# SPRING GRADUATION UNIVERSITY OF MICHIGAN

2020

This book includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

## LETTER FROM THE PRESIDENT

Dear Graduates,

Class of 2020, you did it!

On behalf of the Board of Regents and everyone at U-M, congratulations!

Your final semester was one of unexpected difficulty, as you were forced to cross the finish line to graduation during a global pandemic. You persevered and succeeded nonetheless.

I look forward to congratulating you in person when we convene for a Class of 2020 commencement ceremony that we can safely host on campus.

The COVID-19 pandemic has upended life throughout the United States and all around the world. But it has also revealed once again the importance of research universities and the need for educated, creative and talented people to rise to confront a challenge.

This includes all of you.

We have all seen the effects of the pandemic as they relate to medicine, public health, business, public policy and education. At the same time, other disciplines have engaged deeply and importantly, whether it is using technology to bring the arts to people while they shelter in their homes, or through examining the disparities among people that are being exacerbated by this virus.

As a society, we need talented individuals in all disciplines to challenge the uncertain future that the pandemic has thrust upon us.

I am ever so grateful that you, the University of Michigan Class of 2020, will rise to meet it.

Go Discover.  
Go Achieve.  
Go Serve.  
And Go Blue!

Sincerely,

**Mark S. Schlissel**  
President

## **SCHOOLS AND COLLEGES OF THE UNIVERSITY**

In order of year of founding.

### **College of Literature, Science, and the Arts**

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

### **Medical School**

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

### **Law School**

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

### **School of Dentistry**

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

### **College of Pharmacy**

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.

## **College of Engineering**

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, health care, business, and the sciences, improving the quality of people's lives around the world.

## **Horace H. Rackham School of Graduate Studies**

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

## **A. Alfred Taubman College of Architecture and Urban Planning**

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

## **School of Education**

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

## **Stephen M. Ross School of Business**

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor's, master's, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

## **School for Environment and Sustainability**

The clear-cutting of Michigan's densely forested wilderness was well under way when the University of Michigan began offering courses in forestry in 1881—the first university in the United States to do so. The year 1903 saw the creation of a Department of Forestry, forerunner of today's School for Environment and Sustainability (SEAS). The school's students and faculty organized the famous 1970 Teach-In on the Environment (the prototype of Earth Day), and incubated the scholarly disciplines of Environmental Justice, Environmental Education, and Environmental Informatics. From its inception as a forestry school to the interdisciplinary institution it is today, SEAS has always prepared leaders to understand and solve the major environmental challenges of the era.

## **School of Music, Theatre & Dance**

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and State of Michigan through public performances, cultural resources, arts education, and outreach programs.

## **School of Nursing**

The University of Michigan School of Nursing (UMSN) is an international leader in the advancement of nursing knowledge and strategies to improve health care. In addition to the four-year BSN program and the second career in nursing program, UMSN has a robust offering of graduate programs. Students are prepared to be leaders in advanced clinical practice through our M.S.N. and post-baccalaureate Doctorate of Nursing Practice (DNP) programs. Students can also lead and effect change through the M.S.N. or post-masters DNP programs in systems, populations, and leadership. UMSN's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

## **School of Public Health**

Founded in 1941 and ranked among the country's top public health schools, the University of Michigan School of Public Health educates more than 1,000 graduate and undergraduate students each year. With over 170 faculty and researchers across six departments and numerous collaborative centers and institutes, the school brings interdisciplinary, innovative solutions to complex health challenges, including chronic and infectious diseases, obesity and food insecurity, health care quality and cost, climate change and environmental factors, and socioeconomic inequalities and their impact on health. Compassion, innovation, and inclusion drive the faculty, staff, students, and 15,000 alumni of Michigan Public Health to pursue positive change and lasting impact on the health of the world.

