

# With your child in mind

quality from the heart

Dear parents,

Geuther has been the symbol of tradition and child safety for more than 100 years. Constant quality inspections and functional optimisation mean we are able to offer you contemporary and meticulously considered products of the highest order to accompany your child when growing up. Our international success is not a matter of chance, but rather has been achieved through the active dialogue Geuther practices with its customers. Particularly via the aspirant domains of social networks such as Facebook and Twitter, we receive tremendous feedback regarding our children's furniture, which helps us to fine-tune our products to the needs of both our young and older customers to an even greater extent. Naturally, we are especially delighted with the many positive responses we get every day, which confirm how we are ably fulfilling our task of accompanying your child through everyday life in a safe and innovative manner. Geuther continues to maintain a deep association with nature and therefore only uses materials that are, needless to say, non-toxic and environmentally-friendly. Synonymous with 'Made in Germany' brand quality, our products not only enthral with their beautiful design and practicality, but also through their intrinsic value.

Best wishes,

*Christel Bauer*

#### 5-year guarantee

A five-year guarantee/warranty is granted on selected Geuther products with effect from the date of purchase. Your two-year statutory warranty on the quality of our products is extended by an additional three-year guarantee provided by Geuther. In the event of manufacturing defects, you should contact the stockist where you bought the product in all cases. Natural wear and tear and improper use are excluded from our warranties and guarantees.

#### Soft-Close-System

Soft-close drawers and doors. To increase safety in the nursery, drawers incorporated in our furniture are fitted with a soft-close system. The soft-close system prevents doors and drawers from slamming shut and automatically controls the final stage of closing.

#### Tip-On-System

Touch opening. For the first time, our new collection features the handle-free tip-on system. Handle-free front panels are playing an ever-greater role in modern furniture design. The mechanical tip-on opening support system allows handle-free drawers and pullouts to be effortlessly opened at a touch.

# Umweltschutz

Environmental conservation  
*is not just a question of image*

What kind of  
*world* do we  
want to leave  
*our children?*

The idea of a healthy environment is a question of attitude. And because every individual can do something to contribute to it, all our members of staff are obliged, to an exceptional degree, to base their actions in their particular sphere on considerations of sustainability, in its economic, ecological and social aspects.

The Geuther company has an outstanding sense of responsibility for nature and the environment, and we have the certificates to prove it. Our timber suppliers are FSC® certified. All our furniture surfaces conform to DIN 53160 standards (resistance to saliva and perspiration) and to the European EN 71 standard for the safety of toys. The paper we use for advertising purposes has FSC® certification from the manufacturer, and the printing has been certified as climatically neutral. In relation to formaldehyde emissions, our products have been placed in the lowest E1 class – and you can't do better than that! Our cardboard packaging carries the RESY symbol, meaning that it can be 100% recycled. In furniture production, massive beech wood from German and European forests is our first choice: this natural and endlessly renewable material is strong, reliable, can be used for the most beautiful creations – and is completely recyclable!

Geuther relies on the most modern technology. Dip painting, for example, is a lengthy process, but it has its advantages. First of all, it gives rise to a very even coating; and at the same time it offers health and safety benefits, as it does not involve paint spray with its damaging effects on the lungs. CNC milling of the latest generation gets the wood into shape with a minimum of material wastage. The resulting waste timber feeds our plant heating system, which as a result can dispense with non-renewable combustible materials like coal and oil.

Whenever possible we optimise our activities, with a view to preserving nature for future generations. This is a matter of principle for us, because we want to make our contribution to a world worth living in.

new

# Estelle

for little stars

The Estelle children's room ensemble combines simple elegance with cosy accents, creating an ambiance in any infant's room that is pleasing to both parent and child. The large doors, equipped with sound dampers, elegantly display the high-quality pine used. Estelle keeps toys and belongings stored discreetly away behind closed doors, or packed elegantly into drawers and shelves, leaving the living space free for your children to illuminate.

The pine decor's delicate grain contrasts with the specially designed taupe handles, which let the doors and drawers be smoothly slid open and closed with just one hand. These are centred with an inlaid white star - creating a magical, eye-catching look.

Art. no. 1190

You will find the technical details for this nursery on page 18 or at [www.geuther.de](http://www.geuther.de)

The new Mette – another feel-good favourite room that wins you over with its natural appearance and beautifully worked details. The modern mix of white MDF panels and beech wood decor, as well as the warm colour scheme, fill the room with a sense of blissful security and dynamism for your little darlings.

