OUTLINES OF THE SIXTH SEPTENNium

INTRODUCTION

According to our understanding, the [signs of the Heavens](#), the living geometries, the lights and sounds of the "[wisdom of the stars](#)", allow us to prefigure the [future](#) and to prepare the ways of the common advance, "with a united breath and unified rhythm" with the solar [Plan](#) inscribed in the Cosmos.

These signs, or 'elusive decrees' of the celestial Plan, carve the paths of the future on the *matrix* of the terrestrial [evolutionary Plan](#), that "Plan of Love and Light" guarded and emanated by the inner Guides, defined as *the Hierarchy* by the esoteric Teaching. The energies and objectives of the hierarchical Plan subtly lead the steps of the planetary and human path towards the Common Good, according to the direction and resources available.

Our care, as a [Group of World Servers](#), is to try to see and follow the luminous traces that Heaven reveals, because: *by following the Plan, the Purpose of the planetary Lord will be revealed.*¹

The planetary Plan, in its [first human formulation](#) that we have welcomed and nourished, provides for **Seven primary Goals** collected from the indications of the Teaching following the **Seven Rays** Order of Life, and 42 secondary Goals, thus reflecting the hierarchical Model with 49 Centers, the foundation of any *coordinated cooperation aimed at a common purpose*, that is, of any *conscious* group, form or entity.

The 49-Goal Plan is divided into seven-year periods; started in 1987 (Goal 1.1), it saw the end of its Fifth seven-year period (2015-2021) dedicated to the *Goal 5.5 - New Culture and Civilization* (and which motivated the emergence of the [TPS site](#)), and now we are at the dawn of the **Sixth septennium** (2022-2028).

As already attempted for the previous seven years cycles (unpublished texts), interpolating the signs of Heaven and the matrix of the evolutionary Goals that we intend to *vivify* in the field of the [Workshop of Human Thought](#), we will therefore proceed to outline the next seven evolutionary stages to be pursued on a subjective level, by the *group consciousness* on the abstract mental plane, to assist in the unfolding of the Plan of *Will, Love and Light* on Earth.

*

The *Sixth* seven years is first of all lit and sprinkled with the energy of the **6th Ray** and is entirely conditioned by the *sixth* Goal of the planetary Plan **6.6 - New World Religion**:

This basic sound therefore guides the Work of the seven years to come, aimed at reuniting (starting from the abstract mental plane) the *New Human Community*, the Idea of a *One Humanity* that reflects the Reality of *Communion* or universal Brotherhood among all the worlds.²

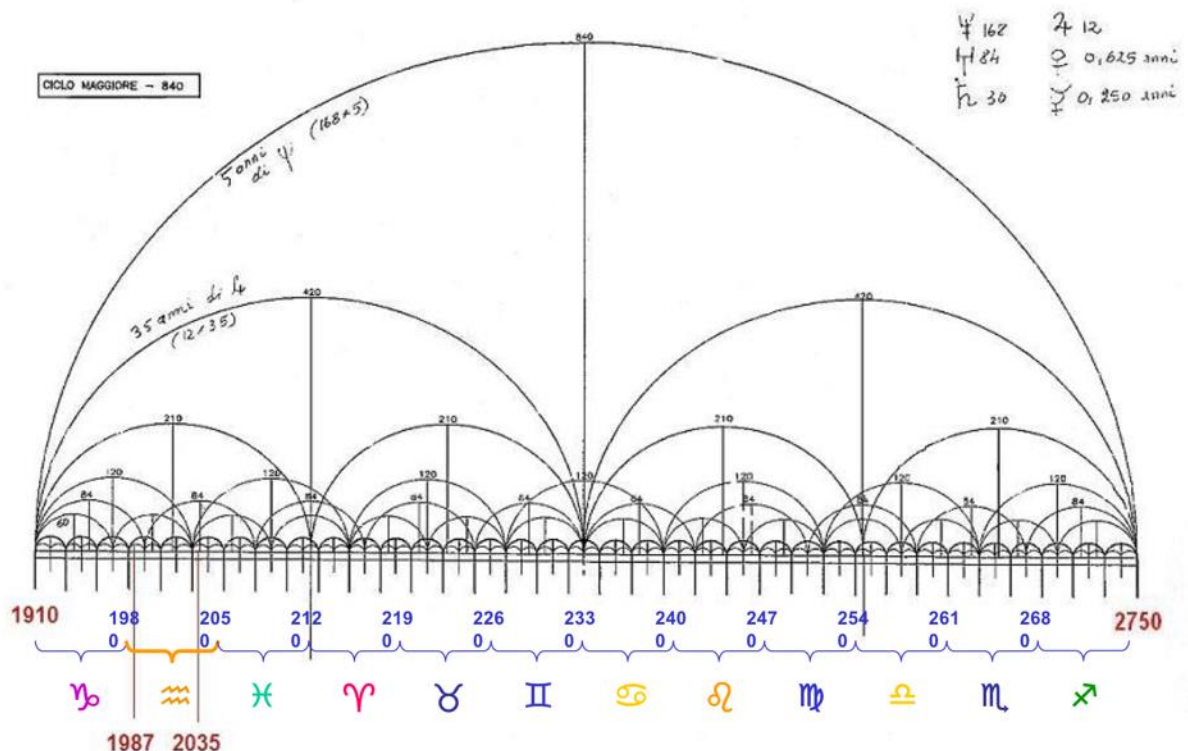

RHYTHMS OF THE SIXTH SEPTENNIUM

Before considering the 7 initial (solstitial) Heavens of the 7 years of the 6th septennium (2022-2028), it is necessary to look at this seven-year period as a unitary arc inserted in the main cycles of the Solar System, that is, respecting the proportional “nesting dolls” series of the [hierarchy of dates](#).

As we know, the underlying quality is that of the passage between the Ages of Pisces and Aquarius and indicates a climate of strong transition (which lasts 500 years, with a peak indicated in 2117): humanity leaves the emotional *water* of Pisces, enriched with the deep inside experience and the consequent refinement of psychic sensitivity after the liberation from personal desires and material attachments, to go towards the *air* of Aquarius, expansive, rational, scientific and universalizing.

In the *heliocentric* cycles of the Solar System, this interlude coincides with the ascent of the *Seventh Solar Day* (1910-2750), the synthetic 840-year cycle that groups and contains all the cycles of the 7 sacred Luminaries. In particular, we are currently experiencing the second (among 12) *Aquarian* division (1980-2050) of this Day colored by the 7th Ray. This zodiacal value (Aquarius: again, the Sign and the light of the New) embraces the entire 49 years cycle of the Plan (1987-2035), the first experiment of group life according to the *science* (5th Ray of Aquarius) and the *order* (the 7th Ray in ascent) of numbers, rhythms and the celestial Plan.

Let us therefore hold the accord between the **5th** and **7th Rays** as the fundamental mark of the current evolution of consciousness towards the primary Aquarian Idea of a *hierarchical Brotherhood*, based on *systemic relationships* between worlds and on *right human relations*, and let us investigate the energy values of the 6th septennium in the light of the main *compound cycles* (heliocentric/causal perspective: see 5th chapter of [Introduction to Astrosophy](#)):

* The number after the Zodiac Signs corresponds to one of the 7 sectors or qualities of each Sign, which sees every 5 degrees informed by one of the 7 Rays, with the 4th Ray associated with its bisector (15°) - see “The Solar System in Space” ([Il Sistema solare nello Spazio](#)).