## **School of Social Work**

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

## **School of Information**

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

**Penny W. Stamps  
School of Art & Design**

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

**School of Kinesiology**

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

**Gerald R. Ford School  
of Public Policy**

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

## **CANDIDATES FOR DEGREES AND CERTIFICATES**

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. A candidate is listed alphabetically by degree, and in some cases also by field of specialization, under the school or college that awards the degree. In this book, candidates are presented in the order of which their respective schools or colleges were founded.

The Executive Board of the Horace H. Rackham School of Graduate Studies awards doctoral, master's, and some graduate professional degrees (e.g., master of public policy, master of urban planning), although most graduate professional degrees, such as doctor of medicine, master of social work, etc., are awarded by the respective schools or colleges. The Graduate School does not offer course work, and advanced studies are conducted within the school or college of a candidate's area of specialization.

This book presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

# HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Michael J. Solomon, Dean and Vice Provost for Academic Affairs–Graduate Studies

## Doctor of Musical Arts

- Giovani Estéfano Briguente**, Field of Specialization: Conducting (Band). Dissertation: Three Recitals of Repertoire for Wind Ensembles.
- Sunmi Chang**, Field of Specialization: Music Performance. Dissertation: Exploring Various Violin Repertoire from Eastern and Western European Countries.
- Brendan O. Ige**, Field of Specialization: Music Performance. Dissertation: The Tuba: Contrabass, Bass and Tenor.
- Shohei Kobayashi**, Field of Specialization: Conducting (Choral). Dissertation: Summary of Dissertation Recitals: Three Programs of Choral Music.
- Rose Mannino**, Field of Specialization: Music Performance. Dissertation: Summary of Dissertation Recitals: Notes on Three Performances.
- Amanda Nicole Ross**, Field of Specialization: Music Performance. Dissertation: Summary of Dissertation Recitals.
- Leo Robert Singer**, Field of Specialization: Music Performance. Dissertation: Summary of Three Dissertation Recitals.
- Emily Marie Solomon**, Field of Specialization: Music Performance. Dissertation: Select Tunes from the Evangelical Lutheran Hymn-Book: Origins and Outcomes.
- Bernard Yong Boon Tan**, Field of Specialization: Music Performance. Dissertation: Three Programs of Collaborative Piano Recitals: Schubert's Winterreise, The Palette of France, and a Lecture-Recital on the Phonetics of Singing in Mandarin Chinese, with Some Associated Repertoire.
- Rotem Weinberg**, Field of Specialization: Conducting (Orchestral). Dissertation: Orchestral Conducting Dissertation.
- Jung Yoon Wie**, Field of Specialization: Music Composition. Dissertation: Han: Otherness and Syncretism.