**new** *Mette*  
naturally invigorating

Milled handles with delicate rounded edges make the Mette doors – each fitted with shock dampening absorbers – very easy for both child and parent to operate. The extra-wide, three-door cupboard offers ample storage space, and the diagonally outward slanting legs lend the room a certain panache. Mette animates a child's room with its naturally invigorating design – making every child's tomorrow a new day.

**Art. no. 1193**

You will find the technical details for this nursery on page 18 or at [www.geuther.de](http://www.geuther.de)

Your little ones' days should always be filled with sunshine: our new SOL children's room is sure to make them the happiest child in the world. The doors are equipped with dampers and feature a sun design – tastefully surrounded by high-quality white pine – that positively radiates warmth.

**new** **SOL**  
Sunshine hours in  
gentle white

Fitted with soft-close, easy-access recessed drawers, the SOL children's room has a dynamic look that is both spacious and airy – it truly enhances your little one's daily living experience. SOL is the room for happy children who love the sun.

# Cottage

country charm all in white

Art. no. 1178

You will find the technical details for this nursery on page 18 or at [www.geuther.de](http://www.geuther.de)

In a hectic world, very small children in particular need a consistent spot that is full of calm and love. The desire for the romance of the countryside, airy freshness and natural lightness is a child's dream come true with Cottage.

Unusual details such as the beautifully shaped fittings add an element of individual design to the room without interrupting the classic charm of the nursery.

# Cassini

playful country charm

Art. no. 1183

You will find the technical details for this nursery on page 20 or at [www.geuther.de](http://www.geuther.de)

Cassini is a romantic nursery that combines classic style with timeless modern elements, and so radiates an unmistakable charm.

Charming details create a child's environment that is full of comfort, naturalness and a certain touch of rural idyll – the perfect environment for a carefree childhood.

# Marlene

white goes with any colour

**Art. no. 1172**  
You will find the technical details for this nursery on page 20 or at [www.geuther.de](http://www.geuther.de)

Marlene makes any concept look good and fits in well with any individual wishes with regard to a nursery's design because the refreshing white is discreetly subdued to leave lots of scope for an imaginative selection of colourful textiles and accessories. The changing unit's three generous drawers come up trumps with welcome storage,

as does the integrated shelf in the wardrobe. Functional, practical and also a feast for the eyes – the versatile colour combiner Marlene has it all! Like all Geuther children's beds, Marlene can be quickly converted into a small junior bed.

**Art. no. 1172**

# Fresh

loves changes

Art. no. 1167

You can find the technical details for this nursery on page 20 or at [www.geuther.de](http://www.geuther.de).

Fresh creates bright and cheerful highlights – its different colours of blind set fresh winds blowing in the children's room.

And in other areas as well, Fresh favours change: is there any rule stating that drawer handles must always be exactly aligned? Keeping it alive is the thing!

Art. no. 1167

You can find the technical details for this nursery on page 20 or at [www.geuther.de](http://www.geuther.de).

# Fresh

is also available in white

With a clear line, white on white: Fresh places a peaceful colour tonality in contrast with children's busy activities. Enjoy this moment of deliberate minimalism, this stillness of colour. Just for a moment – it will soon be back to hectic business as usual in the play room!

# Play & bunk beds

Art. no. Set 1350

Our children's beds are both sanctuary and refuge, a place to dream of adventures, somewhere to snuggle with loved ones, and to relax from the exciting days in a child's life. Our beds are more than a comfortable sleeping-place - create your little ones' living and relaxation space individually and child-oriented, with plenty of space for quiet times and adventure.

 Colours: white, nature

Who likes sleeping alone? Your baby will be happy knowing that you are close by and you'll love being next to your child while still enjoying the comfort of your own bed: on hand to feed, keep an eye on and simply caress your baby. The cot can remain closed where it is needed during the daytime.

# Mayla

an extra bed in a jiffy

Day care centres and hotels are not the only ones that need to be flexible; a suitable place to sleep is also needed when staying with the grandparents. With the folding bed from Geuther, you will always have enough sleeping options. Thanks to the simple folding mechanism, the bed can be opened up without the use of tools when required and then put away after use and stacked together with the mattress without any ado to save space. Sufficient space under grandma and grandpa's bed can usually be found to stow the folding bed until next required. The optically appealing combination of wood and white enables the bed to be integrated into any style of interior design.

