

DSM

5HP 7.5HP 10HP 15HP

**ROTARY SCREW COMPRESSOR PACKAGES
BY DEVAIR**

- Fully engineered integrated package including rotary screw compressor, refrigerated dryer and ASME air receiver
- 100% Continuous duty operation
- Minimal noise level (62 – 68 dBA)
- Excellent air quality with built-in dryer
- Zero loss auto drain
- High-efficiency rotary airends
- Small footprint
- Vibration-free operation
- Quick installation

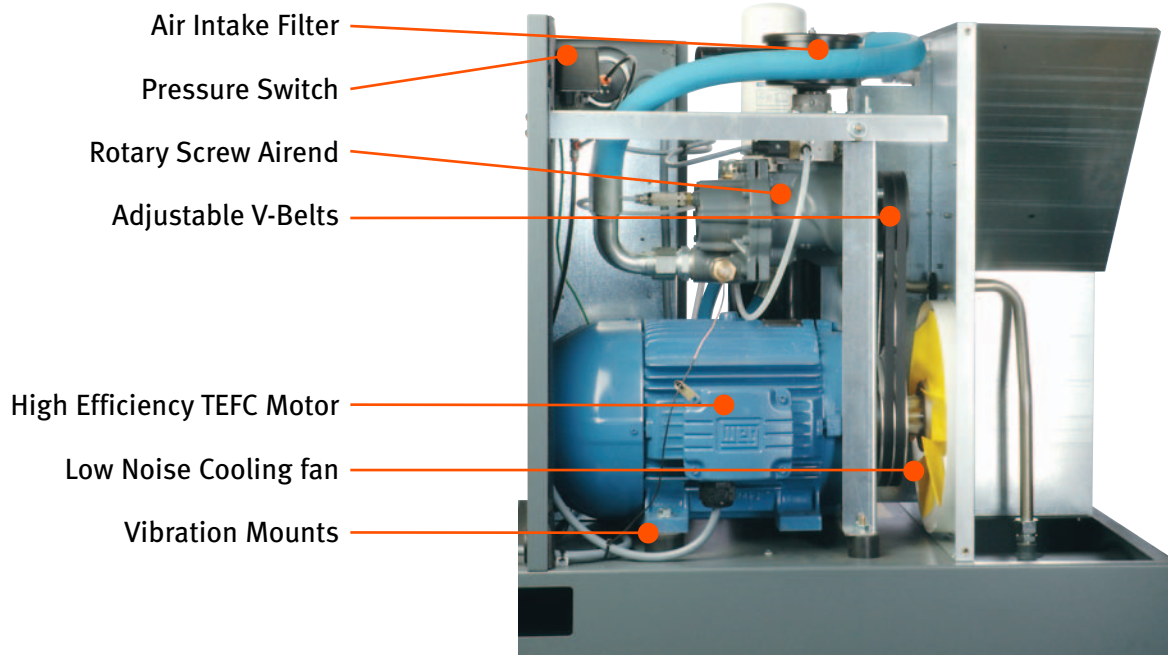

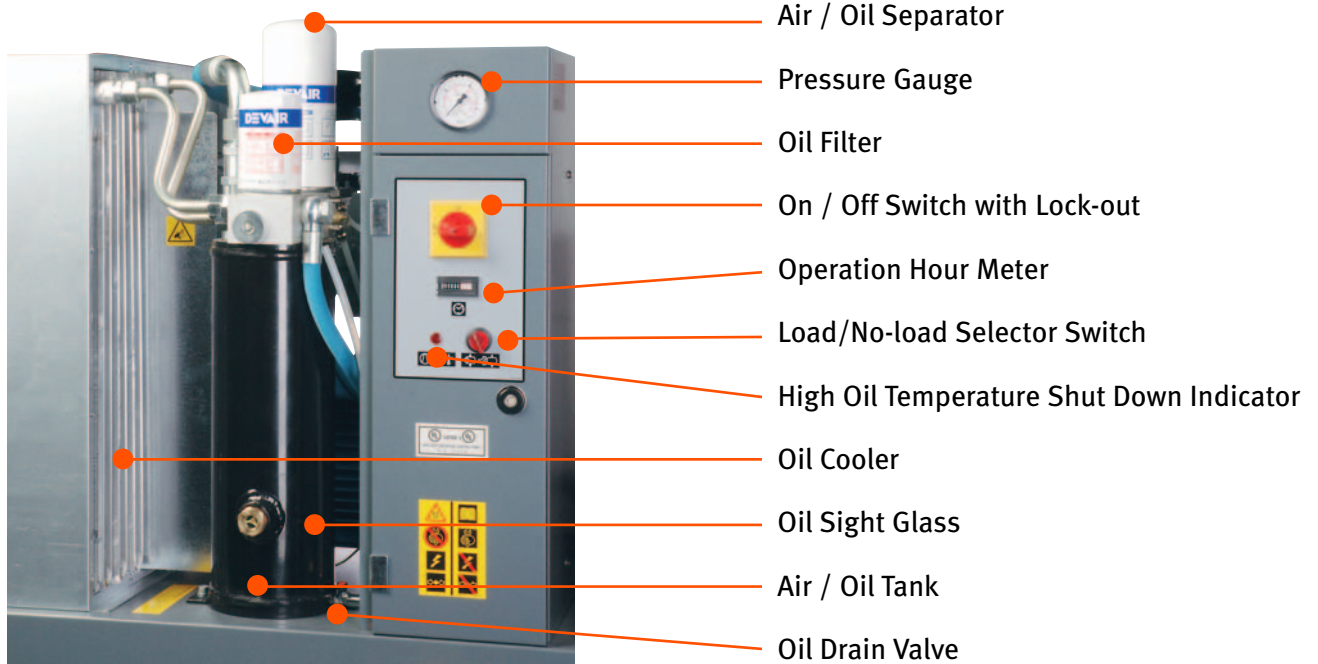

AIR COMPRESSORS YOU KNOW YOU CAN TRUST

5HP 7.5HP 10HP 15HP

ROTARY SCREW COMPRESSOR PACKAGES BY DEVAIR

Tri-Voltage 3-phase motors 208V-230V-460V

DSM ROTARY SCREW COMPRESSORS

- Industrial rotary screw technology
- Optimum performance
- High reliability
- Long lifetime
- Reduced maintenance requirements

DSM compressors are totally integrated, which translates into low pressure drops, reduced possibility of leakages and low installation costs.

DSM industrial rotary airends are designed for 100% continuous operation and manufactured according to the highest quality standards.

DSM precision engineered high-efficiency airends and a high efficiency TEFC motors allow a lifetime of low-energy consumption and high air delivery.

To save energy, the compressor automatically shuts down when compressed air is not required.

Compact design and very low sound levels allow the DSM to be installed anywhere in the shop.

