

A Pictorial History of Advances in Mineral Metabolism (AIMM)

AIMM 25TH ANNIVERSARY PHOTO ALBUM

A small group got together in 1985 with the idea of combining state-of-the-art science, meaningful interactions, small group discussions and young investigators away from the hurly-burly of the ASBMR, with great Spring skiing.

The concept gained life and in the Spring of 1986 the first Advances in Mineral Metabolism meeting (AIMM) was held in Snowmass, CO.

PURPOSE

ADVANCES IN MINERAL METABOLISM (AIMM) IS A NONPROFIT ORGANIZATION WHOSE PURPOSE IS TO BRING TOGETHER THE MOST ACTIVE BASIC AND CLINICAL RESEARCHERS IN THE FIELD OF MINERAL METABOLISM AND TO PROVIDE AN ENVIRONMENT THAT IS CONDUCIVE TO OPEN DISCUSSION AND SPIRITED DEBATE.

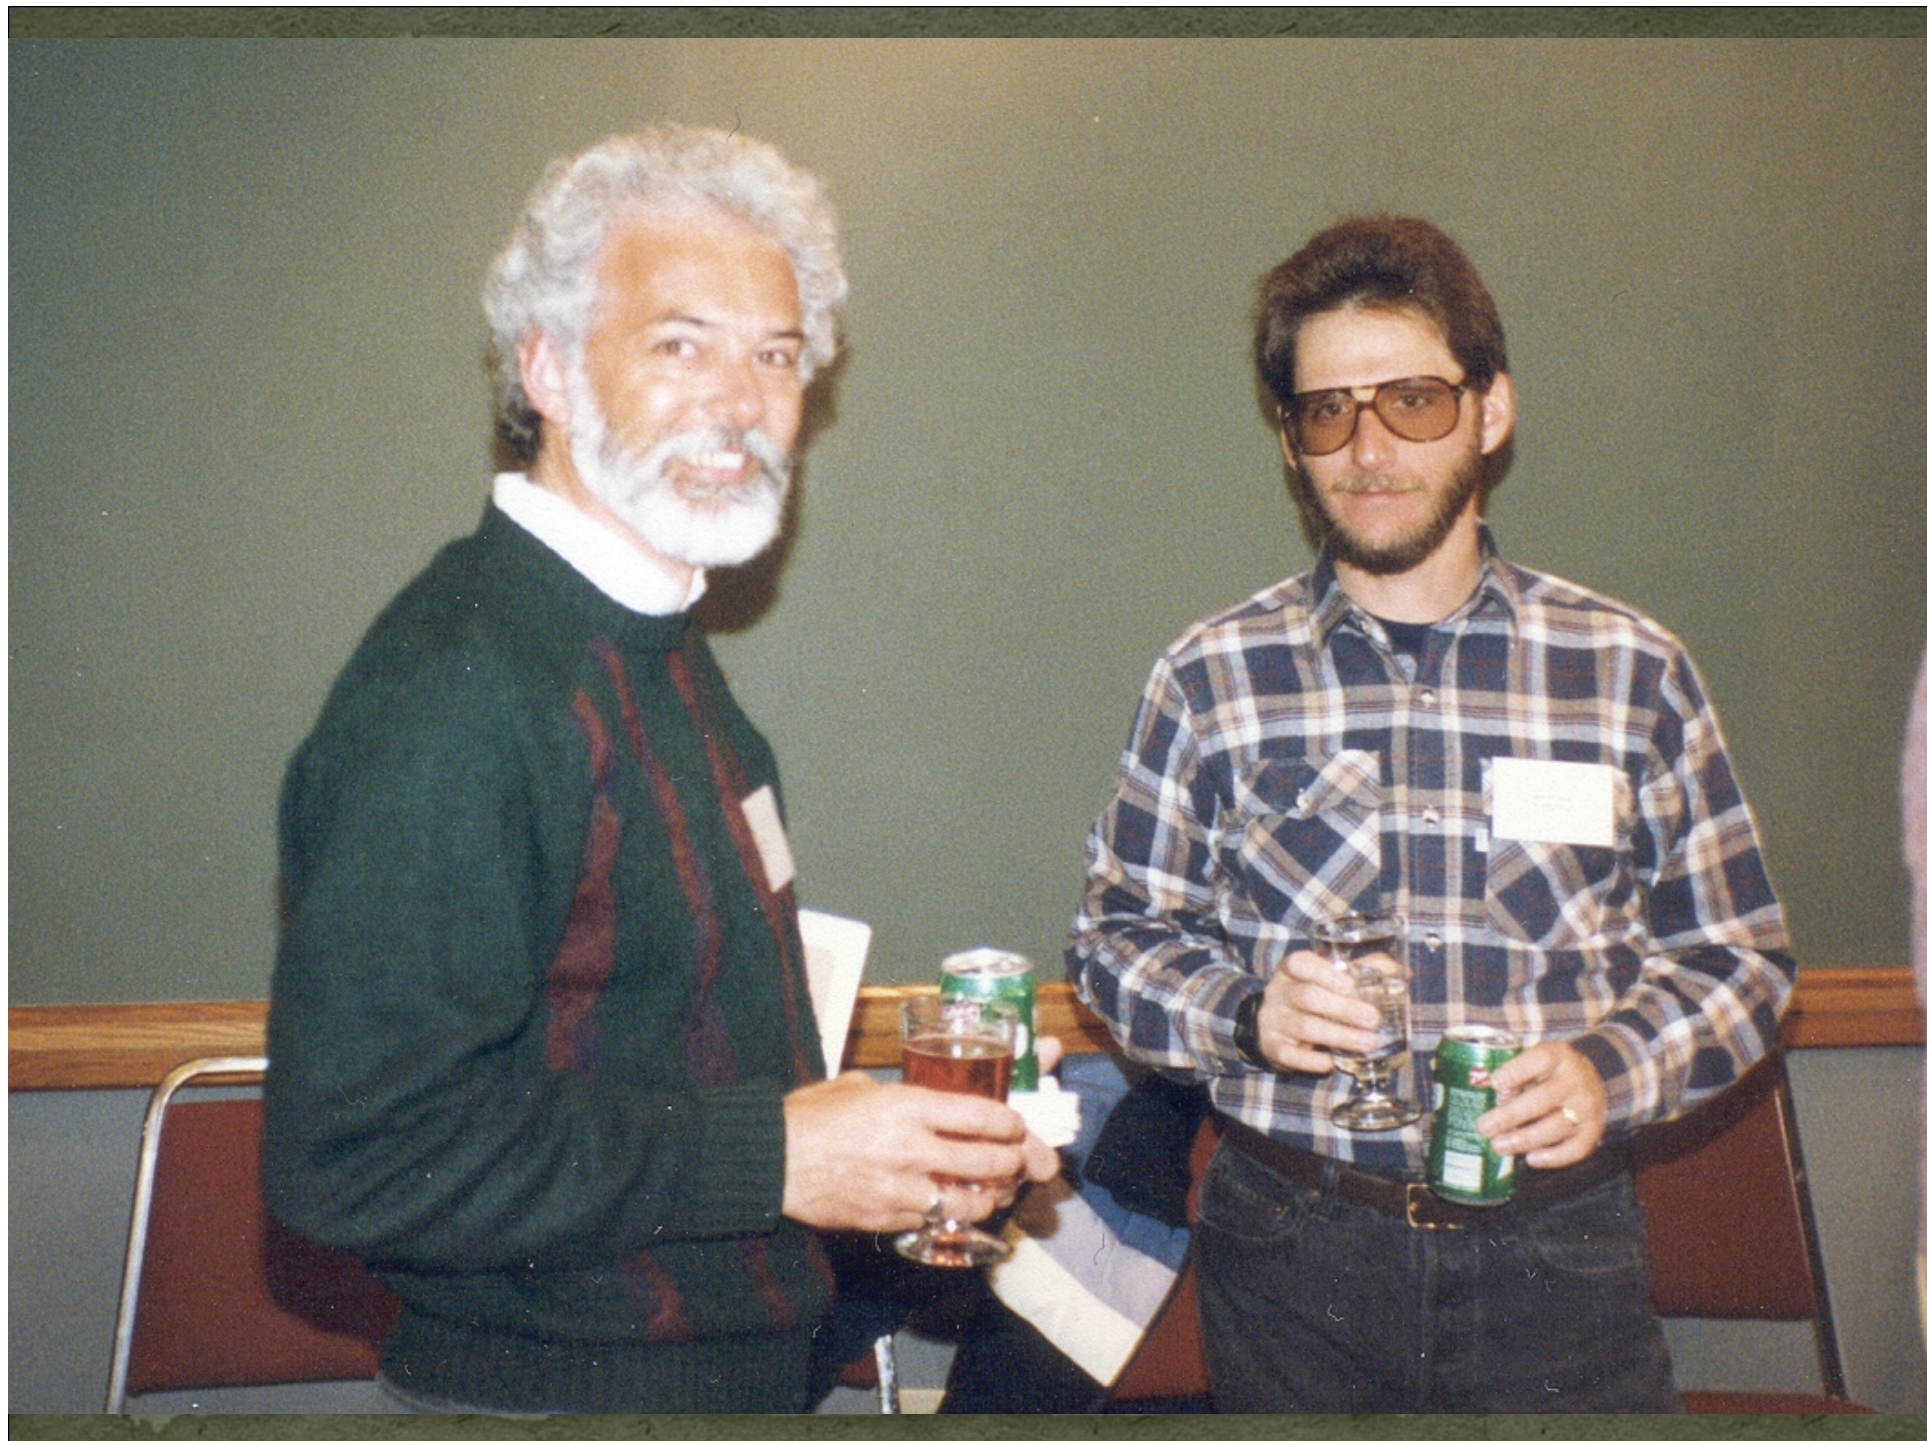

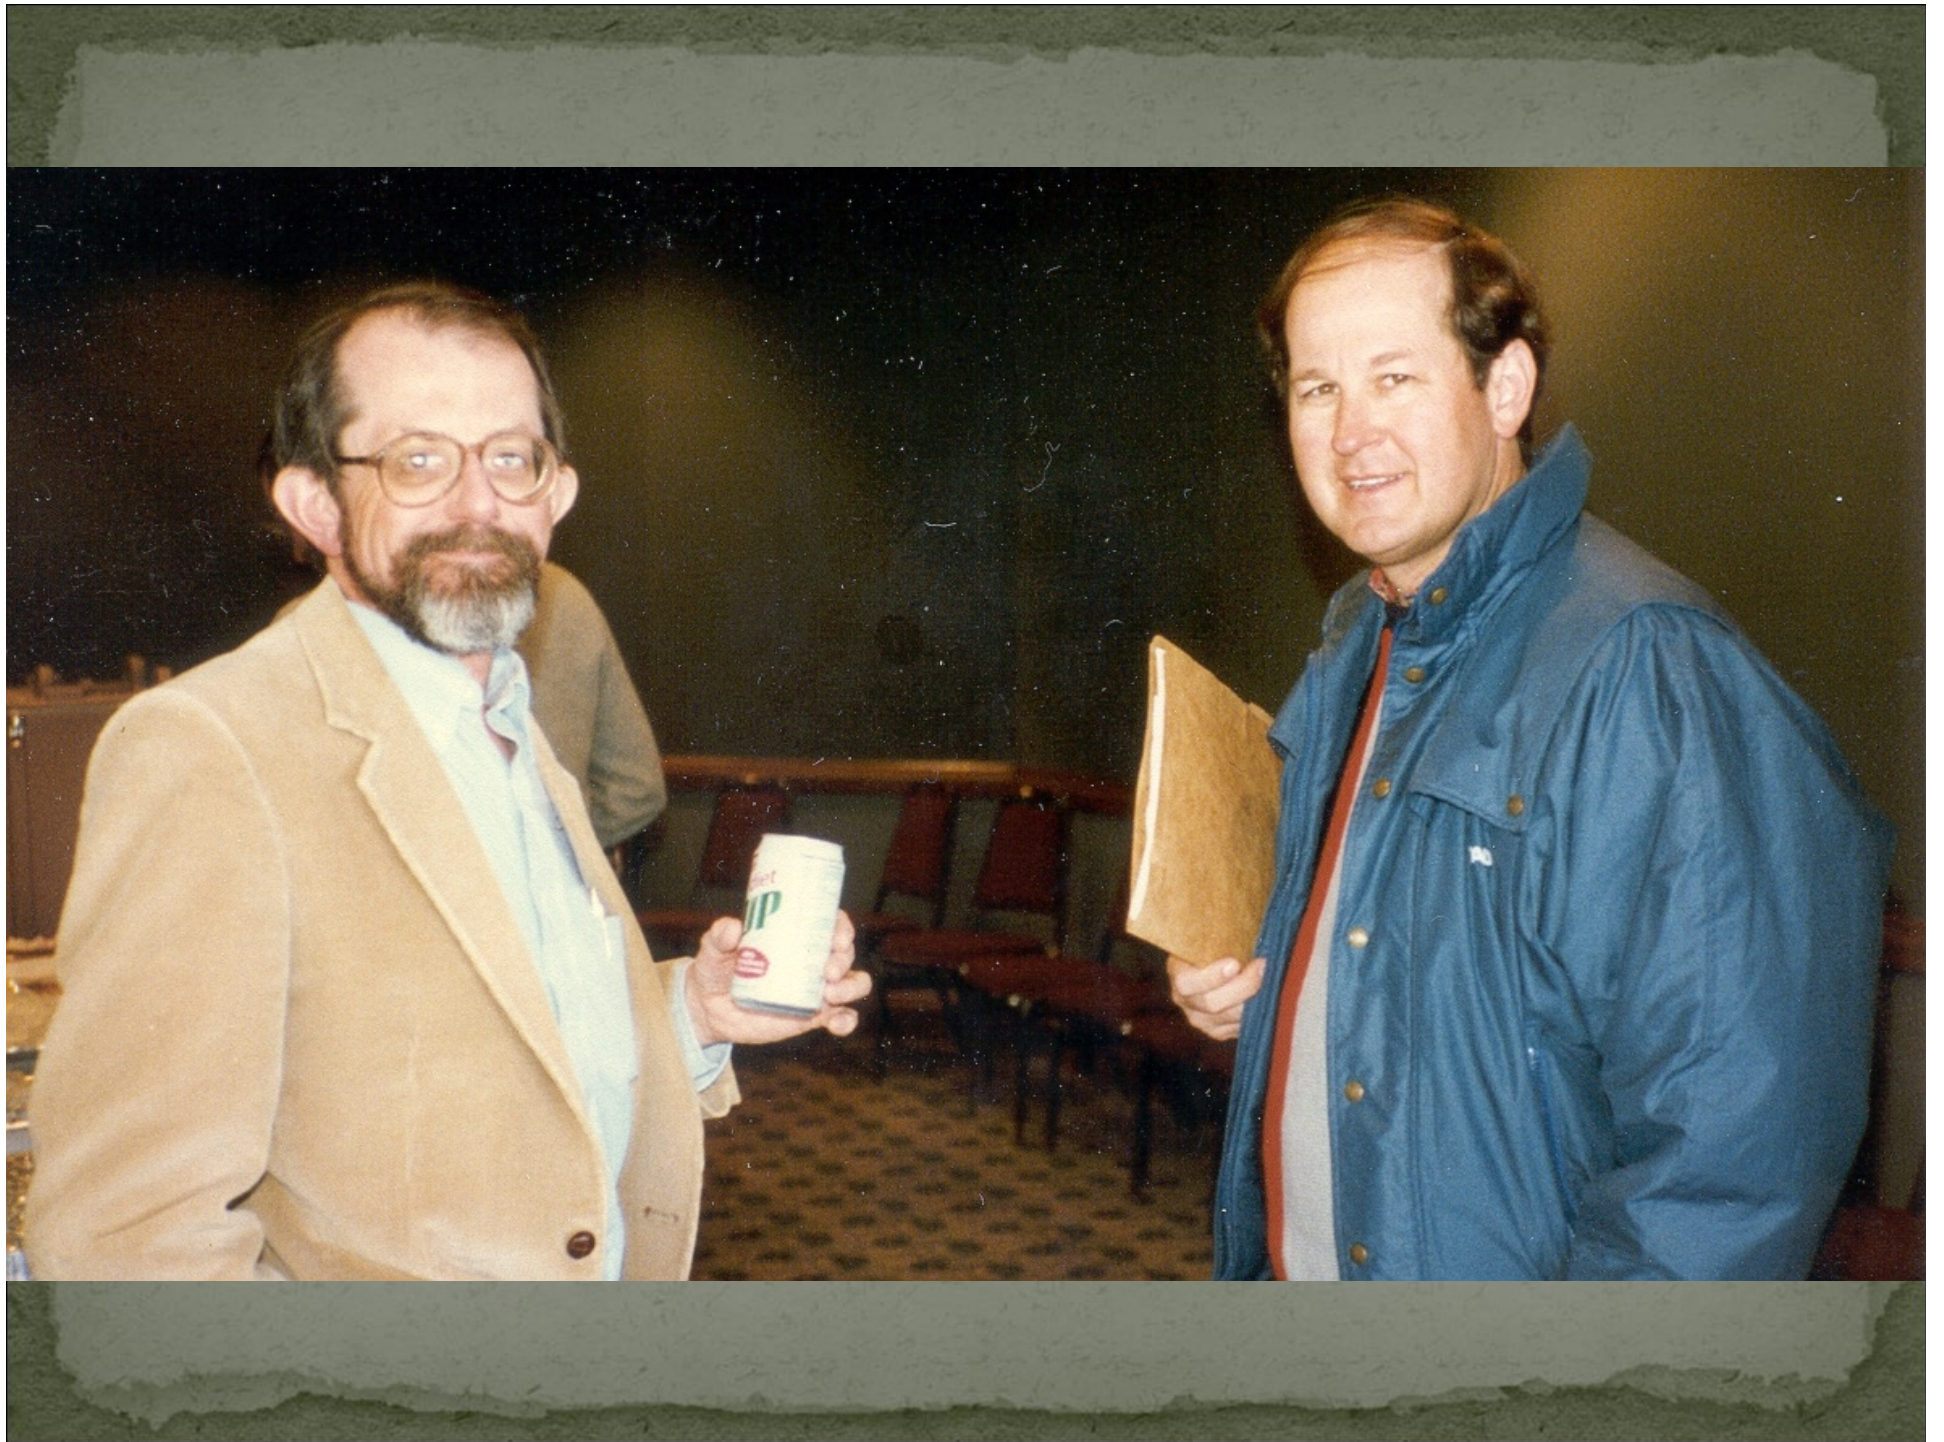

Recognize the hot tub?
What about the user?

It doesn't seem out of date at all!

1986 Was a heck of a time!!!!

From these early beginnings, AIMM has been THE place to present ideas, engage and develop scientific collaborations and foster friendships that last a lifetime....

A skier in a blue and white racing suit is shown in a dynamic pose, leaning forward as if in the middle of a turn. The skier is holding poles and has snow spray behind their skis. The skier is positioned above the large, stylized letters 'AIMM'. To the left of the skier is a green, leafy plant. The letters 'AIMM' are brown and have a 3D effect. A small 'CSK' logo is visible in the bottom right corner of the illustration.
