Private Room

Sound realism increases the enjoyment and excitement of TV.

Wherever Yamaha sound

Bedroom

Relaxing music makes the start of the day special.

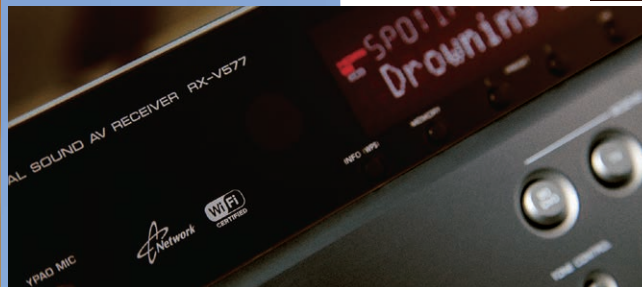

To make every day more wonderful...
Beautiful, real, relaxing...throughout your home,
wherever you are, Yamaha music is there.
You enjoy the finest sound
with the most advanced functions and design.
Yamaha AV components
give every day a beautiful beginning.

you are,
d is there too.

Living Room

**An expansive sound field that
lets you enjoy the thrill of a front row seat.**

Dining

**Sound with lavish musicality that
will brighten up any ordinary day.**

Front Surround Systems

Get the best sound and an expansive sound field with TV and smartphone music.

Simple surround mode selection depending on what you're watching. You can enjoy a realistic, expansive sound field. Via *Bluetooth*, you can play smartphone songs with sound that has rich musicality.

HOME THEATER CONTROLLER

- Basic functions including power on/off, volume and source selection
- Selection of exclusive CINEMA DSP surround programme modes.
- IntelliBeam automatic sound field setting guidance (YSP-2500)
- Beam adjustment for optimum sound field output (YSP-1400/SRT-1000)

Desktop Audio Systems

Your favourite music and beautiful lighting, just the way you want it.

Play music wirelessly from your smartphone and adjust the brightness of the light. Relit creates the atmosphere for your private relaxing time.

DTA CONTROLLER

- Music on/off, volume adjustment, mute on/off
- Low/Mid/High sound selection by finger swipe
- Light on/off, brightness adjustment
- Weekly Alarm for setting each day's alarm times

Share the Spread

With just a smartphone,
you can connect to your music anytime.
By using the beautiful, smart app
that provides functionality
beyond your expectations,
wherever you are,
a wonderful music space spreads out.

e Music. the Fun.

Home Theatre Components

Control full-scale home theatre surround sound with just one finger.

Easy and direct control of
many AV receiver functions.
With wireless music play
and compatibility with many
streaming services, you can
enjoy movies and music
more freely.

AV CONTROLLER

- Basic functions including power on/off, volume and source selection
- Simple DSP mode switching just by selecting icons
- Adjust DSP parameters by pinch in/pinch out operation
- Zone control (power on/off, source selection, etc.)

HiFi Components

Freely access music from around the world with the smartphone in your hand.

Easy operation of popular
network audio and streaming
services via the app. A new
HiFi style lets you enjoy the
beautiful music that Yamaha
makes possible.

NP CONTROLLER

- Automatic display of network units that can be controlled by the app
- Easy selection by icons of the sources and services you want to enjoy
- Browse songs to select as you view song information
- Streaming service selection, programme information display

The sense of being there. That's realism.

A **TV Sound Stage** equipped with Yamaha's own Digital Sound Projector technology.

With double subwoofers mounted in the unit's large body. Just install it under your television and enjoy real 5.1ch surround sound and powerful sound.

Digital Sound Projector Technology Reproduces True Surround Sound

Yamaha Digital Sound Projectors achieve actual (not virtual) surround sound by controlling beams of sound which reflect off walls. Beam positioned may be adjusted accordingly by using the remote control or the dedicated app enabling the powerful expansive sound to be suitable refined.

5 Beam 5.1 ch

ul, Precise Surround Sound.

Powerful Surround Sound from One Unit

Uses eight beam speakers and two oval woofer units. The surround sound is real and expansive, and two subwoofer units mounted on the bottom surface with bass-flex ports deliver rich, powerful bass.

- 1 Dual oval 4 x 10cm (1-1/2" x 4") woofers
- 2 Eight 2.8 cm (1-1/8") beam speakers
- 3 Dual 8.5 cm (3-1/4") built-in subwoofers

Suitable for TVs up to 55"

78cm (30-3/4") wide and 37cm (14-5/8") deep, the SRT-1000 is designed to be used under TVs of up to 55 inches. It's the convenient way to get surround sound without blocking the TV screen.

High Sound Quality Wireless Music Streaming

Enjoy music from your smartphone or tablet wirelessly. And with support for aptX® audio

coding, *Bluetooth* performance is better than ever, delivering full audio bandwidth for impressive HiFi sound quality.

Controller App for Smart Operation

The SRT-1000 is compatible with the free HOME THEATER CONTROLLER for iOS and Android phones and tablets. The easy-to-see and easy-to-use screen presents icons that let you easily perform a variety of operations. Enjoy smart control with a touch of your finger.

