Welcome

Dear Colleagues,

It is my great pleasure to welcome you to Vienna for the 2012 WONCA Europe Conference. The Austrian Society and its Host Organising Committee have been working very hard to prepare for this conference and the European Executive was pleased to meet them and hear of their plans earlier this year. I am certain that we will all be educated and entertained in equal measure.

At this time of austerity across Europe many countries are putting pressure on their family doctors; either through downward pressure on resources or by challenging the hard won advances in training for our discipline. I hope this conference will give us all new energy to face these challenges and the opportunity to gain strength from our friendships with family doctors across the world.

Tony Mathie
President WONCA Europe

Dear participants of WONCA 2012 Conference,

In times of tight public budgets, Vienna still offers its citizens a substantial network of healthcare, social security and welfare, to which most cities in the world would envy. Vienna, like only a few other cities, has a unique and traditional connection with the medical field, that shows its story and impressive progress. When thinking about some of the key achievements that have established the outstanding and world renowned reputation of the Viennese medical schools, a few exceptional individuals come to mind, such as, Billroth, Rokitansky, Eiselsberg, Landsteiner, Pirquet, Freud, Semmelweis.

I am pleased and honored to have the 18th European Conference for General Practice and Family Medicine WONCA Europe 2012 in Vienna.

I wish the conference and its participants much success. May it contribute to the exchange of knowledge and experiences, and foster the way for new scientific progress. In addition I wish all participants and conference affiliates a beautiful stay in Vienna.

Dr. Michael Häupl
Mayor and Governor of Vienna

Dear Colleagues and friends,

On behalf of WONCA Europe, the Austrian Society of General Practice and Family Medicine is pleased to welcome you at the 18th regional Conference in Vienna!

The title of our conference “The Art and Science of General Practice and Family Medicine”, is symbolized by one of the famous wax-figures of the Josephinum; it was created in the 18th century and focus on two fascinating and central aspects of our daily work as GPs, both equally important in treating our patients in the best possible manner.

The last three years both the host organizing and scientific committee tried their best to organize a program of high scientific quality, covering an equal balance between the broad scope of the field and various aspects of our discipline.

Our main aim was to focus on the difficulties and problems a dedicated GP/FM may encounter when he or she tries to implement evidence based medicine in daily practice. The efforts needed to respect and possibly overcome obstacles derived from time constrains, health system regulations, societal pressures or the expectations of the patient may be regarded as the arts` aspect of integrating scientific medical knowledge in daily routine and reality .

To highlight these much wider aspects of the relationship between arts, medicine and the perspective of the patient in his/her individual context, the opening ceremony will give two personal perspectives from literature and fine arts presented by Peter Turrini and Elisabeth von Samsonow. In line with the title of our conference, six keynote-speeches focusing on art and science will be presented during the conference. More than 1000 abstracts have been reviewed, selected and divided into 269 oral presentations, 71 workshops, 607 posters, 12 symposia and 1 open space session. A lunch symposium, 2 satellite symposia and 30 commercial and non-commercial exhibitors extend the scientific and commercial range of activities. A unique exhibition of paintings (“Docsart”) by family doctors from various countries will illustrate the intense relationship between art and medicine.

An additional attractive highlight for those of you interested in the daily work of an Austrian GP is the “Meet a Doc” program which includes an introduction to the Austrian health care system.

We would further like to invite you to participate in our attractive social program, starting with the opening ceremony and welcome reception accompanied by carefully selected music, continuing with the festive reception in the splendid Town Hall hosted by the Mayor of the City of Vienna, an informal dinner evening at a traditional “Heurigen” wine tavern, an organ recital at the “Augustiner Church” and finally the closing ceremony with the awarding of prizes, including the Vasco da Gama Movement and for the most interesting posters.

We would like to thank all of you who made this conference possible, first of all the participants, who followed our invitation to Vienna, all colleagues submitting abstracts, the members of the international and national review boards, all WONCA network organisations, SIGs and workings parties that contributed immensely to the scientific content of the conference, the Executive and office of WONCA Europe, the colleagues who agreed to chair sessions, and last but not least, our Austrian colleagues working very diligently in the various groups of the host organizing and scientific committees. Without their engaging and untiring support this conference would have never become reality!

Dear colleagues, we cordially invite you to participate in the scientific and social program of this conference. We wish you a successful conference full of inspiring impressions, discussions and personal contacts with many of your colleagues, thus making this conference unique and unforgettable for all of us!