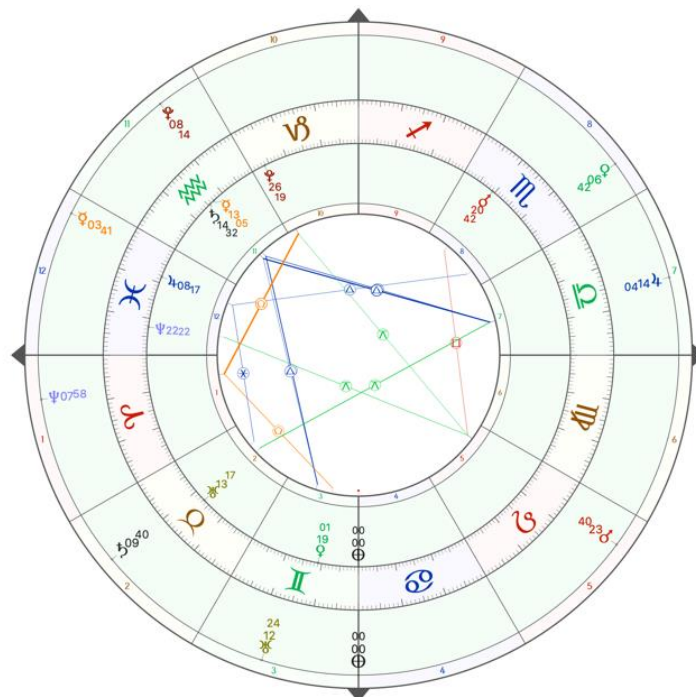

1) **Neptune-Uranus Cycle: *The square in the circle***
 – the cycle that frees the *solar Communion and Order*.

The sacred Luminaries Neptune (6th Ray on 7th Orbit) and Uranus (7th R. on 6th O.) establish the solar field and scene, renewing with their synchronized powers and motions the cornerstones and rules of the Solar Community and Hierarchy, according to the 4 beats of their Cycle inscribed in the Zodiac.

We are currently driven by the wind of the Neptune-Uranus conjunction in Capricornus in **1993** (Goal 1.7 in the planetary Plan), a causal impulse of new initiatory Works under the banner of the Solar Community and Rules. In the 20th century their simultaneous motion broke the stiff forms of the previous cycle and dissolved conventions, customs and habits; now, after the shattering part of the action, Neptune helps the new social combination whilst Uranus consolidates the new rules of general cohabitation. The energies freed by this composed Cycle *descend from the Summit to rearrange the planetary Societies*.

The 6th septennium (2022-2028) in its ascending phase will again see Neptune in *His Sign Pisces* (2nd-6th Rays), the Sign of the Savior (from 2011-Goal 4.4), and then in Aries (1st -7th R.) in the descending phase, marking 2025 (Goal 6.4) as an initiatory watershed marked by its conjunction with Saturn at the very beginning of Aries (and on the position of the native Neptune of the Unification of Italy in 1861): *planning the new world Community and the intelligent planetary Communion* resonates as primary and imperative.

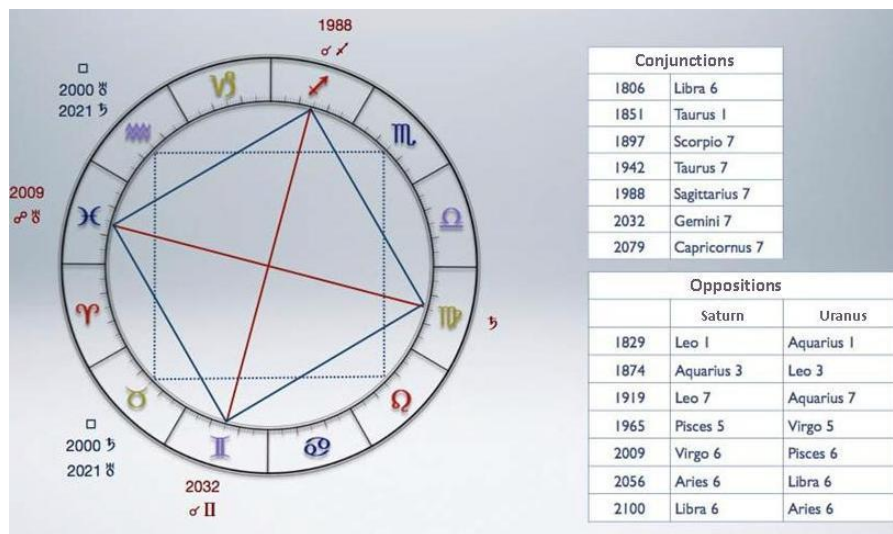

Heliocentric chart - Inner wheel: Beginning 6.1 - December Solstice 2021 | Outer wheel: beginning 7.1 - Dec solstice 2027

In the 6th septennium, *Uranus* flies from the center of Taurus to the center of Gemini, also affecting a primary cosmic direction *at the center*: in 2025 it will in fact be conjunct the Star [Alcyone](#) of the [Pleiades](#) (see below and in: [The Seven Steps towards 2025](#)), indicated as the

pivot of the local universe, of the higher cosmic System (the *Seven Solar Systems* of which ours is a part).

2) **Uranus-Saturn Cycle**: *The cross in the circle – the cycle that gives the Rules of Synthesis.*

The “two Luminaries of the Battle”, the solar Organizer (Uranus) and Planner (Saturn), trace through their progressive angular relations the quaternary figure once again, but in the shape of a cross, since the two following similar aspects (for example two conjunctions) occur in opposite Signs, ‘piercing’ the center.

Their opposition in 2009 (Goal 2.4) between Pisces and Virgo worked as a watershed between the conjunctions of 1988 (1.2) in Sagittarius and of 2032 in Gemini (7.4), all Signs of Mutable Cross, or of changes. As a propeller, the Mutable Cross moves and feeds the new rules of the Heart, the center of the cross of life: *Synthesis is obtained at the Center between opposites and “currently” through unceasing motion, transformation and research.*

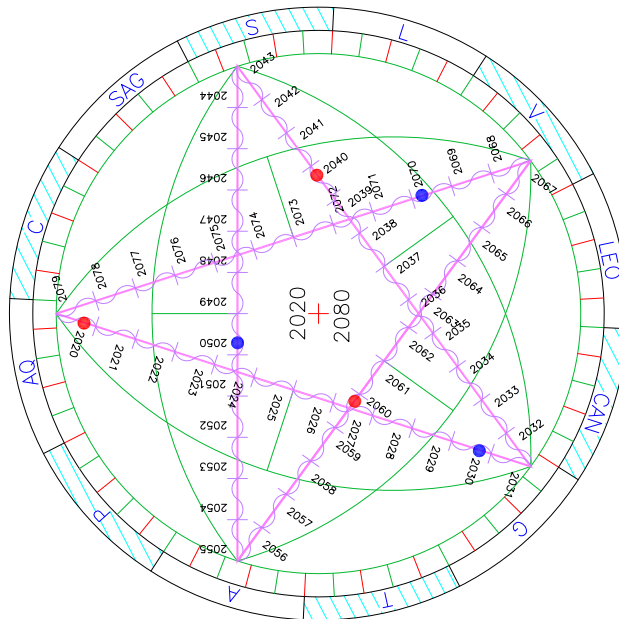

In the 6th seven years, while *Uranus* flies between Taurus and Gemini, *Saturn* completes a quarter of a turn (90°) touching 4 Signs, from the center of Aquarius to that of Taurus. The two *Crusaders*, given their initial squaring (throughout 2021 and until January 2022), intensify the relationship between the planetary Heart Center (the Hierarchy, ruled by Aquarius) and the Ajna Center (the New Group of World Servers, ruled by Taurus). They are the Guardians of the Plan of Love and Light ruling Humanity (the planetary Throat Center, ruled by Pisces), who willingly absorbs this *rebalancing tension* at the cost of tremendous sacrifices under the formal and social aspects.