# Syt

The one for all

Syt is a sturdy highchair featuring a clean, refined design – built to accommodate your child from the first sitting. It has an extremely strong structure, and can stand up to even the wildest little bundle of energy in the family. The chair is available in a variety of wood tones, and is at home in rooms of all designs. Its height-adjustable seat and foot-board mean the chair is size-adaptable, and can offer family members from every generation a place at the table. And, after all, what is better than to sit with your loved ones eye-to-eye and on equal footing at the table?

#### Seat cushion insert

Art. no. 4740

Fabrics: 132, 136, 137, 154  
(see page 76)

#### Food/Play tray

Art. no. 0037 SB

Colours: natural, colonial, white, mint, blue, rosé

#### Art. no. 2337

Material: solid beech in masterly workmanship. Seat, back, safety loop and footrest made of plywood. Colours: natural, colonial, white, mint, blue, rosé

Art.Nr. 2345  
Material: solid beech with  
powder-coated metal  
Colours: natural, white, colonial, taupe

Tamino provides uncompromising security for your child, yet makes way whenever needed. The safety bar can be positioned or removed in an instant for easy access and dismounting. The food and play tray keeps everything on board thanks to the stopper bar, but can be removed in a flash when Tamino is placed at the family table - accompanying the child's growth in ergonomically optimised form. And for the very little ones, Tamino transforms into a firm base for the Rocco baby rocker. To ensure unflinching stability despite its versatility, Tamino incorporates an elegant metal retaining support that doesn't just look great, but will also prevent any unfortunate falls, regardless of its sleek design.

# Tamino

more flexible  
than any other

Food/Play tray  
Art. no. 0045SB  
Colours: natural, white,  
colonial, taupe

While other high chairs only make room for children once they are able to sit properly, Tamino offers a comfortable, safe seat for even the littlest offspring. Our Tamino high chair combines with the Rocco baby rocker so that your little treasure can be safely seated on a par with everyone else.

## Tamino & Rocco a great team

In just a few short steps, without any need for tools, the transformation is complete: first, the Tamino backrest is removed and the perfectly matched adapter fixed to the high chair's arm rests. After removing the rocker's underframe at the touch of a button, the Rocco baby rocker is then firmly secured on the adapter. Designed to ensure maximum safety, Tamino and Rocco are quite simply a perfect team and rapidly revert back to practical individual players in no time at all.

More information on page 75.

# Mucki

the down-to-earth high chair

Its solid beech feet are planted firmly on the ground, giving little rompers exactly the support they need when they first learn how to sit up: a footrest for their feet, side bars for allround safety and a sturdy harness to keep the little bottoms on their seats. To make sure Mucki fits into family life, it comes in two finishes: clear varnish for an unadulterated wooden look or stained in a deluxe dark colonial style.

**Art. no. 2306**  
Colours: natural and colonial

**Seat cushion insert**  
**Art. no. 4742**  
Fabrics: 105, 107, 110, 131, 132, 135, 136, 137, 154  
(see on page 76)

**Art. no. 2360**  
completely made of solid beech wood incl. food/play tray  
Colour: natural

# Filou

full of verve

It is a special moment when the youngest member of the family can at last sit at the same table – and that represents a major step to being integrated into family life. Taking part means everything! Filou helps to give kids a boost and confidently steadies all tots that are unsteady on their feet or have to wriggle around. What makes Filou so particularly likeable is that its sweeping lines and its dynamic design exude cheerfulness and its inner qualities win you over – a great deal of solid beech has been processed here! Of course Filou grows with its “owner/occupiers” and adapts to each new height that they reach. If required, Filou, with its high backrest can support the child’s back right up until adolescence.

**Art. no. 2335**  
seat, back, food/play tray with raised edge and footrest made from plywood  
Colours: funny, clay, white, colonial, taupe, natural

**Seat cushion insert**

(see on page 76)

A new family member at the table: Family has already been proven many times over and simply belongs. Not only because the high chair already won its permanent place at table long ago and, thanks to its adjustability, is your offspring’s companion for more than a few months, but also because its comfortable width and its high ergo- nomic backrests offers adults enough space too. The sweeping side elements serve both as armrests and to accommodate the pull-out tray, which can be removed in an instant, as required and even has a stopper bar: thus porridge ends up in the mouth and not on the floor and toys are prevented from going over the abyss – at least occasionally. Another bonus: Family can be adjusted without using tools – thoroughly family-friendly!

