# Katun® Product Brands and Technologies

## Katun® Performance™ Products

Katun® Performance™ is our complete line of office automation products that combine our highest quality level with consistent, reliable performance and competitive pricing - and provide excellent overall value.

Katun® Performance™ products meet strict quality guidelines and have been 100% tested and approved according to the Katun® 360° Certification process, which includes environmental testing, forward and reverse compatibility testing, model application testing, and component compatibility testing. In addition, all Katun® Performance™ products are warranted to be free from functional defects in material and workmanship for one year and come with the highest level of Katun® technical support.

To locate Katun® Performance™ products, look for the Katun® Performance™ icon  throughout this catalog.

## Katun® Business Color

Katun® Business Color products provide excellent color quality - including halftones, image resolution, and gloss - consistent with performance expectations in business color environments. These Katun® toner products provide OEM-equivalent print quality, fusing performance, and yields, and meet or exceed end-user performance expectations in business color applications - where precise color matching is not a primary requirement. For graphics color applications - choose Katun® Performance™ color products.

## Katun® Access™ Products

Katun® Access™ is a line of selected products that address the unique pricing or product needs of specific markets. Katun® Access™ products provide market acceptable quality and market competitive pricing. The Katun® Access™ product line complements the Katun® Performance™ line by providing a value proposition based primarily on specific market needs.

Katun® Access™ products have a one-year warranty. Although Katun® Access™ products provide some price advantages, remember that Katun® Performance™ products always provide excellent overall value.

## Original Products

Select OEM brand products that Katun® offers to meet certain market needs

## Fuser Roller Coating Technologies

**REVOLUTION™ upper fuser rollers** utilize a PFA sleeve coating that is more environmentally friendly than standard spray technology, while still achieving uniform coating thickness and even heat distribution. These fuser rollers provide proper fusing, excellent abrasion resistance and long life, even during extensive copy runs.

**DURACON™II upper fuser rollers** are manufactured with a heat-resistant, nonstick TEFLON® brand coating that includes patented conductive additives for static dissipation. These rollers provide excellent fusing performance, toner release, and long life, primarily in machines using positive-charge toner.

**DURACON™III aluminum copier and printer rollers** feature an electrically conductive PTFE coating system that is the culmination of extensive research and development. The system offers an unequaled balance in terms of coating release and smoothness, as well as patented electrical property formulations and abrasion resistance characteristics.

**ALUMANA™ upper fuser rollers** are manufactured with extremely hard, tough primer and midcoat layers for maximum resistance to wear and abrasion. The ceramic ALUMANA™ coating combines a DuPont-patented polymer blend with reinforcing oxides for enhanced durability. These heavy-duty rollers are specifically designed to meet the demands of hostile fuser station environments and higher-speed machines using either positive-charge or negative-charge toner.

**TRITON™II upper fuser rollers** are manufactured with an advanced TEFLON® brand coating that provides improved fusing performance and nonstick characteristics in comparison to conventional fluoropolymer coatings. Unique static-dissipative particulates within the TRITON™ II coating, together with enhanced manufacturing processes, contribute to these rollers' superior abrasion- resistance and excellent toner release. These rollers provide extended potential life in selected machines using either positive- charge or negative-charge toner.

**TRITON™III upper fuser rollers** utilize a unique 3-coat system that blends PFA, FEP and PTFE coatings with additional resins to provide a highly specialized coating specifically developed for the copier roller industry. The key is the internally reinforced basecoat, which provides increased abrasion resistance (durability) without sacrificing excellent release properties. This 3-coat system provides a smoother finished surface than many standard systems, reducing the need to polish most thin-walled rollers, which can be susceptible to damage during polishing.

**TUF/SIL™ upper fuser rollers** are manufactured with a layer of silicone rubber that effectively regulates heat flow to the toner, plus an outermost layer that consists of a specially blended TEFLON® brand coating providing excellent toner release and abrasion-resistance. This combination ensures reduced toner offsetting and improved, more consistent copy quality under certain demanding machine usage conditions. These rollers provide a high-performance, cost-effective solution for selected machines required to consistently produce the best possible copy quality.

**MICROSLEEVE™ lower pressure rollers**, with nonstick PFA sleeves 50, 70, or 100 microns in thickness, provide excellent wear-resistance for improved copy quality over an extended life. A-Series MICROSLEEVE™ lower pressure rollers are designed specifically for machines utilizing lower fuser cleaning rollers. Their unique surface texture reduces toner buildup and improves cleaning efficiency within the fuser station.