3) **Saturn-Jupiter Cycle**: *The six and five pointed stars – the cycle of the Plan and of solar Consciousness.*

The third Cycle, composed of *Saturn* (3rd R on 5th O.) and *Jupiter* (2nd R. on 4th O.), carves and sets up the *Plan of solar Consciousness* according to the sacred psycho-geometries of the [six- and five-pointed Stars](#) that form every 60 years.

In the new *Star of Creation* inaugurated by the grandiose [Jupiter-Saturn conjunction in Aquarius](#) at the end of 2020 (the 1st, from 1404, in resonance with the rising Era), the orientation of the Solar Plan for the next 12 years (first side of the Star 5-pointed until 2032-7.4: the first of the 5 orientations of Saturn in the circles of Jupiter) is towards the Sign of *Gemini*, the 2nd

Ray Magnet that holds the 2nd Mystery of *Polarity* of the Solar System, therefore the Source of Christic relationships, of *love-wisdom*.

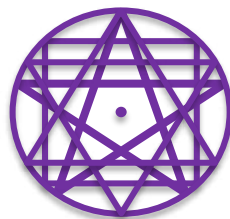

The Magnet of the solar Christ (veiled by Neptune and Jupiter so powerful in Pisces at the beginning of the seven years) as *the initiator of humanity to right relations* is the beacon that calls and guides to the central Truth of universal Brotherhood: "*There is no Religion higher than Truth.*" (H. P. Blavatsky)

This is the truth of the Soul, of the fusion of opposites, Spirit and Matter, Life and Appearance.

At the fiery center of this first orientation of the Star of the Plan and at the center of the Sixth seven years, there is the fateful date of **2025 (6.4)**, foreseen as the deadline of the Centennial Conclave of the Hierarchy and the center of the current 49-year Cycle of the Masters of 6th initiation (2001-2049), in which it is reported that the evolutionary directions for the planet will be decided.

4) **Venus-Mercury Cycle:** *the updating factors* of the Plan. The divine Hermaphrodite is the reflection of the Saturn-Jupiter couple; due to their greater 'frequency', they are intended as *updating factors*, curators in the details of the setting up and golden construction of the Plan. They are the Luminaries representing the Rays between which "creation plays" (4-5), the Rays of the human Kingdom.

They will therefore be treated in the readings of the Cross in the Circle of the solstices and equinoxes of each year (in [The Signs of the Heavens](#)), as well as the main aspects of the other intermediate compound Cycles.

Now we trace the synthetic features of each year of the 6th septennium:

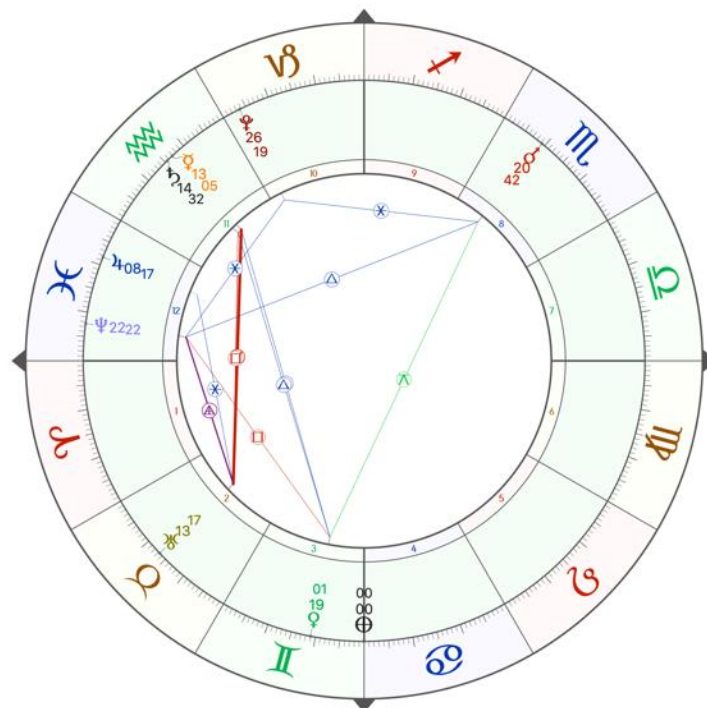

1 – PURPOSE - Goal 6.1

ESOTERICISM OF THE NEW WORLD RELIGION (2022)

I call to the central Truth

The Goal 6.1 *Esotericism of the new world Religion* opens the sixth septennium and proposes a change of energy and horizon; in the aftermath of the fifth septennium in which the constructive force of the 5th ray has sown in the Space of human consciousness the vision of a New Culture, the distant Goal that the inner eye is now preparing to contemplate is the *New World Religion*.

The 1st year of the 6th seven years specifies the *Esotericism of the New World Religion*, and is ruled by **Neptune** and **Vulcan** (and **Pluto**).

Solstice 21st December 2021 h 4pm UT

The exceptional position at the solstice of Neptune in 6th *quality/sector* (at 22° 22') of Pisces (which transmits the 2nd and 6th Rays) enhances even more in the consciousnesses the **6th Ray** of Abstract Idealism and Devotion, in sunset with the waning of the era of Pisces but more and more powerful at an inner level: the 6 *saves* by bringing back to 1, to the Essence, to the initial Purpose, reuniting in circles more and more consecrated to the common, all-pervading Root.

Vortex 6.1 (especially in the days of the directions between Sun/Vulcan, Earth and Neptune: March 13 and September 16) clearly indicates the direction: it is necessary to assert **Communion**, the basis of the *New World Religion* (Goal 6.6-2027) and vital matrix of the *Restoration of the Mysteries* (Goal 1.1-1987).

The 2nd Ray of Pisces is also enhanced by the initial position of Jupiter in the 2nd quality of the Sign (it will pass into Aries on 17 August 2022).

Jupiter-Neptune conjunction (Rays 2-6): June 6, 2022

In the Heavens, the two *great Mothers*, Jupiter and Neptune, from the very deep Waters of Pisces graft into the depths of consciousness that seed of *saving force* which will strip off its material bark in order to progressively reveal to the Hearts the *solar Christ*, the Truth of *right systemic relationships*, of Unity in Father, in Spirit:

Communion is Being.

*

The quadrature persists between Uranus in Taurus, the Sign that rules the planetary Ajna Center, that is, the *New Group of World Servers*, and **Saturn** in Aquarius, the Sign ruled by Jupiter and associated with the planetary Heart Center, the Hierarchy. This relationship between the two *Planets of the Battle* is the most problematic but also the most dynamic aspect before 2025 (Goal 6.4).