# Family

the chair for all the family

# Seat inserts

for „small occupants“

Getting started is difficult – thus sitting in a high chair also needs to be learned. Seat inserts provide a soft, gentle start at lofty heights: on the one hand they adapt the seat to the mini-dimensions of the “first-time sitter” to an optimum degree and on the other hand they prevent Junior from sliding out – and last but not least they are extremely comfortable! It is of course self-evident that all seat inserts are either wipeable (film) or washable – for, as is well-known, every beginning is difficult, particularly when learning to eat by yourself!

Now there is just one crucial question left to answer. Which pattern or design is supposed to grace your high chair? (see on page 76 + 77)

cushioned floor,  
height-adjustable to 3 positions,  
4 carpet castors  
Colours - Vinyls:  
like Art. no. 2231

Belami always wheels your young charge into the middle of the action, for the playpen is fitted with four lockable hard castors and follows you wherever you go, if you wish. Indeed in a very fleet-footed manner, since Belami has an agreeably light design, which consequently does not require any major effort when changing scene. Again with Belami you do not need to forego the familiar Geuther level of comfort: of course the cushioned floor can be height-adjusted to three levels. After doing its job, Belami can be dismantled into its constituent parts and waits patiently and conveniently tucked away for its next assignment on behalf of the family.

Safety squared: Merlin is rooted very clearly and self-assuredly to the floor and its straight-line design without any flourishes earns admiring gazes. To start with Merlin can accommodate babies at the highest level and bring them – by easy adjustment – level for level back down towards the world at ground level. But even when your tot has become a “self-starter”, Merlin plays a joker: three detachable side bars make the playpen into your tot’s own little den and the ideal retreat in an enchanted, magic and self-conceived children’s world. Of course there is always soft cushioning provided; for safety shows its particularly friendly face here.

Lucilee imagined things thus: she always wants to be on hand, when she is needed, and wants to be able to withdraw discreetly if her services are not required. Thus she is pleased to be of assistance in cramped accommodation, at the grandparents and on holiday and is nevertheless as down-to-earth, mobile and robust as her larger siblings. Yet she can also downsize – without any effort and extremely easily, which is very much appreciated by all users. On the subject of size: Lucilee is available in two finishes, both fit easily into a car boot, have three-stage height adjustment and have four lockable castors and a cushioned playing and recline area. In other words Lucilee is the playpen for all seasons!

**Bumper**  
**Art. no. 2232 LB / 2234 LB**

 105, 107,  
 110, 131, 132,  
 136, 137, 154  
 (see on page 76)

Euro-Parc is supremely uncomplicated. The older your offspring gets, the lower the cushioned play level can be positioned – until it ends up just above the floor, then three removable bars allow Junior to be as active as he or she likes. And even in cramped living conditions Euro-Parc has enough space and, if required, can be put away by being folded just once – e.g. under the bed. Two firm supporting legs provide stability and two castors mobility and two different sizes provide the optimum choice for your home.

## Safe and secure

Art. no. 2256

102 x 138 cm, height 74 cm,  
cushioned floor,  
height-adjustable to 3 positions,  
6 carpet castors,  
3 removable bars

**Colours - Vinyl:**  
natural - 07, 32  
white - 32

The unusually shaped hexagonal Matrix playpen offers your child a place to sleep, play and observe the world from day one in a safe and secure location. It provides ample space for your child to play and develop, safely separated from everyday perils. The locking castors allow you to keep your baby near you with a minimum amount of effort. Let your little treasures discover the world at their leisure, and be comfortable knowing they are safe and secure – after all, that’s how they grow and develop best.

Fabrics: 110, 132, 136, 137  
(see on page 76)

As much space as possible, as compact as necessary - those are the prime features of Octo-Parc! An entire zoo-full of cuddly toys fits in here, modular towers soar up to the sky, there is also room for those first attempts at turning, standing and walking – and even the first baby visit. And if Octo-Parc needs to get out of the way of the vacuum cleaner or other necessities, then the playpen can vacate the area by rolling away – thanks to its eight hard castors. With its soft-cushioned floor, which can be height-adjusted to three levels, this octagonal playground is suitable for three stages of growing up. Last but not least the mobile Octo-Parc cuts an extraordinarily fine figure.

