

# Ladybugs of Minnesota

This poster illustrates 42 of the more than 50 species of ladybug known to occur in Minnesota. All across Minnesota and eastern North America, certain native ladybugs are disappearing! In just the last 20 years, some of these beneficial predators of farm and garden pests have become extremely rare. This rapid decline is of great concern. If we can find where the rare Nine-spotted, Two-spotted, and Transverse ladybugs still live, we may learn why this has happened and still be able to save them. At the Lost Ladybug Project website [lostladybug.org](http://lostladybug.org), you can learn how to catch, photograph, and send images of ladybugs and be part of the database. Every ladybug you find (over 400 species in the United States), rare or common, native or exotic, is important.

*Scymnus fraternus*  
2.43 mm

*Scymnus lacustris*  
1.31 mm

*Hyperaspis binotata*  
3.45 mm

*Scymnus tenebrosus*  
2.24 mm

*Hyperaspis bigeminata*  
2.88 mm

*Hyperaspis brunescens*  
2.40 mm

*Hyperaspis undulata*  
2.28 mm

*Anisosticta bitriangularis*  
3.50 mm

*Chilocorus stigma*  
4.38 mm

*Hyperaspis inflexa*  
2.33 mm

*Brachiacantha tau*  
4.95 mm

*Brachiacantha albifrons*  
3.45 mm

*Brachiacantha ursina*  
3.50 mm

*Brachiacantha decempustulata*  
2.25 mm

*Brumoides septentrionis septentrionis*  
2.95 mm

*Hippodamia glacialis glacialis*  
6.75 mm

*Hippodamia convergens*  
5.75 mm

*Hippodamia tredecimpunctata tibialis*  
5.45 mm

*Hippodamia q. quinquesignata*  
5.50 mm

*Hippodamia parenthesis*  
4.68 mm

*Hippodamia quindecimmaculata*  
6.25 mm

*Myzia pullata*  
7.25 mm

*Calvia quatuordecimguttata*  
4.75 mm

*Olla v-nigrum*  
4.90 mm

*Psyllobora vigintimaculata*  
2.38 mm

*Anatis labiculata*  
8.35 mm

*Anatis mali*  
8.65 mm

*Coleomegilla maculata lengi*  
5.40 mm

*Coccinella hieroglyphica kirbyi*  
4.20 mm

*Coccinella trifasciata perplexa*  
4.50 mm

*Mulsantina hudsonica*  
4.24 mm

*Mulsantina picta*  
4.32 mm

*Cycloneda munda*  
4.70 mm

*Coccidula lepida*  
3.10 mm

*Macronaemia episcopalis*  
3.50 mm

LOST

*Adalia bipunctata*  
4.35 mm  
(Two-Spotted)

LOST

*Coccinella novemnotata*  
5.85 mm  
(Nine-Spotted)

LOST

*Coccinella transversoguttata richardsoni*  
6.40 mm  
(Transverse)

*Coccinella monticola*  
6.10 mm

Non-Native

*Hippodamia variegata*  
5.0 mm

Non-Native

*Coccinella septempunctata*  
7.15 mm

Non-Native

*Harmonia axyridis*  
6.12 mm