THE DSM COMPRESSOR WITH INTEGRATED DRYER AND AIR RECEIVER is the perfect solution in applications where reliable, condensate-free compressed air is required.

INTEGRATED DRYER AND AIR RECEIVER

- Provides condensate-free compressed air
- Significantly prolongs equipment life
- Improves quality of compressed air
- Requires no additional installation space
- Cuts installation costs
- Uses environmentally friendly R134 gas
- Equipped with zero loss auto-drain
- Dew point level indicator
- ASME and CRN registered air receiver

Low sound enclosure makes DSM units ideal for installations where compressed air and low noise levels are required.

DSM compressors deliver cool and dry air with low dew point levels.

FULL 1 YEAR WARRANTY!

DSM compressors are serviced by a North America wide network of certified Devair distributors. Regular service of air compressors ensures peak performance at all times.

USE ONLY ORIGINAL DEVAIR SERVICE PARTS

There is no substitute for the quality and reliability of Devair products, original parts guarantee trouble-free operation and save time and money.

ROTARY SCREW COMPRESSOR PACKAGES BY DEVAIR

DSM MAINTENANCE KITS

2000 hour kit includes:

- 1 gallon of synthetic lubricant
- 1 oil filter
- 1 air filter

4000 hour kit includes:

- 1 V-Belt change set
- 1 gallon of synthetic lubricant
- 1 air/oil separator filter
- 1 oil filter
- 1 air filter

Please consult authorized Devair distributor regarding regular service of DSM compressors