# Vario Safe <sup>new</sup>

a new dimension of safety

The sturdy Vario Safe door and stairway safety gates are available in lamella, metal and Plexiglas, and thanks to this variety of modern materials can be blended into any living area, without compromising the security of your little ones in any way. Thanks to the practical clamping assembly, no drilling is necessary. With the Vario Safe you can simply and easily protect your little angel from many common household dangers, letting your little adventurer head off on their little exploration tours while allowing you to breathe easy at the same time.

... no drilling required!

height 81 cm  
Colour: white

**Additional clamps**  
**Art. no. 0022 ZK**  
for bars 1.5-8 cm thick

Airy and lightweight, pure lock is just the ticket if you are looking for long-lasting and secure safety for your child. Flexibly adjustable to lengths ranging from 61 to 107 cm, the door gate can be fixed either within the door frame itself or in front of it. The light, powder-coated steel tube system integrates into any interior design, creating an unobtrusive and secure playing area for any little explorer.

Quickly find the right product with the door and stair guard configurator at [www.geuther.de](http://www.geuther.de)

# Easylock

the new safety generation

The Easylock design has well and truly proved its worth and already meets future safety standards by way of higher gates! We have also additionally improved the practical handle in that the new dual-lock feature makes it impossible for toddlers to open the gate, while for parents, opening is just as simple as before. A gentle push is all it takes to close the Easylock system so that your little one stays safe and sound right where they should be. Available in stylish, white painted metal, one Easylock model blocks off stairs, while an alternative model turns doors into an insurmountable barrier for small children. Both Easylock models fix simply and firmly to round or flat surfaces without any drilling required - and can be removed without trace when no longer needed.

... no drilling required

# Easylock Wood

your child has never been safer

A new generation in safety incorporating higher gates that already meet future safety standards and an innovative handle with a new dual-lock feature, which, as before, is child's play for adults but cannot be opened by toddlers! The well proven Easylock design has been maintained: a gentle push is all it takes for the extra-wide gate to close softly and remain closed until you simply reopen it with the practical handle in two successive movements - namely by pulling the lever and lifting the gate. An additional floor panel smoothly paves the way over hurdles created by the doorframe. Easylock Wood can later be removed without trace when no longer needed and guarantees maximum security, even without drilling. Thanks to the Y-clip, the gate will also maintain a firm non-slip hold on all round elements measuring up to 7 cm in diameter.

# Door guards

the gateway to safety

**Art. no. 2732**

adjustment with screws inside door opening:  
68 - 109 cm adjustment with screws next to door  
opening: 60 - 96,5 cm height 83 cm  
Colours: natural, white

**Art. no. 2734 (no picture)**

adjustment with screws inside door opening:  
97 - 139 cm adjustment with screws next to door  
opening: 89 - 126 cm height 83 cm  
Colours: natural, white

Door guards set safe widths in those places where your whole clan is not supposed to go in or out on its own. The hinged door guards are screw fastened in or beside the door frame. For these guards are also able to withstand many a dose of exuberant high spirits. Furthermore if you have a dog, this guard can also be used as a "dog barrier" at a later stage.

# Stairway guards

keep hazards at bay

**Art. no. 2733**

range of adjustment 70 - 111 cm  
height 83 cm  
Colour: natural, white

**Art. no. 2735 (without figure)**

range of adjustment 99,5 - 140 cm  
height 83 cm  
Colour: natural, white

**Extra clamps**

**Art. no. 2725 ZK**

2,2 cm  
Colour: natural, white

Where you have stairs, they either go a long way up or a long way down. And that is exactly where danger lurks, in particular for small children, whose irrefragable urge to discover things sometimes takes them to places where they are not supposed to be. It does not matter how wide the staircase is, the width of the hinged guards can be set from 70 to 140 cm, depending on the model. Thus little ones are safe as houses and grown-ups can easily pass through the guard with its lock and hinge mechanism.