SRT-1000 TV Surround System

- Total 136W of dynamic sound power
16W (2W x 8 beam drivers) + 60W (30W x 2 woofers) + 60W (30W x 2 subwoofers)
- Four CINEMA DSP programmes: Movie, Music, Sports and Game
- Learning function allows operation with the TV remote control
- Dimensions (W x H x D): 780 x 77 x 370 mm; 30-3/4" x 3" x 14-5/8"
- Weight: 8.8kg; 19.4lbs

Sensational 7.1-channel Surround Sound and Highly Rigid Aluminium Chassis

Yamaha Digital Sound Projectors achieve actual (not virtual) surround sound by producing beams of sound and using advanced processing to control their directions. The beams reflect off the walls, reaching the listening position from seven directions. The chassis of the front unit is made of aluminium, a highly rigid, non-magnetic material, while the top is an aluminium panel that prevents vibration.

IntelliBeam Automatically Sets the Optimum Sound Field

The room's acoustic properties such as size, shape and wall material are measured by a specialised microphone. Based on this data, volume, beam angles, focal lengths and other fine adjustments matched to the listening position are automatically optimised. You can achieve the ideal listening environment simply by pushing buttons while following the screen instructions.

YSP-2500 Digital Sound Projector

- Includes 16 beam drivers and two woofers with digital amplifiers (162W total power: 2W x 16 + Dynamic 130W subwoofer)
- Latest HDMI (3 in/1 out) with 4K 50/60p Pass-Through and 3D
- Versatile Beam Modes Can Be Chosen According to Source Content
- 10 CINEMA DSP programmes: 3 Movie, 3 Music and 4 Entertainment
- Dimensions (W x H x D):
(Front speaker system) 944 x 73 (with stands) x 144 mm; 37-1/8" x 2-7/8" (with stands) x 5-5/8",
(Subwoofer) 147 x 444 x 353mm; 5-3/4" x 17-1/2" x 13-7/8" (Vertical)
- Weight: (Front speaker system) 4 kg; 8.8 lbs. (Subwoofer) 7.9 kg; 17.4 lbs

Equipped with an advanced feature set including a dedicated app, 4K pass-through, and Yamaha's acclaimed Digital Sound Projector technology, to meet the needs of the times. You can even operate it with your TV remote control. Get ready for a fully-updated model with a finely honed and overwhelmingly natural sounding delivery.

Wireless Active Subwoofer Provides Rich Bass and Allows Flexible Placement

The active subwoofer has two 10cm (4") woofer units and a 130W analogue amp. The circuit board's ideal grounding pattern ensures a stable current supply. It reproduces rich and solid bass.

Controller App for Smart Operation

The YSP-2500 is compatible with the free HOME THEATER CONTROLLER for iOS and Android phones and tablets.

Behind the Yamaha Sound

Creating beams of sound — Yamaha's unique and original Digital Sound Projector technology.

The Digital Sound Projector has opened up a new world of sound bar audio. This technology's basis can be found in two key elements, wall reflections and sound beams. Sound waves spread radially from a single speaker, like concentric ripples when a pebble breaks the surface of water. When you use two speakers the waves overlap, some parts disappearing and others strengthening. When even more speakers are used simultaneously it's possible to coordinate the reinforced sections of the overlapping waves to produce strong, highly directional waves (Fig. A). These straight sound waves form the sound beams. By slightly shifting the timing of the multiple aligned speakers it's possible to aim the beams at different angles (Fig. B). The YSP series and SRT-1000 produce five beams of sound via high-precision digital signal control, and by reflecting the beams off wall surfaces, the resulting sonic spread produces real 5.1ch and 7.1ch surround sound with just a single speaker system installed underneath or in front of the television.

* For 7.1ch sound, two channels are used for phantom playback.

5 Beam +2 for HD Audio **7.1ch**

The essence of Yamaha's real surround sound.

Yamaha is uncompromising on its stance that virtual surround is an entry class technology, always favoring the real surround sound that make the YSP series and SRT-1000 systems a cut above in terms of delivering sonically superior surround sound in the home. So what is this realism that Yamaha's development team sought?

- Easy to listen to, without colouration of people's voices.
- Sound that can be heard genuinely coming from the left, right and behind, without discomfort or fatigue.
- A wide sweet spot from which to enjoy the sound.

Put simply, it is a system that you can use on a daily basis in your living room together with your TV, producing realistic sound that lets you focus on the world inside the video without any listening fatigue.

All-In-One YSP.

Sound and music should only take up space in your heart. In the YSP-1400 the AV amp, speaker and subwoofer have become one. This all-in-one YSP is compatible with popular *Bluetooth* technology and supports operation by both app and TV remote control.

Use your smartphone and enjoy greater convenience.

The YSP-1400 is compatible with a free HOME THEATER CONTROLLER for iOS and Android. The easy-to-see and easy-to-use operating screen uses icons to let you easily perform a variety of operations including turning the power on and off while watching your smartphone or tablet screen. You can also make detailed settings for the beam sound output.

