Giuseppe De'Longhi
Chairman

In the ancient Italian city of Treviso, skilled De'Longhi designers and craftsmen have produced quality Italian products for generations.

Established by Giuseppe De'Longhi, the company has become world renowned for innovative, finely crafted products made from carefully selected materials. Distinctive Italian styling and well-designed features are evident throughout the De'Longhi product range.

Giuseppe De'Longhi and his team delight in sharing their passion for Italian culture with discerning people around the world who enjoy fine Italian products.

De'Longhi take pride in blending continuous innovation, quality and practicality with the unmistakable statement of their Italian award-winning design.

Who can resist a good looking Italian.

Who can resist a good looking Italian?

FULLY AUTOMATIC ESPRESSO MACHINES

REMOVABLE MILK JUG

De'Longhi's ingenious removable milk jug with IFD (Instant Frothing Device) technology provides the convenience of automatic frothing with easy storage. Simply press the self cleaning button after each use and place the jug in the fridge ready for the next time.

JUST ONE FINGER

Built-in simplicity is the feature of the Fully Automatic coffee machines. With just one finger and a single push of a button you can make superb Cappuccino, Latte or Flat White.

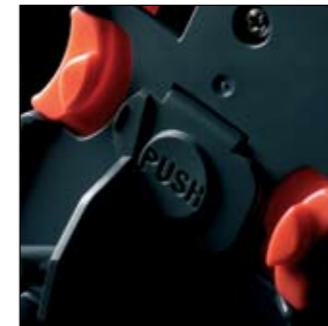

SILENT GRINDER

With a unique whisper quiet silent grinder, De'Longhi's Magnifica range offers various grinder settings for the preparation of freshly ground coffee. This particular technology, along with the high quality materials used, guarantee remarkably silent grinding.

THERMOBLOCK

The new patented stainless steel thermoblock delivers faster heat transfer enabling a constant temperature, ensuring the perfect water temperature from the very first coffee. The stainless steel surface also ensures that less descaling is required.

BREWING UNIT

De'Longhi's new patented brewing unit is so compact, the excellent heat distribution guarantees a perfect espresso at the ideal temperature every time. As the brewing unit is completely removable, cleaning the inside of the machine is easy, even in areas normally difficult to reach.

FRONT ACTION

The Magnifica range enables you to fill the water reservoir and empty the coffee grounds without moving the machine. All of the controls are at the front of the machine, from the on/off switch to the Cappuccino System

SELF CLEANING

For easy maintenance, the machine has a rinsing cycle which activates each time you start up and switch off. It also features a pre-programmed decalcification process called the De'Longhi DESCALER. This makes it easy to professionally maintain the machine within your own home.

EABI6600 PRIMADONNA BUILT-IN FULLY AUTOMATIC ESPRESSO MACHINE

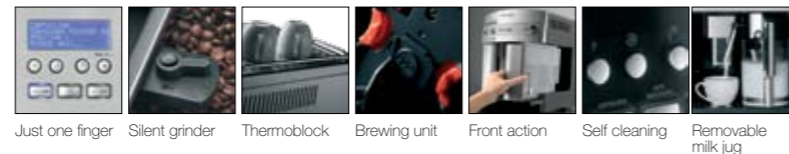

FEATURES

- 'Just one finger' for Cappuccino, Latte or Flat White
- Exclusive IFD System (Instant Frothing Device)
- Full stainless steel body
- Fully automatic espresso maker with precision integrated conical grinder
- Silent grinder for quiet operation
- Removable milk jug with variable milk setting, allows you to store it in the refrigerator after use
- One finger "clean" function for easy cleaning of the IFD
- New patented Thermoblock with stainless steel internal tubing
- Rapid cappuccino: the double water heating system allows you to switch from espresso to frothing milk and back again without delay
- Digital electronic display allows you to preset your selections
- Use either coffee beans or ground coffee
- 15 bar pump pressure
- Electronic thermostat to control water and steam temperatures
- Adjustable coffee strengths
- Adjustable coffee dispenser for varying cups sizes
- Adjustable coffee temperature
- Adjustable grinding
- Pre-brewing
- Programmable start-up time
- Automatic shut-off
- 1.8 litre removable water reservoir
- Removable brewing unit for easy cleaning
- Water level indicator
- Automatic rinse, decalcification and cleaning programs
- Removable drip tray with "full indicator"
- Cup warmer
- 2 year warranty

OPTIONAL ACCESSORY

- DRAWBIS (storage draw)

FEATURES

NESPRESSO COLLECTION

REMOVABLE MILK JUG

De'Longhi's ingenious removable milk jug with IFD (Instant Frothing Device) technology provides the convenience of automatic frothing with easy storage.

