Mega Trends and Innovations Impacting the Procurement Function of the Future

SAP Ariba in the Context of the Digital Economy

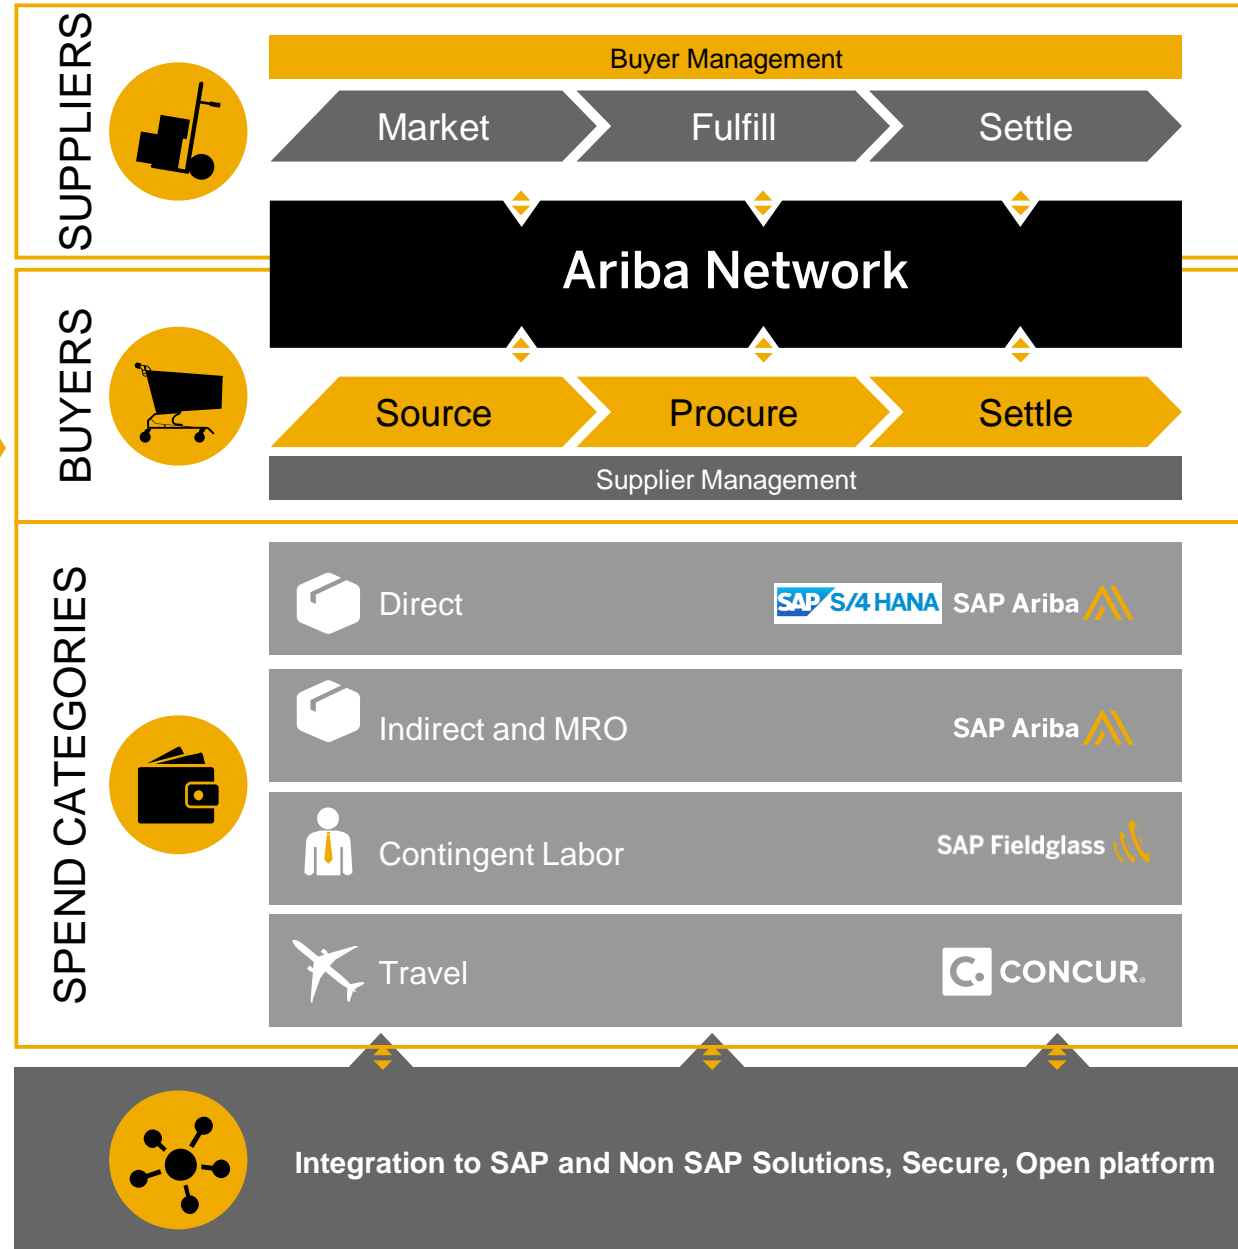

Customer experience

Suppliers & networks

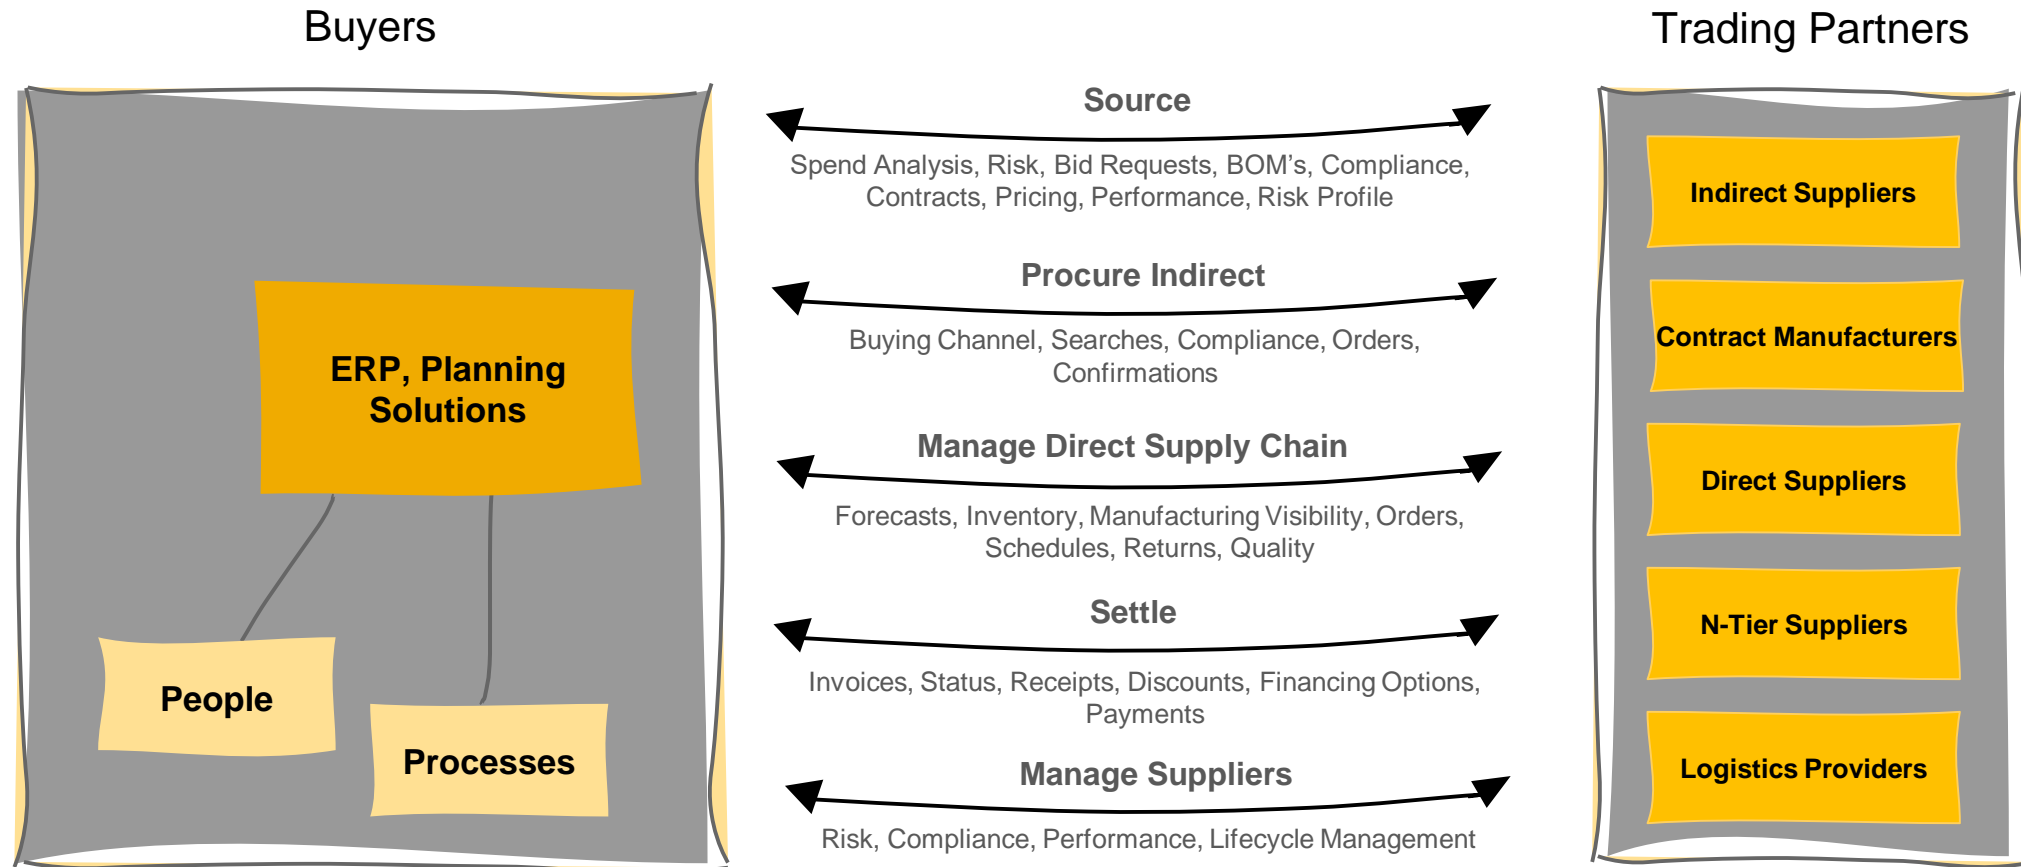

IoT & big data

Workforce engagement