Wide, expansive surround sound and dual built-in subwoofers for deep, rich bass

The YSP-1400 achieve actual (not virtual) surround sound by producing beams of sound that reflect off the walls. Thanks to the wide listening area, several people can enjoy perfectly clear music or movies with an expansive sound field. Each foot has a large 8.5cm (3-1/4") subwoofer for powerful bass sound.

YSP-1400 Digital Sound Projector

5Beam 5.1 ch **Bluetooth**

- Includes 8 beam drivers and two subwoofers with digital amplifiers (76W total power: 2W x 8 + 30W x 2)

The Easy Way to Get Robust Surround Sound from Your TV.

Soundbar Produces Expansive and Clear Surround Sound with Strong Bass

The soundbar houses a digital amp and two 5.5cm (2-1/8") cone speakers with large magnets to ensure high sound clarity. Its superb structural design allows a large cabinet volume for powerful and clear sound, even though the body is very slim. The 16cm (6-1/2") wireless subwoofer features a large magnet and a front-firing configuration. Its design takes advantage of Yamaha's proprietary Advanced YST II and a Linear Port to produce powerfully deep and smooth bass that enhances the enjoyment of both music and movies.

AIR SURROUND XTREME Provides Spacious Home Theatre Experience

AIR SURROUND XTREME is Yamaha's unique virtual surround technology, delivering full, rich sound with a cohesive sense of surround placement. Enjoy immersive surround sound from all kinds of audio sources, from music to movies and sports.

HOME THEATER CONTROLLER for Easy Operation

The YAS-203 is compatible with a free app controller for iOS and Android. Its easy-to-see and easy-to-use operating screen has icons that let you easily perform a variety of operations including turning the power on and off and setting surround programmes or sound quality.

YAS-203

Front Surround System

- AIR SURROUND XTREME delivers rich surround sound
- Total 200W (50W x 2 + 100W subwoofer) power
- Wireless subwoofer with Advanced YST II for big bass
- Clear voice makes dialogue and narrations easy to hear
- Dimensions (W x H x D):
(Front speaker system) 886 x 79 x 121 mm; 34-7/8" x 3-1/8" x 4-3/4"
(Subwoofer) 290 x 292 x 316 mm; 11-3/8" x 11-1/2" x 12-1/2"
- Weight: (Front speaker system) 2.9 kg; 6.4 lbs.
(Subwoofer) 8.1 kg; 17.9 lbs.

Clean, simple body, packed with beautiful functionality.

AV CONTROLLER

Performance Perfe

Anti-Vibration Construction and Layout

Minimising Vibration for Higher Sound Quality

The use of large, heavy transformers, heat sinks and other parts requires a strong, solid chassis, so the AVENTAGE models have a fifth leg in the centre of the unit, called the A.R.T. Wedge (Anti-Resonance Technology) and a rigid bottom frame with H-shaped cross members for extra support. Chassis vibration is significantly minimised even during

high volume output, maintaining the highest audio quality. In addition, the interior layout and circuit routing is designed to achieve perfect symmetry, with left and right channels physically and electrically isolated. This maximises channel separation, improves S/N ratio and achieves a wide, open sound stage.

Interior structure

Anti-Resonance Technology (A.R.T. Wedge)

The new **AVENTAGE** series takes off, offering you the best possible AV entertainment environment. With Wi-Fi built-in, HDMI 4K60p video support, YPAO R.S.C. and YPAO Volume. The top rated RX-A3040 and RX-A2040 support Dolby Atmos® playback. The new superior performance **AVENTAGE**. You'll constantly have the urge to turn the volume up.

AVENTAGE

ction.

Low Noise and High Quality Sound Design

Designed to Optimise Sound Quality

Fully discrete power amplifiers designed for high speaker drivability and low distortion as well as independent pure power supplies prevent digital noise from affecting analogue circuitry. DAC on Pure Ground ensures stable and low noise ground layout coupled with an independent DAC power supply. Ultra-high performance ESS DACs* and Ultra Low Jitter PLL Circuitry contribute to an unsurpassed sound stage with high dynamic range and super low distortion and noise levels. Also, a Pure Direct mode shortens the circuit route to further minimise signal degradation. In addition, all internal and external parts are selected by strict sound listening tests. These technologies create the highest sound quality on all models.

* RX-A3040/A2040/A1040 only.

Ultra-high performance ESS DACs

YPAO))) (Yamaha Parametric room Acoustic Optimiser)

Professional Grade Automatic Acoustic Calibration

YPAO analyses room acoustics, then precisely calibrates audio parameters to achieve optimum sound at any of several listening positions. It employs R.S.C. (Reflected Sound Control) to correct early reflections for studio-quality sound, as well as DSP Effect Normalisation. The RX-A3040 features YPAO 3D which uses additional data to maximise the 3D sound field effectiveness of the CINEMA DSP HD³ programmes.

Microphone base for 3D and angle measurement

Dolby Atmos® (RX-A3040/A2040)*

With Dolby Atmos, sound comes alive from all directions, including overhead. The combination of Dolby Atmos and AVENTAGE AV receivers will fill the room with multidimensional sound to make you feel as if you are right in the middle of the story unfolding on the screen.

*Available via future firmware update.

