

PLANT SPECIES OF EUROPEAN COMMUNITY IMPORTANCE PRESENT IN THE FLORA OF ROMANIA

OPREA Adrian*

Abstract: There are presented here all those plant species included in the international regulations, growing also in the flora of Romania.

Key words: *Habitat Directive, Red Lists, Threatened Plant Species, Romania.*

Introduction

The stipulated adhesion of Romania to the European Union in the next years, impose us to adopt the legislation emitted by the above mention institution. Among those reference documents is the *Habitat Directive 92/43/EEC*. All the annexes of this *Directive* is of great importance for our country, but the target of this paper is to underline the plant species registered in the next annexes: IIb, IVb, and Vb. Under those annexes, there are some of plant species which are registered into the flora of Romania, becoming thus of extreme importance to protect them by law. Thus, Romania has proclaimed already some laws in order to give a protected status to some of the most threatened plant species in our country.

Through this paper, we wish to list all the plant species from the annexes of the *Habitat Directive 92/43/EEC*, as well as those species which are of national importance (namely, the most threatened plants, being registered into various *Red Lists*, in Romania).

Further, we shall list those plant species present into the flora of Romania, accordingly to the *Habitat Directive 92/43/EEC* and in other international regulations.

I. PLANT SPECIES REGISTERED UNDER THE *HABITAT DIRECTIVE 92/43/EEC*

57	Leucobryaceae	<i>Leucobryum glaucum</i> (Hedw.) Aangstr.	HD Annex IVb
58	Scrophulariaceae	<i>Lindernia procumbens</i> (Krocker) Philcox	HD Annex IVb
59	Lycopodiaceae	<i>Lycopodium</i> spp. (all the species)	HD Annex IVb
60	Sphagnaceae	<i>Sphagnum</i> spp. (all the other species, except <i>Sphagnum pylaisii</i> Brid.)	HD Annex IVb
61	Asteraceae	<i>Arnica montana</i> L.	HD Annex Vb
62	Asteraceae	<i>Artemisia eriantha</i> Ten.	HD Annex Vb
63	Amaryllidaceae	<i>Galanthus nivalis</i> L.	HD Annex Vb
64	Gentianaceae	<i>Gentiana lutea</i> L.	HD Annex Vb
65	Liliaceae	<i>Ruscus aculeatus</i> L.	HD Annex Vb

With bold letters, are underlined those species included under the *Habitat Directive 92/43/EEC*, following the European Union agreed text on the accession treaty of Romania and Bulgaria (2005).

II. PLANT SPECIES OF NATIONAL IMPORTANCE, BEING IN THE SAME TIME A PRIORITY FOR PRESERVING IN ROMANIA

A. PLANT SPECIES UNDER INTERNATIONAL REGULATIONS

Follow, we shall listed those plant species, considered to be a priority for us to preserve them, on a short & medium term. All of the next species are registered under some international regulations, as: *Global Red List* (GRL), *World Tree Red List* (WLT, 1998), *Bern Convention* (BC, 1979), *European Red List of Bryophytes* (ERL), *European Red List of Fungi* (LR-BC/2004), *Macrolichenes Red List* (** Bern Macrolichenes List, 1989 - MRL), being not included under the *Habitat Directive 92/43/EEC*.

Some of these international regulations are also adopted by the Romanian Government, as different laws or resolutions.
