The HP Color LaserJet 4730mfp is perfect for mid-volume workgroups (from 6 – 15 users) in enterprise environments and workgroups (from 3 – 10 users) in small and medium businesses with IT management, that print A4 documents in mono and colour and need the benefits of multiple functionality to enhance their productivity.

**Increase your workgroup's productivity with the high performance HP Color LaserJet 4730mfp.**

- Do much more for less by consolidating print, copy, scanning<sup>1</sup> and analogue fax<sup>2</sup> functionality in one convenient, integrated device.
- Improve efficiency with mono and colour printing and copying at up to 30 ppm, plus colour scanning, standard full-speed two-sided printing and digital sending<sup>3</sup>.
- Enhance productivity with up to 1,600 sheet input capacity from 100-sheet MP tray and three 500-sheet trays, the ADF holds 50 sheets and up to 700 pages output with the three-bin mailbox<sup>4</sup>.

**Get what you really need; plus a low purchase price, reduced operating costs and HP reliability.**

- Over 90% of office documents are printed on A4. So why spend twice as much on an A3 device just to cover that extra 10%. The HP Color LaserJet 4730mfp prints and copies A4 and costs substantially less.
- Enjoy better value with a low cost per page for colour and the same mono cost per page as the HP LaserJet 4345mfp.
- Get the benefit of colour with no cost penalty: Colour Access Controls such as colour copy lock-out, tracking and reporting let you choose when and how colour is used.

**End users and IT managers alike will find this expandable MFP very easy to use and manage.**

- An intuitive touch-screen control panel with an integrated design makes this device very easy to use.
- Enjoy best-in-class networking through the HP Jetdirect Internal Print Server.
- HP Web Jetadmin offers remote installation, configuration and proactive management.
- HP Smart Printing Technology<sup>5</sup> with new HP ColorSphere Toner ensure quality, consistent results and enable easy supplies management.
- Stapler/stacker<sup>6</sup> and three-bin mailbox<sup>4</sup> help meet specific document needs.

<sup>1</sup> Scan-to-email and scan-to-folder.

<sup>2</sup> Available with HP Color LaserJet 4730x mfp, 4730xs mfp and 4730xm mfp.

<sup>3</sup> HP Digital Sending Software 4.0 is optional (not included, sold separately). Software is server-based, server-required. Trial is included.

<sup>4</sup> Three-bin mailbox available with HP Color LaserJet 4730xm mfp only.

<sup>5</sup> Using genuine HP supplies ensures the availability of all HP printing features.

<sup>6</sup> Stapler/stacker available with HP Color LaserJet 4730xs mfp only.

# Get versatile, efficient, and reliable document creation for the office.

## Lasting value

This is what the HP Color LaserJet 4730mfp delivers over time. Your investment is secure because you combine a low purchase price with significant cost savings, achieved by increasing efficiency and productivity.

Do more with a rich set of features on one device. The right paper-handling capabilities for general office enable local document production, eliminating the costs associated with centralised printing. It supports two output accessories: a stapler/stacker that can staple up to 30 pages at once and stack up to 500 pages of output, and a three-bin mailbox that can handle separate functions such as print, copy, and fax, be assigned as user mailboxes, and stack up to 700 pages of output.

Standard features include a 40 GB hard disk, automatic duplexing which saves time, effort and paper; a 1600-sheet input capacity which means fewer interruptions; plus the convenience of scan-to-email, scan-to-folder and colour scanning.

Reliability saves money. Hewlett-Packard has consistently received awards for outstanding service and reliability. This level of reliability is a major factor behind enhanced user productivity and low total cost of ownership.

Low cost per colour page. Colour printing becomes affordable with this MFP which offers a lower colour cost per page than colour capable devices, and still has the same mono cost per page as the mono HP LaserJet 4345mfp.

## HP Jetdirect

Get the benefit of reliable sharing and simple network management tools. The HP Color LaserJet 4730mfp features best-in-class networking through the HP Jetdirect Internal Print Server. Anyone on the network can transfer information quickly and reliably for increased workgroup and IT efficiency. The HP Embedded Web Server performs remote diagnostics, sends e-mail alerts, and provides job tracking and accounting. It also makes it possible to see the status of supplies and plays a valuable role in the reorder process. HP Web Jetadmin offers remote installation, configuration, and proactive management.

## Colour Access Controls

Now you can enjoy all the advantages of colour without incurring unnecessary expense. Colour Access Controls help you protect your investment, while still reaping the benefits of printing in colour when you need to. Colour copy lockout allows IT to protect the device as a mono-only copier, so you can control when and how colour is used in your workgroup. Or you can simply use the HP Driver Preconfiguration Tool to download a mono-only print driver for end users who will only be permitted to print in black. Web Jetadmin can also be used to track colour usage and supply customised reports detailing usage by application, user or specific jobs. This enables you to save money and still create eye-catching colour documents when you need them.

## The HP Smart supplies advantage

HP Smart Printing Technology<sup>1</sup> in both HP printing supplies and the HP Color LaserJet 4730mfp work together with new HP ColorSphere Toner to make automatic adjustments that optimise print quality for reliable, consistent results every time you print. Remote troubleshooting, print job tracking and proactive alerts on low print cartridges make HP supplies easy to manage and replace. Convenient, online ordering through HP SureSupply<sup>2</sup> simplifies inventory management.

## Peace of mind with extra security options

HP Secure Erase provides a choice of three different modes of disk erase security, each of which can be configured by an administrator and may be protected from unauthorised changes with a password.

Embedded LDAP authentication with SSL encryption is designed for workgroups and departments with distributed environments. This provides an easy to use, easy to manage solution for customers requiring network security to verify user identity.

There is also a Secure Fax feature which offers two settings, Fax Forwarding and Schedule Printing of Faxes which both require a PIN to access them.

<sup>1</sup> Using genuine HP supplies ensures the availability of all HP printing features.

<sup>2</sup> Programme features and availability may vary by country. For more information, visit [www.hp.com/learn/suresupply](http://www.hp.com/learn/suresupply)