Our best wishes for an exciting stay in Vienna!

Information for Chairpersons

If you are a Chairperson

1. Please locate your Session room in due time: You will find all necessary information concerning the date, time and location of your Session again in this Final Programme Book: Please be in your Session room at least 15 minutes prior to the start of the Session.
2. Please keep in mind that Speakers should strictly observe timing.

Information for Speakers:

1. Please locate your Session room in due time: You will find all necessary information concerning the date, time and location of your Session in this Final Programme Book. Please be in your Session room at least 15 minutes prior to the start of the Session. Make yourself known to the chairpersons and/or the room assistant in your session room before the beginning of the session.
2. Please find the guidelines for PowerPoint presentations below
3. You are kindly asked to keep your presentation within the given time limits, which also include discussion time.

Important

If you are not able to present your talk, it is essential that you contact the organising office immediately to notify them of any change of presenter or withdrawal

Speaking Time

The chairpersons of your session will be strict in allowing no more than the time allotted to your paper: Remember to allow some time for the changeover of speakers and chairperson's introduction, and for questions and discussion.

General hints and tips

Remember that the vast majority of the audience are not native English speakers - speak clearly (whether or not English is your native tongue) and moderately. Plan an average of no more than 1 slide per minute, in most cases. Keep your PowerPoints simple: On text slides, use no more than seven lines per slide, with ample space between the lines, and no more than seven words per line in suitably large lettering. Leave sufficient space between the text and the edge of the slide/screen: Some data projectors may not display the very border of the slide/presentation.

GUIDELINES FOR POWERPOINT PRESENTATIONS

PowerPoint is the only communication tool available in all session halls. Overhead projection, slide projection or flipcharts is not available.

1. Speakers are kindly asked to observe that only computers provided by the conference may be used for showing your presentations. All PowerPoint presentations must be handed in at the preview centre.
2. All presentations are loaded into a PowerPoint handling system that will store and distribute your presentation to the session hall in time for your session.
3. All PowerPoint presentations should be handed in at least 2 hours before the session starts.
4. Please check your presentation carefully on the preview room computer assigned by the staff before the final sign off.
5. The professional staff at the preview centre will load your presentation into the system so that it will be available on the computer in your session hall when you come to speak.
6. If you are doing more than one speech during the conference, you may upload all your presentations at the same time and they will be sent to their corresponding session halls at the time of your sessions.
7. The PowerPoint handling and distribution system is optimized for MS PowerPoint 2007 (Office 2007) and "*.pdf"(Adobe Acrobat)-files. The uploading of "DVD-Movies" is not supported.
8. The supported data media are: Floppy Disk, CD, DVD (as Data-storage-medium) and USB-Memory (Stick).
9. All needed files - also the movie files!!! – have to be on the data media.
10. Presentations can also be taken off speakers notebooks at the preview centre.
11. The fonts that are used in the presentations should be "Latin-based fonts". If the speaker needs special fonts, they should be stored as "embedded fonts" with the presentation (File -> save as "name of presentation" and under „tools“ ->save options mark the checkbox "embed True type fonts" and select "embed all characters").
12. When using mathematical symbols please use these which are available under Latin fonts (unicode or DOS: Western Europe). These can be shown without any problems in Office 2007.
13. As format for embedded movies "MPEG2 – movies" are preferred (but can also be *.avi, *.wmv). If Codecs are used, the Code package DIVx in the current version, which can be found under www.divx.com, should be chosen.
14. Presentations should be saved as "*.ppt", "*.pptx" (= PowerPoint) or "*.pps", "*.ppsx" (=PowerPoint Slideshow) – file and movies as separate files on the data media.
15. The computers and projectors will be set up and optimised for 1024 x 768 resolution (ratio 4:3).

These guidelines should be seen as a matter of improving the effectiveness of the "Slide centre-Solution" and as a consequence should result in high speakers comfort.

Presence at Poster

Format: The usable surface on the poster board will be 90 cm width x 150 cm height (approx. 35 x 59 inches). Only adhesive tape can be used to mount posters. Material will be made available.

Poster Mounting Time: Wednesday, July 4, 16:00-19:00; Thursday, July 5, during registration hours

Poster Removal Time Saturday, July 7, 13:00 until 14:30 at the end of the programme

You will find your **poster number** in the authors index at the end of the electronic abstract book on USB-stick.