## Doctor of Philosophy

- Kumar Aanjaneya**, Field of Specialization: Mechanical Engineering. Dissertation: Facilitation of Homogeneous Combustion with Oxygen Enrichment for High-Temperature Industrial Furnaces.
- Saurabh Acharya**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Fundamental and Applied Electrochemistry for Photonic Applications.
- Caroline Elizabeth Adams**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Integrating Network and Intrinsic Changes in GnRH Neuron Control of Ovulation.
- Misiker Tadesse Aga**, Field of Specialization: Computer Science and Engineering. Dissertation: Thwarting Advanced Code-reuse Attacks.
- Mayank Agrawal**, Field of Specialization: Chemical Engineering. Dissertation: Colloidal Robotics: Programming Structure and Function in Colloidal-Scale Material Through Emergence, Design and Logic.
- Luqman Hakim Bin Ahmad Mahir**, Field of Specialization: Chemical Engineering. Dissertation: Modeling Paraffin Wax Deposition from Flowing Oil onto Cold Surfaces.
- Taeyong Ahn**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Understanding Nanoscale Hierarchical Nature of Pore and Chemical Heterogeneity in Bone as a Function of Tissue Ages.
- Wei Ai**, Field of Specialization: Information. Dissertation: Promoting Pro-Social Behavior with End-to-End Data Science.
- Mojtaba Akhavan-Tafti**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Evolution of Flux Transfer Events at the Magnetopause: MMS Observations and Global Hybrid-Vlasov Simulations.
- Yanaira Alonso Caraballo**, Field of Specialization: Neuroscience. Dissertation: Investigating The Neural Mechanisms of Motivational Responses to Food Cues in Female Rats.
- Fahad Mohammed M. Alzahrani**, Field of Specialization: Mechanical Engineering. Dissertation: Theoretical and Experimental Study of Fuel Injector Tip Wetting as a Source of Particulate Emissions in Gasoline Direct-Injection Engines.
- Malcolm Lee Ammons**, Field of Specialization: Civil Engineering. Dissertation: Enhancing Steel Hollow Structural Sections and Braced Frame Performance through Non-Traditional Civil Engineering Materials.
- Shannon Jia Wei Ang**, Field of Specialization: Sociology. Dissertation: Three Papers on Social Participation over the Life Course.
- Kevin A. Angstadt**, Field of Specialization: Computer Science and Engineering. Dissertation: Improving Programming Support for Hardware Accelerators Through Automata Processing Abstractions.
- Talha Anwar**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Regulation of EZH2 in Triple-Negative Breast Cancer.
- Natalie E. Arvin**, Field of Specialization: Chemistry. Dissertation: Microfluidic Western Blotting with Increased Sample Loadability and Fast Immunoassay.
- Samuel Olusola Ayinde**, Field of Specialization: Mechanical Engineering. Dissertation: Manufacturability-Driven Multi-Component Topology Optimization Of Thin-Walled Structures Based On A Level Set Method.
- Catherine Ayuso**, Field of Specialization: Applied Physics. Dissertation: Nuclear Modification of J/psi and Drell-Yan Production at the E906/SeaQuest Experiment.

