

Baaske MediTouch ST Keyboard

space saving medical keyboard with an extremely flat profile

- ▶ completely sealed silicone keyboard
- ▶ excellent, noiseless keystroke
- ▶ self-resetting Tru-Lock
- ▶ very flat, only 14 mm high
- ▶ can be completely submerged

The Baaske MediTouch ST convinces by its optimized key height, which allows an easy cleaning and simultaneously imparts the sensation of a modern laptop keyboard. The pleasant quiet key operation offers the user a convenient operation and excellent pressure point. Additionally the medical keyboard is completely sealed, without joints and can be completely submerged. (IP68). A self-resetting Tru-Lock mechanism allows the cleaning of the Baaske Meditouch ST keyboard during operation.