# Configuration safety gates

Configuration safety gates are the perfect symbiosis of playpens and stair gates and provide parents and children alike with a high degree of individuality; no room is too large for them and no corner is too small. Hazards remain outside and your child remains inside; according to configuration, available space and requirements. Large play areas can be sectioned off or hazard areas can be reliably cordoned off, so that your young charge can play in peace and so that you can get on with doing what you need to for a while.

maximum space – minimum risk

# Clara & Clarissa

mobile helpers around the house

Exactly as parents like it – the thoroughly mobile wooden nappy-changing trolleys on castors slot in exactly where they are needed. And the best thing about them is they have everything on board. Two spacious storage shelves can readily accommodate wet wipes, pants, romper suits and of course a large number of nappies. So that nothing goes "astray", the shelves are fitted with braces on three sides, which prevent items from slipping off the trolley, even when on the move. Depending on location and requirements, you can choose between Clara, at an ample 86 cm wide, or her 30 cm slimmer kid sister Clarissa.

**Clarissa**  
**Art. no. 4842**  
 pad not included  
 W 56 x H 90,5 x L 74,5 cm  
 height for nappy-changing 86 cm  
 Colours: natural, white, sludge

# Hanna

consistent details

Hanna impresses with her no-nonsense straight lines: details with consistent white-natural wood colouring, high worktop for nappy-changing and bathing, which is kind to the back, and twin storage space in the form of a suspended shelf and pocket beneath the tub. This tub also comes with an outlet hose that makes heavy lifting unnecessary. Everything gives the impression of being from a single source. Hanna's qualities particularly come to the fore at bath time: whilst your offspring is happily splashing away, the towel, which was previously waiting on the suspended shelf to be used, is already lying ready on the changing top. Both "places of activity" can be telescoped, thus again saving space. Hanna also likes to get around – this is no problem with 6 castors.

**Art. no. 4852**  
 with tub, incl. outlet pipe, pad not included  
 W 65,5 x H 97 x L 77 cm  
 work height: 93 cm for changing - 88 cm for bathing  
 measurements in extended position:  
 W 65,5 x H 97 x L 143 cm  
 Colours: natural/white, white/white

# Wanda

never in the way

Wanda hangs on the wall, leaving plenty of room for you and your child. Even when hanging up and saving space, Wanda sits modestly in the background and conveniently serves as a board on which to draw, write a shopping list or simply note down something nice. However, fold the table down and Wanda shows its versatility as a safe changing table or a little cupboard for all your useful bits and bobs. A pneumatic spring enables the table to be opened safely, while the solid wood structure means you can place your wholehearted trust in Wanda!

**Art. no. 4871**  
with nappy-changing pad  
Dimensions when extended:  
W 58 x H 66 x L 79 cm  
Dimensions when folded:  
W 58 x H 79 x L 24 cm  
**Colour - Vinyl:**  
white - 31, 34, 35, 36, 37  
natural/ grey - 31, 34, 35, 36, 37  
(see on page 77)

# Trixi

fast change

Time for a nappy change? Folding down to a slender 19 cm, Trixi can be stored behind the wardrobe. When you need it, all you have to do is pull it out, set up the solid beech frame, and you're ready! Your little one will be nice and comfortable on the padded changing surface and will not wriggle off, thanks to the cushioned side guard. Once you have finished, you can pack Trixi away again to be stored discreetly in the background.

**Art. no. 4817**  
foldable, pad included  
W 56 x H 97 (117) x L 70 (19) cm  
height for nappy-changing 91 cm  
**Colour - Vinyl:**  
natural - 10, 37, 97  
white - 37, 97  
(see on page 77)

# Aqualight

the space-saving version

**Art. no. 4822**  
 incl. baby bathtub  
 height-adjustable (35, 40 or 45 cm)  
 adjustable depth of 29 cm from 56 – 85 cm  
 (dimensions inside parents bathtub)  
**Colour - Vinyls:**  
 silver - 97  
 (see on page 77)

Smaller, but nevertheless has all the kit you need: Aqualight is the kid sister of Aqualino and bears its most important "gene". Aqualight is also a well-engineered bath and nappy-changing combination, which combines all basic functions. If aquatic fun and games are planned, you can fold the thickly cushioned changing mat away to the rear with one hand; if the combination is not required at any particular time, then it can be stowed away upright in a corner, thus saving a great deal of space. Aqualino loves being kind to your back: thus 10 height-adjustable and 15 depth-adjustable centimetres are very much dedicated to the wellbeing of parents. Of course only highgrade materials are used for this product – ultimately it is the children's wellbeing that matters.

