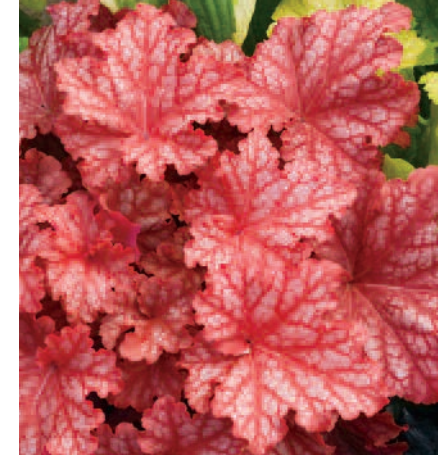

DOLCE® 'Apple Twist'
Heuchera USPPAF CanPBRAF

- Leaves emerge chartreuse with red veining
- Holding plants drier through dormancy results in strongest red coloration
- Matures to apple green with rippled edges
- Full, dense plant; fills out the container fully
- Cream flowers in midsummer
- Zones 4-9
- 10-12" foliage height; 18-20" flower height; 20-24" spread
- Part shade to shade

PRIMO® 'Mahogany Monster'
Heuchera USPPAF CanPBRAF

- Color expansion to the Primo line
- Huge, glossy, mahogany red leaves
- Foliage forms a substantial clump
- Cream flowers on thick scapes in midsummer
- *H. villosa* hybrid; naturally vigorous with good heat and humidity tolerance
- Zones 4-9
- 12-16" foliage height; 32-38" flower height; 22-28" spread
- Sun or shade

PRIMO® 'Peachberry Ice'
Heuchera USPPAF CanPBRAF

- Color expansion to the Primo line
- Apricot with silver overlay in spring
- Intense apricot blush coloration in summer
- Cream flowers in midsummer
- *H. villosa* hybrid; naturally vigorous with good heat and humidity tolerance
- Zones 4-9
- 8-10" foliage height; 24" flower height; 30-34" spread
- Sun or shade

SUMMERIFIC® 'Holy Grail'
Hibiscus USPPAF CanPBRAF

- Near-black foliage forms a dramatic backdrop for deep red, 8-9" flowers
- Bright green calyxes pop against dark foliage
- Blooms from top to bottom of plant in midsummer through early fall
- Robust, shrub-like habit
- Zones 4-9
- 4-4½' height; 4½-5' spread
- Part sun to sun

DOLCE® 'Cherry Truffles'
Heuchera USPPAF CanPBRAF

- Replaces Cinnamon Curls™ this year
- Deeper red color, impressive vigor and fuller habit
- Attractively ruffled leaves on low mounded plants
- Light pink flowers in early to midsummer
- Zones 4-9
- 8-10" foliage height; 18-22" flower height; 26-30" spread
- Sun or shade

DOLCE® 'Spearmint'
Heuchera USPPAF CanPBRAF

- Color expansion to the Dolce line
- Broad, metallic silver-green leaves
- Two-toned pink flowers are borne prolifically in early summer through midsummer
- Plant in fall for best flowering performance
- Zones 4-9
- 8-10" foliage height; 26-28" flower height; 16-22" spread
- Sun or shade

DOLCE® 'Wildberry'
Heuchera USPPAF CanPBRAF

- Replaces 'Blackberry Ice' this year
- Larger, glossier, bold purple leaves hold their color for much of the season
- White flowers in early to midsummer
- *H. villosa* hybrid; naturally vigorous with good heat and humidity tolerance
- Zones 4-9
- 10-14" foliage height; 26-28" flower height; 16-20" spread
- Sun or shade

SHADOWLAND® 'Diamond Lake'
Hosta USPPAF CanPBRAF

- Large, blue hosta with thick, corrugated foliage
- Wavy, heart-shaped leaves grow up to 9" wide x 11" long
- Heavy leaf substance deters pests
- Pale lavender flowers in early to midsummer
- Plant year prior and grow cool for best results
- Zones 3-9
- 17" foliage height; 25-28" flower height; 45" spread
- Part shade to shade

SHADOWLAND® 'Etched Glass'
Hosta USPPAF CanPBRAF

- Sport of 'Stained Glass' with wider margins and thicker substance
- Dark green margins, bright yellow center
- Leaf margins exhibit puckering when mature
- Large, fragrant, near-white flowers in late summer
- Zones 3-9
- 18" foliage height; 36" flower height; 36" spread
- Part shade to shade

SHADOWLAND® 'Wu-La-La'
Hosta USPPAF CanPBRAF

- Variegated sport of 'Empress Wu'
- Large, thick, blue-green leaves with apple green margins
- Pale violet flowers in early to midsummer
- Reaches mature size in about 5 years
- Zones 3-9
- 3-4' foliage height; 4' flower height; 5-6' spread
- Part shade to shade