Simply press the self cleaning button after each use and place the jug in the fridge ready for the next time.

REVOLUTIONARY NESPRESSO CAPSULE SYSTEM

At the heart of the Nespresso system are the unique hermetically sealed capsules to guarantee the coffee's freshness when you make your coffee. Each capsule contains the perfect portion of roasted and ground premium coffee to guarantee perfect espresso every time. This coupled with a unique extraction system specially adapted to capsules is designed to deliver the freshest tastes and aroma's.

AAA SUSTAINABILITY

In 2003 Nespresso set out to create the first AAA grade coffees in the world by incorporating an additional A for sustainability to the AA for quality. AAA Sustainable Quality™ encapsulates Nespresso's quest to ensure their coffees are produced to the highest standards of quality balancing the creation of social and economic value for farmers and their communities, as well as contributing to the preservation of the environment.

UNIQUE EXTRACTION SYSTEM

The unique extraction system involves a three phase process. The first involves inserting the capsule into the jaw. This is followed by perforation of the capsule by three blades within the jaw. The final phase involves high pressure extraction producing a fantastic cup of coffee with a topping of thick smooth crema.

FLAVOURS

With a distinctive choice of 12 premium coffee flavours, even the most refined taste buds are accommodated. The Nespresso range has nine premium coffees while the Lungo range has an assortment of three mild premium coffees. Even decaffeinated coffee lovers are catered for with the Decaffeinato range of three coffee blends, (two espresso varieties and one Lungo variety).

AEROCCINO

The milk frothing solution that both froths and heats the milk for perfect cappuccinos, lattes, flat whites or macchiatos.

EN680M LATISSIMA NESPRESSO MACHINE

FEATURES

- Revolutionary Nespresso capsule system
- Exclusive IFD System (Instant Frothing Device)
- Stylish modern design with front panel in a metal finish
- Two automatic milk functions: Cappuccino or Latte
- Removable milk jug with variable milk setting allows you to store it in the refrigerator easily
- One finger "clean" function for easy cleaning of the IFD
- Programmable volume control
- Energy saving function
- Cup warmer
- Adjustable drip tray height for taller cups
- High pressure pump (19 Bar)
- Thermoblock water heating system
- Functional handle allows for easy coffee preparation
- Ejection of used capsules on lifting the handle
- Backlit capsule container for 15 used capsules
- Backlit button controls
- Removable water tank (1.2 litre capacity)

BONUS ACCESSORIES

- Latte macchiato glass and a glass espresso cup with saucer
- Bonus sample pack of 12 capsules

FEATURES

COFFEE COLLECTION

ACCESSORIES

De'Longhi offers an extensive range of accessories to complement their coffee range. These accessories range from functional necessities like the DESCALER, to finely crafted exquisite additions for your kitchen such as the Giannini Deluxe Coffee Set. All De'Longhi accessories have been designed with Italian styling and quality in mind.

IFD SYSTEM

Instant Frothing Device is a special automatic milk froth dispenser patented by De'Longhi. It combines milk, steam and air, dispensing a cascade of frothy milk directly into the cup for perfect cappuccino.

CAPPUCCINO FROTHER

De'Longhi's foolproof cappuccino system makes a rich creamy froth every time. Alternatively, control the level of froth yourself by removing the outer cover. The exclusive cappuccino system rotates 90° to allow for any size of milk container.

CREMA HANDLE

The 'Suprema Crema' handle allows you to produce a thick, creamy coffee crema at all times due to the specially designed back pressure system.

CONICAL GRINDER

De'Longhi conical grinders have various grind settings to ensure you get the perfect grind for your taste. By grinding at a slow speed a consistent grind is achieved with the full aromas trapped within.

1385 METROPOLIS MANUAL PUMP

FEATURES

- Titanium look finish
- 'Suprema Crema' handle for a great crema
- Foolproof cappuccino system for rich, creamy froth
- Easy to use controls with indicator lights
- 15 bar pump pressure for perfect coffee extraction
- Two separate thermostats to control water and steam temperatures for a perfect coffee
- Self-priming system – always ready to use
- Consistent hot coffee at the cup
- 0.7 litre removable water reservoir
- Removable drip tray for easy cleaning
- Convenient cord storage

FEATURES

Crema handle Cappuccino frother

EC330S STAINLESS STEEL MANUAL PUMP

FEATURES

- Stainless steel body
- Suprema Crema handle for a great crema
- "Foolproof" cappuccino system for rich, creamy froth
- Easy to use controls with indicator lights
- 15 bar pump pressure for perfect coffee extraction
- Two separate thermostats to control water and steam temperatures for that perfect coffee
- Self priming system – always ready to use
- Consistent hot coffee at the cup
- 1 litre removable water reservoir
- Removable drip tray for easy cleaning