# Aqualino

variable jack-of-all-trades

Space for cuddles on dry land and in the water: the younger children are, the more time they spend on the nappy-changing table. So that no valuable second of this intimate relationship is lost and of course for the sake of safety in particular, Aqualino has adequate integrated storage space for all the important paraphernalia – always ready, helpfully close at hand. The extra thick cushioned changing mat also adds to those cosy moments. When at last it is bath time, the tub can be pushed out to the left or to the right, depending on where there is more space. If required the spacious baby tub can then be slid beneath the changing mat and at a later stage can even be removed completely when it is time for the big bath tub. In general Aqualino fits nearly all bath tubs – without complex assembly – and it is extremely kind to your back: the comfortable bath/nappy-changing combination can be height-adjusted by up to 10 cm and depth-adjusted by up to

**Art. no. 4830**  
 incl. baby bathtub

for extra large bath tubs with a max. depth of 80 cm

# Varix SL

luxurious personal care salon

Varix SL is a real jack-of-all-trades of bath/nappy- changing combinations: it scores points with a wide, soft changing area, a well-engineered children's bath tub, a fitted basket for all personal care items and above all also the opportunity to accommodate the Tummy Tub safely. For fans of the bath pail don't have to forego the convenience of this multitalent! And: Varix SL itself has everything under control, even on oversized bathtubs - with the extension detail, these can be up to a maximum of 88 cm wide. Here the robust adhesive feet hold the Varix SL firmly in place, preventing it from sliding and tilting - even during extended water fights. We have also taken account of parents: the entire design can be height-adjusted, which is pleasantly kind to the back.

When not in use this combination takes up a mere 93 cm when telescoped.

**Art. no. 4820**

bathtub/nappy changing combination unit, without bathtub for parents bathtubs with depth of 50 - 68 cm (dimensions inside)

**Colour - Vinyls:**

chrome - 10, 31, 32, 34, 35, 36, 37, 97 (see on page 77)

Varix perhaps does not have quite as many advantages as her big sister, but is no less talented: with this combination too, the tub vanishes beneath the well-cushioned changing mat after a good long bath, to save space. The solid structure made of chromed tubing is fixed at one height. If required you can add a basket for personal care items (to be amended separately), which keeps cream & co. at the ready on the side. Furthermore with Varix you have the choice: Varix is available with or without tub, with or without basket for personal care items, to insert (no. 5811), to attach (no. 4901) or even to fold up. Extremely variable - the Varix bath/nappy-changing combination!

# Bathtub stand

takes a leading role

## Bathtub stand

This bathtub stand allows your offspring to bath where they like: during the summer outdoors in the open on the patio or balcony, in the kitchen or shower or right in the middle of the bath - indeed always at a height that is kind to your back, which can even be adjusted by 10 cm and the stand includes an integrated safety catch; there is even enough room for a hand towel.

## Children's bathtubs

Suitable for small bathtub imps - each tub of course has its own plughole to allow it to empty more easily. By the way both hold approx. 30-35 litres of water. Available in maritime blue or white.

# Nappy changing pads

soft and comfortable

Our nappy changing pads not only comfort your little one, but they come with a raised edge, head protector and are - if the worst comes to the worst - rinseable. Which design best suits your and your tiny tot?

## Nappy Changer

With our product, any child's bed can be made into a changing table: lay the diapering pad in the desired position on the bed and fasten it into place with the clamps - you're done. Comfortable: The surface baby lies on and the three-sided raised edge are upholstered in soft material. Fits all standard children's beds.

# Kalle & Co

playful children`s furniture

**Art. no. 2411SET**

consisting of 2 x chair (seat height 32 cm) and 1 x table (64 x 53 cm, height 55 cm)

Colour: natural

**Bench no longer available!**

It's like a role play. When the little ones politely invite their guests to sit down, the grown-ups are hardly able to repress their smiles. The scene being played out is so similar to everyday family life. With a table, chair and bench made partly from solid beech, Kalle provides a good solid basis for endless entertaining activities. After all, a table not only serves as a dining table or a desk – it can be the focal point of group games or artistic ambitions, or the roof of a special secret hideaway...

# Bambino

cheerful and colourful

Children are engulfed by their own play worlds, which are tailored exactly to their sizes and requirements. Thus they play "grown-ups" in miniature and for once can at last feel at home on the proper scale. And since playmates are also cordially welcome, children's furniture needs to be really robust – in order to survive a wonderful childhood and be able to perform well during constant use .