PYROMANIA™ 'Backdraft'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Intense red-orange and peach bicolor flower spikes
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 2½-3' height; 2-2½' spread
- Full sun

PYROMANIA™ 'Flashpoint'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Chartreuse yellow to creamy white flower spikes
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 4-4½' height; 2½-3' spread
- Full sun

PYROMANIA™ 'Hot and Cold'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Tangerine orange and white bicolor flower spikes
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 2½-3' height; 2-2½' spread
- Full sun

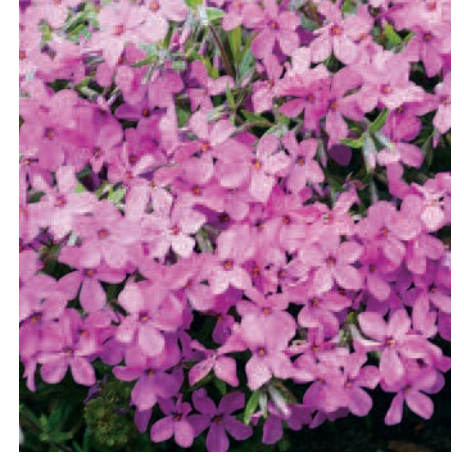

'Leading Lady Orchid' *Monarda* USPPAF CanPBRAF

- *M. bradburiana* hybrid
- Blooms two weeks earlier than *M. didyma* in time for spring retail sales
- Two-toned orchid and light pink flowers
- Excellent perennial for pollinators
- Clump-forming, dense, dark green foliage is mildew resistant
- Zones 4-8
- 10-14" height; 22-28" spread
- Part sun to sun

'Cat's Pajamas' *Nepeta* USPPAF CanPBRAF

- Dwarf selection, smaller than 'Cat's Meow'
- Earlier blooming than 'Cat's Meow' by 2-3 weeks beginning in late spring
- Darker blue flowers bloom from crown to tip
- Rosy purple calyxes extend the season of interest
- Excellent perennial for pollinators
- Zones 3-8
- 12-14" height; 18-20" spread
- Full sun

'Magenta Sprite' *Phlox* USPPAF CanPBRAF

- One of the first to bloom; timed perfectly for spring retail sales
- Magenta pink flowers bloom prolifically
- Tolerates more shade and later blooming than *P. subulata*
- Must be planted in late summer for bulking
- Native cultivar
- Zones 3-8
- 6-8" height; 18-22" spread
- Part sun to sun

PYROMANIA™ 'Orange Blaze'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Densely packed, glowing orange flower spikes on compact plants
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 2-2½' height; 1½-2' spread
- Full sun

PYROMANIA™ 'Rocket's Red Glare'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Red and creamy peach bicolor flower spikes
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 2½-3' height; 1½-2' spread
- Full sun

PYROMANIA™ 'Solar Flare'
Kniphofia USPPAF CanPBRAF

- New genus for the Proven Winners brand
- Consistent, sunny yellow flower spikes
- Attracts pollinators; deer and rabbit resistant
- Blooms from early to late summer; rebloomer
- Narrow, deep green leaves form an attractive grass-like clump
- Zones 5b-9 (with protection)
- 3-3½' height; 2-2½' spread
- Full sun

'Purple Sprite' *Phlox* USPPAF CanPBRAF

- One of the first to bloom; timed perfectly for spring retail sales
- Bright purple flowers bloom prolifically
- Tolerates more shade and later blooming than *P. subulata*
- Must be planted in late summer for bulking
- Native cultivar
- Zones 3-8
- 6-8" height; 18-22" spread
- Part sun to sun

'Rose Sprite' *Phlox* USPPAF CanPBRAF

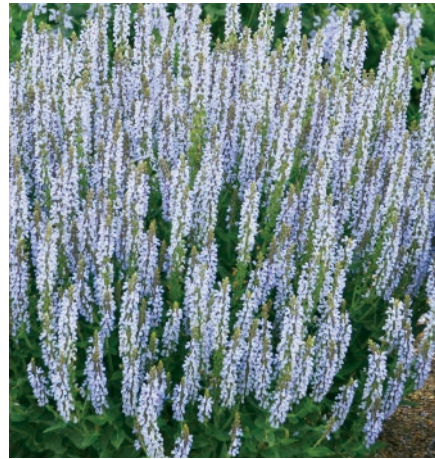

- One of the first to bloom; timed perfectly for spring retail sales
- Rose pink flowers bloom prolifically
- Tolerates more shade and later blooming than *P. subulata*
- Must be planted in late summer for bulking
- Native cultivar
- Zones 3-8
- 6-8" height; 18-22" spread
- Part sun to sun