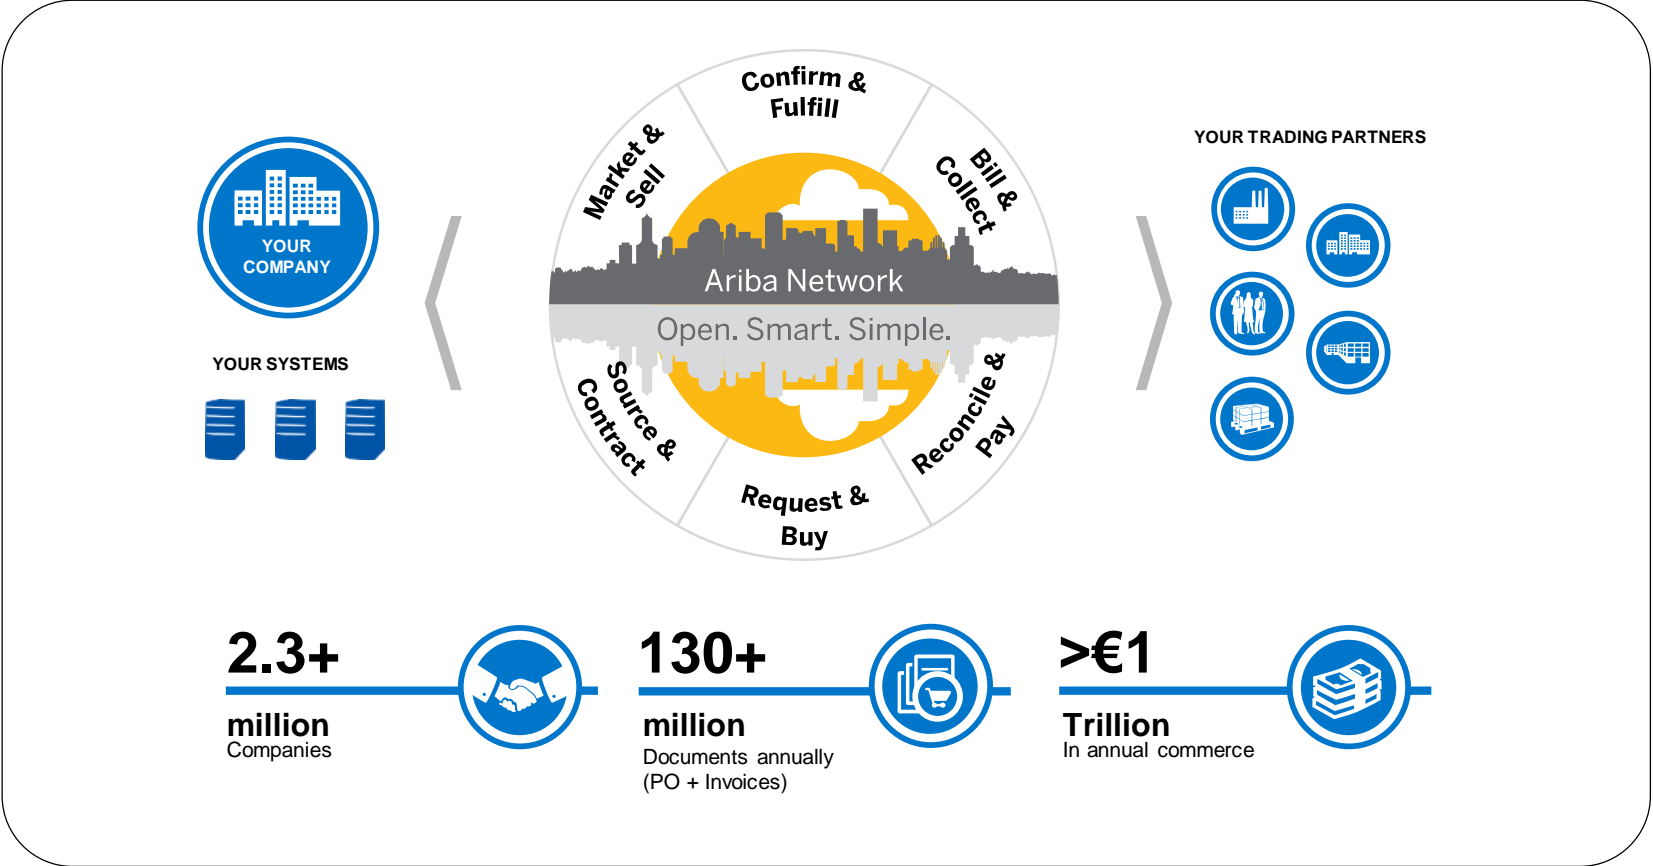

Transform your source-to-settle process to manage risk and improve internal and external collaboration...