Poster Mounting

The number in front of your presentation title (poster number) stands for the number of the poster wall reserved for you.

Presence at Posters

In order to enable discussion and interaction with other participants, we request the main author or another member of the group to be at the poster board at the times noted above. If this is not possible, we request the authors to leave a note on the poster indicating the times when they will be present at the board.

Please note that the organisers cannot assume any liability for loss or damage of posters displayed in the poster area. Posters that are not removed until the stated time will be removed by staff and will not be stored or sent to the author after the meeting.

WONCA Europe 2012 - Poster award

Most Viewed Poster

Every morning at the plenary sessions, the conference organizers will encourage the audience to visit the poster areas and will announce the particular poster sessions where authors will be present for discussion on that day. A special prize will be offered for the "most viewed posters". Conference participants will receive a ballot paper in their conference bag, which they can use to put down the number of the poster which was most interesting or impressive or most relevant to them. The **ballot papers** will be collected at the conference desk throughout the meeting and will be counted on Saturday, the last day of the conference. At the closing ceremony, the three most voted posters will be presented and honoured with a **special award**. In addition, special prizes (in total three) will be handed over to those conference participants who actively contributed to this balloting procedure.

Vasco da Gama Movement

The **Vasco da Gama Movement (VdGM)** is the WONCA Europe Working group for young (GPs within 5 years of qualification as a GP) and future General Practitioners (GP trainees). The movement is the continuation of the work that was started during the first preconference meeting for junior doctors during the WONCA Europe Conference in Amsterdam in 2004.

The VdGM Europe Council represents the Vasco da Gama Movement. Each WONCA Europe member country is asked to appoint or elect one national delegate to the VdGM Europe Council. Therefore the VdGM Europe Council should consist of 34 members. This council meets annually in parallel with the VdGM preconference workshops, prior to the annual WONCA Europe conference. The Executive Group of 7 members is elected from the VdGM Europe Council. National delegates of the VdGM Europe Council can apply for any position in the Executive Group that becomes available.

VdGM asks National Colleges of European Countries to send 1–2 delegates to the preconference. Every year new delegates should have the opportunity to participate and experience what it is like to be a GP in an international context, exchange ideas, experiences and visions with overseas colleagues.

Our mission is to extend our knowledge of GP/FM in a European perspective and to exchange ideas and experiences with the purpose to develop and improve GP/FM in Europe and at home.

Preconference participants will also have the chance to get acquainted with the activities of VdGM and to attend the annual WONCA Europe Conference. The aim is to stimulate young GPs' enthusiasm in maintaining the goals of a high quality family medicine in their countries as well as internationally, working on the principle of "think globally, act locally".

The Art & Science of Becoming a General Practitioner

The topic of this year's VdGM preconference is "the art of becoming a general practitioner". Both Tuesday and Wednesday the preconference participants will work in groups discussing this theme, with focus on the difficulties balancing the "art" (intuition; compassion; patient-centred approach) with the "science" in family medicine (Evidence-based practice; clinical guidelines; bureaucracy).

Keynote Lecture Art

The art of doing nothing

Iona Heath, London, UK

Iona Heath worked as an inner city general practitioner in London from 1975 until 2010. A nationally elected member of the Council of the Royal College of General Practitioners since 1989 and chairwoman of the College's Committee on Medical Ethics from 1998 to 2004 and the International Committee from 2006 to 2009, she is currently President of the Royal College of General Practitioners. Since 2009 she has been a member of the WONCA world executive.

From 1993 to 2001, she was an editorial adviser for the British Medical Journal and chaired the journal's Ethics Committee from 2004 to 2009.

She has been particularly interested to explore the nature of general practice, the importance of medical generalism, issues of justice and liberty in relation to health care, the corrosive influence of the medical industrial complex and the commercialisation of medicine, and the challenges posed by disease-mongering, the care of the dying, and violence within families.

Keynote Lecture Science

Booklet-based rehabilitation for chronic dizziness in primary care: simple and effective?

Lucy Yardley, Southampton, UK

Lucy Yardley is Professor of Health Psychology at the University of Southampton, UK. Her current major research focus is on using the internet to support self-management of health, and she leads the 'LifeGuide' programme of research to develop web-based healthcare interventions for a wide range of health conditions. Her longstanding interest in balance disorders commenced when training as an audiological scientist, after which she worked at the MRC Human Movement and Balance Unit at the National Hospital for Neurology and Neurosurgery in London.