COLOR SPIRES® 'Indigo Girl' *Salvia* USPPAF CanPBRAF

- Deep indigo blue flowers with dark calyxes
- *S. nemorosa* x *S. pratensis* hybrid; excellent foliage and large, showy flowers
- Blooms from late spring into early summer; well-matched across the series
- Will rebloom if deadheaded
- Deer resistant; attracts pollinators
- Zones 3-8
- 20-22" height; 20-22" spread
- Full sun

PROVEN WINNERS COLORCHOICE® SHRUBS FOR 2019

'Perfect Profusion'
Salvia nemorosa USPPAF Can/PBRAAF

- New series of compact, reblooming salvia
- Ice blue flowers bloom first in late spring; consistently reblooms throughout summer if cut back
- Easy to grow in production
- Neatly rounded, mounding foliage
- Deer resistant; attracts pollinators
- Zones 3-8
- 16-20" height; 16-20" spread
- Full sun

'Pink Profusion'
Salvia nemorosa USPPAF Can/PBRAAF

- New series of compact, reblooming salvia
- Deep pink flowers with purple calyxes
- Blooms in late spring; reblooms in summer if cut back
- Easy to grow in production
- Neatly rounded, mounding foliage
- Deer resistant; attracts pollinators
- Zones 3-8
- 14-16" height; 16-20" spread
- Full sun

'Violet Profusion'
Salvia nemorosa USPPAF Can/PBRAAF

- New series of compact, reblooming salvia
- Violet blue flowers with purple calyxes
- Blooms in late spring; reblooms in summer if cut back
- Easy to grow in production
- Neatly rounded, mounding foliage
- Deer resistant; attracts pollinators
- Zones 3-8
- 14-16" height; 16-20" spread
- Full sun

FUNSHINE™ *Abelia grandiflora* Minacara1 USPPAF

- 2-3' tall and wide
- USDA zones 6-9
- Very bright in the landscape
- New growth emerges in tones of marmalade-orange and toasted caramel
- Soft purple blooms all summer
- Grows as a neat, rounded mound
- Glossy semi-evergreen foliage

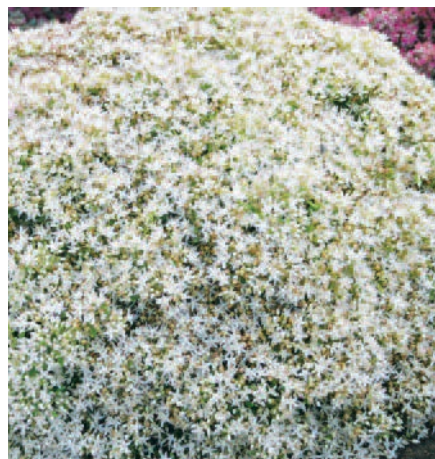

SUNJOY MINI MAROON™
Berberis thunbergii NCBT1 USPPAF Can/PBRAAF

- 2-3' tall and wide
- USDA zones 4-8
- First-ever sterile dark-leaf barberry
- Tight, mounded habit
- Disease resistant
- Deer resistant
- Faster growing than 'Concorde'

SUNJOY TODO™ *Berberis* NCBX1 USPPAF Can/PBRAAF

- 1.5-2' tall and wide
- USDA zones 4-8
- Sterile dark-leaf barberry
- Neat dwarf habit
- Ornamental orange flowers
- Semi-evergreen foliage
- Deer resistant

ROCK 'N GROW® 'Bundle of Joy'
Sedum USPPAF Can/PBRAAF

- White-flowered sport of 'Pure Joy'
- Blooms from late summer into fall
- Attractive seed heads extend the season of interest through fall
- Forms a tight, low mounded dome of serrated, blue-green foliage
- Drought tolerant; attracts pollinators
- Zones 3-9
- 10-12" height; 16-20" spread
- Full sun

MAGIC SHOW® 'Wizard of Ahhs'
Veronica USPPAF Can/PBRAAF

- Replaces 'Hocus Pocus' this year
- Thicker, violet blue flower spikes cover the top half of the plant
- Earliest flowering in the series by one week
- Requires vernalization to bloom
- Bulks up quickly in production
- Low mounding, mildew resistant foliage
- Zones 4-8
- 14-16" height; 18-22" spread
- Part sun to sun

BERRIED TREASURE™ strawberries will also be offered under the Proven Winners® Perennials program.

