Carroll Dudderar would have been 23 years of age within a very short time, and was the only son of the late Will Dudderar, who was a son of the late Col. Huff Dudderar, one of the best known citizens of Lincoln county in his day. The young man's mother, was a daughter of Mr. Peyt Parrish, of the Preachersville section. He was their only child, and after the death of his parents, was reared by Col, and Mrs. Dudderar and since their death a few years ago, had made his home while in Stanford with his aunt, Mrs. DeBorde, who was almost a second mother to him, and did everything for him in her power. He was the pet of all the large family, who have the deepest sympathy of the entire community in this hour of their affliction and bereavement.

Owing to the distance which some of the members of the family will have to come, funeral services will not be held until Saturday afternoon at 2:30 c'clock. Services will be conducted by Rev. D. M. Walker, interment following in Buffalo Springs cemetery. The pallbearers will be: Active-Stewart Carson, Carl Carter, Frank Phillips, Robert Carter, Prescott Brown and Bryan Perkins; Honorary—J. N. Menefee, Jr., W. O. Walker, S. M. Saufley, R. S. Scudder, J. C. Bailey and R. B. Woods.

Mr. Dudderar was a member of

Diadem lodge No. 81, Knights of Pythias, and the members of the order will march in a body to the ave, and have charge of the ceremonial there.

The Wisdom of Scientists

Physiological and Medical Scientists of renown express themselves as convinced that most-if not allchronic and incipient diseases have their origin in, and should be reached curatively through, the Liver or the Kidneys. These organs constitute the great cleansing and filtering systems of the human body. When they perform properly, all is well. On the other hand, if sickness or constipation prevails it must be reached for correction primarily, AND AT ONCE, through the Liver and Kidneys—the seat of its origin: the breeding place of the disease-producing Microbes and toxines that are variously the cause of every ill-

#### have to say about cream separators this week

Buying a cream separator is a good deal like hiring a man to work on your farm. A hired man that does poor work and is lazy is an expensive proposition, no matter how little you pay him. A cream separator that is hard to turn, hard to keep clean and doesn't skim close, would be expensive even if you got it as a gift.

Creamerymen and dairymen all over the world recognize the superiority of the De Laval.

About the only reason why any one ever buys any other cream separator is because they can get Then they soon find out they have

lost ten times as much from separator inconvenience, poor skimming and a machine that quickly wears out, as they saved in the beginning. Remember that a De Laval will soon pay for itself, and if you have no separator now, or an inferior machine, we can sell you a De Laval on such terms that it will pay for

The committee in charge are endeavoring to impress upon the commercial bodies in the towns to be visited that this trip isn't made for selfish motives. The social and the personal contact features are considered the most important, and every effort will be made by the men on the special to make real friends of the men they meet along the route. The Knoxville wholesalers want to visit the stores of the men to whom they have sold goods in the past. The retailer wants to meet the men who have bought their supplies from him. The bankers in the party want to know the bankers in other towns and cities, and so on through the list. Of course every man in the party wants to increase the business he is now doing, but what is more important, every one of them wants to know from whom to purchase some of the products of the sections visited.
