# G19

## An arsenal of advanced gaming technology

- **Colour GamePanel™ LCD**
- **User-selectable character backlighting colour**
- **Twelve programmable G-keys with three macros per key**
- **Two high-speed, powered USB 2.0 ports**
- **Multi-key input**

Giving you an arsenal of advanced gaming technology, the Logitech® G19 keyboard for gaming features a colour GamePanel™ LCD to display game stats, VOIP communication data and many other items. Other features include user-selectable character backlighting colour that lets you personalise the keyboard to better fit with your computer and gaming equipment; 12 fully programmable G-keys with three macros per key, to provide space to program 36 single keypresses or complex macros; and two high-speed, powered USB 2.0 ports to transfer data to and from peripherals – like MP3 players and flash drives – while providing power to charge battery-powered devices. Plus, multi-key input allows you to use up to five keys at once to perform multiple complex actions.