PUGSTER® Amethyst
Buddleia SMINBDL USPPAF Can/PBRAAF

- 2' tall and wide
- USDA zone 5-9
- The newest member of the award-winning series
- Dense, full blooms of amethyst purple
- Sweet fragrance
- Thick stems ensure better hardiness, shipping, and display
- Blooms all season without deadheading

PUGSTER® series *Buddleia*

- 2' tall and wide
- USDA zones 5-9
- Full sized blooms on a dwarf plant
- Sweet, honey-like fragrance
- Thick stems ensure better hardiness, shipping, and display
- Blooms all season with no deadheading
- Available in five colors: Amethyst, Blue, Periwinkle, Pink, White

SISTER™ series *Cytisus scoparius*

- 2-4' tall and wide
- USDA zones 5-8
- New colors for this spring time favorite
- Available in three colors: SISTER REDHEAD™ (red), SISTER DISCO™ (yellow with a red beak), and SISTER ROSIE™ (dusty pink, red, and yellow)
- Green stems and fine foliage for unique texture
- Deer resistant

- INVINCIBELLE® Ruby**
Hydrangea arborescens ^{'NCHA3'} USPP28317 Can5623
- 3-4' tall and wide
 - USDA zones 3-9
 - Ruby red blooms on a smooth hydrangea
 - Excellent stem strength prevents flopping
 - Reblooming
 - Sun tolerant
 - Native to North America

- INVINCIBELLE® Spirit II**
Hydrangea arborescens ^{'NCHA2'} USPP28316 Can5622
- 3-4' tall and wide
 - USDA zones 3-9
 - Pure pink flowers on a smooth hydrangea
 - Excellent stem strength prevents flopping
 - Reblooming
 - Improved Invincibelle® Spirit
 - Native to North America

- INVINCIBELLE LIMETTA®**
Hydrangea arborescens ^{'NCHA8'} USPPAF CanPBRAF
- 2.5-3' tall and wide
 - USDA zones 3-9
 - Mophead blooms start white and age green
 - Excellent stem strength prevents flopping
 - Reblooming
 - Landscape-friendly dwarf habit
 - Native to North America

- TUFF STUFF™ series *Hydrangea serrata***
- 1.5-3' tall and wide
 - USDA zones 5-9
 - Dwarf hydrangea with appealing lacecap blooms
 - Excellent blue or pink coloration
 - Reblooming
 - Improved bud hardiness over *H. macrophylla*
 - Landscape-friendly dwarf habit

- SCENTLANDIA™**
Itea virginica ^{'SMNIVDFC'} USPPAF CanPBRAF
- 2-3' tall and wide
 - USDA zones 5-9
 - Improved dwarf sweetspire (*Itea*)
 - Sweetly fragrant summer flowers
 - Very showy fall color
 - Excellent hardiness ensures reliable bloom
 - Native to North America

- INFINITINI® Purple**
Lagerstroemia indica ^{'GZX13368'} USPPAF
- 3-5' tall and wide
 - USDA zones 6-10
 - Vivid purple blooms in summer
 - Space saving dwarf habit
 - Reblooming
 - Reliable performance even in USDA zone 6
 - Joins the other 5 colorful varieties in this series

- INVINCIBELLE MINI MAUVETTE®**
Hydrangea arborescens ^{'NCHA7'} USPPAF CanPBRAF
- 2.5-3' tall and wide
 - USDA zones 3-9
 - Unique deep pink-purple flowers
 - Outstanding stem strength, no flopping!
 - Reblooming
 - Landscape-friendly dwarf habit
 - Native to North America

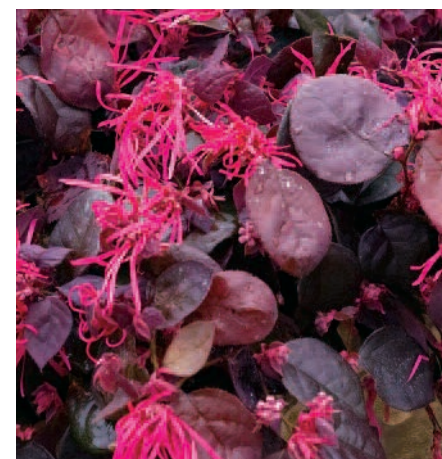

- INVINCIBELLE WEE WHITE®**
Hydrangea arborescens ^{'NCHA5'} USPPAF CanPBRAF
- 1-2.5' tall and wide
 - USDA zones 3-9
 - Dwarf version of 'Annabelle' with significant improvements
 - Strong stems do not flop
 - Reblooming
 - Reliable and easy to care for
 - Native to North America

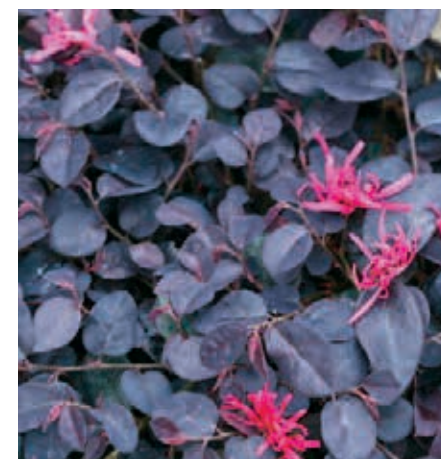

- TUFF STUFF AH-HA™**
Hydrangea serrata ^{'SMNHSDD'} USPPAF CanPBRAF
- 2-3' tall and wide
 - USDA zones 5-9
 - The newest member of the award-winning series
 - Waterlily-like florets may be pink or blue
 - Reblooming
 - Improved hardiness over *H. macrophylla*
 - Landscape-friendly dwarf habit

