Multifunction Printer
Impact color, big savings

Reduce costs, increase business impact.

To succeed, your work needs to stand out. That's why color printing is a must—so your business is clearly differentiated in the minds of your customers. The Xerox ColorQube 9300 series multifunction printer enables your business to work more effectively, delivering exceptional color printing with amazing cost savings.

What's the secret to affordable color?

The answer is as simple as the technology: Xerox Solid Ink. Built for high-performance office color printing, our patented Solid Ink technology has a track record of reliability and simplicity. Solid Ink is easy to use, delivers incredible color print quality, produces less printing waste versus comparable color laser devices, and enables you to print low-cost color. It's time to introduce your business to the Solid Ink advantage.

Great color, greater savings.

Impressive color

The ColorQube® 9300 series helps your office documents get noticed with vibrant, glossy colors.

- **Make every document stand out.** Count on brilliant, saturated color—print after print—even on inexpensive office or recycled paper.
- **Match your expectations.** Deliver accurate representations of your company logo with PANTONE® approved color simulations.
- **Flexible print speeds.** Choose the perfect combination of image quality and speed for any printing situation with four different print settings—Photo, Enhanced, Standard and Fast Color.

Print color every day

Now you can afford to add the power of color to everything you print with the ColorQube 9300 series.

- **Low color-page prices.** The ColorQube 9300 series is remarkably more cost-effective than comparable color laser multifunction printers—and the more color pages you print, the more you save.
- **Unique price plans deliver big savings.** No more paying expensive color prices for small amounts of color. With the ColorQube 9300 series, you pay based on the amount of color on the page. On most color pages, your price will drop significantly.
- **Color for the price of black-and-white.** Pages with useful amounts of color, such as your company logo, are billed at the same rate as black-and-white pages.

Color By Words: Intuitive color enhancement

With Color By Words, there is no need to go back to square one and manipulate source files. You can change the color of one object or area without affecting the rest of the page. Simply select the desired color modifications from a drop-down list and your printout is automatically adjusted.

Original photo not right? Use the Color By Words drop-down list and choose “yellow colors a lot more yellow,” and “red colors a lot more red.” Picture-perfect results.

Enhance your business with advanced ease of use

A smarter, faster way to work

Experience unparalleled convenience and uptime with Xerox Solid Ink, which has been designed for maximum ease of use.

- **Copy and print speeds up to 55 ppm color and 60 ppm black-and-white.** Increase print productivity even further with speeds up to 85 ppm in Fast Color mode for draft or short-life documents.
- **Easy ink loading.** Each ink stick color is uniquely shaped for simple drop-in loading. And ink can be topped off at any time—even if the device is running.
- **Interruption-free printing.** The ColorQube 9300 series can hold enough ink sticks to print over 55,000 pages of each color before replenishing.
- **Cartridge-free technology.** Take back valuable office real estate with minimal storage space required for Solid Ink's compact packaging and single replaceable component.
- **Helpful walk-up features.** Embedded help videos provide quick troubleshooting assistance right on the front panel. Plus, an illuminated paper path makes occasional access less intimidating.
- **Ready when you are.** Intelligent Ready technology learns your workgroup's usage patterns so it is ready to print when you are.
- **Reliable operations.** A simple paper path and minimal moving parts keep the ColorQube 9300 series up and running in the toughest environments. It can even diagnose potential problems and fix them ahead of time, reducing maintenance and service calls.

Efficiency in your office

Work faster with features and capabilities that improve the way you create and share office documents.

- **Multitasking operation.** Maximize business efficiency and handle multiple tasks simultaneously with concurrent processing.
- **Advanced scanning built-in.** Easily convert hardcopy documents into digital files that can be easily shared or archived. On-box OCR creates a text-searchable file for quick information retrieval.
- **Cut down network traffic.** Advanced file compression methods reduce file sizes and network load for faster delivery.
- **Walk-up convenience.** Scan to and print from a standard USB memory device for information at your fingertips.
- **No printing bottlenecks.** The Print Around feature holds a job needing resources, such as a different paper size, and prints the next job in the queue.
- **Powerful fax capabilities.** Send and receive faxes without leaving your desk. LAN fax sends faxes right from applications on your PC using a print driver, and have incoming faxes automatically forwarded to an email address or document repository.
- **Tailored to fit your needs.** Xerox Extensible Interface Platform® enables personalized and simplified menus and workflows to meet your unique business requirements. Leverage your existing databases and systems, providing a greater return on investment.

Xerox Mobile Print Solution

We're empowering today's mobile professionals with the freedom to send print jobs from any email-enabled device.

Simple. There's no software to load on the mobile device, no searching for online printer information, or time wasted looking for the right application. This solution works with any email-enabled device. Plus, there's no dependence on administrative support staff for printing tasks.

Convenient. Whether they're traveling or working between offices, users will be able to print MS Office documents, including MS Word, Excel® and PowerPoint®, as well as PDFs.

Secure. Mobile workers can print directly from their mobile devices and retrieve documents at a Xerox-enabled MFP with a secure confirmation code. Mobile professionals will no longer have to rely on others to print sensitive documents or risk leaving prints in the output tray.