### Doctor of Philosophy

- Abigail R. Azari**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: A Data-Driven Understanding of Plasma Transport in Saturn's Magnetic Environment.
- Christopher James Baik**, Field of Specialization: Computer Science and Engineering. Dissertation: Maximizing User Domain Expertise to Clarify Oblique Specifications of Relational Queries.
- Summer Anika Baker Dockrey**, Field of Specialization: Chemistry. Dissertation: Biocatalytic Oxidative Dearomatization and Applications in Chemoenzymatic Total Synthesis.
- Josefina Bañales**, Field of Specialization: Psychology. Dissertation: Adolescent Critical Racial Consciousness.
- Sumit Bandekar**, Field of Specialization: Medicinal Chemistry. Dissertation: Structure, Function, and Inhibition of the Oncogenic RhoGEF Trio.
- Aaron Gerald Bart**, Field of Specialization: Biophysics. Dissertation: Human Cytochrome P450 Enzymes in Drug Metabolism and Chemical Activation.
- John Bell**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Generalized Noise Shaping in Delta Sigma Modulators.
- Lazarus Belle**, Field of Specialization: English Language and Literature. Dissertation: Justified: The Pragmaticization of American Evangelicalism from Jonathan Edwards to the Social Gospel.
- William Michael Bentz**, Field of Specialization: Aerospace Engineering. Dissertation: Dynamic Coverage Control and Estimation in Collaborative Networks of Human-Aerial/Space Co-Robots.
- Tova Berg**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Development of GABA Inputs to Gonadotropin-Releasing Hormone (GnRH) Neurons and Effects of Prenatal Androgen Exposure.
- Armando Bernal**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Pricing in Network Revenue Management Systems with Reusable Resources.
- Wesley Alan Bickford**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Plant Invasions and Microbes: The Interactive Effects of Plant-Associated Microbes on Invasiveness of *Phragmites australis*.
- Ariel Joseph Binder**, Field of Specialization: Economics. Dissertation: Essays on Marriage and Labor Markets.
- Alexandra Ann Bouza**, Field of Specialization: Pharmacology. Dissertation: Voltage-Gated Sodium Channel  $\beta 1$  Subunit Processing by BACE1 and  $\gamma$ -Secretase: Regulatory Mechanisms and Downstream Signaling.
- Sheila T. Brassel**, Field of Specialization: Psychology. Dissertation: It's Not Just "Bad Apples" - It's Also About the Barrel: Critically Analyzing Organizational and Social Factors in Sexual Harassment Rates and Outcomes.
- Avi Bregman**, Field of Specialization: Materials Science and Engineering. Dissertation: Morphology Control of Polymer Composites for Enhanced Microwave Absorption.
- Peter Lawrence Brown**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Sparse Approximation Accelerators with Spiking Neural-Networks.
- Giacomo Brusco**, Field of Specialization: Economics. Dissertation: Three Essays in the Public Economics of Perception and Belief.
- Breane Gerette Budaitis**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Structural and Mechanical Elements Important for Kinesin Force Generation in Cells.
- Geoffrey T. Burns**, Field of Specialization: Kinesiology. Dissertation: Runners as Biomechanical Systems: New Approaches with the Spring-Mass Model.
- Geunyeong Byeon**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Large-Scale Optimization for Interdependent Infrastructure Systems.
- Ian Christopher Calloway**, Field of Specialization: Linguistics. Dissertation: Perceptual Asymmetry and Sound Change: An Articulatory, Acoustic/Perceptual, and Computational Analysis.
- Lindsey Denise Cameron**, Field of Specialization: Business Administration. Dissertation: The Rise of Algorithmic Work: Implications for Organizational Control and Worker Autonomy.
- Andi Cani**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Precision Medicine Approaches to Hormone-Driven Cancer.
- Amos Alexander Cao**, Field of Specialization: Biomedical Engineering. Dissertation: Methods for Physiological Artifact Correction in Oscillating Steady State Imaging.
- Jim Carter**, Field of Specialization: Romance Languages and Literatures Italian. Dissertation: Communities of Labor: Adriano Olivetti and the Humanization of Industrial Society.
- Todd Chan**, Field of Specialization: Psychology. Dissertation: Modesty or Secrecy? The Costs of Being Modest in Close Relationships.
- Benjamin C. Chandler**, Field of Specialization: Cancer Biology. Dissertation: Multi-omics Characterization of the Breast Cancer Radiation Response Identifies Apoptosis and Cell Cycle Proteins as Mediators of Radiation Resistance.
- Ruian Chen**, Field of Specialization: Mathematics. Dissertation: E -Rings and Modules in Kan Spectral Sheaves.
- Yi-Hsuan Chen**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Influences of Surface Spectral Emissivity and Cloud Longwave Scattering on Climate Simulations.
- Frank Cheng**, Field of Specialization: Computer Science and Engineering. Dissertation: Agent-Based Models for Analyzing Strategic Adaptations to Government Regulation.
- Sahil Chhabra**, Field of Specialization: Chemistry and Scientific Computing. Dissertation: Using Machine Learning to Better Predict the Structure of RNA and RNA Containing Complexes.