- INFINITINI® White**
Lagerstroemia indica ^{'GZX13377'} USPPAF
- 3-4' tall and wide
 - USDA zones 6-10
 - Refreshing white blooms in summer
 - Space saving dwarf habit
 - Reblooming
 - Reliable performance even in USDA zone 6
 - Joins the other 5 colorful varieties in this series

- JAZZ HANDS® Bold**
Loropetalum chinense ^{'Kurenai Daiou'} USPP27748
- 5-6' tall and wide
 - USDA zones 7b-9
 - Extra large flowers and foliage
 - Purple leaves with bright pink flowers
 - Retains color all summer
 - Vigorous and easy care
 - Deer resistant

- JAZZ HANDS® Mini**
Loropetalum chinense ^{'Beni Hime'} USPP27752
- 10-12" tall, 12-18" wide
 - USDA zones 7b-9
 - The most dwarf loropetalum available
 - No pruning required
 - Deep purple foliage, bright pink flowers
 - Very versatile in the landscape
 - Deer resistant

NEW

JAZZ HANDS NIGHT MOVES™
Loropetalum chinense ^{'Suzuki'} USPPAF

- 2-4' tall and wide
- USDA zones 7b-9
- Unusual combination of white flowers and purple foliage
- New growth develops splashy variegation
- Retains color all summer
- Year-round color
- Deer resistant

NEW

SUMMER WINE® Black
Physocarpus opulifolius ^{'SMNPMS'} USPPAF CanPBRAF

- 5-6' tall and wide
- USDA zones 3-7
- The darkest foliage of any ninebark
- Small leaves create texture
- Pink and white flowers in late spring
- Disease resistant
- Native to North America

NEW

JUKE BOX™ x *Pyracomeles* ^{'NCXP1'} USPPAF

- 1-3' tall and wide
- USDA zones 7b-9
- A new alternative to boxwood
- Small glossy leaves
- Evergreen
- Can be shaped and trimmed
- Perfect for hedging, topiary, and edging

NEW

DOUBLE PLAY DOOZIE®
Spiraea ^{'NCSX2'} USPPAF CanPBRAF

- 2-3' tall and wide
- USDA zones 3-8
- The first-ever sterile spirea!
- Blooms from spring-frost
- Hot pink flowers
- New growth emerges vivid red
- Deer resistant

NEW

BLOOMERANG® Dwarf Pink
Syringa ^{'SMNJRP1'} USPPAF CanPBRAF

- 2.5-3' tall and wide
- USDA zones 3-7
- Dwarf reblooming lilac
- Improved Bloomerang® 'Pink Perfume'
- Fragrant pink flowers in spring, then summer-fall
- Disease resistant
- Vigorous and easy to grow

NEW

BLOOMERANG® Dwarf Purple
Syringa ^{'SMNJRP1U'} USPPAF CanPBRAF

- 2.5-3' tall and wide
- USDA zones 3-7
- Dwarf reblooming lilac
- Half the size of the original Bloomerang®
- Fragrant purple flowers in spring, then summer-fall
- Disease resistant
- Vigorous and easy to grow

ROSE OF THE YEAR

AT LAST® *Rosa* ^{'HORCOGJIL'} USPP27541 Can5631

- 3' tall and wide
- USDA zones 5-9
- The first fragrant, disease-resistant rose
- Classic rose blooms in irresistible orange
- Glossy, disease resistant foliage
- Blooms all season with no deadheading
- True rose fragrance

NEW

OSO EASY® Double Pink
Rosa ^{'MEIRIFTDAY'} USPPAF CanPBRAF

- 1.5-2' tall and wide
- USDA zones 5-9
- Extremely floriferous landscape rose
- Fully petaled pink blooms
- Flowers all season without deadheading
- Glossy, disease resistant foliage
- Good for groundcover or edging

NEW

SUNSAY™ *Rosa* ^{'Chewgewest'} USPPAF CanPBRAF

- 3-4' tall and wide
- USDA zones 5-9
- Gracefully shaped buds and flowers
- Blooms shaded deep orange to glowing yellow
- Glossy, disease resistant foliage
- Shrubby habit for hedging, specimens, and beds
- Flowers all season without deadheading