Uranus heliocentrically touches the Center of Taurus (the *zodiacal 'equator'* together with Scorpio: they transmit the pure 4th Ray) on May 23, 2022:

From chaos to Beauty: all is Light!

The Form aspect is crucified to be reorganized according to the higher Will, according to spiritual values. The square between Saturn-Aquarius and Uranus-Taurus crucifies personal freedom to serve the insurgence of true Individuality, that King Server of the *collective Individuality*, of the Monad or Spirit of the One Humanity. And this can happen only through the *Light of Group consciousness* (Taurus-Aquarius relation), the union on the abstract mental plane:

“The new structure will rise. Men of goodwill everywhere, under the guidance of the New Group of World Servers, will organise themselves into battalions of life, and their first major task must be the development of right human relations, through the education of the masses. This means the paralleling development of an enlightened public opinion, which is (speaking esoterically) right response to the sound which conveys the will of God to the ears of the attentive. Then humanity will indeed move outward from the desert, leave the seas behind, and know that God is Fire.” (A. A. Bailey, *Rays and Initiations*, Lucis Collection, p 88)

Finally, we find the Destroyer Pluto (1st R. not sacred) in the substantial waters of *Capricorn*, now close to the last degrees of the Sign: from this zodiacal seat the Luminary radiates sparks of Will recalling the consciences to their primary Purpose and reminding them that "*the only Way is the vertical one*", the Hierarchy of Being.

*

The year 6.1 is the Voice *calling to the central Truth*: The *Return to the Father's House* foresees the realization of the *One-Humanity*, of the *hierarchical Humanity*, the ever-higher synthesis between the three planetary Centers (Shamballa-Hierarchy-Humanity) so that their fused energy, the *saving force*, will in due time³ precipitate Communion, *Brotherhood*, the primary Idea of the New Era, of the New Culture, of the New world Religion.

The *Group*, the group consciousness, is therefore called to synthesis, to the essence, to the initial Purpose, to value the treasure of knowledge and experience acquired, so that the realized grains of Wisdom or Truth can act as magnets of the new human systemic Community: the 49 Vortices of the *Planetary Order Prototype* are the ideal living Model *to call to the central Truth*, to orient the human group to develop within itself the *systemic consciousness*, those *right human relationships* that will precipitate the Idea of Brotherhood on Earth.

2 – THE FIELD - Goal 6.2

SPACE. INFINITY. BASES OF THE NEW RELIGION (2023)

I guard the sacredness of Communion

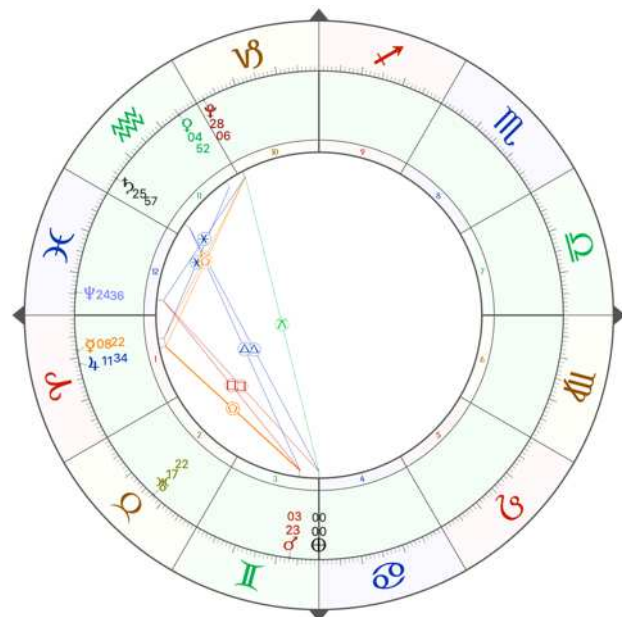

The year 6.2, ruled by Neptune and Jupiter, constitutes, together with Vortex 2.6 (*Science of Spatial Relations - Astrology*), the polarity of "two eyes" or symmetrical centers with respect to the central diagonal of the Lambdoma; they both have Jupiter in Aries, the First Sign, as at the beginning 1.1-1987, at the 4.4 *center of the centers* (2011) and at the end 7.7-2035 of the first 49 years cycle of activation of the Plan.

Aries is the energy that the Master of the solar Space uses to expand consciousness towards the Mysteries, the Hierarchy, the Restoration of the Plan, Astrology and, now, towards *the sacredness of Communion*, advancing and governing *from the plane of the mind*. The Electric Fire of Aries *sacralises Space* and clarifies *the infinite foundations* of the New World Religion:

“A dominant feature of the future religion (and its glory) will be the cult of Space, recognized as divine love, and of Light, understood as divine intelligence. And this not merely in a symbolic sense, but starts from their physical manifestations. This will be the real revolution in the religious approach.” (From [Asserting the Planetary Plan](#), Goal 6.2)

Jupiter then heads to Taurus on 10 July 2023 towards the encounter with Uranus, while Saturn from Aquarius enters Pisces on 29 April, gradually approaching the God of the Waters Neptune, thus offering humanity opportunities for salvation from the astral plane.

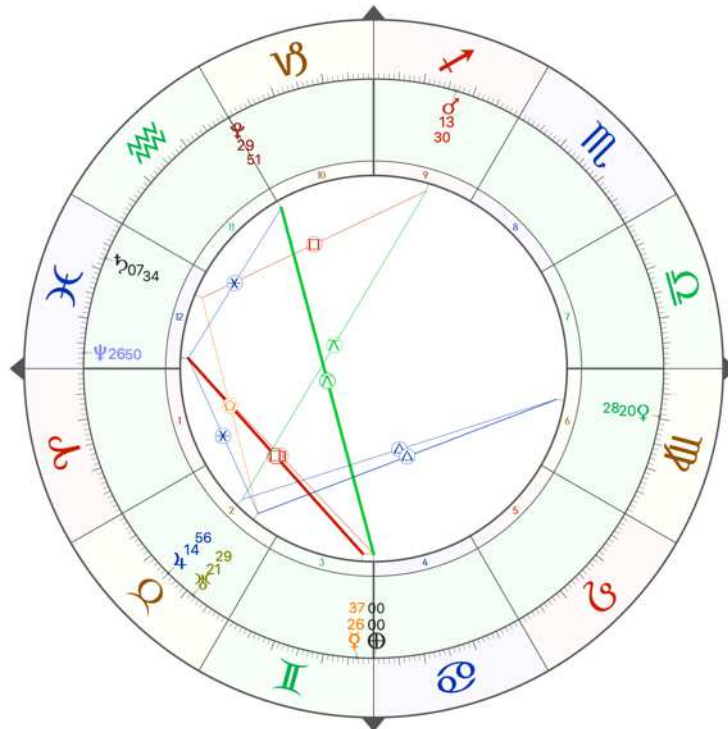

Solstice 21st December 2022 h. 9.48pm UT

3 – PLAN - Goal 6.3

COMMUNION WITH THE WORLD OF IDEAS (2024)

I compose the ideal Formulas of the Plan

“The unifying power of the 6, without impeding the upward force of Ideas and their productions, guarantees unity of everything and thus access to any of them. In other words, the world of Ideas generated by the 3 is held together by what they have in common.” (From “[The Distant Goals – compendium 2017](#)”, Goal 6.3)

Solstice 22 December 2023 h. 3.27am UT

The *third* year of the *sixth* septennium, dedicated to recreating or reformulating the unified and unifying power of Ideas, is ruled by **Neptune** and **Saturn**, now both in the primordial substance of *Pisces*. The Light of Truth (Saturn) bursts into the waters of Pisces and dissolves all glamor, while the saving force of Neptune, Lord of the solar Communion, dissolves all resistance and brings back to the One what was dispersed and separated.