Built for Today, Designed for

Unlimited Possibilities with the RX-V77 Series

With these receivers, unlimited possibilities open up before you. Now you've got the freedom to access and control a vast range of audio and video media. Advanced network functions make it easy to expand your AV entertainment world.

Unlimited Connectivity via Wi-Fi Built-in and Wireless Direct

Wi-Fi Built-in capability allows wireless connection with your household wireless router, greatly simplifying system connections to enjoy network audio and music streaming services. If no Wi-Fi router is available, the unique Wireless Direct feature not only allows you to stream music directly from your smartphone or tablet via MusicPlay by the AV CONTROLLER, AirPlay and other means, but to also control your receiver using the AV CONTROLLER.

* All models except RX-V377 and RX-V477.

More Ways to Broaden Your Musical Horizons

Yamaha AV Receivers give you easy access to all the music sources you want. With the network-compatible models, you can enjoy popular streaming services such as Spotify Connect*, Internet radio and music streaming from smartphones or tablets using AirPlay® or HTC Connect. These models are compatible with FLAC/WAV 192 kHz/24-bit formats and the Apple lossless.

* Service availability varies by region and model. The Spotify app and Premium account are required.

Typical Wi-Fi connection

Wireless Direct

Tomorrow.

The Latest 4K60p Video Support

The RX-V77 receivers support* 4K60p Ultra HD pass-through, while the top two models also perform 4K Ultra HD upscaling, which boosts lower resolution images to super high-definition resolution. This ensures compatibility with the latest super high-res video formats, now and into the future.

* RX-V377 is compatible with 4K24p.
 * 4K Ultra HD upscaling: RX-V677
 * 4K Ultra HD Pass-through: RX-V377/V477/V577/V677

4K Ultra HD Upscaling image

Behind the Yamaha Sound

Over a quarter century of great sound: Yamaha's unique sound field creation process, CINEMA DSP technology.

In the two-channel stereo era, "sound field creation" was an unknown concept. Then in 1986 Yamaha led the world in developing a method for reproducing a concert hall or music club-quality sound field during playback on home audio equipment. This resulted in the DSP-1, the world's first digital sound field processor, a historic product that brought the idea of sound field creation to commercial audio/video equipment for the first time. This ethos has been a constant through the continued evolution of Yamaha's home theatre technology all the way to today's CINEMA DSP.

The first sound field processor DSP-1 in 1986

Incorporating real sound field measurement data into a dedicated LSI.

To create the feeling of reality in the home, we collected sound field data from famous concert halls, clubs and theatres around the world and developed a process of digitizing this information and incorporating it into a dedicated LSI device. At Yamaha, DSP symbolises that to us, "digital sound field processing" equals sound field creation.

CINEMA DSP reproduces the reality of being there.

In order to reproduce the original sound design of a movie as faithfully as possible, CINEMA DSP creates ideal home theatre sound by taking into account the differences in theatre and home environments and using effective sound field processing to enhance the three elements of dialogue, music and sound effects. To give a fuller sense of immersion as if one was actually entering into a movie scene or concert, the process incorporates three-dimensional spatial processing including information in the vertical direction. CINEMA DSP HD³ aims for the ultimate in three-dimensional sound field creation by combining a massive amount of initial sound reflection data with up to 96kHz/24-bit audio signals in all channels. It makes full use of virtual technology including a Virtual Presence Speaker, creating the ideal sound field for every speaker layout from 2ch to 11.2ch.

Experience CINEMA DSP even more freely with our app.

To help you get the most enjoyment from the CINEMA DSP sound field, the AV CONTROLLER makes it easy to select your choice of DSP modes and fine-adjust parameters to your liking by intuitive pinch in/ out motion.

Optional Accessories

Wi-Fi Adapter for Wireless LAN Connection

The YWA-10 has two LAN terminals (for the AV receiver and another component such as a Blu-ray Disc player), gets its power from the receiver's USB terminal, and offers WPS (auto setup) or manual setup via PC.

Bluetooth Adapter for Wireless Music Streaming

With the YBA-11, you'll be able to stream music wirelessly from a Bluetooth capable mobile phone or a PC to the AV receiver. Thanks to the digital connection and aptX® audio coding algorithm, you'll enjoy wireless music streaming with optimum sound quality.

YHTB4770

5.1 Channel Home Theatre Package

- AV Receiver RX-V477
- 2-Way Bass-Reflex Floorstanding Speakers NS-F150
- Centre and Surround Channel Speaker Package NS-P150
- Type: (Front) 2-way bass reflex, (Centre/Surround) 2-way acoustic suspension
- Maximum input power (Front/Centre/Surround): 180/80/60 W
- System Frequency Response: 37 Hz-38 kHz
- Dimensions (W x H x D); weight: (Front) 200 x 1,030 x 362 mm; 11.2 kg/unit [7-7/8" x 40-1/2" x 14-1/4"]; 24.7 lbs./unit (Centre) 395 x 130 x 127 mm; 2.1 kg [15-1/2" x 5-1/8" x 5"]; 4.6 lbs. (Surround) 130 x 225 x 127 mm; 1.2 kg/unit [5-1/8" x 8-7/8" x 5"]; 2.6 lbs./unit
- Advanced YST II and QD-Bass Subwoofer YST-SW012
- Dynamic power: 100 W
- Frequency response: 28-200 Hz
- Dimensions (W x H x D), weight: 290 x 290 x 328 mm; 8.5 kg [11-3/8" x 11-3/8" x 12-7/8" mm; 18.7 lbs.]