NEW

SCENTARA™ Double Blue
Syringa hyacinthiflora ^{'SMNSHBBL'} USPPAF CanPBRAF

- 6-8' tall and wide
- USDA zones 2-8
- Classic lilac fragrance
- Unique doubled blue florets
- Mildew resistant
- Improved habit over other lilacs
- Deer resistant

NEW

SNIPPET LIME™
Weigela florida ^{'VUKOZ047213'} USPPAF CanPBRAF

- 1-2' tall and wide
- USDA zones 4-8
- Dwarf reblooming weigela
- Bright lime green foliage
- Pink flowers in spring, then summer-fall
- Rounded, compact habit
- Deer resistant

NEW

SNIPPET™ Dark Pink
Weigela florida ^{'VUKOZLyrta'} USPPAF CanPBRAF

- 1-2' tall and wide
- USDA zones 4-8
- Dwarf reblooming weigela
- Bright pink flowers in spring, then summer-fall
- Rounded, compact habit
- Very long blooming for extended retail appeal
- Deer resistant

PROVEN WINNERS® STRAWBERRIES AND BASIL

BERRIED
TREASURE™ Pink
Fragaria ananassa

BERRIED
TREASURE™ Red
Fragaria ananassa

These strawberries will also be offered under the Proven Winners® Perennials program.

AMAZEL™
Ocimum

BERRIED TREASURE™ Pink *Fragaria ananassa*

- Everbearing patio strawberry
- Perfect for containers; reduced runners
- Ornamental and edible; daylength neutral
- Semi-double, pink flowers
- Highly flavorful, snack-sized fruits
- Grow in 4.25 Grande™ containers, monocultures and landscapes
- 12-16" height; 18-24" spread
- Full sun; zones 4-9
- Vigor 2