The major compound cycle between **Neptune** and **Uranus**, starting from the conjunction in *Capricorn* in 1993, finally sees them proceed in a *collaborative* sextile aspect between *Pisces* and *Taurus*: the even Rays transmitted by the two Signs, as well as their common 1st Ray aspect (for their rulers Vulcan and Pluto), allow the two solar Custodians of the hierarchical Community to lay the initiatory foundations of the new Religion of Heaven in the *Communion with the World of Ideas*.

This year 6.3 sees Jupiter heliocentrically join Uranus on March 14, 2024: the two Luminaries of the *beneficial fulfillment* meet in the germinating waters of Taurus to fertilize consciences with the Light of Revelation, favoring harmonious communion with the Fiery World.

“Uranus, the planet of the hidden mystery and one of the most occult of the planets "falls" in this sign, producing the accentuation and the sharp division between body and soul (...). The task of Uranus, hidden in the depths, is to awaken and evoke the intuitive response of Taurus to an ever-increasing light until such time that full illumination is achieved and also the development of the spiritual consciousness—substituting these higher soul aspects for the lower form reactions. It is interesting to note that in Scorpio, Uranus is exalted which gives indication of the success of the task which the Uranian forces undertook. Achievement is attained.”⁴

Then, the space Magnetism of Gemini (Jupiter enters it on June 6) intensifies the invocation and evocation capacity of the Group to investigate the keys and laws of the World of Ideas.

Pluto, after 16 years in Capricorn, finally enters Aquarius on January 22, 2024, awakening movements of independence to be directed from the egocentric sphere (self-will) to group consciousness (One Humanity); it will stay in this Sign until July 2043, imprinting the *footprints* of the New Era in the depths of consciousness and subverting the 'little human wishes'.

4 – MODEL - Goal 6.4

RELIGIOSITY AND INTELLIGENT COMMUNION OF ART (2025)

I reveal the Art of Union

Year **2025**: *Incipit Vita nova! A new Life begins!*

This fundamental hierarchical Date is colored, in the goals of the Plan, by the Rays 6 and 4 of **Neptune** and **Mercury** that hold up this peak Goal of the 6th Septennium, as well as the Rays of the Italian Nation, which sees Neptune's 'first birthday' in 2025 on its native position in the horoscope of the Unification of Italy (March 17, 1861), magnifying the 6th Soul Ray of abstract Idealism: the fiery Thought (which connects to the World of Ideas) will, to a certain extent, be expressed *artistically* through the creative imagination and the construction of saving Forms, in group formation.

Even the 4th Ray, rising from 2025, is powerful, exalting the Mystery of Beauty and Art as "the only vital means of the new Culture" and "the great hope of the harmonious union of mankind, and between this and the other kingdoms of nature".

At the center of the fourth year, *the motion of the activities is reversed*. For the outflow of energies, the direction of the Sixth Energy is oriented to the world of forms and forces. *Space has now reached a certain degree of saturation, and formal precipitation is about to begin: "the powers produce precipitates"*.

“What the ONE wills and the 2 loves and the 3 plans is reflected by the 4, and it is Art. It is the Art of living, the highest art of all. Man is called to make a work of Art of his existence, in the broadest and most complete liberty. As it flows from the Centre, it involves and transforms every action and is present and active in all approaches. (...) The 6 presides over this interval and it is not simply sentiment but controlled desire for creative joy, for general, super-intelligent communion. It leads to the supermundane, which is accessible to man.

One day, along these paths, it will be understood that the pure principle of Art is far more powerful than today's politics and armies (...) The Light of Art is the clearest. Nothing reveals the imperfect, the incorrect, the weak, the inexact and the false better. The work of art, whether expressed in an object or thought in the heart, is a truth, and in its light the modern, sometimes insane and gloomy conceptions vanish (...). Art is therefore the great hope for the harmonious union of the human race and between this and the other kingdoms of nature. What never was achieved with weapons, the goal not reached by fighting religions, the missed objective of all kinds of ideologies, will be reached by Art and secret Muses who inhabit the spaces and treasure their immensity.” (From “[The Distant Goals – compendium 2017](#)”, Goal 6.4)

The [steps](#) have been taken.

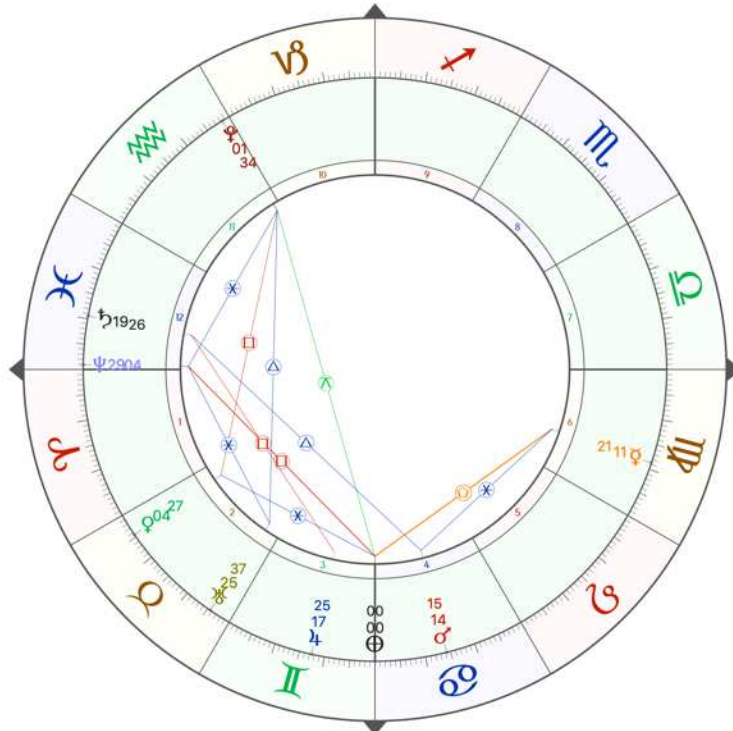

Consciousness is activated and radiating.

From the place of Fire, the Model is contemplated and reflected.

The sacredness of Space has revealed the *Art of Union*, the Communion of Being.

And, symmetrically, even the Art of Heaven seems to present itself to our eyes in a new guise, even more ardent, more penetrating, more intimate.

Our eyes contemplate even more boundless and cosmic visions, no longer held back by the ring of the solar system.

Solstice 21 December 2024 h. 9.20am UT

Jupiter in Gemini squares up to Saturn in Pisces on January 27, 2025, bringing to fruition in the consciences the impulse emitted at their epochal [conjunction in Aquarius 2020](#): Brotherhood, right human relationships, intellect of love.

It then enters Cancer on May 16, 2025, reaching the Cosmic Heart **Sirius** at the end of 2025.

