

## Comparison of noninvasive scoring systems for the prediction of nonalcoholic fatty liver disease in metabolic syndrome patients

Saokaew et al.

AuROC, area under receiver operating characteristic curve; FLI, fatty liver index; HSI, hepatic steatosis index; LAP, lipid accumulation product; NAFLD, non-alcoholic fatty liver disease; US, ultrasonography

**Figure S3** ROC curves of the FLI, LAP, HSI, and NAFLD-MS scoring systems for the prediction of NAFLD among metabolic syndrome patients, using ultrasonography as a reference
