PRINTS ON WOOD

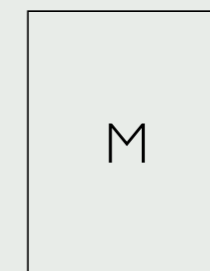

18 mm thick eco-friendly plywood

We composed a unique collection of prints on wood. The images are printed on a single piece of Ecoplex. This eco-friendly plywood, 18 mm thick, is made out of several thin layers of wood. As a result, the sides of the panel get that characteristic striped look. Our prints on wood feature a secure and very strong aluminum suspension system, leaving them slightly loose from the wall.

WALL MURALS

Photo wallpaper of illustrations from picture books

Our wall mural collection for children is wall-filling wallpaper which consists of several sheets that together form the total image. We use the most appealing work from famous Dutch artists like Fiep Westendorp, Marije Tolman, Alice Hoogstad and Mark Janssen.

We proudly introduce our collaboration with Leo Timmers, a prize-winning illustrator from Belgium. Based on some of his brilliant colourful drawings we created a unique collection of wall murals, wallpaper circles and wallpaper panels.

WALLPAPER SAMPLE BOOKS

We recommend to order our sample books for presenting our wallpaper in your store.

For children's rooms there are three books available: one with wallpaper based on illustrations by **Fiep Westendorp**, one with **Miffy** wallpaper and one with various kinds of **kid's wallpaper**.

The books are made of premium quality non-woven wallpaper (165 grs extra matt), which is the actual material of all of our wallpaper collections.

All designs can be size customized (with a minimum order of 5 m²).

HOW TO ORDER

Check out our dealer website, which gives you a clear overview of your orders, easy access to our image bank and lots of new inspirational interior pictures.

Please register on www.kekretail.com now.

As soon as we have approved your account (usually within one hour), you can start buying online. Both wholesale and recommended retail prices will be visible once you have logged in.

PACKAGING

WALL STICKERS

Most wall stickers are packed with a transparent seal and sturdy backboard, making the image as a whole clearly visible. The large wall stickers, such as trees and growth meters, are packed in a nice square tube. On the tube there's a label with a clear image of the wall sticker and all product information. With the larger wall stickers there is a clear manual on how to apply them best.

WALLPAPER

The wallpaper rolls are sealed transparently. The label contains product information on the roll itself. Clear application instructions are supplied (in Dutch and English).

POSTERS

The A2 posters are packed in a transparent seal bag with sturdy cardboard backing, which prevents the poster from creasing. For webshops the posters are packed in a sturdy white tube.