Absolute Quality

The A5000 series—the ultimate home theatre system.
The perfect combination of superior sound, flexibility and future potential.
Quality and value that's yours for as long as you own it.

AVENTAGE

CX-A5000

11.2-channel AV Pre-Amplifier

- AVENTAGE Concept 11.2-channel pre-amplifier
- CINEMA DSP HD³ with 33 DSP programmes
- Network functions such as App control, AirPlay, Spotify Connect^{*1}
- FLAC or WAV 192kHz / 24-bit audio playback
- 4K60p Pass-Through^{*2}
- Yamaha Original High Quality Video Processing
- YPAO Volume^{**2} applies loudness EQ correction
- High-resolution Music Enhancer further heightens musicality
- Dimensions (W x H x D): 435 x 192 x 448 mm; 17-1/8" x 7-1/2" x 17-5/8"
- Weight: 13.6 kg; 30 lbs.

^{*1} Music service availability depends on regions and subscription is required. The Spotify app and Premium account are required for Spotify.
^{*2} Update firmware is provided.

Ultra high performance ESS ES9016 DACs for all channels

A.R.T. (Anti-Resonance Technology) Wedge

MX-A5000

11-channel Power Amplifier

- 11-channel overwhelming power amplification
- 170 W per channel (6 ohms, 20 Hz-20 kHz, 0.06% THD, 2ch driven)
- 150 W per channel (8 ohms, 20 Hz-20 kHz, 0.06% THD, 2ch driven)
- 170 W per channel (8 ohms, 1 kHz, 0.9% THD, 2 ch driven)
- 230 W per channel (6 ohms, 1 kHz, 0.9% THD, 1 ch driven)
- Current feedback power amp with Three-stage Darlington circuit
- 27,000uF custom block capacitors
- Specially designed high rigidity chassis and highest quality parts
- Noise resistant XLR balanced connections
- Biamping capability with channel selector
- Dimensions (W x H x D): 435 x 210 x 463.5 mm; 17-1/8" x 8-1/4" x 18-1/8"
- Weight: 25.4 kg; 56 lbs.

Specially designed high rigidity chassis

High efficiency, large-size toroidal transformer

CX-A5000

Superbly Slim — A New AV Style

A slim body that fits anywhere you want it.
 Yet packed with top quality audio technology and advanced network functions.
 The perfect way to discover a new world of AV entertainment.

RX-S600

AV Receiver

- 5-channel powerful surround sound
 95W per channel (6 ohms, 1 kHz, 0.9% THD, 1 ch driven)
 60W per channel (6 ohms, 20 Hz-20 kHz, 0.09% THD, 2 ch driven)
- Full discrete amp configuration
- Aluminium front panel for enhanced rigidity and attractiveness
- Network functions such as AirPlay and AV Controller app
- 4K Ultra HD pass-through for super high resolution images
- FLAC or WAV 192 kHz/24-bit audio playback
- Dimensions (W x H x D): 435 x 111 x 320 mm;
 17-1/8" x 4-3/8" x 12-5/8"
- Weight: 7.8 kg; 17.2 lbs.

Top-Quality Parts, Advanced Features

Delivers audio performance at the head of its class, thanks to a revamped ground and power supply pattern, as well as meticulously selected and custom-designed parts, such as the transformer and heat sink. Employs analog discrete amplifier construction, a low jitter PLL circuit and delivers high power output. Other top-grade features include an aluminum front panel and high-grade, large screw-type speaker terminals.

Slim Design for Tidy System Appearance

The RX-S600 offers high quality, yet has a trim body only 111mm high and 320mm deep. It will fit nicely in narrow AV racks, without jutting out from the front. This makes it easy to place your system where you want it, and gives it a neat appearance. You'll be able to create a smart-looking home cinema system.

Access to a Wider Range of Digital Music

Support for AirPlay means the receiver is ready to accept audio streams from computers running iTunes and from an iPod, iPhone or iPad. This makes it easy to enjoy music from your computer or mobile devices. You can also access music files stored on a PC or NAS, as well as internet radio or the streaming music services*. Compatibility with high resolution music files in the FLAC/WAV 192 kHz formats ensures high sound quality.

* Music service availability depends on regions.

HiFi Components

NP CONTROLLER

Superb versatile network stereo amplifier.

R-N500

Network Receiver

- 105 W x 2 (max), 80 W x 2 (RMS) high power output
- Support for Internet radio and music streaming*
- NP Controller App for smartphones and tablets
- AirPlay allows music streaming from Mac, PC, iPod, iPhone, iPad
- Compatible with the FLAC 192 kHz/24-bit format
- USB Digital Connection for iPod, iPhone, iPad and USB devices
- Digital Audio Input for TV
- DC out for optional accessories such as YWA-10 and YBA-11
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 9.8 kg; 21.6 lbs.