FEATURES

Crema handle Cappuccino frother

EC750I STAINLESS STEEL 2 PUMP SYSTEM

FEATURES

- Stainless steel body
- Exclusive IFD System: Instant Frothing Device to select froth density from flat white to creamy cappuccino
- Exclusive 2-Pump system, enables perfect espressos and creamy cappuccinos to be prepared at the same time
- Suprema Crema handle for a great crema
- Easy to use controls with indicator lights
- 15 bar pump pressure for perfect coffee extraction
- Self-priming system – always ready to use
- Stainless steel boiler
- Consistent hot coffee at the cup
- 1.3 litre removable water reservoir
- Removable milk reservoir for easy cleaning
- Removable drip tray for easy cleaning
- Includes instructional video

FEATURES

Crema handle IFD system

EMK6A MOKA 6 CUP

FEATURES

- Easy to use single switch and indicator light
- Auto shut-off
- 'Keep warm' function for 30 minutes
- Cool touch handle
- Convenient cordless operation to serve anywhere
- Allows you to make from three to six cups of moka coffee

KG100 CONICAL GRINDER

FEATURES

- Precision controlled conical grinder
- Slow speed, aroma protecting grind
- Antistatic device to prevent ground coffee clumping
- Adjustable timer allows to grind the desired quantity of coffee
- Removable containers (beans and ground coffee)
- Quiet operation
- 180W power
- 250g bean capacity
- 90g ground coffee capacity

KG59 CONICAL GRINDER

FEATURES

- Precision controlled conical grinder
- Eight grind selections to choose the desired setting from fine to coarse
- Adjustable timer allows you to grind the desired quantity of coffee
- Double safety system
- Removable containers (beans and ground coffee)
- Quiet operation
- Self-contained cord storage
- 85W power
- 200g bean capacity
- 100g ground coffee capacity

KG39 BLADE GRINDER

FEATURES

- Easy to use selector and push button controls
- Grind selector for control of coarse, medium or fine for that perfect grind
- Stainless steel blades
- Makes ground coffee for up to twelve cups
- Rubberised grip allows you to grip the grinder with ease
- Quiet operation
- Self-contained cord storage
- 150W power
- Rubber feet so the unit stays in place
- Inbuilt coffee reservoir in lid

KG30 BLADE GRINDER

FEATURES

- Stainless steel blades
- Makes ground coffee for up to twelve cups
- On / off push button control
- Rubberised grip allows you to grip the grinder with ease
- Self-contained cord storage
- 150W power
- Rubber feet so the unit stays in place

5832123400 GIANNINI DELUXE COFFEE SET

As part of the De'Longhi Coffee experience, the Giannini Deluxe Coffee Set was selected with style in mind. This elegant Giannini set is exclusive to De'Longhi to offer the ultimate in your coffee drinking experience.

FEATURES

- Two Latte glasses and metal saucers, four porcelain espresso cups and saucers and a metal sugar bowl

DE'LONGHI COFFEE ACCESSORIES

ESAM6600JUG

- Removable milk jug with variable milk settings, allows you to have more than one type of milk on offer

ESAM3500JUG

- Removable milk jug with variable milk settings, allows you to have more than one type of milk on offer

SSFJ10L / SSFJ06L FROTHING JUG

- Stainless steel milk frothing jug available in 0.6 litre and one litre sizes

5532125200 CAPPUCCINO
5532125100 ESPRESSO

- Set of two brushed stainless steel cappuccino cups with saucer and teaspoon
- Set of two brushed stainless steel espresso coffee cups with saucer and teaspoon

CKBB KNOCKER BOX

- Coffee Knocker Box with a sleek design to complement any manual De'Longhi coffee machine

5532125900 CAPPUCCINO

5532125300 MILK JUG AND SUGAR BOWL

- Serve the coffee in style with a brushed stainless steel set that includes a milk jug (0.25 L) and a sugar bowl with teaspoon

PICARDIE220 LATTE
PICARDIE90 ESPRESSO

- Stylish glasses available in espresso and latte sizes

DESCALER

- Descaling solution prevents minerals and scale build up in the water heating area boiler and tubes

5532125400 CHOCOLATE SHAKER

FEATURES

- Stylish brushed stainless steel chocolate shaker

5532125000 SERVING TRAY

FEATURES

- Elegant rectangular brushed stainless steel tray (dimensions 35.5cm x 28.5cm)

5532125500 MEASURE AND BRUSH

FEATURES

- Brushed stainless steel set includes a brush to clean the coffee grinder and a ground coffee measure

ESCLUSIVO COLLECTION

“The design needs to pay attention to what is happening in the world, there are specific trends that you can “sniff”, cultural situations that are evolving; the characteristic of DeLonghi is to always be on the front foot in interpreting these new factors and in translating these trends into new products.”