All Katun® fuser rollers are designed specifically for their intended applications and manufactured to exacting quality standards, ensuring their excellent performance and long life.

### **Fuser Cleaning Roller Coating Technologies**

Katun® has introduced unique fuser cleaning roller technologies for machines requiring efficient removal and absorption of excess toner and contaminants, as well as continuous silicone oil lubrication of critical fuser station parts. For many machines, the ideal parts combination for achieving optimum copy quality and maximum parts life includes a specially designed Katun® fuser cleaning roller.

**FIBRA™ fuser cleaning rollers** incorporate a uniform network of special fibers that aggressively remove excess toner and contaminants from the contacted surface. By efficiently depositing toner and contaminants beneath its outermost surface, the unique FIBRA network also helps maintain a continuous lubricative flow of silicone oil from the roller's internal tank to critical fuser station parts.

**FIBRA™II fuser cleaning rollers** incorporate a unique configuration of highly heat-resistant fibers to greatly enhance cleaning performance, especially in hostile fuser station environments. Efficient absorption of excess toner and contaminants, together with continuous silicone oil lubrication of critical fuser station parts, effectively reduce parts and service expenses associated with the fuser station.

TEFLON® is a registered trademark of E.I. DuPont de Nemours and Company used under license by Katun® Corporation.

## General Information

### Credit Terms and Ordering Information

#### Credit Terms

Standard credit terms are net-30-days from date of invoice. To open a net-30-day account, please contact the Katun® Credit Department. Until your credit application is approved, orders will be shipped upon receipt of cash in advance or a confirmed, irrevocable letter of credit, or via C.O.D. Katun® also accepts Visa, MasterCard, and American Express.

#### Cash-In-Advance Discount

Katun® offers a 3% cash-in-advance (CIA) discount on certain products. We will calculate the 3% discount, promptly inform you of the total charges, and ship your order immediately upon receipt of your payment.

#### Placing Orders

Katun® is not subject to terms and conditions set forth in any non-Katun® order form. Only those terms and conditions set forth in this catalog apply to your orders from Katun®.

Orders should be written on your purchase order form or on a Katun® order form; please include your purchase order number with each order.

For your convenience, orders may be placed by:

- **Internet: via the Katun on-line catalog ([www.Katun.com](http://www.Katun.com)). (available 24 hours)**
- **E-mail: [intlorder@us.katun.com](mailto:intlorder@us.katun.com)**
- **Fax: 52-(449) 922-7101 (24 hours)**
- **Telephone: 52-(449) 922-7100 (24 hours)**

For all fax orders, you will need to supply the following information: your Katun® customer number, name, company name, address, ship-to address, telephone number, and P.O. number. You will also need to specify Katun® part numbers, quantities, brief product descriptions, and your preferred method of shipment. Prices are in U.S. dollars, ex-works Katun® Distribution Center, Davenport, Iowa, U.S.A. Katun® business hours are 8:00 a.m. to 5:00 p.m., Central Time (CT) Monday through Friday.

Katun® ships most parts and supplies orders to its customers 24-48 hours after release to the warehouse. A \$5.00 handling charge will be added to orders under \$50.00.

#### Wire transfer funds to:

US Bank  
 Minneapolis, MN  
 Beneficiary: Katun Corporation  
 Account# 160233346156  
 Routing# 091000022  
 Swift# USBKUS44

### General Shipping Information and Product Return Policies

#### Shipping and Handling

Shipping and delivery charges can be included in your invoice. Katun® receives reduced rates from the carrier due to volume of product shipped, and will pass these savings on to you.

## Product Return Policies

- Katun® must preauthorize all product returns. To receive a return authorization number, contact the Customer Service Department at 52-(449) 922-7100
- Katun® will not accept any returns without a return authorization number.
- Returns and refused shipments are subject to a minimum 10% restocking charge.
- Returned goods must be shipped freight prepaid.
- Merchandise returned more than 90 days from the invoice date will not be accepted (with the exception of product warranty claims).
- Merchandise which has been written on, marked, relabeled, or placed in other than original Katun® packaging will not be accepted.

## Product Safety Information

Material Safety Data Sheets (prepared according to U.S. law) for Katun® products are available upon request. To receive copies, contact the Customer Service Department at 52-(449) 922-7100