*Available via future firmware update.
Service availability depends on regions.

This single unit makes it easy to enjoy a HiFi network.

R-N301

Network Receiver

- 115W x 2 (max), 100W x 2 (RMS) high power output
- Support for music streaming* and Internet radio
- NP CONTROLLER for smartphones and tablets
- AirPlay allows music streaming from Mac, PC, iPod, iPhone, iPad
- Compatible with the FLAC 192kHz/24-bit format
- DC out for optional accessories such as YWA-10 and YBA-11
- Dimensions (W x H x D): 435 x 141 x 333 mm, 17-1/8" x 5-1/2" x 13-1/8"
- Weight: 6.95 kg, 15.3 lbs.

*Available via future firmware update.
Service availability depends on regions.

NP Controller App for Easy Control

Compatible with YBA-11 Bluetooth Wireless Adapter

The R-N500 provides a DC-out connection for the YBA-11 Bluetooth Wireless Adapter (optional accessory). You'll be able to stream music wirelessly from a Bluetooth-capable smartphone, tablet or PC, without a WiFi environment.

Digital Audio Input for TV

The R-N500 has both optical and coaxial digital inputs for receiving audio from your TV. You'll love how much better your TV sounds when you hear sports, programmes and movies through your audio system.

NP Controller App for smartphone or tablet

This free app allows network player control from a mobile device. Browse for music tracks by playlist, song, etc., and select a variety of sources, as well as songs and functions simply by tapping the display. Music Play allows music streaming from Apple iOS devices and Android devices.

Device Select
Networked Yamaha devices are automatically displayed in the device menu.

Input Select
Just by touching an icon, you can select the source or service you want to enjoy.

Music Play
Browse and play music stored on a smartphone / tablet using the NP Controller App, with full access to cover art and track information.

R-N500 / R-N301

Wi-Fi Adapter for Wireless LAN Connection

YWA-10
Wi-Fi Adapter

The YWA-10 has two LAN terminals, gets its power from the receiver's USB terminal, and offers WPS (auto setup) or manual setup via PC.

Receivers

R-S700

Receiver

- 100 W x 2 high power output
- Pure Direct for short and direct signal path
- iPod video out allows connection to a TV
- Gold-plated speaker terminals
- Dual aluminium-extruded heat sinks
- Speaker A, B or A+B selection
- Pre-main coupler
- Terminal for detachable AC cable
- Multi-Zone control capability
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 11.2 kg; 24.7 lbs.

R-S500

Receiver

- 75 W x 2 high power output
- Pure Direct for short and direct signal path
- Continuous Variable Loudness Control
- iPod/iPhone compatibility
- Subwoofer out
- Speaker A, B or A+B selection
- Rec Out selector
- 40-station FM/AM preset tuning
- Multi-Zone control capability
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 10.2 kg; 22.5 lbs.

R-S300

Receiver

- 50 W x 2 high power output
- Pure Direct for short and direct signal path
- Aluminium-extruded front panel
- Continuous Variable Loudness Control
- iPod/iPhone compatibility
- Subwoofer out
- Speaker A, B or A+B selection
- 40-station FM/AM preset tuning
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 8.8 kg; 19.4 lbs.

R-S201

Receiver

- 140W x 2 (max), 100W x 2 (RMS) high power output
- High sound quality circuit design
- Simple and sophisticated design
- Speaker A, B or A+B selection
- Dimensions (W x H x D): 435 x 141 x 322 mm; 17-1/8" x 5-1/2" x 12-5/8"
- Weight: 6.7 kg; 14.8 lbs.

Compact Disc Players

CD-S300

Compact Disc Player

- Extremely sophisticated circuitry and layout
- Short signal paths
- High quality parts
- High performance DAC for high conversion precision with low noise
- Intelligent Digital Servo
- Pure Direct
- MP3 and WMA compatibility
- USB port on front panel for iPod and other devices
- Dimensions (W x H x D): 435 x 86 x 260 mm; 17-1/8" x 3-3/8" x 10-1/4"
- Weight: 3.5 kg; 7.7 lbs.

CD-C600

Compact Disc Player

PLAY-CHANGE™

- Full opening disc tray for changing 5 discs at a time
- Pure Direct
- Extremely sophisticated circuitry and layout for short signal paths
- High performance DAC
- MP3 and WMA compatibility
- USB port on front panel for iPod and other devices
- RS-232C interface and IR in/out
- Dimensions (W x H x D): 435 x 116 x 405 mm; 17-1/8" x 4-5/8" x 16"
- Weight: 6.2 kg; 13.4 lbs.

2ch Stereo System

R-S201PKG

2ch Stereo System

R-S201 (Black)
Receiver

- 140W x 2 (max), 100W x 2 (RMS) high power output
- High sound quality circuit design
- Simple and sophisticated design
- Speaker A, B or A+B selection
- Dimensions (W x H x D): 435 x 141 x 322 mm;
- 17-1/8" x 5-1/2" x 12-5/8"
- Weight: 6.7 kg; 14.8 lbs.