Giacomo Borin – De'Longhi Designer
Listed one of 50 most influential designers in the housewares industry.

IF DESIGN AWARD

The iF product design award is one of the world's three leading design awards and has a proud 50 year history.

Every year at the Hannover Exhibition Centre some 2,000 products from around 37 nations are judged by renowned experts. The best of them receive an iF seal of outstanding design quality – a worldwide design mark with high recognition value – guaranteeing its owner a place on the cutting edge of contemporary design.

reddot design award

RED DOT AWARD

The international “red dot design award” ranks among the largest and most renowned design competitions in the world. It is divided into the “red dot award: product design”, the “red dot award: communication design” and the “red dot award: design concept.”

The numbers speak for themselves: the red dot design award attracted almost 6,000 submissions from 52 countries in 2006 alone. The award-winning products are put before an international public in the red dot design museum.

Each year an international jury reviews and evaluates the submitted products according to criteria such as degree of innovation, functionality and the formal quality. This ensures the seriousness of the competition and its international acceptance.

The group of jurors is made up of renowned designers and design experts from all over the world who reach their decisions on which designs are good enough to receive a red dot award independently and impartially. The composition of the jury changes from year to year, ensuring a high degree of objectivity and reliability.

De'Longhi is proud to have won both iF and Red Dot Awards for their Esclusivo collection.

KF8170H ESCLUSIVO BLENDER

FEATURES

- Brushed stainless steel finish
- Electronic variable speed
- Stainless steel ice-crushing blade
- High-resistance anti-scratch glass jug
- Removable filler cup with oil drip feed
- "Pulse" function with safety switch
- Detachable blade for easy cleaning
- Safety device on the base
- Non-slip feet for perfect balance
- Capacity: 1.5 litre
- Power: 525 Watt

CTH4003 ESCLUSIVO 4 SLICE TOASTER

FEATURES

- Brushed stainless steel finish
- Electronic browning control
- Independent controls for each side of two slots – allows for different breads or toasting preferences
- Defrost function
- Indicator lights for defrost and reheat functions
- Stop / cancel button
- Removable crumb tray for easy cleaning
- Non-slip feet
- Deep variable width slots
- High lift allows a variety of breads to be toasted

KBH2401 ESCLUSIVO KETTLE

FEATURES

- Brushed stainless steel finish
- Illuminated water indicator
- Concealed element
- 3-level safety protection:
 - Auto shut-off when water begins to boil
 - Thermal cut-off
 - Auto shut-off when body is lifted from base
- Power-on LED integrated in the switch
- Removable and washable scale filter
- Cord storage
- Non-slip feet
- 360° swivel base with cordless kettle
- 1.7 litre capacity
- Removable lid

CTH2003 ESCLUSIVO 2 SLICE TOASTER

FEATURES

- Brushed stainless steel finish
- Electronic browning control
- Defrost function
- Indicator lights for defrost and reheat functions
- Stop / cancel button
- Removable crumb tray for easy cleaning
- Non-slip feet
- Deep variable width slots
- High lift allows a variety of breads to be toasted

BREAKFAST COLLECTION

METROPOLIS

Metropolis is an impressive line of home appliances made by De'Longhi. Modern objects that are part and parcel of the future, but at the same time speak the language of a bygone era. The Metropolis range of products are made of metal and are finished with a non-finger marking titanium look. The gunmetal tone and definitive Italian design that is certain to suit any home.

ARGENTO

For those wanting to enrich their home, the De'Longhi Argento range draws on the traditions of the past and projects them into the future. The original and timeless designs are refined with the benefits of De'Longhi's advanced technical solutions and enhanced with a striking brushed silver, non-finger marking finish. The Argento range represents the effortless blending of timeless elegance with modern design.

WATER WINDOW

All De'Longhi kettles are designed with the convenience of a water window to allow easy viewing of the water level.

SAFETY

De'Longhi kettles are packed with safety features including auto shut-off when the water boils or is lifted off its base. And with a 360° swivel base, you'll always have easy access.

ELECTRONIC BROWNING

All De'Longhi toasters have a progressive electronic toasting adjustment and an electronic sensor to control browning of the bread. This allows each slice to be cooked to perfection.