She has led several large clinical trials testing the effectiveness of different models of delivery of vestibular rehabilitation in primary care.

Friday, July 6**09:00 - 10:30****Keynote Lecture Art**

The art of balancing science, care and compassion

Andrew Miles, London, UK

Professor Andrew Miles MSc MPhil PhD is Editor-in-Chief of the International Journal of Person Centered Medicine and Editor-in-Chief of the Journal of Evaluation in Clinical Practice. Initially trained as a medical biochemist, Prof. Miles devoted his work to balancing profound biomedical and technological knowledge with a deep understanding of the patient as a person.

His work has had a deep impact on the international understanding of evidence-based medicine, moving it towards a concept of decision making that includes the complexities of clinical care and the central role of the patient.

Prof. Miles is a Visiting Professor in Clinical Decision Making and in Person Centered Medicine at several international universities and has written extensively in the peer-reviewed medical and scientific press and co-edited more than 50 books. He was previously Professor of Clinical Epidemiology and Social Medicine and Deputy Vice Chancellor of the University of Buckingham and is now Director of the International Conference and Publication Series on Personalised Approaches to Healthcare at the International College for Person Centered Medicine.

**Key Note Lecture Science**

Facilitated physical activity as a treatment for depressed adults: randomised controlled trial

Glyn Lewis, Bristol, UK

Glyn Lewis is Professor of Psychiatric Epidemiology, University of Bristol and Hon Consultant Psychiatrist in Avon & Wiltshire Partnership Trust. He trained in epidemiology at the London School of Hygiene and Tropical Medicine and in psychiatry in the Maudsley Hospital and Institute of Psychiatry, London. His main research interests are in the public health and epidemiology of psychiatric disorder. This includes identifying factors that are possible causal factors for the common mental disorders of depression and anxiety and schizophrenia.

He also carries out randomised controlled trials concerned with the management of depression in primary care. He has an interest in how research findings can be applied to clinical practice and in teaching clinicians about critical appraisal of the scientific literature.

Key Note Science

Age dependent D-dimer cut-off values for exclusion of deep venous thrombosis in suspected elderly primary care patients

Henrike Schouten, Utrecht, NL

Henrike J Schouten (1985) is a PhD student at the Julius Centre for health sciences and primary care in Utrecht, the Netherlands. Since 2010, she also works as a resident in clinical geriatrics. Besides, she attends the postgraduate Masterstudy in clinical epidemiology. Her special interest is optimising the diagnostic procedures for elderly patients with suspected venous thromboembolism in primary care and in nursing homes. Also, ethical medical decision making processes concerning withholding diagnostic interventions in elderly patients attend her special interest.

WELCOME RECEPTION

Wednesday, July 4 | Austria Center Vienna

We are pleased to invite you to the “Come Together” that will take place just after the opening ceremony. There you can catch up with “old” friends and make new ones. While listening to music, you will be enjoying the atmosphere as well as a taste of the Viennese cuisine. We are looking forward to a delightful evening.

Registration in advance is necessary.

FESTIVE RECEPTION

Thursday, July 5 | 19:30 | Town Hall

The Mayor of Vienna invites the participants of the conference to enjoy a cocktail reception in the splendid town hall of Vienna. You will experience the beautiful Festive Hall, the Heraldic Hall and in the Arcadic Courtyard, as we celebrate an unforgettable evening in the heart of Vienna.

Free entrance, limited attendance! Admission only for registered participants and registered accompanying persons on a first come first serve basis!

EXCLUSIVE DINNER „HEURIGEN EVENING“

Friday, July 6 | 19:30

Enjoy a nice exclusive evening with your colleagues at a traditional Viennese “Heurigen” wine tavern where you are served with wine produced from the surrounding vineyards. We will take you through the village of Grinzing, to Neustift am Walde where you will have the opportunity to enjoy a memorable evening in a traditional atmosphere surrounded by vineyards.

Price per Person: EUR 50.00/limited availability | Included: transfers, meals, wine, soft drinks

ORGAN – RECITAL

Friday, July 6 | 19:30 | Augustinerkirche, next to the Hofburg.

