### ***Carrera – Made for champions!***

*Carrera is all about emotion, passion and is all action with exciting overtaking moves and gripping duels between fathers, sons and grandfathers - for the love of high speed! Carrera is once again in pole position in 2012. Carrera's Red Bull and Ferrari models are further exclusively licensed world champion reproductions in the company's Formula 1 stable.*

*Carrera imports the big screen heroes of the blockbusting movies Disney/Pixar Cars and Spider-Man onto racing tracks and the numerous action features guarantee exciting challenges. The best thing is: Carrera provides wireless freedom around the circuit with the latest 2.4 GHz WIRELESS+ digital radio controlled technology.*

*So with such a great level of equipment fans can look forward to their domestic season in 2012 – and to the 50th year of Carrera in 2013.*

### ***Carrera – Motorsports at home.***

## **CARS WITH INNOVATIVE VEHICLE TECHNOLOGY**

### **1. ADJUSTABLE CAR CHASSIS HEIGHT** (model dependent)

- a) Enlarges the car's distance between the track and the body's front (improves passing high banked curves and crossings).
- b) Standard setting of chassis – for flat track layouts
- c) Automatic track adaptation of the swing arm via swing arm spring.

### **2. REMOVABLE, REPLACEABLE ENGINE TRANSMISSION BLOCK**

Various gear ratios and tyres to alter the top speed, acceleration and braking performance of the cars (model dependent).

## **FREEDOM ON THE RACETRACK – WITH 2.4 GHz WIRELESS+**

Experience the joys of wireless racetrack fun for Carrera DIGITAL 124 and Carrera DIGITAL 132 with the new 2.4 GHz WIRELESS+ set-up. This wireless radio signal system uses 2.4-GHz technology and imports even more digital technology onto your Carrera circuit.

A range of up to 15 m allows wireless operation of up to 6 vehicles simultaneously on one circuit. Frequency hopping provides uninterrupted, frequency-independent operation. The powerful Lithium-Polymer power pack provides power for 8 hours of non-stop action – and a fully charged battery can remain charged 20 days on the standby setting. The new 2.4 GHz WIRELESS+ can be used with a Black Box or a Control Unit. The receiver allows signal transmission to 6 different cars and the set is controlled via ultra-light hand-held wireless controls.

The charging stations powering the hand-held controls are incorporated into the track.

The charging stations can be installed in the track layout by linking up to the Adapter Unit or Control Unit.

Experience the new dimension of Carrera car racing with 2.4 GHz WIRELESS+ – radio controlled technology for even more flexibility.

## Licenses

### ORIGINAL LICENSES

Detailed, perfect design and highest quality – these standards require a close collaboration with the car industry.

For this reason Carrera is producing their original detailed cars only on basis of license agreements. And that's why the Carrera model might be put on the market before the big original is introduced.