JE850M METROPOLIS JUICE EXTRACTOR

FEATURES

- Titanium look finish
- Aluminium die-cast body
- Powerful 850 watts
- Two speed electronic control for juicing soft or hard fruit and vegetables
- Removable transparent 1.2 litre juice container
- Extra large 75mm feed chute for whole fruit
- Transparent top allows you to watch the juicing process
- Removable pulp container
- Dishwasher safe stainless steel blade and filtering basket

KS3000M METROPOLIS CITRUS JUICER

FEATURES

- Titanium look finish
- Aluminium die-cast body and leverage
- Continuous flow
- Anti-drip spout
- Pulp density selector
- Removable juice container
- Transparent dust cover
- Automatic start / stop function
- Two way motor rotation

CTM4023 METROPOLIS 4 SLICE TOASTER

FEATURES

- Titanium look finish
- Electronic browning control
- Independent controls for each side of two slots – allows for different breads or toasting preferences
- Defrost function
- Indicator lights for defrost and reheat functions
- Stop / cancel button
- Removable crumb tray for easy cleaning

BENCHTOP COLLECTION

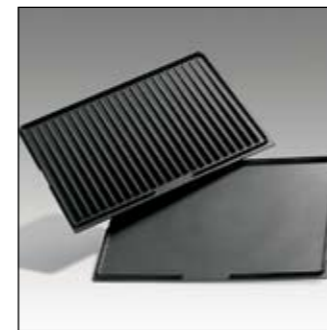

PERFECT OIL DRAIN SYSTEM

The perfect oil drain system facilitates drainage of grease and fat, making cooking with the range of De'Longhi grills a healthy alternative. The extra large, concealed drip tray is designed to collect fat from both plates leaving less chance of dangerous spills.

DURASTONE

De'Longhi's Durastone enamel produces a perfectly smooth internal cavity surface enabling the benchtop oven to withstand just about anything. And cleaning is as easy as a quick wipe with a cloth soaked in a small amount of dishwashing liquid after each use.

REMOVABLE PLATES

The De'Longhi CG660 health grill features removable and reversible plates for easy cleaning. Each plate has a grill on one side and a flat plate on the other to allow for different styles of grilling. The plates are non-stick and dishwasher safe.

ROTOFRY

Only half the amount of oil used in traditional fryers is required with De'Longhi's unique rotofryers. The rotating frying basket, cooks the food by rotating it in and out of the hot oil to ensure even cooking without saturating it in masses of oil.

EASY CLEAN

De'Longhi's patented "Easy Clean System" has been designed to easily drain the oil from the deep fryer after use. The F18316 also features a filter and a basket which ensures safe and easy storage of the oil until it is next required.

MW865F MULTIFUNCTION OVEN

FEATURES

- 30 litre oven cavity
- 5 cooking combinations:
 - Microwave only
 - Grill only
 - Microwave and grill
 - Fan oven only
 - Microwave and fan oven

 - chilling only system function to maintain the gelato at the right temperature until consumed
- Power 230 watt
- Bowl, lid and paddle are dishwasher safe

ACCESSORIES

- Recipe book
- Spatula

STEAM STATIONS

DIGITAL DISPLAY

De'Longhi WX2200 features a digital display allowing the user to choose among eight different ironing programs including Quick & Go, Synthetics, Silk, Wool, Cotton, Linen, Jeans, Vertical Ironing. It also enables you to enter your own manual program.

AUTO OFF

This feature enables you to program the iron to shut down automatically after a preset time has lapsed. As an additional safety feature, the iron will automatically shut down after one hour if no time has been preprogrammed.

REGENERATING RESINS

To extend the working life of your ironing system, the appliance indicates when the lime scale filter needs regenerating. The new regenerating resins reduce the build up of calcium deposits in the boiler. The resins can be easily regenerated with a solution of citric acid which is included with the unit.

NO DRIP

The exclusive "No Drip" system automatically turns the steam off if the soleplate temperature is set too low. This ensures that water does not drip onto your fabrics.

SAFETY

Extra safety is guaranteed during transportation with the new locking position which keeps the iron well secured during movements.

CONTINUOUS REFILLING

The removable / refillable water tank allows you to iron endlessly without having to stop to refill the boiler. This will save both time and energy while ironing.

DE'LONGHI STEAM STATIONS

VVX2200 STEAM STATION

FEATURES

- Digital display with eight program settings plus a manual setting
- Regenerating resins for reduced calcium problems
- Continuous refilling
- Ironing locking device for safe transportation
- Ready in two minutes
