Cisco Unified Communications 300 Series

Productivity for small business, profitability for you.

Easy to Sell.

The Cisco® Unified Communications 300 (UC300) Series, Model UC320W, provides business-class communications for your customers in an affordable all-in-one solution. This is a competitively priced, easy-to-sell, unified communications solution designed for businesses with fewer than 24 employees.
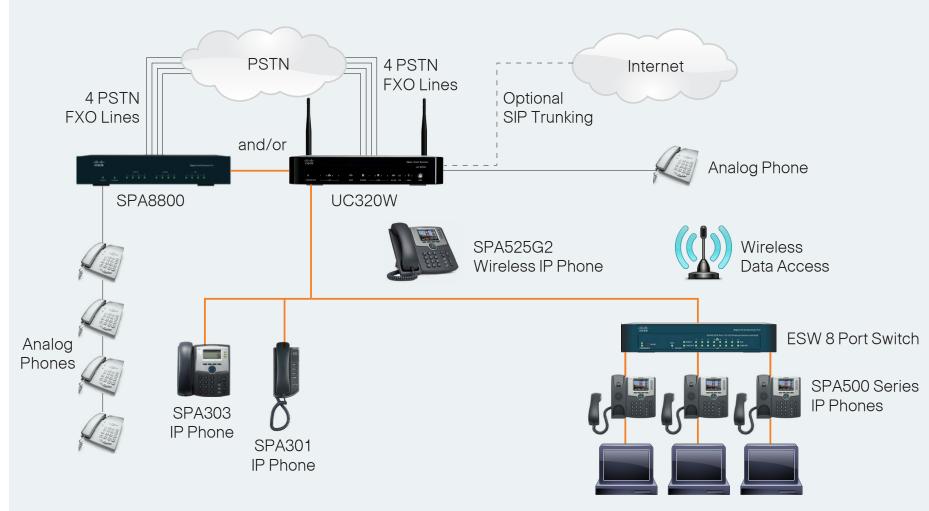

Easy to Install.

The UC300 is easy to install and manage, giving your customers the advantages of a fully integrated solution without the complexity of enterprise-class unified communications.

Easy to Use.

Designed for the needs of small business, the UC300 Series expands small business connectivity and improves team collaboration through unified voice, data, and wireless. Now employees, customers, and vendors can connect and collaborate on a reliable, secure network.

Customer response, employee collaboration, and secure communications are a few of the reasons customers want an all-in-one voice and data solution.
