## PREFACE.

---

THE present volume is really an amplification of the Appendix to the ninth edition of Wright's "Court Hand Restored," which I brought out in 1879, with the addition of a list of the abbreviated forms of Latin and French words used in English records and manuscripts.

Several such lists have been published at various times, the most used, perhaps, in England being Chassant's "Dictionnaire des Abréviations," and the list in the fourth volume of the "Registrum Palatinum Dunelmense," edited by the late Sir Thomas Duffus Hardy in the series of "Chronicles and Memorials."

This latter, however, being merely a portion of the preface of a historical book, is not so well known nor so convenient for use as if it occurred in a book devoted to information of this class.

I have endeavoured also to justify the printing of another such list by arranging the abbreviations in such a manner as to facilitate the finding the word wanted. In some lists this is not easy, unless one knows what the word is in full.

The principle acted on has been as follows:—Letters with marks of contraction attached to them, represented by a single type, are separated from the same letters printed in the ordinary

way. The order thus is—the letter followed by a letter; the letter followed by a sign; the letter with a sign attached.

For instance, in the vowels the order is as follows:—

*e.g.*, E : ea, eb, ee, to ez ;

then—eʒ, eℓ, e<sup>o</sup>, eʒ ;\*

then—ē, ē.

In the consonants, *e.g.*, N : na to nz ;

then—nʒ, nℓ, n<sup>o</sup>, nʒ ;

then—n̄, n̄, n̄.

In the letter C, c follows ĉ.

In the letter P, the order of contracted forms is p<sup>o</sup>, p, p̃, p̄, p.

In the letter Q : q, q̃, q.

Superior letters—that is, letters printed above the line—are considered in the arrangement as if printed on the line in the ordinary way.

In manuscripts such letters often have contraction marks added to them, but it is impossible to represent these in type, and an apostrophe has had to do duty instead, as prin<sup>l</sup>. *principalis*. In a manuscript the / would be struck through.

According to the correct principles of writing, the mark of contraction in a word should be placed over a letter after which letters are omitted, or over a letter before and after which letters are omitted, as p̄r, *pater* ; đna, *domina* ; fĉt, *fecit* ; ap̄llat,

---

\* These marks of contraction, being separate types, are arranged before those which are attached to the letter, in order to keep such forms as cƒ<sup>o</sup>ʒ, debʒ, g<sup>o</sup>, moʒ, pʒ, solʒ, su<sup>o</sup>, tʒ distinct from cƒōʒ, deb̄ʒ, ḡ<sup>o</sup>, mōʒ, p̄ʒ, sol̄ʒ, sū<sup>o</sup>, ūʒ.

*appellat*; but such forms as *pī*, *dīa*, *fēt*, *apptat*, sometimes occur, perhaps from carelessness on the part of the scribe. Some of these false forms are inserted, but by no means all, so that if any word occurring in a manuscript is not at once found in the list, it should be looked for under some other form containing the same letters of the alphabet, but with different contractions.

The marks of contraction used in printing are intended to represent the typical forms of the contractions used in manuscripts, and necessarily appear more formal and uniform than those which may vary with the caprice or carelessness of a scribe.

Their signification is as follows:—

— means *m* or *n* following the letter thus marked; e.g. *ī*, *in*; *ōnis*, *omnis*; *ōmis*, *omnis*; *dāpna*, *dampna*; *dampā*, *dampna*.

~ either over a short letter or through a long letter means the omission of some single letter not *m* or *n*, or of more than one letter either after, or before and after, the letter thus marked.

e.g., *ā*, *ac*, *apud*; *ās*, *alias*.

*dñs*, *dominus*; *carīa*, *carmina*; *fċis*, *factis*.

*īpē*, *ipse*.

*pōita*, *posita*.

ʹ means *er*; e.g., *intʹ*, *inter*; *fʹrū*, *ferrum*.

*re*; e.g., *pʹ*, *præ*.

*ir*; e.g., *serūe*, *servire*.

ℓ means *is* ; e.g., forℓ, *foris*.

es ; e.g., om̄ℓ, *omnes* ; çtℓ, *competentes*.

Or sometimes merely the ending of a word ; e.g.,  
infℓ, *infortunium*.

° „ us ; e.g., ip̄i°, *ipsius* ; ūs°, *versus*.

os ; e.g., p°tea, *postea*.

ost ; e.g., p°, *post*.

3 „ us ; e.g., quib3, *quibus*.

et ; e.g., lic3, *licet*.

ed ; e.g., sz, *sed*.

Added to q it means *quia*, and sometimes *que*, or  
*quæ*, though these last two words are more  
correctly written q̄.