Jupiter-Sirius conjunction: November 3, 2025

Jupiter, Solar Heart, and Sirius, Cosmic Heart, unite: the planetary Heart, the Hierarchy, expands its magnetic and attractive power towards cosmic Love through the mediation of the solar Heart, and the *human Planetary Order*, causal seed of the future hierarchical Humanity, accords its pulse to that of the Cosmos.

In this *hierarchical* year, there is also the cosmic alignment

Sun-Earth-Uranus-Alcyone: November 22, 2025

Uranus, Consort of the Earth-Gaea, is our *Cosmic Attractor* and the Solar Hierophant, while the star Alcyone of the Pleiades is the Origin, Heart and pivot of the seven Solar Systems, a primary star connected to Aquarius, our next evolutionary horizon, and to 'Individualized' Service, in the sense of responsibility and awareness. The Sun, therefore, through the viewfinder of the Earth and Uranus, is one with this supreme Origin and together they can contemplate infinity.⁵

The year indicated as the beginning of the *Externalization of the Hierarchy* closes with the meeting between **Saturn and Neptune (3rd-6th Rays) at the incipit of Aries on 11 December 2025** (Saturn enters the electric Fire of *Aries* on 4 November and Neptune on May 23, 2025). The Light of Truth, Saturn, and the living Communion, Neptune, strengthened by the initiating and renewing power of Aries, illuminate and renew all the 'fields' bringing them together, thus offering, on a human level, the impulse for the birth of enlightened and collaborating communities that consciously work for the foundation of a New Culture and Civilization and a New World Religion.

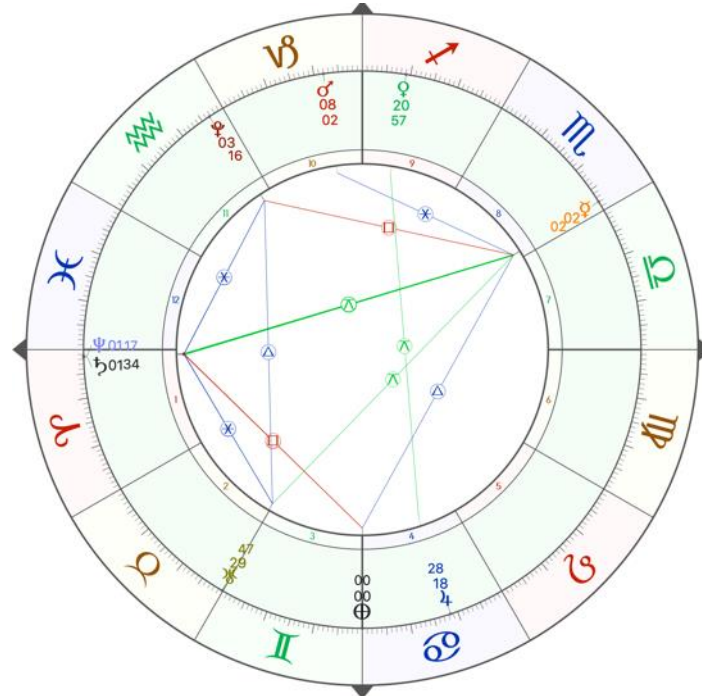

Nothing will ever be the same again.

5 – MANIFESTATION - Goal 6.5

COMMUNION OF WORK. THE BOOK OF THE SYSTEM (2026)

I penetrate and elaborate the eternal Symbols

Solstice 21 December 2025 h. 3.04pm UT

Jupiter transits Cancer and Leo (enters May 12, 2026), while the conjunction of Saturn and Neptune dominates the field from the initiatory incipit of Aries, and Uranus enters heliocentrically in Gemini on January 9, 2026 (**Sun-Uranus-Alcyone** alignment is on 9 February 2026).

Everything is new after the watershed of 2025, and a new Relation between Form and Essence must be established as the basis of the new Revelation. **Neptune** and **Venus** govern this Goal, which unites *the reader with the writer*.

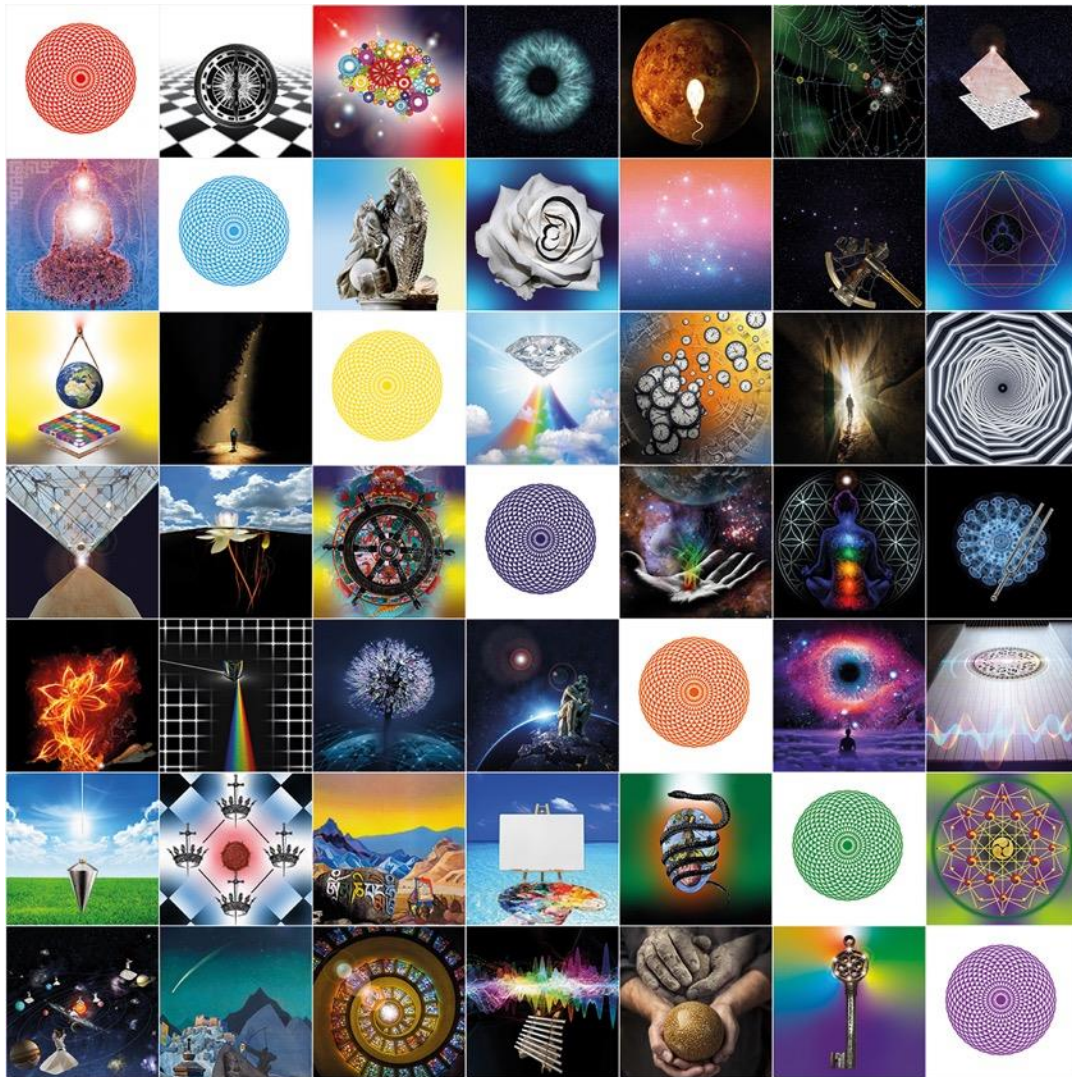

Each of us is an author of the Book of Infinity:

“Man’s search is dedicated at the beginning to form, which is for a long time understood to be the only reality, then is recognized as illusion and is finally lived in its essence. Through the sublime and reciprocal play of two energies which are contrary yet collaborating (5 and 6), consciousness eliminates all boundaries and lives free and active in any external condition.

