Dear Middle Tennessee Homeowner,

We all share a moment in life when we realize we made a serious mistake hiring a contractor or giving money to a person we didn't thoroughly vet. Sadly, we learn this lesson when it's too late to recover our loss. As a longtime investigative reporter, having spent a number of those years with WSMV-TV, I realized too many consumers were making the same mistakes over and over.

In 2008, I spent the year creating a seven-point investigative checklist that would eliminate 99.9% of the mistakes that led to bad outcomes. In this guidebook, you will only find companies that have "findable" offices, carry liability insurance, price fairly, maintain great reputations, provide equitable contracts and most importantly, honor my *\$10,000 Make It Right Guarantee*. You see, most companies offer warranties, but guess who's in charge if something goes wrong? They are! With my *\$10,000 Make It Right Guarantee*, every company in this handbook (and on my website TrustDALE.com), has agreed in writing, to put me in charge of Making It Right – for you! Think about that... It takes a pretty confident company to put a true third party in charge of outcomes.

The vast majority of homeowners who use this handbook never have a problem and return to use my researched recommendations again and again. The reason is simple. We all want to be part of a community where trust is a cornerstone. A community where value driven companies sell great products for a fair profit, and value seeking consumers buy great products at fair prices.

I invite you to read the research of our certified companies and contact them with confidence, and when you get a chance, check out our ongoing investigations on TrustDALE.com. One more thing; unlike other printed and online resources, we never require your personal information. So, enjoy your peace of mind, and welcome to TrustDALE!

Dale Cardwell  
President/Founder  
TrustDALE

## **Customer Reviews:**

“Mike (Tony) and Ben did an absolutely wonderful job on our two projects. Lifting our walkway and sealing/finishing of cracks in our driveway went flawlessly and Mike did a great job of communicating just what was going to happen and the possible challenges they may encounter. Very clear and concise communication and expectations set. I really appreciate the craftsman level work completed and they left the job site as clean (even cleaner) than before they got there. Cannot recommend these two gentlemen more as well as Frontier Basement Systems and their communication (live and automated). Ashley was superb in that role. I would not hesitate to call Frontier for any future needs or recommend to anyone. Thank you.” ~ Mike L.

“We had Brad, Brennan, and Matt come out to our house to put in smartjacks. They were very pleasant when they arrived. They were scheduled for 2 days and finished in a day and a half. They cleaned up the area before they left. I would highly recommend Frontier to come do any work on your house. Very professional guys! It costs a pretty penny, but well worth it. Our floors seem more level and things don’t rattle when we walk through the house. I give Frontier 10/10!!” ~ Bibake U.

“Fernando and Jose called to let me know they were on their way. They arrived on time and were courteous and went right to work. They were professional, skilled and thorough. I appreciated their taking time to answer my questions. Highly recommend this company. Very impressed and pleased with their employees and product.” ~ Margene S.

When you work with the Gutterman of TN, you can depend on unsurpassed service and quality.

## **Customer Reviews:**

“This is my second project with Gutterman of TN. Excellent service just like last time. While the first project was installing new gutters, this project had two unusual pieces. One was replacing a 20-year old sagging gutter that didn’t drain properly and was causing some water issues in the basement area. The Gutterman crew came out and solved the problem in a couple of hours. The other part of the project was a custom drain they fabricated for my pergola roof so the gutter is “hidden” from view. Very versatile team. Scott and his crew are great to work with. Recommend them to friends and will always be my first choice to call.”

~ Kevin B.

“Gutterman of TN installed new gutters on my home. The owner went out of his way to assist me in getting the job done the way I got the best value and long term benefits. Since I needed my house painted as well as where the gutters hang, he was kind enough to recommend a painter. The painter came and painted after Gutterman removed the gutters and then returned and replaced the gutters. The gutters look great and are functioning perfectly. The Gutterman employees were punctual and professional. I cannot think of a time I have had better service on my home. A big thank you to Gutterman of TN!” ~ Rich H.

## **Customer Reviews:**

“This company is great! They always go above and beyond for their customers! We’ve used them for a year now and our yard looks great and have no problems with pests. Highly recommend them! And a big shout out to Jon who is always helpful.” ~ Lisa L.

“I have only had lawnmowers for a few months and they’ve done better than other companies did in a year. I also used them for aeration and seeding and they were great. Took their time and cared for the yard. As a result, grass grew all over the yard, not just out of a few holes :) I also put down some Pete Moss which I know helped but they landed me extra seed for free to mix in with the Pete Moss. Great company.”

~ Michael H.

“At our previous residence, I had used two well-known service providers and was incredibly disappointed with the quality of their service. After a few years in our new place, I decided to try again to find someone who could help us grow grass and manage weeds in a yard with a lot of shade and some rocky soil. Lawnwise has exceeded my expectations on both counts. Their team is extremely professional, knowledgeable and conscientious. They are more than willing to come out and address any areas of concern between treatments and are great about sharing their expertise. I cannot recommend them enough.” ~ Alan J.

“About 3yrs ago due to my health I could no longer care for my yard like I wanted to. I checked out a few places and all seemed very impersonal and I did not feel comfortable with any of them. Then I found Brooks Lawncare. Mr Brooks was very nice, made me feel very comfortable and came out and looked at my yard and gave me a very fair price to do the work. Not only has he always done an awesome job but has always been very nice to me. He cares about the job that is done by him or anyone helping him. Ben is honest, on time, came in under budget, responsive, easy to schedule with, very hard working, and knowledgeable about how best to approach and fix problems. He's hands down the best handyman/fixer that we've found in Nashville." Michelle

"During the first year we lived in our house, our wood deck attracted carpenter bees and started rotting with each successive rainstorm. We hired Kramer Projects to assess the damage and make recommendations. They arrived promptly upon being contacted and suggested a Trex deck. After purchasing the materials from Lowes, more than 50% of the materials that arrived were incorrect. Rather than returning them, we allowed Kramer Projects to use the errant materials to build a design into our deck. The result was a million times better than we could have ever imagined. During the build, we added an outdoor shower to our deck which turned out lovely. Fast forward one year, and we have no more rotting and no more carpenter bees. Ben Kramer and his team at Kramer projects were exceptional! They arrived for work on time and worked hard. Our deck was completed expeditiously. I have since recommended them to my friends and will continue to do so. We couldn't be happier." Gabriel Pincus

We are already getting asked by neighbors about who we used and we can't recommend Palm Beach Enclosures enough!" ~ Kathleen C.

"I was very pleased with work that was done and the product was superior then the competitive brands we looked at! The communication between us and the company was also superior! I had two other companies that took forever to get back with me in an estimate and one didn't even make it out to our house when he was supposed to or call to cancel! Palm Beach Enclosures went above and beyond from start to finish and we couldn't be happier!!" ~ Christian C.