Organist: Mrs. Prof. Elisabeth Ullmann

There are two organs in this church and both will be played. The Augustinerkirche was the special church of the imperial court where the imperial weddings took place. For example, the marriages of Empress Maria Theresia and Franz von Lothringen and that of the Emperor Franz Josef and Elisabeth (Sissi). A unique site nearby is the Loreto-Chapel, where 54 hearts of members of the Habsburg family are buried in urns. The Chapel can be visited after the concert by a guided tour.

Concert-entrance fee: EUR 12.00

Conference Venue

Austria Center Vienna
Bruno-Kreisky-Platz 1
A-1220 Vienna, Austria
www.acv.at

Bank services - Money matters

Banks are open from 8.30 – 12:30 and from 13:30 – 15:00, Monday to Friday. Some banks are also open on Thursday afternoons until 17:30 hrs. Cash machines (ATMs), which accept all major international bank cards, are available throughout the city. The currency of Austria is the Euro (€). Major credit cards are widely accepted, but please always check beforehand.

Car Parking

A limited number of covered parking slots are available in the parking garage next to the Conference Venue. Following fees will be charged: EUR 3.00 an hour, every additional hour: EUR 1.00, daily maximum: EUR 10.00. If you are occupying a parking slot outside the designated area your car will be towed away!

Currency

The official currency of Austria is the Euro (€). 1 EUR = 1,36 USD = 0,91 GBP = 124,00 JPY = 1,49 CHF as per date of printing.

Drinking water

Tap water in Austria is of high quality and suitable for drinking.

Eating Out in Vienna

Vienna has a broad variety of local and international restaurants, many of them located in the old city and in the vicinity of the conference venue.

Electricity Supply

220V - 50Hz AC. Adaptors can be obtained from your hotel reception or electronics stores.

Emergency Phone Number

The phone number to dial for emergencies is 112.

GSM cell phone roaming

GSM cell/mobile phone roaming is available for all major international providers. It is advisable to ask your provider beforehand which roaming company in Austria offers the cheapest tariffs.

Insurance

In registering for the WONCA2012 participants agree that neither the organising committee nor the conference office assume any liability whatsoever. Participants are requested to make their own arrangements for health and travel insurance.

Language

The official language of the conference will be English (no simultaneous translation). German is the official language in Austria.

Medical care

The Austrian National Health Service may be used by all persons from European Union countries who have the EHICard (formerly E111). This form/card should be obtained at the health service or post office of the visitor's home country before travelling to Austria. It is advisable for participants from countries outside the European Union to take out medical insurance before reaching Austria, since they will be charged for access to the national health system.

Pharmacies

Medicines that do not require a medical prescription may be purchased over the counter. If you need advice, do not hesitate to ask the pharmacist. If you usually take medication, it is advisable to bring a sufficient amount with you for your trip. A Pharmacy in the vicinity of the conference venue is located in the Andromeda Tower, Donau-City-Street 6 (open Mon-Fri, 8-18 hrs, and sat 8-12). There are duty pharmacies open 24 hours a day. Outside each pharmacy there is a list of the nearest duty pharmacies, or you may ask at your hotel reception for more information.

Safety - Crime

Visitor safety is generally adequate. Like in any other major European city, you can walk everywhere using common sense. Pick pocketing in heavily visited tourist zones or in public transport lines might be a concern.

Experience has shown that some basic precautionary measures should always be kept in mind in any city:

- Do not carry important items like flight tickets, passports etc. with you all the time during your stay, especially when using crowded public transport lines. Rather carry a photocopy of your passport or an identity card with you.
- Try not to carry all documents, money, credit cards and other essential items and valuables in one bag. If it gets lost or stolen, everything will be gone and might be difficult to replace on short notice, especially passports and visa to return to your country of residence.
- Take off your name badge when leaving the conference centre.

Shops

Shops in Vienna are generally open between 09.00 and 18.00 hrs Mon-Fri, and between 09.00 and 12.00 on Saturdays. Some shops are open until 19.00 Mon-Fri and until 17.00 on Saturdays. Shops are usually closed on Sundays, except for a few establishments with special permits.

Taxis

There are Taxi ranks throughout the city, but calling is often your best option. Please address your hotel reception or the registration desk of the conference venue.

Tipping

Tips are not obligatory in Austria, although people usually tip approximately 10% at restaurants, cafés and bars. Hotel and airport porters will accept tips, depending on the luggage.

V.A.T.

A value-added tax (V.A.T.) of generally 20% is applied to most products and services (a 10% V.A.T. applies on e.g. books, food and a few other items). The V.A.T. is included in the displayed price.