- Vaness Olivia Cox**, Field of Specialization: Psychology. Dissertation: Black Women in Contemporary Media: Representations, Effects, and Social Commentary.
- Sarah Joelle Cox-Vazquez**, Field of Specialization: Chemistry. Dissertation: Biophysical Characterization of Amyloid Disease-Related Peptides Using Small Molecule Tools.
- Yuchi Cui**, Field of Specialization: Materials Science and Engineering. Dissertation: Design of Metallic Nanocomposites for High-Strength, Plasticity and Fracture Resistance.
- Ethan Thomas Dale**, Field of Specialization: Aerospace Engineering. Dissertation: Investigation of the Hall Thruster Breathing Mode.
- Amanda Kay Davis**, Field of Specialization: Pharmacology. Dissertation: Pharmacology of Hsp70 Activation.
- James Ronald Day**, Field of Specialization: Biomedical Engineering. Dissertation: Engineering an Immuno-Isolating Hydrogel-Based Capsule to Restore Ovarian Endocrine Function.
- Martin Patrick de Beer**, Field of Specialization: Chemical Engineering. Dissertation: Advances in Additive Manufacturing and Microfabrication.
- Pieter De Vlieger**, Field of Specialization: Economics. Dissertation: Essays on Personnel and Health Economics.
- Davide Del Gaudio**, Field of Specialization: Materials Science and Engineering. Dissertation: Morphological Design of Semiconductors During Molecular-Beam Epitaxy and Pulsed-Laser Deposition.
- Benjamin K. Derby**, Field of Specialization: Materials Science and Engineering. Dissertation: Engineering Bicontinuous Interfaces for Enhanced Mechanical Performance.
- Veronica Scot Derricks**, Field of Specialization: Psychology. Dissertation: Too Close for Comfort: Resisting Relevance as a Lever for Persuasion.
- Jan Kenneth DeWitt**, Field of Specialization: Greek and Roman History. Dissertation: Money, Games, and Power: Rome's Lower Magistrates and the Development of a City.
- Ning Ding**, Field of Specialization: Epidemiological Science. Dissertation: Perfluoroalkyl and Polyfluoroalkyl Substances and Women's Health: A Possible Etiology for Earlier Menopause and Accelerated Reproductive Aging.
- Sabra Djomehri**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Quantitative Proteomic and Mutational Landscape of Metaplastic Breast Carcinoma and Generation of a 3D Organoid Model of Neoplastic Progression.
- Ricardo D'Oliveira Albanus**, Field of Specialization: Bioinformatics. Dissertation: Computational Methods to Dissect Tissue-Specific Landscapes of Transcription Factor and DNA Interactions.
- Xin Dong**, Field of Specialization: Mechanical Engineering. Dissertation: Mechatronics Methods for Mitigating Undesirable Effects of Pre-motion Friction in Nanopositioning Stages with Mechanical Bearings.
- Xiaojing Du**, Field of Specialization: Earth and Environmental Sciences. Dissertation: A High-Resolution Reconstruction of Southern California Hydroclimate During the Holocene: Interannual Precipitation Variability Response to Climate Forcing.
- Kathleen Marie Feeney Easley**, Field of Specialization: Educational Studies. Dissertation: Simulations and Sensemaking in Elementary Project-Based Science.
- Brittany Corinne Essink**, Field of Specialization: Aerospace Engineering. Dissertation: Design and Implementation of Mechanical Metamaterials.
- Dejiu Fan**, Field of Specialization: Electrical Engineering. Dissertation: Enabling High Performance III-V Thin-Film Photodetectors on Unconventional Surfaces.
- Maria Fawaz**, Field of Specialization: Medicinal Chemistry. Dissertation: Apolipoprotein A-I Mimetics for the Treatment of Niemann-Pick Disease.
- Michael Walter Fisher**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Stability of Nonlinear Systems with Parameter Uncertainty.
- Andrew Powell Fitzgerald**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Parallel 3-D Method of Characteristics with Linear Source and Advanced Transverse Integration.
- Izzy Gainsburg**, Field of Specialization: Psychology. Dissertation: Safe Here, but Unsafe There? Institutional Signals of Identity Safety Also Signal Prejudice Elsewhere.

Dear Graduate:

On behalf of the Alumni Association of the University of Michigan, congratulations on your momentous achievement.

You have faced unique challenges during this unprecedented time, but that doesn't diminish the goal you have realized after years of hard work. You have earned a place among the 620,000-plus Leaders and Best in 180 countries across the globe.

As a graduation gift, we give you a complimentary one-year membership to help you maintain a strong, meaningful connection back to the University and alumni for years to come. Visit [alumni.umich.edu](http://alumni.umich.edu) to keep the spirit of U-M close and connect to the powerful global network of U-M alumni.

On behalf of the entire U-M family, we extend our congratulations on a job well done at Michigan. And welcome to the Wolverine family!

Sincerely,

Bob Stefanski, MSE'86, JD'89  
Chair of the Board of Directors  
Alumni Association of the  
University of Michigan

Steve Grafton