“In the light projected by this Vortex, the System writes its Book, in which the most minute events and the highest thoughts, visions, sacrifices are recorded. In its many pages the lines of the mental drawings of the Group and the progress towards the Goals are traced and changed (...). It is like Nature. Everything that is a sign can and must be read, while it changes by illuminating the other signs and all the pages. Thus reading, little by little the text is simplified, becomes clearer and finally transparent, and the Book, the pages, the signs vanish.

The Vertex 6.5 must therefore learn to read and write, in this order. It is in fact right that the System, like any creature, first learns from the signs of others and only afterwards traces its own, for other readers.” (From “[The Distant Goals – compendium 2017](#)”, Goal 6.5)

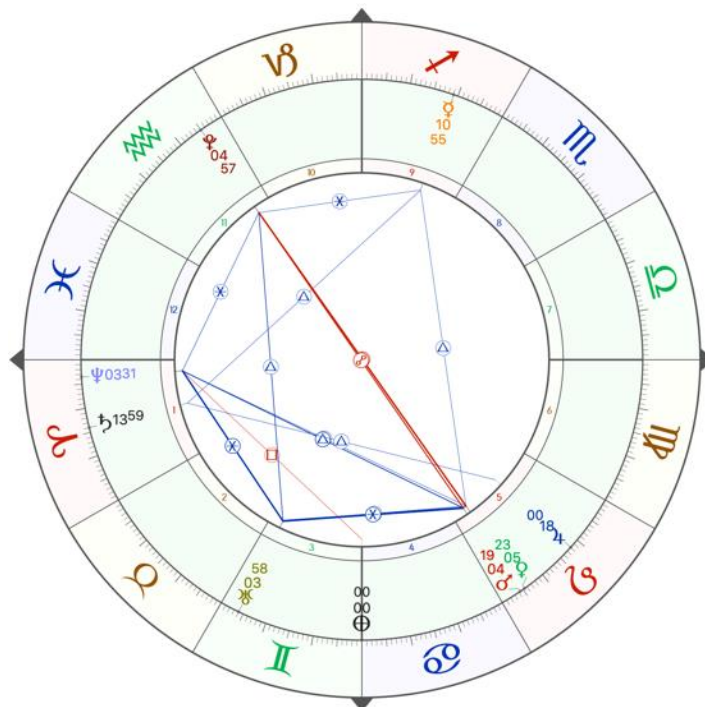

The Planetary Order Prototype reads Heaven and writes a new page on Earth.

6 – COMMUNITY - Goal 6.6

NEW WORLD RELIGION (2027)

I GUIDE BACK TO THE CULTURE OF HEAVEN

Solstice 21 December 2026 h. 8.51pm UT

The primary Goal **6.6** of the septennium sees its Prototype and Custodian **Neptune** in the *sea of initiatory fire* of Aries.

Jupiter in Leo (enters Virgo on May 24, 2027), together with the strong initial opposition between Pluto from Aquarius to Mars and Venus in Leo, represents the polarity of the new Era between self-consciousness and group consciousness, between free will and the will to serve.

In the year 6.6 the human *Planetary Order Prototype* asserts and impress the primary Idea of Brotherhood, to nourish the gestation and birth of the inner Christ in the heart of humanity:

“(…) in the new world order, spirituality will supersede theology; living experience will take the place of theological acceptances. The spiritual realities will emerge with increasing clarity and the form aspect will recede into the background; dynamic, expressive truth will be the keynote of the new world religion ... Only those will remain as guides and leaders of the human spirit who speak from living experience, and who know no creedal barriers; they will recognize the onward march of revelation and the new emerging truths. These truths will be founded on the ancient realities but will be adapted to modern need and will manifest progressively the revelation of the divine nature and quality. God is now known as Intelligence and Love. That the past has given us. He must be known as Will and Purpose, and that the future will reveal.

(…) It is for humanity to solve its serious problems on the basis of brotherhood, and so bring in a way of living which will provide adequate supply of the necessities of life through the proper organising of time, labour and goods. This will lead to an interplay between the citizen and the state which will evoke the service of the individual and the right protection of the state. Humanity will then be free for the experiment of spiritual living, and this will express itself through awakened

human lives. Can more be asked for or expected than this? Such a way of life can be made possible if the men and women of goodwill, of intelligence and of idealism can begin the task of inaugurating the new world order.” (*Externalization of the Hierarchy*, p 201-3)

“Steadily and as a result of the work of the New Group of World Servers, humanity is awakening to the possibilities ahead. The awakening of the intelligentsia in all countries to the recognition of humanity is a prelude to the establishment of brotherhood. The unity of the human family is recognized by man, but before that unity can take form in constructive measures, it is essential that more and more of the thinking men and women throughout the world should break down the mental barriers existing between races, nations and types; it is essential that the New Group of World Servers should itself repeat in the outer world that type of activity which the Hierarchy expressed when it developed and materialized the New Group of World Servers. Through the impression and expression of certain great ideas, men everywhere must be brought to the understanding of the fundamental ideals which will govern the new age. This is the major task of the New Group of World Servers.” (*Return of the Christ*, p 184-5)

“The new religion will be one of Invocation and Evocation, of bringing together great spiritual energies and then stepping them down for the benefiting and the stimulation of the masses. The work of the new religion will be the distribution of spiritual energy and the protecting of humanity from energies and forces which they are not, at the particular time, fitted to receive (...) The new world religion must be based upon those truths which have stood the test of the ages (...):

1. The fact of God (God Transcendent)
2. Man's relationship to the divine (God Immanent)
3. The fact of immortality
4. The Brotherhood of man (God in expression)
5. The existence of the Way to God
6. The historicity of the two great Approaches and the possibility of a third and imminent Approach.” [Buddha, Cristo, Maitreya] (*Externalization of the Hierarchy*, p 400-415)

“One would not be able to describe the specific lines of the new religion, different among the various peoples, but the pure and elastic *Neochristianism* will adapt to the most diverse circumstances, without oppressing or forcing. The same can be said of the new social institutions, no longer closed in ideological schemes but freely marked by the Common Good, in the most varied forms.

Humanity is about to emerge. It is about to enter a different, clearer and more promising phase. It is not yet full daylight, but everything heralds the rising of the sun.

These radical changes can be said to be certain, but they will certainly meet the ferocious intransigence of conservative forces. Here the subjective service of the Group comes into play, called to exercise its inner power in favor of social and religious renewal (...).

Neo-christianism is not just a new religion: neither was the old one. It is about the whole life, be it single or associated. It applies the art of living, in joy and love. It concerns society, and is governed by the cycle of Uranus and Neptune, the builders of the celestial City, on the ecliptic plane. Religion, society, culture and civilization are related and interdependent concepts, with continuous exchanges of energies, and constitute the square City.” (From: E. Savoini, “*Setting up a Plan*”, unpublished text).