Travelling within Vienna

Vienna has an excellent public transport system which is very effective and inexpensive. Tickets are available from machines at underground stations (maestro debit cards accepted), at news agent's, or at Vienna Transport Authority's ticket offices. Tickets bought in advance are cheaper and must be punched in a blue ticket cancelling machine on the tram or bus, or at the barrier before boarding the underground train.

- Single trip tickets can be used for any single trip within Vienna. You may change lines (and switch between bus, tram, underground, or urban train), but you may not interrupt your journey.
Ticket price: EUR 2.00 when bought in advance; EUR 2.20 when bought in the means of transport.
- The 24-hour pass is valid throughout Vienna for exactly 24 hours from the time it is punched.
Price: EUR 6.70
- The 48-hour pass is valid throughout Vienna for exactly 48 hours from the time it is punched.
Price: EUR 11.70
- The 72-hour pass is valid throughout Vienna for exactly 72 hours from the time it is punched.
Price: EUR 14.50
- The 8-day ticket is valid for any eight days, not necessarily eight consecutive days. It is a rover ticket, which means you can travel all around Vienna. You can also use the ticket for several people travelling together.
Simply punch one strip for each person in the group. Price: EUR 33.80
- Week-pass valid from Monday to Monday, 09.00 hrs. Price: EUR 15.00

A **taxi** is the most comfortable way of getting around the city but also the most expensive. They are identifiable by their roof-sign which is lit when available. Prices must be displayed inside the cab and meters (which are compulsory in all cabs) will indicate the fare.

From and To Airport

Vienna International Airport is located 13 kilometres south east of Vienna.

S7

The Schnellbahn (S-Bahn) is a low-priced way of getting from Vienna to the airport and back. The S-7 has a few stations throughout the city (Praterstern, Wien Mitte, Rennweg) making your trip to and from the airport more convenient. Trains leave regularly, usually every 15-30 minutes. The journey lasts approximately 26-30 minutes. Tickets are €4.00 (including travel on Vienna public transport). Ticket machines are on the platforms at the airport and at stations in Vienna (Praterstern, Wien Mitte, Rennweg).

City Airport Train (CAT)

The train service between the airport and the city centre (City Air Terminal – Station "Wien Mitte") leaves every 30 minutes and takes 16 minutes. It runs from 6:05 hrs to 00:05 hrs (Airport to City) and from 5:38 hrs to 23:38 hrs (City to Airport). Tickets may be purchased online (EUR 8.00 single or EUR 15.00 return), from ticket machines at the airport/station (EUR 9.00 single or EUR 16.00 return) or on board (EUR 10.00 single).

From the CAT stop to the conference venue: after arriving at "Wien Mitte" take the orange-colored underground-line U3 (direction Ottakring) and change at Stephansplatz (two stops) to the red colored underground-line U1 (direction Leopoldau). Arrive at Vienna International Centre/Kaisermühlen and take the exit marked Schüttaustraße.

Alternatively, there is a **bus service** to the centre (Schwedenplatz) as well as to the conference venue (VIC-Kaisermühlen) which takes around 30 minutes and costs EUR 7.00 (single) and EUR 12.00 (return).

Taxi fares to the conference venue are about EUR 35.00 and take around 25 minutes. There is a taxi rank outside the airport terminal. Night-time fees are slightly higher.