Occasionally it stands for *que*, as abs3, *absque*, and  
in some MSS. for *m* or almost any final letters ;  
as bō3, *bonitatem* ; err°3, *errorem*.

ž „ rum ; e.g., aīaz, *animarum* ; batož, *beatorum*. It is  
sometimes used in the middle of a word, as  
cožpere, *corrumpere*.

ram ; e.g., Alienoz, *Alienorum*.

ras ; e.g., libž, *libras*.

res ; e.g., Windesož, *Windesores*.

ris ; e.g., conquestoz, *conquestoris* ; libž, *libris*.

9 „ cum ; e.g., ç, *cum*.

com ; e.g., çp̄, *computus*.

con ; e.g., ç<sup>a</sup>, *contra*.

cog ; e.g., cnouit, *cognovit*.

The marks attached to the letter P are as follows :—

p, *per, par, por* ; e.g., psōa, *persona* ; çpet, *comparet* ; pta, *porta*.

ḡ, *præ, pre* ; e.g., ḡsēs, *præsens* ; sup̄mus, *supremus*.

ꝑ, *pro*; e.g., ꝑceres, *proceres*; īꝑꝑ<sup>le</sup>, *impropric*.

ꝑ̄ indicates the omission of almost any other letters than those mentioned above; e.g., ꝑ̄ea, *postea*; ꝑ̄a, *pæna*; ꝑ̄cta, *puncta*; ꝑ̄pa, *papa*.

The marks attached to the letter Q are as follows:—

q, usually *quod*, but also used for *quæ*, *quam*, *que*, *quo*, and followed by other letters *qui*, as qd, *quid*; qbꝓ, *quibus*.

q̄, *quæ*, *que*, *quem*, and as part of a word it has very various meanings, as q̄ela, *querela*; q̄ntum, *quantum*; q̄one, *quæstione*; q̄ppe, *quippe*.

q̄ means *que*.

qꝓ „ *quia*.

A superior letter indicates the omission of two or more letters of which this is one; e.g., q<sup>o</sup>s, *quos*; c<sup>o</sup>lo, *circulo*; cap<sup>i</sup>, *capituli*.

A point below a letter indicates that it should be deleted, and points under or inverted commas over two words indicate that they ought to be transposed; e.g., et “ꝑ t̄hro” iĩ, *et item pro thesauro*.

Many words will be found in this list which do not conform to the principles here stated, but they have been found in MSS., and inserted accordingly.

As a rule the nominative case of nouns or adjectives is given as the meaning, as fī, *filius*; and sometimes the case most frequently met with, as f̄r, *Francorum*; but this does not exclude other cases as well.

The glossary does not pretend, as no glossary can, to take the place of a dictionary, where the meanings of words are discussed, and quotations given to explain their use; but still it

---

is hoped that it will be found useful, although the information contained in it is given in a rather abrupt form.

This second edition contains a number of words not included in the first, which have been noticed since that edition was printed.

Many words have been found in printed editions of records and other MSS., where I have been unable to consult the originals, and though the meaning of the word may be clear, it does not follow that the spelling is correct; in fact, in many cases I feel certain that the editor has made a mistake in copying, though I cannot suggest the right reading with any certainty.

In the case of words used in classical as well as mediæval literature, the classical meaning is not usually given, as it may be assumed that any one using this book would know it. It must not, however, be taken as excluded. For instance, *galea* is inserted as meaning "galley," but it is also used with the older meaning of "helmet." Similarly *ala* means "wing" as often as "aisle." It will be noticed that sometimes the meanings given for Latin words are almost inconsistent, but it must be remembered that the period covered by the glossary is several centuries. Words already current were used for new inventions, especially when what they once signified had become obsolete.

The list of Latin names of places in England contains most of the names which a student of history is likely to require, but of course it might be very much enlarged by adding the Latin names of a great many villages and hamlets which are merely formed from the English names.

No attempt has been made here to settle the disputed attribution of Roman stations, but rather to give the places for which their names have been used in later times.

Many of the place names and surnames have been found in classes of records which contain documents in both languages referring to the same case, like the Chancery Proceedings, in which bills and answers are in English and writs in Latin. Some of the Latin names in these are due to the ingenuity of officials or clerks, who inserted what they imagined to be a translation of an English word, of the history and meaning of which they were totally ignorant—such as *Ventus Morbidus* for Windsor, and *de Umbrosa Quercu* for Dimock. Latin inscriptions on brasses, tombstones, and other monuments, many of the sixteenth and later centuries, have afforded many very curious specimens, the English names being supplied by other sources of information.