# Pepino

colourful playland

No child's bedroom should be without brightly-coloured Pepino! The clarity of design and combination of bright colours and natural wood are both traditional and modern. Whether princess, dream dancer or budding climber, thanks to the high quality and its uncompromising safety, Pepino never falters - even if your child's play becomes a little too enthusiastic!

All corners are rounded for added safety. Pepino is a seating group that offers little ones all sorts of possibilities and is always up for adventure - making kites, listening to stories, sharing some snacks with a best friend. Practical: the roomy bench opens up, and there's plenty of extra space in the integrated storage box for toys and other treasures.

Colours: natural, mint, rosé, blue

# Tricycle

for budding explorers

Our little ones' first attempts to explore the world independently must be safe and yet full of adventure. This classic tricycle with the large front wheel is particularly stable while offering plenty of unbridled riding fun. Made of red-painted and natural wood, even very small children will be able to develop their sense of balance and steering on it, while we can relax and watch them cycle off into a life of movement and adventure.

**Art. no. 2964**

Beech plywood, rubber wheels,

# MyRunner

a kiddie's first wheels

**Art. no. 2963**

Solid beech wood, stain colored,  
plastic wheels, seat height 24 cm  
Colours: natural/red, grey/green

High quality workmanship in solid beech wood makes MyRunner the ideal mode of transport to start a child's vehicle park. Whether in trendy green/grey, happy multi-colour or classic natural/red - these speedy balance bikes entertainingly promote your youngster's motor abilities and put the biggest of smiles on the faces of even the smallest of kids! The solid rubber tyres on the resilient plastic wheels make next to no noise, meaning that your little one is also free to ride around indoors without causing the least disturbance.

# 2in1 Scooter

phenomenal

When very small children start to conquer our big world alone, the whole family embarks on a life of movement. It is overwhelming when a child takes its first independent steps – they are the important foundation for the child's development of balance, coordination and concentration.

Our new 2 in 1 scooter is a multifunctional scooter that easily converts to a walking bike, and supports the child's development perfectly over the years. It adapts individually to the child's growth and development stage and motor skills.

**Art. no. 2973**  
rubber wheels,

natural/blue

# 2in1 Bike

riding high

There's no better way to prepare for riding a bike - with just a little adjustment the functional 2in1 Bike can be transformed from a three-wheeler into a two-wheeler in a jiffy! The bike helps train your child's balance and motor abilities over a number of years and is also superb fun! An ergonomically shaped seat comfortably aids forward movement. Whether you opt for the 2-wheel or the sturdier 3-wheel version, the stable frame is made of solid birch multiplex wood and the seat height is freely adjustable between 29 and 41 cm. Consequently, the 2in1 Bike is the ideal companion for kids aged 18 months to 5 years. The ball-bearing mounted 12-inch rubber wheels and a handlebar rotation liwith of 30 degrees provide additional sturdiness.

**Art. no. 2970**  
Colour: natural

# Shirley

always there

Rocking away gently in the middle of events, Shirley will mellow any little rascal. Equipped with a 3-point harness, softly padded and multi-adjustable in height, the rocker allows the tot to take in everything going on around him/her safely and comfortably. The material insert can be easily removed via a zipper and is simple to clean. If required, the rocking function can be locked. Shirley is not only lightweight due to its aluminium frame, the snazzy navy stripe look in black or beige also makes it a real eye-catcher! And if Shirley is no longer needed, the rocker can be folded flat in an instant to save space when stored away.

**Art. no. 4707**  
Aluminium frame with plastic fittings,  
3-stage adjustable inclination, foldable

Colours:  
beige/white striped -150

# Rocco

Reassuringly safe  
& safely reassuring

**Rocco & Tamino**  
more information on page 31

**Art. no. 4705**  
Rockers made from beech,  
with carrying straps and  
5-point safety harness  
Colours: 143, 146, 154

Rocco has been carefully thought out down to the very last detail of rocking your child in safety: the 5-point safety belt can be precisely adjusted to the size of your child, allowing freedom of movement without any chance of escape. Both the angle of tilt of the bed component as well as the back and foot settings can be individually adjusted according to daily need. Rocco may be used as a rocker or the rocking function can be locked, alternatively it can also be securely fixed to the Tamino high chair - with maximum security naturally also ensured at the touch of a button, without any need for tools.