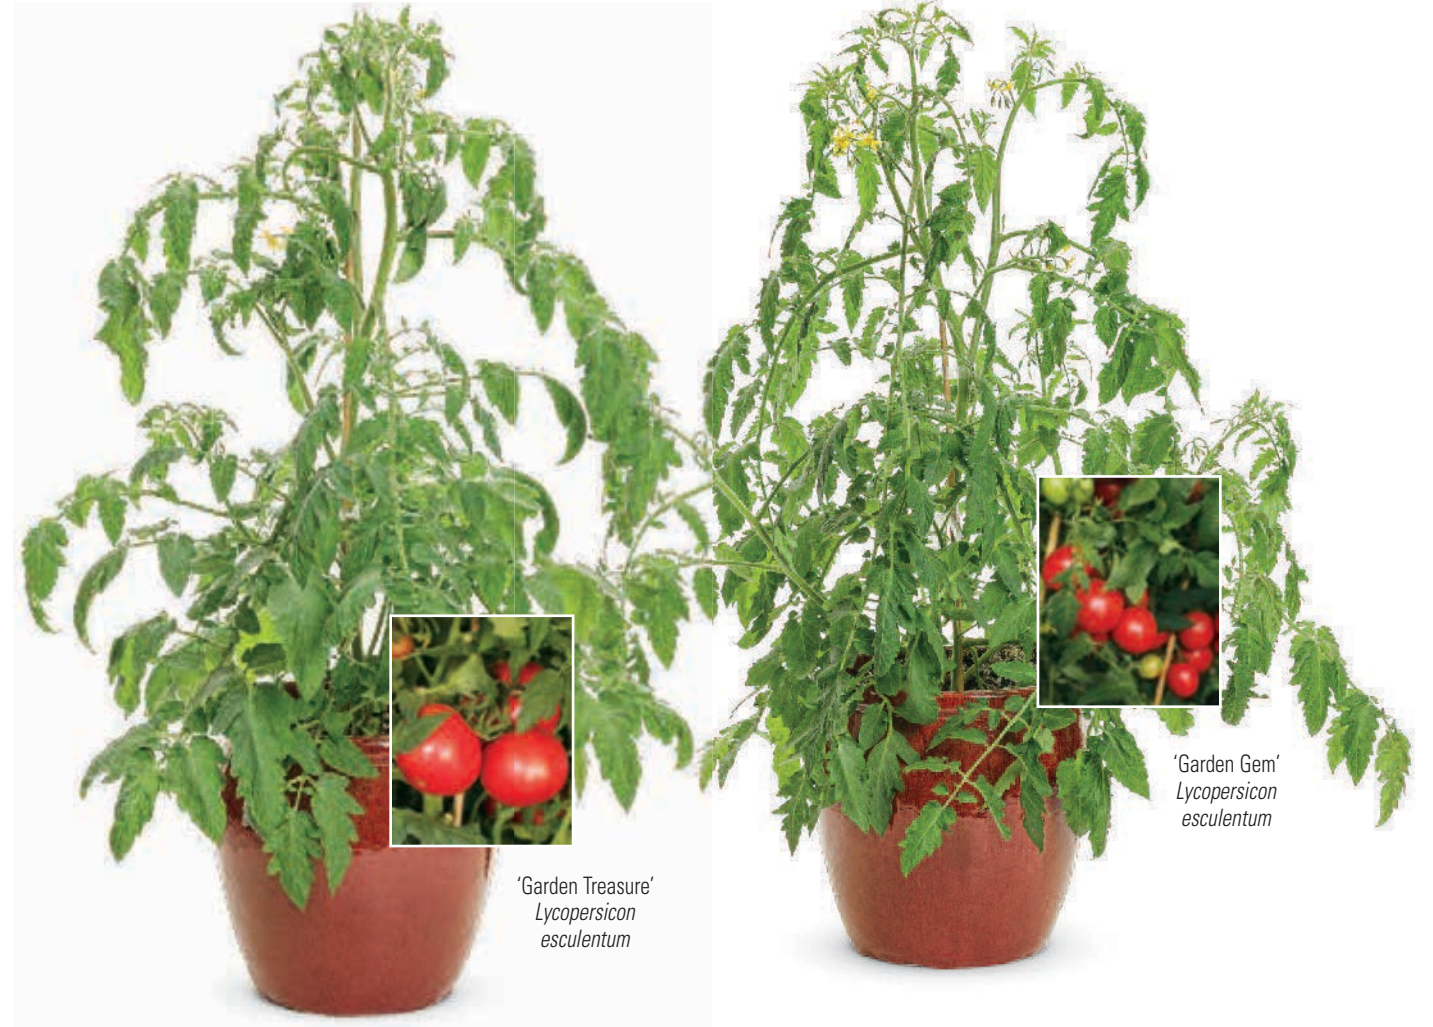

BERRIED TREASURE™ Red *Fragaria ananassa*

- Everbearing patio strawberry
- Perfect for containers; reduced runners
- Ornamental and edible; daylength neutral
- Semi-double, red flowers
- Highly flavorful, snack-sized fruits
- Grow in 4.25 Grande™ containers, monocultures and landscapes
- 12-16" height; 18-24" spread
- Full sun; zones 4-9
- Vigor 2

AMAZEL™ Basil *Ocimum* *** USPPAF CanPBRAF

- The first downy mildew-resistant variety of Italian sweet basil
- Sterile, vegetative selection
- Vigorous grower; quick to mature with high yields
- Grow in 4.25 Grande™ and 1.0 Royale™ containers, monocultures and landscapes
- 20-36" height; 12-24" spread
- Full sun
- Vigor 4

SCIENCE DELIVERS THE PERFECT TOMATO

'Garden Treasure'
*Lycopersicon
esculentum*

'Garden Gem'
*Lycopersicon
esculentum*

'Garden Gem'

Lycopersicon esculentum USPPVP 201400052 Unauthorized propagation prohibited

- Heirloom flavor with modern disease resistance and high yields
- Determinate variety with snack-size fruit
- Firm, juicy fruit with smooth flavor
- Thrives in heat and humidity
- Grow in 4.25 Grande™ and 1.0 Royale™ containers, monocultures and landscapes
- 28-36" height; 12-20" spread
- Full sun
- Vigor 4

'Garden Treasure'

Lycopersicon esculentum USPPVP 201400065 Unauthorized propagation prohibited

- Heirloom flavor but disease resistant plants
- Indeterminate with high yield of large fruits
- Firm, juicy fruit with balanced flavor
- Delicious in salads and sauces
- Thrives in heat and humidity
- Grow in 4.25 Grande™ and 1.0 Royale™ containers, monocultures and landscapes
- 28-36" height; 12-20" spread
- Full sun
- Vigor 4

Scientist Dr. Harry Klee has worked for nearly three decades to develop the world's most perfect tomato – one that contains the ideal balance of sweetness, acidity and flavor intensity on disease-resistant plants. After studying the flavor chemistry of 398 modern, heirloom and wild tomatoes, more than 500 professional flavor testers declared Dr. Klee's 'Garden Gem' and 'Garden Treasure' varieties among the very best they had ever tasted.

But tasting great was only one part of the equation. Dr. Klee trialed his tomato seedlings in the hot, humid state of Florida and selected only those that delivered a strong summer performance. His resulting hybrids combine the delicious flavor of an heirloom tomato with high yielding, disease resistant, heat and humidity tolerant plants.

Dr. Klee's research on tomato flavor was published in the January 2017 issue of Science.

PROVEN WINNERS® REQUIRED PACKAGING

Packaging for 'Garden Treasure,' 'Garden Gem,' Amazel™, and Berried Treasure™ varieties –

The Proven Package, including a branded container and label, is required. Growers can choose to use any existing Proven Winners branded container, or they can use a variety specific container (shown below) which are available in Grande™ and Royale™ sizes.