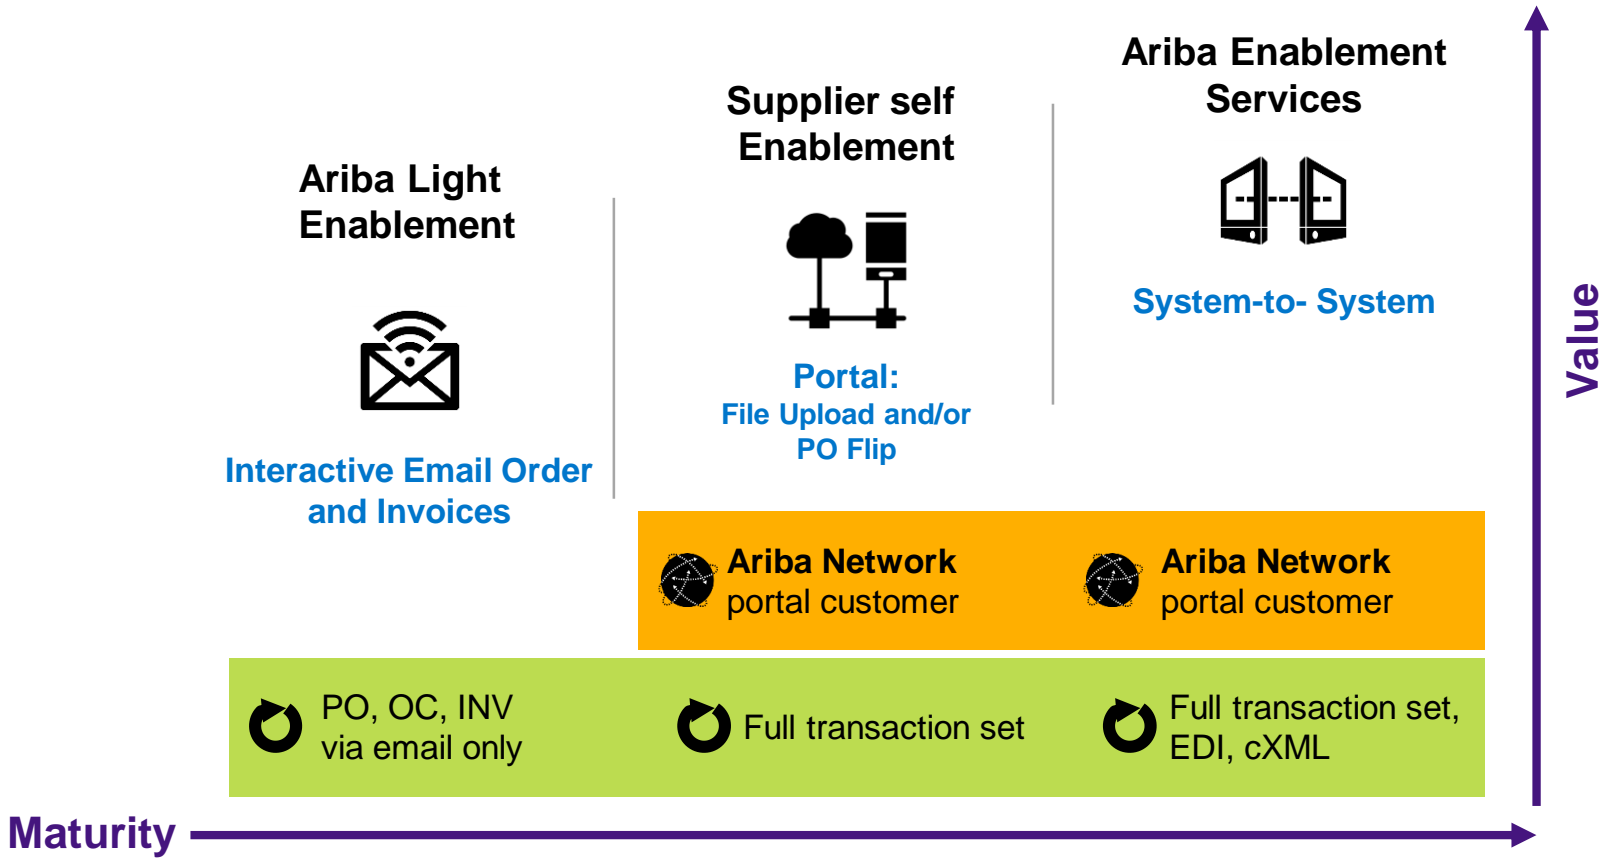

Spend Types: Indirect Materials | MRO | Direct Materials | Services

Supplier Collaboration with Ariba Network: all suppliers of all sizes through one single platform

