*Antimicrobial product protection: Gel-filled wrist rests with antimicrobial protection inhibits the growth of microorganisms, such as bacteria, on the product surface, that can cause stains, odors and product degradation.

†Battery Saving Mousepad Designs Products identified by this symbol feature 3M™ Precise™ Optical Mousing Surfaces with battery saving designs which extend the battery life of wireless optical mice up to 75%. Our lab testing has shown that these surfaces draw less current and thus offer 75% more battery life. The lab tests were done using mice from the leading manufacturers in the marketplace (Microsoft and Logitech) in conjunction with batteries from the leading battery manufacturers in the US (Energizer, Duracell and Rayovac). Our battery saving mousing surfaces feature the 3M micro-textured technology used to make 3M™ Precise™ Optical Mousing Surfaces.

Choose the 3M™ Keyboard Tray that's right for you in 2 easy steps:

1 Select the arm type and track length

- Corner workstations require a long track – 21.75-23"
- Regular shallow workstations (18-22" under-desk depth) require a short track – 17-17.75"
- Regular deep workstations (23" + under-desk depth) can accept short or long-tracked keyboard trays

Sit/Stand Easy Adjust Arm

Easy to adjust, raises up to 10" above mounting surface for sitting or standing posture for optimal ergonomic benefit.

23" Track
Fits Corners

Easy Adjust Arm

Easy to adjust – just tilt platform, adjust, then release to lock in height. Tilt is adjusted by dialing tilt knob to desired angle. Includes height and tilt read-outs.

2 Select the platform type

KP200LE Highly Adjustable Platform

Sturdy platform has left/right lateral adjustment for getting the keyboard exactly where you want it. Articulating mousing platform adjusts up, down, left, right, forward and back, and tilts forward and back, too.

KP100LE Standard Platform

Standard all-in-one platform with wooden construction minimizes bouncing. Mousing surface can be placed left or right.

Workstation Guidelines

For Optimal Personal Comfort

Use these guidelines to set up your workspace to ensure good ergonomic posture and to attain optimal personal comfort.

Recommended Positioning

To avoid eyestrain, position your monitor within a comfortable viewing distance, at or below eye level, and within your 60° viewing field.

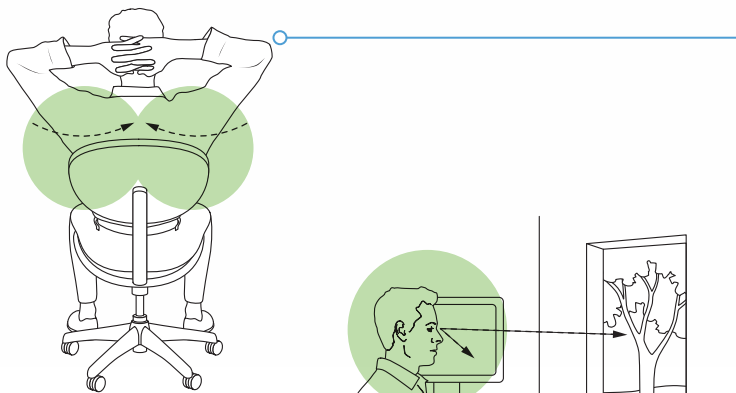

Position source documents in line with your screen, and no more than 35° to either side, to avoid excessive turning or bending of your neck.

Place input devices within the recommended area to avoid strain on your wrists, arms and hands.

Exercises

To Promote Ergonomic Comfort

Executive Stretch - for upper back, chest and shoulders
Sit upright in your chair. Clasp your hands behind your head, keeping your elbows in line with your ears. Press your elbows back as far as possible, squeezing your shoulder blades together. Relax, then repeat 3 times.

Focusing Technique - for eye relaxation
Focus on an object at least 20' away or as far from your work area as possible, then move your eyes around and look at other objects. Look back at your computer screen. Repeat throughout the work day.

Neck Glide - for neck
Sit comfortably upright and look straight ahead. Keeping your head and ears level, glide your head back as far as it will go. Now glide your head forward. Repeat 3 times.

Arm Massage - for forearms
Sit at a desk or table. Place your arm in front of you with your hand palm-down. Use your thumb to press firmly on your opposite arm, moving it slowly from your wrist to elbow and back down. Repeat 3 times.

Reverse the Curve - for back and hips
Stand with your feet slightly apart. Place your palms in the curve of your lower back. Keep your chin down and focus on an object in front of you. Bend backward, supporting your lower back with your hands. Don't lock your knees. Hold for 5 to 10 seconds. Repeat 3 to 5 times.

Leg Extension - for legs and lower back
Sit in a chair and straighten one leg directly in front of you. Flex your foot by pointing your toes toward the ceiling. Flex hard for 5 seconds, then release. Repeat 3 to 5 times. Return foot to floor and switch legs.

There are many possible causes for physical discomfort. If you are experiencing symptoms that persist for more than two weeks or are severe enough to interfere with your job or personal activities, consider seeking medical assistance.