General Information

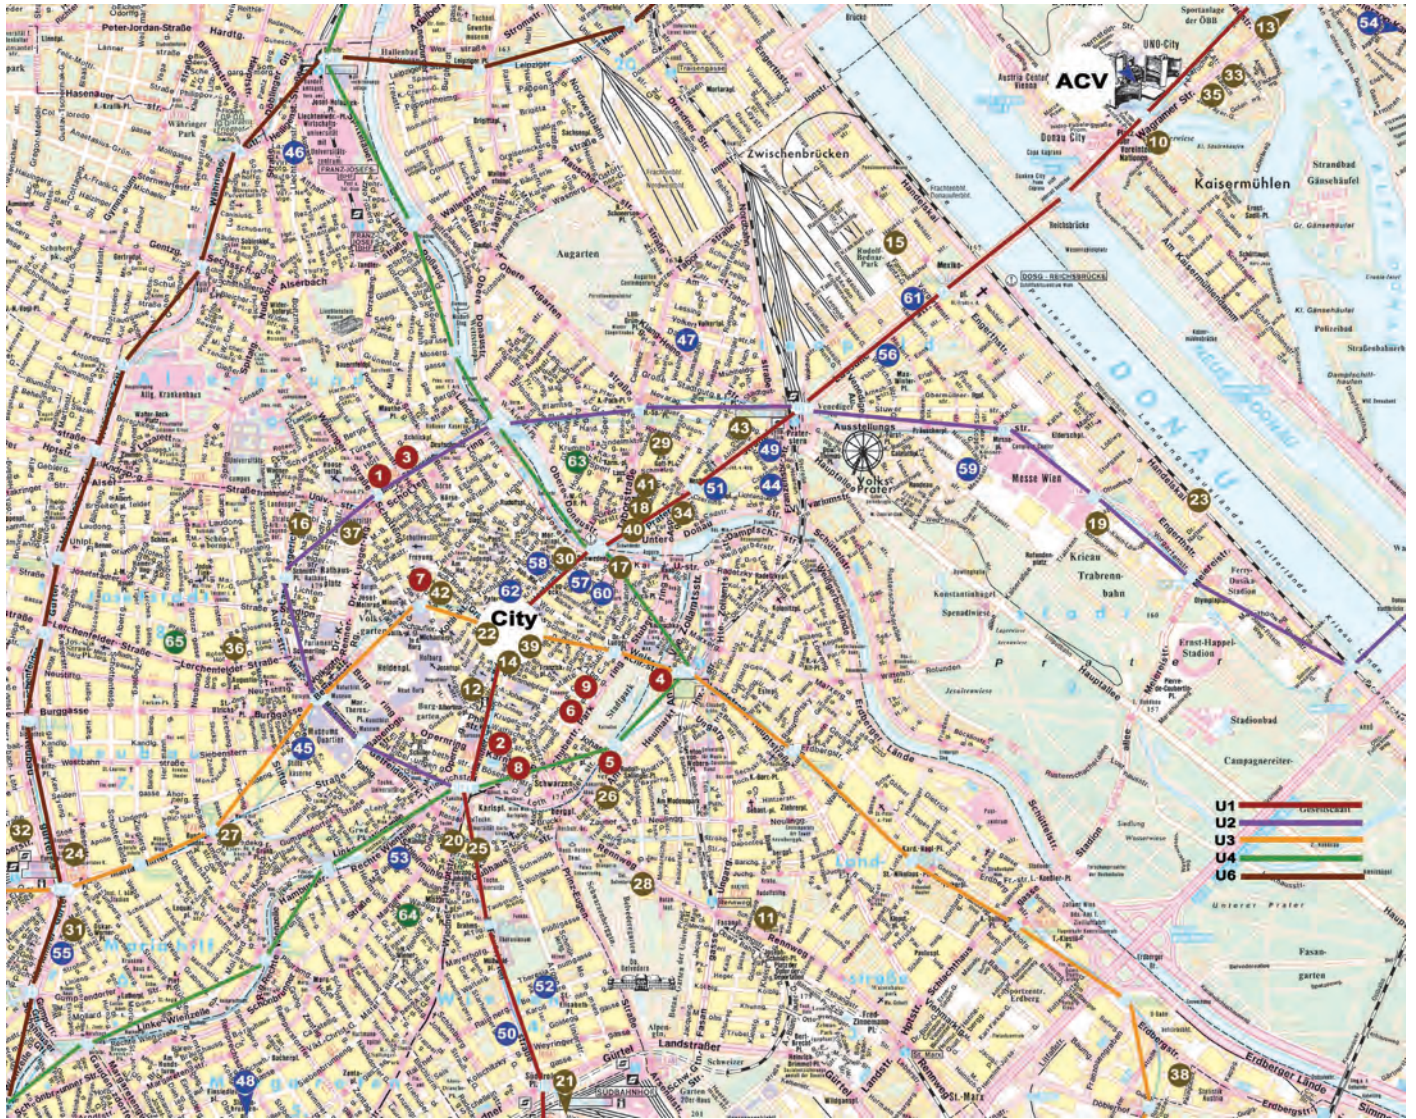

Please note:

Due to construction work **beginning Saturday, 7 July**, there will be **no service on line U1 between Schwedenplatz and Reumannplatz**.

Using other underground lines (U2, U3, U4) is highly recommended.

For further information, please see the notices displayed on the trains, on the platform or contact Wiener Linien's staff or information offices in the underground stations.