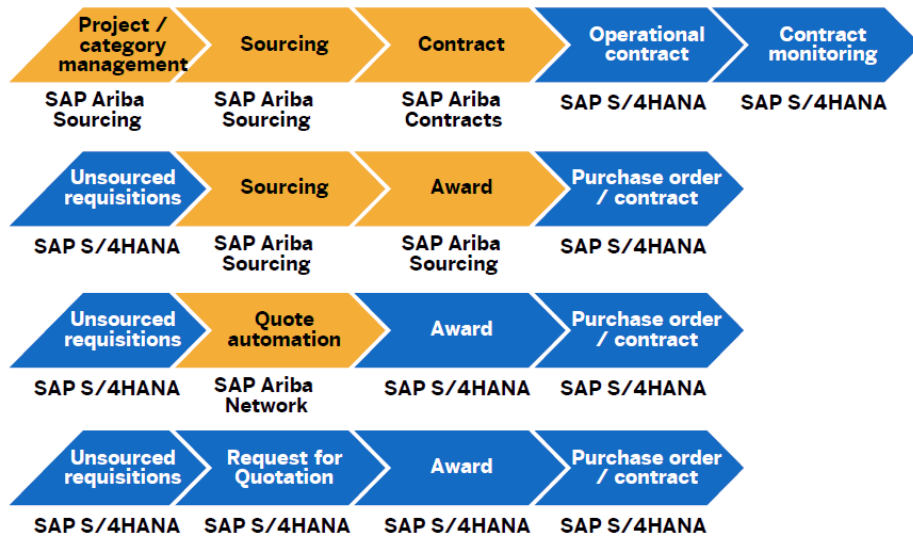

SAP Ariba Offers Suppliers Choice on How to Collaborate Digitally

Our truly end-to-end process

Collaborative Sourcing and Contract Management

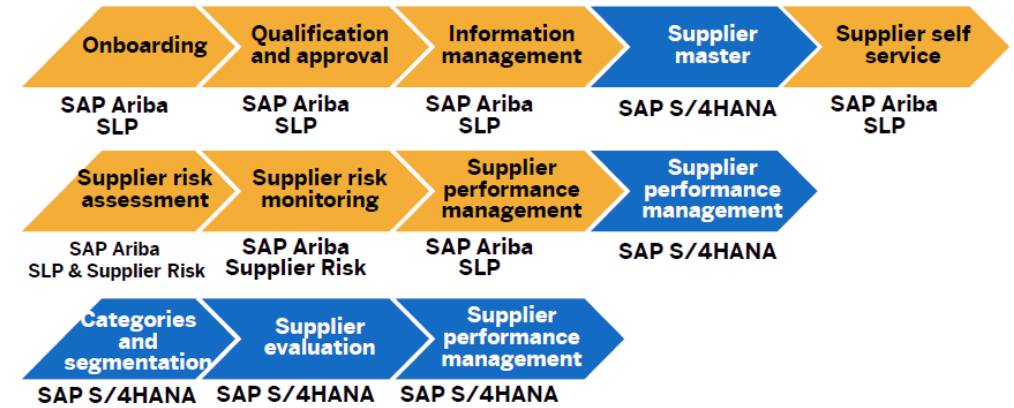

With SAP Ariba Strategic Sourcing, you can combine category and project mgmt., RFX, workflows, commodity intelligence, etc. integrated into S/4HANA Operational Contract, Outline Agreement and Contract Monitoring to drive sourcing efficiency.

Inject supplier innovation into product design process and integrate BOM with Sourcing Events, manage product cost optimization

SAP S/4HANA offers basic RFQs with message-based supplier communication.

Supplier Management

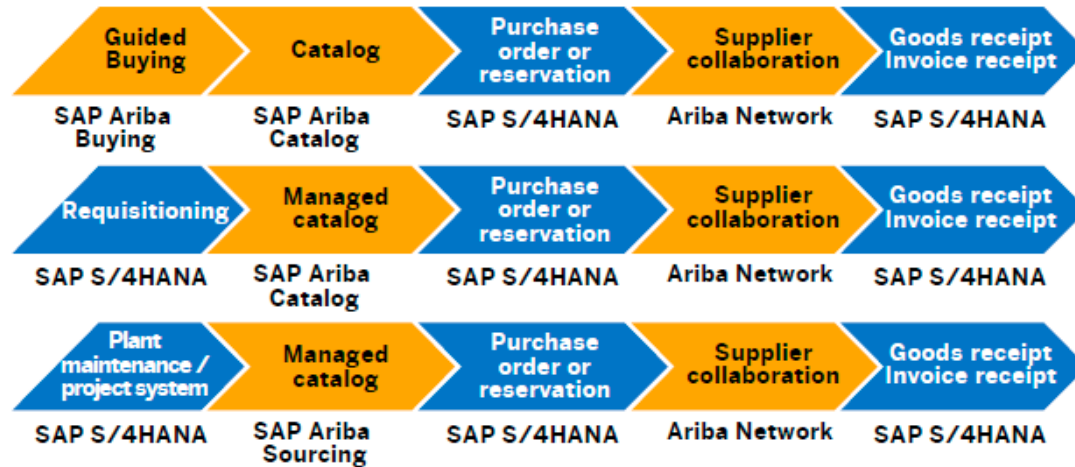

Manage suppliers at scale with SAP Ariba Supplier Management: onboarding, supplier information management, supplier lifecycle for qualification, segmentation, and risk, and vendor master sync.