It is worth noticing how many surnames “assimilate a vernacular origin,” to use a phrase of which my honoured schoolmaster, Thomas Hewitt Key, was very fond. For instance, names ending in Latin in *villa* and in French in *ville*, are often found in later English with the termination *field* or *well*, as *de Strata villa*, Streatfield; *de Berevilla*, Berewell. Similarly, *Lotharingus*, *Le Loreyne*, becomes in the course of time Lorriner, or Lorimer, the English equivalent of *Lorimarius*, a harness maker. Other cases are Longfellow and Littleboy, whose ancestors were Longueville and Lillebois.

Many surnames taken from the places where their owners

lived, are not included in the list of surnames, but will be found among the list of places.

In the list of Christian names there are several blanks in the second column. These are opposite to Latin names which I inserted in my list, hoping some day to find them in English, but that day has not yet come; so, confessing my ignorance, I leave the blanks for some more learned or more fortunate person than myself to fill up.

There is another matter of which there is no mention in the first edition, but an explanation may be of some use to those who are not already familiar with it.

In accounts of the period when Roman numerals were used, an arrangement of dots is often found in the margin, of which the following is a specimen:—

$$\begin{array}{cccc} & & & \cdot \\ & & & \cdot \\ \cdot & | & : & : \\ & & \cdot & \cdot \\ & & & \cdot \end{array}$$

These were apparently put down while the accountant was making a calculation, and afterwards the amount which they represent, inserted in the proper place in Roman numerals. Their meaning is as follows:

The perpendicular lines mark the division into pounds, shillings and pence.

Dots on the line count as units.

Dots below the line count as units.

Dots above the line on the left hand side in the pound and shilling columns, count for 10.

Dots above the line on the right hand side in the pound and shilling columns, count for 5.

\* In French writing of the 15th and 16th centuries, in a cursive hand, the abbreviations are often very carelessly made—as ã for ā, p̄ for p, so that type does not exactly represent the forms used. If a word is not found in this list with the exact abbreviation occurring in a MS., it may be found with some similar form.

\* To the names of Roman Stations, upon the position of which there is a difference of opinion, several of the localities suggested have been appended, as their inclusion in this list is not for the purpose of giving information about Roman Britain, but to give the meaning of the names when used in later times. It has not been thought necessary always to insert Latin names where they are merely the common English names with a Latin termination. When no county is added to the English name, the reason usually is that there are more than one place of the same name.

\* "There is a very ancient family of the Ropers in Cumberland, who have lived immemorably near to a quarry of red spate there, from whence they first took their surname of *Rubra spatha*." This is the explanation of the name given in the 8th ed. of "Wright's Court Hand Restored"; but "Cowell's Interpreter" translates *de Rubra Spatha*, Rouspee, Rospear, Rooper, Roper. The present editor has been unable to find any confirmation of the story about the quarry of red spate; but in the parish of Castle Sowerby, Cumberland, there are certain estates called Redspears, the owners of which were called by the same name, and did service by riding through Penrith on Whit-Tuesday, brandishing their spears (Jefferson, Hist. of Cumberland, i. 139). Though *spatha* properly means a sword, *de Rubra Spatha* is doubtless the Latin equivalent for Redspear, just as the Norman name *Sake Espee* appears in England as Shakespeare.

*The Diary contains memoranda of Legal Business throughout the Year, with an Index for ready reference.*

“The legal Whitaker.”—*Saturday Review*.

“The amount of information packed within the covers of this well-known book of reference is almost incredible. In addition to the Diary, it contains nearly 800 pages of closely printed matter, none of which could be omitted without, perhaps, detracting from the usefulness of the book. The publishers seem to have made it their aim to include in the Companion every item of information which the most exacting lawyer could reasonably expect to find in its pages, and it may safely be said that no practising solicitor, who has experienced the luxury of having it at his elbow, will ever be likely to try to do without it.”—*Law Journal*.

**DICTIONARY.**—Stroud's Judicial Dictionary of Words and Phrases Judicially Interpreted. To which has been added Statutory Definitions.—Second Edition, with Supplement to end of 1906. By F. STROUD, Esq., Barrister-at-Law. 4 vols. Roy. 8vo. 1903—1909. 4l. 4s.

\* \* The supplemental Volume, bringing the work down to 1906, may be had separately. 1l. 1s.

“The work is unique, and indispensable to every practitioner.”—*Law Times*.

“Must find a place in every law library. It is difficult to exaggerate its usefulness. . . . is invaluable, not only as a labour-saving machine, but as a real contribution to legal literature. . . . a standard classic of the law.”—*Law Journal*.

“This judicial dictionary is pre-eminently a ground from which may be extracted suggestions of the greatest utility, not merely for the advocate in court, but also for the practitioner who has to advise.”—*Solicitors' Journal*.