To print, simply select Mobile Print on the device, enter your confirmation code and select the document and the output settings right at the MFP.

Each Solid Ink stick is uniquely shaped to fit the correct slot, making ink loading fast, easy and clean.

Environmentally conscious design

Give your company's sustainability efforts a boost, while enhancing your company's image with color.

- **Less waste.** Solid Ink sticks avoid the cartridge and the packaging, creating up to 90% less waste versus comparable laser devices.
- **Fewer consumables.** The long-life Cleaning unit—with an average life of 330,000 prints—is the only replaceable component, and can be recycled through the Xerox Green World Alliance program (visit www.xerox.com/gwa for more information).
- **ENERGY STAR® qualified.** The ColorQube 9300 series meets the stringent ENERGY STAR requirements for energy use.
- **Non-toxic and mess-free.** Xerox Solid Ink is safe to handle and won't leave messy stains when loading into the device.
- **Bio-derived ink.** Xerox Solid Ink has been certified to have 30% bio-derived renewable material content by the National Association of Printing Ink Manufacturers (NAPIM).
- **Print responsibly.** Get the same vibrant prints on recycled media. Plus, Earth Smart driver settings allow you to select default settings, such as printing on both sides, that encourage responsible usage.
- **Measure your progress.** Bundled GreenPrint software automatically highlights and removes unwanted pages prior to printing and provides reporting on total paper and trees saved.
- **Demonstrated leadership in sustainability.** Xerox's longstanding focus on environmental sustainability has diverted over two billion pounds of waste from landfills through our Product Take-back and Recycling Program. Xerox also offers environmentally responsible choices for paper and media allowing you to choose recycled media with up to 100% post-consumer recycled content and paper

that adheres to internationally recognized standards for sustainable forestry management (visit www.xerox.com/environment to learn more).

Solid Ink waste vs. laser waste

Cartridge-free Solid Ink is a true consumable; no empty toner cartridges to dispose or recycle. The ColorQube® 9300 series produces 90 percent less waste during use than a comparable laser device.

Total waste produced from printing 12,500 pages per month for 4 years.

When it comes to IT and security, Xerox delivers

Easy on IT

Give your IT department some downtime with a device engineered to be simple to deploy and manage.

- **Reduce calls to IT.** Minimize interventions with innovative features such as simple ink loading, a single long-life replaceable unit, embedded help videos and illuminated paper path.
- **Simplify driver deployment.** Eliminate the need for IT and mobile workers to download individual print drivers for each product. The Xerox Global Print Driver® and Mobile Express Driver® are truly universal and let users print to most devices—even those made by other manufacturers.
- **Configure once, deploy fleet wide.** No need to configure each device individually. Device configurations can be cloned and distributed to all other ColorQube 9300 series devices.
- **Flexible cost control.** Easily assign user permissions for print based on time of day, job type and applications through an intuitive interface.
- **Manage every device.** IT administrators can easily install, configure, manage, monitor and report on printers and multifunction devices across the network—regardless of manufacturer—using Xerox CentreWare® Web.
- **Easy, accurate billing and supplies replenishment.** Automatically collect and submit meter reads with Smart eSolutions MeterAssistant®, and SuppliesAssistant® saves time with automatic ordering of supplies.

Cutting edge security

Minimize risk by protecting vulnerable access points and critical business information.

- **Erase sensitive information.** Hard disk overwrite electronically erases image data stored on the ColorQube 9300 series hard drive.
- **Keep documents safe.** Ensure your data stays secure with AES 256-bit encryption that meets current FIPS 140-2 requirements, and require a password to open and view a sensitive document by scanning to password-protected PDF.
- **Prevent unauthorized access.** Restrict usage by validating user names and passwords with Network Authentication. Additionally, Xerox Smart Card Authentication options require card-based identification to protect the device from unauthorized users.
- **End-to-end protection.** Ensure device security with full system Common Criteria (ISO 15408) certification (pending). And with Xerox's proactive response system, quick updates are provided whenever potential vulnerabilities are identified.

Xerox Workflow Solutions make your office more productive

Transform the way your organization gets vital work done with the power of Xerox Workflow Solutions. When people work efficiently, in less time and with fewer steps, productivity goes up. Stress goes down. So do errors. Whether you have only a few people on your team or a very large workgroup, Xerox offers a wide range of MFPs that deliver flexibility and advanced features to copy, print, scan and fax—all from one device. It's about streamlining your workflow and it starts by using Xerox Workflow Solutions right from your MFP.

1

Two 550-sheet universal-size trays hold paper sizes up to 11 x 17 in.

2

Tray 3 holds a total of 2,100 sheets of 8.5 x 11 in. paper.

3

100-sheet Bypass Tray handles media sizes up to 12 x 18 in. and weights up to 80 lb. cover.

4

For high-volume workgroups, add a 4,000-sheet letter-size High Capacity Feeder. Optional kits allow it to hold up to 2,000 sheets of 8.5 x 14 in. or 11 x 17 in. media.

5

Embedded help videos provide step-by-step directions for quick troubleshooting assistance right at the touch screen.

6

Three finisher options allow you to choose between basic features such as stapling and hole punch, and advanced capabilities including saddle stitched booklets and C- and Z-folded brochures.