SAP S/4HANA provides the core functionality to evaluate the supplier performance based on transactional facts and questionnaires

Our truly end-to-end process

Operational Purchasing

SAP Ariba Guided Buying provides an intuitive buying experience tightly integrated into SAP S/4HANA. S/4 HANA offers a catalog based requisitioning process, leveraging content from Ariba catalogs and marketplaces, to promote buying channel compliance.

Plan Driven Procurement automates ordering processes for frequently needed production materials integrated into Ariba Network.

Supply Chain Collaboration via Ariba Network

SAP S/4HANA with SAP Ariba Supply Chain Collaboration supports sophisticated supply chain planning and direct procurement processes to reduce inventory levels, and improve order fill rates

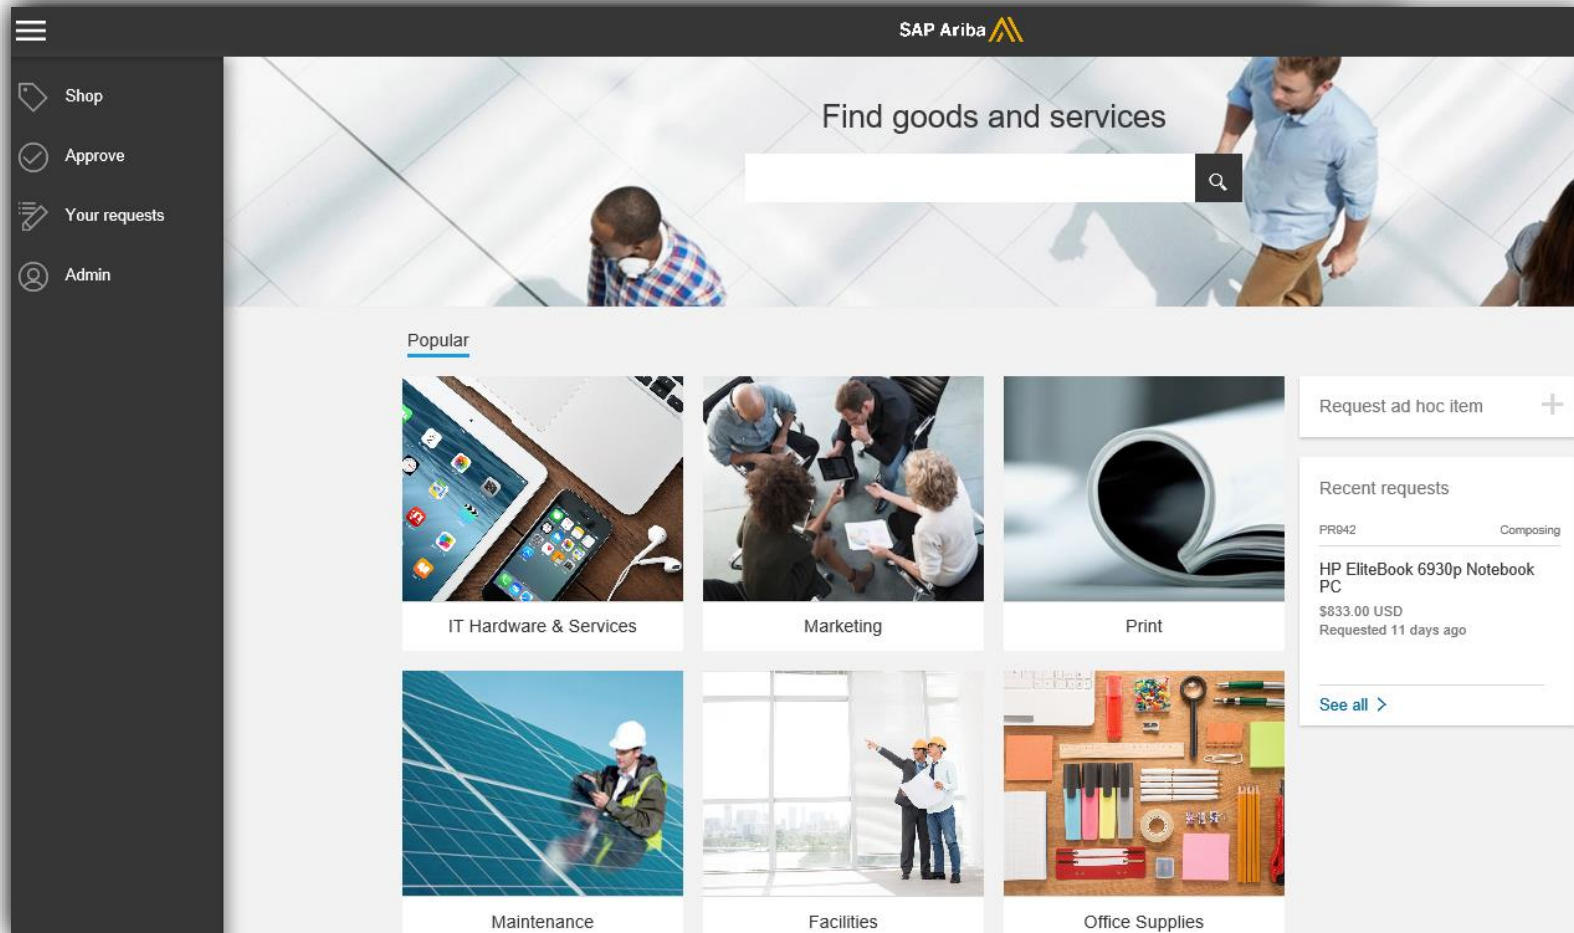

Invoice and Payables Management

Streamline accounts payables and reduce costs with smart invoicing for 92+% clean invoices into S/4 allowing for short approval cycles to leverage payment terms, dynamic discounts and improving cash flow

SAP Ariba Guided Buying

Clean, easy-to-use and intuitive layout

Elegant and Intuitive User Experience

- Recently ordered items
- Popular content
- Search across items, services, suppliers, requisitions

Natural and powerful search experience

- Predictive (type ahead) Search
- Faster access to information

'3-Click and Buy'

- Buying as smooth as personal shopping cart experience

Compliant buying process

- Enforced corporate policies

Truly one place for all goods, services and travel

- Integration to Fieldglass for contingent labor management
- Integration to Concur for T&E management

Options that work for **you**

SAP S/4HANA + SAP Ariba Apps & Ariba Network

- You are driving a digital IT transformation agenda including procurement transformation
- Procurement will be tightly connected to the backend in a single end to end system
- The recommendation is for you to manage procurement processes in Ariba Apps integrated to S/4HANA for core processes - single or multi backends based on business need

SAP S/4HANA + Ariba Network

- You are focused on transforming IT with an ERP suite, and expect essential procurement process support as part of the core foundation
- Main focus is digital IT transformation
- Typically less than 1bn\$ revenue

SAP Ariba Apps + Ariba Network

- Your primary business case is procurement transformation
