NETWORK/DVD/CD RECEIVER SYSTEMS, SLIM AV MICRO SYSTEM, AND COMPUTER SPEAKERS 2012-2013

Your Space, Your Sound

Whatever your taste, Pioneer's Network/DVD/CD Receiver Systems offer a compact solution for enjoying the latest content from various sources. The network-capable models feature AirPlay, built-in Wi-Fi, Internet Radio, and are DLNA Certified™ (1.5). These systems and the Slim AV Micro System are equipped with iPod/iPhone docks — so you can easily play your favourite tunes.

Feature Highlights of Pioneer's Network/DVD/CD Receiver Systems

Class D Amplifier
HM81 HM71

The systems are elaborately equipped with the new MOSFET called Direct Power FET, which was developed for Pioneer's top-of-the-line amplifiers. The semiconductor chip is directly connected to the circuit board, and this simple structure provides a highly efficient, clean signal path, with no need for a heat sink, proving quality sound in high power.

Layered Chassis, Gold-Plated Terminals, and Quality Speakers
HM81

The 1.2 mm Layered Chassis reduces unwanted vibrations, while also proving stability with low centre of gravity. Various quality parts are used on the system for superior sound reproduction, such as gold-plated terminals, highly rigid glass fibre woofers, and film capacitors for the crossover network.

Layered Chassis   Gold-Plated Terminals

2.4" LCD Display
HM81 HM71

The 2.4" full-colour LCD can display track information and even album artwork for the playing song.

AirPlay Wireless Audio
HM81 HM71

AirPlay — Enthusiasts have complete access, control and playback of their entire iTunes music library wirelessly through their system. Users can quickly and easily enjoy all their music with song information and album art simultaneously displayed on the LCD.

AirPlay

Music Throughout the House
Livingroom
Bedroom   Kitchen
Connect multiple speakers to your network to enjoy music throughout your home.

Wireless Direct
Wireless Direct allows direct wireless connection with your Wi-Fi enabled device, without the need for a wireless router.

Ultimate Portability
Rechargeable Battery Water Resistance
Take it anywhere, and enjoy hours of music with the rechargeable battery.

Audio Artistry
SOUND TUNED BY ANDREW JONES
a. Jones
Chief Speaker Engineer
Created by world-renowned speaker engineer Andrew Jones, this speaker offers high performance and exceptional quality.
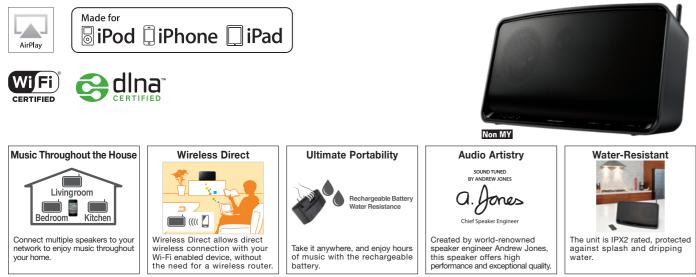

Water-Resistant
The unit is IPX2 rated, protected against splash and dripping water.

* Wireless Direct feature is unencrypted, and may have security risks. The unit may operate if a third party connects and plays music from a wireless device.