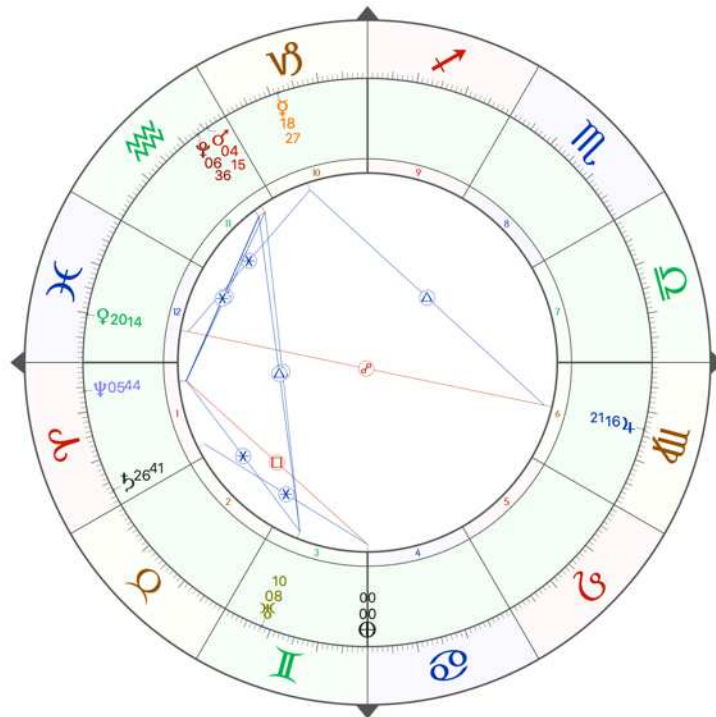

7 – ORDER - Goal 6.7

HIERARCHY OF THE COMMUNITY (2028)

I stand for the Law of right relationships

The final year of the 6th septennium sees its Custodian (**Neptune**) in Aries, in a fluid and collaborative relationship (sextile) with **Uranus** (starting from 2024, peak in 2026), Pluto and Mars.

6.7 is the link between the 6th and 7th seven years periods, which on a macrocosmic level corresponds to the passage between the 6th and 7th Rays active respectively in the eras of Pisces and Aquarius.

Solstice 21 December 2027 h. 2.43am UT

Jupiter in Virgo (enters Libra on June 19) and Saturn entering Taurus (March 24, 2028) also support the construction of *love and light* of the nascent Community, based on right human relationships.

The new world Community will be founded on the hierarchical principle of collaboration and coordinated cooperation for a common Purpose and Good:

“This meeting of energies, one which (6) passes over the form in search of the inner sense as the other (7) refines the form to release its secret, is the symbol of intelligent, scientific and proportioned collaboration which is the basis of social life. (...) the start of the Age of Aquarius, sign of community and service (...) proposes again the value of 6 in another dimension (...) the disappearance of the 6 from manifestation does not imply its spiritual and interior silence. In this regard, and for this reason, a resurgence of attention for interior communities, those of consciousness which are the real basis of exterior societies, is to be expected.” (From “[The Distant Goals – compendium 2017](#)”, Goal 6.7)

Synthesis is played between 6 and 7.

¹ See the basic text: [Asserting the Planetary Plan](#) on the [Documents](#) of [TPS](#).

² “Brotherhood, as it essentially is, constitutes a major mystery, ...you understand brotherhood in terms of the One Father and His children. That understanding is in itself so limited and inaccurate that it serves mainly to distort the truth; yet all that you can grasp at this time is embodied in this concept. The nearest description of the true relationship might be said to be as follows: Brotherhood is an expression of the relation which the planetary Logos (on the cosmic mental plane) bears to His Personality as it expresses itself through the planet with all its forms of life, upon the cosmic physical plane; this relationship is focussed through Sanat Kumara Who is the individualised Mind of that great Life. ... It is this basic idea which governs the Council Chamber at Shamballa and which constitutes the motivating impulse behind the planetary expression of livingness. It is this also which characterises the ideal for which the Hierarchy stands and which implements the Plan; it is this spiritual planning which results in the growing "forms of relationship" which today seem to be taking definite shape in the concretising of the divine project: Right Human Relations.” (A. A. Bailey, *Rays and Initiations*, p. 276-7, Lucis Collection)

³ The precipitation on Earth of the Idea of Brotherhood is expected for the 3rd decanate of Aquarius, in 1400-2000 years.

⁴ A. A. Bailey, *Esoteric Astrology*, p. 400-1, Lucis Collection.

⁵ “Aquarius relates humanity to the Pleiades and therefore to Taurus in an unusual manner. The key to this relation is to be found in the word desire, leading, through the transmutative processes of life experience, to aspiration and finally the relinquishing of desire in Scorpio. Aquarius, Alcyone and Humanity constitute a most interesting triangle of force. Alcyone is one of the seven Pleiades and is called the "star of the Individual" and sometimes the "star of intelligence." It was potently active during the previous solar system wherein the Third Person of the Trinity was peculiarly omnipotent and active, just as today the cosmic Christ, the Second Person of the Trinity, is peculiarly active in this solar system. The energies coming from Alcyone impregnated the substance of the universe with the quality of mind. As a consequence of this most ancient activity, the same force was present at the time of individualisation [21 million years ago] in this solar system, for it is in this system, and primarily upon our planet, the Earth, that the major results of that early activity have made themselves felt. Two of our planets, the Earth (non-sacred) and Uranus (sacred), are directly the product of this third ray activity. This is of great importance to remember. I would also ask you to link this thought with the teaching that through the divine centre of intelligent activity which we call humanity, the fourth kingdom in nature will eventually act as the mediating principle to all the three lower kingdoms. Humanity is the divine Messenger to the world of form; it is essentially Mercury [4th Ray associated with the 4th Human Hierarchy], bringing light and life to other divine manifestations and of this all divine world Saviours are the eternal symbols.

This coming process of planetary service through the third divine centre is only truly effective when Aquarius rules and when our sun is passing through that sign of the zodiac. Hence the immense importance of the next 2000 years. Therefore, only when a man is a world server and becoming group conscious can this desired objective of manifestation begin to demonstrate. It is beginning to happen today for the first time in planetary history. It is one of the first fruits of initiation and only in the next root race to our present Aryan race will we begin really to understand the significance of the process and the true nature of the energies to be released through the medium of humanity upon the planet. It is for this reason that Jupiter and Uranus (expressions of the second and the seventh rays) are the exoteric and esoteric rulers of Aquarius.

You have, therefore, the following line of force to study:

1. Alcyone—in the Pleiades, the mothers of the seven aspects of form life and the "wives of the seven Rishis of the Great Bear." They are connected with the Mother aspect which nurtures the infant Christ.
2. Aquarius—the World Server, the transmitter of energy which evokes magnetic response.
3. Jupiter and Uranus—planets of beneficent consummation. The second ray of love and the seventh ray which fuses spirit and matter "to the ultimate glory" of the solar Logos are in the fullest eventual cooperation.
4. Humanity—the focal point for all these energies and the divine distributor of them to individual man and later to the lower three kingdoms in nature.” (*Ibidem*, p. 200-1)