- Strategic sourcing & supplier management is critical to the business goal. Operational procurement scope is indirect, MRO & services spend.
- IT has no immediate plan to go to SAP S/4HANA. System landscape may be heterogeneous and have multi-ERPs across the globe

Your IT strategy drives SAP's recommendation for either SAP S/4HANA OnPremise or Cloud edition.

Global program to drive SAP SRM transformations

Supporting SAP SRM customers to transition to SAP S/4HANA and SAP Ariba

Enable SAP SRM customers to benefit from innovations in SAP S/4HANA and SAP Ariba

Call to Action

- Go to the „[Future of SRM](http://www.sapsupport.info/future-of-srm/)“ website
- Check out **SAP Ariba** and **SAP S/4HANA content** (white paper, roadmaps, etc.)
- Fill in the **SRM transformation survey**
- Talk to SAP experts about your transformation options and **develop an action plan**

The image shows a composite of three elements related to the SAP SRM Transformation Survey. At the top left is a banner with the heading "Design the future of your Supplier Relationship Management" and text explaining SAP's digital transformation with S/4HANA and Ariba. Below this is a section titled "What target solutions are available?" which discusses the integration of SAP S/4HANA, SAP Ariba, and SAP Fieldglass. At the bottom left is another section titled "What transition paths are available?" with text about determining the right solution and transition path. On the right side is a screenshot of the survey form itself, titled "SAP Supplier Relationship Management Transformation Survey". The form includes an introduction, a "Call to Action" section with bullet points (Duration: approximately 10 minutes, Your data will be treated confidentially), and several sections for data collection: "Organizational Information and Contact Details" (General Information), "SAP Support Engagement Type", "What is the size of your organization?", and "What industry does your organization belong to?".

Integration from SAP Ariba

Deeper integration with SAP

- Covers the entire source-to-settle business processes
- Leverages the latest SAP technology and solutions
- Aligns with SAP's cloud-to-cloud and cloud-to-on-premise integration strategy

Broader integration with non-SAP

- Leverage partners for non-SAP integrations
- Supports major industry standards and formats

Easier integration for all

- Optimize combination of technology, go-to-market, and services for rapid delivery of all SAP and non-SAP options

