YOUR DAYS IN THE AFRICAN BUSH

Morning Safaris

Tue. Mar 9 - Fri. Mar 12

An early morning call from the Ranger will wake you before first light, while the kitchen brews hot coffee or tea and freshly made delicacies. So, begins the morning safari. Highly trained and experienced rangers and trackers ensure that your safari experience ranks amongst the best in the world. You can look forward to fantastic close-up experiences with Africa's wildlife on every game drive. The bush is already alive, the air filled with birdsong as the rising sunlight dances off beads of dew on spiders' webs.

Evening Safaris

Evening falls and you prepare for the night safari. As the fierce heat of the day cools, the inhabitants of the bush become restless, and the animals move out of the shade of the trees. The call of the crested francolin reverberates through the bushveld and birds increase the volume of their song. You will be aware of colors softening to the beautiful, gentle hues that vary with each season. New scents fill the air and as the sun dips behind the horizon your Ranger will choose a spot where you can stretch your legs and enjoy sundowners alongside the vehicle. Watch in awe as the sky turns to the sensational vibrant reds, golds and oranges typical of an African sunset. There is a lull as the animals sense the transition into a time of increased danger. It is during evening safaris that the nocturnal hunters start stirring, and their prey needs to be alert for survival through the night.

Guided bush walk

On the environmental awareness walking safari you can be part of a small group that sets out on foot. The walk is an opportunity to feel the pulse of Africa through the soles of your feet and experience the bushveld at close quarters.