Option 1: Specialized Packaging + Label

Specialized containers and labels tell the story behind the product to distinguish it from others on the market.

Specialized containers tell the story of the plant.

Option 2: Standard Packaging + Label

Growers may use our standard branded container. The variety specific label identifies the plant and tells the story behind it.

When the specialized container is not used, the story behind the plant will be conveyed through the variety specific label.

SUPERBELLS® PERFORM ALL SEASON LONG

The Trial: Superbells® Calibrachoa v. A Leading Competitor's Calibrachoa

In this trial, we planted 10" hanging baskets with three small plugs each on the second week of May. The plants were pinched only once, one week before planting. They were equally watered and fed as needed, received no fungicide applications, and were all drenched with Mainspring® (cyantraniliprole) to control thrips in the field. These photos were taken on the second week of September, 17 weeks after planting.

Why Choose Superbells®?

You can see the Proven Winners difference for yourself. Superbells Calibrachoa are bred and selected for all-season performance. We want our plants to be easy for growers to produce, but we also know that exemplary performance in home gardens is what keeps consumers coming back for more. Superbells have superior vigor, flower coverage, floral presentation, well-branched habit, disease resistance and heat tolerance that keeps them in bloom all season.

Set your customers up for success by offering them Superbells. Over 30 varieties are available in a broad range of colors and novelty patterns in multiple liner sizes.

SUPERBELLS® Miss Lilac Calibrachoa v. Leading Competitor

SUPERBELLS® GRAPE PUNCH™ Calibrachoa v. Leading Competitor

SUPERBELLS® MORNING STAR™ Calibrachoa v. Leading Competitor

SUPERBELLS® OVER EASY™ Calibrachoa v. Leading Competitor

SUPERBELLS® Red Calibrachoa v. Leading Competitor

SUPERBELLS® RISING STAR™ Calibrachoa v. Leading Competitor

COMPARISON PHOTOS OF IMPROVED AND NEW VARIETIES FOR 2019

1. ANGELFACE® Blue *Angelonia* vs. ANGELFACE® Blue Improved *Angelonia*

2. ANGELFACE® Wedgwood Blue *Angelonia* vs. ANGELFACE® Wedgwood Blue Improved *Angelonia*

3. SUPERBELLS® EVENING STAR™ *Calibrachoa* vs. SUPERBELLS® EVENING STAR™ Improved *Calibrachoa*

4. Left to right: DIAMOND DELIGHT® *Euphorbia*, DIAMOND MOUNTAIN™ *Euphorbia* and DIAMOND FROST® *Euphorbia*

1. ANGELFACE® Blue Improved – Photo: August, New Hampshire trial. Improvements: better branching, flower presentation and flower coverage.

2. ANGELFACE® Wedgwood Blue Improved – Photo: August, New Hampshire trial. Improvements: larger flowers, improved flower presentation, better match to others in the collection.

3. SUPERBELLS® EVENING STAR™ Improved – Photo: August, New Hampshire trial. Improvements: larger flowers, extended star pattern, more sunfast color, improved flower coverage.

4. DIAMOND MOUNTAIN™ – Photo: August, Michigan trial. Line extension: Grows twice as big as Diamond Frost®. Great for mixing in high-vigor recipes with plants like Supertunia Vista® petunias.

5. LUSCIOUS® CITRUS BLEND™ Improved – Photo: August, Michigan trial. Improvements: reduced internode length results in a tighter habit and improved flower coverage with no to low seed set.

6. COLORBLAZE® TORCHLIGHT™ – Photo: August, New Hampshire trial. Improvements: improved branching for fuller habit, and later flowering which keeps the habit tighter for longer.

7. COLORBLAZE® SEDONA SUNSET™ – Photo: August, New Hampshire trial. Improvements: later flowering than ‘Sedona’, improved foliage color over Keystone Kopper®, and a fuller, more well-branched habit than both.

8. WHIRLWIND® Pink – Photo: August, Michigan trial. Improvements: improved vigor, branching, and flower coverage. Well-matched with others in the collection.

9. SUPERBENA® Scarlet Star – Photo: August, Michigan trial. Improvements: earlier to bloom and more floriferous with exceptional resistance to powdery mildew.

10. Sweet Caroline Raven Improved and Sweet Caroline Kiwi – Photo: August, Michigan trials. Improvements: Sunfast foliage colors; vigor and habits are standardized to match others in the collection. Well-suited for growing in smaller containers and gardens.

5. LUSCIOUS® CITRUS BLEND™ *Lantana* vs. LUSCIOUS® CITRUS BLEND™ Improved *Lantana*

6. COLORBLAZE® Kingswood Torch *Solenostemon* vs. COLORBLAZE® TORCHLIGHT™ *Solenostemon*