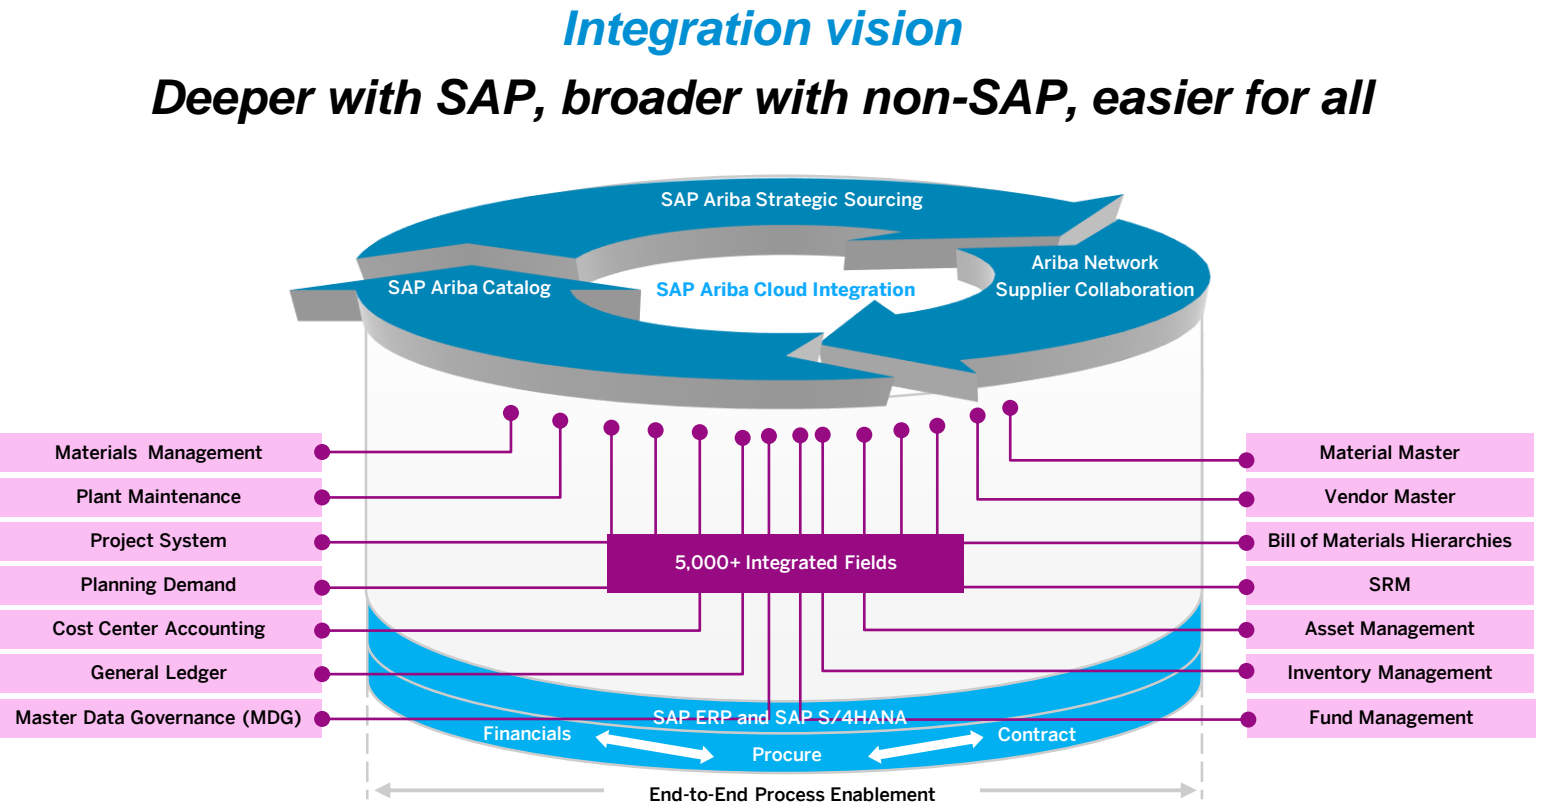

160
standard
integrations

100+
standard integrations
with SAP ERP and
SAP S/4HANA

50+
standard
integrations for
suppliers

Different integration options

- 1. Ariba Network integration** – Standard integration between SAP S/4HANA and SAP ERP with Ariba Network solutions
- 2. SAP Ariba Applications integration** – Standard integration between SAP S/4HANA OP and SAP ERP with SAP Ariba Applications that cover the entire source-to-settle process
- 3. SAP Ariba Cloud Integration Gateway, enabled on SAP Cloud Platform Integration** – Integration as a service for suppliers with support for multiple industry standards

Power of & - SAP & Ariba

- Strengthens the ROI of their S4 digital core transformation with extended procurement value from SAP Ariba
- Achieves seamless integration of business processes and user experience
- Combines S/4HANA and SAP Ariba and creates an even stronger story (100+ standard integrations)

Standard integrations - 160

The image shows a presentation slide titled "SAP Road Map for Sourcing and Procurement". The slide features a background image of a woman pointing at a large digital display showing various data visualizations, including line charts and tables. The charts show trends over time, with labels for months (Jan to Dec) and cities (New York, London, Berlin, New Delhi). The slide includes the SAP logo and the slogan "Run Simple". The presentation interface shows "Seite: 1 von 40" and "Automatischer Zoom".