NS-BP200 (Piano Black)
Speaker System

- 2-way bass-reflex speakers
— sound tuning performed in Europe
- New cabinet design for extra powerful bass output
- Dimensions (W x H x D):
154 x 274 x 287 mm; 6" x 10-3/4" x 11-1/4"
- Weight: 3.9 kg/unit; 8.6 lbs.

Optional Accessories for Dock Port (for R-S700/R-S500/R-S300)

Yamaha Docks make it easy to enjoy your favourite music from your iPod or iPhone. All you have to do is set the unit in the cradle.

YID-W10

Wireless Dock System for iPod/iPhone

yAired

yAired Wireless Operation

The yAired wireless connection lets you control power on/off and volume. In addition, you can use the Receiver's Music Enhancer and CINEMA DSP for best sound quality.

- Uncompressed wireless audio transmission (Linear PCM)
- High-speed transmission for accurate audio and video sync

Made for iPod iPhone

iPhone not included

Beyond.

Sound and Functionality Progress.

A-S801 Integrated Amplifier

- 160W x 2 (max), 100W x 2 (RMS) high power output
- Double-bottom chassis for excellent vibration damping
- ToP-ART (Total Purity Audio Reproduction Technology)
- I/O (input to output) Direct Symmetrical Design with top-quality parts, ART (Anti-Resonance and Tough) Base and solid centre bar
- CD Direct Amplification and Pure Direct
- Continuous Variable Loudness Control

- Digital audio inputs for TV or Blu-ray Player
- Gold-plated speaker terminals and RCA terminals
- Aluminium front panel and knobs
- Terminal for detachable AC cable
- Dimensions (W x H x D): 435 x 152 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 12.1 kg; 26.7 lbs.

ToP-ART Design and ART Base Ensure Optimum Sound (Total Purity Audio Reproduction Technology concept)

When processing and transmission of the audio signal is simple and direct, there is less chance of it being affected by noise and distortion. Yamaha's amplifier design technology called ToP-ART features an I/O (input to output) Direct Symmetrical Design, with left and right channels organized in a straight, symmetrical layout for highest signal purity. In addition, the ART (Anti-Resonance and Tough) Base bottom chassis and a solid center bar provide high-rigidity support and vibration damping.

USB DAC Function Supports 2.8MHz/5.6MHz DSD Native Resolution and PCM384kHz/32-bit Reproduction

A USB DAC function allows direct connection to a PC and reproduction of high resolution sound sources. The Yamaha-developed USB device controller IC has its own master clock that eliminates PC jitter for enhanced signal transmission. The ASIO2.3 Yamaha Steinberg USB driver achieves lower delay and higher throughput. Offering compatibility with 5.6MHz DSD native reproduction and PCM 384kHz/32-bit PCM reproduction, you can enjoy a wide range of sound sources with high quality sound.

Compatible with YBA-11 Bluetooth Wireless Adapter

The A-S801 provides a DC-out connection for the YBA-11 Bluetooth Wireless Adapter (optional accessory). You'll be able to stream music wirelessly from a Bluetooth-capable smartphone, tablet or PC, without a WiFi environment.

* Windows support. Mac support is 24-bit.

A-S501 Integrated Amplifier

- 120W x 2 (max), 85W x 2 (RMS) high power output
- ToP-ART (Total Purity Audio Reproduction Technology)
- Centre bar to reinforce the internal structure
- DC out for optional accessories such as YBA-11
- Pure Direct for short and direct signal path
- Continuous Variable Loudness Control
- Gold-plated speaker terminals and RCA terminals
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 10.3 kg; 22.7 lbs.

Digital Audio Input for TV and/or Blu-ray Player

The A-S501 is equipped for digital audio input with both optical and coaxial terminals. The optical is for receiving audio from a TV, and the coaxial for receiving audio from a Blu-ray player. The audio stays in the digital domain, giving you pure, pristine dynamic sound for all your entertainment sources, from sports and other programmes to movies and concerts.

A-S301 Integrated Amplifier

- 95W x 2 (max), 60W x 2 (RMS) high power output
- ToP-ART (Total Purity Audio Reproduction Technology)
- Centre bar to reinforce the internal structure
- DC out for optional accessories such as YBA-11
- Digital audio input for TV or Blu-ray player
- Pure Direct for short and direct signal path
- Continuous Variable Loudness Control
- Subwoofer terminal and Phono MM terminal
- Dimensions (W x H x D): 435 x 151 x 387 mm; 17-1/8" x 6" x 15-1/4"
- Weight: 9.0 kg; 19.8 lbs.

Optional Accessories

Bluetooth® Adapter for Wireless Music Streaming

YBA-11

Bluetooth Wireless Audio Receiver

With the YBA-11, you'll be able to stream music wirelessly from a Bluetooth capable mobile phone or a PC to the HiFi component. Thanks to the digital connection and aptX® audio coding algorithm, you'll enjoy wireless music streaming with optimum sound quality.