“A book which every practising lawyer should have in his possession.”—*Law Notes*.

“The work needs no commendation. It is indispensable.”—*Irish Law Times*.

Leake's Elementary Digest of the Law of Property in Land.—Second Edition. By A. E. RANDALL, Esq., Barrister-at-Law, Editor of "Leake on Contracts," &c. Royal 8vo. 1909. 20s.

"Fills a want that has been felt for some time, as it gives a concise summary of the case law."—*Law Times.*

"The aim of the author of this book was to furnish an elementary treatise on real property law with accuracy and completeness, and not to compete with existing and more elaborate works. The editor has pursued the same course, and as thirty-five years have passed since the original publication, the work of revision has necessarily been no easy undertaking. To the student about to embark upon a course of real property law this book will be valuable, for the arrangement of the subject is well carried out, and the text is characterised by a lucidity which is not always to be found in the better known treatises."—*Law Notes.*

"We should like to see that chapter (Statute of Uses) pinned up before the gaze of every law student for at least one week, and then we think he would have a sufficiently comprehensive idea of the statute, its effects and possibilities, for the remainder of his natural life. . . . The work is a first-class addition to the existing works on the law of property in land."—*Law Student's Journal.*

XXVII.—Supplementary Volume, bringing the Work down to 1907.

**THIS SERIES PRESENTS—**

The best English Decisions (in full),  
From the earlier Reports to the present time,  
Grouped under topics alphabetically arranged.

**UNDER EACH TOPIC IS GIVEN—**

A "Rule" of law deduced from the cases;  
The early or "leading" case (in full);  
English notes abstracting collateral cases;  
American notes.

**THE OBJECT OF THE SERIES IS—**

To state legal principles clearly,  
Through cases of accepted authority,  
With sufficient annotation  
To aid the application of these principles  
to any given state of facts.

"The Series has been maintained at a high level of excellence."—  
*The Times.*

**EXTRACTS FROM PRESS NOTICES.**

"A Cyclopædia of law . . . most ably executed, learned, accurate, clear, concise; but perhaps its chief merit is that it impresses on us what the practising English lawyer is too apt to forget—that English law really is a body of principles."—*The British Review.*

"One of the most ambitious, and one of the most generally useful legal works which the present century has produced."—*Literature.*

"A perfect storehouse of the principles established and illustrated by our case law and that of the United States."—*Law Times.*

"The general scheme appears to be excellent, and its execution reflects the greatest credit on everybody concerned. It may, indeed, be said to constitute the high-water mark of the science of book-making."—*Saturday Review.*

"A work of unusual value and interest."—*Solicitors' Journal.*

"The English Ruling Cases seem generally to have been well and carefully chosen, and a great amount of work has been expended. . . . Great accuracy and care are shown in the preparation of the Notes."—*Law Quarterly Review.*

*Supplemental Volume.*

"Those who have included in their library Mr. Campbell's collection of leading cases will find this an indispensable addition to the series, for it contains all the new matter—English and American—which has grown up round the selected authorities since the issue of the original twenty-six volumes."—*Law Journal.*

"As a practical guide to the statutory and case law of torts the present edition will be found very reliable and complete"—*Solicitors' Journal*.

"Addison on Torts' is essentially the practitioner's text-book. The learned editors have done their work exceedingly well, and the eighth edition of 'Addison' will no doubt enjoy the favour of the legal profession in as high a degree as any of its predecessors."—*Law Journal*.

"The eighth edition is the most important that has been issued of late years, mainly because it supplies a want that has been widely felt in regard to negligence and illegal distress. Chapter I. has been entirely recast, and numerous changes will be found throughout the text. It is but natural that this edition should be larger than its predecessors, but this increase is fully justified in every way."—*Law Times*.

## The objects of the Review include—

The discussion of current decisions of importance in the Courts of this country, and (so far as practicable) of the Colonies, the United States, British India, and other British Possessions where the Common Law is administered.

The consideration of topics of proposed legislation before Parliament.

The treatment of questions of immediate political and social interest in their legal aspect.

Inquiries into the history and antiquities of our own and other systems of law and legal institutions.

Endeavour is also made to take account of the legal science and legislation of Continental States in so far as they bear on general jurisprudence, or may throw light by comparison upon problems of English or American legislation.

The current legal literature of our own country receives careful attention; and works of serious importance, both English and foreign, are occasionally discussed at length.

---

“The ‘Law Quarterly’ (January, 1909) is well packed with learned dissertations as well as with Notes and Reviews which may be considered the lighter side of the issue. Legal experts may always count on finding some article on their special subject—more general readers will find an article by the Editor on ‘Government by Committees in England.’”—*Saturday Review*, January 30, 1909.