Package Speakers

2-way front speakers

Full-range surround speakers

NS-PA40

5.1-Channel Speaker Package

- Type: (Front/Surround) Full-range bass-reflex, (Centre) Full-range acoustic suspension, (Subwoofer) Advanced YST II
- Maximum Input Power (Front/Centre/Surround): 100/100/100 W
- Dynamic Power (Subwoofer): 100 W
- System Frequency Response: 30 Hz–30 kHz
- Dimensions (W x H x D); Weight: (Front) 230 x 1,000 x 230 mm (with stand); 2.8 kg / unit, [9" x 39-3/8" x 9" (with stand); 6.2 lbs. / unit] (Centre) 276 x 111 x 118 mm; 0.73 kg [10-7/8" x 4-3/8" x 4-5/8"; 1.61 lbs.] (Surround) 112 x 176 x 116 mm; 0.59 kg / unit [4-3/8" x 6-7/8" x 4-5/8"; 1.3 lbs. / unit] (Subwoofer) 290 x 292 x 327 mm; 8 kg / unit [11-3/8" x 11-1/2" x 12-7/8"; 17.6 lbs.]

Subwoofers

Black

YST-SW012

Advanced YST II and Front Firing Subwoofer

- Dynamic Power: 100 W
- Frequency Response: 28–200 Hz
- Dimensions (W x H x D): 290 x 290 x 328 mm; 11-3/8" x 11-3/8" x 12-7/8"
- Weight: 8.5 kg; 18.7 lbs.

Outdoor Speakers

NS-AW194

Outdoor Speakers

- Maximum input power: 80 W
- Frequency response: 100 Hz–20 kHz
- Dimensions (W x H x D): 152 x 243 x 171 mm; 6" x 9-5/8" x 6-3/4"
- Weight: 1.3 kg/unit; 2.9 lbs./unit

NS-AW294

Outdoor Speakers

- Maximum input power: 100 W
- Frequency response: 80 Hz–20 kHz
- Dimensions (W x H x D): 190 x 308 x 217 mm; 7-1/2" x 12-1/8" x 8-1/2"
- Weight: 2 kg/unit; 4.4 lbs./unit

The NS-AW194 and NS-AW294 are offered with black and white finish.

In-Ceiling Speaker Series

NS-IC800

In-Ceiling Speakers

- Maximum Input Power: 140 W
- Frequency Response: 50 Hz–28 kHz
- Dimensions (Diameter x Depth): ø283 x 109 mm; ø10-7/8" x 4-1/4"
- Mounting Depth: 109 mm; 4-1/4"
- Weight: 1.9 kg; 4.2 lbs./unit

NS-IC600

In-Ceiling Speakers

- Maximum Input Power: 110 W
- Frequency Response: 65 Hz–28 kHz
- Dimensions (Diameter x Depth): ø242 x 109 mm; ø9" x 4-1/4"
- Mounting Depth: 109 mm; 4-1/4"
- Weight: 1.5 kg; 3.3 lbs./unit

NS-IC400

In-Ceiling Speakers

- Maximum Input Power: 90 W
- Frequency Response: 95 Hz–40 kHz
- Dimensions (Diameter x Depth): ø150 x 86.5 mm; ø5-7/8" x 3-3/8"
- Mounting Depth: 79 mm; 3-1/8"
- Weight: 0.8 kg; 1.8 lbs./unit

NS-ICS600

In-Ceiling Speakers (Single Stereo System)

- Maximum Input Power: 120 W
- Frequency Response: 65 Hz–28 kHz
- Dimensions (Diameter x Depth): ø231 x 109 mm; ø9" x 4-1/4"
- Mounting Depth: 109 mm; 4-1/4"
- Weight: 1.8 kg; 4 lbs./unit

MCR-N560 | CRX-N560

Micro Component System | Network CD Receiver

[CRX-N560 Network CD Receiver]

- Network integration functions provide wider source access
- Support for Internet radio and music streaming*
- FLAC or WAV 192kHz/24-bit audio playback
- NP Controller for easy operation
- AirPlay allows music streaming
- Front panel USB digital connection for iPod, iPhone and iPad
- 32W x 2 low-distortion power with high efficiency digital amp
- Digital audio inputs (optical / coaxial) for TV
- Connection for YWA-10 WiFi Adapter
- Connection for YBA-11 Bluetooth Wireless Adapter
- Dimensions (W x H x D):
215 x 110 x 288 mm; 8-1/2" x 4-3/8" x 11-3/8"
- Weight: 2.7 kg; 6 lbs.

[NS-PB182 Speakers]

- 2-way bass-reflex speakers with high quality white cone woofer
- VCCS Vibration Control Cabinet Structure Technology
- Dimensions (W x H x D): 154 x 273 x 230 mm; 6" x 10-6/8" x 9"
- Weight: 3.3 kg/unit; 7.2 lbs./unit

*Available via future firmware update. Service availability depends on regions.

MP3

Powered by music

Music has enormous power to move us
and arouse our emotions.

We love it, we yearn for it, we are devoted to it.

Its energy can advance technology and enrich our lives.

For more than 125 years,

Yamaha has been making steady progress,

nourished by our unwavering enthusiasm for music.

We're continually exploring the possibilities of sound,

striving always to bring you

a richer musical experience.
